Re: Score Transfer

Florida does accept score transfers into the State for the NAPLEX. You may request a score transfer at the time you apply to take the NAPLEX in another state through NABP. The request for a score transfer must be done prior to taking the exam. NABP will send your score to the Florida Board. Scores are maintained for 3 years.

If you apply for licensure in Florida within 3 years of the date of the examination and you requested your score to be transferred to Florida, please indicate the date on the application. If you do not apply for licensure in Florida within the 3 year period, you can not use the score transfer method. You will have to apply for licensure by endorsement in order to use your NAPLEX score in Florida. If you do not meet the endorsement criteria in its entirety you will have to retake the NAPLEX in order to become licensed in Florida. Please review the examination and endorsement application on the website at www.doh.state.fl.us/mqa/pharmacy for instructions on applying by either method.

For more information on the score transfer process please visit www.NABP.net
