Firm Name: Crestview Hospital Corporation
Doing business as (d/b/a): North Okaloosa Medical Center
Address: 151 Redstone Ave SE, Crestview, FL 32539
Telephone number: (850) 689-8116 FAX number (850) 689-8415

Reference:
Chapter 64B16-28 General Requirements - Permits
Specifically: 64B16-28.602 Institutional Class II Dispensing

We are an acute care hospital with an "Institutional Class 2" license (PH13903), and a "Special Sterile Compounding Permit – (PH27483). [We have NO additional "Community Pharmacy" or "Modified" licenses]

Our question is whether or not our current licensing allows for post-surgical patients to be discharged to home while receiving an ongoing (2-3 day duration) infusion of non CS medication via elastomeric (single dose) pump device.

The infusion would be started in the OR immediately after surgery. The dose would infuse during the remainder of the patient's stay, and continue for up to 3 days after the patient's discharge. Follow-up care would be provided by the hospital's medical staff.

Please also include in your determination any differences in dispensing requirements, between a pump that delivers the medication infusion at a constant (fixed) rate, versus one that allows 'infusion rate adjustments' by the patient.

Sincerely,

John Bruce Williams, RPH | Director of Pharmacy | Office: (850) 689-8116

DATE JUN 19 2014

STATE OF FLORIDA
BOARD OF PHARMACY

RECEIVED

IN RE: PETITION OF DECLARATORY
STATEMENT BEFORE THE FLORIDA
BOARD OF PHARMACY ON BEHALF
OF PALM SPRINGS GENERAL HOSPITAL

JUN 19 2014

Florida Board of Pharmacy

Petitioner, Palm Springs General Hospital, by its undersigned counsel, pursuant to Section 120.565, of the Florida Statutes and Rule 28-105.002, of the Florida Administrative Code petitions the Florida Board of Pharmacy (hereafter referred to as the "Board") for a Declaratory Statement regarding a determination on whether Containment Technologies Group, Inc. ("CTG"), MIC Dual Chamber Unit was not 797 USP compliant due to turbulent air previously installed by Palm Springs General Hospital. The particular set of circumstances pertaining to this petition are as follows:

1. A primary address for the Petitioner, Palm Springs General Hospital, is 1475 West 49th Street, Hialeah, FL 33012-3275. For purposes of notifications regarding this proceeding, the Petitioner's address and phone number shall be that of undersigned counsel.
2. Petitioner, Palm Springs General Hospital, owns and operates a pharmacy located at the subject facility. More specifically, the pharmacy is located at 1475 West 49th Street, Hialeah, FL 33012.
3. On or about the 20th day of June, 2013, the Department of Health initiated an administrative complaint citing various deficiencies, arising out of the subject pharmacy.

4. Shortly thereafter, a settlement agreement was entered into between the parties on or about the 3rd day of July, 2013, and said Settlement Agreement was approved by way of Final Order on the 23rd day of December 2013. See Final Order Approving Settlement, Settlement Agreement and Administrative Complaint attached hereto as Composite Exhibit A.
5. During the course of the above referenced process, Palm Springs General Hospital, contracted to purchase and MIC Dual Chamber Unit Model No. A2500S for use in its pharmacy.
6. During the course of the above referenced, as senior pharmacist investigator from the Department of Health confirmed that said equipment was not 797 UPS compliant due to turbulent air after a careful review of technical support and video provided by the technical department for Containment Technologies Group.
7. Our intentions were to obtain an MIC Isolator that was 100% compliant with the newest USP 797 standard to perfect on or about June 1, 2008.
8. Palm Springs General Hospital is currently compliant with all applicable pharmacy laws and rules given the Final Order Approving Settlement Agreement of this past December 4th, 2013; however, would seek a declaratory action consistent with the Settlement agreement that the aforementioned unit was not 100% compliant with the newest USP 797 standards.
9. Palm Springs General Hospital is substantially affected by the issue presented in this Declaratory Statement as the purchase of non-compliant equipment caused it to incur unnecessary expenses during the course of complying with the requirement set for by the Department of Health. Moreover, Palm Springs

General Hospital has a substantial interest in making and providing appropriate medicinal care to its patients to further its role of providing high quality healthcare to its patients as well as insuring that any investment in similar equipment at issue be deemed compliant with applicable rules and regulations.

WHEREFORE, Petitioner, Palm Springs General Hospital, respectfully request that Board of Pharmacy grant its Petition for Declaratory Statement, and/or find that the system previously inspected -- specifically, the MIC Dual Chamber Unit purchase from and installed by Containment Technologies Group, Inc. -- was not compliant with the latest 797 USP.

Respectfully submitted, this 9th day of April, 2014.

DEPARTMENT OF HEALTH,

PETITIONER,

v.

CASE NO. 2013-04842

PALM SPRINGS GENERAL HOSPITAL,

RESPONDENT.

SETTLEMENT AGREEMENT

Pursuant to Section 120.57(4), Florida Statutes, the parties offer this Settlement Agreement to the Board of Pharmacy (Board) as disposition of the Administrative Complaint, attached as Exhibit A, in lieu of further administrative proceedings.

STIPULATED FACTS

1. At all times material to this matter, Palm Springs General Hospital, was a licensed pharmacy in the state of Florida, having been issued license number PH 2235. Respondent's mailing address of record is 1475 West 49th Street, Hialeah, Florida 33012-3275.

2. Respondent was charged by an Administrative Complaint, filed by the Department of Health (Department) and properly served upon Respondent, with violations of Chapters 456 and 465, Florida Statutes.

STIPULATED LAW

1. Respondent admits that it is subject to the provisions of Chapters 456 and 465, Florida Statutes, and the jurisdiction of the Department.

2. Respondent admits that the allegations in the Administrative Complaint, if proven true, constitute violations of law and cause the Respondent to be subject to discipline by the Board of Pharmacy.

PROPOSED DISPOSITION

1. Appearance Respondent shall be present when this Settlement Agreement is presented to the Board and under oath shall answer all questions asked by the Board concerning this case and its disposition.

2. Fine The Board of Pharmacy shall impose an administrative fine of **TWO THOUSAND DOLLARS (\$2,000)**. The fine shall be paid by Respondent to the **Department of Health, Compliance Management Unit, Bin C76, Post Office Box 6320, Tallahassee, Florida 32314-**

6320, within 90 days from the date the Final Order approving and incorporating this Settlement Agreement (Final Order) is filed with the Department Clerk.

3. **Costs**- The Board of Pharmacy shall impose the total, administrative costs associated with the investigation and prosecution of this matter in an amount not to exceed **TWO THOUSAND DOLLARS (\$2,000)**. Total costs shall be assessed when the Settlement Agreement is presented to the Board. The costs shall be paid by Respondent to the **Department of Health, Compliance Management Unit, Bin C76, Post Office Box 6320, Tallahassee, Florida 32314-6320**, within 90 days from the date the Final Order is filed with the Department Clerk.

4. **Correction of Alleged Deficiencies** - At its sole expense, but without admitting any specific deficiency or violation, Respondent shall immediately, or at least forthwith, correct and address all deficiencies and violations listed or alleged in the Administrative Complaint, to the extent necessary to comply with Florida law.

5. **Future Conduct** - Respondent shall not violate Chapter 456, 465, 499, or 893, Florida Statutes; the rules promulgated pursuant thereto;

or any other state or federal law, rule, or regulation relating to the practice or to the ability to practice pharmacy.

6. **Violation of Terms** - It is expressly understood that a violation of the provisions of this Settlement Agreement as approved and incorporated into the Final Order of the Board of Pharmacy shall constitute a violation of an order of the Board for which disciplinary action may be initiated against Respondent pursuant to Chapter 465, Florida Statutes.

7. **No Force or Effect until Final Order** - It is expressly understood that this Settlement Agreement is subject to approval by the Board and has no force or effect until the Board incorporates the terms of this Settlement Agreement into its Final Order.

8. **Purpose of Agreement** - This Settlement Agreement is executed by Respondent for the purpose of avoiding further administrative action with respect to this particular case. In this regard, Respondent authorizes the Board to review and examine all investigative file materials concerning Respondent prior to, or in conjunction with, consideration of the Settlement Agreement. Petitioner and Respondent agree to support this Settlement Agreement at the time it is presented to the Board and shall offer no evidence, testimony, or argument that disputes or

contravenes any stipulated fact or conclusion of law. Furthermore, should this Settlement Agreement not be accepted by the Board, it is agreed that the presentation and consideration of this Settlement Agreement and other documents and matters by the Board shall not unfairly or illegally prejudice the Board or any of its members from further participation, consideration, or resolution of these proceedings.

9. **Not Preclude Additional Proceedings** - Respondent and the Department fully understand that this Settlement Agreement as approved and incorporated into the Final Order will not preclude additional proceedings by the Board or Department against Respondent for acts or omissions not specifically set forth in the Administrative Complaint.

10. **Waiver of Attorney's Fees and Costs** - Respondent waives the right to seek any attorney's fees and costs from the Department in connection with this disciplinary proceeding.

11. **Waiver of Procedural Rights** - Respondent waives all rights to further administrative procedure and to appeal and further review of this Settlement Agreement and the Final Order.

12. **Current Addresses** - Respondent shall keep current his mailing address and his practice address with the Board of Pharmacy and

the Compliance Officer and shall notify the Board of Pharmacy and the Compliance Officer of any change of mailing address or practice address within 10 days of the change.

13. **Time of the Essence** - Time is of the essence in all respects concerning this agreement.

CASE NO. 2013-04842

PALM SPRINGS GENERAL HOSPITAL,

RESPONDENT.

ADMINISTRATIVE COMPLAINT

COMES NOW, Petitioner, Department of Health, by and through its undersigned counsel, and files this Administrative Complaint before the Board of Pharmacy against Respondent, Palm Springs General Hospital, and in support thereof alleges:

1. Petitioner is the state department charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 465, Florida Statutes.

2. At all times material to this Complaint, Respondent was a permitted institutional class II pharmacy within the state of Florida, having been issued permit number PH 2235.

EXHIBIT

A

3. Respondent's address of record is 1475 West 49th Street, Hialeah, Florida 33012-3275.

4. At all times material to this Administrative Complaint, Respondent performed compounding sterile preparations (CSP) of low and medium risk.

5. On or about March 19, 2013, a Department inspector conducted an inspection of Respondent at 1475 West 49th Street, Hialeah, Florida 33012-3275, and observed one or more of the following deficiencies:

- a. Respondent pharmacy did not contain an Anteroom area maintained within ISO Class 8 level of particulate contamination;
- b. The Buffer Area (clean room) contained a sink and was not maintained within ISO Class 7 level of particulate contamination; and/or
- c. Laminar Airflow Workbench and Biological Safety Cabinet were not maintained to at least class 100 conditions.

COUNT I

6. Petitioner realleges and incorporates paragraphs one (1) through five (5) as if fully set forth herein.

7. Section 456.072(1)(k), Florida Statutes (2012), provides that failing to perform any statutory or legal obligation placed upon a licensee constitutes grounds for disciplinary action.

8. Rule 64B16-27.797(1)(a), Florida Administrative Code, provides that "anteroom" means an area where personnel perform hand hygiene and garbing procedures, staging of components, order entry, CSP labeling, and other high-particulate generating activities. It is also a transition area that provides assurance that pressure relationships are constantly maintained so that air flows from clean to dirty areas. The Anteroom area is to be maintained within ISO Class 8 level of particulate contamination.

9. On or about March 19, 2013, Respondent's compounding area did not contain an Anteroom area maintained within ISO Class 8 level of particulate contamination.

10. Based on the foregoing, Respondent has violated Section 456.072(1)(k), Florida Statutes (2012), by violating Rule 64B16-27.797(1)(a), Florida Administrative Code, which requires an Anteroom

area to be maintained within ISO Class 8 level of particulate contamination.

COUNT II

11. Petitioner realleges and incorporates paragraphs one (1) through five (5) as if fully set forth herein.

12. Section 456.072(1)(k), Florida Statutes (2012), provides that failing to perform any statutory or legal obligation placed upon a licensee constitutes grounds for disciplinary action.

13. Rule 64B16-27.797(1)(f), Florida Administrative Code, provides that a "buffer area" (clean room) is an area where the activities of CSP take place; it shall not contain sinks or drains. In High-Risk compounding this must be a separate room. The Buffer area is to be maintained within ISO Class 7 level of particulate contamination.

14. On or about March 19, 2013, Respondent's buffer area contained a sink and was not maintained within ISO Class 7 level of particulate contamination.

15. Based on the foregoing, Respondent has violated Section 456.072(1)(k), Florida Statutes (2012), by violating a rule of the Board of Pharmacy, through a violation of Rule 64B16-27.797(1)(f), Florida

Administrative Code, which requires the buffer area to be maintained within ISO Class 7 level of particulate contamination and not contain a sink or drain.

COUNT III

16. Petitioner realleges and incorporates paragraphs one (1) through five (5) as if fully set forth herein.

17. Section 456.072(1)(k), Florida Statutes (2012), provides that failing to perform any statutory or legal obligation placed upon a licensee constitutes grounds for disciplinary action.

18. Rule 64B16-27.797(5)(b)1., Florida Administrative Code, provides that the pharmacy compounding parenteral and sterile preparation shall have appropriate environmental control devices capable of maintaining at least class 100 conditions in the work place where critical objects are exposed and critical activities are performed; furthermore, these devices must be capable of maintaining class 100 conditions during normal activity. Examples of appropriate devices include laminar airflow hoods and zonal laminar flow of high efficiency particulate air (HEPA) filtered air.

19. On or about March 19, 2013, Respondent did not maintain its Laminar Airflow Workbench and Biological Safety Cabinet to at least class 100 conditions.

21. Based on the foregoing, Respondent has violated Section 456.072(1)(k), Florida Statutes (2012), by violating 64B16-27.797(5)(b)1., Florida Administrative Code, which requires that the pharmacy compounding parenteral and sterile preparation shall have appropriate environmental control devices capable of maintaining at least class 100 conditions in the work place where critical objects are exposed and critical activities are performed.

WHEREFORE, Petitioner respectfully requests that the Board of Pharmacy enter an order imposing one or more of the following penalties: permanent revocation or suspension of Respondent's license, restriction of practice, imposition of an administrative fine, issuance of a reprimand, placement of Respondent on probation, corrective action, refund of fees billed or collected, remedial education and/or any other relief that the Board deems appropriate.

REPORTS

A. Chair’s Report – Jeffrey J. Mesaros, PharmD, Chair

Dr. Mesaros welcomed new Executive Director Patrick Kennedy to the Board of Pharmacy.

Dr. Mesaros then gave a brief report of the proceedings from the 110th Annual NABP Meeting in Phoenix, AZ.

Dr. Mesaros informed the audience that the Board will be hosting a conference call in July with the purpose of discussing House Bill 323. Dr. Mesaros then requested that any parties interested in participating in the call as an industry or community advisor submit a letter or email of interest to Board staff.

B. Executive Director’s Report – Patrick Kenned, MA

1. Legislative Update – Patrick Kennedy, MA

Mr. Kennedy presented the legislative update that included the passage of both House Bill 323 and House Bill 7077. Mr. Kennedy informed the Board and the audience that the bills have been presented to the Governor and are awaiting his signature.

Mr. Kennedy then informed the Board and audience that Senate Bill 1030 specifically exempts the dispensing of medical marijuana from Chapter 465 and stated that the Board of Pharmacy will not be afforded an official role in the dispensing of medical marijuana.

2. Compounding Rules Committee Report – Michele Weizer, PharmD

Dr. Weizer started her report by presenting the new recommended language changes to Rule 64B16-27.797(3) that shall read as follows: “**Current Good Manufacturing Practices:** The Board deems that this rule is complied with for any sterile products that are compounded in strict accordance with Current Good Manufacturing Practices per 21 U.S.C. § 501 (2012), adopted and incorporated herein by reference and 21 C.F.R. Parts 210 and 211 (2011), adopted and incorporated herein by reference.”

Motion: by Dr. Weizer, seconded by Dr. Mikhael, to approve new language. Motion carried.

Dr. Weizer then moved to the next recommended change to 64B16-27.797 which included the striking of section 5 and 6 from the rule.

Motion: by Dr. Mesaros, seconded by Dr. Fallon, to strike section 5 and 6 from Rule 64B16-27.797. Motion carried.

Dr. Weizer then presented language regarding an air flow exemption that had been discussed at the June 9, 2014 Compounding Rules Committee.

Motion: by Dr. Weizer, seconded by Dr. Fallon, to approve the language. Motion carried.

Motion: by Dr. Weizer, seconded by Dr. Fallon, that the three modifications to Rule 64B16-27.797 will not have a negative economic impact and that a SERC is not required. Motion carried.

C. Attorney General’s Report – David Flynn, Assistant Attorney General

1. Rules Report – Lynette Norr, Assistant Attorney General

Ms. Norr presented the June rules report which included the current status of Rules: 64B16-27.700, 64B16-27.797, 64B16-28.820, 64B16-27.100, 64B16-26.1031, 64B16-26.2034, 64B16-26.351, 64B16-26.601, 64B16-603, 64B16-27.210, 64B16-27.300, 64B16-27.800, 64B16-27.851, 64B16-28.2021, 64B16-28.450, 64B16-28.503, 64B16-28.605, 64B16-28.606, 64B16-28.607, 64B16-28.702, and 64B16-29.0041.

2. Petition for Declaratory Statements – Mart T. Mason

David Flynn advised the Board to deny the petition for declaratory statement based on the fact that the request doesn’t meet the requirements as set by Chapter 120.565 “Petitions for Declaratory Statements.” Mr. Flynn followed up by stating that the Board cannot rule on a Statute that isn’t in effect.

Motion: by Dr. Mesaros, seconded by Dr. Fallon, to deny the Petition for Declaratory Statement. Motion carried.

3. PDMP Compliance Letter

The Board members discussed the PDMP Compliance Letter which reminded the profession that you are required to report to the PDMP even if there are zero additions.

D. Prosecution Services Report – Yolonda Green, Assistant General Counsel

Mrs. Green presented the Prosecution Services Report which outlined the prosecution services unit's current caseload and informed the Board that the Pharmacy prosecution team is now fully staffed.

Motion: by Dr. Weizer, seconded by Mrs. Glass, to allow Prosecution Services to continue prosecuting cases one year or older. Motion carried.

E. Chief Investigative Services Report – Mark Whitten

Mr. Whitten provided the Board with a report from the Chief Investigative Services Unit. Mr. Whitten stated that 93% of pharmacies have been inspected and made note that the number is short of 100% due to the fact sterile compounding facilities have been made the top priority. Mr. Whitten followed that by stating that 100% of sterile compounding facilities in the state of Florida have been inspected. Mr. Whitten then informed the Board and audience of the new processes in place for inspectors.

Motion: by Mrs. Glass, seconded by Dr. Weizer, to approve the minutes from the April 1-2, 2014 Meeting. Motion carried.

Dr. Mesaros informed the Board and audience that the presentation originally scheduled to take place had been moved to later a meeting.

Brad Feiger and Martin Dix, Esquire approached the Board to discuss Mr. Feiger's application for pharmacist licensure by examination (permitted by Dr. Jeff Mesaros, PharmD, Chair).

Mr. Dix stated that his client had just graduated and cited the timeframe between the agenda cycles as his basis of good cause for amending the agenda.

Motion: by Dr. Mesaros, seconded by Dr. Weizer, that there is good cause to amend the agenda. Motion carried.

Mr. Feiger was present and sworn in by the court reporter.

Motion: by Dr. Weizer, seconded by Mrs. Glass, to allow applicant to sit for the exam upon receipt of the applicant's medical errors CE certificate. Motion carried.

Public Comments:

Dr. Mesaros opened the floor to public comments.

Michael Jackson (Florida Pharmacy Association) approached the Board to request that Patrick Kennedy and Dr. Fallon attend the July FPA Annual Meeting to present the 50 year pharmacist certificates.

Dr. Mesaros requested Mr. Jackson bring a list of the recipients of the 50 year pharmacist certificates to be read into the record at the August Florida Board of Pharmacy meeting.

Mr. Kennedy requested that Board vote on proposed meeting dates and locations for the 2015 calendar year. Mr. Kennedy also requested that Board decide if they would like to keep the meetings on Tuesday and Wednesdays or move them to Thursday and Fridays for 2015.

After much deliberation, Dr. Mesaros suggested the Board put some thought into the schedule and bring back any recommendations to Wednesday's meeting.

Motion: by Mr. Philip, seconded by Dr. Fallon, to adjourn the meeting at 2:26p.m.

Wednesday, June 11, 2014 – 9:00 a.m

MOTION FOR FINAL ORDER

The Department of Health requests that this Honorable Board of Pharmacy enter a Final Order in the above-styled cause. As grounds therefore, the Petitioner would state that:

1. Petitioner is the state agency charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 465, Florida Statutes.

2. On December 19, 2013, Petitioner filed an Amended Administrative Complaint in DOH Case Number 2011-20634 against Respondent alleging a violation of Sections 456.072(1)(c), Florida Statutes (2012) and Section 456.072(1)(x), Florida Statutes (2012).

3. On February 24, 2014, the Amended Administrative Complaint in this case was filed with the Division of Administrative Hearings ("DOAH").

4. On March 26, 2013, a final hearing took place in Tallahassee, Florida.

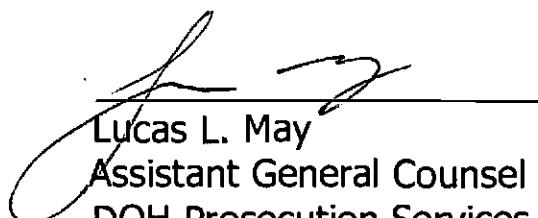

5. On June 23, 2014, the Administrative Law Judge issued a Recommended Order in the above-styled cause.

6. Respondent has been advised by a copy of this Motion that the Board will consider the record which includes the following documents in this matter: Recommended Order, Amended Administrative Complaint, Petitioner's Proposed Recommended Order, Respondent's Proposed Recommended Order, Motion to Assess Costs with attachments, Transcript of Hearing, Petitioner's Exhibits 1 - 6, Respondent's proffered but not admitted exhibits 1, 4, 6, Respondent's admitted exhibits 2, 3, 5, 7, 8 and DOAH Pleadings.

[Signatures appear on the following page.]

WHEREFORE, Petitioner would respectfully request that the Board enter a Final Order in this case.

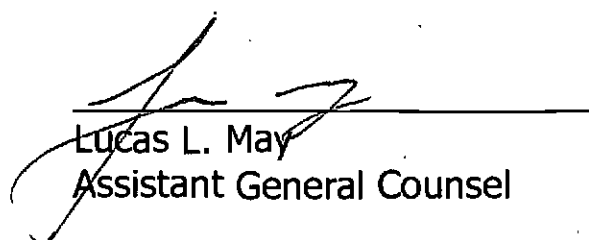

Respectfully submitted,

**MOTION TO BIFURCATE AND RETAIN JURISDICTION
TO ASSESS COSTS IN ACCORDANCE WITH
SECTION 456.072, FLORIDA STATUTES (2014)**

The Department of Health, by and through undersigned counsel requests that the Board of Medicine enter an Order bifurcating the issue of costs and retaining jurisdiction to assess costs, against Respondent for the investigation and prosecution of this case in accordance with Section 456.072(4), Florida Statutes (2014). Petitioner states the following in support of this Motion:

1. At its next regularly scheduled meeting, the Board of Pharmacy will take up for consideration the above-styled disciplinary action and will enter a Final Order therein.

2. Pursuant to Section 120.569(2)(1), Florida Statutes (2014), the Final Order in a proceeding heard by an administrative law judge, which affects a party's substantial interest, must be rendered within ninety (90) days after a Recommended Order is submitted to an agency, unless the ninety (90) days is waived by the Respondent.

3. The Administrative Law Judge's Recommended Order was submitted to the department on or about June 23, 2014; and ninety (90) days from that date is on or about September 21, 2014.

4. Section 456.072(4), Florida Statutes (2014), states as follows:

In addition to any other discipline imposed through final order, or citation, entered on or after July 1, 2001, pursuant to this section or discipline imposed through final order, or citation, entered on or after July 1, 2001, for a violation of any practice act, the board, or the department when there is not board, shall assess costs related to the investigation and prosecution of the case. The costs related to the investigation and prosecution include, but are not limited to, salaries and benefits of personnel, costs related to the time spent by the attorney and other personnel working on the case, and any other expenses incurred by the department for the case. The board, or the department when there is no board, shall determine the amount of costs to be assessed after its consideration of an affidavit of itemized costs and any written objections thereto . . . (emphasis added)

5. In order for the Board to assess costs against the Respondent, under the current case law, the Department is required to obtain an

outside expert attorney's opinion verifying the reasonableness of the time spent by the Department's attorneys on this matter or the amount of fees sought. *Georges v. Department of Health*, 75 So. 3d 759 (Fla, 2nd DCA 2011).

6. In order for the Board to assess costs against the Respondent, under the current case law, the Department is also required to verify attorney's time spent on the case and prepare supporting affidavits for the amount of attorney's time sought to be recovered. *Georges v. Department of Health*, 75 So. 3d 759 (Fla, 2nd DCA 2011).

7. There is insufficient time for the Department to verify its attorneys' time spent on the case; prepare supporting affidavits for the amount of attorneys' time sought to be recovered; and obtain an outside expert attorney's opinion verifying the reasonableness of the time spent by the Department's attorneys on this matter or the amount of fees sought.

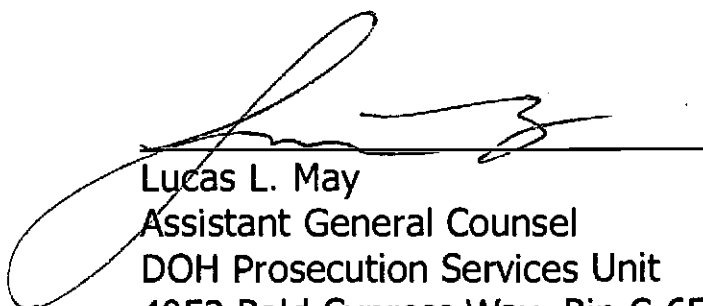

8. The bifurcation of the issue of cost recovery by the Department and its postponement to a later date will not cause any undue hardship to the Respondent as it will delay, rather than expedite, the date at which a Final Order on the assessment of costs would be entered against

Respondent, and thus delay the date upon which any payment for costs would be due and owing.

9. Petitioner requests that the Board grant this motion, bifurcate the issue of assessment of costs and retain jurisdiction to assess costs against Respondent once the Department has obtained an outside expert attorney's opinion verifying the reasonableness of the time spent by the Department's attorneys on this matter or the amount of fees sought, obtains supporting affidavits for the amount of attorney's time sought to be recovered and brings a motion to assess costs before the Board of Medicine.

WHEREFORE, the Department of Health requests that the Board of Medicine enter an Order bifurcating the issue of cost assessment and retaining jurisdiction to assess costs against Respondent.

STATEMENT OF THE ISSUE

The issue in this case is whether the Respondent's license to practice pharmacy should be revoked or otherwise disciplined based on conduct that resulted in criminal convictions and his failure to report the convictions to the Board of Pharmacy (Board), as required.

PRELIMINARY STATEMENT

The Petitioner, Department of Health (DOH), filed an Amended Administrative Complaint against the Respondent, Christopher Stephen Switlyk, R.Ph., alleging that he was convicted in federal court of crimes that relate to his practice of, or his ability to practice, his licensed profession and that he failed to report the conviction to the Board, as required. The Respondent requested a hearing, and the matter was referred to DOAH.

At the DOAH hearing, DOH moved Petitioner's Exhibits 1 through 5 into evidence and questioned the Respondent under oath. The Respondent testified in his case-in-chief after DOH rested, and he offered numerous exhibits in evidence. The evidentiary record was left open to allow the Respondent time to file his proposed exhibits, DOH to file an additional exhibit, and for rulings on objections. On April 11, 2014, DOH filed an additional exhibit, Petitioner's Exhibit 6. On April 29 and 30, 2014, the Petitioner's Exhibit 6 and the Respondent's Exhibits 2, 5, and 7 were admitted in evidence; the Respondent's other

exhibits either were not filed, or DOH's objections to them were sustained; and the evidentiary record was closed. The Respondent moved for reconsideration of those rulings, and DOH responded by withdrawing its objections to the untimeliness of Respondent's Exhibits 3 and 8, and those exhibits are admitted in evidence. The Respondent's motion for reconsideration, as well as DOH's response, referenced additional proposed Respondent's Exhibits 9 and 10 (which DOH opposed), but those additional exhibits were not filed at DOAH, and DOH's objections are sustained.

The Transcript of the final hearing was filed on April 7, 2014. The parties were given until May 13, 2014, to file proposed recommended orders, which have been considered.

FINDINGS OF FACT

1. The Respondent has been a licensed pharmacist in Florida and held Florida license PS 36908 at all pertinent times, until it expired on September 30, 2013.

2. On December 14, 2010, the Respondent was indicted in federal court in the Middle District of Florida, Case No. 8:10-CR-530-T-33AEP.

3. On September 5, 2012, the Respondent pled guilty to one count of conspiring to violate 21 U.S.C. sections 841(a)(1), 843(a)(2), 843(a)(3), and 856(a)(1), all of which also constituted violations of 21 U.S.C. section 846, and to two counts of knowingly engaging in monetary transactions, in and

affecting interstate and foreign commerce, in property of a value of greater than \$10,000, which was derived from a felonious criminal conspiracy to traffick in controlled substances, in violation of 18 U.S.C. section 1957. The plea also admitted to the factual basis of the charges--namely, that the Respondent conspired to allow the pharmacy he owned and operated in Tampa, Florida, to be used by the criminal conspiracy to fill and dispense forged, and otherwise illegal, prescriptions for over a million doses of Schedule II controlled substances, mostly oxycodone. The cash proceeds of the illegal sales were treated as income of the pharmacy, and the Respondent and others participated in monetary transactions whereby the illegally-obtained cash was used to purchase cashier's checks and other assets and to conceal the illegal source of the money.

4. Based on his guilty pleas, the Respondent was adjudicated guilty and sentenced to 108 months in prison. The special conditions of supervision in the Judgment require the Respondent to "refrain from engaging in any employment related to dispensing prescriptions drugs either in a pharmacy, pain clinic, or other medical environment."

5. The Respondent's convictions clearly were related to his practice of pharmacy.

6. The Respondent now maintains that he should not have pled guilty and would not have done so but for the incompetence

of his attorney, who advised him to enter into the plea agreement. Based on this ground and others, he has been seeking to have his convictions vacated or his sentence reduced. There is no evidence that he has been successful in altering his convictions or sentence in any way, and the evidence does not suggest that it is likely that he will succeed in accomplishing either objective.

7. The Respondent did not report his guilty pleas to the Board in writing within 30 days. The Respondent contends that his incarceration since his arrest made it impossible for him to do so. However, the greater weight of the evidence was to the contrary. More likely, compliance with the technical requirement to report to the Board in writing was not in the forefront of his mind.

8. The Respondent has been licensed since July 31, 2002. This is the first time action has been taken by DOH and the Board to discipline his license.

9. The Respondent's actions had the potential to expose numerous people to harm from the misuse and abuse of oxycodone and other controlled substances. This violated the trust placed in him by the State of Florida when he became licensed as a pharmacist. His violation of the public trust demonstrated unsound judgment and a lack of integrity. As a result, the Respondent's professional standing among his peers was lowered.

(The only direct evidence of this was the testimony of DOH's expert witness, but this fact can be inferred from the nature of his convictions and sentence, as well as the comments of the sentencing federal judge, who viewed the Respondent's actions as an abuse of the public trust and undeserving of a second chance to be a pharmacist.)

10. The Respondent also contends that he should be treated leniently in this case because alcohol abuse and long-standing emotional and psychological problems were primary reasons for his actions. His contention belies the criminal convictions, which were for intentional crimes and based on voluntary guilty pleas. To the extent that these problems were contributory factors, it is commendable that the Respondent is taking them seriously, and he will benefit in the long run from continuing to seek treatment and counseling to address them. Neither the problems, in themselves, nor the start of treatment and counseling warrants lenient license discipline.

11. The Board has guidelines for the imposition of penalties for license violations. DOH submitted Petitioner's Exhibit 4 as evidence of the guidelines in effect at the time of the Respondent's guilty pleas and convictions. However, the exhibit actually purports to certify the guidelines in effect at various times from January 1, 2011, until December 31, 2013. It appears from the exhibit that as of the time of the Respondent's

guilty pleas and convictions, the range of penalties for a first violation of section 456.072(1)(c), Florida Statutes (2012), for a felony conviction or guilty plea was from a year probation and a \$3,000 fine to a year suspension to revocation and a \$5,000 fine. Fla. Admin. Code R. 64B16-30.001(o)3. (revised Nov. 29, 2006). The range of penalties for a first violation of section 456.072(1)(x), Florida Statutes (2012), is from a \$1,000 fine to a \$2,500 fine and a year probation. Fla. Admin. Code R. 64B16-30.001(o)(18) (revised Nov. 29, 2006). The guidelines in effect at that time also included aggravating circumstances that would justify deviating above the guidelines and mitigating circumstances that would justify deviating below the guidelines. The aggravating circumstances included: a history of previous violations; in the case of negligent acts, the magnitude and scope of the damage or potential damage inflicted on a patient or the general public; and violations of professional practice acts in other jurisdictions. The mitigating circumstances included: in the case of negligent acts, the minor nature of the damage or potential damage to the patient's or the general public's health, safety, and welfare; the lack of previous discipline; restitution of monetary damage suffered by the patient; the licensee's professional standing among his peers; the steps taken by the licensee to ensure the non-occurrence of similar violations in

the future, including continuing education; and the degree of financial hardship incurred by the licensee.

12. In this case, there are no aggravating circumstances justifying a deviation above the guidelines. As for mitigating circumstances: the minor nature of the damage or potential damage to the patient's or the general public's health, safety, and welfare from his failure to report his convictions and guilty pleas to the Board might justify a deviation below the guidelines for that violation, but not for the convictions and pleas, themselves; the Respondent's lack of previous discipline is a mitigating circumstance; restitution of monetary damage to the patient is not relevant; the Respondent's professional standing among his peers has suffered and does not justify a deviation below the guidelines in this case; the Respondent forfeited all ill-gotten gains to the federal government and has incurred financial hardship as a result of the forfeitures and his incarceration, but that does not justify a deviation below the guidelines in this case; the Respondent has taken several continuing education courses since he has been incarcerated, but that does not justify a deviation below the guidelines in this case.

CONCLUSIONS OF LAW

13. This is a license discipline case, which places the burden on DOH to prove the charges by clear and convincing

evidence. Dep't of Banking & Fin. v. Osborne Stern & Co., 670 So. 2d 932 (Fla. 1996); Ferris v. Turlington, 510 So. 2d 292 (Fla. 1987).

14. DOH has charged the Respondent with being convicted or found guilty of, or entering a plea of guilty to, crimes that relate to the practice of, or the ability to practice, the profession of licensed pharmacist. § 456.072(1)(c), Fla. Stat. (2012). See Rush v. Dep't of Bus. & Prof'l Reg., Bd. of Podiatry, 448 So. 2d 26, 27-28 (Fla. 1st DCA 1984) (although not arising in an office setting, crime of conspiracy to possess and import marijuana was a breach of trust and related to the practice of podiatry, which included dispensing drugs); Doll v. Dep't of Health, 969 So. 2d 1103 (Fla. 1st DCA 2007) (a crime that demonstrated a "lack of honesty, integrity, and judgment" related to the practice of chiropractic medicine); Dep't of Health, Bd. of Medicine v. Algirdas Krisciunas, M.D., Case No. 10-10229PL (Fla. DOAH June 27, 2011; Fla. DOH Amended FO, Aug. 17, 2011) (five counts of dispensing oxycodone and one count of conspiring to distribute oxycodone were related to the practice of medicine, in part, because the respondent's medical license was necessary to execute the crime). DOH proved this charge by clear and convincing evidence.

15. DOH also charged that the Respondent failed to report his convictions and guilty pleas to the Board in writing within

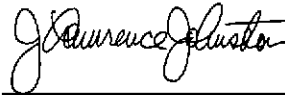

30 days. § 456.072(1)(x), Fla. Stat. (2012). DOH proved this charge by clear and convincing evidence.

16. The Board has guidelines for the imposition of penalties for license violations. Based on a consideration of the Board's penalty guidelines and possible aggravating and mitigating circumstances, the appropriate penalty in this case is revocation. If the Respondent continues to demonstrate his commitment to treatment and counseling for his alcohol abuse and psychological and emotional issues and to continuing education to maintain proficiencies as a pharmacist, he can present those matters to the Board in an application for the issuance of a new license after he is released from prison and has the special condition of supervision in his sentence modified.

RECOMMENDATION

Based on the foregoing Findings of Fact and Conclusions of Law, it is RECOMMENDED that the Board of Pharmacy enter a final order finding the Respondent guilty as charged and revoking his license to practice pharmacy.

**PETITIONER'S RESPONSE TO RESPONDENT'S LETTER
REGARDING DOAH CASE 14-0883PL, DATED JULY 1, 2014**

COMES NOW, DEPARTMENT OF HEALTH, (Petitioner), by and through its undersigned counsel and submits this Response to Respondent's e-mail objections to the Recommended Order in case number 14-0883PL, dated July 1, 2014, if that filing is accepted as Respondent's Exceptions to the Recommended Order issued by the Administrative Law Judge (ALJ), to the Board of Nursing ("Board") and in support thereof, states as follows:

Preliminary Statement

Section 120.57(1), Florida Statutes (2012), and case law have clarified the reviewing authority of a Board under the Administrative Procedures Act. Under the law, the Board may reject or modify the conclusions of law over which it has substantive jurisdiction and interpretation of administrative rules over which it has substantive jurisdiction. The Board is vested by the laws of Florida with the authority to interpret and apply such laws, regulations, and policies as are applicable to programs within the Board's regulatory sphere.

If the Board wishes to reject or modify a finding of fact, Section 120.57(1)(l), Florida Statutes (2012), requires that the agency make a determination from a review of the entire record and state with particularity in the order that the findings of fact were not based upon competent substantial evidence or that the proceeding on which the findings were based did not comply with essential requirements of law.

When determining whether to reject or modify findings of fact in a recommended order, the agency is not permitted to weigh the evidence, judge the credibility of the witnesses, or interpret the evidence to fit its ultimate conclusions. To do so is reversible error. See *Gross v. Dept. of Health*, 819 So.2d 997, 1001 (Fla. 5th DCA 2002); and *Aldrete v. Dept. of*

Health, 879 So.2d 1244, 1246, (Fla. 1st DCA 2004). The testimony of a credible witness is competent, substantial evidence. Furthermore, the credibility of a witness should be decided by the ALJ. *Heifitz v. Dept. of Bus. & Prof'l Reg.*, 475 So. 2d 1277, 1281 (Fla. 1st DCA 1985). As stated in *Heifitz*, "it is the hearing officer's function to consider all the evidence presented, judge the credibility of witnesses, draw permissible inferences from the evidence, and reach ultimate findings of fact based on competent, substantial evidence." *Id.*

It is not the Board's responsibility to reweigh the trial testimony against the other evidence in the record. See § 120.57(1)(l), Fla. Stat. (2012). It is the Board's responsibility to "review whether the record contains competent, substantial evidence to support the [ALJ's] order," not to "review whether there was competent, substantial evidence to support [Respondent's position]." *Swanigan v. Dobbs House*, 442 So. 2d 1026, 1027 (Fla. 1st DCA 1983).

In regard to the conclusions of law, the Board may reject or modify the conclusions of law to reflect a more reasonable interpretation of the applicable laws and rules. However, the Board must state with particularity the reasons for rejecting or modifying such conclusions of law or

interpretation of administrative rule and must make a finding that the substituted conclusion of law or interpretation of administrative rule is as or more reasonable than that which was rejected or modified. § 120.57(1)(I), Fla. Stat. (2012).

Rule 28-106.217, Florida Administrative Code, states that exceptions shall identify the disputed portion of the recommended order by page number and paragraph, shall identify the legal basis for the exception, and shall include any appropriate and specific citations to the record.

Response To Respondent's Exceptions

1. Respondent presents for the Board's consideration the Respondent's request for exceptions to ruling, which appears to be exceptions to the recommended penalty of the Recommended Order (RO). Petitioner opposes Respondent's exceptions.

2. Respondent's request for exceptions to ruling, should not be considered as valid exceptions to the RO, because Respondent failed to meet the requirements of Rule 28-106.217, Florida Administrative Code,

by, failing to identify the disputed portion of the RO by page number and paragraph, failing to identify the legal basis for the exception, and failing to include any citations to the record.

3. Respondent's letter regarding DOAH case 14-0883PL, dated July 1, 2014 appears to contain what Petitioner considers to be exceptions to the RO.

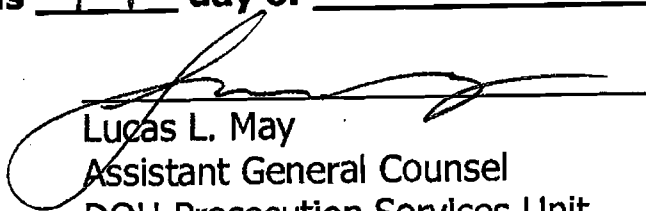

4. Respondent alleges that he was unable to report hit guilty pleas to the Department due to incarceration. This should be rejected because it is irrelevant to any of the issues in this case, and these facts were not presented during the Formal Hearing. The Agency may not reject, substitute, or make new findings of fact. See *Gross v. Dept. of Health*, 819 So.2d 997, 1001 (Fla. 5th DCA 2002).

5. Respondent asserts that his pleas of guilty were entered into involuntarily and were the product of fraud on the part of criminal defense attorney. This should be rejected because it is irrelevant to any of the issues in this case, and these facts were not presented during the Formal Hearing. The Agency may not reject, substitute, or make new findings of fact. See *Gross v. Dept. of Health*, 819 So.2d 997, 1001 (Fla. 5th DCA 2002).

6. Respondent also asserts that his pleas of guilty were to be withdrawn in the months following the court's acceptance of his pleas. This should be rejected because it is irrelevant to any of the issues in this case, and these facts were not presented during the Formal Hearing. The Agency may not reject, substitute, or make new findings of fact. See *Gross v. Dept. of Health*, 819 So.2d 997, 1001 (Fla. 5th DCA 2002).

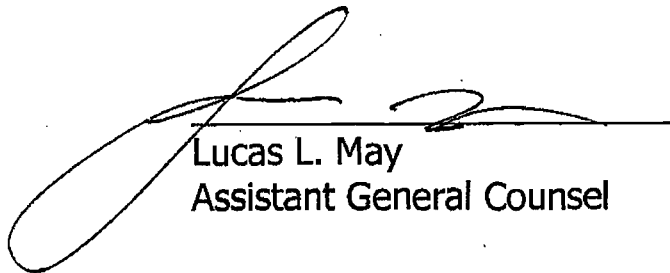

7. **WHEREFORE** the Petitioner respectfully requests that the Board of Nursing deny the Respondent's request for exceptions to ruling filed, and enter a Final Order as recommended by the Administrative Law Judge in this matter.

DEPARTMENT OF HEALTH,

PETITIONER,

v.

CASE NO. 2011-20634

CHRISTOPHER STEPHEN SWITLYK, R.Ph.,

RESPONDENT.

AMENDED ADMINISTRATIVE COMPLAINT

COMES NOW, Petitioner, Department of Health, by and through its undersigned counsel, and files this Amended Administrative Complaint before the Board of Pharmacy against Respondent, Christopher Stephen Switlyk, R.Ph., and in support thereof alleges:

1. Petitioner is the state department charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 465, Florida Statutes.

2. At all times material to this Administrative Complaint, Respondent was a licensed pharmacist within the state of Florida, having been issued license number PS 36908.

3. Respondent's address of record is 2410 Victoria Gardens Lane, Tampa, Florida 33609-4107.

4. The Department has reason to believe that Respondent may be located at FCI Estill, Federal Correctional Institution, Attention: Register Number 53913-018, P.O. Box 699, Estill, South Carolina 29918.

5. On or about September 5, 2012, in case number 8:10-CR-530-T-33AEP in the United States District Court for the Middle District of Florida, Respondent entered a plea of guilty to: one count of attempting or conspiring to commit any offense defined in this subchapter, a felony, in violation of 21 U.S.C. § 846; and two counts of knowingly engaging in monetary transactions, in and affecting interstate and foreign commerce, in criminally derived property of a value greater than \$10,000.00, such property having been from a specified unlawful activity, namely, a conspiracy to traffic in controlled substances, felonies, in violation of 18 U.S.C. § 1957.

6. Respondent failed to report entering pleas of guilty to crimes referenced in paragraph five to the Board of Pharmacy in writing within thirty days of the date he entered the plea on or about September 5, 2012.

COUNT ONE

7. Petitioner realleges and incorporates paragraphs one through six as if fully set forth herein.

8. Section 456.072(1)(c), Florida Statutes (2012), provides that being convicted or found guilty of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice, a licensee's profession constitutes grounds for disciplinary action.

9. Respondent is licensed pursuant to Chapter 465, Florida Statutes, and is a health care practitioner as defined in Section 456.001(4), Florida Statutes (2012).

10. On or about September 5, 2012, in case number 8:10-CR-530-T-33AEP, in the United States District Court for the Middle District of Florida, Respondent entered a plea of guilty to: one count of attempting or conspiring to commit any offense defined in this subchapter, a felony, in violation of 21 U.S.C. 846; and two counts of knowingly engaging in monetary transactions, in and affecting interstate and foreign commerce, in criminally derived property of a value greater than \$10,000.00, such property having been from a specified unlawful activity, namely, a

conspiracy to traffic in controlled substances, felonies, in violation of 18 U.S.C. 1957.

11. Based on the foregoing, Respondent violated Section 456.072(1)(c), Florida Statutes (2012), by being convicted or found guilty of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice, a licensee's profession.

COUNT TWO

12. Petitioner realleges and incorporates paragraphs one through six as if fully set forth herein.

13. Section 456.072(1)(x), Florida Statutes (2012), provides that failing to report to the board, or the department if there is no board, in writing within thirty (30) days after the licensee has been convicted or found guilty of, or entered a plea of nolo contendere to, regardless of adjudication, a crime in any jurisdiction, constitutes grounds for disciplinary action.

14. Respondent is licensed pursuant to Chapter 465, Florida Statutes, and is a health care practitioner as defined in Section 456.001(4), Florida Statutes (2012).

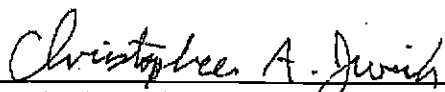

15. Respondent failed to report entering a plea of guilty to the crimes referenced in paragraph five to the Board of Pharmacy in writing within thirty days of the date he entered the plea on or about September 5, 2012.

16. Based on the foregoing, Respondent violated Section 456.072(1)(x), Florida Statutes (2012), by failing to report to the board in writing within thirty days after the licensee has been convicted or found guilty of, or entered a plea of nolo contendere to, regardless of adjudication, a crime in any jurisdiction.

WHEREFORE, the Petitioner respectfully requests that the Board of Pharmacy enter an order imposing one or more of the following penalties: permanent revocation or suspension of Respondent's license, restriction of practice, imposition of an administrative fine, issuance of a reprimand, placement of the Respondent on probation, corrective action, refund of fees billed or collected, remedial education and/or any other relief that the Board deems appropriate.

NOTICE OF RIGHTS

Respondent has the right to request a hearing to be conducted in accordance with Section 120.569 and 120.57, Florida Statutes, to be represented by counsel or other qualified representative, to present evidence and argument, to call and cross-examine witnesses and to have subpoena and subpoena duces tecum issued on his or her behalf if a hearing is requested.

NOTICE REGARDING ASSESSMENT OF COSTS

Respondent is placed on notice that Petitioner has incurred costs related to the investigation and prosecution of this matter. Pursuant to Section 456.072(4), Florida Statutes, the Board shall assess costs related to the investigation and prosecution of a disciplinary matter, which may include attorney hours and costs, on the Respondent in addition to any other discipline imposed.

STATEMENT OF THE ISSUES

The issues in this case are whether the Department of Health, Board of Pharmacy (hereinafter referred to as the "Board") should discipline Respondent's license on charges alleged in an Amended Administrative Complaint.

PRELIMINARY STATEMENT

On December 19, 2013, the Department filed a two count Amended Administrative Complaint, which alleges in Count One that Respondent violated Section 456.072(1)(c), Florida Statutes (2012), by being convicted of a crime, which relates to the practice of, or the ability to practice pharmacy. Count two of the Amended Administrative Complaint alleges that Respondent violated Section 456.072(1)(x), Florida Statutes (2012), by failing to report to the board, in writing within 30 days after the licensee has been convicted of a crime in any jurisdiction.

On or about January 13, 2014, Respondent disputed material issues of fact and requested a formal hearing. Petitioner referred this case to the Division of Administrative Hearings on February 24, 2014. The case was set for formal hearing on March 26, 2014 before the

Honorable Judge J. Lawrence Johnston in Tallahassee, Florida.

Based on Petitioner's knowledge that Respondent was incarcerated, Petitioner filed a Motion for Respondent to Appear Telephonically at Hearing, which Judge Johnston granted.

At the formal hearing, Petitioner offered Exhibits 1, 2, 3, 4, and 5. The Petitioner's Exhibits were admitted over Respondent's objection.

Petitioner called Respondent as its only witness in its case in chief. Respondent called himself as his only witness in his case in chief. Respondent did not offer evidence at the hearing.

Respondent requested additional time to submit evidence. Judge Johnston left the record open until not later than April 21st to submit additional evidence.

Post hearing, on April 11, 2014, Petitioner filed its composite Exhibit 6, the Pinellas County Sheriff's Office, Detention and Corrections Bureau, 2011 Inmate Handbook with an e-mail from the Pinellas County Sheriff's Office records custodian.

On April 17, Petitioner filed its Amended Notice of Filing Objections to Respondent's Proposed Exhibits. On April 29, 2014, A Ruling of Objections and Further Post-

Hearing Procedures was filed. In the Ruling, Judge Johnston admitted Petitioner's Exhibit 6. Respondent's Exhibits 2, 5 and 7 were offered into evidence and admitted. Respondent's Exhibits 1, 3 and 4 were proffered into evidence but not admitted.

In the Ruling, Judge Johnston stated that the Proposed Recommended Orders should be filed by May 13, 2014, if no rebuttal evidence is filed.

On April 29, 2014, Petitioner filed its Notice of Withdrawal of Request to Offer Rebuttal Evidence.

On April 30, 2014, an Amendment to Rulings on Objections and Further Post-Hearing Procedures was filed. Judge Johnston ruled that Respondent's exhibit 6 was proffered but not admitted and closed the evidentiary record.

On May 5th, Respondent submitted proposed exhibits 3, 4, 5, and 8. On May 12, 2014, Respondent filed a Motion to Reconsider Rulings Concerning Exhibits and submitted proposed exhibits 9 and 10. Petitioner filed its Response to Respondent's Motion to Reconsider Rulings Concerning Exhibits and Motions to Admit Exhibits 9 and 10 on May 12, 2014.

Petitioner's Proposed Recommended Order was filed on May 13, 2014, pending rulings on the above mentioned pleadings.

FINDINGS OF FACT

1. Petitioner is the state agency charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 464, Florida Statutes.

2. Respondent is and has been at all times material to this case, a licensed pharmacist within the state of Florida, having been issued license number PS 36908. (Pet. Exhibit 1)

3. On or about December 14, 2010, an Indictment was filed against Respondent in the United States District Court for the Middle District of Florida, in case number 8:10-CR-530-T-33AEP. (Pet. Exhibit 3)

4. On or about September 5, 2012, in the United States District Court for the Middle District of Florida, in case number 8:10-CR-530-T-33AEP, Respondent entered a plea of guilty, in an Amended Plea Agreement, to one count

of attempting or conspiring to commit any offense defined in this subchapter, a felony, in violation of 21 U.S.C. § 846. In the same Amended Plea Agreement, Respondent entered pleas of guilty to two counts of knowingly engaging in monetary transactions, in and affecting interstate and foreign commerce, in criminally derived property of a value greater than \$10,000.00, such property having been from a specified unlawful activity, namely, a conspiracy to traffic in controlled substances, felonies, in violation of 18 U.S.C. § 1957. (Pet. Exhibit 3)

5. Respondent's Amended Plea Agreement set forth that Respondent "owned and operated the TNC Pharmacy, doing business as VIP Pharmacy." (Pet. Exhibit 3)

6. Respondent's Amended Plea Agreement set forth in pertinent part:

"Defendants BELTRAN and SWITLYK also cause and allowed many bottles of Oxycodone to be distributed and sold out of the TNC and VIP Pharmacies to individuals without any prescriptions whatsoever. They would then produce or cause to be produced forged prescriptions and false pharmacy profiles in order to appear that they had legitimately dispensed all the oxycodone that was illegally distributed." (Pet. Exhibit 3)

7. Respondent's Amended Plea Agreement set forth that between January through December 2009, TNC pharmacy purchased 1,541,640 dosage units of oxycodone. This

compares to an average of 111,874 dosage units by Florida pharmacies during the same time period. (Pet. Exhibit 3)

8. Respondent's Amended Plea Agreement set forth that between January through May 20, 2010, TNC pharmacy purchased 1,241,400 dosage units of oxycodone. This compares to an average of 48,322 dosage units by Florida pharmacies during the same time period. (Pet. Exhibit 3)

9. Respondent's Amended Plea Agreement set forth that "...because the TNC and VIP Pharmacies were used to commit and facilitate the commission of such offenses, any property of the business, including at least \$10,700,592.00 obtained from the sale of oxycodone, is subject to forfeiture." (Pet. Exhibit 3)

10. On or about September 5, 2012, in the United States District Court for the Middle District of Florida, in case number 8:10-CR-530-T-33AEP, Respondent entered an Acceptance of Plea of Guilty and Adjudication of Guilt. The United States Magistrate Judge determined that the guilty pleas were knowledgeable and voluntary. (Pet. Exhibit 3)

11. On or about September 5, 2012, in the United States District Court for the Middle District of Florida, in case number 8:10-CR-530-T-33AEP, a Judgment was entered against Respondent, which sentenced him to one hundred and eight (108) months imprisonment. (Pet. Exhibit 3)

12. As part of Respondent's Special Conditions of Supervision, included within Respondent's Judgment, the Court stated that "The defendant shall refrain from engaging in any employment related to dispensing prescription drugs either in a pharmacy, pain clinic, or other medical environment." (Pet. Exhibit 3)

13. The Pinellas County, Detention and Corrections, Inmate Handbook, in operation during the dates Respondent was imprisoned, states in pertinent part:

B. The Pinellas County Jail provides telephones for inmate convenience as a means to contact attorneys, bondsmen and family. All calls are on a "collect call" basis.

C. Inmates can purchase pre-paid phone cards that will enable them to make local and long distance calls. The deputy on duty can provide information on how to purchase one.

H. There are enough telephones to accommodate the number of inmates housed in each area. However, during times of high demand, be aware other inmates need to use the phone. No continuous calling is allowed during these times.

I. If an inmate feels he/she needs to make an emergency phone call, an Inmate Request Form addressed to the Social Worker is to be completed. (Pet. Exhibit 6, p. 13)

14. Respondent testified that he failed to report entering pleas of guilty to the crimes listed above, to the Board of Pharmacy, in writing, within thirty (30) days of the date he entered the pleas. (Tr. P. 33)

15. Respondent testified that while he was in jail, the government allowed him to use a computer and that he used that computer to send e-mails. (Tr. P. 36)

16. Petitioner deposed Ronald B. Salem, R.Ph., in lieu of live testimony. Dr. Salem was tendered as an expert in community pharmacy. (Pet. Exhibit 5, p. 12)

17. Ronald B. Salem stated in his deposition that a pharmacist obtains a DEA permit to order medications. Furthermore, a pharmacist must determine whether the prescription is appropriate and for a "viable reason." (Pet. Exhibit 5, p. 21)

18. Ronald B. Salem stated that a pharmacist should examine certain factors, including but not limited to, whether patients pay with cash, whether patients are local, and whether the pharmacy receives a large volume of controlled substance prescriptions from a single physician.

(Pet. Exhibit 5, p. 22)

19. Ronald B. Salem stated that that Respondent's plea of guilty to possession with intent to distribute quantities of controlled substances is related to the practice of pharmacy. Ronald B. Salem based this opinion on the evidence presented to him, through his professional experience as a registered pharmacist, and from his

experience as a member of the Florida Board of Pharmacy.
(Pet. Exhibit 5, pps. 27-29)

20. Ronald B. Salem stated that Respondent's crimes, to which he pleaded guilty to, presented a "tremendous potential for patient harm." (Pet. Exhibit 5, p. 56).

21. Ronald B. Salem stated that Respondent's pleas of guilty are related to the practice of pharmacy because they violated the public trust, negatively affected Respondent's integrity, and affected Respondent's ability to exercise sound judgment. (Pet. Exhibit 5, pps. 33-34)

22. The Honorable Virginia M. Hernandez-Covington (hereinafter referred to as "Sentencing Judge") stated in Respondent's sentencing hearing that "[Respondent] should not be allowed to practice as a pharmacist... I don't think he should ever have the right to ... work as a pharmacist again after it's been abused." (Resp. Exhibit 2, pps. 21, 23)

CONCLUSIONS OF LAW

23. The Division of Administrative Hearings has jurisdiction over the parties to and the subject matter of this proceeding. Fla. Stat. § 120.569 and Fla. Stat. § 120.57(1) (2012).

24. The Department has the burden to establish the allegations in the Administrative Complaint by clear and

convincing evidence. *Dep't of Banking & Fin. v. Osborne Stern & Co.*, 670 So.2d 932 (Fla. 1996).

25. The Florida Supreme Court has adopted the interpretation that the "clear and convincing" standard requires the Petitioner to provide evidence "of such weight that it produces in the mind of the trier of fact a firm belief or conviction, without hesitancy, as to the truth of the allegations sought to be established." *In re Davey*, 645 So.2d 398, 404 (Fla. 1994), adopting the language found in *Slomowitz v. Walker*, 429 So.2d 797, 800 (Fla. 4th DCA, 1983)

26. The Petitioner alleges that Respondent violated Section 456.072(1)(c) and 456.072(1)(x), Florida Statutes (2012), which provides in pertinent part:

(1) The following acts shall constitute grounds for which the disciplinary actions specified in subsection (2) may be taken:

* * *

(c) Being convicted or found guilty of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice, a licensee's profession.

* * *

(x) Failing to report to the board, or the department if there is no board, in writing within 30 days after the licensee has been convicted or found guilty of, or entered a plea of nolo contendere to, regardless of adjudication, a crime in any jurisdiction. Convictions, findings,

adjudications, and pleas entered into prior to the enactment of this paragraph must be reported in writing to the board, or department if there is no board, on or before October 1, 1999.

27. The Petitioner has demonstrated by clear and convincing evidence that Respondent's pleas of guilty are related to the practice of Pharmacy and that Respondent failed to report such pleas.

28. Respondent's guilty pleas are related to the practice of pharmacy because his actions breached the trust invested in him by the Florida Legislature. The Florida First District Court of Appeal held that conspiracy to possess and import marijuana, in violation of Title 21, United States Code (1981), Section 841(a)(1) is directly related to the practice of podiatry. *Rush v. DBPR, Board of Podiatry*, 448 So.2d 26, 27-8 (Fla. 1st DCA, 1984). The court reasoned that a podiatrist was one of six categories of licensees that may dispense drugs. The court further reasoned that the actions of the licensee:

"constitute a breach of that trust and confidence which the people, through the Legislature, have placed in him. [Licensee's] conduct shows a lack of honesty, integrity, and judgment, and an unwillingness to abide by the Laws of the State of Florida which cannot be tolerated of a professional licensed to dispense dangerous drugs."

The Court in *Rush* delineated that a crime related to the practice need not be limited to "only those crimes which relate to the technical ability to practice podiatry or to those which arise out of misconduct in the office setting....."

a felony conviction for conspiracy to import a dangerous drug is within the scope of "those crimes which directly relate to the practice or ability to practice podiatry." *Id.* at 27-8. Respondent's profession as a pharmacist clearly allows him to dispense drugs, and as such, his guilty pleas also demonstrate a breach of trust. Furthermore, Respondent's crimes are more serious than those in *Rush* because Respondent's crimes arose directly from misconduct in the office setting.

29. Respondent's guilty pleas evidenced poor judgment, a lack of honesty, and a lack of integrity. The Florida First District Court of Appeal has held that pleading guilty to a crime that demonstrates a "lack of honesty, integrity, and judgment," relates to the practice of Chiropractic medicine. *Doll v. Department of Health*, 969 So.2d 1103 (Florida 1st DCA, 2007). As evidenced in the testimony of Dr. Ronald Salem, Respondent exercised poor judgment and Respondent's actions negatively affect his honesty and integrity.

30. Respondent's guilty pleas are also related to the practice of Pharmacy because licensure was necessary to commit the crimes. Respondent's status as a Pharmacist, which authorized him to prescribe and dispense controlled substances, enabled him to commit the crimes to which he pleaded guilty. In *Department of Health, Board of Medicine v. Algirdas Krisciunas, M.D.*, DOAH case number 10-10229PL (2011) (Adopted in toto by the Florida Board of Medicine), the Division of Administrative Hearings held that being adjudicated guilty of five counts of unlawfully dispensing oxycodone and one count of conspiring to distribute oxycodone is related to the practice of medicine. In *Algirdas*, the Department of Health alleged that Respondent violated 458.331(1)(c), Florida Statutes, which provides the same or similar language as Section 456.072(1)(c), Florida Statutes, (2012). The Court further opined that a crime is related to the practice of medicine if the license is necessary to execute said crime. The Court in *Algirdas* stated that the licensee:

"benefitted financially from the sale of controlled substances - for cash - to a patient who did not demonstrate any need for them. Finally, [licensee's] criminal conduct involved the provision of controlled substances for trade, barter, or sale."

In *Algirdas*, The Department of Administrative Hearings recommended revocation, which the Board of Medicine adopted. In the instant case, as evidenced by the Amended Plea Agreement, although subsequently forfeited, Respondent intended to and did derive a pecuniary benefit from the underlying criminal actions, which were similar to the crimes described in *Algirdas*.

31. Respondent admitted that he did not report his pleas of guilty to the Department, and the Pinellas County Inmate Handbook demonstrates that he was capable of communicating via telephone during the time at issue.

32. The Board of Pharmacy imposes penalties upon licensees in accordance with the disciplinary guidelines prescribed in Florida Administrative Code Rule 64B16-30.001. The range of penalties for a first offense comprising a single violation of Section 456.072(1)(c), Florida Statutes (2012), is set forth in Rule 64B16-30.001(o)(3) and may be disciplined by a minimum penalty of a \$3,000 fine and one year probation to the maximum penalty of Revocation. (Pet. Exhibit 4)

33. The range of penalties for a first offense comprising a single violation of Section 456.072(1)(x), Florida Statutes (2012), is set forth in Rule 64B16-

30.001(o)(18) and may be disciplined by a minimum penalty of a \$1,000 fine and a maximum penalty of Revocation.

34. Florida Administrative Code Rule 64B16-30.001(3) provides that, in applying the penalty guidelines, the following aggravating and mitigating circumstances are to be taken into account:

(a) Aggravating circumstances; circumstances which may justify deviating from the above set forth disciplinary guidelines and cause the enhancement of a penalty beyond the maximum level of discipline in the guidelines shall include but not be limited to the following:

1. History of previous violations of the practice act and the rules promulgated thereto.
2. In the case of negligent acts, the magnitude and scope of the damage or potential damage inflicted upon the patient or the general public by the licensee's misfeasance.
3. Evidence of violation of professional practice acts in other jurisdictions wherein the licensee has been disciplined by the appropriate regulatory authority.
4. Violation of the provision of the practice act wherein a letter of guidance as provided in Section 456.073(3), F.S., has been previously issued to the licensee.

(b) Mitigating circumstances; circumstances which may justify deviating from the above set forth disciplinary guidelines and cause the lessening of a penalty beyond the minimum level of discipline in the guidelines shall include but not be limited to the following:

1. In cases of negligent acts, the minor nature of the damage or potential damage to the patient's or the public's health, safety and welfare resulting from the licensee's misfeasance.

2. Lack of previous disciplinary history in this or any other jurisdiction wherein the licensee practices his profession.
3. Restitution of any monetary damage suffered by the patient.
4. The licensee's professional standing among his peers.

5. Steps taken by the licensee to insure the non-occurrence of similar violations in the future including continuing education
6. The degree of financial hardship incurred by a licensee as a result of the imposition of fines or the suspension of his practice.

35. The Petitioner has proved by clear and convincing evidence that Respondent entered 3 guilty pleas and that each guilty plea may be disciplined by a penalty of revocation. The Petitioner has proved by clear and convincing evidence that Respondent did not report his pleas of guilty to the Department, in writing within 30 days, in writing, after entering the pleas. This violation may also be punished by a penalty of revocation.

36. Respondent has presented mitigating circumstances through his own testimony. However, these mitigating circumstances can lessen neither the magnitude nor the multitudinous nature of the violations. Respondent introduced testimony that alcohol abuse led to his failure to properly monitor the pharmacy. However, expert testimony demonstrates that Respondent's crimes were committed intentionally, and as such, should not be considered to be "negligent" as pertaining to the disciplinary guidelines

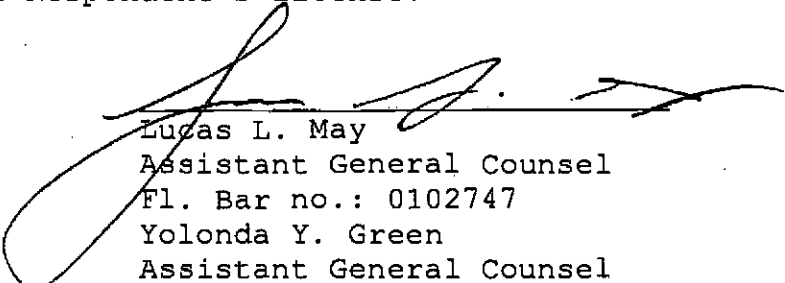

mitigating circumstances. In the alternative, should Respondent's guilty pleas be considered to have arisen from acts of negligence, expert testimony demonstrated that Respondent's actions posed a severe "potential damage inflicted upon the patient or the general public," which is the second aggravating factor listed above. Respondent's actions, evidenced through his guilty pleas to trafficking in oxycodone and dealing in monetary transactions derived from unlawful activities, placed patient health at risk and violated the public trust. The Sentencing Judge in Respondent's criminal case is also of the opinion that Respondent should never practice as a pharmacist based on the abuse of his license.

37. Respondent testified that he exercised poor judgment due to excessive alcohol consumption. However, Respondent's use of alcohol does not negate the existence of the guilty pleas. Such evidence of substance abuse lends further credence to Petitioner's argument that Respondent is not fit to practice pharmacy.

PROPOSED RECOMMENDATION

Based on the foregoing Findings of Fact and Conclusions of Law, it is recommended that the Administrative Law Judge enter a Recommended Order finding

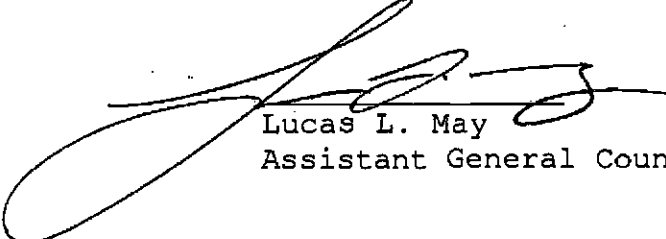

that Christopher Switlyk, R.P.H., violated Section 456.072(1)(c), Florida Statutes (2012) and Section 456.072(1)(x), Florida Statutes (2012). Pursuant to the disciplinary guidelines set forth in Florida Administrative Code Rule 64B16-30.001, an appropriate penalty is permanent revocation of Respondent's license.

RESPONDENT'S PROPOSED RECOMMENDED ORDER

The violation which I am being penalized for is Violation Letter O, Number 3, of the Florida Department of Health's Disciplinary Guidelines which were in effect at the time of my offense. It reads, "Being convicted or found guilty of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice a licensee's profession." According to these same Disciplinary Guidelines, the range of penalties for committing this particular violation is a minimum of a \$3,000.00 fine and 1 year of probation, and a maximum of license revocation.

The Disciplinary Guidelines also include a list of Mitigating Circumstances which may justify deviating from them, and cause the lessening of a penalty beyond the minimum level of discipline in the guidelines. These Mitigating Circumstances are:

- 1) In cases of negligent acts, the minor nature of the damage or potential damage to the patient's or the public's health, safety and welfare resulting from the licensee's misfeasance.

- 2) Lack of previous disciplinary history in this or any other jurisdiction wherein the licensee practices his profession.
- 3) Restitution of any monetary damage suffered by the patient.
- 4) The licensee's professional standing among his peers.
- 5) Steps taken by the licensee to insure the non-occurrence of similar violations in the future including continuing education.
- 6) The degree of financial hardship incurred by a licensee as a result of the imposition of fines or the suspension of his practice.

Without unnecessarily rehashing the specifics of my offense which lead me to being in this current predicament of my license to practice pharmacy in the future being in jeopardy, I propose that my penalty be a fine of \$3,000.00, and a license suspension of 5 years, followed by a probationary period of 2 years. Despite the minimum penalty for this type of violation being only the probation of an offender's medical license for 1 year, I acknowledge that certain circumstances surrounding my offense will likely be taken into consideration when determining my penalty and therefore likely increase it to a justifiable license suspension of 5 years (which in actuality would really be a 9 year suspension since I voluntarily stopped practicing as a pharmacist 4 years ago in May of 2010).

I feel that this proposed penalty is more than sufficient to satisfy the statutory purposes of the discipline of a licensee in my situation. I also feel that this penalty is not greater than necessary, which is important for the Court to take into consideration when making such a critical decision which would literally change every aspect of my impending future. I feel that any penalty imposed greater than this would cause unwarranted and irreparable harm to my future, my life, and my well-being.

A 5 year suspension, followed by 2 years of probation, would be more than enough punishment to deter me from jeopardizing my license and career ever again, especially knowing that it would be nearly impossible for me to start another promising career in my middle-age. Without a chance to reestablish my career in pharmacy, a field which I have worked in my whole adult life, any chance of me having and supporting a family would also be destroyed, which is something I have always wanted to do. Considering my age, extreme remorse, extensive cooperation, lack of criminal history, personal characteristics, post-offense efforts to address my mental issues which contributed to my offense, and my initiative to begin the process of my rehabilitation, I feel that this would be an appropriate penalty.

Also, just as there are factors which will be considered by the Court when they decide to increase my penalty above the minimum of 1 year probation, I feel that there are several factors which should also be considered by the Court which would likely motivate them to impose a penalty significantly less than the maximum of license revocation.

The factors and circumstances pertaining to my offense which qualify as Mitigating Circumstances in accordance with the Disciplinary Guidelines are:

1) There was no evidence ever presented that there was damage to any patients or to the health, safety, and welfare of the general public as a result of my offense. In fact, in my indictment, pre-sentence report, plea bargain, and sentencing documents, anywhere that there was a space for "victim", it always said "none".

2) I have never had any previous disciplinary history in this or any other jurisdiction where I have practiced pharmacy. Despite working tens of thousands of hours in the field of pharmacy since I was 16 years old, and despite practicing as a pharmacist for several years in numerous Walgreen's and CVS pharmacies which filled well over 1,000 prescriptions per day, I have never been cited for any improper conduct, not even a single miss-fill of a medication. I also have never been convicted of a crime before this incident, not even a misdemeanor.

3) There was no monetary loss suffered by any patients, the public, or the government, due to my offense. In fact, just the opposite happened, since I voluntarily turned over 7+ million dollars to the government on the first day of their investigation, which included a significant amount of money that I earned working as a pharmacist for the 8 years before the year I had my own pharmacy.

4) In spite of my offense, I still have a reputable professional standing among many of my peers. Many other pharmacists close to me and the situation knew that the government placed blame on me for the actions of other individuals which I did not even find out about until they were brought to my attention long after I voluntarily closed my pharmacy for them. Also 2 currently licensed pharmacists wrote character letters to my sentencing judge, which I forwarded to this Court as part of my Exhibit 4. I could easily have had a dozen more pharmacists write similar letters for me if the government did not unexpectedly revoke my bond in order to pressure me to plea to exaggerated charges.

5) I feel that I have taken several significant steps to insure the non-occurrence of similar violations in the future, including continuing education. As far as CE, as part of Exhibit 8, I already sent the Court the Continuing Education Certificates which were available to me that I earned for each course I completed in 2010, 2011, and 2012. Even though I voluntarily stopped practicing as a pharmacist on May 20, 2010 due to my pending criminal case, and despite going through significant legal problems while I was out on bond, I still spent a considerable amount of time completing Continuing Education Courses because I still cared about meeting the requirements to maintain my pharmacist license. I even completed several courses about Opioid Dependence in order to achieve a better understanding of it since my criminal case focused on an opioid medication.

As far as other proactive measures which I have taken in order to insure the non-occurrence of similar violations in my future, these include routinely attending therapy sessions with a Psychiatrist, getting put on and complying with a Psychiatrist's medication regimen, submitting myself to the 500-House In-House Residential Drug Abuse Program (which is the intense program offered by the Bureau of Prisons to help people overcome their addictions), and adhering to the strict guidelines which will be imposed on me during the 3 years of my supervised release subsequent to my release.

After enduring unfortunate learning experiences the past several years, I believe that I definitely learned how to prevent myself from getting into any situations which could have negative impacts on me. I also believe that I have learned how to be more responsible in my choice of the people I associate with in the future. I have completely cut ties with any individuals who were bad influences on me, as well as formed a closer bond with my family members. After going through this horrible experience it became painfully obvious to me that my family members are the only people who actually care about me and still support me. In addition to me being extremely disappointed in myself for getting into this situation, my family, especially my parents who are both physicians, are also extremely disappointed in me as well over it, which has caused me extreme embarrassment, which has been the worst punishment of all. After I am finally able to put this horrible ordeal behind me, I know that I will do whatever positive things I can do, not just for my own sake, but also to make my family proud of me again as well.

6) I have suffered, and continue to suffer, an extreme degree of financial hardship as a result of my offense and resulting closure of my practice. On May 20, 2010, I voluntarily closed my pharmacy for the DEA, gave them all of my medications, and all of my money to "hold on to." I later signed over everything to the government as part of my extensive cooperation, which literally left me penniless. Not only did I turn over everything which I legally earned from my businesses, but part of the seven-plus million I turned over included about 500 thousand that I had saved up the previous 10 years from working hard as a pharmacist at various pharmacies many, many hours.

As a result of losing everything due to this situation, after supporting myself for the past 15 years, I now have to depend completely on my parents for financial support in my late 30's, which causes me additional emotional frustration and embarrassment. Any further imposition of fines would be an extreme hardship considering my current circumstances, but I would be happy to enter into a payment program to pay off any fine which the Court imposes on me as part of my penalty as soon I am able to get my license reinstated on probationary status.

Additional Factors which I feel should also be considered by the Court when determining what my penalty will be for my offense are:

7) I have worked thousands of hours on extensive cooperation with the government concerning numerous significant cases, on top of voluntarily turning everything over. Exhibit 6 is a summary of a lot of the cooperation I have done during the 33 months prior to my sentencing.

8) I was suffering from untreated mental issues during the timeframe of my offense, as well as alcohol dependance and abuse, which I feel contributed to my lapse of judgement back then. Exhibits which support this factor are Exhibit 2 (My Sentencing Transcripts), Exhibit 3 (Psychiatric Medical Records), Exhibit 4 (My Sentencing Memorandum), and Exhibit 5 (Professional Resource Network Documents).

9) I was under serious coercion, duress, blackmail, and extortion during the timeframe of the offense, which significantly contributed to my involvement in the offense. Exhibit 9 (9A & 9B), which are text messages and an email, supports this factor.

10) Since the penalty which will be imposed on me by the Court correlates with my criminal sentence, I feel that the Court should consider the likely imminent reduction of my sentence through various methods when determining my penalty. Exhibits which support this factor are Exhibit 1 (My Pending Appeal), Exhibit 5 (500 Hour Residential Drug Abuse Program Eligibility), Exhibit 6 (Summary of My Cooperation), and Exhibit 10 (Articles about Ensuing Sentencing Reform).

Thus, for these reasons, as well as the fact that I am extremely remorseful for committing an offense related to the practice of pharmacy, and would never dare commit a similar offense in my future, I feel that my proposed recommended penalty is a just and proper resolution to this case. I feel that a 5 year suspension, followed by 2 years of probation is definitely a severe enough punishment for my offense, especially when my mitigating factors, and the circumstances surrounding my offense, are all taken into consideration. I pray that the Court will make a fair and just decision concerning this life-changing matter.

UNITED STATES OF AMERICA

v.

Case No. 8:10-CR-530-T-33AEP

CHRISTOPHER SWITLYK

PLEA AGREEMENT

Pursuant to Fed. R. Crim. P. 11(c), the United States of America, by Robert E. O'Neill, United States Attorney for the Middle District of Florida, and the defendant, CHRISTOPHER SWITLYK, and the attorney for the defendant, Jeffrey Brown, Esq., mutually agree as follows:

A. Particularized Terms

1. Count Pleading To

The defendant shall enter a plea of guilty to Counts One, Five and Six of the Indictment. Count One charges the defendant with conspiring to

1) distribute and possess with intent to distribute quantities of controlled substances, primarily oxycodone, a Schedule II controlled substance, contrary to Title 21, United States Code, Section 841(a)(1);

2) dispense and distribute, and cause to be dispensed and distributed, quantities of controlled substances, primarily oxycodone, a Schedule II controlled substance, not for a legitimate medical purpose and not in the usual course of professional practice, contrary to Title 21, United States Code, Section 841(a)(1);

3) use, and cause to be used, a registration number that was issued to another person in the course of distributing and

dispensing controlled substances, primarily oxycodone, a Schedule II Controlled Substance, contrary to Title 21, United States Code, Section 843(a)(2);

4) acquire and obtain possession, and cause the acquiring and obtaining of possession, of controlled substances, primarily oxycodone, a Schedule II Controlled Substance, by misrepresentation, fraud, forgery, deception or subterfuge, contrary to Title 21, United States Code, Section 843(a)(3); and

5) open, lease, rent, use and maintain, and cause to be opened, leased, rented, used, and maintained, certain places for the purpose of distributing and dispensing controlled substances, primarily oxycodone, a Schedule II Controlled Substance, contrary to Title 21, United States Code, Section 856(a)(1),

All in violation of Title 21, United States Code, § 846.

Counts Five and Six charge the defendant with engaging in monetary transactions, in and affecting interstate and foreign commerce, in criminally derived property of a value greater than \$10,000.00, such property having been from a specified unlawful activity, namely, a conspiracy to traffic in controlled substances in violation of Title 21, United States Code, Section 846, in violation of Title 18 United States Code, Sections 1957 and 2.

2. Minimum and Maximum Penalties

Count One is punishable by a term of imprisonment of up to 20 years, a fine of up to \$1 million, a term of supervised release of at least 3 years, and a special assessment of \$100, said special assessment to be due on the date of sentencing. Counts Five and Six are punishable by a term of imprisonment of up to 10 years, a fine of up to \$250,000, a term of supervised

Defendant's Initials _____

release of not more than three years, and a special assessment of \$100 per count, said special assessment to be due on the date of sentencing.

3. Elements of the Offense

The defendant acknowledges understanding the nature and elements of the offenses with which defendant has been charged and to which defendant is pleading guilty. The elements of Count One are:

First: That two or more persons in some way or manner came to a mutual understanding to try to accomplish a common and unlawful plan, as charged in the Indictment.

Second: That the defendant, knowing the unlawful purpose of the plan, willfully joined in it; and

Third: That the object of the unlawful plan was to That the object of the unlawful plan was 1) distribute and possess with intent to distribute, 2) to distribute or dispense not for a legitimate medical purpose and not in the usual course of professional practice, 3) to use or cause to be used a registration number that was issued to another person in the course of distributing and dispensing, 4) to acquire and obtain by misrepresentation, fraud, forgery, deception or subterfuge, and 5) to use and cause to be used certain places for the purpose of distributing and dispensing, controlled substances, primarily oxycodone, a Schedule III controlled substance, as charged.

The elements of Counts Five and Six are:

First: the Defendant knowingly engaged or attempted to engage in a monetary transaction;

Defendant's Initials _____

Second: the Defendant knew the transaction involved property or funds that were the proceeds of some criminal activity;

Third: the property had a value of more than \$10,000;

Fourth: the property was in fact proceeds of the specified unlawful activity described in the indictment; and

Fifth: the transaction took place in the United States.

4. Counts Dismissed

At the time of sentencing, the remaining counts against the defendant, Counts Two, Three and Four of the Indictment, will be dismissed pursuant to Fed. R. Crim. P. 11(c)(1)(A).

5. No Further Charges

If the Court accepts this plea agreement, the United States Attorney's Office for the Middle District of Florida agrees not to charge defendant with committing any other federal criminal offenses known to the United States Attorney's Office at the time of the execution of this agreement, related to the conduct giving rise to this plea agreement.

6. Acceptance of Responsibility - Three Levels

At the time of sentencing, and in the event that no adverse information is received suggesting such a recommendation to be unwarranted, the United States will recommend to the Court that the defendant receive a two-level downward adjustment for acceptance of responsibility, pursuant to USSG §3E1.1(a). The defendant understands that this recommendation or request is

Defendant's Initials _____

not binding on the Court, and if not accepted by the Court, the defendant will not be allowed to withdraw from the plea.

Further, at the time of sentencing, if the defendant complies with the provisions of USSG §3E1.1(b), the United States agrees to file a motion pursuant to USSG §3E1.1(b) for a downward adjustment of one additional level. The defendant understands that the determination as to whether the defendant has qualified for a downward adjustment of a third level for acceptance of responsibility rests solely with the United States Attorney for the Middle District of Florida, and the defendant agrees that the defendant cannot and will not challenge that determination, whether by appeal, collateral attack, or otherwise.

7. Low End

At the time of sentencing, and in the event that no adverse information is received suggesting such a recommendation to be unwarranted, the United States will recommend to the Court that the defendant receive a sentence at the low end of the applicable guideline range, as calculated by the Court. The defendant understands that this recommendation or request is not binding on the Court, and if not accepted by the Court, the defendant will not be allowed to withdraw from the plea.

Defendant's Initials _____

7. Safety Valve Provision

The United States will not oppose to the Court that it impose a sentence in accordance with the applicable guidelines without regard to any statutory minimum sentence, pursuant to USSG §5C1.2, if the Court finds that the defendant meets the criteria set forth in 18 U.S.C. § 3553(f). The defendant understands that this recommendation or request is not binding on the Court, and if not accepted by the Court, the defendant will not be allowed to withdraw from the plea.

8. Cooperation - Substantial Assistance to be Considered

Defendant agrees to cooperate fully with the United States in the investigation and prosecution of other persons, and to testify, subject to a prosecution for perjury or making a false statement, fully and truthfully before any federal court proceeding or federal grand jury in connection with the charges in this case and other matters, such cooperation to further include a full and complete disclosure of all relevant information, including production of any and all books, papers, documents, and other objects in defendant's possession or control, and to be reasonably available for interviews which the United States may require. If the cooperation is completed prior to sentencing, the government agrees to consider whether such cooperation qualifies as "substantial assistance" in accordance with the policy of the United States Attorney for the Middle District of Florida, warranting the filing of a motion at the time of

Defendant's Initials _____

sentencing recommending (1) a downward departure from the applicable guideline range pursuant to USSG §5K1.1, or (2) the imposition of a sentence below a statutory minimum, if any, pursuant to 18 U.S.C. § 3553(e), or (3) both. If the cooperation is completed subsequent to sentencing, the government agrees to consider whether such cooperation qualifies as "substantial assistance" in accordance with the policy of the United States Attorney for the Middle District of Florida, warranting the filing of a motion for a reduction of sentence within one year of the imposition of sentence pursuant to Fed. R. Crim. P. 35(b). In any case, the defendant understands that the determination as to whether "substantial assistance" has been provided or what type of motion related thereto will be filed, if any, rests solely with the United States Attorney for the Middle District of Florida, and the defendant agrees that defendant cannot and will not challenge that determination, whether by appeal, collateral attack, or otherwise.

9. Use of Information - Section 1B1.8

Pursuant to USSG §1B1.8(a), the United States agrees that no self-incriminating information which the defendant may provide during the course of defendant's cooperation shall be used in determining the applicable sentencing guideline range, subject to the restrictions and limitations set forth in USSG §1B1.8(b).

Defendant's Initials _____

10. Cooperation - Responsibilities of Parties

a. The government will make known to the Court and other relevant authorities the nature and extent of defendant's cooperation and any other mitigating circumstances indicative of the defendant's rehabilitative intent by assuming the fundamental civic duty of reporting crime. However, the defendant understands that the government can make no representation that the Court will impose a lesser sentence solely on account of, or in consideration of, such cooperation.

b. It is understood that should the defendant knowingly provide incomplete or untruthful testimony, statements, or information pursuant to this agreement, or should the defendant falsely implicate or incriminate any person, or should the defendant fail to voluntarily and unreservedly disclose and provide full, complete, truthful, and honest knowledge, information, and cooperation regarding any of the matters noted herein, the following conditions shall apply:

(1) The defendant may be prosecuted for any perjury or false declarations, if any, committed while testifying pursuant to this agreement, or for obstruction of justice.

(2) The United States may prosecute the defendant for the charges which are to be dismissed pursuant to this agreement, if any, and may either seek reinstatement of or refile such charges and prosecute the defendant thereon in the event such charges have been dismissed pursuant to

Defendant's Initials _____

this agreement. With regard to such charges, if any, which have been dismissed, the defendant, being fully aware of the nature of all such charges now pending in the instant case, and being further aware of defendant's rights, as to all felony charges pending in such cases (those offenses punishable by imprisonment for a term of over one year), to not be held to answer to said felony charges unless on a presentment or indictment of a grand jury, and further being aware that all such felony charges in the instant case have heretofore properly been returned by the indictment of a grand jury, does hereby agree to reinstatement of such charges by rescission of any order dismissing them or, alternatively, does hereby waive, in open court, prosecution by indictment and consents that the United States may proceed by information instead of by indictment with regard to any felony charges which may be dismissed in the instant case, pursuant to this plea agreement, and the defendant further agrees to waive the statute of limitations and any speedy trial claims on such charges.

(3) The United States may prosecute the defendant for any offenses set forth herein, if any, the prosecution of which in accordance with this agreement, the United States agrees to forego, and the defendant agrees to waive the statute of limitations and any speedy trial claims as to any such offenses.

(4) The government may use against the defendant its own admissions and statements and the information and books, papers,

Defendant's Initials _____

documents, and objects that the defendant has furnished in the course of the defendant's cooperation with the government.

(5) The defendant will not be permitted to withdraw the guilty plea to that count to which defendant hereby agrees to plead in the instant case but, in that event, defendant will be entitled to the sentencing limitations, if any, set forth in this plea agreement, with regard to the count to which the defendant has pled; or in the alternative, at the option of the United States, the United States may move the Court to declare this entire plea agreement null and void.

11. Forfeiture of Assets

The defendant agrees to forfeit to the United States immediately and voluntarily any and all assets and property, or portions thereof, subject to forfeiture, pursuant to Title 21, United States Code, Section 853, and Title 18, United States Code, Section 982(a)(1); whether in the possession or control of the United States or in the possession or control of the defendant or defendant's nominees. The assets to be forfeited specifically include, but are not limited to, the following:

- (a) \$1,609,520.00 in U.S. currency, seized from Regions Bank on May 20, 2010;
- (b) \$2,545.00 in U.S. currency, seized from Christopher Swittyk on May 20, 2010;
- (c) \$7,960.00 in U.S. currency, seized from Thomas Curtiss on May 20, 2010;

- (d) \$425,730.00 in U.S. currency, seized from VIP Pharmacy on May 20, 2010;
- (e) \$25,630.00 in U.S. currency, seized from Tampa Bay Wellness Center on May 20, 2010;
- (f) Regions Bank cashier's check #5003014747, in the amount of \$42,101.94, seized on May 21, 2010;
- (g) 363 assorted money orders in the amount of \$267,650.00, seized from VIP Pharmacy on May 20, 2010;
- (h) 6 assorted money orders in the amount of \$4,000.00, seized from Thomas Curtiss on May 20, 2010;
- (i) Check #5808 from Infinity Abstract and Title, LLC, in the amount of \$400,000.00, seized on June 3, 2010;
- (j) One Lincoln MKX, Vehicle Identification Number 2LMDU68C77BJ08440, Florida Tag Number ACSG82, titled and registered in the name of Christopher Switlyk, seized on September 7, 2010; and
- (k) the real property, including all appurtenances thereto, located at 2410 Victoria Gardens Lane, Tampa, Florida 33609, the legal description of which is as follows:

HILLSBOROUGH COUNTY, FLORIDA.

PARCEL ID #A2329187200000004000010.

The defendant agrees to execute any further documents necessary
to allow the United States to negotiate the money orders and checks listed

Defendant's Initials _____

above. He also agrees that by entering this plea agreement he is withdrawing his claim to the administrative forfeiture commenced by the U.S. Drug Enforcement Administration of the approximately \$14,418.91 seized from Pilot Bank account number 4127099 on or about April 25, 2012, and is consenting to the administrative forfeiture of those funds.

In addition, the defendant shall be subject to a forfeiture money judgment in the amount of \$10,700,592.00, representing the amount of proceeds, or property derived from proceeds, or property involved in, the offenses to which the defendant is pleading guilty, for which the defendant shall be jointly and severally liable with his co-defendants in this case. The net proceeds from the forfeiture of the assets enumerated above shall be credited toward the satisfaction of this money judgment. The defendant hereby represents that he has no right, title, or interest in any other assets (e.g., cash, personal property, or real property) listed in the Indictment (Doc. 1) or Bill of Particulars (Doc. 67) in *United States v. Fernandez, et al.*, Case No. 8:10-CR-530-T-33AEP.

The defendant agrees and consents to the forfeiture of these assets pursuant to any federal criminal, civil, and/or administrative forfeiture action. The defendant also hereby agrees that the forfeiture described herein is not excessive and, in any event, the defendant waives any constitutional claims that the defendant may have that the forfeiture constitutes an excessive fine.

Defendant's Initials _____

The defendant admits and agrees that the conduct described in the Factual Basis below provides a sufficient factual and statutory basis for the forfeiture of the property sought by the government. Pursuant to the provisions of Rule 32.2(b)(1), the United States and the defendant request that at the time of accepting this plea agreement, the court make a determination that the government has established the requisite nexus between the property subject to forfeiture and the offense(s) to which defendant is pleading guilty and enter a preliminary order of forfeiture. Pursuant to Rule 32.2(b)(4), the defendant agrees that the preliminary order of forfeiture shall be final as to the defendant at the time it is entered, notwithstanding the requirement that it be made a part of the sentence and be included in the judgment.

The defendant agrees to forfeit all interests in the properties described above and to take whatever steps are necessary to pass clear title to the United States. These steps include, but are not limited to, the surrender of title, the signing of a consent decree of forfeiture, and signing of any other documents necessary to effectuate such transfers.

Defendant further agrees to take all steps necessary to locate property and to pass title to the United States before the defendant's sentencing. To that end, defendant agrees to fully assist the government in the recovery and return to the United States of any assets, or portions thereof, as described above wherever located. The defendant agrees to make a full and complete disclosure

Defendant's Initials _____

of all assets over which defendant exercises control and those which are held or controlled by a nominee. The defendant further agrees to be polygraphed on the issue of assets.

The defendant agrees that the United States is not limited to forfeiture of the property described above. If the United States determines that property of the defendant identified for forfeiture cannot be located upon the exercise of due diligence; has been transferred or sold to, or deposited with, a third party; has been placed beyond the jurisdiction of the Court; has been substantially diminished in value; or has been commingled with other property which cannot be divided without difficulty; then the United States shall, at its option, be entitled to forfeiture of any other property (substitute assets) of the defendant up to the value of any property described above and/or in satisfaction of the forfeiture money judgment. The United States agrees to schedule the defendant's polygraph examination promptly upon the Court's acceptance of the plea agreement, and to complete its financial investigation of the defendant within two years. If the United States concludes that the defendant has not retained any proceeds of the charged drug conspiracy, it will extinguish the forfeiture money judgment.

Defendant's Initials _____

This Court shall retain jurisdiction to settle any disputes arising from application of this clause. The defendant agrees that forfeiture of substitute assets as authorized herein shall not be deemed an alteration of the defendant's sentence.

Forfeiture of the defendant's assets shall not be treated as satisfaction of any fine, restitution, cost of imprisonment, or any other penalty this Court may impose upon the defendant in addition to forfeiture.

B. Standard Terms and Conditions

1. Special Assessment and Fine

On each count to which a plea of guilty is entered, the Court shall impose a special assessment, to be payable to the Clerk's Office, United States District Court, and due on date of sentencing. The defendant understands that this agreement imposes no limitation as to fine.

2. Supervised Release

The defendant understands that the offense to which the defendant is pleading provides for imposition of a term of supervised release upon release from imprisonment, and that, if the defendant should violate the conditions of release, the defendant would be subject to a further term of imprisonment.

3. Sentencing Information

The United States reserves its right and obligation to report to the Court and the United States Probation Office all information concerning the background, character, and conduct of the defendant, to provide relevant factual information, including the totality of the defendant's criminal activities, if any, not limited to the count to which defendant pleads, to respond to comments made by the defendant or defendant's counsel, and to correct any misstatements or inaccuracies. The United States further reserves its right to make any recommendations it deems appropriate regarding the disposition of this case, subject to any limitations set forth herein, if any.

Pursuant to 18 U.S.C. § 3664(d)(3) and Fed. R. Crim. P.

32(d)(2)(A)(ii), the defendant agrees to complete and submit, upon execution of this plea agreement, an affidavit reflecting the defendant's financial condition.

The defendant further agrees, and by the execution of this plea agreement, authorizes the United States Attorney's Office to provide to, and obtain from, the United States Probation Office or any victim named in an order of restitution, or any other source, the financial affidavit, any of the defendant's federal, state, and local tax returns, bank records and any other financial information concerning the defendant, for the purpose of making any recommendations to the Court and for collecting any assessments, fines, restitution, or forfeiture ordered by the Court.

4. Sentencing Recommendations

It is understood by the parties that the Court is neither a party to nor bound by this agreement. The Court may accept or reject the agreement, or defer a decision until it has had an opportunity to consider the presentence report prepared by the United States Probation Office. The defendant understands and acknowledges that, although the parties are permitted to make recommendations and present arguments to the Court, the sentence will be determined solely by the Court, with the assistance of the United States Probation Office. Defendant further understands and acknowledges that any discussions between defendant or defendant's attorney and the attorney or other agents for the government regarding any recommendations by the government are not binding on the Court and that, should any recommendations be rejected, defendant will not be permitted to withdraw defendant's plea pursuant to this plea agreement. The government expressly reserves the right to support and defend any decision that the Court may make with regard to the defendant's sentence, whether or not such decision is consistent with the government's recommendations contained herein.

5. Appeal of Sentence-Waiver

The defendant agrees that this Court has jurisdiction and authority to impose any sentence up to the statutory maximum and expressly waives the right to appeal defendant's sentence on any ground, including the ground that

the Court erred in determining the applicable guidelines range pursuant to the United States Sentencing Guidelines, except (a) the ground that the sentence exceeds the defendant's applicable guidelines range as determined by the Court pursuant to the United States Sentencing Guidelines; (b) the ground that the sentence exceeds the statutory maximum penalty; or (c) the ground that the sentence violates the Eighth Amendment to the Constitution; provided, however, that if the government exercises its right to appeal the sentence imposed, as authorized by Title 18, United States Code, Section 3742(b), then the defendant is released from his waiver and may appeal the sentence as authorized by Title 18, United States Code, Section 3742(a).

6. Middle District of Florida Agreement

It is further understood that this agreement is limited to the Office of the United States Attorney for the Middle District of Florida and cannot bind other federal, state, or local prosecuting authorities, although this office will bring defendant's cooperation, if any, to the attention of other prosecuting officers or others, if requested.

7. Filing of Agreement

This agreement shall be presented to the Court, in open court and filed in this cause, at the time of defendant's entry of a plea of guilty pursuant hereto.

Defendant's Initials _____

8. Voluntariness

The defendant acknowledges that defendant is entering into this agreement and is pleading guilty freely and voluntarily without reliance upon any discussions between the attorney for the government and the defendant and defendant's attorney and without promise of benefit of any kind other than the concessions contained herein, and without threats, force, intimidation, or coercion of any kind. The defendant further acknowledges defendant's understanding of the nature of the offense to which defendant is pleading guilty and the elements thereof, including the penalties provided by law, and defendant's complete satisfaction with the representation and advice received from defendant's undersigned counsel. The defendant also understands that defendant has the right to plead not guilty or to persist in that plea if it has already been made, and that defendant has the right to be tried by a jury with the assistance of counsel, the right to confront and cross-examine the witnesses against defendant, the right against compulsory self-incrimination, and the right to compulsory process for the attendance of witnesses to testify in defendant's defense; but, by pleading guilty, defendant waives or gives up those rights and there will be no trial. Defendant knowingly and voluntarily waives any rights defendant has under federal law to a jury determination of any fact affecting defendant's sentence. The defendant further understands that if defendant pleads guilty, the Court may ask defendant questions about the offense to which

Defendant's Initials _____

defendant pleaded, and if defendant answers those questions under oath, on the record, and in the presence of counsel, defendant's answers may later be used against defendant in a prosecution for perjury or false statement. The defendant also understands that defendant will be adjudicated guilty of the offense to which defendant has pleaded and, if such offense is a felony, may thereby be deprived of certain rights, such as the right to vote, to hold public office, to serve on a jury, or to have possession of firearms.

9. Factual Basis

Defendant is pleading guilty because defendant is in fact guilty.

The defendant certifies that defendant does hereby admit that the facts set forth below are true, and were this case to go to trial, the United States would be able to prove those facts beyond a reasonable doubt:

FACTS

From at least beginning in 2008 through November 3, 2010, Luis FERNANDEZ, JR., Luis FERNANDEZ, III, Marco BELTRAN, and Kimberly CURTISS conspired together and with others to operate and maintain pain management clinics, including TAMPA BAY WELLNESS CENTRE at 2137 W. Martin Luther King Blvd, and SUPERIOR INJURY CENTER, located at 1779 West Hillsborough Avenue, Tampa, FL 33603; and from at least beginning in 2009 through November 2010, Christopher SWITLYK (a pharmacist), CURTISS, and BELTRAN conspired together and with others to operate and maintain a

pharmacy, the VIP Pharmacy at 1947 W. Martin Luther King Blvd, (formerly the TNC Pharmacy, previously located at 7902 West Waters Avenue, Tampa, Florida), all for the purpose of causing the unlawful possession, distribution and dispensing controlled substances, primarily oxycodone.

During the time frame of the charged conspiracy, defendant CHRISTOPHER SWITLYK, was a pharmacist with an active license to practice issued by the State of Florida. Defendant SWITLYK owned and operated the TNC Pharmacy, doing business as VIP Pharmacy, at 1947 West Martin Luther King Boulevard, Tampa, Florida, and previously located at 7902 West Waters Avenue, Tampa, Florida. Defendant SWITLYK applied for and obtained the DEA registration for the TNC Pharmacy doing business as VIP Pharmacy, to dispense, administer and prescribe controlled substances in Schedules II through V.

Defendants LOUIS FERNANDEZ, JR., LOUIS FERNANDEZ, III, and MARCO BELTRAN were owners, operators, managers and employees of medical businesses, including but not limited to the Tampa Bay Wellness Centre at 2137 West Martin Luther King Boulevard, Tampa, Florida; and the Superior Injury Center, at 1779 West Hillsborough Avenue, Tampa, Florida, and previously located at 1943 West Martin Luther King Boulevard, Tampa, Florida. Defendants LOUIS FERNANDEZ, JR., LOUIS FERNANDEZ, III, were not medical professionals licensed in any capacity in the State of Florida. Defendant

Defendant's Initials _____

BELTRAN also was an employee and licensed pharmacy technician of the TNC Pharmacy, doing business as VIP Pharmacy, at 1947 West Martin Luther King Boulevard, Tampa, Florida, and previously located at 7902 West Waters Avenue, Tampa, Florida.

Defendant KIMBERLY CURTISS, was an employee of the TNC Pharmacy, doing business as VIP Pharmacy, at 1947 West Martin Luther King Boulevard, Tampa, Florida, and previously located at 7902 West Waters Avenue, Tampa, Florida, and was not a medical professional licensed in any capacity in the State of Florida.

The defendants illegally operated the clinics and pharmacy by causing the issuance of prescriptions for, and the dispensing of, controlled substances, primarily oxycodone, based on prescriptions that had not been issued for a legitimate medical purpose and not in the usual course of professional practice.

Defendants BELTRAN, FERNANDEZ, III, AND FERNANDEZ, JR., in operating the clinics, also allowed or caused many blank prescription pads from the clinics to be sold and/or used and forged with physician's names, signatures, and DEA registration numbers in order to illegally fill and dispense controlled substances out of pharmacies, including the TNC and VIP pharmacies.

Defendants BELTRAN, FERNANDEZ, III, AND FERNANDEZ, JR., in operating the clinics, also assisted patients in obtaining and using false and fraudulent documentation in order to justify the issuance of prescriptions for

controlled substances by physicians and non-physicians from the clinics that had not been issued for a legitimate medical purpose and not in the usual course of professional practice. The total amount of prescriptions for oxycodone issued from the clinics that were forged or otherwise issued illegally were for far in excess of 150,000 pills, in 15, 30, 60 and 80 milligram doses, primarily 30 milligram doses.

Defendants BELTRAN, CURTISS, and others, while employed at the TNC and/or VIP Pharmacies, with the knowledge and concurrence of defendant SWITLYK, illegally filled prescriptions for controlled substances, including oxycodone, at the VIP Pharmacy without the supervision or presence of a licensed pharmacist, knowing that said prescriptions were forged or otherwise not issued for a legitimate medical purpose and not in the usual course of professional practice.

Defendants BELTRAN and SWITLYK also caused and allowed many bottles of Oxycodone to be distributed and sold out of the TNC and VIP Pharmacies to individuals without any prescriptions whatsoever. They would then produce or cause to be produced forged prescriptions and false pharmacy profiles in order to appear that they had legitimately dispensed all the oxycodone that was illegally distributed.

According to data compiled by the Drug Enforcement Administration, and supported by records seized at the VIP Pharmacy during the execution of the

search warrant on May 20, 2010, from January to December 2009, the TNC Pharmacy (Registrant for VIP and former TNC Pharmacy) purchased from various wholesalers a total of 1,541,640 dosage units of oxycodone. Unknown to defendant SWITLYK, this compares to an average of 111,874 dosage units by Florida pharmacies and an average of 62,931 dosage units by pharmacies across the United States during the same time period.

From January 2010 through May 20, 2010, the TNC Pharmacy, d/b/a VIP Pharmacy, purchased a total of 1,241,400 dosage units of oxycodone. Unknown to defendant SWITLYK, this compares to an average of 48,322 dosage units by Florida pharmacies and an average of 15,663 dosage units by pharmacies across the United States during this same time period.

At the time the search warrant was executed at the VIP Pharmacy on May 20, 2010, there were 107,892 oxycodone tablets left in inventory.

Further, the defendants operated the TNC and VIP Pharmacies as a cash business. The oxycodone that the defendants distributed and sold out of the TNC and VIP Pharmacies to individuals without any prescriptions was paid for in cash. The defendants would then conduct financial transactions with the cash proceeds of their drug trafficking activities with the intent to conceal the source of the funds and evade the currency transaction reporting requirements. They would also engage in monetary transactions in excess of \$10,000 with the drug proceeds. Specifically, on or about April 21, 2010, the defendant SWITLYK

purchased, with cash proceeds of his unlawful drug trafficking activity and knowing such cash to be proceeds of his drug trafficking activity, Regions Bank Cashier's Check #5003723063 in the amount of \$36,000, payable to Infinity Abstract and Title, for the purchase of 4102 W. Swann Avenue, Tampa, Florida. This monetary transaction was in and affecting interstate and foreign commerce, as Regions Bank is a federally insured financial institution whose transactions affect interstate and foreign commerce. On or about April 21, 2010, the defendant BELTRAN purchased, with cash proceeds of his unlawful drug trafficking activity and knowing such cash to be proceeds of his drug trafficking activity, SunTrust Bank Official Check #5630799771 in the amount of \$38,000, payable to Infinity Abstract and Title for the purchase of 4102 W. Swann Avenue, Tampa, Florida. This monetary transaction was in and affecting interstate and foreign commerce, as SunTrust Bank is a federally insured financial institution whose transactions affect interstate and foreign commerce.

Further, on or about April 26, 2010, the defendants SWITLYK and BELTRAN knowingly used cash proceeds of his drug trafficking activity to purchase a 2007 Lincoln MKX, VIN #2LMDU68C77BJ08440, from the Cyber Car Store in Tampa, Florida. Specifically, the defendants SWITLYK and BELTRAN structured in an attempt to evade the currency reporting requirements (that is, split cash deposits into amounts under \$10,000). The defendants SWITLYK and BELTRAN then caused the transferred \$20,650, via SunTrust Cashier's

Check #5630846562 from the Macron Technologies account, to the Cyber Car Store for the purchase of the Lincoln vehicle. This monetary transaction was in and affecting interstate and foreign commerce, as SunTrust Bank is a federally insured financial institution whose transactions affect interstate and foreign commerce.

Further, the defendant and the United States agree that the proceeds, or property derived from proceeds obtained directly or indirectly from, or property involved in, the offenses to which the defendant is pleading guilty, including but not limited to the items listed for forfeiture above (Section A.11) is at least \$10,700,592.00. Additionally, because the TNC and VIP Pharmacies were used to commit and facilitate the commission of such offenses, any property of the business, including at least \$10,700,592.00 obtained from the sale of oxycodone, is subject to forfeiture. Accordingly, the parties agree that for forfeiture purposes, the defendant shall be jointly and severally liable with his co-defendants in this case for a forfeiture money judgment in the amount of \$10,700,592.00.

10. Entire Agreement

This plea agreement constitutes the entire agreement between the government and the defendant with respect to the aforementioned guilty plea and no other promises, agreements, or representations exist or have been made to the defendant or defendant's attorney with regard to such guilty plea.

21) late-August 2012 to September 3, 2012: After finding out that Judge Covington refused to extend my trial date for him again, Brown immediately switched from "trial mode" to "plea mode", and he did not even want to entertain the option of going to trial anymore. Brown told me that there was no way he could be ready in a week to adequately defend me at my trial so that I had to figure out what I felt absolutely needed to be changed in the government's plea offer for me to consider signing it. Brown told me that he already had Peluso insert the safety valve provision in my plea bargain but that I was always going to get it, even if it wasn't in there, especially since I had no prior criminal convictions. Brown told me that he would be able to get Peluso to compromise on certain matters in my plea bargain, especially since she did not want to have to cancel her entire vacation plans to try my case, which she was also unprepared to do. Brown told me that we definitely had huge leverage to convince Peluso to make some concessions for my plea bargain and drastically improve the terms in it. Thus, we thoroughly went over what I felt absolutely needed to be changed in order for me to be willing to sign it, including reducing the pill count in it, taking out the money laundering counts, taking out any forfeiture lien against me, and guaranteeing no enhancements be applied to me at my sentencing.

22) late-August 2012 to September 3, 2012: Brown told me that since my trial date was fast approaching that my best option would be to plead guilty, especially since he had already opened the door back up to cooperation with the government by helping me initiate the case against Joanne Estephan. Brown told me that he was very confident that he would be able to secure a lot of credit for substantial assistance from the government by the time I would be sentenced. Brown told me that he would make sure that I would get as much cooperation credit as possible for what I did so far, as well as whatever I did up till my sentencing, which he estimated could give me anywhere between 4 to 8 levels off my offense level as a 5K-1 motion by the time I was sentenced, if not more. Brown also told me that I would also definitely be getting a 5K-2 motion which would take another 6 to 12 levels off for voluntarily turning everything I had over to the government 7 months before even being indicted, showing an extraordinary level of acceptance of responsibility.

23) late-August 2012 to late-February 2013: Brown also told me that if I was still cooperating on any ongoing cases when I was sentenced that I would be getting 3 to 6 levels off each time one of them was resolved in a Rule-35 motion. When Brown was convincing me to sign the government's plea offer in early September of 2012, he assured me that he would handle any future Rule-35 motions that I may need, and agreed that the money I already paid him covered his representation for them.

24) late-August 2012 to September 3, 2012: While Brown was convincing me that I needed to plead guilty, he told me that he would make sure I received cooperation credit for my significant contribution to at least 4 different cases by the time I was sentenced, or soon after my sentencing. These included the cases against Heromin, Weiler, Patel and Estephan. Brown told me based on what I could provide to each case that it would undoubtedly qualify as substantial assistance for me for each one of them. Brown estimated that for each concluded case that I would receive anywhere from 3 to 6 levels off my offense level either as a 5K-1 before my sentencing or as a Rule-35 after my sentencing. Brown told me that this was on top of the cooperation credit he expected me to receive for all of the other cooperation matters I have already done, as well as for all of the relevant information I provided against numerous individuals, while I was out on bond, which he told me I should receive at least 4 levels off for those efforts. That was also on top of the 6 to 12 levels off Brown guaranteed me that I would receive for voluntarily turning everything over. I asked Brown to please have something put into writing assuring that I would be getting at least 4 levels off for everything I had done up to that point, and would be eligible for additional levels off for at least those 4 pending cases. However, Brown told me that the government never puts that type of thing in a plea bargain or in writing. Brown told me that the government never guarantees levels off for a person's cooperation before they sign their plea bargain. Also, Brown told me that he had a strategy that he was implementing in order to maximize the amount of levels that I would be getting off my offense level as a 5K-1 for cooperation at my sentencing. Brown told me that he wanted me to sign a plea bargain and was then going to help initiate as much cooperation for me as possible, which I would work on as much as I could before I was sentenced. That way Brown said he would be able to push the government to agree to give more levels off than he could before I signed a plea bargain because I would have been actively cooperating with them everyday for several months by the time I was sentenced, thus earning much more levels off at that point.

25) early-June 2012 to September 3, 2012: One of the main things I told Brown was a definite deal breaker which had prevented me from signing the plea bargain the past 18 months was the the excessive pill count in it. I told Brown that if a dosage of 30mg were used to calculate my base offense level, with the pill count of 150,000 listed in the plea offer, that it would equate to a base offense level of 38, which was the highest base offense level possible for the drug conspiracy charge. Brown agreed with me that the pill count of 150,000 pills in the plea offer was extremely excessive and inflated by the government, and that it would be impossible for them to prove that I was responsible for even a fraction of that amount of pills being illegally distributed from my pharmacy during the alleged conspiracy. Brown even told me that it made no sense for me to sign a plea bargain with such a high pill count in it because I could not receive any worse of a base offense level even if I went to trial and lost. I went over the same calculations with Brown that I had with Crawford and Foster, that showed him the range of how many oxycodone 30mg pills would equate to base offense levels of 32, 34, and 36. Brown told me that he was going to try and get Peluso to reduce the pill count in my plea offer to 14,900 units or less, which would equate to a level 32, but would settle on a pill count of 47,750 or less, which would equate to a base offense level of 34 at worst. During this timeframe Brown assured me numerous times that he would definitely be able to get Peluso to substantially reduce the pill count in my plea offer before he would recommend me to sign it. After Brown met with me several times about my plea bargain and we discussed the the pill count, he told me that I should consider signing it even if he was able to reduce the pill count by only 750 pills for me to 149,250 pills or less, because even a reduction of 750 pills would equate to a base offense level of 36 using 30mg pills. Brown told me that he would never consider recommending me to even sign a plea bargain if he thought for a moment that it would start me off at anything higher than a level 36.

26) early-September to September 3, 2012: At one of the later meetings that I had with Brown about my plea bargain, he told me that he had good news and bad news about the pill count situation. Brown told me that the bad news was that he tried, but could not get Peluso to reduce the 150,000 pill count in my plea offer. Brown told me that Peluso refused to budge on this amount because everyone else in my conspiracy who already plead guilty already signed their plea bargains with this amount in them and that "it would not be fair to everyone else" if she agreed to a lower number of pills in my plea bargain. Peluso told Brown that she wanted everyone in the conspiracy to have the same pill count and start off at the same base offense level. Then Brown told me that the good news was that he had talked to the attorneys who were representing my co-defendants, as well as Diane Tremmel, the probation officer who was in charge of determining the offense level for each of us. Brown told me that based on his conversations with them that he confirmed that the 15mg dosage unit would be used to calculate the base offense levels for each person, not 30mg pills. Brown told me that Tremmel planned to use the 15mg pill strength to "keep things conservative" as a consolation for us all agreeing to plead guilty to the conspiracy. Brown already had a copy of Beltran's Pre-Sentence Report in which Tremmel used the 15mg dosage to calculate the offense level for him so he told me that based on that and his conversations that is what would be used for everyone. Thus, Brown told me that even though he was not able to reduce the pill count, at 150,000 pills my base offense level would be a level 36. Brown pointed out to me that this was what he had guaranteed me all along, that I would not start higher than a level 36 for my sentencing offense level if I signed a plea bargain while he represented me.

27) early-June 2012 to September 3, 2012: I had many conversations with Brown during this timeframe about the ridiculous money laundering charges which Peluso included in my plea bargain. I told Brown that there was no way I was going to agree to plead guilty to 2 counts of money laundering when I had never laundered a single cent of money in my life, especially since they never sought the same charges against Louis Jr, Louis III, and Curtiss. If anyone should have been charged with laundering money it should have been those 3 people since they were the ones who had actually illegally made millions of dollars in cash and successfully hidden it all from the government so that they could not get it taken from them. I, on the other hand, had records showing that I had legally earned all of the money which I voluntarily turned over to the government. Yet I was being charged with money laundering counts for withdrawing my own money, from my own bank account, as cashier checks to be used towards a house I never even bought. I explained to Brown that I was completely against pleading guilty to any type of money laundering charges, not only because I was innocent of them, but also because then that would prevent me from being able to pursue any type of career in the financial field in my future. Considering that my career options in the medical field would likely be severely limited after pleading guilty to a felony drug charge, I definitely did not want a felony money laundering charge to also severely limit my future job opportunities as well.

DATE: 01/15/2014 07:01:06 PM

28) September 3, 2012: Brown told me that he tried but could not get Peluso to take out the money laundering counts in my plea bargain. He said Peluso told him she needed them in there so the government could justify keeping all of my money I legally earned, which I voluntarily turned over to them, which I was agreeing to let them keep as part of my plea bargain, in exchange for a significant sentence reduction. Brown explained to me that in a weird way it actually benefited me to have those money laundering counts in my plea bargain because it guaranteed me to a significant reduction off my eventual sentence for everything I turned over to the government. Brown told me that Peluso would only give me the 6 to 12 levels off as a 5K-2 motion for voluntarily turning over all of my money to the government if I plead guilty to the money laundering charges for her. Brown told me that Peluso promised him that she would file a 5K-2 motion for me, which would take a minimum of 6 levels off my offense level at my sentencing, if he convinced me to plead guilty to the 2 money laundering counts. I told Brown that agreeing to 2 money laundering charges when I have never laundered any money in my life was out of the question, especially since Louis Jr, Louis III, and Curtiss did not have to admit to even one count of money laundering. I told Brown that even Foster told me over a year earlier that Peluso told him she was willing to allow me to plead guilty to just one of the four money laundering counts that were in the indictment. However, Brown told me that since Beltran already plead guilty to 2 money laundering counts as part of his plea bargain, that Peluso wanted me to plead guilty to 2 counts as well. Brown also told me that pleading guilty to 1, 10, or a 100 money laundering counts would not affect my potential sentence or the outcome of my case one bit. Brown assured me that pleading guilty to money laundering would not add even one day to my drug conspiracy sentence, and that it would guarantee me to receive a 5K-2 motion from Peluso, which would take a lot of time off that sentence. I told Brown that it made no sense that I would have to plead guilty to money laundering counts just so the government could keep my legitimately earned money. I also said that I did not understand why Peluso was making me plead guilty to money laundering in order to receive a 5K-2 motion for everything I turned over. I told Brown that as long as I was getting a 5K-2 that the government could keep everything, with or without the money laundering counts in my plea bargain. I told Brown that I did not care if those money laundering counts did not add any additional time to my sentence or not, but that I was still not pleading guilty to any of them. Brown told me that he was going to continue to work on this and would do everything he could to get them removed from the final version of my plea bargain.

29) late-August 2012 to September 3, 2012: I told Brown that the only way I would sign Peluso's plea offer with the 2 money laundering counts in it is if she put something into writing guaranteeing that I would receive at least 8 to 10 levels off my sentencing offense level as a 5K-2 for everything I turned over. Brown told me that he would either get the money laundering counts removed or get what I asked for put into writing by Peluso by the time I had my change of plea hearing and would be back to go over it with me. However, Brown told me that Peluso had still not made up her mind about how many levels she would authorize to be deducted for me as a 5K-2, but promised that it would be at least 6 levels. Brown told me that if he pressured Peluso to put something into writing at that time, guaranteeing that I receive a certain number of levels off for turning everything over as a 5K-2 to be applied at my sentencing, that she would likely only concede to give me 6 levels off at that point. Thus, Brown told me that it was a bad idea to force Peluso to decide on, and lock in a certain number of levels off for turning everything over as a 5K-2 to be applied at my sentencing because he was very confident that, in between the timeframe of my change of plea hearing and the time of my sentencing hearing, that he would be able to convince Peluso to agree to authorize much more than 6 levels off for my 5K-2, and possibly up to 12 levels off my offense level for it by the time I would be sentenced. Brown told me that since I may not even be sentenced for a year or more that it would not be in my best interest to make it a requirement that Peluso include something in my plea bargain at that point in regards to my 5K-2 because if I forced the issue then I would be stuck with only getting 6 levels off for everything I turned over when I deserved much more than that. Brown said that once I agreed to receiving only 6 levels off for everything I turned over as a condition of my plea bargain then it would be pretty much "set in stone" and it would prevent him from being able to argue for me to get up to "twice that many levels off" for my 5K-2. Thus, Brown told me that I would be "shooting myself in the foot" if I demanded that Peluso put in writing that I was guaranteed a certain number of levels off as a 5K-2 at that point because I would probably end up leaving a lot of time off my potential sentence on the table. Brown also told me that since the DEA agents told me and Weed on the first day of the raid that I would only be facing 2 to 3 years in prison at most if I turned everything over to them then, that he would be able to continue arguing that angle on this matter "up until the moment I am sentenced" to be given up to 12 levels off for my 5K-2, especially since that is how many levels I would probably need off in order to get down to that type of sentence if I did not get more than 4 levels off for cooperation matters as a 5K-1. Thus, Brown told me that he was going to try to get Peluso to do both, remove the money laundering counts and get something put something into writing securing a 5K-2 motion to be applied at my sentencing. However, Brown told me that he had a better chance getting Peluso to secure a 5K-2 motion for me than removing the money laundering counts.

30) September 3, 2012: Brown was against pressuring Peluso to write something up concerning my future 5K-2 motion if she was not going to agree to give me at least 8 levels off for everything I turned over because he was positive he'd be able to convince her to authorize at least that many off by the time I was sentenced. Brown also told me that he has worked with Peluso on many cases and that she has always followed through with her promises and been true to her word with him, so that I would always be able to get at least the 6 levels off for my 5K-2 motion without it being in writing, as well as any other promises she made him about my eventual sentence, such as no enhancements being applied to it. Brown said Peluso had no reason to lie to him about something that had been promised to be from day 1 of the government's investigation. Brown told me that Peluso, and other AUSA's he works with, have always kept their promises about these types of things because they have to work with him on many cases in the future. I told Brown that I did not care how great his relationship was with Peluso and other AUSA's and that in order for me to agree to a plea bargain that I still needed to have something in writing, even if it only guaranteed 6 levels off for my 5K-2 motion.

31) late-August 2012 to September 3, 2012: Brown told me that I should turn over the \$14,418.91 that the government froze in my personal bank account on April 24, 2012, which was nearly 2 years after I turned everything over and closed my pharmacy for them. I explained to Brown that it can be easily proven that every penny of that money was legally earned and had nothing to do with VIP Pharmacy. I thought it was absurd that the DEA was even able to freeze my only bank account 2 years after I turned everything over to them. I told Brown that any attorney should be able to get this money returned to me if they actually bothered to bring this matter in front of a judge. I told Brown that I really needed that money to live off while I was in jail and/or prison. Brown told me that Caroll was still holding onto plenty of my money and gold coins and that I should not worry about a lousy \$14,418.91, especially when he could get me an extra level off my offense level for my 5K-2 if I let the government keep it. Brown told me if I allowed the government to keep that money, which they had no legal right to, it would show a huge gesture of good faith on my part. Thus, Brown told me that he would easily be able to get 1 extra level for my 5K-2 if I let the government keep this money on top of everything else that was in my plea bargain. Thus, Brown told me that the minimum amount of levels I could get as a 5K-2 at that point is 7 if I let them keep my \$14,418.91 in my personal account at Pilot Bank. Brown told me that if he argued with the government to release this money, that it would piss off Peluso and make it harder for him to get all of the levels I deserved for my 5K-1 and 5K-2 motions, which she had already promised to give me. Thus, even though I vehemently protested, Brown convinced me to let the government keep the last of my money in a bank account by guaranteeing I would receive at least 1 extra level off my offense level at my sentencing for doing so, as well as because of his other statements about doing what Peluso wanted.

32) June 2012 to September 3, 2012: I discussed the forfeiture lien the government wanted included in my plea bargain with Brown many times during this timeframe and he agreed with me that it being in there should be an absolute deal breaker. I told Brown that there was absolutely no way that I would sign a plea bargain that had anything in it saying that the government could potentially take any additional money or belongings from me than they already had. I told Brown that if there was anything in the plea bargain like that then it was an absolute deal-breaker and that I rather go to trial on everything then sign something stating that I somehow owe the government even one penny. I told Brown that I voluntarily turned over absolutely everything I had ever made, since I began working at the age of 16, to the government on May 20th and May 21st of 2010, and had worked very hard for everything I ever earned. I legally earned all of the money I had turned over to the government and had records to prove it which I showed to Brown. Brown agreed with me that I should not even have to sign over everything that I legally earned to them, but that the only reason he recommended not fighting to have any of it returned at that point was because I was definitely going to be getting a tremendous 5K-2 for letting the government keep it, which was going to give me a significant reduction of my sentence.

33) late-August 2012 to September 3, 2012: During the timeframe Brown was convincing me to sign a plea bargain, he went over my forfeiture notices with me and pointed out that everything I turned over to the government was not listed in the assets sections of it. Brown told me that he would be able to get back whatever was not listed in my plea bargain after I was sentenced. Brown specifically pointed out that the nearly 2.5 million (\$2,491,850.00) in cash which I turned over at Regions Bank, the \$917,407.98 Cashier's Check I turned over at Wachovia Bank, and the \$9,740 cash from my house were all not listed in the "Forfeiture of Assets" section of my plea bargain. Brown told me that as a consolation for agreeing to sign over my rights for everything on the assets that "were listed" in my plea bargain, that "the government was leaving the door open for him to recover the items which were not listed", which totaled nearly 3.5 million dollars of my money. Brown told me that the strong possibility of being able to get that money back gave me even a bigger reason not to want any type of forfeiture lien against me so he promised me that he would definitely have it removed from my plea bargain before he would allow me to sign it. Brown also told me that unlike Foster, who wanted 40% of my money he recovered, that he only wanted 30%, and that he would start working on this after I was sentenced. Brown agreed with me that if Peluso was not going to budge on the forfeiture lien matter that he rather take my whole case to trial because if he was able to win an acquittal, which he thought was a decent possibility, then the government would be forced to return absolutely everything that I turned over to them that was actually accounted for, which was over 7 million dollars counting the cost of my medications.

34) June 2012 to September 3, 2012: When discussing the forfeiture lien the government had in their plea offer with Brown, I explained to him multiple times that the way they came up with their figure was complete nonsense. Brown agreed with me that they seemed to be just making up figures in order to come up with the ridiculous amount of \$10,700,592.00 for the forfeiture lien. I showed Brown a breakdown of my VIP Pharmacy records for the entire time it was open, which clearly proved that the average price that oxycodone 30mg pills were sold for was about \$1.50 per pill. In fact, the first 9 months I had my pharmacy open, I sold the majority of oxycodone for less than \$1, even as low as \$0.70 to many patients. It was not until after I moved the pharmacy in October of 2009 next to Louis III's clinic, Superior Injury Center, that the oxycodone prices approached \$1 per pill, and slowly increased to about \$2.25 per pill over the next 6 months. I have documented records that the amount charged for oxycodone at VIP Pharmacy when it was open was nowhere near the figures the government stated in their plea offer. In the plea bargain the government stated that, "According to witnesses interviewed and records seized during this investigation, the price for oxycodone sold by the VIP Pharmacy for prescriptions was between \$2.00 and \$4.00.", which is completely baseless, as well as their "\$6.00 to \$7.00 per pill range" without a prescription, which as far as I knew was \$4.25 to \$4.50 for a miniscule amount of pills compared to the amount sold to patients with valid prescriptions. I even talked to Fernandez Jr, Fernandez III, Beltran and Curtiss about this matter after we received the plea offers and they all said they had no idea where the government came up with those figures and agreed that they were extremely excessive and completely inaccurate. However, they all told me that they did not care about signing the plea bargain with the inaccurate lien amount in their since they all had millions saved away that the government would never be able to find so they did not bother arguing about the false information pertaining to the lien. Brown agreed with me that on top of having that lien removed from my plea bargain that he would also have the false statements related to the alleged sale prices of oxycodone at VIP Pharmacy when it was open removed as well.

35) early-September to September 3, 2012: Brown had Carroll tell me to go through my copy of the plea offer and mark any sections that would absolutely need to be changed in order for me to agree to sign it so I did. Brown said he was going to come see me to go over the current plea offer so I went through my only copy of it and made circles and notes indicating the things I wanted to be removed and/or changed in it. I also wrote that I wanted there be to be something included guaranteeing that I would not be subject to any enhancements at my sentencing, like Beltran would be according to his PSR. Also, during this timeframe Brown had told me that Beltran's new attorney, Lourderback, and Peluso, both objected to Tremmel's sentencing enhancements, and had them all successfully removed. A few weeks earlier I had been moved to another unit in the jail and was unable to communicate with Beltran. The last time I had talked to Beltran he planned to revoke his plea because of the potential sentencing enhancements and Lourderback was just assigned to his case. However, Brown told me that since the government was no longer applying sentencing enhancements to Beltran, he decided not to revoke his guilty plea.

36) September 3, 2012: Brown came to see me at the jail and spent 2 hours convincing me that I needed to sign a plea bargain as soon as possible because my trial was set to start the following week. We went through every page of the plea offer that I had made notes and Brown agreed with me that everything I wanted changed in it should be changed before I agreed to sign it. The main things we focused on were the removal of the forfeiture lien, the false "facts" that were in it, and a guarantee that I would receive no enhancements at my sentencing. Brown told me that he would be able to have all three of these changes made to the final version of my plea bargain, especially since I was willing to even agree to money laundering counts that he even agreed Peluso would never be able to prove, as long as he secured my 5K-2 motion with something in writing.

37) September 3, 2012: Brown also brought a clean copy of the current plea bargain and told me to initial the pages of it which were acceptable to me without changes being made to them. Brown also had me initial the front page and sign and date the last page of the plea bargain because he told me that he was going to use this to show Peluso that I was serious about signing a plea bargain for her. Brown told me that by showing Peluso this it would help him convince her to make the changes to the pages in the middle of the plea bargain that we wanted to be made. Brown told me that he was very confident that he would be able to get Peluso to agree to the requested changes which were very reasonable, especially since she was scheduled to leave on vacation for 2 weeks later that week. Brown told me that he was scheduling a change of plea hearing for me in 2 days, on September 5, 2012, because Peluso was leaving for vacation the following day. Brown told me that he would definitely come back to see me with the final version of the plea bargain the next day so I had a chance to go over it and make sure that all of the changes were acceptable. Brown assured me that I would have plenty of time to thoroughly go over it before I had to initial each page and sign the revised plea bargain. Brown took my only copy of the plea offer that I marked up and the clean copy he brought with him which I signed the back page of. I asked Brown to please bring back the plea bargain I marked up for him so I could compare it to the revised one he brings me the next day and he said he would.

38) September 4, 2012: Brown never came back to the jail to see me about the changes he was supposed to have made to my plea bargain before my "change of plea" hearing scheduled for the following day. I called his office and his paralegal Jennifer told me that he was going to be out to see me that day. Then after waiting around all day for Brown to come, I tried to call him on his cell phone several times but he did not answer. When I talked to Carol later that day she told me that Brown texted her and said he was going to come see me that night. However, Brown never came to see me that day or night before my "change of plea" hearing. When I talked to Carol again that night before lockdown she told me she talked to Brown on the phone. Carol said Brown told her that he had spent the whole day working really hard on getting all of the changes I wanted made in my plea bargain which is why he was not able to come see me. Brown told her that he was able to get everything I wanted changed in my plea bargain and that "I would be really happy with it" when I saw it the next day. Brown told her that he would come see me in the holding cell before I was brought out to the court hearing to show me the revised plea bargain with all of the changes he was able to get made in it so I had time to thoroughly review it before I initialed the rest of the pages and signed it. I asked Carol to text Brown and ask him to bring the original plea bargain that I marked up so I could compare it to the revised plea bargain to make sure that everything I wanted changed was done so. Carol texted him and he replied back for me "not to worry so much" and that he "would bring both of them back to the holding cell area at least 30 minutes before my hearing so that I had plenty of time to review them and the changes".

39) September 5, 2012: I never feel asleep the previous night due to stressing out about Brown not coming to see me the previous day to go over the revised plea bargain before my court date for my "change of plea hearing". That morning I was taken from my jail unit around 3:30AM, placed in various holding cells, and then transported to the Federal Court House in Tampa, arriving there around 7:00AM. I sat in the main holding cell for several hours waiting for Brown to come see me before my change of plea hearing. Then I was moved to the holding cell just outside the courtroom my hearing would be conducted in, where I sat for about an hour, fully expecting that Brown would come see me back there. I could barely think straight that day because I was so tired, on top of being extremely mentally and physically exhausted over the whole situation. I was stressing out the entire time I sat in those holding cells waiting for Brown to come see me because all I wanted was some time to review the revised plea bargain before I agreed to sign it. I fully expected Brown to come see me at least 30 minutes before my hearing began so I could go over the final version of the plea bargain with him. I also expected Brown to bring my copy of the old plea bargain that I marked up indicating what I wanted changed on it and the revised plea bargain with the changes made to it so I could compare them to each other. Brown never bothered to come to either holding cell I was held in to show me copies of the original plea bargain and the revised plea bargain. When it was time for my change of plea hearing I was brought out to the courtroom in chains and shackles and Brown and Peluso were at the attorney tables, which were literally less than a 100 feet from the holding cell I was kept in the past hour. Carol Delo, Jane Delo, and Jeanne Bush were seated in the courtroom as well.

40) September 5, 2012: I asked Brown why he did not come see me at the jail the previous day or even come see in the holding cell before my court hearing. I said that Carol told me that he was definitely going to come see me in the holding cell so that I could go over the revised plea bargain, especially since I did not even want to sign it unless all of the changes I requested were made to it. I was so upset with Brown that he put me in that situation and it was really awkward to even try to talk to him about it with Peluso less than 15 feet away from us. Brown told me "to relax" and that he had "gotten everything changed which I asked to be changed" in the plea bargain. I asked him for the copy of the plea I had marked up indicating the changes I wanted made so I could compare them and he told me that he "forgot to bring it" for me. I told Brown that Carol even reminded him to bring it last night, and he just said, "Sorry, I forgot, there's nothing I can do about it now, the judge is going to be coming out in a minute". Just look it over real quick. It's good." I began looking over the revised plea bargain and I told Brown that it looked pretty much the same as the one I refused to sign. Brown told me that he "did the best he could with it" and to "go ahead and initial each page and sign it" for him so we could "start the hearing". I spent the next 7 to 10 minutes rushing through the amended plea bargain, trying to remember off the top of my head the best I could all of the things I wanted changed, removed, and added to it before I would agree to sign it. It did not take me very long to realize that pretty much everything Brown assured me would be changed, removed, and added to my amended plea bargain was not done as he had promised me the last time I saw him.

41) September 5, 2012: During the few minutes I had before Judge Porcelli came out, the first thing I asked Brown about is if he had everything about the forfeiture lien removed from my plea bargain. Brown told me that he had the whole section explaining how the government came up with their absurd figure for the forfeiture amount removed because he was able to convince Peluso that the government's estimated prices for oxycodone sold at my pharmacy were not accurate and extremely inflated. Brown also told me that he was able to get Peluso to agree to remove the entire forfeiture lien after I passed a polygraph examination showing them that I did not retain any proceeds from VIP Pharmacy. I asked Brown how long that process would take to complete and he told me that he would get it all taken care of "within 2 to 3 months, tops". I told Brown that is not what I agreed to and that I did not want to sign the plea bargain if there was any type of lien in it. Brown told me that the revision he had inserted in the plea bargain was the exact same thing as getting the forfeiture lien completely extinguished. Brown told me that the lien would only be in place temporarily and that it would be "long gone" by the time I was sentenced. Brown also told me not to make a big deal about these conditions concerning the lien because he was able to get Peluso to leave out nearly 3.5 million dollars of my money in the "list of assets" which he said he would try to get back for me as soon as he had the lien extinguished. Brown told me that was the best he could do and that if I refused to initial the pages of the plea bargain with the stipulations for getting the lien removed then Peluso would add that money to the list of my assets to be forfeited into my plea and then he would not be able to get any of it back for me. I was never even given the opportunity to carefully read through the actual stipulations Brown had added to my plea bargain concerning the forfeiture lien, but I reluctantly initialed the pages based on what he told me and promised me. The only reason I even agreed to that plea bargain with something about a forfeiture lien in it was because Brown promised me that he was going to have it completely extinguished within 2 to 3 months and would then recover nearly 3.5 million dollars of my money which was not included in it. Discussing the forfeiture lien situation with Brown ate up most of the little bit of time I had to review and discuss the amended plea bargain with Brown before Judge Porcelli came out to conduct my change of plea hearing.

42) September 5, 2012: I also saw that there were money laundering counts still in my amended plea bargain which I complained profoundly about to Brown. I asked him why he told Carol the previous night that he had everything changed in my plea bargain that I wanted changed if there was still something about a forfeiture lien and money laundering counts in it. I told Brown, "Now I know why you did not come see me yesterday or before this hearing, because you knew I was not going to be happy with it. I can't believe you actually told Carol that I would be really happy with this plea bargain because I don't think I could be more unhappy about it than I am. I told you a hundred times that I was not going to sign any plea bargain with a forfeiture lien or money laundering counts in it." I was very upset that Brown lied and told Carol that he was able to get everything I asked about changed for me. Brown told me to calm down and not to make a scene, especially when Peluso was less than 15 feet away from us. Brown told me that he tried his best to get Peluso to remove both of the money laundering counts, or even one of them, but he said she wouldn't budge on this matter because she felt she needed to have them in there in order to justify the government being able to keep all of my money I was turning over to them for a 5K-2 motion, especially since she knew that I had records proving that I legally earned it all. Brown told me that getting a significant 5K-2 motion is well worth pleading guilty to 2 money laundering counts that are not going to add any time to my sentence, and he again promised me that he would have the forfeiture lien completely extinguished within 3 months.

43) September 5, 2012: Since there were still money laundering counts in my amended plea bargain I asked Brown to show me where my guarantee was that I would receive a 5K-2 motion in it. I told Brown that he promised to get me something in writing about my 5K-2 motion if he expected me to plead guilty to any money laundering counts. Brown told me that Peluso could not put something into writing for me on such a short notice because she had to check with her boss before she could authorize something like that but that she promised Brown that she was going to give me at least 6 or 7 levels off for my 5K-2. I told Brown that was bullshit and that I needed something in writing stating this, and something about the extra level off for also giving the government the \$14,418.91 in my personal bank account as well. Brown told me that it "is almost impossible" to get those sort of things in writing, "especially on such short notice". I told Brown that he was the one pushing me into agreeing to a plea bargain in less than a week after telling me for 2 months that we had plenty of time for further negotiations and/or time to prepare for trial. Brown told me that Peluso is not going to lie about something that I had been promised since the first day of the investigation, and that it would "be impossible for me not to get a huge deduction for everything I voluntarily turned over". Brown told me that he has never seen a prosecutor or judge not give a significant deduction to a defendant who voluntarily turned over money to the government, and considering that I turned over an enormous amount of money which I legally earned, that "I was worrying about this for nothing". Brown told me that he would have Peluso come talk to me about it herself but before he went over to talk to her I realized more more stuff was missing from my amended plea bargain that Brown promised me would be in there.

44) September 5, 2012: While trying to skim through my amended plea bargain as fast as I could, I could not find anything in it guaranteeing me that I would not be subject to any sentencing enhancements and I asked Brown where Peluso had added it. Brown told me that he talked to Peluso about it for me and that she told him that she was not going to "enhance any of us" but that she never puts something like that into a plea bargain. Brown said Peluso told him that she already agreed to remove all of the enhancements Tremmel tried to apply for Beltran, and that she would contest any enhancement for me as well. I told Brown that was not good enough, and that he promised me that I would have something in writing stating that I would not be subject to any enhancements at my sentencing. I told Brown that he knew that having this added to my plea bargain was my top requirement before I would agree to sign it. Brown told me that sort of stuff is not put into writing and it is worked out and agreed upon between the attorneys and that he orally secured an agreement with Peluso concerning this matter on my behalf. Brown said he tried to have Peluso put something into writing about this as well for me but that she also told him that she had no control over what the probation officer decided to do as far as applying enhancements for anyone. However, Peluso told him that she agreed to contest any enhancements that Tremmel would possibly try to apply to me, but that she did not think that Tremmel would even try, especially since Peluso had the ones she applied to Beltran removed. Brown told me that he definitely did not expect any enhancements to be applied to me after discussing it with Peluso, and that I was worrying myself about it for no reason. I told Brown that he must be able to get something in writing for this matter, and something guaranteeing my 5K-2, even if they were separate documents not part of my plea bargain, and if he didn't, then I was not going to initial and sign the amended plea bargain.

45) September 5, 2012: Brown told me he was going to talk to Peluso about both, the enhancement situation and about credit for everything I turned over, because I was making such a deal about those things. Brown left the table and talked to Peluso for a few minutes and then her and Brown came over to the table where I was sitting in my chains and shackles. Peluso told me, in front of Brown, that she was never looking to "enhance anyone in the conspiracy" and that she "did not know why Tremmel placed those enhancements on Beltran" but that "she agreed to have them removed". Peluso said "no one was getting any leadership enhancements or any other enhancements" and that if "Tremmel tried to place any type of enhancement on me that Brown and her would both contest it". I asked why something like this could not be put in my plea bargain and she said that it is always up to the probation officer preparing my PSR to determine if any enhancements should apply to me, and that it would not matter what was in my plea bargain, because Tremmel could just ignore it if something like that was put in there. Brown then said, "It is better not to have anything about enhancements in your plea bargain because we do not even want to put the idea into Tremmel's head of trying to apply any enhancements to you when she prepares your Pre-Sentence Report." Brown told me, in front of Peluso, that since Beltran's attorney and Peluso both contested the enhancements Tremmel tried to apply to him, that they did not think she would try to apply any to me. However, if she did, Brown said that he and Peluso would both contest them and Tremmel would remove them from my PSR. Brown told me that if Tremmel still refused to remove a possible enhancement from my PSR that the issue would go in front of my judge who would then remove it since both he and my prosecutor were both contesting it's application. Peluso also told me that I was definitely going to get "a significant reduction" for everything I voluntarily turned over to the government and for letting them keep it as part of my plea bargain. I asked her how many levels I would be getting off, if it would be "at least 6 to 8", and she told me it would be "around that". Peluso told me that I was "always going to be getting credit for everything I turned over" and that after I agreed to this plea bargain that "I would have a lot more opportunities to earn much more credit". Peluso said "now that I had an attorney without so many conflicts" that I would "be able to earn substantial assistance that I couldn't before because of Foster". After this conversation Peluso went back to her table, and Brown turned to me and said, "Is that good enough for you? You just had a Federal Assistant United States Attorney tell you herself that she was not going to enhance you and would contest any enhancement Tremmel may try to to put on you, and guarantee you credit for everything you turned over. And she told you that you will be able to earn more credit through cooperation. That is even better than having what you asked for put in writing." I really was still not satisfied with this scenario and not having anything secured in writing for me pertaining to these matters, especially having nothing written stating I would receive at least 6 to 8 levels off for everything I turned over for my 5K-2 motion. However, Brown made me feel stupid and Peluso was literally 10 to 15 feet away from me while I tried to discuss these issues with him. Plus, I was looking forward to actually being able to proffer about the people that Foster had conflicts with and Brown told me based on what I could offer on Heromin, Weiler, and Patel that I would definitely be able to earn substantial assistance for all 3 cases. Thus, I figured that I should just accept that things would work out the way Brown and Peluso assured me they would and that I would not be subject to any sentencing enhancements and would get a huge deduction for everything I voluntarily turned over.

46) September 5, 2012: Brown told me to stop focusing on the wrong things and told me that he was able to have most of the governments false "facts" that were in my plea bargain removed and the ridiculous way the government came up with the excessive forfeiture lien amount. I was still obsessing over a lot of things not being changed in the plea bargain that Brown told me would be, so I quietly asked him if he thought that he could get me a better outcome if he just took my case to trial the following week, especially since Peluso was clearly not prepared to try my case so soon. Brown told me that he was also not ready to try my case that soon, but that there was still a chance I could win, but that if I lost I would be facing 9 to 10 years in prison. Brown told me that if I just "played nice" with the government, and agreed to this amended plea bargain, that I would get no more than a 3 to 5 year sentence.

47) September 5, 2012: Judge Porcelli came out to start my change of plea hearing and Brown told me to just "go ahead and initial the pages" and to "stop over thinking everything". Brown told me that it was "the best he could do for me" and that it was "the best plea bargain that I was going to get" so that "I better just sign it while I still have the chance to". Brown even acted insulted that I was not happy about the few changes that he actually had made in it, and said that I should be "grateful that he was even able to get those changes made for me". I was so tired, upset, and stressed out and Brown put me in such an awkward position at that point. Everyone was staring at me in my jail uniform and chains and shackles, and I just wanted it to be over with so I could get back to the jail and sleep. I believe when Judge Porcelli came out that I still did not initial the pages because I was still trying to read them over and understand them. However, due to Brown's advice and the assurances from Peluso, I succumbed to the pressure and initialed the pages of the unreasonable amended plea bargain, even though I never had the chance to thoroughly review it. When I got to the last page I told Brown that I refused to sign it because the plea was "such garbage". Brown was getting angry with me and told me, "fine", and that he "didn't need me to sign it since I already signed the back page of the old plea bargain" for him, and that he could "just use that one" for it. I told Brown to go ahead and use that one then so in case I decided to revoke my plea bargain it would be easier for me to do since I could bring up the fact that I never actually signed the final version of it. Brown told me that he would "pretend he didn't hear that" and started the hearing. The only reason I even signed and dated the back page of the original plea bargain for Brown on September 3, 2012, was because he told me that he was going to use it to show Peluso as a good faith gesture from me while he was negotiating with her concerning the terms of my amended plea bargain, as well as trying to secure certain things for me in writing. Looking back at it all now, I think Brown tricked me into signing the back page of the original plea bargain on September 3rd because he knew that he would not be able to get me to sign the revised plea bargain on September 5th if he did not get the changes I wanted made to it. That way Brown had the page I already signed two days ago for insurance in case I tried to back out of signing the amended plea bargain, which I did, because he did not get the proper changes made to it. It probably really does not matter all that much that I never actually signed the amended plea bargain since I reluctantly and foolishly orally agreed to the terms of it at the change of plea hearing, but I only did this because I thought I would be able to revoke it at anytime before being sentenced.

48) September 5, 2012: After my change of plea hearing I was very upset that Brown was able to pressure me into agreeing to such an awful plea bargain. I was literally sick over it because the plea bargain was still full of so many lies and terms that I repeatedly told Brown that I would never agree to and I felt like he tricked me into accepting it. I talked to Caroll Delo that night on the jail phone and told her how Brown had lied to me about a lot of things regarding the plea bargain, after lying to her about them the previous night. Caroll also came to see me on a video visit the following night and we talked the whole time about how Brown had tricked me into agreeing to such an awful plea bargain that I did not want to. Caroll told me again that Brown told her that he had everything changed that I wanted to be changed in it and made her believe that I was "going to be happy with it". We were both really upset about the whole situation, especially how Brown lied to both of us about coming to see me before the hearing so I could thoroughly review the amended plea bargain and had a chance to think about it before he pressured me into agreeing to it. We even discussed getting another attorney at that point because Brown had blatantly lied to both of us about the plea bargain, never gave me an opportunity to review it, and then pressured me into initialing pages of it containing lies when I clearly did not want to. I told Caroll how Brown lied to me about how he was going to fully prepare to take my case to trial just in case the terms of my plea bargain were not changed to something acceptable to me. I let Caroll know how Brown told me that he was not prepared to take my case to trial and that I finally realized that he never had any intention of spending a ton of his time on my case so he could adequately represent me at trial, especially since I was in jail. I told Caroll that all Brown wanted to do was get me to plead guilty as fast as he could, so he gets a huge pay day for doing as little as possible, which is exactly what he did. I was a complete wreck and truly devastated for several days because Brown had been able to bullshit me into agreeing to what was essentially the same horrible plea bargain that had been offered to me for the past 15 months.

49) September 5 & 6, 2012: I was so upset that Brown was able to pressure me into accepting the amended plea bargain that one of the first things I did when I got back to the jail was start to write a letter to Judge Covington asking her to please revoke it. I read this letter to Carol Delo during our video visit on September 6, 2012 and she understood why I wrote it and wanted to send it but said that sending it would really upset Brown. The letter described all of the things I thought Brown did wrong in handling the whole situation. I wrote how Brown tricked me into signing the last page of the plea bargain on September 3rd, and pressured me into agreeing to the amended plea bargain on September 5th, even though I did not want to. I explained how Brown had lied to me about the changes he told me he would have made to my plea bargain, how he had lied to me about coming to see me before my change of plea hearing to go over those changes, and then how he pressured me into initialing the pages of the amended plea bargain during my hearing without ever giving me a chance to thoroughly review it. Carol told me that I should wait before I send my letter because it makes Brown sound really bad and that she wanted to talk to him about the situation. I told Carol that I rather have my letter typed up anyways so I mailed her a copy of it I wrote up and she said she would type it and send it to Judge Covington for me if that is what I really wanted to do. I told Carol that Brown was a liar and that I did not trust him anymore and that she should try to get back all of my silver bars and gold coins that she gave him because he did nothing to earn them or even the money paid to him by check. Carol said that she was going to tell Brown how unhappy I was with how he pressured me into agreeing to a plea bargain that he knew was completely unacceptable to me and that I wanted to revoke my plea bargain. Carol also told me that her and Jane would talk to another attorney about it, Norman Canella Sr, and see what he recommended I should do, and that they could possibly hire him to take over my case since I was no longer confident that Brown was going to do what was right for me anymore.

*(if possible please obtain print outs or recordings of my jail phone calls and video visits between 09/05/12 & 09/12/12)

*(if possible please obtain copy of the letter I wrote to Judge Covington on 09/05/2012 from Carol Delo)

*(my copy of this letter was in my legal paperwork that the U.S. Marshals never returned to me after I was transferred here)

50) early-September 2012: Within a few days of reading Carol the letter I wrote about how Brown had mishandled the situation with my amended plea bargain, which I planned to send to Judge Covington, and sending her a copy of it, Brown came to see me in jail. Brown told me that Carol let him know how unhappy I was with the amended plea bargain and how upset I was about how he pressured me into signing it without letting me review it. Carol told him that I was about to send a letter to Judge Covington explaining all of this. Brown told me that he tried his best and asked me not to do send any letters to anyone and that if I really wanted to revoke my plea bargain that he would file the motion for me to do that. Brown told me that considering the circumstances in which I was rushed into agreeing to it right before Peluso went on vacation, and was not given a chance to thoroughly review it, he believed that the judge would grant a motion to revoke my guilty plea, if that is really what I wanted to do. However, Brown told me that if that is what I decided to do then he would definitely have to start preparing to take my case to trial because then I would not even be given the option to plead guilty anymore, and that I would have pretty much no chance of getting offered another plea bargain, especially one that is any better than the one I am having revoked. Brown told me that he understood that I was very unhappy with the amended plea bargain, especially since it still had many untrue statements in it, and the things I wanted taken out and added were not all done, but Brown told me that is how it is with all plea bargains. Brown said that every plea bargain is going to have things in it that are completely false, and will have charges in them that cannot be proven, but that sometimes it is not worth fighting things like that, because no matter how much you argue, the government will still refuse to make changes that should be made. Brown told me that it is better to focus on the things we can change, such as how many levels off I will get for cooperation, how many levels I will get off for turning all of my money and medications over, making sure the forfeiture lien gets extinguished as soon as possible, and trying to get back my money not listed in the plea bargain. Brown assured me that he was going to help me with all of these things "starting now if I agreed to not revoke my plea bargain".

51) early-September 2012: Brown also told me that he talked to Caroll Delo about the whole situation and that he convinced her that I should give him "a chance to do whatever he can between now and my sentencing" so that I get the least amount of time as possible. Brown also said that he already returned the portion of the money that Caroll paid him as he had originally agreed to do if I plead guilty. I know that Brown wanted \$100,000 in checks in case he took both of my cases to trial, and \$30,000 if they were both resolved with a plea bargain (on top of all my silver and gold he received). I am pretty sure that Caroll was never able to pay Brown a total of \$100,000 in checks since it was difficult for her to convert my cash and gold to money in the bank, but it was pretty close. Either way, Brown had told me and Caroll that he was going to return the money he was paid over \$30,00 with checks to her if I plead guilty, which is what he did shortly after my change of plea hearing. Caroll obviously wanted to keep as much of my money as she could and since Brown had just given her a check between 40k to 50k back of my money I'm sure it wasn't very hard for him to convince her that I should not revoke my plea bargain. Since it would have been extremely difficult for me to convince Caroll to give Brown back that money so I could take my case to trial, this created a big obstacle for me if I wanted to revoke my guilty plea. I think Brown intentionally gave back my extra money for trial to Caroll so quick because he had no intention of ever taking my case to trial.

52) early-September 2012: Brown told me another reason that I should not revoke my guilty plea was because he already had scheduled proffer meetings for me that will likely lead to significant 5K-1 and/or Rule-35 motions. Brown told me that he setup a meeting with Agent Shearer that week so I could finally fully proffer about everything I have wanted to tell the government about Dr Heromin for the past 2 years. Brown told me that he was then going to schedule proffer meetings to discuss Brown Weiler and Nirav Patel, among other cases, and he thought that from the information I could offer on all 3 of those cases that I would definitely get substantial assistance for all of them. Brown thought that it was not too late for me to get credit for proffering against all 3 of those people who Foster had prevented me from doing during the 18 months he represented me. Brown told me that if I revoked my plea bargain that I would be throwing away all of that potential cooperation credit that I should easily be able to get, on top of all of the credit I was definitely going to get for everything I turned over. Brown told me that based just on those 2 factors alone that he would be able to get me out of jail or prison within the next year if I did not revoke my plea bargain, on top of hopefully getting back nearly 3.5 million dollars of my money. Thus, I foolishly fell for Brown's promises and agreed to give him a chance to do whatever he could to get me out within the next year.

*(Brown had setup proffer meeting regarding Dr Ronald Heromin on 09/09/2012)

*(Brown had setup proffer meeting regarding Pharmacist Brian Weiler on 09/12/2012)

*(Brown had setup proffer meeting regarding 1st Medical Clinic Case on 10/03/2012)

UNITED STATES DISTRICT COURT
MIDDLE DISTRICT OF FLORIDA
TAMPA DIVISION

UNITED STATES OF AMERICA

vs.

Case No. 8:10-Cr-530-T-33AEP

CHRISTOPHER SWITLYK
_____ /

DEFENDANT CHRISTOPHER SWITLYK'S SENTENCING MEMORANDUM

COMES NOW, Defendant, CHRISTOPHER SWITLYK, by and through his attorney of record, Jeffrey G. Brown, Esq., and files this Sentencing Memorandum to the Presentence Report ("PSR") to assist the Court with the imposition of a reasonable sentence.

FACTORS THAT MAY WARRANT DEPARTURE

USSG §5K2.13 Diminished Capacity

The Defendant has struggled with recognized mental illness since he was referred for his first psychological evaluation as a child in middle school, but was never treated or medicated. Once evaluated, three (3) doctors found that psychotropic medication was medically necessary.

a. bruising on body and depression

According to Chris, he was referred to a "guidance counselor" at school in third grade after his teacher noticed bruising on his body. He believes that he participated in a psychological evaluation while attending Farnsworth Middle School; however, a check with the school revealed that his records were sent to Albany Academy when he transferred. Albany Academy only maintained his attendance records. Chris noted that he felt depressed during high school and saw a counselor on numerous occasions. He suffered from severe acne and his father, who is a dermatologist, advised him to take Accutane, which he took for years. He later learned

that Accutane can cause depression. He did not feel socially connected in high school and was particularly shy around girls. Took 5 (6 month courses of Accutane) at 14, 15, 16, 18, 20

b. suicidal thoughts

In 2006, Chris became depressed and first began having suicidal thoughts. He lost about 40 pounds that year. According to later psychological reports, Chris was evaluated by Dr. Marguerite Pinard on August 16, 2007, and her diagnostic impression was anxiety versus hypomania. He was prescribed Seroquel but felt very dizzy from this medication and ceased its use. Chris was later evaluated by Dr. Michael P. Gamache on September 16, 2008, and he recommended that Chris participate in outpatient psychotherapy. Chris attended ten (10) counseling sessions with Dr. Richard Brown.

c. Dr. Taylor; Bipolar II Disorder; Hypomaniac

Chris was evaluated by Dr. Ronald Taylor on December 14, 2011. Dr. Taylor diagnosed Chris with Bipolar II Disorder, Most Recent Episode Hypomaniac, and possible alcohol abuse. According to his evaluation, "The defendant's history is consistent with that of a mood disorder characterized by hypermanic episodes and at least one major depressive episode. Individuals experiencing hypomanic episodes tend to be impulsive and display poor judgment. This often results in interpersonal conflicts, occupational problems, and/or violations of the law unless there is adequate mental health intervention. It is probable that his history of interpersonal conflicts, occupational problems and legal problems have been at least partially caused by his mental condition." He was advised to begin mental health treatment with a psychiatrist and was provided with names of psychiatrists with offices near his residence. Dr. Taylor felt that he would benefit from taking psychotropic medication and was advised to decrease or discontinue his alcohol consumption and caffeine intake as those substances can have adverse effects on mood. Dr. Taylor felt that if he complied with these recommendations, his risk of future violations of the law would probably be reduced. Can we take out probably here?

d. Dr. Edgar; Psychiatric Wing PCJ

Chris began psychotherapy with Dr. James Edgar in January 2012 and saw him several times per week for four (4) months. Dr. Edgar verified that he was treating him for Bipolar Disorder and Severe Anxiety until he was incarcerated for this offense in May. Dr. Edgar prescribed Trazodone 50 mg to be taken at bedtime and Xanax 0.5mg to be taken once every six hours as needed. The dosage was later increased to Trazodone 100mg to be taken at bedtime and

Xanax 1mg every 6 hours as needed. Dr. Edgar noted, "These medications are medically necessary."

On June 13, 2012, he evaluated Chris while he was in the medical psychiatric wing in a solitary room at the Pinellas County Jail. Chris had been there for 14 days and was taking Zoloft 100mg. Chris told Dr. Edgar that he wrote a 14 page letter to his father, expressing his emotional thoughts and feelings, although he was trying to motivate his father to help him. He felt that his letter was misinterpreted by jail personnel and that he was not actively suicidal, but rather trying to convince and motivate his father to help him. When Dr. Edgar evaluated him for this situation, he appeared to have lost weight, but was alert and oriented to all spheres. He was cooperative and no indications of psychotic thought processes were noted. Dr. Edgar did not feel he was a suicide risk and there was no clinical indication for solitary confinement. Dr. Edgar did feel that the solitary confinement in the psychiatric wing would actually make his psychological state worse and opined that he should be returned to his previous jail situation (in Central Division).

e. Dr. Levine; Bipolar II Disorder; Depression; PTSD

Chris was evaluated by Dr. Jennifer Barror-Levine, licensed clinical psychologist, on August 24, 2012. She diagnosed him with Bipolar II Disorder with a recent episode of depression, Post-traumatic Stress Disorder (PTSD) and history of alcohol abuse. Dr. Levine administered two (2) tests which measured his personality functioning, the Eysenck Personality Inventory and MMPI-2. According to Dr. Levine, "On the Eysenck PI, Mr. Switlyk is excessively neurotic in his responses to social situations and external events. He is likely to make decisions in a black-and-white way that does not take in to account dissonant information, either positive or negative. This makes it extremely difficult for him to consider alternative decisions or perspectives, even when it appears clear to others that his thinking is faulty or clouded. Individuals with his level of inflexible thinking and ruminative cognitive style also often experience events more intensely than others, which may explain his tendency to seemingly over-report on these and other measures."

With respect to the MMPI-2, Dr. Levine finds, "Overall his characterological mental condition is both severe and debilitating to normal functioning. This profile indicates a history of insufficiently treated psychological difficulties that significantly characterizes Mr. Switlyk's emotional, cognitive and social functioning. In response to internal emotional events, Mr.

Switlyk is likely to be characteristically neurotic, expressing a great deal of anxiety and depressive symptomatology. He is likely to be chronically plagued with physical health problems that obfuscate emotional difficulties. Emotional safety is both extremely important to his well-being and also infuriatingly unattainable in the typical situations and relationships in which he finds himself. For all his apparent self-reliance, he is in reality overly dependent on others to make decisions for him, out of fear that he appears as stupid or incompetent as he believes he is when things go badly. Underneath his anxiety is an extremely diffuse sense of self and low self-efficacy. Because of his helplessness, he is likely to either make impulsive/compulsive decisions without considering all the facts, or appear apathetic to the consequences."

Dr. Levine reported, "In social situations, Mr. Switlyk vacillates between blind faith and paranoid avoidance. Most likely this ambivalence originates in early parenting inconsistencies, such as in the case of intermittent child abuse. His character profile indicates an early disruption of attachment development, which appears to impact his ability to form healthy relationships. Such early trauma is likely to explain present difficulties with social intelligence, and why he often becomes a victim of detrimental relationships. As an adult, Mr. Switlyk is likely to have a history of very poor relationships, in part because he overlooks the flaws of others and tends to idealize them. Because he deeply wants the approval and acceptance of others, he is likely to be easily convinced about their intentions and honestly surprised when their shortcomings inevitably surface. On the other hand, Mr. Switlyk is likely to quickly become distrustful and paranoid than other people, and to cope with perceived slights from others he becomes excessively independent and isolative. However, his psychological immaturity makes it impossible to sufficiently 'cover up' his character weaknesses, and he is likely to be taken advantage of by others, leading to further distrust and paranoia."

According to Dr. Levine, "With respect to social and emotional functioning, Mr. Switlyk is experiencing a severe level of depression, anxiety, hopelessness and suicidality. His responses on the SCL-90-R test also indicate a clinically significant level of distress related to somatic complaints, obsessive-compulsive behaviors, depression, anxiety, paranoia and schizophrenia. His Global Severity Index indicates an acute need for treatment for these issues."

Dr. Levine emphasizes, "Before being appropriately medicated, Mr. Switlyk was experiencing mania, panic attacks, paranoia, insomnia, lack of focus, and was unable to make

eye contact. Currently, he does not experience extreme highs and lows (although for the situational event of currently being incarcerated which causes some depression). During our interview he was extremely calm, made appropriate eye contact, and appears to have better insight and judgment. The environment of the jail and/or prison will only exacerbate his symptoms and he needs a less restrictive environment. Mr. Switlyk would like to find a psychiatrist and psychologist who could meet his needs and help foster a greater sense of control within himself. This should be arranged prior to his release from prison.”

f. Significantly reduced mental capacity

In the last two (2) paragraphs of Dr. Levine’s report, she finds: “According to the Diminished Capacity policy statement/definition (USSG §5K2.13), a defendant committed the offense while suffering from a significantly reduced mental capacity; and the significantly reduced mental capacity contributed substantially to the commission of the offense. “Significantly reduced mental capacity” refers to the defendant having an impaired ability to (A) understand the wrongfulness of the behavior compromising the offense or to exercise the power of reason; or (B) control behavior that the defendant knows is wrongful. Mr. Switlyk clearly meets this definition. Mr. Switlyk has several diagnoses that without appropriate medication and psychotherapy intervention leave him mentally incapacitated. Mr. Switlyk’s reasonable and effective decision making abilities become diminished due to psychological stress, which is a consequential result of the abuse he endured and the resulting diagnoses. The more stress that is placed upon him, the greater the incapacity. **Mr. Switlyk is more than capable of understanding right from wrong but his judgment becomes clouded because of his ineffective decision making abilities due to his diagnoses. Mr. Switlyk does not purposely act in a malicious manner but rather falls into a pattern of acting impulsively without regard to consequences. It is my medical professional opinion that when not properly medicated Mr. Switlyk did have significantly reduced mental capacity during the commission of his offense and did not understand the wrongfulness of his behaviors and was not able to exercise the power of reason.”**

Mr. Switlyk meets the definition of diminished capacity and a downward departure pursuant to this section would be warranted.

§5H1.3. Mental and Emotional Conditions (Policy Statement)

Mental and emotional conditions may be relevant in determining whether a departure is warranted, if such conditions, individually or in combination with other offender characteristics, are present to an unusual degree and distinguish the case from the typical cases covered by the guidelines. *See also* Chapter Five, Part K, Subpart 2 (Other Grounds for Departure).

In certain cases a downward departure may be appropriate to accomplish a specific treatment purpose. *See* §5C1.1, Application Note 6.

Although many defendants who commit drug offenses have endured difficult or abusive childhoods, most do not also suffer from extreme mental illness that meets the definition of diminished capacity. Mr. Switlyk's mental illness is present to an unusual degree and distinguishes his case from the typical cases covered by the guidelines.

There is no excuse for Mr. Switlyk's conduct and he knows he must be punished. The Court is required to consider his personal history and characteristics and how they contributed to his conduct. The guidelines provide a downward departure for his mental illness, for this very type of situation. All of the doctors who have evaluated or treated Mr. Switlyk agree that when not medicated, he is mentally incapacitated. Mr. Switlyk was not taking prescribed medication during this offense. Mr. Switlyk meets the definition of diminished capacity and his mental illness according to the Guidelines should be considered for a departure down.

PART F. FACTORS THAT MAY WARRANT A SENTENCE OUTSIDE THE GUIDELINE ADVISORY SYSTEM

Title 18 U.S.C. § 3553(a) provides the factors the Court must consider when imposing a sentence. Although the Court is keenly aware of these factors, they are easier to address when they are in front of us.

These seven factors include: (1) The nature and circumstances of the offense and the personal history and characteristics of the defendant; (2) The need for the sentence imposed to reflect (A) the seriousness of the offense, to promote respect for the law, and to provide just punishment for the offense; (B) to afford adequate deterrence to criminal conduct; (C) to protect the public from further crimes of the defendant; and (D) to provide the defendant with needed educational or vocational training, medical care, or other correctional treatment in the most effective manner; (3) The kinds of sentences available (4) and (5) The guidelines and policy

statements; (6) The need to avoid unwanted sentencing disparities; and (7) The need to pay restitution to victims.

(1) Christopher Switlyk's personal history:

Christopher Switlyk was raised in a middle class environment in the suburbs outside Albany, New York. His parents argued constantly. He described his father as "angry all the time with a volatile temper." He added, "We walked on egg shells." His father was physically abusive and hit him daily. When he was seven, he took down his father's coin collection to look at it and he left it on the table. His father came home and beat him so severely, that he fractured Chris's arm. Chris had to go to the hospital as a child several times as a result of such severe beatings by his father. According to Chris, his third grade teacher asked his mother about the bruises on his body and they arranged for Chris to see a guidance counselor. Chris recalled that his father constantly yelled and screamed at his mother.

His father did not want him to play sports, have friends over or go to friend's houses. Chris wanted to play little league but his parents would not allow it since they had no time to take him to practice. His mother was cold, unaffectionate and worked all of the time. When she was at home, she was overwhelmed and often yelled, "Wait until your father gets home, he's going to really beat you." His father's sister moved next door when he was five years old and Chris played with his cousins. Shortly thereafter, his father stopped talking to his sister and they were no longer allowed to play with their cousins. Any presents she brought over were returned. Eventually, the fighting between them escalated and Chris's aunt, uncle and cousins moved out of town.

Chris attended six schools in twelve years. He attended private Catholic school until third grade. He attended public school from third to fifth grade. By the time he was nine years old, his father was beating the kids so often that their mother feared for their safety. She moved with them to Guilderland, a community 20 minutes away from Albany. They resided there for one year and had very minimal contact with their father during that time. A year later, they all moved back to reside with their father as he had convinced their mother that it was the kids' fault that he hit them because they were such bad kids. The children were sent to military school at Albany Academy, where they suffered additional physical abuse. During battalion practice, the captains hit them on the head with large rings, hit them with their guns or threw balls at their

heads. His older brother was expelled for having fought back, physically injuring one of the captains. His parents decided to remove the other children from the school.

At age 11, at the beginning of summer vacation, his father was angry and ran after him and his older brother to hit them, but he tripped and broke his foot. His mother drove him to the hospital and during the ride he repeatedly threatened to kill the boys when he got back home. His mother was so afraid of what would happen to them that after she dropped Chris's father off at the hospital she drove home, threw all of the boys' belongings into bags, and took them to the bus station. Chris's mother sent them to live with their grandparents in Staten Island for that summer. According to Chris, him and his older brother finally felt peace and were able to go to science camp and play tennis. Chris noted that he also started jogging around the block that summer to train so that he would be able to outrun his father.

By age 12, his father had injured his back from heavy weight lifting and he was no longer able to run after them and hit them. According to Chris, he could get away from his father if his father was coming after him; however, on occasion, if he was standing near his father, his father would grab him unexpectedly, start beating him and say, "This is for what you did earlier!"

At age 13, Chris's parents bought the house 2 doors down from his mother's sister, "Aunt Patty." Chris shared a close relationship with her. Chris's older brother was expelled from high school at age 14 after a fight at school. Another student started a fight and his brother beat the student so severely, the student was hospitalized for two months. The school arranged for his brother to be "home schooled" by a private teacher. Chris's older brother joined a gang and often slept in parks. When his brother was 14 or 15 years old, he took a belt and tried to strangle their father while he was sleeping. His brother was hospitalized for two weeks in a psychiatric hospital until his parents no longer wanted to pay for the hospitalization and they moved him into his own apartment to keep him away from Chris's father.

When Chris was 14 years old, his father pushed him down the stairs. A family member called Child Protective Services and his father was required to attend anger management classes. No one had ever intervened on the children's behalf due to fear of damaging family relationships. In addition to daily physical abuse, his father constantly cursed at the children and Chris was often referred to as "a worthless piece of shit."

Despite the chaos at home, Chris excelled academically and completed high school at age 16. He enrolled in the State University of New York at age 16 and was admitted into their

Business School. At age 17, his father insisted that he enroll in the pharmacy program as a pre-med program through the Albany College of Pharmacy at Union University. Chris agreed and moved out of the family home and resided in the school dormitory. He also secured employment at a local pharmacy and moved into his own apartment after one year.

According to family members, Chris was a very bright child and was thriving academically so his other needs fell through the cracks. Chris was described as "incredibly sweet, loving and kind" and always remembered his grandparents' birthdays, visited them when they were sick, and was very thoughtful. It was noted, "We knew he had problems but we couldn't get a diagnosis. Chris is not dangerous; he would never hurt anyone else. His biggest obstacle is himself. He is too trusting of others and doesn't understand protecting himself. If you tell him 'don't take candy from a stranger, he is first in line.' He has always been desperate for friends and acceptance. He always offered to drive and offered to pay."

According to his friend, Ms. Delo,

"There are behaviors we have seen that start to shed light on the million dollar question: How did this gentle, sweet person end up where he is? Clearly, something in his head is not working like it should." She added, "Chris hoarded things, even money, in meticulously organized plastic bins, drove a 12 year old cars, wore the very same clothes he wore in high school (he is 34) and obsessively used coupons for every purchase. When he eats, he meticulously removes each and every seed from a tomato slice or cucumber. He is obsessive about his food and hoards and orders in large amounts. He told me that he was often left very hungry as a kid. He has spent 30 minutes in the dark of night trying to find and feed a stray cat. He loves and cares for animals but lacks the simple ability to show affection to humans. Prior to being incarcerated, he rarely made eye contact with people. Everyone that I've introduced him to says that he is odd-he has trouble looking people in the eye and it's hard for him to make any sort of connection. He has blindly trusted all the wrong people and when he realizes he's in a compromising situation he cannot problem solve. Chris has an inability to speak up or stand up for himself when confronted with a problem or issue (this was apparent prior to reading Dr. Taylor's report, which confirmed this). There is some type of disconnect in his brain. For some reason, he can't speak up, communicate, stand up and problem solve when he is in a terribly compromising situation. For example, he did not know how to confront the employees at the pharmacy, assess the

situation and begin to problem solve. He has had two or three women extort money from him. He has had four attorneys in his case, I think in large part because he has an inability to speak up, can be easily convinced and will blindly trust just about anyone or what he or she has to say. Chris clearly has some serious issues but this is not a case of a career criminal- something in his head is not right; couple that with a sterile upbringing...I truly feel that with love, guidance, along with medical and emotional help, Chris will live a very peaceful life. His heart is pure and kind."

Chris Switlyk's personal history involves a childhood during which he was punched, kicked and thrown down the stairs by his father and rejected and emotionally abandoned by his mother. He was beaten at home and at school. In addition to daily physical abuse, his father constantly cursed at the children and Chris was often referred to as "a worthless piece of shit."

(worthless piece of shit comment is already on page 9)

It is not surprising that he suffers from anxiety, depression, and PTSD. Additionally, he inherited mental illness, specifically, Bipolar II Disorder. Mr. Switlyk has been mentally debilitated his entire lifetime. To not consider that these issues impaired his personality, relationship with others, and his decisions and actions on a daily basis, is ignoring what the Court is required to consider.

With respect to the circumstances of the offense, there is no question Mr. Switlyk sold some oxycodone illegally (Aaron Bennett) and, for the predominant amount of illegally sold oxycodone (Marc and Kim), failed to supervise his employees including the day pharmacist and others. He knows that the offense is serious. However, his odd conduct throughout the offense, his voluntary surrender of all his money (over \$6 million), even money legitimately made from the pharmacy, his DEA license, and the million dollars worth of controlled substances already purchased, sets his conduct aside from the typical offender. Mr. Switlyk owned the business but had no idea how to operate a business. He hired employees including a man he met in jail (Marc Beltran) as well as those he knew previously stole from others, yet knowing this still failed to supervise them. Mr. Switlyk installed a video surveillance camera in lieu of supervision but never reviewed the video surveillance tapes. It wasn't until over a year after Chris voluntarily closed his pharmacy that the DEA Agents gave him his video surveillance system. That is when Chris learned that that his employees were stealing money and were personally selling

oxycodone in large quantities. In reality, Mr. Switlyk was in no mental condition to operate or manage a business.

(2) The need for the sentence imposed to reflect (A) the seriousness of the offense, to promote respect for the law, and to provide just punishment for the offense; (B) to afford adequate deterrence to criminal conduct; (C) to protect the public from further crimes of the defendant; and (D) to provide the defendant with needed educational or vocational training, medical care, or other correctional treatment in the most effective manner.

While his sentence must include punishment and protection of the public, it must also consider his need for treatment and medication. Dr. Taylor advised him to begin treatment with a psychiatrist, take psychotropic medication, and decrease or eliminate alcohol and caffeine. He found that if he complied with those recommendations, his risk of future law violations would be reduced. Dr. Edgar, his treating psychologist found that his medications are medically necessary. Dr. Levine indicated that before being properly medicated, he was experiencing, mania, panic attacks, paranoia, lack of focus, and was unable to make eye contact. She found that after medicated, he was calm, able to make eye contact and appeared to have better insight and judgment. Dr. Levine pointed out that the environment of prison will only exacerbate his symptoms, and determined that he needs a less restrictive environment. Since the sentence imposed must consider that Mr. Switlyk suffers from diminished capacity and is in need of specific treatment and medication, a lower sentence of incarceration with a longer term of supervision is warranted.

(3) The Kind of Sentences Available, (4) The Guidelines, and (5) Policy Statements

When considering the kinds of sentences available, it is important to note that federal prisons are operating at 137% capacity. The Court is referred to the U.S. Sentencing Commission, Amendments to the Sentencing Guidelines (May 3, 2010) (The amendments, which took effect November 1, 2010, increase the availability of non-custodial sentences for certain non-violent offenders, based on "recognition of increased interest in alternatives to incarceration by all three branches of government and renewed public debate about the size of the federal prison population and the need for greater availability of alternatives to incarceration for certain non-violent first offenders.") See also 28 U.S.C. § 944(j) (The Guidelines "reflect the

general appropriateness of imposing a sentence other than imprisonment in cases in which the defendant is a first [time] offender who has not been convicted of a crime of violence or otherwise serious offense...).

Mr. Switlyk is a non-violent offender with mental illness. While he deserves punishment and incarceration, the Court should consider prison overcrowding and the cost of incarceration while balancing his need for counseling and medication. When considering the guidelines and policy statements, the USSC quarterly data report for the second quarter of 2012 (see Table 3) reflects that aside from government sponsored downward departures in drug trafficking cases (35.7%), judges imposed sentences below the guideline range in 18% of the cases. Therefore, judges are imposing sentences below the guideline range 53.7% of the time in drug cases.

United States District Court Judges have expressed disagreement with the drug guidelines. It is interesting to note that in *United States v. Ysidro Diaz*, (11-CR0-00821-2-JG), United States District Court Judge John Gleeson(ED/NY), issued a "Memorandum Explaining a Disagreement With The Drug Trafficking Offense Guideline" filed on January 28, 2013.

Judge Gleeson notes, "The drug trafficking offense guideline was born broken. Many judges will not respect it because as long as the sentences it produces are linked to the ADAA's mandatory minimums, they will be too severe. Indeed, as discussed further below, for almost two decades the nation's judges have been telling the Commission to de-link the drug trafficking offense guideline from those harsh mandatory minimums and to reduce the sentencing ranges. The Commission should listen and act. It should use its resources, knowledge, and expertise to fashion fair sentencing ranges for drug trafficking offenses. That process will take time. In the meantime, because real people, families, and communities are harmed by the current ranges, it should immediately lower them by a third." He adds, "The Commission should use its resources, knowledge, and expertise to fashion fair sentencing ranges for drug trafficking offenses. If it does, those ranges will be substantially lower than the ranges produced by the current offense guideline. The deep, easily traceable structural flaw in the current drug trafficking offense guideline produces advisory ranges that are greater than necessary to comply with the purposes of sentencing. We must never lose sight of the fact that real people are at the receiving end of these sentences. Incarceration is often necessary, but the unnecessarily punitive extra months and years the drug trafficking offense guideline advises us to dish out matter: children grow up; loved ones drift away; employment opportunities fade, parents die. Until the Commission does the job

Sentencing Memorandum

right, which should take considerable time, it should lower the ranges in drug trafficking cases by a third for the reasons set forth above. In the meantime, the current ranges will be given very little weight by this Court."

One of the U.S. Sentencing Commission priorities for the 2012 amendment cycle was to undertake a comprehensive multiyear study of recidivism and recommendations for using information obtained from the study to reduce costs of incarceration and overcapacity of prisons and whether any amendments to the guidelines may be appropriate. Particularly in light of the BOP budgetary problems and overcrowding, one could make the argument that it does not make sense to incarcerate a defendant for a lengthy amount of time (over 5 years) who suffers from mental illness and PTSD. Mr. Switlyk is not a dangerous, violent offender. Three (3) psychologists have noted that medication and treatment will reduce the likelihood of recidivism and under supervised care could function normally. Mr. Switlyk responds well to medication and although his Bipolar condition is somewhat stable, he suffers from PTSD. Drs. Edgar and Levine have found that the prison setting actually exacerbates PTSD symptoms. Consequently, Mr. Switlyk's punishment of a lengthy incarceration is a much harsher consequence because he will suffer far greater than the typical inmate.

(6). The need to avoid unwarranted sentencing disparities among defendants with similar records who have been found guilty of similar conduct.

From the very beginning of this investigation, Chris has displayed an above average level of cooperation. He maintained from the very beginning a willingness to cooperate and begin the long road of trying to right the wrongs he committed or allowed to occur. At the execution of the search warrant, he voluntarily surrendered all of his controlled substance medications at the pharmacy, a value of over a million dollars. This surrender came at a cost of over \$400,000.00, a cost that he still owes and is being sued for. He also, at the time of the search warrant, voluntarily surrendered all of this money at his pharmacy, all of the money in a bank account that the DEA knew about, and all the money in a second bank account the DEA did not know about, all total over \$6 million dollars. (He also voluntarily turned over all of the cash found at the pharmacy, and 5 safe deposit boxes the DEA had no idea of.) While some of this money represented money gained from these underlying charges in the Indictment, a large part of this

money was from the legal operation of the pharmacy; yet, Chris agreed to voluntarily surrender ALL of the money. Chris also quickly agreed to surrender his Pharmacy's DEA license and all of his medications, even though it was not required at the time.

Absent a problem with potential "conflicts of interest" with his lawyer, Todd Foster, Chris was actually attempting to proffer all the information he had on several Doctors, Pharmacists, and Clinic Owners in the Tampa Bay area that DEA was interested in. In fact, if not for Todd Foster and then Steve Crawford, Chris would have been able to proffer, remain out and provide substantial assistance that would have far exceeded his co-defendants. Instead, Chris has had to play "catch-up" on the proffers and substantial assistance ultimately meaning that most of the cooperation will not be completed by the time of his sentencing.

In summation, the undersigned respectfully requests that this Honorable Court consider this sentencing memorandum and grant a downward departure to a term of 60 months.

Why 60?

Respectfully submitted,

Conflicts of interest include but are not limited to:

Doctor Ronald Heromin
Pharmacist Nirav "Nick" Patel
Pharmacist Brian Weiler (cohen also represented him)
Pharmacy and Clinic Owner Rets Griffith

v. CASE NO: 8:10-CR-530-T-33AEP

CHRISTOPHER SWITLYK

MOTION TO VACATE, SET ASIDE, OR CORRECT SENTENCE

COMES NOW, the Defendant, CHRISTOPHER SWITLYK, proceeding on his own behalf, and pursuant to 28 United States Code 2255, and hereby requests this Honorable Court to issue an Order setting aside the judgement and sentence of conviction and as grounds therefore would state the following:

I. CONTENTS OF MOTION

Pursuant to 18 United States Code 2255 the instant motion includes the following:

- 1) The undersigned is attacking the judgment and sentence rendered on February 21, 2013.
- 2) There has been no appeal taken attacking the legality of the judgment and sentence.
- 3) There have been no previous Motions for Post-Conviction Relief.
- 4) The undersigned is seeking to vacate the judgement and sentence as a result of ineffective assistance of counsel.
- 5) This motion is filed timely.

EXHIBIT

6

II. SUMMARY OF THE CASE / FACTS

- 1) The defendant was one of many defendants charged in this alleged conspiracy. Some of these defendants were included in his indictment and others were indicted separately. These include: Louis Fernandez Jr, Louis Fernandez III, Kimberly Curtiss, Marco Beltran, Brian Weiler, Dr Ronald Heromin, Dr John Lanning, Dr James Shelburne, and Retsidistwe Griffith.
- 2) The defendant had been represented by several attorneys throughout the process, including (in order): Dirk Weed, Todd Foster, Gregory Kehoe, Steven Crawford, and Jeffrey Brown.

III. PROCEDURAL HISTORY

- 1) On 05/20/2010, a search warrant was executed on the defendant's pharmacy, VIP Pharmacy, and a pain clinic belonging to his co-defendants, Tampa Wellness Centre, and the defendant was subsequently arrested on a state charge.
- 2) On 05/20/2010 & 05/21/2010, the defendant was represented by attorney Dirk Weed, who convinced him to immediately start cooperating with the government, and do whatever the agents wanted him to do. This included having the defendant voluntarily close his pharmacy, voluntarily turn over all of his prescription medications worth about 1 million dollars, and voluntarily turn over all of his money (several million dollars in cash and in his bank accounts).
- 3) On 05/24/2010, the defendant met with attorney Todd Foster, who began to represent him, and represented the defendant through the following 17 months.

- 4) On 11/03/2010, another pain clinic was raided which belonged to co-defendants of the defendant, Superior Injury Center, and Beltran and Curtiss were arrested on state charges.
- 5) On 12/14/2010, an Indictment was returned charging the defendant, inter alia, Count One, conspiring to possess a controlled substance with the intent to distribute.
- 6) On 12/16/2010, the defendant was notified of his indictment and arrest warrant. The defendant immediately voluntarily surrendered himself to the U.S. Marshals, and was granted release pending trial by Judge Pizzo.
- 7) On 10/21/2011, attorney Greg Kehoe filed a notice of appearance and began representing the defendant.
- 8) On 12/28/2011, attorney Greg Kehoe filed a Motion to Withdraw from the defendant's case due to the government threatening to seize his fees the defendant was paying him.
- 9) On 01/13/2012, the Motion to Withdraw was conducted before Judge Porcelli, who offered to court-appoint Kehoe so he could continue to represent the defendant. Kehoe refused to accept the court's offer and the defendant was forced to hire other legal counsel.
- 10) On 01/19/2012, a Conflict Hearing was held before Judge McCoun to discuss the Conflicts of Interest of the defendant's previous attorney, Todd Foster, who represented him for 17 months. These conflicts included Foster's representation of the defendant, Heromin (see Case No: 8:11-cr-550-T-33TBM), and Griffith (see Case No: 8:11-cr-323-T-17TBM).
- 11) On 02/06/2012, attorney Steve Crawford filed a notice of appearance and began representing the defendant.

- 12) On 05/01/2012, the defendant's bond was revoked while being represented by Crawford.
- 13) On 05/16/2012, a Bond Revocation hearing was conducted before Judge Pizzo, which resulted in detention of the defendant.
- 14) On 06/06/2012, attorney Jeff Brown filed a notice of appearance and began representing the defendant.
- 15) On 06/18/2012, Brown filed an Emergency Motion for Order to Show Cause why the defendant should not be returned to the general population of the jail.
- 16) On 06/28/2012, Judge Porcelli granted the Motion for Order to Show Cause why the defendant should not be returned to the general population of the jail. A Miscellaneous Hearing on this matter was scheduled for 07/06/2012.
- 17) On 07/05/2012, the Miscellaneous Hearing was canceled as the issues were resolved on this date, and the defendant was finally able to communicate with his new attorney (Brown), and was able to actually start having meetings with Brown about his case instead of about his housing conditions.
- 18) On 08/31/2012, Judge Covington denied the Joint Motion to Continue Trial for the defendant.
- 19) On 09/05/2012, the defendant plead guilty to the Indictment while he was represented by Brown.
- 20) On 01/19/2012, Judge Covington sentenced the defendant's codefendants as follows: Fernandez Jr to 24 months, Fernandez III to 63 months, Curtiss to 48 months, and Beltran to 188 months.
- 21) On 02/11/2013, Judge Covington denied the Joint Motion to Continue Sentencing for the defendant.

22) On 02/21/2013, Judge Covington sentenced the defendant to 108 months while being represented by Brown. Immediately after the defendant's sentencing hearing, AUSA Peluso and Brown had an "off the record discussion" with Judge Covington at her bench about the conflicts of the defendant's previous attorney, Todd Foster, having severe negative impacts on the defendant throughout his case.

23) On 09/26/2013, a Motion for Forfeiture of a Preliminary Order for Substitute Assets was filed by the government, regarding 62 1-ounce gold Kruggerand coins which belonged to the defendant, worth approximately \$87,804.40 at the time, which had been seized by the DEA earlier that month.

24) On 11/26/2013, a Motion for Final Judgement of Forfeiture for Substitute Assets regarding the defendants gold coins was filed by the government, and granted by Judge Covington.

IV. NATURE OF RELIEF SOUGHT

The nature of the relief sought is to allow the defendant to withdraw his plea, and to set aside and vacate the judgments in the case at issue herein, based on the fact that the defendant's counsels rendered ineffective assistance of counsel; or in the alternative, to be resentenced while the Court takes into consideration all of the issues raised in this motion, which in combination likely contributed to the defendant receiving a much longer sentence than he would have received had none of these issues transpired.

V. MEMORANDUM OF LAW

In *Strickland v. Washington*, 466 U.S. 688, 104 S.Ct 2052, 80 L.Ed 2d 674 (1984), the United States Supreme Court defined two requirements for a claim of ineffective assistance of counsel. *Id.* at 687, 104 S. Ct at 2064. First, the defendant must show that counsel's performance was deficient. *Id.* This requires showing that counsel made errors so serious that counsel was not functioning as the "counsel" guaranteed to the defendant by the Sixth Amendment. *Id.* Second, the defendant must show the deficient performance prejudiced the defense. *Id.* Therefore, the first prong of this test requires that the defendant show counsel's performance "fell below an objective standard of reasonableness." *Id.* at 688, 104 S.Ct at 2065.

Under the second prong of *Strickland*, the defendant must show that the deficient performance prejudiced by the defense. This requires showing that counsel's errors were so serious as to deprive the defendant of a fair trial, a trial whose result is reliable.

The Sixth Amendment's right to counsel exists to ensure a fair trial, and counsel's function is to make the adversarial process work in that particular case. "The benchmark for judging claims of ineffectiveness ... is whether the conduct of counsel 'so undermined the proper functioning of the adversarial process that the trial cannot be relied on as having produced a just result.'" *Strickland*, 466 U.S. at 686, 104 S.Ct 2052. An attorney's performance must be reasonable under the prevailing professional norms,

considering all of the circumstances, and viewed from the attorney's perspective at the time of trial. Id. A defendant must meet both parts of the test, performance and prejudice, in order to obtain post-conviction relief. To establish prejudice, the defendant must show "that there is a reasonable probability that, but for counsel's unprofessional errors, the result of the proceeding would have been different."

Strickland, 466 U.S. at 104 S.Ct. 2052. "The concern of the court evaluating an ineffectiveness claim should be whether the result of a particular proceeding is unreliable because of a breakdown in the adversarial process." Id.

VI. GROUND FOR RELIEF

GROUND 1: AN ACTUAL CONFLICT OF INTEREST DENIED THE DEFENDANT HIS SIXTH AMENDMENT RIGHT TO EFFECTIVE ASSISTANCE OF COUNSEL.

SUPPORTING FACTS FOR GROUND 1:

The defendant attests that his counsel Todd Foster labored under an actual conflict of interest which adversely affected his performance during the plea and cooperation process of his case during the entire seventeen (17) months he represented the defendant (05/24/2010 to 10/20/2011). Todd Foster rendered ineffective assistance of counsel throughout his representation by blatantly ignoring multiple conflicts he had with representing Dr Ronald Heromin, Nirav Patel, Brian Weiler, and later Retsidistwe Griffith, while also representing the defendant, which severely prevented him from any opportunities for timely cooperation against those individuals, as well as others.

Despite knowing that the defendant had actually sent three of his firm's other clients to them, namely Heromin, Patel and Weiler, Foster assured the defendant that these conflicts would not have any negative impact on his representation of the defendant. Foster took over the defendant's case in late May of 2010, and despite him immediately expressing his desire to cooperate, Foster did not bring the defendant to proffer until August of 2010. At the start of the defendant's initial proffer, Foster told the government that he did not want the defendant to discuss his

other client, Heromin, because of a conflict of interest, which the government expressed concerns with at that point. More importantly, Heromin was listed as Confidential Witness #7 in the affidavit in support of the defendant's search warrant and arrest. In fact, Heromin, while represented by Foster, proffered incriminating information against the defendant, but Foster subsequently still agreed to represent the defendant after his arrest.

Also, during the defendant's initial proffer, Agent Shearer stated that they "could spend a whole day just talking about Nick (Nirav) Patel, and his pharmacies" since the defendant "worked for Nick longer than anyone else has and was good friends with him." The defendant had a significant amount of incriminating information about Patel (as well as Heromin), which was relevant and current at the time, but was not allowed to share any of it with the government at his initial proffer and throughout Foster's representation. When the defendant was asked to talk about Patel at his initial proffer, Foster interceded and indicated that the defendant would not be allowed to talk about Patel either because he was also a client of his firm, to which Agent Shearer replied, "That's unfortunate for Chris, because that could really hurt him." After his initial proffer, the defendant questioned Foster about the government's concerns over his apparent conflicts, and how they could "hurt him", to which Foster told him to "not worry about it", and that the government was just mad about the defendant now having an attorney that wouldn't let them "push him around anymore" like Weed let them do when he represented him.

On top of Foster's conflicts severely hindering the defendant's ability to cooperate, Foster also prevented the defendant from directly communicating with any government agents, officials, detectives, and prosecutors, which also compounded this problem. Then the fact that, instead of Foster trying to secure as much credit as possible for all of the money the defendant had voluntarily turned over for "extraordinary acceptance of responsibility" (as a 5K2.0), or for "substantial assistance" (as a 5K1.1), which is what the defendant continually asked him to do, Foster spent the vast majority of the time he represented the defendant improperly aggressively fighting the government to return the defendant's money to Foster's firm since he was entitled to keep 40% of it, with the other 60% going towards the unpaid portion of his fee. Thus, Foster created another conflict of interest due to the significant financial incentives he gave himself in the second page of the engagement contract he drew up detailing the terms of his representation of the defendant for his criminal case. These terms pertaining to the recovery of the defendant's money from the government, which Foster insisted on having in the defendant's engagement agreement, motivated Foster to put recovering the defendant's money in front of any of his best interests throughout Foster's representation of the defendant.

The combination of these 3 factors created a barrier between the defendant and the DEA agents, which severely prevented him from being able to earn substantial assistance through cooperation efforts which would have been available to the defendant while he was out on bond. These included, but

were not limited to, the defendant being able to make controlled sales and buys, cooperation against the individuals Foster's conflicts excluded him from, and cooperation against other individuals and businesses which the defendant had current and relevant incriminating information about during this timeframe. Had Foster not had these conflicts, and had not prevented the defendant from communicating directly with the government, and had not aggressively fought the same people who the defendant wanted to cooperate with to return the defendant's money, there is a reasonable probability that the outcome of the defendant's sentencing hearing would have been different.

In Summary, the defendant asserts the following errors were committed by defense counsel Todd Foster during the 17 months he represented him (05/24/10 to 10/20/11), in support of Ground 1:

- 1) blatantly ignoring multiple conflicts he had with representing the defendant, Heromin, Patel, Weiler, and later Griffith, which severely prevented the defendant from benefiting from timely cooperation against those individuals and others
- 2) improperly preventing the defendant from directly communicating with any government agents, officials, detectives, and prosecutors, which prevented the defendant from pursuing numerous cooperation matters
- 3) instead of securing as much credit as possible for all of the money the defendant had voluntarily turned over for "extraordinary acceptance of responsibility" (5K2.0), or for "substantial assistance" (5K1.1), which is what the defendant continually asked him to do, Foster spent the vast majority of the time he represented the defendant improperly fighting the government to return his money due to Foster's own financial interest in it

These 3 factors in combination severely prevented the defendant from earning significant substantial assistance during Foster's representation, as well as the subsequent issues concerning Foster raised in Ground 2.

GROUND 2: THE DEFENDANT WAS DENIED HIS SIXTH AMENDMENT RIGHT TO EFFECTIVE ASSISTANCE OF COUNSEL DURING THE PLEA AND COOPERATION PROCESS.

SUPPORTING FACTS FOR GROUND 2:

The defendant attests that his counsel Todd Foster was ineffective for improperly advising him to assist with another pharmacy, as well as for advising him to protect his girlfriend at the time, Tiffany Phan, and misadvising him not to report her criminal activities. As soon as Foster took over the defendant's case, he was very upset that the defendant had just voluntarily turned over absolutely everything he had to the government, and he immediately advised the defendant to reopen his pain management clinic, Tampa Total Health, as well as to assist in the opening and operations of additional independent retail pharmacies. Foster told the defendant that he needed to make as much money as he could, as quickly as he could, in order to pay off his substantial \$750,000.00 fee for representing him, and that this was the only conceivable way that he would be able to do that. Despite the defendant voicing his concerns to Foster about potential risks of still being involved in these types of businesses while being out on bond for charges related to his old pharmacy, Foster assured the defendant, Phan and Norman Clement, that he saw absolutely no way that the defendant could possibly suffer from any negative consequences from remaining in that field of business in order to make money to pay his legal bills and for the living expenses of

him and Phan.

Foster even had extensive discussions with Norman Clement, the owner of Pronto Pharmacy, during which he expressed his legal opinions on this matter, telling him the same things he told the defendant and Phan. Foster also personally called attorney Bruce Lamb, and sent the defendant to his firm, Ruden McClosky, in order for him to get a contract drawn up to secure the defendant's financial interest in Pronto Pharmacy (which he was charged \$5,000.00 for). Foster even told the defendant that it would help his pending case if he remained involved in these types of businesses because "it would open up endless avenues of cooperation for him by staying in the loop." Not only did the defendant not receive a single benefit in his case from continuing to work in this field, but it did the exact opposite, and caused the defendant severe negative consequences, even though he never did anything illegal while he was out on bond, especially related to those businesses. The defendant was only trying to legally earn money to pay for his massive legal fees since he had voluntarily turned over absolutely everything he had to the government, which is what they wanted him to do, and also because the government seized \$400,000.00 the defendant had in an escrow account at a title company which the agents had initially promised him and Dirk Weed that they would let him keep for living expenses and legal fees while his case was in progress.

At the defendant's initial August 2010 proffer, the government was unhappy that his pain management clinic was back open, and they were not willing to consider using it in

any cooperation matters whatsoever. Also related to this matter, from the start of his representation of the defendant, and throughout it, Foster improperly advised him to protect Phan because he knew that she was the one who was running his pain clinic, and then later Pronto Pharmacy. Thus, also during the defendant's initial proffer meeting with the government, when they asked him for incriminating information about Phan, Foster prevented him from discussing any of her criminal activities which were known to him. Foster even strongly recommended that the defendant hire Phan an attorney (Timothy Taylor), in order to protect her to make sure that she would not be indicted for her role in the alleged conspiracy. Foster continually advised the defendant to protect Phan however he could because Foster was protecting the sources of how his fees were being paid, despite that his advice on the matter was against the defendant's best interests.

Following Foster's advice on becoming involved with Pronto Pharmacy, and also on protecting Phan, ultimately caused the defendant severe negative consequences. Phan later became a Confidential Witness against the defendant and the information that she provided to the government concerning Pronto Pharmacy was used to file a new Criminal Complaint against him. Had Foster not insisted that the defendant protect Phan, she would have never had the chance to later cooperate against him. Soon after the government found out that the defendant was involved with another pharmacy, it angered them to the point of permanently revoking his bond on May 1, 2012. The defendant alone, was arrested and charged

with a criminal complaint on that date for assisting with a pharmacy, which his friend owned, which was actually ran by Phan, which he would have never even become involved with, if it was not for Foster's awful advice concerning this matter.

A subsequent attorney of the defendant, Steve Crawford, compounded this problem for the defendant, which was created as a result of him following Foster's awful advice. The defendant made it very clear to Crawford since the very first time he met with him on January 26, 2012, that the top priority in his case was for Crawford to immediately secure a meeting for the defendant with the government so he had the chance to clear up any misconceptions that they had about his involvement with Pronto Pharmacy. Crawford assured the defendant that he would immediately get him a meeting with the government to do this, as well as to finally get the defendant on track to participate in numerous cooperation matters, which he had been prevented from pursuing while Foster represented him.

Instead of immediately focusing on arranging a meeting with the government for the defendant, Crawford first spoke with Norman Clement, the owner of Pronto Pharmacy, and even sent a Private Investigator, Kevin Kawlary, there to ensure that the business was being legally operated. Crawford then improperly advised the defendant that there was nothing wrong with him being involved with Pronto Pharmacy, and with him physically being there to train the new pharmacy technician who took over for Phan, instead of telling the defendant to steer clear of the place, at least until after he and the defendant met with the government. Despite the defendant's

repeated requests for Crawford to please bring him in to meet with the government, he refused to do this, and actually prevented him from ever meeting with them while he represented the defendant.

Then, despite being warned by AUSA Peluso that if he did not bring the defendant in to meet with her "that week" (the last week of April of 2012), that she would be "filing something" against him, Crawford blatantly ignored her warning and never let the defendant know about it. Instead of Crawford doing what the defendant had asked him to do since first meeting with him on January 26, 2012, Crawford actually canceled a pre-set proffer meeting and told the defendant that Peluso was the one who pushed it back again. The entire time Crawford represented the defendant, even after he paid Crawford his requested \$50,000.00 fee in full in early February of 2012, he never did any of the things the defendant actually hired him to do. Crawford promised the defendant that he would immediately help him resolve the government's issues regarding Pronto Pharmacy, become completely familiar with his case, make significant positive progress in the plea and cooperation process of it, and set up multiple cooperation meetings with the government for him. Instead of promptly addressing any of those important matters for the defendant, Crawford chose to focus on rehashing the excessive billing by the defendant's previous 2 attorneys, and even insisted that he write letters to send them demanding refunds from them. The defendant made Crawford well aware that his bond was in jeopardy before he even took over his case, but Crawford did nothing to try to remedy the problem, and instead made it

worse, and actually provoked the government to file a new criminal complaint against him and permanently revoke his bond. Then as soon as the defendant's bond was revoked, Crawford wanted the defendant to pay him an additional \$150,000.00 to represent him for the new criminal complaint, after the defendant had paid him \$50,000.000 to handle his original case which was much more complex.

Once the defendant's bond was revoked it was obviously much harder for him to get back into cooperation mode with the government and his relationship with them was severely damaged by this whole situation. Even after the defendant's subsequent attorney was able to get him to agree to plead guilty, and he was allowed to cooperate with the government again, it was a million times harder for him to be able to effectively and efficiently cooperate with them than if he were out on bond. This included the defendant's ability to make controlled sales and buys, his ability to help the government make numerous cases from further being able to review the 5 months worth of his VIP Pharmacy surveillance footage, his ability to help make cases through numerous contacts and current information he knew at the time, his ability to effectively and efficiently work on numerous projects showing the massive amount of illegal activities which were conducted at Patel's pharmacies, and his ability to work on the project AUSA Peluso assigned to him for the government's case against Heromin (which he was never able to finish), among many other cooperation matters the defendant could have participated in if he was allowed to fully cooperate with the government while he was actually out on

bond. The defendant's cooperation possibilities were severely restricted by his incarceration, which occurred as a result of the defendant following Foster's awful advice, and then Crawford doing nothing to try to remedy the situation when he had the chance to do so. Numerous levels of cooperation credit as a 5K1.1 were lost as a direct result of this issue, ultimately causing the defendant's sentence to be much longer than it should be if it never happened. Thus, there is a reasonable probability that the outcome of the defendant's sentencing hearing would have been different if these issues had not transpired.

In Summary, the defendant asserts the following errors were committed during his representation by defense counsels, Todd Foster and Steve Crawford, in support of Ground 2:

Todd Foster rendered ineffective assistance of counsel during the 17 months (05/24/10 to 10/20/11) he represented the defendant by:

- 1) improperly advising the defendant to reopen his pain management clinic, Tampa Total Health, and to becoming involved with the opening and operations of additional independent pharmacies, namely Pronto Pharmacy, in order to pay for his excessive fee of \$750,000.00; the defendant's involvement with Pronto Pharmacy eventually led to the revocation of his pre-trial release on May 1, 2012
- 2) improperly advising the defendant to protect Tiffany Phan, who the government wanted incriminating information on during his initial proffer, which he knew, but instead Foster told the defendant to protect Phan because she was the key to helping run his clinic, and later Pronto Pharmacy, and even instructed the defendant to pay for an attorney (Timothy Taylor) to represent Phan to make sure that she would not be indicted; (Phan later became a CW against the defendant and was the main contributor to the government's Criminal Complaint they used to revoke his bond on 05/01/2012.)

Steve Crawford rendered ineffective assistance of counsel during the 4 months (02/06/12 to 06/05/12) he represented the defendant by:

1) preventing the defendant from meeting with the government to resolve their outstanding issues and misconceptions about his involvement with Pronto Pharmacy throughout his representation

2) improperly advising the defendant that it was perfectly fine for him to be involved with Pronto Pharmacy and for him to physically be there to train the new employee who replaced Phan

3) blatantly ignoring clear warnings from AUSA Peluso that if he did not bring the defendant in to meet with her in late April of 2012, that she would be filing something, which resulted in the defendant's bond being permanently revoked

GROUND 3: THE DEFENDANT WAS DENIED HIS SIXTH AMENDMENT RIGHT TO EFFECTIVE ASSISTANCE OF COUNSEL DURING THE SENTENCING PROCESS.

SUPPORTING FACTS FOR GROUND 3:

The defendant attests that Jeff Brown was ineffective during his sentencing by allowing it to start at least 20 minutes early, before the arrival of 3 government agents, who would have testified on his behalf if Brown had waited to start the hearing on time, and had prepared them to testify. The defendant requested Brown to contact the 3 agents who agreed to come to his sentencing to discuss possible beneficial testimony that they would have offered during the defendant's sentencing hearing, but Brown declined to do so. The defendant also asked Brown to contact other government officials that he had also worked with on other cases for the same purpose, but Brown had also declined to do this as well.

On the afternoon of the defendant's sentencing hearing, he told Brown that he was able to contact 3 government agents on his own (HHS Agent Brian Harris, OIG Agent Peter Martinez & TPD Narcotics Detective Vincent Leto), who agreed to come to it, and at the time were willing to talk to AUSA Peluso, Agent Shearer and Judge Covington on the defendant's behalf. All 3 of these agents would have said positive things about the defendant if they were given the chance to do so, and they even wanted to address the issue of his bond possibly being reinstated. They knew that Judge Covington had allowed 3 co-defendants of the defendant who

were sentenced the previous month to remain out on bond because they were still cooperating with the government on pending cases. Thus, not only did the 3 government agents intend to positively contribute to the defendant's sentencing hearing, but they also wanted to request that his bond be reinstated so that he could further assist them with their respective cases.

The defendant begged Brown to please delay the start of his sentencing hearing until after the 3 government agents had time to arrive and talk to Brown, Peluso and Shearer. However, Brown declined to ask the court for a brief recess and started the defendant's sentencing hearing at least 20 minutes earlier than it was scheduled to start, right after Carroll Delo, Jane, Delo, Jeanne Bush and Dr Jennifer Levine arrived, but none of the government agents who could have been crucial to the defendant's sentencing hearing had arrived yet.

Brown told the defendant that since he did not have the chance to talk to any of the agents about coming to the defendant's sentencing hearing himself, and since they were not there at least 20 minutes before it was scheduled to start at 3:00PM, he told the defendant that he did not think they were coming. Even so, the defendant asked Brown to please just wait to start his sentencing hearing until at least the scheduled start time of 3:00PM to see if they would show up by then, because the defendant did not want them to walk in during the middle or the end of it, without getting a proper chance to positively contribute to it, which is EXACTLY what happened, when they all arrived at 3:00PM. If Judge Covington had the chance to hear testimony from those 3 government

agents (as well as others), related to how much the defendant had been assisting them with their cases, it could have reasonably convinced her to agree to authorize levels off under U.S.S.G. 5K1.1 for all of the cooperation he had done up to that point. Thus, there is a reasonable probability that the outcome of the defendant's sentencing hearing would have been different if this issue had not transpired.

In Summary, the defendant asserts the following errors were committed by defense counsel Jeff Brown during the 9 months he represented him (06/06/12 to 03/15/13), particularly prior to and during his 02/21/2013 sentencing hearing, in support of Ground 3:

- 1) refusing to contact the 3 government agents who planned to come to the defendant's sentencing hearing in order to prepare them to positively contribute to it, as well as refusing to contact several other government agents and prosecutors which the defendant worked with, who could have positively contributed to his sentencing hearing, despite the defendant requesting him to do this
- 2) failing to delay the start of the defendant's sentencing hearing until after the 3 government agents who were coming on his behalf arrived, preventing them from having any chance of being able to speak with Brown and AUSA Peluso before it began
- 3) allowing the defendant's sentencing hearing to start at least 20 minutes early, before the 3 government agents even arrived; and since Brown never spoke with any of them about testifying during it, he never called any of them to testify when they finally did arrive, on time at 3:00PM. By that time, the defendant's sentencing hearing was nearly finished.

GROUND 4: THE DEFENDANT WAS DENIED HIS SIXTH AMENDMENT RIGHT TO EFFECTIVE ASSISTANCE OF COUNSEL DURING THE SENTENCING PROCESS.

SUPPORTING FACTS FOR GROUND 4:

The defendant attests that Jeff Brown was ineffective for failing to request the government to move for a sentence reduction under U.S.S.G. 5K1.1 and Fed.R.Crim.P. 35(b) due to his enormous amount of cooperation, as well as failing to request the government to move for a sentence reduction under U.S.S.G. 5K2.0 for everything the defendant had voluntarily turned over. Brown falsely represented to the defendant that he would definitely be getting a 5K1.1 motion for all of the cooperation he had worked on up to the day of his sentencing hearing, and estimated that the amount of levels off for it to be between 4 to 8 levels, on top of an additional 7 to 12 levels off for everything the defendant had voluntarily turned over to the government as a 5K2.0 motion. Brown went over all of the cooperation matters with the defendant which he had worked on while he was out on bond, as well as while he was in custody. Brown had the defendant type up a list and a chart detailing all of his cooperation meetings, cooperation efforts, cooperation projects, as well as cooperation which he was still working with the government on. Brown reviewed the documentation summarizing all of the defendant's cooperation with him and submitted it to AUSA Peluso only a few days before the defendant was scheduled to be sentenced.

Despite Brown waiting so long to secure credit for all

of the cooperation the defendant had done up to that point, all the way up to the day before his sentencing was scheduled to take place, Brown assured the defendant that he would be getting at least 4 levels off for it all, despite that several of the cases he was cooperating on were still pending. A joint motion to delay the defendant's sentencing hearing was filed because the trials for 2 of the cases the defendant was told he would participate in were delayed, but Judge Covington denied this motion to postpone the defendant's sentencing date. Thus, Brown told the defendant that on top of the cooperation credit he would get at his sentencing hearing as a 5K1.1 motion, that he would also get additional cooperation credit as a Rule-35 motion for each case he testifies at after he is sentenced. During the 7 months before the defendant was sentenced, Brown assured the defendant that he would represent him for any Rule-35 motions or other related matters after he was sentenced, "up until the day the defendant was to get out of jail or prison". Brown repeatedly told the defendant that his representation for those post-sentencing matters would be included in the substantial fee the defendant had already paid him in early June of 2012, especially since his sentencing hearing was occurring much earlier than Brown had initially thought it would.

Brown also assured the defendant that he would be getting at least 7 levels off his sentencing offense level as a 5K2.0 motion for "extraordinary acceptance of responsibility" because the defendant had voluntarily turned over absolutely all of his money, his medications, his pharmacy's DEA license, and voluntarily closed his pharmacy,

all at the earliest available opportunity he had in the government's investigation. The defendant went through extensive records with Brown showing that he had legally earned nearly all of the money which he had voluntarily turned over to the government and allowed them to keep as part of his plea bargain. Brown also told the defendant that he had been in contact with Dirk Weed, who was the attorney who represented the defendant on 05/20/10 & 05/21/10, who advised and assisted the defendant with voluntarily turning over absolutely everything he had to the government. Brown told the defendant that Weed had confirmed the promises the DEA agents made to the defendant in his presence in exchange for him agreeing to voluntarily turn everything over to them, and that he planned to have Weed come to the defendant's sentencing hearing to testify to this matter in order to ensure that the defendant received the amount of credit he was promised.

Brown did not come see the defendant the day before his sentencing hearing, or even in the holding cell before it.

Instead, on the day of the defendant's sentencing hearing, Brown brought the defendant out to the courtroom and told him that afternoon, just a few minutes before his hearing began, that the government decided to authorize only 4 levels off as a 5K1.1 (instead of as a 5K2.0), for everything that the defendant had voluntarily turned over and absolutely nothing off for all of the cooperation the defendant had worked on up to that point at that time. Brown told the defendant before he started his sentencing hearing not to worry about it though, because he was confident that he would be able to get

Judge Covington to authorize at least 6 levels off during the hearing for what he turned over, as well as 3 to 4 levels off for all of the defendant's cooperation he had completed so far. The defendant asked Brown if Weed was coming to his sentencing hearing to ensure that he was given the amount of credit he was promised. Brown told the defendant that he had been "really busy" and was not able to arrange for Weed to come. Brown also had not even bothered to try to at least get a signed affidavit from Weed which he could have presented to the court in support of his argument for this matter.

During the sentencing hearing Brown made an argument about why the defendant deserved at least 6 levels off for everything that he had voluntarily turned over, but he left out major facts that would have supported it. The defendant requested that Brown bring up the fact that he legally earned nearly all of the money which he had voluntarily turned over, and that he had a tremendous amount of records to prove that it was made from licensed pharmacists filling thousands of valid prescriptions, which were written by licensed doctors for valid patients. The defendant requested that Brown bring up the fact that none of his co-defendants had voluntarily turned over anything to the government, but yet 3 of them received more lenient sentences than the defendant, despite successfully hiding all of their illegal earnings from the government. The defendant requested that Brown bring up the fact that the DEA agents made promises to the defendant as to how much credit he would get for turning everything over at the earliest available opportunity, which Weed could have supported if Brown had bothered to arrange it. Thus, Brown's

argument was promptly denied by Judge Covington, and the defendant received only 4 levels off for everything he had turned over, even though he had always been promised to get much more credit than that for the previous 33 months. If Brown had made these arguments, especially if he had Weed come to the sentencing hearing as Brown had promised the defendant he would, there is a reasonable probability that the defendant would have received more than 4 levels off for everything he had turned over, and that it would have been properly applied as a 5K2.0 instead of as a 5K1.1 as well.

During the sentencing hearing Brown also mentioned some of the defendant's cooperation that he had done, but declined to ask Judge Covington for any credit for it. Thus, the defendant was not given any credit whatsoever for the thousands of documented hours of work he had put into all of his cooperation efforts throughout the previous 33 months. After the sentencing hearing, Brown told the defendant that it was "not the right time to ask for credit for his cooperation", and that the defendant would definitely be getting multiple Rule-35 motions later that year, which he would handle for him (which Brown never pursued for the defendant due to the defendant not complying with his new absurd financial demands). Brown could have easily made a proficient argument to the court explaining why the defendant deserved to be awarded some credit on the day of his sentencing hearing for all of the cooperation he had done up to that point, especially considering all of the supporting information the defendant had provided to Brown related to this, and especially since the defendant had even arranged

that 3 government agents come to his hearing on his behalf, which Brown had declined to use to the defendant's benefit. If Brown had made these arguments, there is a reasonable probability that the defendant would have received a reduction in his sentence as a 5K1.1 for all of the cooperation he had done since 05/20/2010, up until the day of his sentencing on 02/21/2013. Thus, there is a reasonable probability that the outcome of the defendant's sentencing hearing would have been different if these issues had not transpired.

In Summary, the defendant asserts the following errors were committed by defense counsel Jeff Brown during the 9 months he represented him (06/06/12 to 03/15/13), particularly prior to and during the defendant's 02/21/2013 sentencing hearing, in support of Ground 4:

- 1) falsely representing that the defendant would get credit for "substantial assistance" as a 5K1.1 motion for all of the cooperation he had worked on before his bond was revoked, as well as for all of the cooperation he worked on while in custody, up until he was sentenced
- 2) falsely representing how much credit the defendant would get for voluntarily turning over all of his money, his medications, and his pharmacy's DEA license to the government at the earliest opportunity he had, as well as for voluntarily closing his pharmacy that same day for them
- 3) when trying to secure as much credit for the defendant as possible for all of the money the defendant voluntarily turned over to the government, Brown did not bring up the fact that he legally earned nearly all of it, despite the defendant providing Brown with an enormous amount of records that he could have provided to the government and to Judge Covington to support this fact
- 4) when trying to get as much credit for the defendant as possible for all of the money the defendant voluntarily turned over to the government, Brown did not bring up the fact that the co-defendants each made millions of dollars while they conducted illegal activities during the alleged conspiracy, and that all of them hid all of their money from the

government and voluntarily turned over none of it like the defendant did

5) failing to have Dirk Weed, who was the attorney who advised and assisted the defendant with voluntarily turning over absolutely everything he had at the earliest available opportunity to the government, to come to the sentencing hearing in order to testify about the promises which were made to the defendant in his presence in exchange for agreeing to turn everything over, despite Brown telling the defendant that he was going to arrange this, or at least get an affidavit from Weed supporting this fact

GROUND 5: THE DEFENDANT WAS DENIED HIS SIXTH AMENDMENT RIGHT TO EFFECTIVE ASSISTANCE OF COUNSEL DURING THE SENTENCING PROCESS.

SUPPORTING FACTS FOR GROUND 5:

The defendant attests that his counsel Jeff Brown was ineffective in failing to challenge the amount of oxycodone pills attributed to him at sentencing, as well as improperly advising the defendant that his starting base offense level from agreeing to the plea offer would be a level 36. Furthermore, related to this matter, at the defendant's sentencing, Brown declined to discuss the sentences given to his co-defendants the previous month, or that 2 of them received minor role reductions, and at least 1 of them received a reduced pill count. Also related to this matter, Brown promised the defendant that he would not be subject to any sentencing enhancements if he agreed to the plea bargain, and then Brown failed to properly object to the 2-level sentencing enhancement the probation officer applied to the defendant. Brown told the defendant that he also planned to file a motion for a downward departure (5K2.13), based on his diminished capacity during the alleged conspiracy, but he did not even bother to arrange for the main supporting witness, Dr Edgar, to assist with this argument. The defendant asked Brown to please file a request for a downward departure (5K2.0), based on the fact that his former defense counsel, Todd Foster, had actual conflicts of interest which significantly prejudiced him. Brown agreed to include an

argument for this matter in the defendant's sentencing memorandum, but he did not include and/or present the most important evidence to support this motion. The defendant also asked Brown to please also file a motion for a downward departure (5K2.12), based on the fact that the defendant was unable to stop and/or prevent a lot of the illegal activities which occurred at his pharmacy because of serious coercion, blackmail, and/or duress during the alleged conspiracy, but Brown refused to put any effort into doing this, and he told the defendant that 2 downward departure requests were more than enough.

Brown told the defendant before he even agreed to the plea offer that Diane Tremmel, who was the probation officer assigned to conduct his PSI meeting and calculate the defendant's sentencing offense level, would be using the 15mg dosage strength of the oxycodone pills for everyone involved in the conspiracy in order to give us "a conservative estimate", thus, equating to a starting base offense level of 36 for the defendant. At the defendant's change of plea hearing, before it started, the defendant was assured by Brown, that AUSA Peluso would not recommend that any sentencing enhancements be applied to the defendant, and even had Peluso personally tell this to the defendant. Brown assured the defendant that if the probation officer tried to apply any sentencing enhancements to him, that both, he and Peluso, would object to them and have them removed from his PSR before the defendant would be sentenced.

The defendant notified Brown that he hired Tess Lopez, who was a Sentencing Mitigating Specialist, to assist with the

defendant's PSI and sentencing process. The defendant pleaded with Brown in early September of 2012 to please schedule his PSI meeting with Tremmel at a time when Lopez could also attend, but Brown refused to allow Lopez to be at, or be involved with the defendant's PSI meeting. The defendant also asked Brown that they prepare for his PSI meeting, and for Brown to please bring the defendant's laptop to it, so that he could show Tremmel some video clips of everything that was really going on at his pharmacy, including a lot of things which went on behind his back, which would have given Tremmel a better idea of what everyone's true role was in the alleged conspiracy. However, Brown refused to do any type of preparation for the defendant's PSI meeting, and refused to bring any evidence that would have been favorable to him to this meeting. At the PSI meeting with Tremmel, despite the defendant wishing to explain his side of the situation (the alleged conspiracy), Brown refused to allow him to discuss any aspects of the case with Tremmel. As a result of Brown preventing Lopez from participating in the defendant's PSI meeting, and refusing to prepare for it, and also from preventing the defendant from talking to Tremmel about his case, Tremmel wrote up a very unfavorable PSR for the defendant.

The PSR which Tremmel wrote up for the defendant contained a 2-level sentencing enhancement for abusing a position of trust, as well as a starting offense level of 38 for the defendant, instead of a 36 as Brown had estimated it would be. Brown told the defendant that he was wrong about the dosage of pills which Tremmel decided to use to calculate

the defendant's offense level and that he was obviously misinformed about it. However, during the month before the defendant's sentencing hearing, Brown informed the defendant that the government had reduced the pill count from 150,000 to 50,000 pills for at least one of his co-defendants, Kimberly Curtiss, as well as given minor role reductions to her and Louis Fernandez Jr. Brown told the defendant that he would be able to use this information to argue for, at the very least, a reduction of his pill count from 150,000 to 50,000 pills as well, so that he would start at a base offense level of 36 as Brown had originally promised the defendant he would. Brown also told the defendant that he would file a thorough written objection to the sentencing enhancement and hold a separate hearing to argue the validity of it BEFORE the defendant's sentencing hearing to make sure that he made every effort he could to have it removed.

The defendant went over a significant amount of video evidence with Brown which proved that the roles of neither, Kimberly Curtiss or Louis Fernandez Jr, could have realistically been considered to be minor during the alleged conspiracy. The defendant asked Brown to please bring this matter up in his sentencing memorandum and during his sentencing hearing when requesting departures for him. The defendant also asked Brown to bring up the sentences of his co-defendants in his sentencing memorandum and during his sentencing hearing, especially for Curtiss and Fernandez Jr, who received very lenient sentences.

Brown told the defendant that in order to make the best argument he can for his request for a downward departure

for diminished capacity under 5K2.13, that he would have Dr Edgar come to his sentencing hearing to testify why it should be taken into serious consideration by Judge Covington. Dr Edgar was the defendant's Psychiatrist who was prescribing him medications for his conditions, and who the defendant was also seeing on a regular basis for counseling before his bond was revoked. Brown felt that including Dr Edgar in the defendant's sentencing hearing would add invaluable strength to his diminished capacity argument.

Pertaining to Brown's motion for a downward departure under 5K2.0, due to Foster's conflicts causing the defendant prejudice, Brown was too lazy to go over all of the evidence to support this motion, which the defendant had, and was available to him, and to incorporate very important evidence into this motion, or into his argument like the defendant had asked him to do. The defendant had multiple email communications, letters, and even court documents, which he wanted Brown to reference in support of this motion. The defendant also wanted Brown to order the court transcripts for the 01/19/2012 Conflict Hearing in front of Judge McCoun (Case No. 8:11-cr-550-T-33TMB), which was held as a result of the Conflict Motion AUSA Peluso filed on 01/13/2012 (same case), but Brown told the defendant that he had more than enough evidence to support his argument from the court transcripts for the defendant's Preliminary Hearing held in front of Judge Jenkins on 05/16/2012 (Case No. 8:12-mj-1250-T-AEP). Thus, despite the defendant requesting Brown to please provide the court more evidence to support this motion, which was readily available to him at the time, Brown instead compiled a weak

and incomplete motion to appease the defendant for this matter. Then, Brown was not ready to provide Judge Covington supporting documentation when she asked for it during the defendant's sentencing hearing, which Brown could have easily done if he complied with the defendant's simple requests concerning this matter. Judge Covington told Brown that "to really flush out those issues requires more than what you filed." If Brown had reviewed all of the overwhelming evidence for this matter, and brought and/or provided copies of it to the court, as the defendant asked him to do, there is a reasonable probability that this motion for a downward departure would have been granted, especially considering that the majority of the 01/19/2012 Conflict Hearing focused on Foster's conflicts from representing the defendant, as clearly shown in the court transcripts which the defendant has subsequently had transcribed.

Brown told the defendant that he thought his motion for a downward departure for diminished capacity was very strong and that he was confident that relief would be granted for it, as well as for his motion for a downward departure for Foster's conflicts causing him prejudice. Brown told the defendant that if he also made a motion for a downward departure under 5K2.12 for him being under serious coercion, blackmail and/or duress during the alleged conspiracy, like the defendant wanted him to, that it would somehow weaken his other 2 requests for downward departures. The defendant showed Brown a significant amount of evidence that a strong argument could have definitely been made for a 5K2.12 motion for him, including, but not limited to, text messages from

Beltran threatening the defendant, text messages from Curtiss threatening and extorting the defendant, and even statements from an individual who Beltran tried to hire to kill the defendant. In fact, the defendant was even able to convince that individual, Miguel, who was Beltran's former "right hand man", to come meet with the government (Agent Shearer and Agent Bill Davis), on October 8, 2010, on the defendant's behalf, during which Miguel told them about Beltran offering to pay him to kill the defendant, as well as numerous other illegal activities Curtiss and Beltran were involved in. Despite the defendant believing that there was more than enough supporting evidence for him to be granted relief due to this mitigating factor, Brown still refused to bother filing a 5K2.12 motion for the defendant, and the 5K2.13 motion he did file was mostly written up by Tess Lopez, along with nearly the entire sentencing memorandum he filed for the defendant.

Brown promised the defendant that he would address all of these issues in order to help mitigate the defendant's sentence, but he failed to follow through with his promises to do so when the defendant's sentencing hearing occurred. Instead of filing a written objection to the sentencing enhancement placed on the defendant, and requesting a separate court hearing to argue it before his sentencing hearing, Brown waited until the last minute, and put together a haphazard and disorganized argument against its validity during the defendant's sentencing hearing. Brown also did not bring up the co-defendant's sentences in the defendant's sentencing memorandum, or during his sentencing hearing, or the minor role adjustments they received, or the reduced pill count for

at least one of them. Brown also did not bother to arrange for Dr Edgar to come to the defendant's sentencing hearing, or even get a signed affidavit from him, despite assuring the defendant that he would do this in order to support his argument for his 5K2.13 motion. Pertaining to the downward departure request (5K2.0 motion) Brown filed for the defendant due to him suffering prejudice due to Foster's conflicts, Brown did not properly prepare for it, and did not bring the necessary documentation to support it, or even bother to review all of it with the defendant. Brown also refused to file a downward departure request (5K2.12 motion) for the defendant for him being subject to serious coercion, blackmail, and/or duress during the alleged conspiracy, despite the defendant providing Brown with enough information and evidence to support this motion. Had Brown followed through with these matters as he promised the defendant he would, there is a reasonable probability that the outcome of the defendant's sentencing hearing would have been different.

In Summary, the defendant asserts the following errors were committed by defense counsel Jeff Brown during the 9 months he represented him (06/15/12 to 03/15/13), particularly prior to and during his 02/21/2013 sentencing hearing, in support of Ground 5:

- 1) falsely representing the base sentencing offense level which the defendant would start at from accepting the government's plea offer as a level 36 instead of a level 38
- 2) guaranteeing the defendant that he would not be subject to any sentencing enhancements if he signed the plea bargain, and also had the prosecutor tell him this as well before his change of plea hearing started
- 3) not bringing up in the defendant's sentencing memorandum, or during his sentencing hearing, that the pill count of at least one of his co-conspirators, Kimberly Curtiss, was changed from 150,000 to 50,000 pills shortly before her sentencing took place
- 4) not bringing up in the defendant's sentencing memorandum, or during his sentencing hearing, that 2 of his co-defendants received Minor Role reductions when they were sentenced, despite the defendant having an enormous amount of video evidence which proved that neither of their roles could have realistically been considered minor, which he had showed to Brown
- 5) not bringing up in the defendant's sentencing memorandum, or during his sentencing hearing, the sentences which his co-defendants received, as well as all of their reductions, in order to support his arguments for downward departures for the

defendant

6) failing to review and/or use all of the overwhelming evidence which would have supported the 5K2.0 motion requesting a downward departure for the defendant due to the fact that he suffered prejudice while being represented by Foster due to his actual conflicts of interest, and failing to comply with Judge Covington's request to provide it to her

7) failing to have Dr Edgar, who was the Psychiatrist the defendant was seeing on a regular basis for treatment through medication and counseling before his bond was revoked, come to the defendant's sentencing hearing in order to testify to support the 5K2.13 motion for a downward departure for the defendant's diminished capacity during the alleged conspiracy

8) failing to file a 5K2.12 motion requesting a downward departure to be given to the defendant due to him being unable to stop and/or prevent a lot of the illegal activities which occurred at his pharmacy because of serious coercion, blackmail, and/or duress, despite the defendant providing Brown with significant evidence to support this motion

GROUND 6: THE DEFENDANT WAS DENIED HIS SIXTH AMENDMENT RIGHT TO EFFECTIVE ASSISTANCE OF COUNSEL DURING THE PLEA AND SENTENCING PROCESS.

SUPPORTING FACTS FOR GROUND 6:

The defendant attests that his counsel Jeff Brown was ineffective due to putting his greed and the prospect of his own personal significant financial gains in front of the defendant's best interests throughout his representation. Brown took advantage of the defendant's unfortunate circumstances, especially while he was in solitary confinement, in order to convince the defendant to agree to the terms of Brown's desired discreet payment arrangement, which severely negatively affected the ultimate outcome of the defendant's case. The defendant further attests that his counsel Jeff Brown was ineffective due to violating the attorney - client privilege between them, which caused irreparable damage to the defendant's relationship with the government.

The defendant attests that his counsel Jeff Brown requested that the majority of his significant fee be paid to him with over \$160,000.00 worth of silver bars and gold coins, which belonged to the defendant, in order to keep as much of his payment "off the books" as he could, in case the government also attempted to seize his fees as they did Kehoe's. Brown told the defendant that "the government can't seize what they don't know about", and assured the defendant that he would remain on his case even if the government tried

to seize the documented \$30,000.00 portion of his fee, which the defendant had paid to him in full through checks. Brown drew up and signed, and had the defendant also sign, fraudulent contracts which represented that Brown was paid only \$15,000.00 for each of the defendant's 2 cases if they were resolved with a plea bargain, even though Brown received at least \$160,000.00 more than that "off the books". Brown assured the defendant that for the money, silver and gold he was paid by the defendant in early June of 2012, that he would represent him "until the day the defendant got out of jail or prison", which would include any Rule-35 motions.

Brown knew that the defendant still had a significant amount of gold coins left, and knowing that he would not be able to convince the defendant to give the rest of them to him if the defendant was sentenced to a minimal amount of time, Brown intentionally sabotaged the plea and the sentencing process of the defendant's case in order to ensure that he received a lengthy prison term. Then in early March of 2013, which was shortly after the defendant was sentenced to 9 years in prison, Brown used the defendant's lengthy sentence as leverage to demand the defendant to give him the rest of his gold coins, which were worth about \$150,000.00 at the time. The defendant reminded Brown that he had promised the defendant to represent him "until the day he got out of jail", including for any Rule-35 motions, for everything the defendant had already paid Brown in June of 2012.

Brown told the defendant that he was the only attorney who would even accept the defendant's gold coins as payment, and that he definitely deserved to be given the rest of them

because he had to do a lot more work that he had not initially anticipated in order to make sure that the defendant would get out of jail within the next year. Brown became angry with the defendant for not immediately complying with his new financial demands. At the conclusion of the argument which Brown initiated with the defendant over wanting the rest of his gold coins, Brown ultimately told the defendant that if he was not given the rest of his gold coins that, not only would he not help with making sure that the defendant received the promised reductions in his sentence via Rule-35 motions, but that he would instead make sure that the defendant never received any credit for all of the cooperation he did, and also make sure that the government would not use him to testify in any cases.

Brown also told the defendant that if he did not agree to give the rest of his gold coins to him then he would make sure that the government would get them anyway. Brown began following through with his threats shortly after the defendant refused to comply with his new financial demands, starting with using his influence to make sure that the defendant was no longer allowed to use an office in the DIU department of the jail, where he had been brought to work on cooperation matters for the previous 6 months nearly everyday.

The defendant met with AUSA Peluso and Agent Shearer in DIU to discuss the Heromin case in early April of 2013, shortly after Brown broke the promises he made the defendant, and made his new financial demands. During this meeting, the defendant attempted to tell Peluso incriminating information about Brown but was stopped by Agent Shearer before he was able to explain anything. Peluso told the defendant not to

worry about Brown not representing him anymore and that he was still going to be called as a witness for the Heromin and Weiler trials, and that he was still going to get a sentence reduction as a Rule-35 motion for all of the cooperation he has done. Peluso and Shearer both told the defendant that "nothing has changed" and that they would see him again before Heromin's trial began. After Peluso and Shearer left DIU after meeting with the defendant, where Brown had him banned from using an office there about a month earlier, it was confirmed by Deputy Squalini that Brown was the one who instructed him, Sergeant Petruzzi, and Deputy Johnson, to not bring the defendant down there to work on anything anymore since he was no longer his client. Squalini also told the defendant that same day Brown told them this that he removed everything the defendant had at DIU which he was still using to work on the cooperation projects there, including his files, laptop and printer.

The defendant then sent Brown 2 letters, one in April of 2013, and another in early May of 2013. The defendant asked Brown to please come see him in both of these letters. In the latter letter, the defendant told Brown that if he was refusing to come see the defendant and straighten everything out between them within the next 2 weeks, then he would turn Brown in for his unethical and illegal actions. The defendant let Brown know that if Brown did not intend to keep his promises he made to the defendant pertaining to his representation for the significant amount of money, silver and gold he already received, than the defendant would not keep his promise to Brown about not telling anyone how much, and

with what, Brown was paid to represent him, which Brown wanted to be kept as discreet as possible for obvious reasons. Since Brown never bothered to come see the defendant, he then sent a letter to AUSA Peluso on May 16, 2013, asking her to please come see him because he wanted to discuss illegal activities committed by Brown. However, Peluso never came to see the defendant to discuss anything with him after receiving that letter, and was likely warned by Brown that she would be getting a letter like this from the defendant. Then in June of 2013, the defendant was informed by attorney Lucas Fleming that Brown's brother was a DEA agent in the Tampa office, and warned him that Brown likely had influence in the right places to follow through on the threats he made against the defendant, and that it sounded like things "could get out of hand" for the defendant.

Shortly after the defendant was told by Fleming about Brown's influences, a friend of the defendant, Jeanne Bush, had her houses raided in late June or early July of 2013 by numerous armed DEA agents. Apparently they were looking for gold coins which belonged to the defendant, which Bush did not have at that time. Then shortly after that, the house of the defendant's ex-girlfriend, Carol Delo, was also raided by armed DEA agents for 2 straight days, to also look for gold coins which belonged to the defendant. Then Delo gave the gold coins she was holding for the defendant to Bush in late August or early September of 2013. Then the DEA agents raided Bush's house again in early September of 2013, and took 62 1-Ounce gold Kruggerand coins from her, which belonged to the defendant.

Also during this timeframe, the defendant was unexpectedly transferred from the Pinellas County Jail to a Federal Prison in South Carolina, without ever getting the chance to talk to Peluso about any of these matters, all the while still fully expecting to testify at the upcoming trials for Heromin and Weiler, and still fully expecting to be getting a Rule-35 sentence reduction for everything he had worked on. There is sufficient evidence that Brown did in fact proceed to follow through with all of the threats he made towards the defendant, doing whatever he could to cause the defendant harm, before the defendant had the chance to cause Brown any problems by turning him in for the things he did wrong himself.

Thus, after Brown had spent the previous 8 months promoting the defendant to be an excellent witness for the government, about a month after he was sentenced, Brown began doing the exact opposite, and did whatever he could to ruin the credibility of the defendant in the eyes of the government in order to keep himself out of trouble. Due to the defendant refusing to give Brown the rest of his gold coins, and because the defendant told Brown that he would reveal his illegal activities, Brown did whatever he could to protect himself in order to avoid suffering from any negative consequences as a result of his actions, which included carrying out his previous threats against the defendant.

Attorney Darlene Barror spoke with AUSA Peluso earlier this month and was told by her that she had changed her mind about giving the defendant a Rule-35 motion, and also changed her mind about using the defendant as a witness for any

upcoming cases. Peluso told Barror that information was brought to her attention concerning the defendant (which was privileged to his attorneys, namely Brown), which is what changed her mind about these matters. However, the defendant attests that he has never directly told Peluso any of this information in question, and that what she did hear was severely misconstrued and twisted around, likely by Brown. There is also documented proof that Brown also revealed similar privileged information to other attorneys, including, but not limited to, attorney Jeff Siskind.

Also, besides Carroll Delo, her family and Jeanne Bush, Brown was the only other person who knew that the defendant had saved a significant amount of gold coins, which Delo was holding onto for him, which she eventually gave to Bush, which Brown wanted all for himself. Obviously Delo and Bush did not voluntarily disclose to the government that they were holding onto gold coins belonging to the defendant, and they definitely did not want their houses raided by the DEA multiple times. Thus, the only reasonable explanation as to the DEA's actions, and their seizure of the defendant's gold coins, over 6 months after he was sentenced and nearly 3 & 1/2 years after his case began, is that Brown had also revealed privileged information about them as well. This is a serious matter, especially if Brown's brother actually is an active DEA agent out of the Tampa field office, as attorney Fleming subsequently told the defendant after Brown stopped representing him and threatened him. Thus, the only logical person who could have been responsible for revealing this additional privileged information, concerning the defendant's

gold coins, which Brown wanted for himself, would have been Brown.

The defendant attests that there is a significant amount of proof that Brown's representation of the defendant was ineffective throughout the 9 months he represented him, especially during the plea and sentencing process of his case.

Brown's ulterior personal financial motives severely conflicted with him doing what was best for the defendant throughout his representation. Thus, there is a reasonable probability that the outcome of the defendant's case and his sentencing hearing would have been different if these issues had not transpired.

In Summary, the defendant asserts that the following errors were committed by defense counsel Jeff Brown during the 9 months he represented him (06/15/12 to 03/15/13), as well as for several months after he represented him, in support of Ground 6:

- 1) taking advantage of the defendant's unfortunate circumstances in order to get him to pay the majority of his significant fee with over \$160,000.00 worth of silver bars and gold coins, which belonged to the defendant, in order to keep as much as his payment "off the books" as he could in case the government attempted to seize his fees as well, telling the defendant that "the government can't seize what they don't know about", and assuring the defendant that he would remain on his case even if the government tried to seize the \$30,000.00 portion of his fee which he documented receiving from the defendant via checks in the fraudulent engagement contracts he drew up, which he and the defendant both signed on 06/06/2012.
- 2) putting his own financial interests and the potential for him to be able to get additional discreet significant payments from the defendant in front of the defendant's best interests throughout his representation of the defendant
- 3) violating the attorney - client privilege he had with the defendant by revealing privileged information to the government, as well as to other attorneys, which he was told by the defendant while he represented him, in order to lessen the credibility of the defendant so that he would not be eligible for reduction of his 108 month sentence via Rule-35

1 1 1

motions, as the defendant was previously promised he would be by Brown and his prosecutor, AUSA Peluso, as well as to also help keep himself out of trouble for committing unethical and potentially illegal activities himself

VII. ARGUMENT

The facts and circumstances establish that the defendant has met his burden to state a claim for ineffective assistance of counsel in violation of the Sixth Amendment set forth under Strickland v. Washington, 466 U.S. 668, 104 S.Ct.2052, 80 L.Ed.2d 674 (1984). In applying Strickland, the defendant has shown from the facts above that there were several serious errors committed. In addition, the defendant has shown that he sustained prejudice by being sentenced to an extended number of years in prison. These failures, coupled with doing virtually nothing, are tantamount to errors so serious that counsel was not functioning as the "counsel" guaranteed to the defendant by the Sixth Amendment. Because the various lawyers did not effectively represent the defendant's best interests throughout his case, and actually created new problems for him as well, defense counsel's failures prejudiced the defendant. Since counsels did not properly represent the defendant throughout this case, the Sixth Amendment's right to counsel was absent and did not function to make the adversarial process work. See Strickland.

The defendant has shown that "that there is a reasonable probability that, but for counsel's unprofessional errors, the result of the proceeding would have been different." It is clear that the defendant's sentence is unreliable because of a breakdown in the adversarial process, particularly due to his counsel's actual conflicts of interest, and due to the serious errors his various counsels made during the plea process, cooperation process, and

sentencing process of his case.

Therefore, the facts in this case established that defense counsel's performance "fell below an objective standard of reasonableness" and the resulting prejudice was that the defendant was sentenced to an extended term of prison.

WHEREFORE, the defendant prays that this Honorable Court enter an Order setting aside the judgment and sentence of conviction.

I HEREBY CERTIFY THAT THE ABOVE STATEMENTS ARE TRUE AND CORRECT UNDER PENALTY OF PERJURY.

Dated this 20th day of February, 2014.

P R O C E E D I N G

1
2 THE COURT: Okay. As I was starting to say,
3 we are here for the final hearing in the case
4 which is titled *Department of Health, Board of*
5 *Pharmacy, Petitioner, vs. Christopher Stephen*
6 *Switlyk, R.PH., Respondent; Division of*
7 *Administrative Hearings Case No. 14-0883PL.*

8 My name is Jim Lawrence Johnston, the
9 administrative law judge assigned to the case, and
10 as is reflected in the docket, Mr. Switlyk is
11 participating by telephone. And here, I'll let
12 the counsel for the Petitioner make their
13 appearances for the record at this time.

14 MR. MAY: Hello, Your Honor. My name is
15 Lucas May, Petitioner -- attorney for the
16 Petitioner.

17 THE COURT: All right. You'll have to speak
18 up probably for Mr. Switlyk to hear you.

19 MR. SWITLYK: I heard a little bit.

20 THE COURT: That was Mr. May making his
21 appearance for the record.

22 MR. SWITLYK: Okay.

23 THE COURT: But you will have to speak up for
24 him to hear you.

25 MS. GREEN: And I'm -- Mr. Switlyk, this is

1 Yolanda Green, assistant general counsel, also
2 with the Department of Health representing the
3 Petitioner.

4 THE COURT: And, Mr. Switlyk, the record
5 reflects that you are on the telephone and calling
6 in from your location in South Carolina. Still
7 there?

8 MR. SWITLYK: Yeah, I'm here. I heard you.

9 THE COURT: All right. Preliminarily,
10 there -- since the last time we talked over the
11 phone and I made some rulings on pending motions
12 at that time, I have received a, from you,
13 Mr. Switlyk, a motion to postpone the hearing.

14 I was advised about something about a fax to
15 the same effect. I don't know if it's a different
16 document or if it's the same document, but I
17 understand you're asking to postpone the hearing.
18 Let me ask, has the department received a copy of
19 this?

20 MS. GREEN: Your Honor, our office received a
21 copy of it, but they received it while we were
22 here present at the hearing. But I have had an
23 opportunity to review it, and I do have it on my
24 phone just so you'll know that --

25 THE COURT: Okay.

1 MS. GREEN: -- if I look at my phone, that's
2 what I'm reading from.

3 THE COURT: So what I was hearing about this
4 morning is this document?

5 MS. GREEN: If it is the motion for
6 continuance based on the ability to provide
7 additional evidence or documents?

8 THE COURT: Yes. It's called Motion to
9 ~~Postpone the Hearing.~~

10 MS. GREEN: Yes.

11 THE COURT: Yeah.

12 MS. GREEN: We do have a copy of it.

13 THE COURT: All right. I'm --

14 MR. SWITLYK: I'm not sure if I did it all
15 correctly or not, but I'm not a lawyer. I drew it
16 up the best I could.

17 THE COURT: I understand. It's fine in that
18 regard. I'm not sure about how the service was
19 made on the department but --

20 MR. SWITLYK: I mailed a copy to them the
21 same day I mailed it to you.

22 THE COURT: Okay. All right. So they have
23 received it. I have reviewed it. You're asking
24 for a postponement. Anything you want to add to
25 that, to what you've written?

1 MR. SWITLYK: Well, I wrote letters to all
2 four of those doctors' offices, and hopefully,
3 I'll get some information back, you know, because
4 I wanted to submit those records. But actually, I
5 just got the Department of Health pamphlet
6 yesterday, and they -- there's a section there
7 that had, like, the, like, the penalties, I guess,
8 the disciplinary guidelines?

9 THE COURT: Yes.

10 MR. SWITLYK: As part of the disciplinary
11 guidelines, there's a section where it says it's
12 the mitigating factors. And one of the mitigating
13 factors was "steps taken by the licensee to ensure
14 the nonoccurrence of similar violations in the
15 future, including continuing education." And, I
16 mean, some of the stuff in my medical records from
17 those four doctors, you know, I think it'll show
18 some of those steps.

19 THE COURT: All right. Any response from the
20 department?

21 MS. GREEN: Yes, Your Honor. The -- well,
22 first, we'd point out that the Respondent has
23 already raised this particular motion previously
24 and Your Honor has ruled on --

25 MR. SWITLYK: I can't hear, I'm sorry.

1 MS. GREEN: The department's first argument
2 is that Your Honor has ruled on a motion to place
3 this case -- to continue this case for a period of
4 time and those arguments were heard previously.

5 But I'll also -- I want to point out that the
6 Respondent was served with an emergency suspension
7 order in this case in February -- February 14th of
8 2013. There was an administrative complaint
9 filed, and subsequently, an amended administrative
10 complaint was filed in December of 2013, and the
11 Respondent elected for a formal hearing, which was
12 filed with our office January 13th of 2014.

13 We did advise the Respondent and his
14 then-counsel that we would refer the case to the
15 Division of Administrative Hearings pursuant to
16 his request. So at that point, the Respondent was
17 aware that this case was going to proceed for
18 formal hearing pursuant to his election.

19 So therefore, the department asserts that the
20 Respondent has had sufficient time to provide
21 evidence to Your Honor and to the department, and
22 therefore, we ask that you -- that you'd deny this
23 motion.

24 Alternatively, the department would not have
25 any objection to leaving the record open for the

1 Respondent to provide this additional evidence and
2 for a period of time as the Judge sees fit so long
3 as the department has an opportunity to raise any
4 objections as appropriate.

5 MR. SWITLYK: May I say something?

6 THE COURT: Yes.

7 MR. SWITLYK: Actually, I just got this
8 disciplinary guidelines, I just got it yesterday,
9 so I had no idea what I could submit or what I
10 couldn't submit. And, you know, I had -- I had an
11 attorney helping me at the time, and, you know,
12 due to financial reasons, I wasn't able to retain
13 him any longer. So, I mean, I've just been doing
14 this on my own only for a couple weeks now.

15 THE COURT: Okay. Well --

16 MR. SWITLYK: I thought he was going to help
17 me take care of all of this. So, I mean, I have
18 no access to any of these guidelines, any laws,
19 any changes. I mean, you know, I'm in prison. I
20 don't know what I can and can't submit.

21 I mean, I just found out once you told me
22 about it two or three weeks ago when I talked to
23 you that I could submit evidence to you and -- and
24 I didn't have any addresses. I just got your
25 address last week and Mr. May's address. Mr. May,

1 I just talked to him for the first time two weeks
2 ago.

3 THE COURT: Well, this is kind of a
4 re-argument of what you argued on the phone the
5 other day with some additional information or
6 specifics as to what you're -- some other grounds
7 for the postponement, but I'm going to deny the
8 motion to postpone the hearing.

9 I will, however, grant the alternative
10 suggestion made by Ms. Green, which is that if you
11 have these documents that you wish to submit in
12 mitigation, I'll leave the record open and give
13 you a certain amount of time to do that. But
14 since we're all here and --

15 MR. SWITLYK: I have a question, Your Honor.
16 What about, like, there's actually a video
17 surveillance of my pharmacy for the last five
18 months it was open, and I guess that was, you
19 know, the timeframe where they, you know, were
20 alleging conspiracy. And I didn't get that video
21 evidence given back to me until about a
22 year-and-a-half after the -- I closed the
23 pharmacy.

24 And, you know, the video evidence will show
25 that, you know, I was never really there. I mean,

1 I had other pharmacists working there, and, you
2 know, I just came in, you know, at the end of the
3 day for an hour or two.

4 And if I'd be able to submit that video
5 evidence, it would actually refute a lot of the
6 things even in the indictment and even in the plea
7 bargain. But, I mean, I'm in prison. I don't
8 have enough access here. But, I mean, I will when
9 I get out. Am I going to be able to submit that
10 evidence?

11 THE COURT: Well, why don't we do this: Why
12 don't we proceed with the hearing, and you can
13 testify to what you think you can testify to in
14 that regard. As I understand, as I read these
15 charges, they're not going to retry your criminal
16 proceeding. It's based on the judgment that
17 exists as a result of your plea bargain.

18 In terms of -- I think the last time you
19 requested a postponement, you were, unless I am
20 getting this confused with another case, you were
21 wanting to go back to court to have that judgment
22 reopened.

23 MR. SWITLYK: Actually, Judge, I do have an
24 appeal filed and I mailed you guys a copy to it --

25 THE COURT: Right. And that was -- that was

1 your reason --

2 MR. SWITLYK: -- the other day.

3 THE COURT: Correct. And that was your
4 reason for post -- for asking for the postponement
5 previously. And what I said then is, well, if
6 that happens, that would be a new development that
7 could affect your case. But in the meantime, I
8 wasn't going to postpone the hearing just because
9 it's a possibility at this point in time.

10 So, for the same reasons -- as I understand
11 it, this prosecution is based on the judgment that
12 exists, not -- they're not going to reprove or
13 retry your criminal case. So I don't know whether
14 the surveillance information -- evidence that
15 you're discussing would even be relevant to the
16 charges in this case, because they're not retrying
17 that case. But even --

18 MR. SWITLYK: Well, they may be.

19 THE COURT: You may, in your part of the
20 case, testify to what you want to testify to. You
21 may not -- there may be objections and I'll deal
22 with them, and there may be some evidence that
23 you -- would support what you're saying that would
24 not be available, but we'll deal with that when we
25 get to that part of the hearing.

1 MR. SWITLYK: Okay. What about the
2 deposition for that expert witness? I never
3 received a copy of it.

4 THE COURT: Well --

5 MS. GREEN: Your Honor, if I may?

6 THE COURT: Yes.

7 MS. GREEN: The department forwarded all of
8 its exhibits to the Respondent, and that included
9 the deposition transcript for Dr. Salem, the
10 expert.

11 THE COURT: It may be not yet there, because
12 my -- I believe my packet of the exhibits of the
13 department came in two different deliveries, and
14 the actual copy of the deposition came subsequent
15 to the first delivery. So it may be on the way.
16 But in any event, you were there at the
17 deposition, so if that's a ground for -- another
18 ground for postponement, I'll deny that.

19 So are there any other preliminary matters
20 before we proceed with the hearing? Are there any
21 opening statements to be made, starting with the
22 Petitioner?

23 MR. MAY: Your Honor, the department would
24 like to make a very short opening statement.

25 THE COURT: All right.

1 MR. MAY: My name is Lucas May, and my
2 co-counsel, Yolanda Green, and I represent the
3 Petitioner, the *Florida Department of Health vs.*
4 *Mr. Christopher Stephen Switlyk.*

5 Through the admission of documents and expert
6 witness testimony, the Petitioner will demonstrate
7 that Mr. Switlyk entered three guilty pleas which
8 relate to the practice of pharmacy. These
9 documents and testimony describe the extent and
10 severity of the crimes, and the Pharmacy
11 Administrative Rules demonstrate that Respondent's
12 guilty pleas may be disciplined with permanent
13 licensure revocation.

14 The documents demonstrate that Mr. Switlyk,
15 on his own accord, freely entered the guilty pleas
16 without promise of benefit of any kind. The
17 documents describe that Respondent understood his
18 plea agreement and that the United States
19 recommended the sentence at the low end of the
20 applicable guideline range but that Respondent
21 also understood that the recommendation was not
22 binding on the court.

23 Respondent's criminal sentencing documents
24 will demonstrate that, "The defendant shall
25 refrain from engaging in any employment relating

1 to dispensing prescription drugs, either in a
2 pharmacy, pain clinic or other medical
3 environment."

4 Through the admission of expert testimony by
5 Ronald B. Salem, a registered pharmacist, the
6 Petitioner will demonstrate that Respondent's
7 guilty pleas are related to the practice of
8 pharmacy, and as such, should be disciplined as
9 ~~this Court determines to be fair and reasonable.~~

10 THE COURT: All right. That was the opening
11 statement by the department. Did you have an
12 opening statement you want to make at this time?

13 MR. SWITLYK: Well, I mean, I would just like
14 to note that that guilty plea, I actually never
15 signed it. I -- I signed a rough draft of it on
16 the 3rd day of September, and then when it came
17 time to -- at my plea hearing when my lawyer stuck
18 it in front of me, you know, he had me initial the
19 pages.

20 And then when it came to the last page, I
21 said, you know, "I'm not signing this." And then
22 he said, "Oh, that's fine. I'll just use the one
23 you signed a couple days ago," and he stuck it in
24 there. So technically, I never signed that plea
25 bargain.

1 THE COURT: That happened in open court
2 you're saying?

3 MR. SWITLYK: Yeah. I mean, you can see it
4 if you look in the document. Do you have a copy
5 of the document in front of you?

6 THE COURT: I'm not looking at it right now,
7 but it's one of the exhibits that was proposed.

8 MR. SWITLYK: Yeah, Document 236, my lawyer
9 had me sign it. He came to the jail September 3rd
10 and he said, "Go ahead and sign this so I can use
11 this last page for negotiation, and I'm going to
12 negotiate and have all the changes made to the
13 plea bargain that you want changed to it." And
14 then, you know, he did a plea in the next two days
15 with the revised plea bargain. And then I went to
16 the change of plea hearing and --

17 THE COURT: It sounds like you're -- excuse
18 me, it sounds like you might be getting into your
19 testimony, something you want to testify to. I
20 understand what you're saying --

21 MR. SWITLYK: I mean, I know you're basing
22 stuff on my agreeing to a plea bargain, but
23 technically, I actually never signed that plea
24 bargain.

25 THE COURT: All right. Well, is there any

1 other opening -- any other opening statement or
2 any other statements that you want to make in the
3 way of an opening statement at this time?

4 MR. SWITLYK: I mean, other than, you know, I
5 just got a copy of the disciplinary guidelines
6 yesterday, and, you know, I just had a chance to
7 review it and I'm not sure which ones they're
8 applying to me.

9 THE COURT: Well, let me tell you in that
10 regard that we haven't even gotten into the
11 hearing yet, but it's one of their exhibits so if
12 we assume that it's -- well, whether it's in
13 evidence or not, you have a copy of it now.

14 You will have an opportunity to submit a
15 proposed order to me, which you -- and you'd have
16 an opportunity -- you'd have more time to review
17 that document before you submit your proposed
18 order so --

19 MR. SWITLYK: Well, the only thing is, I
20 mean, I don't have any access to look at any
21 similar cases or anything, like, I have no -- you
22 know, I have no access to any of that stuff in
23 here.

24 THE COURT: Okay. Well, back to opening
25 statement, any other -- the opening statement is

1 basically for you to outline what you think the
2 evidence is going to show.

3 MR. SWITLYK: Um --

4 THE COURT: But let me just say this: Since
5 you're the only -- you only have yourself to
6 support any statements that you make, you're
7 basically going to have to retestify to anything
8 you say at this time. So --

9 MR. SWITLYK: I mean, other than that, you
10 know, the government and my lawyer at the time
11 pressured me into agreeing to a plea bargain that
12 wasn't accurate, I mean --

13 THE COURT: Okay.

14 MR. SWITLYK: -- I mean, I'm not really sure
15 what else I can say --

16 THE COURT: Okay.

17 MR. SWITLYK: -- regards to that. But I,
18 mean, it's, you know -- I mean, at the point in
19 time where I actually was considering taking the
20 case to trial, and then the government revoked
21 my -- revoked my bond, and then -- you know,
22 because I was thinking about taking it to trial.

23 And then once I was in jail and then they
24 held me in jail, they put me in solitary
25 confinement for two months with no access to any

1 phone or pen and paper or anything, and they
2 wouldn't let me out until I signed a plea bargain.

3 THE COURT: Okay.

4 MR. SWITLYK: You know, I mean, in my
5 opinion, I mean, it was definitely malicious
6 prosecution is what they did. They forced me into
7 pleading to a plea bargain that, you know, I
8 didn't agree with.

9 THE COURT: Okay. Okay. Back to the next

10 phase of the hearing, which is the presentation of
11 evidence. What evidence is going to be presented
12 by the Petitioner?

13 MR. MAY: Okay. Your Honor, the Petitioner
14 would like to enter five separate exhibits into
15 evidence. Exhibit No. 1 is Mr. Switlyk's
16 licensure certification printout, and the
17 Department of Health would like to submit this
18 document into evidence as a self-authenticating
19 document under Florida Statutes Section 90.902(1).
20 And the printout demonstrates that Mr. Switlyk has
21 an active pharmacy license subject to emergency
22 suspension.

23 THE COURT: All right. Do you have that --
24 do you have these documents in front of you now,
25 Mr. Switlyk?

1 MR. SWITLYK: Yeah. Hold on.

2 THE COURT: This is their Exhibit 1, which
3 is --

4 MR. SWITLYK: Yeah, I got that. Exhibit 1,
5 it says --

6 THE COURT: Your license certification.

7 MR. SWITLYK: Okay.

8 THE COURT: Do you have any objection -- they
9 ~~are moving that -- are you moving this into~~
10 evidence at this time?

11 MR. MAY: Yes, please.

12 THE COURT: Do you have any objection to that
13 being in evidence?

14 MR. SWITLYK: No. I mean, I guess right now,
15 since my license is expired, no.

16 THE COURT: Okay. It's received.

17 (Whereupon, Petitioner's Exhibit No. 1,
18 having been pre-marked for identification, was received
19 in evidence.)

20 MR. MAY: As Exhibit No. 2, the Petitioner
21 would like to admit Florida Statutes 456.072 into
22 evidence under Florida Statutes Section 90.201
23 relating to judicial notice.

24 THE COURT: All right. Mr. Switlyk, this is
25 just a copy of the statute that -- statutes that

1 apply.

2 MR. SWITLYK: Was that Exhibit 2?

3 THE COURT: Yes.

4 MR. SWITLYK: Was that the letter C where he
5 has the asterisk next to it?

6 MR. MAY: Yes.

7 MR. SWITLYK: Okay. Yeah, I got a copy of
8 that.

9 THE COURT: All right. And do you have any
10 objection?

11 MR. SWITLYK: No.

12 THE COURT: Okay. It'll be received. I
13 don't know that it's necessary for it to be in
14 evidence but it's received.

15 (Whereupon, Petitioner's Exhibit No. 2,
16 having been pre-marked for identification, was received
17 in evidence.)

18 MR. MAY: Okay. And related to that, Your
19 Honor, the Petitioner would like to submit into
20 evidence the guidelines applicable to Mr. Switlyk,
21 the disciplinary guidelines; also, under judicial
22 notice under Florida Statutes Section 90.202(9) as
23 a rule promulgated by a governmental agency
24 published in the Florida Administrative Code.

25 THE COURT: All right. Now, they're

1 switching to No. 4.

2 MR. MAY: Yeah. I'm sorry about jumping
3 around.

4 THE COURT: So they're on Exhibit 4, which
5 are the disciplinary guidelines that you were
6 referring to earlier.

7 MR. SWITLYK: Yeah.

8 THE COURT: So any objection to them being
9 received?

10 MR. SWITLYK: No.

11 THE COURT: Okay. Again, I don't know that
12 it's actually necessary for them to be in
13 evidence, but they'll be received without
14 objection. Let me ask you this: Is this the
15 version that is in effect at this time or at some
16 point in the past?

17 (Whereupon, Petitioner's Exhibit No. 4,
18 having been pre-marked for identification, was received
19 in evidence.)

20 MR. MAY: It's my understanding that it was
21 in effect when he entered the guilty pleas on
22 September 9th, 2012.

23 THE COURT: September 9th, 2012. Is that --
24 and so that goes for the --

25 MR. SWITLYK: It was September 5th.

1 MR. MAY: I mean, excuse me, September 5th,
2 2012.

3 THE COURT: All right. And that goes for the
4 statutes as well? Those are the statutes that
5 were in effect at that time?

6 MR. MAY: That's correct.

7 THE COURT: Okay.

8 MR. MAY: At this point, the Petitioner would
9 like to enter Exhibit 3, composite exhibit, into
10 evidence; and this is composed of Mr. Switlyk's
11 federal indictment, amended plea agreement, report
12 and recommendation concerning plea of guilty and
13 the judgment.

14 And the Department would like to have the
15 indictment, the amended plea agreement and the
16 report and recommendation concerning plea
17 agreement admitted under Section 90.902(1) as
18 self-authenticating, and the judgment admitted
19 under Section 92.06 which allows for the admission
20 of judgments.

21 THE COURT: All right. Mr. Switlyk, do you
22 have objections to these being received in
23 evidence?

24 MR. SWITLYK: The only objection I have is to
25 actually -- the plea agreement may be -- I have a

1 motion right now to withdraw that plea. I mean, I
2 don't know what's going to happen with it but --

3 THE COURT: Okay.

4 MR. SWITLYK: I mean, that's part of the
5 appeal. I mailed you guys a copy of it. I just
6 mailed it out on, I think, on Monday.

7 THE COURT: Okay. So it's a motion to do
8 what now? To --

9 MR. SWITLYK: A motion to -- my appeal --

10 THE COURT: Yeah.

11 MR. SWITLYK: -- my appeal on the my criminal
12 case.

13 THE COURT: Yes.

14 MR. SWITLYK: It's part of that appeal. Part
15 of that appeal asks to withdraw the plea, the
16 guilty plea.

17 THE COURT: Okay. All right. I understand
18 that aspect of your position, however, it would
19 not be a ground to not receive the evidence that's
20 been offered, so I will --

21 MR. SWITLYK: What about -- what about, I
22 didn't sign that plea on the day -- on the day of
23 the plea hearing.

24 THE COURT: Well, I will listen to your
25 testimony concerning that but -- any response?

1 MS. GREEN: Your Honor, with respect to the
2 amended plea agreement, there are approximately --
3 let me see, where is that -- approximately 27
4 pages, and on each page, the Respondent was
5 required to initial to, you know, indicate that he
6 acknowledged what was in the actual plea
7 agreement. And then his signature appears on the
8 Page 27 along with the signature of his attorney,
9 ~~the US attorney -- the US attorney assigned to the~~
10 case. Therefore, the Department --

11 MR. SWITLYK: Your Honor, there is actually a
12 plea -- original plea filed on September, I think,
13 4th on my docket. And if you look at the
14 signature page on that -- on that plea and none of
15 the pages are initialed, they actually just used
16 the same signature page in that plea on the second
17 plea.

18 THE COURT: Yeah, I understood that from what
19 you were saying in your opening statement but --

20 MR. SWITLYK: They just reused the same
21 signature page because I didn't sign it.

22 THE COURT: Well, and that's subject as part
23 of your appeal.

24 MR. SWITLYK: I mean, it was brought up.

25 THE COURT: Yeah. Well, I will overrule that

1 objection. I will receive the exhibit based on
2 what's -- based on it being the certified copy of
3 the document. I understand you have a -- you have
4 some disagreements with it, but it is a
5 self-authenticating document, and I will hear your
6 testimony about it when it gets to your part of
7 the case. So I will receive that document as
8 evidence.

9 (Whereupon, Petitioner's Exhibit No. 3,
10 having been pre-marked for identification, was received
11 in evidence.)

12 MR. SWITLYK: Did you see the last page of it
13 where it has a date on it?

14 THE COURT: Yes. Yeah. I understand what
15 you're saying, but I -- I understand what you're
16 saying. But I will, at this time, receive the
17 document, and I will listen to your testimony when
18 it comes your turn to testify.

19 MR. SWITLYK: Is it possible to also submit
20 into evidence the plea that was filed on
21 September 4th as well?

22 THE COURT: That -- that could be part of
23 your case; yes.

24 MR. SWITLYK: Okay.

25 THE COURT: So I will receive No. 3.

1 MR. MAY: Okay. And lastly, Your Honor, the
2 Petitioner would like to submit Exhibit No. 5, a
3 copy of the deposition transcript of Ronald B.
4 Salem dated March 13th, 2014, to be admitted into
5 evidence under Florida Rules of Civil Procedure,
6 1.330(3)(F), which allows for admissibility of a
7 deposition if the witness is an expert.

8 THE COURT: All right. Any objection to
9 Mr. Salem's deposition?

10 MR. SWITLYK: You know, I object, you know,
11 just because he's a paid expert witness, and I
12 didn't get a chance to pay an expert witness to
13 come to my defense.

14 THE COURT: Okay. I'll overrule that
15 objection, so it will be received.

16 (Whereupon, Petitioner's Exhibit No. 5,
17 having been pre-marked for identification, was received
18 in evidence.)

19 MR. MAY: Also to note at this point, Your
20 Honor -- no, never mind.

21 THE COURT: Any other evidence to be
22 presented by the Petitioner?

23 MS. GREEN: The Petitioner would like to call
24 the Respondent as a witness.

25 THE COURT: All right. Mr. Switlyk, you've

1 been called by the Petitioner to testify in their
2 case.

3 Is there a notary at his end?

4 MS. GREEN: There should be someone --

5 MR. SWITLYK: No. There's no notary here at
6 the prison.

7 MS. GREEN: There should be someone there to
8 swear him in.

9 ~~THE COURT: Is there somebody there who would~~
10 be able to swear you from that end?

11 MR. SWITLYK: What do you mean, swear me?

12 THE COURT: Swear you to give testimony at
13 this hearing so that your testimony will be sworn
14 testimony.

15 MR. SWITLYK: I don't know.

16 (Whereupon, a pause was had in the
17 proceeding.)

18 MR. SWITLYK: Okay, yeah. She -- she has to
19 be a notary?

20 THE COURT: Yes.

21 MR. SWITLYK: If you need a notary, the
22 (indecipherable) is a notary.

23 THE COURT: Okay.

24 MR. SWITLYK: I think that she'll be able to
25 do that.

1 THE COURT: Yes.

2 Are you aware of the requirement that the
3 notary has to submit an affidavit regarding the
4 swearing of the witness. I think we have a --
5 there's a rule or something that gives guidance as
6 to what needs to be done at this point.

7 MS. GREEN: Okay.

8 THE COURT: You have to be in touch with that
9 notary to have the notary submit an affidavit.

10 MS. GREEN: Yeah. Because we were in contact
11 with -- I believe that's probably his counselor
12 he's referring to. So we can -- we'll make sure
13 that we contact her and ensure that we get that
14 document.

15 THE COURT: Are you still there, Mr. Switlyk?

16 MR. SWITLYK: Yes, I'm here.

17 THE COURT: Are you waiting for somebody to
18 arrive?

19 MR. SWITLYK: Oh, no. Do they swear me right
20 now?

21 THE COURT: Yeah.

22 MR. SWITLYK: Okay. What about any evidence
23 I want to submit into evidence?

24 THE COURT: Well, that -- that's -- you'll
25 be -- you'd be able to testify. You only have to

1 be sworn one time. You can testify in your own
2 behalf as well.

3 MR. SWITLYK: No. I'm talking about how the
4 prosecution, they just submitted all these
5 exhibits. What about the exhibits that I want to
6 be submitted?

7 THE COURT: Well, you can -- you can mail
8 them -- you can mail them.

9 MR. SWITLYK: Okay. Can I -- can I mention
10 them now, or do I just --

11 THE COURT: Yes. Well, not right now. At
12 this point, we're waiting for the notary to swear
13 you so we can proceed.

14 MR. SWITLYK: So do I just hand her the
15 phone?

16 THE COURT: Excuse me?

17 MR. SWITLYK: Just hand her the phone?

18 THE COURT: Let me just -- first of all, let
19 me ask the notary to -- yeah, hand her the phone.

20 MS. CARLSON: We're on speaker phone. This
21 is Elizabeth Carlson.

22 THE COURT: Could you give us your full name,
23 please.

24 MS. CARLSON: This is Elizabeth Carlson,
25 C-a-r-l-s-o-n.

1 THE COURT: Okay. And your address up there?

2 MS. CARLSON: Post Office Box 699, Estill,
3 South Carolina.

4 THE COURT: Okay. And you're a notary in the
5 state of South Carolina?

6 MS. CARLSON: I am.

7 THE COURT: Okay. I would ask you to -- are
8 you familiar with swearing witnesses to testify?

9 MS. CARLSON: I've done it a few times; yes.

10 THE COURT: Well, I'll just ask you to take
11 the oath of the -- of Mr. Switlyk that the
12 testimony that he is about to give, that he gives
13 this morning, will be the truth, the whole truth
14 and nothing but the truth. You ask him to swear
15 to that and --

16 Whereupon,

17 CHRISTOPHER SWITLYK, R.PH.
18 was called as a witness, having been first duly sworn
19 to speak the truth, the whole truth, and nothing but
20 the truth, was examined and testified as follows:

21 THE WITNESS: Yes.

22 THE COURT: All right. Ms. Carlson --

23 MS. CARLSON: Sir?

24 THE COURT: -- you'll be required to, under
25 our procedures, to submit an affidavit regarding

1 your notary, your -- what you just did.

2 MS. CARLSON: Uh-huh.

3 THE COURT: And the attorneys for the
4 department will be in touch with you regarding
5 that.

6 MS. CARLSON: Okay. That's fine.

7 THE COURT: And do they have a phone number
8 where they can reach you?

9 MS. CARLSON: Yes, sir.

10 THE COURT: Okay. All right. Thank you very
11 much.

12 MS. CARLSON: You're welcome.

13 THE COURT: You may proceed.

14 MR. SWITLYK: Hello?

15 THE COURT: Yes. I just asked Ms. Green to
16 proceed with her questioning of you.

17 MR. SWITLYK: Okay.

18 DIRECT EXAMINATION

19 BY MS. GREEN:

20 Q Mr. Switlyk, can you please state and spell
21 your name for the record.

22 A Christopher, C-h-r-i-s-t-o-p-h-e-r; Switlyk,
23 S-w-i-t-l-y-k.

24 Q Okay. And we just had evidence admitted
25 regarding convictions that occurred on September 5th of

1 2012. Did you report those convictions in writing to
2 the Department of Health?

3 A At the time, I didn't have -- I didn't have
4 the address or any information of the Department of
5 Health. I was in jail.

6 Q Right. But you didn't report those in
7 writing to the Department of Health; correct?

8 A I mean, I don't see how I could have.

9 Q So that is a no?

10 A Well, I mean, no, I didn't, because I had no
11 ability to do that.

12 MS. GREEN: Thank you. I have no further
13 questions. And the Department rests its case.

14 THE COURT: All right. Did you, first of
15 all, in the way of what you might call
16 cross-examination, did you have anything you
17 wanted to elaborate on or explain regarding the
18 testimony you just gave on direct?

19 MR. SWITLYK: Me?

20 THE COURT: Yes.

21 MR. SWITLYK: Well, yeah. When I -- as soon
22 as I pled guilty, I actually had a meeting with my
23 attorney and told him that I wanted to withdraw
24 the plea, and then he kept convincing me not to
25 withdraw it and that I was going to get out, you

1 know, within a year or two. I just kept the plea
2 as it was.

3 I asked him if I had to submit anything to
4 the Department of Health or anything and he said
5 no, don't worry about that. And I had -- you
6 know, I had no access to anything, no address, no
7 phone number. You know, I don't know how I could
8 have submitted anything to the Department of
9 Health. I was in jail.

10 You know, I didn't even had -- you know, none
11 of my family was talking to me or anything like
12 that. I didn't have anybody helping me out. I
13 mean, if they sent me a letter, I mean, with their
14 address on it, I would have gladly wrote them a
15 letter back and said that I was -- I pled guilty.
16 But, I mean, I didn't have any contact with the
17 Department of Health. I mean, they knew where I
18 was. Hello?

19 THE COURT: Yes.

20 MR. SWITLYK: Well, I mean, another thing,
21 too, I actually, when I first voluntarily closed
22 my pharmacy, I met with Joe DeGregorio over there
23 from the Department of Health, I met with him and
24 my attorney at the time, John Perrin.

25 And then I -- I agreed to stop -- not to

1 practice pharmacy. That was back in May of 2010.
2 And he was aware of the criminal case and, you
3 know, made me aware that my bond was revoked. And
4 he came to see me, I think after I pled guilty.
5 So, I mean, and -- and I told him about, you know,
6 that I pled guilty and he knew about everything.

7 THE COURT: What was his name and what was
8 his role?

9 MR. SWITLYK: He's an investigator with the
10 Department of Health. Joseph DeGregorio,
11 D-e-G-r-e-g-o-r-i-o.

12 THE COURT: Okay. Okay. Anything else?

13 MR. SWITLYK: Um --

14 THE COURT: On that subject, I mean.

15 MR. SWITLYK: I mean, other than Department
16 of Health knew what was going on with my case, I
17 mean -- I mean, they knew I had a criminal -- an
18 outstanding criminal case. I mean, as soon as my
19 bond was revoked, I didn't really have much of a
20 choice but to plead guilty so --

21 THE COURT: Okay.

22 MR. SWITLYK: Unless I -- you know, I didn't
23 even -- I didn't even know that I was -- you know,
24 had to notify anybody, I mean, other than, you
25 know, Joe coming to see me and I told him about

1 it. I mean, we had some e-mail communications,
2 too.

3 THE COURT: Okay. Anything else?

4 MR. SWITLYK: That's -- actually, when I was
5 in jail, when I was in jail, the government was
6 allowing me to use the computer, and I actually --
7 Joe -- me and Joe e-mailed me back -- you know, we
8 e-mailed each other a couple of times. I did send
9 a copy of the e-mail actually. Didn't I send a
10 copy to the Department of Health, that I had with
11 Joe?

12 THE COURT: I -- I -- there's nobody here
13 that can answer that who's --

14 MR. SWITLYK: I think I sent it to Mr.
15 Jurich, Christopher Jurich or something. Did you
16 guys get that?

17 THE COURT: You're --

18 MR. SWITLYK: I'm talking to the prosecution.

19 THE COURT: This is -- at this point in time,
20 you're testifying, not asking questions of a
21 witness so -- so what's your testimony then?

22 MR. SWITLYK: About notifying the Department
23 of Health?

24 THE COURT: Yes. Well, basically, it sounds
25 to me like you're saying you think you might have

1 sent --

2 MR. SWITLYK: Well, I might have. I don't
3 know. I mean, Mr. DeGregorio came to see me in
4 the jail and, you know, we talked about it. But,
5 I mean, I didn't have any address or any, you
6 know, contact information of who I was supposed to
7 contact and let them know about the, you know,
8 plea bargain.

9 THE COURT: Okay

10 MR. SWITLYK: I mean, I didn't have any
11 ability to contact anyone.

12 THE COURT: All right. Any redirect?

13 REDIRECT EXAMINATION

14 BY MS. GREEN:

15 Q Mr. Switlyk, you said that you spoke with
16 Mr. DeGregorio. Was that the day that he served you
17 with the emergency suspension order on February -- in
18 February of 2013?

19 A I mean, it might have been.

20 Q And your conviction was dated September 5th
21 of 2012; correct?

22 A The plea bargain? Yeah, the plea bargain was
23 entered in, yeah, September 5th.

24 Q Okay. And you did not speak with -- you did
25 not send anything to the Department of Health in

1 writing regarding that conviction within 30 days; is
2 that correct?

3 A Well, like I said, I didn't have any access.
4 How could I have? I'm in jail.

5 Q So that is a no, you did not submit anything
6 in writing to the Department of Health within 30 days
7 of the conviction?

8 A Well, I mean, no. I was in jail. How could
9 I have?

10 Q And while you were -- you were in the
11 Pinellas County Jail --

12 A Yes.

13 Q --- is that correct? And you had access to
14 mail?

15 A I had no one's address, you know.

16 Q Yes or no, you had access to mail?

17 A Well, actually, for two months, I didn't have
18 access to mail. I was in solitary confinement. I
19 didn't have access to a pen or paper. I had access to
20 nothing actually.

21 Q And you had access to the internet?

22 A No. I had access to the internet -- it was a
23 couple -- it was actually when Joe came to see me.
24 That's when they gave me access to it. But no,
25 actually, I didn't have access. I had limited access.

1 I was working with government agents.

2 Government agents were coming and sitting
3 with me all day long for a couple of months. So, I
4 mean, I didn't have access to the internet. They just
5 let me use it to e-mail Joe a couple of times.

6 Q So you had access to e-mail; is that correct?

7 A I e-mailed him a couple of times, but I did
8 not have free access to e-mail anyone I wanted.

9 Q And you did not, again, report these
10 convictions by e-mail to the Department of Health?

11 A Well, at that time Joe came to see me and he
12 knew about it all. No, I didn't have access when I
13 pled guilty. I didn't have access to anything. They
14 only started cooperating until, like, a month or two
15 after I pled guilty.

16 Q Thank --

17 A -- send me that. And I had no access to mail
18 or anything. I didn't have any money in my account or
19 anything.

20 Q Okay. So it's your testimony you had no
21 access to mail between September 5th, 2012, and
22 February of 2013?

23 A To send letters out and mail them?

24 Q Yes.

25 A September to when?

1 Q The date in which you entered your convict --
2 the date in which you were convicted of the crime, on
3 September 5th of 2012, and the timeframe in which you
4 were at the Pinellas County, which was February 2013?

5 A No. I -- I -- it was -- I didn't have
6 access -- it was in June and July. But in September, I
7 got moved back to general population because I pled
8 guilty. But, I mean, I didn't have any money to mail
9 stuff out.

10 Q So is it your testimony that you did not have
11 access to mail or --

12 A Well, even if I did, I didn't have anyone's
13 address. How could I mail anything to the Department
14 of Health?

15 Q Okay. Who was your -- who was your counselor
16 at the Pinellas County Jail?

17 A There are no counselors there.

18 Q Okay.

19 A I was in maximum security. You don't see any
20 counselors.

21 MS. GREEN: Okay. Well, thank you --

22 THE WITNESS: They just throw your food in
23 there. You don't even go outside. 24-hour-a-day
24 lockdown.

25 MS. GREEN: Thank you, Mr. Switlyk. I have

1 no further questions.

2 Your Honor, we reserve the right to offer
3 rebuttal evidence regarding his testimony as to
4 whether he had the ability to -- privileges for
5 mail to submit a notification in writing to the
6 board regarding his conviction.

7 THE COURT: All right. Let me -- I'm a
8 little confused. Your criminal -- the proceeding
9 that your -- your prosecution was in federal
10 court, was it not?

11 MR. SWITLYK: Yeah, federal court.

12 THE COURT: Why were you in the Pinellas
13 County Jail?

14 MR. SWITLYK: Well, that's where they hold --
15 that's where they hold federal inmates.

16 THE COURT: Okay.

17 MR. SWITLYK: Pinellas County.

18 THE COURT: All right.

19 MR. SWITLYK: But I was moved around -- when
20 I was in the Pinellas County Jail, I was moved
21 around to, like, 15 different pods. You know, I
22 went from general population to solitary
23 confinement, max, PC. I mean, I was moved all
24 over the place.

25 But there's no counselors or anything like

1 that in the jail. I mean, it's not like prison
2 where there are counselors here to help you and
3 answer your questions and help you with things.

4 THE COURT: When did you leave the Pinellas
5 County Jail?

6 THE WITNESS: August of last year. August, I
7 think it was, 13th I think maybe -- or no, I'm
8 sorry, July. July 29th of last year.

9 THE COURT: And that's when you went to where
10 you are now?

11 THE WITNESS: Yeah. Well, I got transferred
12 around about three weeks, and I got here
13 August 13th.

14 THE COURT: Okay, thank you.

15 All right. Any other evidence to be
16 presented by the department?

17 MS. GREEN: No, not from the department.
18 Thank you.

19 THE COURT: All right, Mr. Switlyk, that's
20 that concludes the case being presented by the
21 Department of Health. Is there any evidence that
22 you want to submit in the way of your own --

23 MR. SWITLYK: Also, as far as, like, I mean,
24 even if I had access to, like, mail something back
25 then, I didn't have any address until Joe came to

1 see me. If that's when he came to see me was
2 February, I mean, that was the first time I got
3 any paperwork with any address on it to mail
4 anything. So how could I have mailed anything to
5 the Department of Health even if I wanted to?

6 THE COURT: All right. Is there any other
7 any other testimony that you want to give in --
8 now we're -- now we're turning to your case if you
9 have evidence you want to present so -- and that
10 could --

11 MR. SWITLYK: Let me see here. If I -- you
12 know, I would like to include in the exhibits the
13 plea bargain that was filed on September 4th,
14 2012, the one that has the same last page that I
15 signed that they just, you know, photocopied and
16 used as a plea bargain they filed September 5th.

17 THE COURT: So you have a -- you have a copy
18 of that that you can -- that you can provide?

19 MR. SWITLYK: Yeah. I got a copy of that
20 here.

21 THE COURT: Okay.

22 MR. SWITLYK: I can mail that to you and the
23 prosecution.

24 THE COURT: All right. That would be your
25 Exhibit 1 that you're proposing to offer. Do you

1 have any objection to that being received?

2 MS. GREEN: The department -- at this point,
3 we'll reserve any objections, because we haven't
4 had an opportunity to review the document. But
5 we'll also point out that the judgment
6 incorporates the amended agreement that we have
7 offered into evidence as a --

8 MR. SWITLYK: And, Your Honor, the document
9 is actually on PACER too. If they just want to go
10 on PACER and pull it off PACER, it's there right
11 now.

12 THE COURT: Say that again.

13 MR. SWITLYK: The document is already filed
14 on PACER.

15 THE COURT: What do you mean on PACER?

16 MR. SWITLYK: I mean -- I mean, on PACER,
17 PACER.gov. I mean, you can print off, like, if
18 you want to look at court documents. The document
19 is already filed, like, with the court.

20 THE COURT: Well, not with this Court.

21 MR. SWITLYK: No, I understand that; but I'm
22 saying if they want to see it.

23 THE COURT: Okay.

24 MS. GREEN: And, again, we'll just renew our
25 objection that the amended agreement that was

1 adopted as a part of the judgment was offered into
2 evidence as Composite Exhibit 3.

3 THE COURT: Okay. I'll reserve ruling on the
4 objection until I receive what -- Mr. Switlyk,
5 you're going to -- I'm going to give you ten days
6 from today to submit these documents that you're
7 talking about. Okay?

8 MR. SWITLYK: Okay. Yeah, I've got a copy of
9 that so I can (indecipherable.) Can I also submit
10 part of my sentencing transcript, the testimony of
11 Dr. Levine?

12 THE COURT: So you're proposing an Exhibit 2
13 which would be an excerpt from your sentencing
14 transcript?

15 MR. SWITLYK: Yeah. Dr. Levine was a
16 psychologist that I was evaluated by that was
17 coming to see me in the jail, you know, for
18 counseling treatments and things like that.

19 THE COURT: Okay. Is that -- is that what
20 you're referring to in your -- in your request for
21 postponement of the hearing?

22 MR. SWITLYK: No. Because I actually wanted
23 to get all of her records. I mean, she had stood
24 up there and spoke and talked to the judge during
25 my sentencing. But, I mean -- I mean, that's the

1 only thing I have a copy of right now, but she
2 has -- she has like a full, you know, record.

3 I was trying to get a copy of that and submit
4 that as well, but, I didn't -- I sent that letter
5 a week-and-a-half ago, so hopefully, I'll get it
6 this week or next week from her. But, I mean,
7 right now, I actually have a copy of the
8 sentencing transcript.

9 THE COURT: Okay. So that would be your
10 Exhibit No. 2. Will there be an objection to that
11 at this time or --

12 MS. GREEN: At this time -- at this time, no.
13 We haven't -- once we have an opportunity to
14 review it, then we would know. But at this time,
15 we have no objection.

16 THE COURT: So you'll have to spend a copy of
17 it to me --

18 MR. SWITLYK: I understand.

19 THE COURT: -- to me, and also a copy to
20 them.

21 MR. SWITLYK: Yeah, I understand that.

22 THE COURT: All right. And they're
23 reserving -- they're reserving any objection until
24 they see it, and if there is an objection, I
25 will -- I will consider objections at that time.

1 MR. SWITLYK: Okay.

2 THE COURT: Anything else?

3 MR. SWITLYK: Well, I mean -- I mean, I'd
4 like to submit any medical records, I guess, from
5 those four doctors --

6 THE COURT: Okay.

7 MR. SWITLYK: -- that I mentioned in that
8 postponement motion --

9 THE COURT: Yeah.

10 MR. SWITLYK: -- or motion to postpone the
11 hearing, those four doctors there.

12 THE COURT: All right. Why don't we -- since
13 we don't know what you are going to get or from
14 whom, let's see, why don't we just call that a
15 Composite Exhibit No. 3. And, again, there will
16 be reservation of any objections until the
17 department has a chance to review what it is that
18 you submit.

19 MR. SWITLYK: Okay. I'm not sure how long
20 it'll take me to get those copies, but I'll get
21 them to you as soon as I get them.

22 THE COURT: Okay.

23 MR. SWITLYK: Hopefully, I'll get them within
24 the next, you know, week or two, and then I'll
25 forward them to you guys.

1 THE COURT: All right.

2 MR. SWITLYK: And then I --

3 THE COURT: So I had said ten days for the
4 first two exhibits. Let's say, for those, let's
5 say 21 days.

6 MR. SWITLYK: All right. Hopefully,
7 that'll -- hopefully, that'll be fine because I
8 already mailed my letters out.

9 THE COURT: Okay.

10 MR. SWITLYK: And then, let's see, actually,
11 I'd like to -- my sentencing, my memorandum, I'd
12 like to submit that as an exhibit.

13 THE COURT: That's not already in evidence?

14 MR. SWITLYK: My memorandum?

15 THE COURT: Yeah. I'm asking. No? Is that
16 not part -- that's not part of your Exhibit No. 3?
17 Okay. What's the sentencing memorandum?

18 MR. SWITLYK: It's the memorandum written up,
19 you know, with assistance of an attorney that's
20 sent to the judge before a defendant is sentenced.

21 THE COURT: All right. So is that something
22 you have now?

23 MR. SWITLYK: Well, I have a -- I have a copy
24 of -- there's, like -- there's, like, a rough
25 draft, and then there is a final draft. I have a

1 copy of the rough draft, but it's -- I mean, it's
2 not exactly what's on file, but the lawyers had,
3 like, two weeks, which really aren't relevant to
4 this anyway. But if I can just submit what I have
5 now, it's close to the same thing that was filed.

6 THE COURT: All right. So within ten days
7 for that and, again, reservation of objections.

8 MS. GREEN: Yes.

9 THE COURT: Anything else?

10 MR. SWITLYK: I'd like to submit into
11 evidence a letter that Todd Foster sent to
12 Professional Research Network, PRN, to Dr. Reuben
13 Bark on September 10th, 2010. Todd Foster was my
14 attorney at the time, and he sent the letter to
15 Dr. Reuben Bark saying that I needed to focus on
16 my criminal case and he didn't want me to get
17 into -- go into any type of treatment program at
18 PRN.

19 THE COURT: Why -- why is that relevant?

20 MR. SWITLYK: Well, I mean, it -- I mean, it
21 shows that I went to PRN. It shows that I went to
22 PRN right after my case -- my case happened, like,
23 in May of 2010. Late May of 2010 is when I closed
24 the pharmacy and I got arrested and everything,
25 and I went to PRN, Professional Research Network,

1 to see, you know, what kind of help I could get
2 with their program and all that.

3 But my attorney at the time, Todd Foster, he
4 said no, you can't do any type of treatment
5 programs. You've go to worry about, you know,
6 making money again and paying me, because I turned
7 over all the money I had to the government at the
8 time.

9 ~~So he prevented me from entering into a PRN~~
10 program, which I think, if I entered into the PRN
11 program back then, I think it could have changed a
12 lot of my criminal case, too. But, I mean,
13 anyway, it's a letter -- it's a letter saying
14 that, you know, you have to work on the case with
15 his lawyers, this and that, and that he didn't
16 want me to go to PRN treatment.

17 THE COURT: All right. So that would be your
18 Exhibit No. 5 and --

19 MR. SWITLYK: I've got a copy of that right
20 now.

21 THE COURT: -- so within ten days and
22 reservation of objections.

23 MS. GREEN: Well, actually, Your Honor, at
24 this time, we would like to object to that letter.
25 It has no bearing on whether he entered a plea --

1 or no bearing on whether he was convicted of a
2 crime related to the practice, and therefore, we
3 would object to admission of that letter.

4 THE COURT: All right. I'll reserve ruling
5 on that until I see the letter.

6 MR. SWITLYK: All right. I mean, with PRN,
7 you know what it is, though? It's like a -- like
8 a treatment center to help professionals, like
9 medical professionals.

10 THE COURT: Yes.

11 MR. SWITLYK: So, I mean, I -- it just shows
12 that I was, you know --

13 THE COURT: I understand.

14 MR. SWITLYK: Yeah.

15 THE COURT: I understand your -- I'm just
16 going to wait until I see the letter.

17 MR. SWITLYK: Okay, yeah. That's fine. I'll
18 send it in. Oh, and then also, a copy of the
19 appeal I sent in that I filed with the court, the
20 criminal court, for my copy of the 2255 motion.
21 It's already mailed. I already mailed it to you
22 and I mailed to the prosecution.

23 THE COURT: All right.

24 MR. SWITLYK: I mailed it on Monday.

25 THE COURT: That'll be your Exhibit No. 6.

1 Do you have an objection at this time, or do you
2 want to reserve on that?

3 MS. GREEN: We'll reserve objections.

4 THE COURT: Okay. So --

5 MR. SWITLYK: So also, I sent four letters to
6 the Department of Health back in January 8, 2014.
7 I would like to submit all four of those letters
8 into evidence.

9 THE COURT: Those are letters that you'll
10 submit within ten days?

11 MR. SWITLYK: I -- I -- well, I sent -- yeah.
12 I mean, I can mail them to you, but the Department
13 of Health already has them.

14 THE COURT: Well, if they're exhibits, you
15 have to mail them to submit them.

16 MR. SWITLYK: All right. I'll mail them
17 again. Okay.

18 THE COURT: All right. They already have
19 copies. Any objection that you know of at this
20 time to those?

21 MS. GREEN: Not at this time.

22 THE COURT: No objections?

23 MS. GREEN: No objections at this time. And
24 we'd like to review the letters, because I'm not
25 certain which ones he's referring to.

1 THE COURT: All right. So reserving
2 objections on that. Anything else? That would be
3 No. 7. Those four letters would be a composite.
4 That would be Respondent's Exhibit 7 for
5 identification.

6 MR. SWITLYK: I mean, I would like to submit
7 the video evidence, if I could, into -- into
8 evidence, but, you know, I don't have access to it
9 right now. So what can I do about that?

10 I mean, I have video clips of, you know, all
11 kinds of things that were going on in my pharmacy
12 that I didn't even know about until a
13 year-and-a-half after I had closed it, because I
14 didn't have a chance to review any of the
15 surveillance footage while it was open.

16 THE COURT: Well, I don't know how it can be
17 considered if you don't know how you can get it
18 so --

19 MR. SWITLYK: Well, I mean, I could get it
20 but -- well, I may be able to get it. I mean, it
21 all depends. I mean, it -- I'm not sure where it
22 is right now, but I had a lot of -- a lot of
23 video. I had about three, 400 video clips stored
24 on a portable hard drive. You know, the
25 government had it the last time I knew.

1 But, I mean, if I could get some of those
2 clips and submit them into evidence, I mean, it
3 shows that, you know, it shows that the government
4 has really exaggerated their role that they
5 labeled me with, and they didn't prosecute a lot
6 of people that they should have.

7 THE COURT: All right. Well, I --

8 MR. SWITLYK: I mean, unless you --

9 THE COURT: -- I'm feeling like, from what
10 you've said, I think I can rule at this time that
11 that would be not relevant to this proceeding. So
12 I'll -- I will not allow -- I will not wait for
13 that evidence to be submitted. Anything else?

14 MR. SWITLYK: You know, I think I had some --
15 some e-mail communications with Todd Foster about
16 PRN, I mean, kind of the same things as that
17 letter asking if I should go to PRN treatment
18 program -- or actually, it may have been with
19 Steve Romine, Todd Foster's partner. I don't
20 know.

21 I mean, I can -- I mean, it just shows that I
22 was attempting to, you know, enter into this PRN
23 program, and I was being advised by my attorneys,
24 you know, not to worry about it and to worry about
25 my criminal case and not my pharmacist license and

1 treatment.

2 THE COURT: Well, that sounds like what
3 you -- what you referred -- what you have as your
4 Exhibit No. 5.

5 MR. SWITLYK: Yeah. Well, can I submit that
6 e-mail into evidence, too, along with that?

7 THE COURT: Yes. You can make that --

8 MR. SWITLYK: It's all the same --

9 THE COURT: --- make that -- yes --

10 THE WITNESS: -- all the same.

11 THE COURT: Make that part of Exhibit No. 5
12 and that'll be --

13 MR. SWITLYK: Yeah. E-mails to the
14 Department, PRN letter. Okay, I got it, No. 5.

15 THE COURT: Okay.

16 MR. SWITLYK: I've got to write all of these
17 down.

18 THE COURT: We'll go over all of these at the
19 end.

20 MR. SWITLYK: Okay. I mean, other than that,
21 I mean, I guess I'd like to submit into evidence
22 that -- the record that I was in Pinellas County
23 Jail at the time that my plea bargain was entered,
24 you know, showing that I was in jail, and I was
25 unable to communicate with the Department of

1 Health or have any -- I mean, it's not like
2 there's deputies there to look up addresses for
3 people or anything like that. I mean, it's --

4 THE COURT: Well, I don't think that -- well,
5 you can testify to where you were.

6 MR. SWITLYK: I mean, I guess --

7 THE COURT: I don't think there's going to be
8 any records that you can --

9 MR. SWITLYK: -- in jail at the time?

10 THE COURT: I'm sorry?

11 MR. SWITLYK: I mean, jail records showing I
12 was in jail at the time? I mean, would that be
13 submitted as evidence?

14 THE COURT: Why don't you just testify to
15 that.

16 MR. SWITLYK: Okay, that's fine.

17 THE COURT: All right. So now, at this point
18 in the hearing, do you wish to testify in your own
19 behalf?

20 MR. SWITLYK: Yes.

21 THE COURT: Okay. When you're ready --
22 you've already been sworn, so your testimony will
23 be sworn. You're not represented so you may
24 testify in narrative form as to what you think is
25 relevant.

1 MR. SWITLYK: I saw something about the
2 disciplinary guidelines that if you are
3 continuing -- where did I see that -- for, like, a
4 mitigating factor, it says something about doing
5 continuing education and things like that, I mean,
6 the only thing is I don't have access to it right
7 now, but I don't know if the Department of Health
8 or somebody else -- like, sometimes, it's
9 electronically, like, submitted to them when you
10 complete CE things.

11 And I did a whole bunch of CEs, I mean, after
12 I was arrested. I don't know if that could be
13 submitted into evidence or not, but, you know, I
14 don't even have copies of it, but I'm sure they
15 could probably pull it up.

16 I mean, I'm not sure if that would be
17 relevant or not, but I see here, in number five,
18 it says something about, you know, continuing
19 education.

20 THE COURT: Well, if you -- if you can
21 present that, if you have something you want to
22 present and you can get ahold of it --

23 MR. SWITLYK: Well, let me see it I can try
24 and get ahold of it, because you know what, I did
25 a lot of it through one website -- or two

1 different websites. One was about -- you know how
2 you can do a live -- you can, like, do the
3 continuing education, like, live courses online;
4 and the other one, you know, you read through and
5 take the test. I used two websites, so let me see
6 it I can get someone on the outside to log in and
7 print out certificates for me. I can mail them
8 in.

9 THE COURT: So basically, your CLE record
10 will -- or not CLE, continuing education --

11 MR. SWITLYK: Even after -- even after my
12 arrest, I was still trying to -- I don't know. I
13 was just showing that I was trying to --

14 THE COURT: All right. We'll make that your
15 Exhibit No. 8.

16 MR. SWITLYK: Okay.

17 THE COURT: Do you know if there'll be any
18 objection to that?

19 MS. GREEN: The department has no objections
20 to that.

21 THE COURT: Okay. There'll be no objection
22 to that if you can submit that.

23 MR. SWITLYK: All right. Can you give me
24 a -- some time to get that together, though?

25 THE COURT: Yes. I think we'll go over all

1 of this at the end.

2 MR. SWITLYK: Okay.

3 THE COURT: My question now is, do you have
4 any test -- do you want to testify in your own
5 behalf?

6 MR. SWITLYK: Yes, I do.

7 THE COURT: Okay. Go ahead and begin your
8 testimony.

9 MR. SWITLYK: I mean, give my testimony? I
10 mean, I -- I'm not really sure what I'm supposed
11 to talk about. The case or --

12 THE COURT: Talk about your defense to this
13 prosecution, if you have any testimony you wish to
14 add at this point. You're not required to. I'm
15 just -- this is the time to testify if you want to
16 testify in defense of.

17 MR. SWITLYK: I mean, I -- you know, I would
18 like to point out that read through these
19 disciplinary guidelines that they mailed me, so
20 I'd like to notate that. And I'm not really sure
21 which ones they're applying to me. But, like,
22 most of them say, like, minimum and then maximum.

23 And then, like, minimum is, like, one year,
24 you know, up -- you know, suspension and things
25 like that. And I'm not -- you know, I'm not

1 really sure which one applies to me. I wonder if
2 you can clarify that.

3 THE COURT: Well, that -- that's not
4 testimony. Do you have any testimony? Do you
5 want to testify to anything that I should consider
6 as evidence in your defense in this license
7 discipline prosecution?

8 MR. SWITLYK: I mean, can I -- can I -- can I
9 read the excerpts from my sentencing memorandum
10 that the psychologist wrote up?

11 THE COURT: That's something you're going to
12 submit as an exhibit, so no because that will be
13 considered when it's received if it is admitted.
14 But --

15 MR. SWITLYK: Okay. I mean, I would just
16 like to say that, according to the indictment and
17 the plea bargain, what the government stated in
18 those documents, you know, they -- they
19 exaggerated my role tremendously.

20 And, you know, they used a lot of pressure
21 tactics, even got me to agree to that plea
22 bargain, which is why I didn't even sign it on the
23 date of my change of plea hearing and they just --
24 and my lawyer just ended up using the other -- the
25 last page of the other plea bargain he had me sign

1 for negotiation purposes.

2 I mean, also, that I tried to, you know,
3 enter into a PRN program and tried to improve, I
4 guess, you know, make sure that I don't repeat the
5 same mistakes. And I was prevented by my
6 attorneys from pursuing that avenue when I was out
7 on bond for the first year-and-a-half, the first
8 attorney I had.

9 I mean, other than that, I mean, I never had
10 any disciplinary actions against my license. I
11 worked in the field of pharmacy since I was 16 as
12 a pharmacy technician for (indecipherable)
13 pharmacy. Then I worked for the hospital for four
14 years as a pharmacy technician, then as a pharmacy
15 intern.

16 Then I worked for an extern at CVS Pharmacy,
17 and then I was a pharmacist at Walgreens Pharmacy
18 and then at CVS Pharmacy again. And then I worked
19 for a couple independent pharmacies, including a
20 compounding pharmacy and a couple independent
21 pharmacies, and I never had any, you know,
22 disciplinary actions, never had any misfills.

23 I mean, up until this timeframe of when I
24 owned my own pharmacy, I got involved with the
25 wrong people and, you know, I had a clean license,

1 and I and -- I always abided by all the rules and
2 regulations.

3 I mean, it was just a small timeframe of
4 my -- I mean, I'm 35. I mean, it's -- from 16 to
5 32, 33, I -- you know, that's 16 years that I, you
6 know, abided by all the rules and regulations of
7 the pharmacy. It was just that six-, seven-month
8 timeframe where, you know, this conspiracy or
9 alleged conspiracy happened.

10 And, I mean -- I mean, it's -- I mean,
11 according to all these government documents, I'm
12 being held more responsible than I was. But, I
13 mean, it's -- I mean, come down to it, it was my
14 pharmacy and I should have been more strict with
15 everything that went on there.

16 And when I found out things were going on
17 that shouldn't have went on, I should have turned
18 people into the police, instead of just turning a
19 blind eye and changing the locks on the door
20 trying to keep people away. But, I mean, that's
21 what I did. I didn't make the right decisions
22 and, you know, I paid the price.

23 I mean, I turned every -- I turned every
24 single penny I made over to the government on the
25 first day of the raid. And, you know, I even --

1 money I made -- I worked at CVS and Walgreens for
2 years.

3 All the money I ever made even working for
4 other pharmacies, for them, I turned everything
5 over to them. You know, I have nothing now. So,
6 I mean, I've been punished far in extent of anyone
7 else involved in this conspiracy.

8 I mean, I just want to, you know, have the
9 chance to work as a pharmacist again. I mean, I
10 went to six years of college, and I took all the
11 tests and I passed everything, and, you know, I've
12 made some mistakes.

13 And I -- I just want -- I mean, I know I
14 need -- I mean, obviously, they want to suspend my
15 license for a certain amount of time, but I just
16 don't want it to be suspended for the rest of my
17 life.

18 THE COURT: Okay.

19 MR. SWITLYK: Are you there?

20 THE COURT: Yes.

21 MR. SWITLYK: I mean, other than that, I
22 mean, I just want, you know -- I just want to be
23 able to have a chance, a chance to prove myself
24 that something like this will never happen again.
25 I mean, I know -- I know, also, when I get

1 released, I mean -- you know, I have, like, five
2 years left in prison right now but that could
3 change.

4 Another thing, too, also, I'd like to -- I'd
5 like to point out is that, you know, I was
6 drinking a lot, too, when this was going on. I
7 was trying to drink my problems away, just trying
8 to turn a blind eye to all of this stuff going
9 crazy at the pharmacy.

10 And, you know, I was just -- I was drinking a
11 lot and not paying attention. And, you know,
12 that's why I didn't know a lot of stuff that was
13 going on. I didn't find out about it until a
14 year-and-a-half later when the DEA gave me my
15 surveillance videos back.

16 And that's why I went to PRN in the first
17 place, because -- you know, because I was drinking
18 a lot back then, and the judge ordered me to
19 complete the 500-hour RDAP program here in the
20 prison that they offer.

21 It's a residential drug -- residential drug
22 abuse program, and that will take one year off my
23 sentence when I complete it. It's a nine-month
24 intensive 500-hour program. Hello?

25 THE COURT: Hello.

1 MR. SWITLYK: Yeah. Yeah. I just heard a
2 beep. But, I mean, I'm going to complete that,
3 too, before I'm released. And even when I'm
4 released -- I'm now on three years of supervised
5 released, and I can't even work in the pharmacy
6 field anyway during that timeframe, you know, as
7 part of my supervised release.

8 So, you know, I'm hoping that -- that my
9 sentence gets reduced through my appeal, or that
10 there's actually changes in sentencing laws, drug
11 sentencing laws that are being proposed right now
12 by Eric Holder. And if it is passed, I'll get
13 21 -- 21 months off my sentencing.

14 And then, you know, who knows what happens to
15 my appeal, if I get a couple years off that. But,
16 I mean, I could get out, you know, sooner than the
17 five years. But either way, you know, I just
18 don't want to have a lifetime ban, you know, to
19 ever work in pharmacy again in the state of
20 Florida.

21 I mean, my family is in Florida. You know,
22 my parents are both physicians. My aunt and uncle
23 are both physicians. You know, I come from, like,
24 a medical background family. And, you know, it's
25 real disappointing, you know, to all them, you

1 know, everything that happened with me that I --
2 that I -- all the mistakes I made.

3 And obviously, I don't want to disappoint
4 them ever again, and I don't want to disappoint
5 myself ever again. You know, I just want to get
6 out and do the right thing. You know, I just want
7 to be able to still have some type of career in
8 pharmacy even if it's, like, some type of
9 suspended license or probationary license for a
10 couple years.

11 I mean, obviously, I know I need some kind of
12 punishment, but I don't think a lifetime ban is
13 fair. I mean, I'm only 35 at the time, you know.
14 Even by -- you know, I could still work at 40 or
15 50 years old so --

16 THE COURT: Okay.

17 MR. SWITLYK: I mean, other than that, I'm
18 not really sure what else I can add.

19 THE COURT: All right. Any
20 cross-examination?

21 MS. GREEN: No, Your Honor.

22 THE COURT: All right. That'll conclude your
23 testimony. And let's go over the documents that
24 you're -- we don't need to do this on the record.
25 Off the record, we'll go over this to make sure

1 you have the -- you know what it is you're
2 supposed to be providing.

3 (Whereupon, a pause was had in the
4 proceeding.)

5 THE COURT: When those documents are
6 submitted, they'll be dealt with. There are some
7 objections being reserved. Rulings will have to
8 be made on any objections. When those are dealt
9 with, that will conclude the evidence in the case
10 except subject to rebuttal.

11 What was your request regarding rebuttal?

12 MS. GREEN: The department would like to
13 reserve the right to introduce rebuttal evidence.
14 We have an excerpt from the Pinellas County Jail
15 indicating all of the policies and procedures that
16 relate to inmates and their -- the access that
17 they have to mail, to telephones and internet; and
18 we would like the opportunity to produce the
19 complete document.

20 THE COURT: Okay. So what they are -- that's
21 all you want to do in rebuttal is submit that
22 exhibit?

23 MR. SWITLYK: Hold on. I'm not sure I
24 understand. Pinellas County Jail is saying we
25 have access to the internet?

1 THE COURT: They -- go ahead and repeat what
2 it is that you are proposing.

3 MS. GREEN: Mr. Switlyk, we are going to
4 offer the complete policies and procedures for the
5 Pinellas County Jail for the timeframe in which
6 you were an inmate at that facility. And then we
7 are also reserving the right for any rebuttal
8 evidence that's based on the evidence that you
9 intend to introduce as we have not had an
10 opportunity to review it and determine whether we
11 need to introduce evidence in rebuttal to the
12 evidence that you're offering.

13 MR. SWITLYK: Okay. But the policy and
14 procedures, what -- you've got to keep in mind
15 that it doesn't apply -- I mean, I'm not sure if
16 it includes, like, each part of the jail they are
17 put at. You know, sometimes people are put in
18 maximum security; a lot of times, protective
19 custody; sometimes they're put -- like, they put
20 me in -- I don't know. It doesn't matter -- I
21 mean, general population.

22 THE COURT: Let's put it this way: She is --
23 the exhibit is supposed to be all of the policy
24 and procedures that govern the jail and a copy
25 will be sent to you. So let's say that exhibit

1 would be Petitioner's Exhibit 6 for
2 identification, and a copy would be submitted to
3 me within -- ten days?

4 MS. GREEN: Yes.

5 THE COURT: And also to you. And when you
6 see it, if you have any objections, you can raise
7 your objections at that time and we will deal with
8 your objections if you have any -- I will deal
9 with your objections.

10 MR. SWITLYK: All right, that's fine. I'll
11 look at a copy of it. But, I mean, believe me,
12 when you are in that jail, there is -- no one is
13 there to be helpful, I can tell you that.

14 THE COURT: All right. In terms of rebuttal
15 evidence or further testimony, what is it that
16 you're seeking to rebut, testimony regarding what?

17 MS. GREEN: At this point, Your Honor, we're
18 uncertain, because we don't know what's in these
19 other documents. For instance, this is the first
20 time we became aware of any other plea agreement.

21 THE COURT: Okay. If it's regarding the
22 documents that you haven't seen yet --

23 MS. GREEN: Right.

24 THE COURT: -- the exhibits, I will leave the
25 record open for that opportunity as well. My --

1 if it was something else, a rebuttal to his
2 testimony --

3 MS. GREEN: No, Your Honor. We have no --

4 THE COURT: -- that should have been done
5 today.

6 MS. GREEN: No. No. Not at all, Your Honor.
7 The rebuttal would be related to the statements
8 that he made as to his access to mail and then --
9 and that was at, what we mentioned would be,
10 Petitioner's Exhibit No. 6.

11 And then, of course, after we have had an
12 opportunity to review his actual exhibits, then if
13 we have any rebuttal evidence that we would like
14 to offer, then we would notify the Court at that
15 time.

16 THE COURT: All right, good.

17 MR. SWITLYK: Can I say something?

18 THE COURT: Yes.

19 MR. SWITLYK: Yes. Your Honor, actually,
20 when Joe DeGregorio, who is a investigator, when
21 he came to see me over in the jail, I was actually
22 in a department of the jail that's called DIU and
23 it's where people go when they are cooperating
24 with the government to cooperate on cases.

25 And I was with some agents and they -- and

1 that's why, when I was with the agents, they let
2 me, you know, e-mail files and things like that to
3 them. And I talked to Joe about a bunch of stuff
4 I was working on with them, and Jose -- and I
5 showed Joe actually a lot of the video clips I had
6 on other, you know, pharmacists and technicians
7 and, you know, some information on doctors I had.

8 And he said, wow, this is a lot of good
9 stuff. He said, you should hook up with the
10 Prosecution Services Unite at the Department of
11 Health, and they'd probably work something out
12 with you if you get some of this evidence to them
13 on all these other pharmacists that are still
14 working out there and never, you know, got into
15 any trouble for any of this stuff.

16 And I -- and I sent the Department of Health
17 a letter about it, but I never heard back about
18 any of it.

19 MS. GREEN: And, Your Honor, just another
20 point, Mr. Switlyk is offering testimony regarding
21 conversations that he's had with the department's
22 investigator, and we've had no opportunity to
23 verify or confirm any of these conversations.

24 So at this point, the rebuttal evidence would
25 really go to these arguments that he's raising at

1 this point, you know, to include the policies and
2 procedures manual. And we'd also like to have an
3 opportunity to speak with Mr. DeGregorio to
4 confirm or verify whether these conversations did,
5 indeed, take place.

6 MR. SWITLYK: Well, yeah, I actually -- I
7 have some e-mails that I sent Joe. Did I send a
8 copy of one of the e-mails I sent to Mr. Jurich?
9 Do you have the copies of everything I mailed to
10 Mr. Jurich?

11 THE COURT: All right. You're talking to --

12 MR. SWITLYK: I'm talking to Ms. Green.

13 THE COURT: Ms. Green.

14 MS. GREEN: Those are not -- the department
15 has entered evidence regarding the charges in the
16 administrative complaint, which are that there was
17 a crime related to the practice and your -- or a
18 conviction related to the practice on September
19 5th of 2012 and that you failed to report that
20 conviction in writing to the department.

21 MR. SWITLYK: I know. But I mailed a bunch
22 of things -- a bunch of letters to Mr. Jurich back
23 in January. Did you ever get -- do you have
24 copies of that stuff?

25 MS. GREEN: We -- if you mailed those to the

1 department, they would be in the investigative
2 file. And with respect to this case, those
3 particular letters would not be relevant.

4 MR. SWITLYK: No. But I actually -- I think
5 I mailed a copy of an e-mail I sent to
6 Mr. DeGregorio about that stuff, but I had a --
7 and actually, I sent a letter to Mr. Jurich about
8 a bunch of the people I had information on.

9 MS. GREEN: Right.

10 MR. SWITLYK: And I actually had some video
11 clips of actually some of these people, like
12 one -- actually two of the pharmacists that worked
13 for me.

14 MS. GREEN: Right.

15 MR. SWITLYK: And they are still licensed,
16 still working.

17 THE COURT: Well, let me -- let me say this:
18 You all can talk about all of this, but I don't
19 think it's relevant to this case.

20 MR. SWITLYK: Well, the reason I bring it up
21 is that Joe said something -- maybe if you work
22 something out with them about helping them with,
23 you know, and letting them know about all these
24 things that happened with these other people that
25 they are licensing, you know, maybe they can

1 mitigate, you know, the penalty on your license.

2 MS. GREEN: The department has nothing
3 further, Your Honor.

4 THE COURT: Okay. All right. So the
5 record -- evidentiary record will remain open at
6 this time to deal with the things we've been
7 discussing.

8 At some point, the record will be closed, and
9 ~~at that point in time, there will be an~~
10 opportunity for both sides to submit proposed
11 orders. So you'll be getting notice when that
12 occurs, and probably from -- within ten days from
13 that point in time, you'll be notified that that's
14 when your proposed orders will be due to be filed
15 here so -- unless there's going to be a transcript
16 of the proceeding. Is that the case?

17 MS. GREEN: Yes, Your Honor. The department
18 will order a transcript.

19 THE COURT: Okay. If there is a transcript
20 of the proceeding of this -- today's hearing and
21 it's not yet filed by the time the evidence is
22 closed, then the proposed orders would be within
23 ten days from the filing of the transcript.

24 So the notice you get subsequently from me
25 regarding the closure of the evidentiary record

1 will give you the information as to the timing of
2 the proposed orders. All right. And if there's
3 nothing else, that concludes the proceedings for
4 today.

5 Let me say this: I'm going to -- did you
6 wish to further discuss any of this -- what you
7 were talking about at the end about -- no?

8 MS. GREEN: No, Your Honor.

9 THE COURT: Okay. So I will disconnect the
10 phone at this point, and that will conclude the
11 hearing. I'll leave the hearing room, and if you
12 wish to discuss things further with the
13 department, you can do that on your own.

14 MS. GREEN: No, Your Honor. We have nothing
15 further to discuss.

16 THE COURT: All right.

17 MR. SWITLYK: What are the range of
18 penalties?

19 THE COURT: Well, look at the -- look at the
20 guidelines that were submitted, and that -- that's
21 where you would get the answer to those questions.
22 All right.

23 MR. SWITLYK: I'm not sure which ones they
24 are applying to me, though.

25 THE COURT: Well --

1 MS. GREEN: Your Honor, if I may just add
2 some guidance in that regard.

3 If you look at the guidelines in Exhibit No.
4 4, if you refer to Page 586, if you look on that
5 page --

6 MR. SWITLYK: 586, okay. Okay, I'm there.

7 MS. GREEN: Look in the left-hand column and
8 you find the statute for which -- or that was
9 alleged in the administrative complaint. That
10 would be the disciplinary guidelines that apply in
11 your case. And in this case, for a felony, the
12 range would be a \$3,000 fine and one-year
13 probation through revocation.

14 MR. SWITLYK: Okay. So the minimum would be,
15 felony, \$3,000 fine, one-year probation, and it
16 goes up to revocation. Okay.

17 MS. GREEN: Yes.

18 MR. SWITLYK: So, I mean, don't you guys take
19 into effect that I never had any type of
20 discipline or --

21 MS. GREEN: At this time, the department has
22 nothing further if Your Honor doesn't have any
23 questions of us.

24 THE COURT: All right. That would be part of
25 your argument as to what discipline should be

1 imposed, and I'll consider your argument as well
2 as anything submitted by the department. All
3 right. And that could be part of your proposed
4 order, which we haven't gotten to yet because the
5 evidentiary record is not closed yet. Okay?

6 MR. SWITLYK: All right. Well, I guess I'll
7 mail in copies of what I have today or, I guess,
8 tomorrow.

9 THE COURT: All right. Good.

10 MR. SWITLYK: Everything else, I'll try to
11 get it as soon as I can.

12 THE COURT: All right, very good. That will
13 conclude today's proceedings. Thank you.

14 (Whereupon, the proceedings adjourned at
15 11:09 a.m.)

for the purpose of determining if any of the provisions of this chapter or any practice act of a profession or any rule adopted thereunder is being violated; or for the purpose of securing such other evidence as may be needed for prosecution.

History.—s. 86, ch. 97-261; s. 88, ch. 2000-160.
Note.—Former s. 455.681.

456.071 Power to administer oaths, take depositions, and issue subpoenas.—For the purpose of any investigation or proceeding conducted by the department, the department shall have the power to administer oaths, take depositions, make inspections when authorized by statute, issue subpoenas which shall be supported by affidavit, serve subpoenas and other process, and compel the attendance of witnesses and the production of books, papers, documents, and other evidence. The department shall exercise this power on its own initiative or whenever requested by a board or the probable cause panel of any board. Challenges to, and enforcement of, the subpoenas and orders shall be handled as provided in s. 120.569.

History.—s. 65, ch. 97-261; s. 69, ch. 2000-160.
Note.—Former s. 455.611.

456.072 Grounds for discipline; penalties; enforcement.—

(1) The following acts shall constitute grounds for which the disciplinary actions specified in subsection (2) may be taken:

(a) Making misleading, deceptive, or fraudulent representations in or related to the practice of the licensee's profession.

(b) Intentionally violating any rule adopted by the board or the department, as appropriate.

* (c) Being convicted or found guilty of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice, a licensee's profession.

(d) Using a Class III or a Class IV laser device or product, as defined by federal regulations, without having complied with the rules adopted under s. 501.122(2) governing the registration of the devices.

(e) Failing to comply with the educational course requirements for human immunodeficiency virus and acquired immune deficiency syndrome.

(f) Having a license or the authority to practice any regulated profession revoked, suspended, or otherwise acted against, including the denial of licensure, by the licensing authority of any jurisdiction, including its agencies or subdivisions, for a violation that would constitute a violation under Florida law. The licensing authority's acceptance of a relinquishment of licensure, stipulation, consent order, or other settlement, offered in response to or in anticipation of the filing of charges against the licensee, shall be construed as action against the licensee.

(g) Having been found liable in a civil proceeding for knowingly filing a false report or complaint with the department against another licensee.

(h) Attempting to obtain, obtaining, or renewing a license to practice a profession by bribery, by fraudulent

misrepresentation, or through an error of the department or the board.

(i) Except as provided in s. 465.016, failing to report to the department any person who the licensee knows is in violation of this chapter, the chapter regulating the alleged violator, or the rules of the department or the board.

(j) Aiding, assisting, procuring, employing, or advising any unlicensed person or entity to practice a profession contrary to this chapter, the chapter regulating the profession, or the rules of the department or the board.

(k) Failing to perform any statutory or legal obligation placed upon a licensee. For purposes of this section, failing to repay a student loan issued or guaranteed by the state or the Federal Government in accordance with the terms of the loan or failing to comply with service scholarship obligations shall be considered a failure to perform a statutory or legal obligation, and the minimum disciplinary action imposed shall be a suspension of the license until new payment terms are agreed upon or the scholarship obligation is resumed, followed by probation for the duration of the student loan or remaining scholarship obligation period, and a fine equal to 10 percent of the defaulted loan amount. Fines collected shall be deposited into the Medical Quality Assurance Trust Fund.

(l) Making or filing a report which the licensee knows to be false, intentionally or negligently failing to file a report or record required by state or federal law, or willfully impeding or obstructing another person to do so. Such reports or records shall include only those that are signed in the capacity of a licensee.

(m) Making deceptive, untrue, or fraudulent representations in or related to the practice of a profession or employing a trick or scheme in or related to the practice of a profession.

(n) Exercising influence on the patient or client for the purpose of financial gain of the licensee or a third party.

(o) Practicing or offering to practice beyond the scope permitted by law or accepting and performing professional responsibilities the licensee knows, or has reason to know, the licensee is not competent to perform.

(p) Delegating or contracting for the performance of professional responsibilities by a person when the licensee delegating or contracting for performance of the responsibilities knows, or has reason to know, the person is not qualified by training, experience, and authorization when required to perform them.

(q) Violating a lawful order of the department or the board, or failing to comply with a lawfully issued subpoena of the department.

(r) Improperly interfering with an investigation or inspection authorized by statute, or with any disciplinary proceeding.

(s) Failing to comply with the educational course requirements for domestic violence.

(t) Failing to identify through written notice, may include the wearing of a name tag, or oral patient the type of license under which the practitioner is practicing. Any advertisement for health care se

(7) Notwithstanding subsection (2), upon a finding that a physician has prescribed or dispensed a controlled substance, or caused a controlled substance to be prescribed or dispensed, in a manner that violates the standard of practice set forth in s. 458.331(1)(q) or (t), s. 459.015(1)(t) or (x), s. 461.013(1)(o) or (s), or s. 466.028(1)(p) or (x), the physician shall be suspended for a period of not less than 6 months and pay a fine of not less than \$10,000 per count. Repeated violations shall result in increased penalties.

(8) The purpose of this section is to facilitate uniform discipline for those actions made punishable under this section and, to this end, a reference to this section constitutes a general reference under the doctrine of incorporation by reference.

456.0721 Practitioners in default on student loan or scholarship obligations; investigation; report.—The Department of Health shall obtain from the United States Department of Health and Human Services information necessary to investigate and prosecute health care practitioners for failing to repay a student loan or comply with scholarship service obligations pursuant to s. 456.072(1)(k). The department shall obtain from the United States Department of Health and Human Services a list of default health care practitioners each month, along with the information necessary to investigate a complaint in accordance with s. 456.073. The department may obtain evidence to support the investigation and prosecution from any financial institution or educational institution involved in providing the loan or education to the practitioner. The department shall report to the Legislature as part of the annual report required by s. 456.026, the number of practitioners in default, along with the results of the department's investigations and prosecutions, and the amount of fines collected from practitioners prosecuted for violating s. 456.072(1)(k).

History.—s. 3, ch. 2002-254.

456.073 Disciplinary proceedings.—Disciplinary proceedings for each board shall be within the jurisdiction of the department.

(1) The department, for the boards under its jurisdiction, shall cause to be investigated any complaint that is filed before it if the complaint is in writing, signed by the complainant, and legally sufficient. A complaint filed by a state prisoner against a health care practitioner employed by or otherwise providing health care services within a facility of the Department of Corrections is not legally sufficient unless there is a showing that the prisoner complainant has exhausted all available administrative remedies within the state correctional system before filing the complaint. However, if the Department of Health determines after a preliminary inquiry of a state prisoner's complaint that the practitioner may present a serious threat to the health and safety of any individual who is not a state prisoner, the Department of Health may determine legal sufficiency and proceed with discipline. The Department of Health

shall be notified within 15 days after the Department of Corrections disciplines or allows a health care practitioner to resign for an offense related to the practice of his or her profession. A complaint is legally sufficient if it contains ultimate facts that show that a violation of this chapter, of any of the practice acts relating to the professions regulated by the department, or of any rule adopted by the department or a regulatory board in the department has occurred. In order to determine legal sufficiency, the department may require supporting information or documentation. The department may investigate, and the department or the appropriate board may take appropriate final action on, a complaint even though the original complainant withdraws it or otherwise indicates a desire not to cause the complaint to be investigated or prosecuted to completion. The department may investigate an anonymous complaint if the complaint is in writing and is legally sufficient, if the alleged violation of law or rules is substantial, and if the department has reason to believe, after preliminary inquiry, that the violations alleged in the complaint are true. The department may investigate a complaint made by a confidential informant if the complaint is legally sufficient, if the alleged violation of law or rule is substantial, and if the department has reason to believe, after preliminary inquiry, that the allegations of the complainant are true. The department may initiate an investigation if it has reasonable cause to believe that a licensee or a group of licensees has violated a Florida statute, a rule of the department, or a rule of a board. Notwithstanding subsection (13), the department may investigate information filed pursuant to s. 456.041(4) relating to liability actions with respect to practitioners licensed under chapter 458 or chapter 459 which have been reported under s. 456.049 or s. 627.912 within the previous 6 years for any paid claim that exceeds \$50,000. Except as provided in ss. 458.331(9), 459.015(9), 460.413(5), and 461.013(6), when an investigation of any subject is undertaken, the department shall promptly furnish to the subject or the subject's attorney a copy of the complaint or document that resulted in the initiation of the investigation. The subject may submit a written response to the information contained in such complaint or document within 20 days after service to the subject of the complaint or document. The subject's written response shall be considered by the probable cause panel. The right to respond does not prohibit the issuance of a summary emergency order if necessary to protect the public. However, if the State Surgeon General, or the State Surgeon General's designee, and the chair of the respective board or the chair of its probable cause panel agree in writing that such notification would be detrimental to the investigation, the department may withhold notification. The department may conduct an investigation without notification to any subject if the act under investigation is a criminal offense.

(2) The department shall allocate sufficient and adequately trained staff to expeditiously and thoroughly determine legal sufficiency and investigate all legally sufficient complaints. For purposes of this section, it is the intent of the Legislature that the term "expeditiously" means that the department complete the report of its

for the purpose of determining if any of the provisions of this chapter or any practice act of a profession or any rule adopted thereunder is being violated; or for the purpose of securing such other evidence as may be needed for prosecution.

History.—s. 86, ch. 97-261; s. 88, ch. 2000-160.
Note.—Former s. 455.681.

456.071 Power to administer oaths, take depositions, and issue subpoenas.—For the purpose of any investigation or proceeding conducted by the department, the department shall have the power to administer oaths, take depositions, make inspections when authorized by statute, issue subpoenas which shall be supported by affidavit, serve subpoenas and other process, and compel the attendance of witnesses and the production of books, papers, documents, and other evidence. The department shall exercise this power on its own initiative or whenever requested by a board or the probable cause panel of any board. Challenges to, and enforcement of, the subpoenas and orders shall be handled as provided in s. 120.569.

History.—s. 65, ch. 97-261; s. 89, ch. 2000-160.
Note.—Former s. 455.611.

456.072 Grounds for discipline; penalties; enforcement.—

(1) The following acts shall constitute grounds for which the disciplinary actions specified in subsection (2) may be taken:

(a) Making misleading, deceptive, or fraudulent representations in or related to the practice of the licensee's profession.

(b) Intentionally violating any rule adopted by the board or the department, as appropriate.

(c) Being convicted or found guilty of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice, a licensee's profession.

(d) Using a Class III or a Class IV laser device or product, as defined by federal regulations, without having complied with the rules adopted under s. 501.122(2) governing the registration of the devices.

(e) Failing to comply with the educational course requirements for human immunodeficiency virus and acquired immune deficiency syndrome.

(f) Having a license or the authority to practice any regulated profession revoked, suspended, or otherwise acted against, including the denial of licensure, by the licensing authority of any jurisdiction, including its agencies or subdivisions, for a violation that would constitute a violation under Florida law. The licensing authority's acceptance of a relinquishment of licensure, stipulation, consent order, or other settlement, offered in response to or in anticipation of the filing of charges against the license, shall be construed as action against the license.

(g) Having been found liable in a civil proceeding for knowingly filing a false report or complaint with the department against another licensee.

(h) Attempting to obtain, obtaining, or renewing a license to practice a profession by bribery, by fraudulent

misrepresentation, or through an error of the department or the board.

(i) Except as provided in s. 465.016, failing to report to the department any person who the licensee knows is in violation of this chapter, the chapter regulating the alleged violator, or the rules of the department or the board.

(j) Aiding, assisting, procuring, employing or advising any unlicensed person or entity to practice a profession contrary to this chapter, the chapter regulating the profession, or the rules of the department or the board.

(k) Failing to perform any statutory or legal obligation placed upon a licensee. For purposes of this section, failing to repay a student loan issued or guaranteed by the state or the Federal Government in accordance with the terms of the loan or failing to comply with service scholarship obligations shall be considered a failure to perform a statutory or legal obligation, and the minimum disciplinary action imposed shall be a suspension of the license until new payment terms are agreed upon or the scholarship obligation is resumed, followed by probation for the duration of the student loan or remaining scholarship obligation period, and a fine equal to 10 percent of the defaulted loan amount. Fines collected shall be deposited into the Medical Quality Assurance Trust Fund.

(l) Making or filing a report which the licensee knows to be false, intentionally or negligently failing to file a report or record required by state or federal law, or willfully impeding or obstructing another person to do so. Such reports or records shall include only those that are signed in the capacity of a licensee.

(m) Making deceptive, untrue, or fraudulent representations in or related to the practice of a profession or employing a trick or scheme in or related to the practice of a profession.

(n) Exercising influence on the patient or client for the purpose of financial gain of the licensee or a third party.

(o) Practicing or offering to practice beyond the scope permitted by law or accepting and performing professional responsibilities the licensee knows, or has reason to know, the licensee is not competent to perform.

(p) Delegating or contracting for the performance of professional responsibilities by a person when the licensee delegating or contracting for performance of the responsibilities knows, or has reason to know, the person is not qualified by training, experience, and authorization when required to perform them.

(q) Violating a lawful order of the department or the board, or failing to comply with a lawfully issued subpoena of the department.

(r) Improperly interfering with an investigation or inspection authorized by statute, or with any disciplinary proceeding.

(s) Failing to comply with the educational course requirements for domestic violence.

(t) Failing to identify through written notice, which may include the wearing of a name tag, or orally to a patient the type of license under which the practitioner is practicing. Any advertisement for health care services

naming the practitioner must identify the type of license the practitioner holds. This paragraph does not apply to a practitioner while the practitioner is providing services in a facility licensed under chapter 394, chapter 395, chapter 400, or chapter 429. Each board, or the department where there is no board, is authorized by rule to determine how its practitioners may comply with this disclosure requirement.

(u) Failing to comply with the requirements of ss. 381.026 and 381.0261 to provide patients with information about their patient rights and how to file a patient complaint.

(v) Engaging or attempting to engage in sexual misconduct as defined and prohibited in s. 456.063(1).

(w) Failing to comply with the requirements for profiling and credentialing, including, but not limited to, failing to provide initial information, failing to timely provide updated information, or making misleading, untrue, deceptive, or fraudulent representations on a profile, credentialing, or initial or renewal licensure application.

* (x) Failing to report to the board, or the department if there is no board, in writing within 30 days after the licensee has been convicted or found guilty of, or entered a plea of nolo contendere to, regardless of adjudication, a crime in any jurisdiction. Convictions, findings, adjudications, and pleas entered into prior to the enactment of this paragraph must be reported in writing to the board, or department if there is no board, on or before October 1, 1999.

(y) Using information about people involved in motor vehicle accidents which has been derived from accident reports made by law enforcement officers or persons involved in accidents under s. 316.066, or using information published in a newspaper or other news publication or through a radio or television broadcast that has used information gained from such reports, for the purposes of commercial or any other solicitation whatsoever of the people involved in the accidents.

(z) Being unable to practice with reasonable skill and safety to patients by reason of illness or use of alcohol, drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition. In enforcing this paragraph, the department shall have, upon a finding of the State Surgeon General or the State Surgeon General's designee that probable cause exists to believe that the licensee is unable to practice because of the reasons stated in this paragraph, the authority to issue an order to compel a licensee to submit to a mental or physical examination by physicians designated by the department. If the licensee refuses to comply with the order, the department's order directing the examination may be enforced by filing a petition for enforcement in the circuit court where the licensee resides or does business. The department shall be entitled to the summary procedure provided in s. 51.011. A licensee or certificateholder affected under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate that he or she can resume the competent practice of his or her profession with reasonable skill and safety to patients.

(aa) Testing positive for any drug, as defined in s. 112.0455, on any confirmed preemployment or employer-ordered drug screening when the practitioner does not have a lawful prescription and legitimate medical reason for using the drug.

(bb) Performing or attempting to perform health care services on the wrong patient, a wrong-site procedure, a wrong-procedure, or an unauthorized procedure or a procedure that is medically unnecessary or otherwise unrelated to the patient's diagnosis or medical condition. For the purposes of this paragraph, performing or attempting to perform health care services includes the preparation of the patient.

(cc) Leaving a foreign body in a patient, such as a sponge, clamp, forceps, surgical needle, or other paraphernalia commonly used in surgical, examination, or other diagnostic procedures. For the purposes of this paragraph, it shall be legally presumed that retention of a foreign body is not in the best interest of the patient and is not within the standard of care of the profession, regardless of the intent of the professional.

(dd) Violating any provision of this chapter, the applicable practice act, or any rules adopted pursuant thereto.

(ee) With respect to making a personal injury protection claim as required by s. 627.736, intentionally submitting a claim, statement, or bill that has been "upcoded" as defined in s. 627.732.

(ff) With respect to making a personal injury protection claim as required by s. 627.736, intentionally submitting a claim, statement, or bill for payment of services that were not rendered.

(gg) Engaging in a pattern of practice when prescribing medicinal drugs or controlled substances which demonstrates a lack of reasonable skill or safety to patients, a violation of any provision of this chapter, a violation of the applicable practice act, or a violation of any rules adopted under this chapter or the applicable practice act of the prescribing practitioner. Notwithstanding s. 456.073(13), the department may initiate an investigation and establish such a pattern from billing records, data, or any other information obtained by the department.

(hh) Being terminated from a treatment program for impaired practitioners, which is overseen by an impaired practitioner consultant as described in s. 456.076, for failure to comply, without good cause, with the terms of the monitoring or treatment contract entered into by the licensee, or for not successfully completing any drug treatment or alcohol treatment program.

(ii) Being convicted of, or entering a plea of guilty or nolo contendere to, any misdemeanor or felony, regardless of adjudication, under 18 U.S.C. s. 669, ss. 285-287, s. 371, s. 1001, s. 1035, s. 1341, s. 1343, s. 1347, s. 1349, or s. 1518, or 42 U.S.C. ss. 1320a-7b, relating to the Medicaid program.

(jj) Failing to remit the sum owed to the state for an overpayment from the Medicaid program pursuant to a final order, judgment, or stipulation or settlement.

(kk) Being terminated from the state Medicaid program pursuant to s. 409.913, any other state Medicaid program, or the federal Medicare program, unless

(7) Notwithstanding subsection (2), upon a finding that a physician has prescribed or dispensed a controlled substance, or caused a controlled substance to be prescribed or dispensed, in a manner that violates the standard of practice set forth in s. 458.331(1)(q) or (t), s. 459.015(1)(t) or (x), s. 461.013(1)(o) or (s), or s. 466.028(1)(p) or (x), the physician shall be suspended for a period of not less than 6 months and pay a fine of not less than \$10,000 per count. Repeated violations shall result in increased penalties.

(8) The purpose of this section is to facilitate uniform discipline for those actions made punishable under this section and, to this end, a reference to this section constitutes a general reference under the doctrine of incorporation by reference.

Note.—Former s. 455.624.

456.0721 Practitioners in default on student loan or scholarship obligations; investigation; report.—The Department of Health shall obtain from the United States Department of Health and Human Services information necessary to investigate and prosecute health care practitioners for failing to repay a student loan or comply with scholarship service obligations pursuant to s. 456.072(1)(k). The department shall obtain from the United States Department of Health and Human Services a list of default health care practitioners each month, along with the information necessary to investigate a complaint in accordance with s. 456.073. The department may obtain evidence to support the investigation and prosecution from any financial institution or educational institution involved in providing the loan or education to the practitioner. The department shall report to the Legislature as part of the annual report required by s. 456.026, the number of practitioners in default, along with the results of the department's investigations and prosecutions, and the amount of fines collected from practitioners prosecuted for violating s. 456.072(1)(k).

History.—s. 3, ch. 2002-254.

456.073 Disciplinary proceedings.—Disciplinary proceedings for each board shall be within the jurisdiction of the department.

(1) The department, for the boards under its jurisdiction, shall cause to be investigated any complaint that is filed before it if the complaint is in writing, signed by the complainant, and legally sufficient. A complaint filed by a state prisoner against a health care practitioner employed by or otherwise providing health care services within a facility of the Department of Corrections is not legally sufficient unless there is a showing that the prisoner complainant has exhausted all available administrative remedies within the state correctional system before filing the complaint. However, if the Department of Health determines after a preliminary inquiry of a state prisoner's complaint that the practitioner may present a serious threat to the health and safety of any individual who is not a state prisoner, the Department of Health may determine legal sufficiency and proceed with discipline. The Department of Health

shall be notified within 15 days after the Department of Corrections disciplines or allows a health care practitioner to resign for an offense related to the practice of his or her profession. A complaint is legally sufficient if it contains ultimate facts that show that a violation of this chapter, of any of the practice acts relating to the professions regulated by the department, or of any rule adopted by the department or a regulatory board in the department has occurred. In order to determine legal sufficiency, the department may require supporting information or documentation. The department may investigate, and the department or the appropriate board may take appropriate final action on, a complaint even though the original complainant withdraws it or otherwise indicates a desire not to cause the complaint to be investigated or prosecuted to completion. The department may investigate an anonymous complaint if the complaint is in writing and is legally sufficient, if the alleged violation of law or rules is substantial, and if the department has reason to believe, after preliminary inquiry, that the violations alleged in the complaint are true. The department may investigate a complaint made by a confidential informant if the complaint is legally sufficient, if the alleged violation of law or rule is substantial, and if the department has reason to believe, after preliminary inquiry, that the allegations of the complainant are true. The department may initiate an investigation if it has reasonable cause to believe that a licensee or a group of licensees has violated a Florida statute, a rule of the department, or a rule of a board. Notwithstanding subsection (13), the department may investigate information filed pursuant to s. 456.041(4) relating to liability actions with respect to practitioners licensed under chapter 458 or chapter 459 which have been reported under s. 456.049 or s. 627.912 within the previous 6 years for any paid claim that exceeds \$50,000. Except as provided in ss. 458.331(9), 459.015(9), 460.413(5), and 461.013(6), when an investigation of any subject is undertaken, the department shall promptly furnish to the subject or the subject's attorney a copy of the complaint or document that resulted in the initiation of the investigation. The subject may submit a written response to the information contained in such complaint or document within 20 days after service to the subject of the complaint or document. The subject's written response shall be considered by the probable cause panel. The right to respond does not prohibit the issuance of a summary emergency order if necessary to protect the public. However, if the State Surgeon General, or the State Surgeon General's designee, and the chair of the respective board or the chair of its probable cause panel agree in writing that such notification would be detrimental to the investigation, the department may withhold notification. The department may conduct an investigation without notification to any subject if the act under investigation is a criminal offense.

(2) The department shall allocate sufficient and adequately trained staff to expeditiously and thoroughly determine legal sufficiency and investigate all legally sufficient complaints. For purposes of this section, it is the intent of the Legislature that the term "expeditiously" means that the department complete the report of its

INDICTMENT

~~SEALED~~

The Grand Jury charges:

COUNT ONE

A. Introduction

At times material to this Indictment:

1. The Controlled Substances Act (CSA) governed the manufacture, distribution, and dispensing of controlled substances in the United States. With limited exceptions for medical professionals, the CSA made it "unlawful for any person knowingly or intentionally . . . to manufacture, distribute, or dispense . . . a controlled substance" or conspire to do so.

2. The CSA and its implementing regulations set forth which drugs and other substances were defined by law as "controlled substances," and those controlled substances were then assigned to one of five schedules, Schedule I, II, III, IV, or V, depending on their potential for abuse, likelihood of physical or psychological dependency, accepted medical use, and accepted safety for use under medical supervision.

I certify the foregoing to be a true and correct copy of the original.
SHERYL L. LOESCH, Clerk
United States District Court
Middle District of Florida.

BT
Deputy Clerk

3. Pursuant to the CSA and its implementing regulations, Oxycodone, the generic name for a prescription painkiller, was classified as a Schedule II Controlled Substance, and sold generically or under a variety of brand names, including Roxicodone, Roxicet, Oxycontin, Percocet, and Endocet. Oxycodone, when legally prescribed for a legitimate medical purpose, typically was used to treat moderate to moderately severe pain.

4. Medical practitioners, including pharmacies, authorized to distribute or dispense controlled substances by the jurisdiction in which that practitioner or pharmacy was licensed, were authorized under the CSA to dispense controlled substances if they were registered with the Attorney General of the United States. Such medical practitioners and pharmacies were assigned a registration number with the Drug Enforcement Administration (DEA).

5. Under Chapter 21 of the Code of Federal Regulations, Section 1306.04(a), medical practitioners registered with the DEA could not issue a prescription for a controlled substance unless the prescription was "issued for a legitimate medical purpose by an individual practitioner acting in the usual course of his professional practice. The responsibility for the proper prescribing and dispensing of controlled substances [was] upon the prescribing practitioner, but a corresponding responsibility rest[ed] with the pharmacist, who fills the prescription. An order purporting to be a prescription issued not in the usual course of professional treatment or in legitimate and authorized research [was] not a prescription within the meaning and intent of [the CSA]

and the person knowingly filling such a purported prescription, as well as the person issuing it, [was] subject to the penalties provided for violations of the provisions relating to controlled substances."

6. Under Chapter 21 of the Code of Federal Regulations, Section 1306.06, a prescription for a controlled substance could "only be filled by a pharmacist, acting in the usual course of his professional practice and either registered individually or employed in a registered pharmacy, a registered central fill pharmacy, or registered institutional practitioner."

7. The CSA prohibited any person from knowingly and intentionally using a DEA registration number issued to another person in the course of distributing or dispensing a controlled substance.

8. The CSA prohibited any person from knowingly and intentionally acquiring or obtaining possession of a controlled substance by misrepresentation, fraud, forgery, deception or subterfuge.

9. The CSA prohibited any person from knowingly opening, leasing, renting, using, or maintaining any place, whether permanently or temporarily, for the purpose of illegally distributing any controlled substance.

B. DEFENDANTS

10. Defendant LOUIS FERNANDEZ, JR., was an owner, operator, manager and employee of medical businesses, including but not limited to the Tampa Bay Wellness Centre at 2137 West Martin Luther King Boulevard, Tampa, Florida; and the Superior Injury Center, at 1779 West Hillsborough Avenue, Tampa, Florida, and previously located at 1943 West Martin Luther King Boulevard, Tampa, Florida, and

was not a medical professional licensed in any capacity in the State of Florida.

11. Defendant LOUIS FERNANDEZ, III, was an owner, operator, manager and employee of medical businesses, including but not limited to the Tampa Bay Wellness Centre at 2137 West Martin Luther King Boulevard, Tampa, Florida; and the Superior Injury Center, at 1779 West Hillsborough Avenue, Tampa, Florida, and previously located at 1943 West Martin Luther King Boulevard, Tampa, Florida, and was not a medical professional licensed in any capacity in the State of Florida.

12. Defendant MARCO BELTRAN, was an owner, operator, manager and employee of medical businesses, including but not limited to the Tampa Bay Wellness Centre at 2137 West Martin Luther King Boulevard, Tampa, Florida; and the Superior Injury Center, at 1779 West Hillsborough Avenue, Tampa, Florida, and previously located at 1943 West Martin Luther King Boulevard, Tampa, Florida. Defendant BELTRAN also was an employee and licensed pharmacy technician of the TNC Pharmacy, doing business as VIP Pharmacy, at 1947 West Martin Luther King Boulevard, Tampa, Florida, and previously located at 7802 West Waters Avenue, Tampa, Florida.

C. THE AGREEMENT

15. From an unknown date, but at least beginning in or about 2005 and continuing through on or about the November 3, 2010, in the Middle District of Florida and elsewhere, the defendants,

**LUIS FERNANDEZ, JR,
LUIS FERNANDEZ, III,
MARCO BELTRAN,
CHRISTOPHER SWITLYK,
and
KIMBERLY CURTISS,**

did knowingly and willfully conspire with each other and other persons, both known and unknown to the Grand Jury, to commit the following offenses:

- 1) to knowingly and intentionally distribute and possess with the intent to distribute quantities of controlled substances, primarily Oxycodone, a Schedule II Controlled Substance, contrary to Title 21, United States Code, Section 841(a)(1);
- 2) to knowingly and intentionally dispense and distribute, and cause to be dispensed and distributed, quantities of controlled substances, primarily Oxycodone, a Schedule II Controlled Substance, not for a legitimate medical purpose and not in the usual course of professional practice, contrary to Title 21, United States Code, Section 841(a)(1);

- 3) to knowingly and intentionally use, and cause to be used, a registration number that was issued to another person in the course of distributing and dispensing controlled substances, primarily Oxycodone, a Schedule II Controlled Substance, contrary to Title 21, United States Code, Section 843(a)(2);
- 4) to knowingly and intentionally acquire and obtain possession, and cause the acquiring and obtaining of possession, of controlled substances, primarily Oxycodone, a Schedule II Controlled Substance, by misrepresentation, fraud, forgery, deception or subterfuge, contrary to Title 21, United States Code, Section 843(a)(3); and
- 5) to knowingly and intentionally open, lease, rent, use and maintain, and cause to be opened, leased, rented, used, and maintained, certain places for the purpose of distributing and dispensing controlled substances, primarily Oxycodone, a Schedule II Controlled Substance, contrary to Title 21, United States Code, Section 856(a)(1).

D. MANNER AND MEANS OF THE CONSPIRACY

The manner and means of this conspiracy included the following:

16. It was part of the conspiracy that the defendants would and did knowingly open, use, operate and maintain places of business, including the Tampa Bay Wellness Centre at 2137 West Martin Luther King Boulevard, Tampa, Florida; the Superior Injury Center, at 1779 West Hillsborough Avenue, Tampa, Florida, and previously located at 1943 West Martin Luther King Boulevard, Tampa, Florida; the TNC Pharmacy, doing business as VIP Pharmacy, at 1947 West Martin Luther King Boulevard, Tampa,

Florida, and previously located at 7802 West Waters Avenue, Tampa, Florida; for the purpose of unlawfully distributing and dispensing and causing the unlawful distribution and dispensing of controlled substances.

17. It was part of the conspiracy that the defendants would and did knowingly and intentionally distribute and dispense and cause to be distributed and dispensed controlled substances not for a legitimate medical purpose and not in the usual course of professional practice in one or more of the following manners:

- (a) without adequate verification of the patient's identity or medical complaint;
- (b) without adequate and reliable patient medical history;
- (c) without performance of a complete or adequate mental or physical examination;
- (d) without establishment of a true diagnosis;
- (e) without the use of appropriate diagnostic or laboratory testing;
- (f) without sufficient dialogue with the patient regarding treatment options and risks and benefits of such treatments;
- (g) without establishment of a treatment plan;
- (h) without consideration of, or discussion with the patient, regarding, alternatives to treatment other than narcotics;
- (i) without referral of patients to specialists in an effort to identify and correct the cause of pain;
- (j) without any assessment of risk of abuse for individual patients;
- (k) without provision of a means to follow up with the patient or to monitor

the patient's response to the medication or compliance with medical usage; and

(l) without maintaining true, accurate and complete medical records that justified the course of treatment for each patient, including but not limited to medical history, physical examination results, diagnostic therapeutic and laboratory results, evaluations and consultations, treatment plans and objectives, discussions of risks and benefits, records of all medications prescribed, dispensed, or administered, instructions and agreements, and periodic reviews.

18. It was further part of the conspiracy that the defendants would and did knowingly and intentionally distribute and dispense controlled substances and cause controlled substances to be unlawfully distributed and dispensed by using or causing to be used blank prescription forms upon which unauthorized persons would fill in the controlled substance and dosage to be prescribed, fill in the DEA number of a physician without his or her knowledge or participation, and forge the signature of the physician.

~~19. It was further part of the conspiracy that the defendants would and did~~ knowingly and intentionally distribute and dispense controlled substances and cause controlled substances to be unlawfully distributed and dispensed by misrepresentation, fraud, forgery, deception or subterfuge, in that they would and did provide and cause to be provided, false documentation of injuries and opiate prescription profiles for patients in order to support the issuance of prescriptions for controlled substances, and provide and caused to be provided fraudulent and forged prescriptions to be filled by patients or other persons.

20. It was further part of the conspiracy that the defendants would and did knowingly and intentionally distribute and dispense controlled substances and cause controlled substances to be unlawfully distributed and dispensed by persons not authorized to fill prescriptions for controlled substances and without the presence or supervision of a pharmacist acting in the usual course of his professional practice and either registered individually or employed in a registered pharmacy, a registered central fill pharmacy, or registered institutional practitioner.

21. It was further part of the conspiracy that the defendants would and did knowingly and intentionally distribute and cause to be distributed controlled substances without any use of legitimate prescriptions.

22. It was further part of the conspiracy that the defendants would and did perform and cause to be performed acts, and make and cause to be made statements, to hide and conceal the purpose of the conspiracy and the acts committed in furtherance thereof.

All in violation of Title 21, United States Code, Sections 846, 841(b)(1)(C), 843(d), and 856(b).

COUNT TWO

From an unknown date, but at least beginning in or about 2008 and continuing through on or about the date of this Indictment, in the Middle District of Florida and elsewhere, the defendants,

**CHRISTOPHER SWITLYK,

Case No. 8:10-CR-530-T-33AEP

CHRISTOPHER SWITLYK

**AMENDED
PLEA AGREEMENT**

Pursuant to Fed. R. Crim. P. 11(c), the United States of America, by Robert E. O'Neill, United States Attorney for the Middle District of Florida, and the defendant, CHRISTOPHER SWITLYK, and the attorney for the defendant, Jeffrey Brown, Esq., mutually agree as follows:

A. Particularized Terms

1. Count Pleading To

The defendant shall enter a plea of guilty to Counts One, Five and Six of the Indictment. Count One charges the defendant with conspiring to

1) distribute and possess with intent to distribute quantities of controlled substances, primarily oxycodone, a Schedule II controlled substance, contrary to Title 21, United States Code, Section 841(a)(1);

2) dispense and distribute, and cause to be dispensed and distributed, quantities of controlled substances, primarily oxycodone, a Schedule II controlled substance, not for a legitimate medical purpose and not in the usual course of professional practice, contrary to Title 21, United States Code, Section 841(a)(1);

3) use, and cause to be used, a registration number that was issued to another person in the course of distributing and

dispensing controlled substances, primarily oxycodone, a Schedule II Controlled Substance, contrary to Title 21, United States Code, Section 843(a)(2);

4) acquire and obtain possession, and cause the acquiring and obtaining of possession, of controlled substances, primarily oxycodone, a Schedule II Controlled Substance, by misrepresentation, fraud, forgery, deception or subterfuge, contrary to Title 21, United States Code, Section 843(a)(3); and

5) open, lease, rent, use and maintain, and cause to be opened, leased, rented, used, and maintained, certain places for the purpose of distributing and dispensing controlled substances, primarily oxycodone, a Schedule II Controlled Substance, contrary to Title 21, United States Code, Section 856(a)(1).

All in violation of Title 21, United States Code, § 846.

Counts Five and Six charge the defendant with engaging in monetary transactions, in and affecting interstate and foreign commerce, in criminally derived property of a value greater than \$10,000.00, such property having been from a specified unlawful activity, namely, a conspiracy to traffic in controlled substances in violation of Title 21, United States Code, Section 846, in violation of Title 18 United States Code, Sections 1957 and 2.

2. Minimum and Maximum Penalties

Count One is punishable by a term of imprisonment of up to 20 years, a fine of up to \$1 million, a term of supervised release of at least 3 years, and a special assessment of \$100, said special assessment to be due on the date of sentencing. Counts Five and Six are punishable by a term of imprisonment of up to 10 years, a fine of up to \$250,000, a term of supervised

release of not more than three years, and a special assessment of \$100 per count, said special assessment to be due on the date of sentencing.

3. Elements of the Offense

The defendant acknowledges understanding the nature and elements of the offenses with which defendant has been charged and to which defendant is pleading guilty. The elements of Count One are:

First: That two or more persons in some way or manner came to a mutual understanding to try to accomplish a common and unlawful plan, as charged in the Indictment.

Second: That the defendant, knowing the unlawful purpose of the plan, willfully joined in it; and

Third: That the object of the unlawful plan was to That the object of the unlawful plan was 1) distribute and possess with intent to distribute, 2) to distribute or dispense not for a legitimate medical purpose and not in the usual course of professional practice, 3) to use or cause to be used a registration number that was issued to another person in the course of distributing and dispensing, 4) to acquire and obtain by misrepresentation, fraud, forgery, deception or subterfuge, and 5) to use and cause to be used certain places for the purpose of distributing and dispensing, controlled substances, primarily oxycodone, a Schedule III controlled substance, as charged.

The elements of Counts Five and Six are:

First: the Defendant knowingly engaged or attempted to engage in a monetary transaction;

CS

Second: the Defendant knew the transaction involved property or funds that were the proceeds of some criminal activity;

Third: the property had a value of more than \$10,000;

Fourth: the property was in fact proceeds of the specified unlawful activity described in the indictment; and

Fifth: the transaction took place in the United States.

4. Counts Dismissed

At the time of sentencing, the remaining counts against the defendant, Counts Two, Three and Four of the Indictment, will be dismissed pursuant to Fed. R. Crim. P. 11(c)(1)(A).

5. No Further Charges

If the Court accepts this plea agreement, the United States Attorney's Office for the Middle District of Florida agrees not to charge defendant with committing any other federal criminal offenses known to the United States Attorney's Office at the time of the execution of this agreement, related to the conduct giving rise to this plea agreement.

6. Acceptance of Responsibility - Three Levels

At the time of sentencing, and in the event that no adverse information is received suggesting such a recommendation to be unwarranted, the United States will recommend to the Court that the defendant receive a two-level downward adjustment for acceptance of responsibility, pursuant to USSG §3E1.1(a). The defendant understands that this recommendation or request is

CD

not binding on the Court, and if not accepted by the Court, the defendant will not be allowed to withdraw from the plea.

Further, at the time of sentencing, if the defendant complies with the provisions of USSG §3E1.1(b), the United States agrees to file a motion pursuant to USSG §3E1.1(b) for a downward adjustment of one additional level. The defendant understands that the determination as to whether the defendant has qualified for a downward adjustment of a third level for acceptance of responsibility rests solely with the United States Attorney for the Middle District of Florida, and the defendant agrees that the defendant cannot and will not challenge that determination, whether by appeal, collateral attack, or otherwise.

7. Low End

At the time of sentencing, and in the event that no adverse information is received suggesting such a recommendation to be unwarranted, the United States will recommend to the Court that the defendant receive a sentence at the low end of the applicable guideline range, as calculated by the Court. The defendant understands that this recommendation or request is not binding on the Court, and if not accepted by the Court, the defendant will not be allowed to withdraw from the plea.

7. Safety Valve Provision

The United States will not oppose to the Court that it impose a sentence in accordance with the applicable guidelines without regard to any statutory minimum sentence, pursuant to USSG §5C1.2, if the Court finds that the defendant meets the criteria set forth in 18 U.S.C. § 3553(f). The defendant understands that this recommendation or request is not binding on the Court, and if not accepted by the Court, the defendant will not be allowed to withdraw from the plea.

8. Cooperation - Substantial Assistance to be Considered

Defendant agrees to cooperate fully with the United States in the investigation and prosecution of other persons, and to testify, subject to a prosecution for perjury or making a false statement, fully and truthfully before any federal court proceeding or federal grand jury in connection with the charges in this case and other matters, such cooperation to further include a full and complete disclosure of all relevant information, including production of any and all books, papers, documents, and other objects in defendant's possession or control, and to be reasonably available for interviews which the United States may require. If the cooperation is completed prior to sentencing, the government agrees to consider whether such cooperation qualifies as "substantial assistance" in accordance with the policy of the United States Attorney for the Middle District of Florida, warranting the filing of a motion at the time of

sentencing recommending (1) a downward departure from the applicable guideline range pursuant to USSG §5K1.1, or (2) the imposition of a sentence below a statutory minimum, if any, pursuant to 18 U.S.C. § 3553(e), or (3) both. If the cooperation is completed subsequent to sentencing, the government agrees to consider whether such cooperation qualifies as "substantial assistance" in accordance with the policy of the United States Attorney for the Middle District of Florida, warranting the filing of a motion for a reduction of sentence within one year of the imposition of sentence pursuant to Fed. R. Crim. P. 35(b). In any case, the defendant understands that the determination as to whether "substantial assistance" has been provided or what type of motion related thereto will be filed, if any, rests solely with the United States Attorney for the Middle District of Florida, and the defendant agrees that defendant cannot and will not challenge that determination, whether by appeal, collateral attack, or otherwise.

9. Use of Information - Section 1B1.8

Pursuant to USSG §1B1.8(a), the United States agrees that no self-incriminating information which the defendant may provide during the course of defendant's cooperation shall be used in determining the applicable sentencing guideline range, subject to the restrictions and limitations set forth in USSG §1B1.8(b).

10. Cooperation - Responsibilities of Parties

a. The government will make known to the Court and other relevant authorities the nature and extent of defendant's cooperation and any other mitigating circumstances indicative of the defendant's rehabilitative intent by assuming the fundamental civic duty of reporting crime. However, the defendant understands that the government can make no representation that the Court will impose a lesser sentence solely on account of, or in consideration of, such cooperation.

b. It is understood that should the defendant knowingly provide incomplete or untruthful testimony, statements, or information pursuant to this agreement, or should the defendant falsely implicate or incriminate any person, or should the defendant fail to voluntarily and unreservedly disclose and provide full, complete, truthful, and honest knowledge, information, and cooperation regarding any of the matters noted herein, the following conditions shall apply:

(1) The defendant may be prosecuted for any perjury or false declarations, if any, committed while testifying pursuant to this agreement, or for obstruction of justice.

(2) The United States may prosecute the defendant for the charges which are to be dismissed pursuant to this agreement, if any, and may either seek reinstatement of or refile such charges and prosecute the defendant thereon in the event such charges have been dismissed pursuant to

Defendant's Initials CT

this agreement. With regard to such charges, if any, which have been dismissed, the defendant, being fully aware of the nature of all such charges now pending in the instant case, and being further aware of defendant's rights, as to all felony charges pending in such cases (those offenses punishable by imprisonment for a term of over one year), to not be held to answer to said felony charges unless on a presentment or indictment of a grand jury, and further being aware that all such felony charges in the instant case have heretofore properly been returned by the indictment of a grand jury, does hereby agree to reinstatement of such charges by rescission of any order dismissing them or, alternatively, does hereby waive, in open court, prosecution by indictment and consents that the United States may proceed by information instead of by indictment with regard to any felony charges which may be dismissed in the instant case, pursuant to this plea agreement, and the defendant further agrees to waive the statute of limitations and any speedy trial claims on such charges.

(3) The United States may prosecute the defendant for any offenses set forth herein, if any, the prosecution of which in accordance with this agreement, the United States agrees to forego, and the defendant agrees to waive the statute of limitations and any speedy trial claims as to any such offenses.

(4) The government may use against the defendant its own admissions and statements and the information and books, papers,

Defendant's Initials

CT

documents, and objects that the defendant has furnished in the course of the defendant's cooperation with the government.

(5) The defendant will not be permitted to withdraw the guilty plea to that count to which defendant hereby agrees to plead in the instant case but, in that event, defendant will be entitled to the sentencing limitations, if any, set forth in this plea agreement, with regard to the count to which the defendant has pled; or in the alternative, at the option of the United States, the United States may move the Court to declare this entire plea agreement null and void.

11. Forfeiture of Assets

The defendant agrees to forfeit to the United States immediately and voluntarily any and all assets and property, or portions thereof, subject to forfeiture, pursuant to Title 21, United States Code, Section 853, and Title 18, United States Code, Section 982(a)(1), whether in the possession or control of the United States or in the possession or control of the defendant or defendant's nominees. The assets to be forfeited specifically include, but are not limited to, the following:

- (a) \$1,609,520.00 in U.S. currency, seized from Regions Bank on May 20, 2010;
- (b) \$2,545.00 in U.S. currency, seized from Christopher Switlyk on May 20, 2010;

The defendant agrees to execute any further documents necessary
to allow the United States to negotiate the money orders and checks listed

above. He also agrees that by entering this plea agreement he is withdrawing his claim to the administrative forfeiture commenced by the U.S. Drug Enforcement Administration of the approximately \$14,418.91 seized from Pilot Bank account number 4127099 on or about April 25, 2012, and is consenting to the administrative forfeiture of those funds.

In addition, the defendant shall be subject to a forfeiture money judgment in the amount of \$10,700,592.00, representing the amount of proceeds, or property derived from proceeds, or property involved in, the offenses to which the defendant is pleading guilty, for which the defendant shall be jointly and severally liable with his co-defendants in this case. The net proceeds from the forfeiture of the assets enumerated above shall be credited toward the satisfaction of this money judgment. The defendant hereby represents that he has no right, title, or interest in any other assets (e.g., cash, personal property, or real property) listed in the Indictment (Doc. 1) or Bill of Particulars (Doc. 67) in *United States v. Fernández, et al.*, Case No. 8:10-CR-530-T-33AEP.

The defendant agrees and consents to the forfeiture of these assets pursuant to any federal criminal, civil, and/or administrative forfeiture action. The defendant also hereby agrees that the forfeiture described herein is not excessive and, in any event, the defendant waives any constitutional claims that the defendant may have that the forfeiture constitutes an excessive fine.

Defendant's Initials

CA

The defendant admits and agrees that the conduct described in the Factual Basis below provides a sufficient factual and statutory basis for the forfeiture of the property sought by the government. Pursuant to the provisions of Rule 32.2(b)(1), the United States and the defendant request that at the time of accepting this plea agreement, the court make a determination that the government has established the requisite nexus between the property subject to forfeiture and the offense(s) to which defendant is pleading guilty and enter a preliminary order of forfeiture. Pursuant to Rule 32.2(b)(4), the defendant agrees that the preliminary order of forfeiture shall be final as to the defendant at the time it is entered, notwithstanding the requirement that it be made a part of the sentence and be included in the judgment.

The defendant agrees to forfeit all interests in the properties described above and to take whatever steps are necessary to pass clear title to the United States. These steps include, but are not limited to, the surrender of title, the signing of a consent decree of forfeiture, and signing of any other documents necessary to effectuate such transfers.

Defendant further agrees to take all steps necessary to locate property and to pass title to the United States before the defendant's sentencing. To that end, defendant agrees to fully assist the government in the recovery and return to the United States of any assets, or portions thereof, as described above wherever located. The defendant agrees to make a full and complete disclosure

Defendant's Initials

of all assets over which defendant exercises control and those which are held or controlled by a nominee. The defendant further agrees to be polygraphed on the issue of assets.

The defendant agrees that the United States is not limited to forfeiture of the property described above. If the United States determines that property of the defendant identified for forfeiture cannot be located upon the exercise of due diligence; has been transferred or sold to, or deposited with, a third party; has been placed beyond the jurisdiction of the Court; has been substantially diminished in value; or has been commingled with other property which cannot be divided without difficulty; then the United States shall, at its option, be entitled to forfeiture of any other property (substitute assets) of the defendant up to the value of any property described above and/or in satisfaction of the forfeiture money judgment. The United States agrees to schedule the defendant's polygraph examination promptly upon the Court's acceptance of the plea agreement, and to complete its financial investigation of the defendant within two years. If the United States concludes that the defendant has not retained any proceeds of the charged drug conspiracy, it will extinguish the forfeiture money judgment.

Defendant's Initials Ct

This Court shall retain jurisdiction to settle any disputes arising from application of this clause. The defendant agrees that forfeiture of substitute assets as authorized herein shall not be deemed an alteration of the defendant's sentence.

Forfeiture of the defendant's assets shall not be treated as satisfaction of any fine, restitution, cost of imprisonment, or any other penalty this Court may impose upon the defendant in addition to forfeiture.

B. Standard Terms and Conditions

1. Special Assessment and Fine

On each count to which a plea of guilty is entered, the Court shall impose a special assessment, to be payable to the Clerk's Office, United States District Court, and due on date of sentencing. The defendant understands that this agreement imposes no limitation as to fine.

2. Supervised Release

The defendant understands that the offense to which the defendant is pleading provides for imposition of a term of supervised release upon release from imprisonment, and that, if the defendant should violate the conditions of release, the defendant would be subject to a further term of imprisonment.

Defendant's Initials CA

3. Sentencing Information

The United States reserves its right and obligation to report to the Court and the United States Probation Office all information concerning the background, character, and conduct of the defendant, to provide relevant factual information, including the totality of the defendant's criminal activities, if any, not limited to the count to which defendant pleads, to respond to comments made by the defendant or defendant's counsel, and to correct any misstatements or inaccuracies. The United States further reserves its right to make any recommendations it deems appropriate regarding the disposition of this case, subject to any limitations set forth herein, if any.

Pursuant to 18 U.S.C. § 3664(d)(3) and Fed. R. Crim. P. 32(d)(2)(A)(ii), the defendant agrees to complete and submit, upon execution of this plea agreement, an affidavit reflecting the defendant's financial condition. The defendant further agrees, and by the execution of this plea agreement, authorizes the United States Attorney's Office to provide to, and obtain from, the United States Probation Office or any victim named in an order of restitution, or any other source, the financial affidavit, any of the defendant's federal, state, and local tax returns, bank records and any other financial information concerning the defendant, for the purpose of making any recommendations to the Court and for collecting any assessments, fines, restitution, or forfeiture ordered by the Court.

Defendant's Initials CS

4. Sentencing Recommendations

It is understood by the parties that the Court is neither a party to nor bound by this agreement. The Court may accept or reject the agreement, or defer a decision until it has had an opportunity to consider the presentence report prepared by the United States Probation Office. The defendant understands and acknowledges that, although the parties are permitted to make recommendations and present arguments to the Court, the sentence will be determined solely by the Court, with the assistance of the United States Probation Office. Defendant further understands and acknowledges that any discussions between defendant or defendant's attorney and the attorney or other agents for the government regarding any recommendations by the government are not binding on the Court and that, should any recommendations be rejected, defendant will not be permitted to withdraw defendant's plea pursuant to this plea agreement. The government expressly reserves the right to support and defend any decision that the Court may make with regard to the defendant's sentence, whether or not such decision is consistent with the government's recommendations contained herein.

5. Appeal of Sentence-Waiver

The defendant agrees that this Court has jurisdiction and authority to impose any sentence up to the statutory maximum and expressly waives the right to appeal defendant's sentence on any ground, including the ground that

Defendant's Initials CA

the Court erred in determining the applicable guidelines range pursuant to the United States Sentencing Guidelines, except (a) the ground that the sentence exceeds the defendant's applicable guidelines range as determined by the Court pursuant to the United States Sentencing Guidelines; (b) the ground that the sentence exceeds the statutory maximum penalty; or (c) the ground that the sentence violates the Eighth Amendment to the Constitution; provided, however, that if the government exercises its right to appeal the sentence imposed, as authorized by Title 18, United States Code, Section 3742(b), then the defendant is released from his waiver and may appeal the sentence as authorized by Title 18, United States Code, Section 3742(a).

6. Middle District of Florida Agreement

It is further understood that this agreement is limited to the Office of the United States Attorney for the Middle District of Florida and cannot bind other federal, state, or local prosecuting authorities, although this office will bring defendant's cooperation, if any, to the attention of other prosecuting officers or others, if requested.

7. Filing of Agreement

This agreement shall be presented to the Court, in open court and filed in this cause, at the time of defendant's entry of a plea of guilty pursuant hereto.

8. Voluntariness

The defendant acknowledges that defendant is entering into this agreement and is pleading guilty freely and voluntarily without reliance upon any discussions between the attorney for the government and the defendant and defendant's attorney and without promise of benefit of any kind other than the concessions contained herein, and without threats, force, intimidation, or coercion of any kind. The defendant further acknowledges defendant's understanding of the nature of the offense to which defendant is pleading guilty and the elements thereof, including the penalties provided by law, and defendant's complete satisfaction with the representation and advice received from defendant's undersigned counsel. The defendant also understands that defendant has the right to plead not guilty or to persist in that plea if it has already been made, and that defendant has the right to be tried by a jury with the assistance of counsel, the right to confront and cross-examine the witnesses against defendant, the right against compulsory self-incrimination, and the right to compulsory process for the attendance of witnesses to testify in defendant's defense; but, by pleading guilty, defendant waives or gives up those rights and there will be no trial. Defendant knowingly and voluntarily waives any rights defendant has under federal law to a jury determination of any fact affecting defendant's sentence. The defendant further understands that if defendant pleads guilty, the Court may ask defendant questions about the offense to which

Defendant's Initials Ct

defendant pleaded, and if defendant answers those questions under oath, on the record, and in the presence of counsel, defendant's answers may later be used against defendant in a prosecution for perjury or false statement. The defendant also understands that defendant will be adjudicated guilty of the offense to which defendant has pleaded and, if such offense is a felony, may thereby be deprived of certain rights, such as the right to vote, to hold public office, to serve on a jury, or to have possession of firearms.

9. Factual Basis

Defendant is pleading guilty because defendant is in fact guilty.

The defendant certifies that defendant does hereby admit that the facts set forth below are true, and were this case to go to trial, the United States would be able to prove those facts beyond a reasonable doubt:

FACTS

From at least beginning in 2008 through November 3, 2010, Luis FERNANDEZ, JR., Luis FERNANDEZ, III, Marco BELTRAN, and Kimberly CURTISS conspired together and with others to operate and maintain pain management clinics, including TAMPA BAY WELLNESS CENTRE at 2137 W. Martin Luther King Blvd, and SUPERIOR INJURY CENTER, located at 1779 West Hillsborough Avenue, Tampa, FL 33603; and from at least beginning in 2009 through November 2010, Christopher SWITLYK (a pharmacist), CURTISS, and BELTRAN conspired together and with others to operate and maintain a

pharmacy, the VIP Pharmacy at 1947 W. Martin Luther King Blvd, (formerly the TNC Pharmacy, previously located at 7902 West Waters Avenue, Tampa, Florida), all for the purpose of causing the unlawful possession, distribution and dispensing controlled substances, primarily oxycodone.

During the time frame of the charged conspiracy, defendant CHRISTOPHER SWITLYK, was a pharmacist with an active license to practice issued by the State of Florida. Defendant SWITLYK owned and operated the TNC Pharmacy, doing business as VIP Pharmacy, at 1947 West Martin Luther King Boulevard, Tampa, Florida, and previously located at 7902 West Waters Avenue, Tampa, Florida. Defendant SWITLYK applied for and obtained the DEA registration for the TNC Pharmacy doing business as VIP Pharmacy, to dispense, administer and prescribe controlled substances in Schedules II through V.

Defendants LOUIS FERNANDEZ, JR., LOUIS FERNANDEZ, III, and MARCO BELTRAN were owners, operators, managers and employees of medical businesses, including but not limited to the Tampa Bay Wellness Centre at 2137 West Martin Luther King Boulevard, Tampa, Florida; and the Superior Injury Center, at 1779 West Hillsborough Avenue, Tampa, Florida, and previously located at 1943 West Martin Luther King Boulevard, Tampa, Florida. Defendants LOUIS FERNANDEZ, JR., LOUIS FERNANDEZ, III, were not medical professionals licensed in any capacity in the State of Florida. Defendant

Defendant's Initials

CS

BELTRAN also was an employee and licensed pharmacy technician of the TNC Pharmacy, doing business as VIP Pharmacy, at 1947 West Martin Luther King Boulevard, Tampa, Florida, and previously located at 7902 West Waters Avenue, Tampa, Florida.

Defendant KIMBERLY CURTISS, was an employee of the TNC Pharmacy, doing business as VIP Pharmacy, at 1947 West Martin Luther King Boulevard, Tampa, Florida, and previously located at 7902 West Waters Avenue, Tampa, Florida, and was not a medical professional licensed in any capacity in the State of Florida.

The defendants illegally operated the clinics and pharmacy by causing the issuance of prescriptions for, and the dispensing of, controlled substances, primarily oxycodone, based on prescriptions that had not been issued for a legitimate medical purpose and not in the usual course of professional practice.

Defendants BELTRAN, FERNANDEZ, III, AND FERNANDEZ, JR., in operating the clinics, also allowed or caused many blank prescription pads from the clinics to be sold and/or used and forged with physician's names, signatures, and DEA registration numbers in order to illegally fill and dispense controlled substances out of pharmacies, including the TNC and VIP pharmacies.

Defendants BELTRAN, FERNANDEZ, III, AND FERNANDEZ, JR., in operating the clinics, also assisted patients in obtaining and using false and fraudulent documentation in order to justify the issuance of prescriptions for

Defendant's Initials

CA

controlled substances by physicians and non-physicians from the clinics that had not been issued for a legitimate medical purpose and not in the usual course of professional practice. The total amount of prescriptions for oxycodone issued from the clinics that were forged or otherwise issued illegally were for far in excess of 150,000 pills, in 15, 30, 60 and 80 milligram doses, primarily 30 milligram doses.

Defendants BELTRAN, CURTISS, and others, while employed at the TNC and/or VIP Pharmacies, with the knowledge and concurrence of defendant SWITLYK, illegally filled prescriptions for controlled substances, including oxycodone, at the VIP Pharmacy without the supervision or presence of a licensed pharmacist, knowing that said prescriptions were forged or otherwise not issued for a legitimate medical purpose and not in the usual course of professional practice.

Defendants BELTRAN and SWITLYK also caused and allowed many bottles of Oxycodone to be distributed and sold out of the TNC and VIP Pharmacies to individuals without any prescriptions whatsoever. They would then produce or cause to be produced forged prescriptions and false pharmacy profiles in order to appear that they had legitimately dispensed all the oxycodone that was illegally distributed.

According to data compiled by the Drug Enforcement Administration, and supported by records seized at the VIP Pharmacy during the execution of the

Defendant's Initials CT

search warrant on May 20, 2010, from January to December 2009, the TNC Pharmacy (Registrant for VIP and former TNC Pharmacy) purchased from various wholesalers a total of 1,541,640 dosage units of oxycodone. Unknown to defendant SWITLYK, this compares to an average of 111,874 dosage units by Florida pharmacies and an average of 62,931 dosage units by pharmacies across the United States during the same time period.

From January 2010 through May 20, 2010, the TNC Pharmacy, d/b/a VIP Pharmacy, purchased a total of 1,241,400 dosage units of oxycodone. Unknown to defendant SWITLYK, this compares to an average of 48,322 dosage units by Florida pharmacies and an average of 15,663 dosage units by pharmacies across the United States during this same time period.

At the time the search warrant was executed at the VIP Pharmacy on May 20, 2010, there were 107,892 oxycodone tablets left in inventory.

Further, the defendants operated the TNC and VIP Pharmacies as a cash business. The oxycodone that the defendants distributed and sold out of the TNC and VIP Pharmacies to individuals without any prescriptions was paid for in cash. The defendants would then conduct financial transactions with the cash proceeds of their drug trafficking activities with the intent to conceal the source of the funds and evade the currency transaction reporting requirements. They would also engage in monetary transactions in excess of \$10,000 with the drug proceeds. Specifically, on or about April 21, 2010, the defendant SWITLYK

Defendant's Initials

purchased, with cash proceeds of his unlawful drug trafficking activity and knowing such cash to be proceeds of his drug trafficking activity, Regions Bank Cashier's Check #5003723063 in the amount of \$36,000, payable to Infinity Abstract and Title, for the purchase of 4102 W. Swann Avenue, Tampa, Florida. This monetary transaction was in and affecting interstate and foreign commerce, as Regions Bank is a federally insured financial institution whose transactions affect interstate and foreign commerce. On or about April 21, 2010, the defendant BELTRAN purchased, with cash proceeds of his unlawful drug trafficking activity and knowing such cash to be proceeds of his drug trafficking activity, SunTrust Bank Official Check #5630799771 in the amount of \$38,000, payable to Infinity Abstract and Title for the purchase of 4102 W. Swann Avenue, Tampa, Florida. This monetary transaction was in and affecting interstate and foreign commerce, as SunTrust Bank is a federally insured financial institution whose transactions affect interstate and foreign commerce.

Further, on or about April 26, 2010, the defendants SWITLYK and

BELTRAN knowingly used cash proceeds of his drug trafficking activity to purchase a 2007 Lincoln MKX, VIN #2LMDU68C77BJ08440, from the Cyber Car Store in Tampa, Florida. Specifically, the defendants SWITLYK and BELTRAN structured in an attempt to evade the currency reporting requirements (that is, split cash deposits into amounts under \$10,000). The defendants SWITLYK and BELTRAN then caused the transferred \$20,650, via SunTrust Cashier's

Defendant's Initials

U

25

Check #5630846562 from the Macron Technologies account, to the Cyber Car Store for the purchase of the Lincoln vehicle. This monetary transaction was in and affecting interstate and foreign commerce, as SunTrust Bank is a federally insured financial institution whose transactions affect interstate and foreign commerce.

Further, the defendant and the United States agree that the proceeds, or property derived from proceeds obtained directly or indirectly from, or property involved in, the offenses to which the defendant is pleading guilty, including but not limited to the items listed for forfeiture above (Section A.11) is at least \$10,700,592.00. Additionally, because the TNC and VIP Pharmacies were used to commit and facilitate the commission of such offenses, any property of the business, including at least \$10,700,592.00 obtained from the sale of oxycodone, is subject to forfeiture. Accordingly, the parties agree that for forfeiture purposes, the defendant shall be jointly and severally liable with his co-defendants in this case for a forfeiture money judgment in the amount of \$10,700,592.00.

10. Entire Agreement

This plea agreement constitutes the entire agreement between the government and the defendant with respect to the aforementioned guilty plea and no other promises, agreements, or representations exist or have been made to the defendant or defendant's attorney with regard to such guilty plea.

11. Certification

The defendant and defendant's counsel certify that this plea agreement has been read in its entirety by or has been read to the defendant and that defendant fully understands its terms.

REPORT AND RECOMMENDATION
CONCERNING PLEA OF GUILTY

The Defendant, by consent, has appeared before me pursuant to Rule 11 of the Federal Rules of Criminal Procedure and Local Rule 6.01(c)(12), and has entered a plea of guilty to **Counts One, Five and Six of the Indictment**. After cautioning and examining the Defendant under oath concerning each of the subjects mentioned in Rule 11, I determined that the guilty plea was knowledgeable and voluntary and that the offense(s) charged is supported by an independent basis in fact as to each of the essential elements of such offense. I therefore recommend that the plea agreement and the plea of guilty be accepted and that the Defendant be adjudged guilty and have sentence imposed accordingly.

SUPERVISED RELEASE

Upon release from imprisonment, the defendant shall be on supervised release for a term of **THIRTY-SIX (36) MONTHS** as to Counts ONE, FIVE and SIX. All such terms to run concurrently.

The defendant must report to the probation office in the district to which the defendant is released within 72 hours of release from the custody of the Bureau of Prisons.

The defendant shall not commit another federal, state, or local crime. Based on the probation officer's determination that additional drug urinalysis is necessary, the Court authorizes random drug testing not to exceed 104 tests per year. The defendant shall not illegally possess a controlled substance. The defendant shall refrain from any unlawful use of a controlled substance.

The defendant shall submit to one drug test within 15 days of release from imprisonment and at least two periodic drug tests thereafter, as determined by the court.

X The mandatory drug testing provisions of the Violent Crime Control Act are imposed. The court orders the defendant to submit to random drug testing not to exceed 104 tests per year.

X The defendant shall not possess a firearm, destructive device, or any other dangerous weapon.

X The defendant shall cooperate in the collection of DNA as directed by the probation officer.

If this judgment imposes a fine or restitution it is a condition of supervised release that the defendant pay in accordance with the Schedule of Payments sheet of this judgment.

The defendant must comply with the standard conditions that have been adopted by this court as well as with any additional conditions on the attached page.

STANDARD CONDITIONS OF SUPERVISION

- 1) the defendant shall not leave the judicial district without the permission of the court or probation officer;
- 2) the defendant shall report to the probation officer in a manner and frequency directed by the Court or Probation Officer;
- 3) the defendant shall answer truthfully all inquiries by the probation officer and follow the instructions of the probation officer;
- 4) the defendant shall support his or her dependents and meet other family responsibilities;
- 5) the defendant shall work regularly at a lawful occupation, unless excused by the probation officer for schooling, training, or other acceptable reasons;
- 6) the defendant shall notify the probation officer at least ten days prior to any change in residence or employment;
- 7) the defendant shall refrain from excessive use of alcohol and shall not purchase, possess, use, distribute, or administer any controlled substance or any paraphernalia related to any controlled substances, except as prescribed by a physician;
- 8) the defendant shall not frequent places where controlled substances are illegally sold, used, distributed, or administered;

CASE NO: 8:10-cr-530-T-33AEP

CHRISTOPHER SWITLYK

FINAL JUDGMENT OF FORFEITURE FOR SPECIFIC ASSETS

THIS CAUSE comes before the Court upon the filing of the Motion by the United States for a Final Judgment of Forfeiture, pursuant to 21 U.S.C. § 853(n)(7) and Fed. R. Crim. P. 32.2(c)(2), for the following assets:

- a. \$2,545.00 in U.S. currency, seized from Christopher Switlyk on May 20, 2010;
- b. \$425,730.00 in U.S. currency, seized from VIP Pharmacy on May 20, 2010;
- c. \$25,630.00 in U.S. currency, seized from Tampa Bay Wellness Center on May 20, 2010;
- d. Regions Bank cashier's check No. 5003014747, in the amount of \$42,101.94, seized on May 21, 2010;
- e. 363 assorted money orders in the amount of \$267,650.00, seized from VIP Pharmacy on May 20, 2010; and
- f. Check #5808 from Infinity Abstract and Title, LLC, in the amount of \$400,000.00, seized on June 3, 2010; and
- g. One Lincoln MKX, Vehicle Identification Number 2LMDU68C77BJ08440, Florida Tag Number ACSG82, titled and registered in the name of Christopher Switlyk, seized on September 7, 2010.

Being fully advised of the relevant facts, the Court finds that on November 13, 2012, the Court, entered a Forfeiture Money Judgment in the amount of

\$10,700,592.00 and a Preliminary Order of Forfeiture for Specific Assets, pursuant to 21 U.S.C. § 853, forfeiting to the United States all right, title, and interest of defendant Switlyk in the assets. Doc. 248.

The Court further finds that in accordance with his *Amended Plea Agreement* (Doc. 236 at 13), the order of forfeiture was final as to Switlyk at the time it was entered.

The Court further finds that in accordance with 21 U.S.C. § 853(n) and Rule 32.2(b)(6)(C), the United States published notice of the forfeiture and of its intent to dispose of the assets on the official government website, www.forfeiture.gov, from December 1, 2012 through December 30, 2012. Doc. 274. The publication gave notice to all third parties with a legal interest in the assets to file with the Office of the Clerk, United States District Court, Middle District of Florida, Sam Gibbons Federal Courthouse, 2nd Floor, 801 North Florida Avenue, Tampa, Florida 33602, a petition to adjudicate their interest within 60 days of the first date of publication.

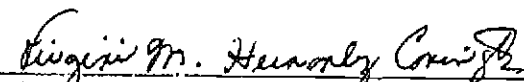

The Court further finds that no person or entity, other than defendant Switlyk and his co-defendants, whose interests were forfeited to the United States in Preliminary Orders of Forfeiture for Specific Assets, are known to have an interest in the assets. No third party has filed a petition or claimed an interest in the assets, and the time for filing a petition has expired. Accordingly, it is hereby:

ORDERED, ADJUDGED, and DECREED that for good cause shown, the United States' motion is GRANTED.

It is FURTHER ORDERED that pursuant to the provisions of 21 U.S.C. § 853(n)(7) and Fed. R. Crim. P. 32.2(c)(2), all right, title and interest in the assets are CONDEMNED and FORFEITED to the United States for disposition according to law.

Clear title to the assets are now vested in the United States of America.

DONE and ORDERED in Tampa, Florida, this 5th day of February, 2013.

VIRGINIA M. HERNANDEZ COVINGTON
UNITED STATES DISTRICT JUDGE

DISCIPLINARY GUIDELINES**

- 64B16-30.001 Disciplinary Guidelines; Range of Penalties; Aggravating and Mitigating Circumstances.
- 64B16-30.002 Minor Violations.
- 64B16-30.003 Citations.
- 64B16-30.0035 Mediation.

64B16-30.001 Disciplinary Guidelines; Range of Penalties; Aggravating and Mitigating Circumstances.

(1) The board sets forth below a range of disciplinary guidelines from which disciplinary penalties will be imposed upon practitioners guilty of violating Chapter 465, F.S. The purpose of the disciplinary guidelines is to give notice to licensees of the range of penalties which will normally be imposed upon violations of particular provisions of Chapter 465, F.S. The minimum penalty range is based upon a first time single count violation of each provision listed. The

maximum penalty range is based upon repeated violations of the same provision of Chapter 465, F.S., or the rules promulgated thereto. All penalties at the upper range of the sanctions set forth in the guidelines, i.e., suspension, revocation, etc., include lesser penalties, i.e., fine, probation or reprimand which may be included in the final penalty at the board's discretion. Probation may be subject to conditions, including restriction from practice in certain settings, restricting the licensee to working only under designated conditions or in certain settings, requiring continuing or remedial education, or any other restriction found to be necessary for the protection of the public health, safety and welfare. In addition to any other discipline imposed under these guidelines, the board shall assess costs relating to the investigation and prosecution of the case.

(2) The following disciplinary guidelines shall be followed by the board in imposing disciplinary penalties upon licensees and permittees for violation of the below mentioned statutes and rules:

(3) The board shall be entitled to deviate from the above-mentioned guidelines upon a showing of aggravating or mitigating circumstances by clear and convincing evidence presented to the board prior to the imposition of a final penalty. The fact that an Administrative Law Judge of the Division of Administrative Hearings may or may not have been aware of the below-mentioned aggravating or mitigating circumstances prior to a recommendation of penalty in a Recommended Order shall not obviate the duty of the board to consider aggravating and mitigating circumstances brought to its attention prior to the issuance of a Final Order.

(a) Aggravating circumstances; circumstances which may justify deviating from the above set forth disciplinary guidelines and cause the enhancement of a penalty beyond the maximum level of discipline in the guidelines shall include but not be limited to the following:

1. History of previous violations of the practice act and the rules promulgated thereto.

2. In the case of negligent acts, the magnitude and scope of the damage or potential damage inflicted upon the patient or the general public by the licensee's misfeasance.

3. Evidence of violation of professional practice acts in other jurisdictions wherein the licensee has been disciplined by the appropriate regulatory authority.

4. Violation of the provision of the practice act wherein a letter of guidance as provided in Section 456.073(3), F.S., has previously been issued to the licensee.

(b) Mitigating circumstances; circumstances which may justify deviating from the above set forth disciplinary guidelines and cause the lessening of a penalty beyond the minimum level of discipline in the guidelines shall include but not be limited to the following:

1. In cases of negligent acts, the minor nature of the damage or potential damage to the patient's or the public's health, safety and welfare resulting from the licensee's misfeasance.

2. Lack of previous disciplinary history in this or any other jurisdiction wherein the licensee practices his profession.

3. Restitution of any monetary damage suffered by the patient.

4. The licensee's professional standing among his peers.

5. Steps taken by the licensee to insure the non-occurrence of similar violations in the future including continuing education.

6. The degree of financial hardship incurred by a licensee as a result of the imposition of fines or the suspension of his practice.

(4) All fines imposed by the Board shall be paid within a period of 30 days from the date of the final order entered by the Board. This time limitation may be modified by the Board for good cause shown in order to prevent undue hardship.

64B16-30.001 Disciplinary Guidelines; Range of Penalties; Aggravating and Mitigating Circumstances.

(1) The board sets forth below a range of disciplinary guidelines from which disciplinary penalties will be imposed upon licensees guilty of violating Chapter 465, F.S. The purpose of the disciplinary guidelines is to give notice to licensees of the range of penalties which will normally be imposed upon violations of particular provisions of Chapter 465, F.S. The term license means any permit, registration, certificate, or license, including a provisional license, issued by the Department. The minimum penalty range is based upon a first time single count violation of each provision listed. The maximum penalty range is based upon multiple or repeated

violations of the same provision of Chapter 465, F.S., or the rules promulgated thereto. All penalties at the upper range of the sanctions set forth in the guidelines, i.e., suspension, revocation, etc., include lesser penalties, i.e., fine, probation or reprimand which may be included in the final penalty at the board's discretion. Probation may be subject to conditions, including restriction from practice in certain settings, restricting the licensee to working only under designated conditions or in certain settings, requiring continuing or remedial education, or any other restriction found to be necessary for the protection of the public health, safety and welfare. In addition to any other discipline imposed under these guidelines, the board shall assess costs relating to the investigation and prosecution of the case.

(2) The following disciplinary guidelines shall be followed by the board in imposing disciplinary penalties upon licensees and permittees for violation of the below mentioned statutes and rules. For the purposes of this rule, the descriptions of the violations are abbreviated and the full statute or rule cited should be consulted to determine the prohibited conduct.

(3) The board shall be entitled to deviate from the above-mentioned guidelines upon a showing of aggravating or mitigating circumstances by clear and convincing evidence presented to the board prior to the imposition of a final penalty. The fact that an Administrative Law Judge of the Division of Administrative Hearings may or may not have been aware of the below-mentioned aggravating or mitigating circumstances prior to a recommendation of penalty in a Recommended Order shall not obviate the duty of the board to consider aggravating and mitigating circumstances brought to its attention prior to the issuance of a Final Order.

(a) Aggravating circumstances; circumstances which may justify deviating from the above set forth disciplinary guidelines and cause the enhancement of a penalty beyond the maximum level of discipline in the guidelines shall include but not be limited to the following:

1. History of previous violations of the practice act and the rules promulgated thereto.
2. In the case of negligent acts, the magnitude and scope of the damage or potential damage inflicted upon the patient or the general public by the licensee's misfeasance.
3. Evidence of violation of professional practice acts in other jurisdictions wherein the licensee has been disciplined by the appropriate regulatory authority.
4. Violation of the provision of the practice act wherein a letter of guidance as provided in Section 456.073(3), F.S., has previously been issued to the licensee.

(b) Mitigating circumstances; circumstances which may justify deviating from the above set forth disciplinary guidelines and cause the lessening of a penalty beyond the minimum level of discipline in the guidelines shall include but not be limited to the following:

1. In cases of negligent acts, the minor nature of the damage or potential damage to the patient's or the public's health, safety and welfare resulting from the licensee's misfeasance.
2. Lack of previous disciplinary history in this or any other jurisdiction wherein the licensee practices his profession.
3. Restitution of any monetary damage suffered by the patient.
4. The licensee's professional standing among his peers.
5. Steps taken by the licensee to insure the non-occurrence of similar violations in the future including continuing education.
6. The degree of financial hardship incurred by a licensee as a result of the imposition of fines or the suspension of his practice.

(4) All fines imposed by the Board shall be paid within a period of 90 days from the date of the final order entered by the Board. This time limitation may be modified by the Board for good cause shown in order to prevent undue hardship.

64B16-30.002 Minor Violations.

(1) The Board sets forth the following guidelines for use by Department investigators when a licensee is in noncompliance of an initial offense of a minor violation. The Board deems the following violations, depending upon severity, to be consistent with Section 456.073(3), F.S.

- (a) Outdated pharmaceuticals – Rule 64B16-28.110, F.A.C.
- (b) Failure to meet regulation of daily operating hours – Rule 64B16-28.404, F.A.C.
- (c) Generic substitution sign not displayed – Section 465.025(7), F.S.
- (d) Information required on controlled substance prescriptions: practitioner's address, practitioner's DEA registration number, patient's address – Section 893.04, F.S.
- (e) Failure to have certified by dispensing pharmacists the daily hard-copy printout or daily log – paragraph 64B16-28.140(3)(c) or (e), F.A.C.
- (f) Failure to have pharmacy minimally equipped i.e. references, compounding equipment, and a current copy of the laws and rules governing the practice of pharmacy in the State of Florida – Rule 64B16-28.107, F.A.C.
- (g) Failure to properly identify pharmacy technicians – Rule 64B16-27.410, F.A.C.
- (h) Results of P&E quality assurance program not documented or available for inspection – paragraph 64B16-28.820(3)(d), F.A.C.
- (i) Improper storage of legend drugs – Rule 64B16-28.120, F.A.C.
- (j) Improper documentation of destruction of controlled substances – Rules 64B16-28.301, 64B16-28.303, F.A.C.
- (k) Consultant pharmacist's monthly reports not current or available for inspection – Rule 64B16-28.501, subsection 64B16-28.702(2), F.A.C.

(1) Controlled substance prescription labels lack transfer crime warning labeling – paragraph 64B16-28.502(2)(c), F.A.C.

(2) The Department's investigator may issue a Notice of Deficiencies when the above conditions occur and the requirements of Section 456.073(3), F.S., are met. In such cases licensees shall correct the violation and respond to the investigator on forms provided by the Department and with other evidence of compliance as may be necessary, within 30 days, to certify current compliance. Failure to do so shall subject the licensee to further proceedings.

64B16-30.003 Citations.

(1) Pursuant to Section 456.077, F.S., the Board sets forth in subsection (3) of this rule those violations for which there is no substantial threat to the public health, safety and welfare; or, if there is a substantial threat to the public health, safety and welfare, such potential for harm has been removed prior to the issuance of the citation. Next to each violation is the fine to be imposed.

(2) Prior to issuance of the citation, the Department must confirm that the violation has been corrected or is in the process of being corrected. If the violation is a substantial threat to the public health, safety and welfare, such potential for harm must be removed prior to issuance of the citation.

8 WHEREUPON,

9 RONALD B. SALEM, R.PH.,

10 acknowledged having been duly sworn to tell the truth,
11 and testified upon his oath as follows:

12 THE WITNESS: I do.

13 DIRECT EXAMINATION

14 BY MR. MAY:

15 Q Good morning, Dr. Salem. As you know, I'm
16 Lucas May -- last name M-a-y -- an attorney with the
17 Department of Health. -- My co-counsel is Ms. Yolanda
18 Green -- and she said her last name is spelled
19 G-r-e-e-n -- and she's here with me today.

20 I'm here to take your deposition in lieu of
21 live testimony in the case of the Department of Health
22 versus Mr. Stephen Switlyk, Department of Health Case
23 Number 2011-20634, DOAH Case Number 14-0883PL. And, as
24 you know, the Department has hired you to render an
25 expert opinion on this matter.

1 Can you please identify the city and state in
2 which you are located?

3 A Jacksonville, Florida.

4 Q Okay. So since I'm taking your deposition, I
5 will ask my questions first. After I have finished my
6 direct examination, then Mr. Switlyk has a chance to
7 ask follow-up questions, which must be limited to the
8 scope of my questions. And then after he asks you
9 questions, then I have another opportunity to ask
10 follow-up questions, should there be any.

11 Before you answer a question, please make sure
12 you understand the question. If you need it to be
13 repeated or clarified, please ask. If you don't know
14 the answer, just say you don't know. It's not
15 necessary to speculate.

16 Please speak slowly so the court reporter can
17 accurately record the transcript; and please wait for
18 myself or Mr. Switlyk to finish the question before you
19 answer.

20 Also, in the deposition, there's no judge to
21 rule on objections, so myself; co-counsel, Yolanda
22 Green; and Mr. Switlyk are all allowed to object to
23 questions. However, you still must answer the
24 questions. The determination of whether an answer is
25 admissible would be litigated at a later point, if

1 necessary.

2 Also, especially since we're all doing this by
3 telephone, can you please refrain from saying "uh-huh"
4 and say yes or no.

5 So, first off, can you please state and spell
6 your name for the court reporter.

7 A Ronald, R-o-n-a-l-d, B. Salem, S-a-l-e-m.

8 Q Thank you.

9 Have you ever been deposed?

10 A Yes.

11 Q Okay. How many times and when were you
12 deposed?

13 A I can't tell you the number of times, but no
14 more than a couple of times more than 10 years ago.

15 Q Okay. What type of cases were you deposed in?
16 Were they medical malpractice cases, were they civil
17 cases?

18 A I don't recall.

19 Q Okay. Are you licensed as a pharmacist in the
20 state of Florida?

21 A Yes, I am.

22 Q Are you licensed in any other states?

23 A Yes.

24 Q What other states are you licensed in?

25 A Alabama.

1 Q Okay. Have any public complaints been made
2 against your license?

3 A No.

4 Q Have any medical malpractice claims been filed
5 against you?

6 A No.

7 Q Have you ever been disqualified from a
8 judicial proceeding?

9 A No.

10 Q Have you ever had a civil judgment entered
11 against you?

12 A No.

13 Q Have you ever been convicted of a felony or a
14 crime of moral turpitude?

15 A No.

16 Q What professional memberships, if relevant,
17 other than a pharmacist license do you maintain?

18 A None.

19 Q Okay. Can you please describe your
20 educational experience after high school?

21 A Yes. I obtained a bachelor of science in
22 pharmacy from the University of Florida in 1978, and I
23 obtained a doctorate of pharmacy from the University of
24 Florida in 1980.

25 Q Okay. Can you state your business address?

1 A 7970 Bayberry, B-a-y-b-e-r-r-y, Road, Suite
2 Number 4, Jacksonville 32256.

3 Q Okay. How many years have you actively
4 practiced pharmacy?

5 A 35.

6 Q Are you presently engaged in the practice of
7 pharmacy?

8 A Yes.

9 Q Can you briefly describe your professional
10 experience, to include positions held within the
11 practice of pharmacy?

12 A Yes. I spent two years in an academic
13 position at the University of Mississippi; I spent
14 approximately a year as the director of clinical
15 services at a mental retardation facility; I spent five
16 years as an assistant director of a hospital pharmacy;
17 I spent nine years as the director of pharmacy at a
18 for a for-profit pharmacy affiliated with a hospital
19 system; and I've spent the last 16 years as director of
20 pharmacy for PharMerica, P-h-a-r-M-e-r-i-c-a.

21 Q Okay. Can you please describe your day-to-day
22 activities at your current position?

23 A I am the director of pharmacy, so I'm in
24 charge of the entire operation for a pharmacy that
25 serves approximately 2,000 patients that reside in

1 nursing homes, assisted living facilities, mental
2 health -- or mental health facilities. And that
3 includes the receiving medication orders, filling them,
4 billing them, and marketing those facilities.

5 Q Okay. Have you received any relevant
6 professional honors or awards?

7 A I spent eight years as a member of the Board
8 of Pharmacy, originally appointed by Governor Bush, and
9 my second appointment was by Governor Crist. I served
10 as vice chair of the board in 2006, and I served as
11 chairman of the Board of Pharmacy in 2007 and 2009.

12 Q Okay.

13 A I also --

14 Q Other than --

15 A I'm sorry. I also served on the Pharmacy and
16 Therapeutics Committee with the state of Florida from
17 2001 through 2003, where I served as chairman.

18 Q Okay. Were there any other medical or
19 pharmacy related professional organizations that you've
20 been a part of?

21 A I have been a member of the Florida Pharmacy
22 Association in the past, but I am presently not a
23 member. I also was a member of the Florida Society of
24 Hospital Pharmacists in the past, but I'm currently not
25 a member.

1 Q Okay. Have you given any public presentations
2 relating to pharmacy?

3 A Yes, several.

4 Q Okay. Can you describe some of the
5 presentations you feel are most relevant?

6 A Well, I spent two years in academics, where I
7 was lecturing pretty continuously. And while I was
8 doing that I was also employed by various
9 pharmaceutical companies to lecture on specific drugs.
10 But I have not been involved in that practice in a
11 number of years.

12 Q Do you do any consulting?

13 A I do, yes.

14 Q What kind of work do you do? What does that
15 entail?

16 A Well, I currently possess a consultant
17 pharmacist's license which I've held since 1978, and I
18 consult to a -- to four mental health facilities, a
19 surgery center, and a jail.

20 Q Have you ever been an expert witness in a
21 legal proceeding?

22 A If I have, I don't recall. But, as I've
23 said, I did some expert testimony work well before my
24 -- my tenure on the Board of Pharmacy.

25 Q Okay. In this case, you're an expert witness

1 for the Department of Health, which is the prosecuting
2 body. Would you be opposed to testifying in the
3 defense of pharmacists in the future?

4 A No, I would not.

5 Q Okay. Do you have any specialties within the
6 practice of pharmacy?

7 A Well, when I was in academics, I had a
8 specialty in the neurology/psychiatry area. But with
9 my eight years on the Board of Pharmacy, I feel I am an
10 expert witness on Board of Pharmacy regulations,
11 discipline in regard to the Board of Pharmacy, and I've
12 spent a lot of -- part of my career working with
13 modified permits under the Board of Pharmacy.

14 Q Okay. Do you have a copy of your curriculum
15 vitae with you?

16 A Yes, I do.

17 Q Was that prepared by you or under your
18 supervision?

19 A Yes, it was.

20 Q Is it current and accurate?

21 A Yes, it is.

22 Q Okay.

23 MR. MAY: At this point I would like to tender
24 Dr. Ronald Salem, the Department of Health's, the
25 petitioner's, witness as an expert in community

1 pharmacy.

2 BY MR. MAY:

3 Q Did you receive a case file relating to this
4 case, Department of Health Case Number 2011-20634, DOAH
5 Case Number 14-0883PL?

6 A Yes, I did.

7 Q For the record, can you please confirm that
8 the file in your possession is that of Mr. Switlyk's?

9 A Yes, I can.

10 Q In fulfilling your responsibility as requested
11 by the Department of Health, did you review the entire
12 investigative file, which includes the criminal
13 indictment, the plea agreement, and the judgment,
14 before forming your opinion in this case?

15 A Yes.

16 MR. MAY: I would like to also take a step
17 back. In addition to tendering Dr. Salem as an
18 expert in community pharmacy, I would also like to
19 have his CV attached to the deposition as Exhibit

20 A.

21 (Whereupon, the document last-above referred
22 to was marked as Petitioner's Exhibit A for
23 identification.)

24 And then I'm asking Mr. Switlyk if he has an
25 objection to entering Mr. Ronald Salem as an expert

1 witness?

2 MR. SWITLYK: Hello? Hello?

3 MR. MAY: We can hear you, I can hear you.

4 MR. SWITLYK: Hey, this phone keeps cutting
5 out. Like I'm only catching every other word that
6 your expert witness is saying. Hello?

7 MR. MAY: Yes, we can hear you. Well, what
8 was the last thing you heard?

9 MR. SWITLYK: You know, like when he -- like
10 when he talks -- I can hear you, your whole -- I
11 can hear your questions, and then when he talks,
12 it just cuts in and out. Like every -- when he
13 says something, it will cut in and out every couple
14 of seconds. I can't hear every other thing he
15 says.

16 MR. MAY: All right. Well, I mean, then
17 there's something that -- do you know if -- Dr. ...
18 Salem, are you aware if there's any issue with your
19 phone?

20 THE WITNESS: No. I'm making every effort to
21 talk directly into the speaker loud enough so that
22 the court reporter can hear me as well. And she is
23 nodding yes, that she is watching what I'm doing
24 and is able to hear everything that I say.

25 MR. MAY: And is --

1 MR. SWITLYK: I heard that, I heard that. But
2 the other stuff you're -- you're saying are -- like
3 there's a blank -- like blank spaces, like empty --
4 empty air coming through on my line. Are you
5 there?

6 MS. GREEN: This is Yolanda Green. May I
7 propose that Mr. May will complete his question,
8 pause, and then, Dr. Salem, if you would provide
9 the answer, because there may be some over -- like
10 some interference in that way, because sometimes
11 that happens with phones.

12 I know that, Dr. Salem, we can hear you
13 clearly, and we want to make sure that Mr. Switlyk
14 can hear and understand, you know, your testimony
15 as well.

16 So that would be my proposal, if we could do
17 that.

18 MR. MAY: Yeah. I mean, I guess we can just
19 -- I guess, Dr. Salem, maybe try, I guess, speaking
20 really close to the phone and maybe we -- adding an
21 extra pause between my questions. Maybe there's
22 some sort of interference between -- in the
23 conference call.

24 But yes, my last question to you, Mr.
25 Switlyk, was I was asking if you had any objections

1 to the Department tendering Dr. Salem as an expert
2 witness in community pharmacy.

3 MR. SWITLYK: I mean, I have to state my
4 objections why?

5 MR. MAY: I mean, yes. I mean, if you object,
6 you have to state why.

7 MR. SWITLYK: I mean --

8 MR. MAY: I'm not saying you have to make an
9 objection, I'm just giving you an opportunity.

10 MR. SWITLYK: Yes, I understand. I mean,
11 it -- I guess the only reason I object is that, you
12 know, I mean, he hasn't -- in his background, he
13 hasn't really worked in any type of pharmacy that
14 would specialize in pain management or like caters
15 to pain management patients.

16 MR. MAY: Okay.

17 MR. SWITLYK: I mean, the vast -- the vast
18 majority of independent pharmacies in Florida, I
19 mean, a lot of them are -- I mean, the ones
20 especially I worked at, and even before I was on my
21 own, you know, a lot of them filled a lot of, you
22 know, pain medications.

23 MR. MAY: Yes. Okay. I'm going to -- just
24 one second.

25 BY MR. MAY:

1 Q So, Dr. Salem, do you have any firsthand
2 experience in the practice of pain management?

3 A I have worked in community pharmacies. My
4 present permit is a community pharmacy permit, and I
5 have worked in community pharmacies in the past.

6 In my practice presently, we dispense
7 approximately 50 to a hundred pain medication
8 prescriptions a day.

9 MR. SWITLYK: He keeps cutting out. Hello?

10 MR. MAY: Yes, we can hear you. Just one
11 second.

12 Yes, Mr. Switlyk, what kind of phone are you
13 calling in on? Are you calling in on a landline?

14 MR. SWITLYK: Yes, it's a landline phone.
15 It's in a jail. But like I can hear -- like when
16 you talk, I can hear your question, and then when
17 he starts talking, I can hear him for about two or
18 three seconds, and then it goes blank -- blank for
19 about two seconds, and then I can hear him come
20 back in for about two more seconds.

21 And it's been going on since you've been
22 talking. But, I mean, the other stuff isn't really
23 that important. I can catch most of it. But, I
24 mean, you know, if -- when you guys start talking,
25 I can't catch all of your conversation.

1 MR. MAY: Yes. I know, that doesn't make
2 sense.

3 THE WITNESS: Mr. May?

4 MR. MAY: I'm just trying to figure out --

5 THE WITNESS: Mr. May?

6 MR. MAY: -- figure out a solution to this
7 problem. Because on our end, we can hear everyone
8 fine.

9 THE WITNESS: Mr. May?

10 MR. MAY: Yes.

11 THE WITNESS: This is Dr. Salem. I have
12 picked up the receiver and have it on speaker.

13 MR. MAY: Okay.

14 THE WITNESS: So I'm wondering if this is a
15 better situation for Mr. Switlyk.

16 MR. MAY: Mr. Switlyk, can you hear him better
17 now?

18 MR. SWITLYK: I mean, right now -- right now
19 I heard what he just said. So, I mean -- okay, so
20 what he -- he said he fills pain medications?

21 MR. MAY: Yes. Dr. Salem, can you just repeat
22 that whole answer over again, and then we'll see if
23 Mr. Switlyk hears this one?

24 MR. SWITLYK: Let me see if I can catch it.

25 THE WITNESS: Okay. In my present practice,

1 we fill --

2 MR. SWITLYK: It keeps cutting out. It just
3 cut out again.

4 MS. GREEN: Mr. Switlyk, this is Yolanda
5 Green. I think there may be a problem with your
6 phone. Because I know when you tried to get on the
7 line earlier, it was going in and out, and then you
8 were on the phone.

9 Is there another phone that you can use?

10 MR. MAY: Yes, I would be open to taking a
11 short break, if everyone else is okay with it, and
12 see if we can get Mr. Switlyk a different phone.

13 Is that possible for you?

14 MR. SWITLYK: I don't -- I don't know. Let me
15 see. I mean, I could ask my counselor or -- or the
16 unit manager and see if there's another phone.
17 But, I mean, they're -- they're kind of bending the
18 rules already by letting me use this phone here.
19 So let me see what -- let me go ask her, okay?

20 MR. MAY: Okay. Why don't we -- why don't we
21 take a five-minute break and let Mr. Switlyk see if
22 he can --

23 MR. SWITLYK: Or she's there in the next room.
24 Let me -- just hold on. Let me -- let me see what
25 she says. Hold on.

1 MR. MAY: Okay.

2 (Off the record.)

3 MR. SWITLYK: Hello? Hello?

4 MR. MAY: Yes.

5 MR. SWITLYK: Ms. Carlson said that she's
6 going to let me try to use her office phone. So do
7 you want me to wait a couple minutes or just call
8 back now?

9 MR. MAY: Yes. No, we can wait.

10 MR. SWITLYK: I mean, it's up to you. I
11 mean --

12 MR. MAY: Yeah, I guess we can -- why don't we
13 take a few minutes, we can all take a bathroom
14 break, and then reconvene by calling back in to the
15 number.

16 MR. SWITLYK: Okay. All right. I'll have her
17 call back in a couple of minutes on the -- on her
18 phone.

19 THE WITNESS: Mr. May, do you want me to hang
20 up or just put the phone down?

21 MR. MAY: Yes, you and I can stay on the line,
22 and then he can hang up and call back in from a
23 different phone.

24 THE WITNESS: Okay.

25 MR. SWITLYK: All right. Sounds good.

1 THE WITNESS: I'm going to step away just for
2 a couple of minutes, okay?

3 MR. SWITLYK: Okay. Sounds good.

4 (Off the record.)

5 MR. MAY: Let me see if Mr. Switlyk can hear
6 you better. I will have you repeat the whole
7 answer you gave.

8 BY MR. MAY:

9 Q And I believe my question was whether you've
10 had any experience in pain management through your
11 career?

12 A Mr. May, I have worked in community pharmacies
13 and have supervised community pharmacies. In my
14 present practice, we fill approximately a hundred
15 prescriptions a day for various pain medications, so I
16 am very familiar with the prescription requirements for
17 pain medications.

18 Q Okay. What are some of those prescription
19 requirements?

20 A Name --

21 Q Like what --

22 A I'm sorry.

23 Q You can continue.

24 A The name, the address, the drug name,
25 strength, quantity, DEA -- signature of the physician,

1 DEA number, date, et cetera.

2 Q Can you explain the DEA number and all that?
3 Is that a privilege that's granted to pharmacists?

4 A No, that's a privilege granted to physicians.
5 A DEA number is required for a physician to prescribe
6 controlled substances.

7 Q Okay. But, correspondingly, there's also some
8 sort of privileges granted to pharmacists to be able to
9 interpret those scripts and then order the drugs?

10 A That is correct. You have to have a DEA --
11 you have to have a pharmacy license, obviously, and
12 then you must obtain a DEA permit in order to order
13 those medications. And the other --

14 Q Those are --

15 A I'm sorry. And the other part of this is
16 determining the appropriateness of the prescription to
17 make sure it is for a viable reason, in addition to the
18 paperwork requirements that I mentioned earlier.

19 Q Okay. So as a pharmacist, it's expected of
20 you to be able to analyze and interpret a prescription
21 to determine whether it's legitimate?

22 A That is correct.

23 Q What are some of the factors that go into
24 determining whether a prescription is illegitimate?

25 A Some of the factors that may be involved in

1 that include the appearance of the patient, the --
2 whether they're paying cash or check or credit, whether
3 they're local or not in the area or potentially out of
4 state, the physician that wrote it and whether in your
5 practice you're getting a large volume of controlled
6 substances from that particular physician, and is that
7 physician in the practice of pain management are just a
8 few of the more common issues involved in filling a
9 controlled substance prescription.

10 MR. SWITLYK: Hey, Mr. May? Hello?

11 MR. MAY: I'm here. I can hear you.

12 MR. SWITLYK: Yes. Hey, can I object to
13 things he answers to or can I interject and, you
14 know -- you know --

15 MR. MAY: Yes.

16 MR. SWITLYK: -- to things he says? Or how
17 does that work?

18 MR. MAY: So the way it works is, if you
19 believe that an answer is -- a question or an
20 answer is something objectionable, you can make an
21 objection at that point and argue why.

22 And -- but Dr. Salem -- since this isn't an
23 actual court proceeding, this is a deposition, Dr.
24 Salem still has to answer the question. And then
25 whether or not it's admitted into evidence, the

1 judge decides that later.

2 But if you have an objection, you need to make
3 the objection so it's preserved for the record so
4 the judge can see whether or not it's admissible as
5 evidence.

6 MR. SWITLYK: Okay. So -- so -- but what
7 about when he doesn't answer and, you know --

8 MR. MAY: Like if you just objected to what he
9 said, you can say you object to his answer, what he
10 answered.

11 MR. SWITLYK: Okay. I object to his answer.

12 MR. MAY: And do you -- can you provide a
13 reason for your objection? When you object, you
14 have to say why you're objecting so that way the
15 judge can know, you know -- so then the judge can
16 decide whether or not --

17 MR. SWITLYK: I mean -- I mean, as far as what
18 he's saying about the controlled substances, when
19 patients fill, you know, controlled substances, I
20 mean, he's -- the way he's saying his answer is
21 like anybody who paid cash or comes from a
22 different area or another pharmacy, he's pretty
23 much saying that they're not legitimate, or if
24 they're -- if they're high quantities.

25 I mean -- and, you know, the state of Florida

1 licenses thousands of pharmacies that the majority
2 of their operations are based on that.

3 MR. MAY: Okay. I understand your objection.
4 But also, when you make an objection, you can't --
5 you're introducing your own testimony, which is
6 fine at your hearing.

7 But right now, when you make an objection, you
8 have to just say "objection," and then say, you
9 know -- I mean, I can't tell you how to object.
10 But, you know, say like he has no personal
11 knowledge, he doesn't have enough knowledge on
12 this, or something. And then what you have
13 provided, later, you can say that at your hearing.
14 I don't know if that makes sense.

15 MR. SWITLYK: Okay. Well, I guess, objection,
16 he doesn't have enough personal knowledge in this
17 area. I mean, he hasn't worked at independent
18 pharmacies, you know, like the ones that -- or that
19 -- you know, plenty of them are, you know, licensed
20 and operating still to this day in Florida.

21 MR. MAY: Okay.

22 MR. SWITLYK: Hello?

23 MR. MAY: Yes, we're still here. I'm still
24 trying to form the next question.

25 BY MR. MAY:

1 Q Okay. So I am going to go back to my previous
2 line of questions then. Were the materials, Dr. Salem,
3 that you received from the Department of Health, were
4 they sufficient for you to perform an analysis and
5 render an opinion on this matter?

6 A Yes.

7 Q Did you review the Administrative Complaint
8 against Mr. Switlyk?

9 A Yes.

10 Q Generally, do you understand what the
11 Administrative Complaint alleges?

12 A Yes. I have seen hundreds of these -- of
13 these during my -- excuse me, let me get some -- I'm
14 out of water. I've seen -- excuse me again -- hundreds
15 of these during my tenure on the Board of Pharmacy.

16 Q Okay. Can you -- can you specifically provide
17 ---state what you reviewed in the case file?

18 A I reviewed --

19 Q What were some of the documents that were
20 provided to you?

21 A Most of the documents related to the criminal
22 complaint. It was a summary of exhibits.

23 MR. SWITLYK: Hey, he cut out. I'm sorry,
24 what did he say?

25 BY MR. MAY:

1 Q Can you repeat that, Dr. Salem?

2 A I said I --

3 MR. MAY: I don't know if he cut out or he
4 might have been taking a pause.

5 MR. SWITLYK: Okay.

6 MR. MAY: I think he --

7 THE WITNESS: Yes, I'm trying to talk fairly
8 slow for the benefit of the court reporter and to
9 make sure that there's no pause here.

10 Much of the material that I reviewed is the
11 type of material I would -- I would have reviewed
12 if I were still on the Board of Pharmacy.

13 It's the Department of Health's complaint
14 file. It's the voluntary relinquishment; proposal
15 for the Department of Health I reviewed, which
16 summarized much of the criminal complaint; and
17 other evidence.

18 BY MR. MAY:

19 Q Okay. So included in the criminal documents
20 there was -- you reviewed the indictment?

21 A Yes, I did.

22 Q You reviewed the plea agreement?

23 A Yes.

24 Q You reviewed the judgment?

25 A Yes.

1 Q Okay. Can you briefly describe the crimes and
2 the subsequent pleas that Mr. Switlyk entered?

3 A Well, Mr. Switlyk was involved in a criminal
4 enterprise where he was involved in several pain
5 clinics as well as pharmacies in the filling of
6 thousands of prescriptions for OxyContin that were
7 inappropriate prescriptions.

8 MR. SWITLYK: Hold on. I object. I don't
9 think in that plea agreement it said anything about
10 being involved in pain clinics, I think it just
11 said the pharmacy.

12 MR. MAY: Okay. And --

13 MR. SWITLYK: And that was hanging out between
14 the indictments and the plea. Because I didn't
15 have any involvement in those pain clinics. That,
16 you know, was part of the conspiracy.

17 BY MR. MAY:

18 Q And so specifically in the indictment --

19 MR. SWITLYK: I know that's what that
20 indictment said. But, I mean, I know that's -- I
21 know that's what -- that's not what my plea said.

22 BY MR. MAY:

23 Q Okay. In Mr. Switlyk's plea agreement, did he
24 plead guilty to the distribution -- or possession with
25 intent to distribute quantities of controlled

1 substances?

2 A Is that question to me?

3 Q Yes, that's to you.

4 A Yes.

5 Q Okay. And in your opinion as a community
6 pharmacist, is respect for the public trust essential
7 to the practice of pharmacy?

8 A Yes.

9 Q Is integrity essential to the ability to
10 practice pharmacy?

11 A Yes.

12 Q Okay. Have you personally rendered an opinion
13 regarding respondent?

14 A Yes, I have.

15 Q Do you have an opinion as to whether the
16 crimes to which respondent pleaded guilty to are
17 related to the practice of pharmacy?

18 A Yes, I believe they are.

19 Q Okay. What is your opinion?

20 A My opinion is that Mr. Switlyk violated the
21 public trust, and also placed many patients in harm's
22 way, and I don't believe he should be --

23 Q How is -- how is the distribution of
24 oxycodone, how does that place a patient's health in
25 harm's way?

1 A Well, you have a lot of patients who obtained
2 pain medication that were not legitimate pain patients.

3 Q Okay.

4 MR. SWITLYK: I object. How would he know
5 that they're not legitimate?

6 MR. MAY: Your objection is noted.

7 BY MR. MAY:

8 Q So going back to your review of the plea of
9 guilty. Is that related to -- is that related to the
10 practice of pharmacy?

11 A Yes.

12 Q Okay. And how did you reach your opinion?

13 A I reached my opinion based on the evidence
14 presented and my experience as a community pharmacist
15 as well as my experience on the Board of Pharmacy where
16 I saw similar cases.

17 Q Okay.

18 MR. SWITLYK: Hello?

19 MR. MAY: Yes, we're still here.

20 MR. SWITLYK: Oh.

21 BY MR. MAY:

22 Q Okay. So I interrupted you at one point when
23 you were explaining why you believed the guilty pleas
24 were related to the practice. Can you continue?

25 A Well, one of the primary objectives in holding

1 a pharmacy license is upholding the public trust, and I
2 believe that the public's trust was violated in this
3 case.

4 Q And you're basing that off of your experience
5 and reviewing the case file, which includes the guilty
6 pleas?

7 A That is correct.

8 Q Okay. And so you believe that the crimes that
9 the respondent pleaded guilty to breached the public
10 trust?

11 A Absolutely, yes.

12 Q Do you believe -- based on the criminal pleas,
13 what is your opinion of Mr. Switlyk's judgment as it
14 relates to the practice of pharmacy?

15 A I believe he used extremely poor judgment in
16 his practice.

17 Q Okay. Do you believe that the pleas he
18 entered bear any -- do they have any effect on his
19 integrity as a pharmacist?

20 A I think they clearly demonstrate -- put into
21 question his integrity in the practice of pharmacy.

22 Q Okay. Why is it important for patients to
23 have trust in their pharmacists? Why is it important
24 for a pharmacist to have integrity?

25 A Well, you're in the position of dealing with

1 very addictive drugs in your practice in terms of
2 controlling those and making sure they are dispensed to
3 appropriate patients for appropriate reasons, and it's
4 clear to me from this file that that trust was
5 violated.

6 Q Okay. As a pharmacist, is it possible for a
7 pharmacist to give out a controlled substance on an
8 illegitimate script on accident?

9 A On accident? Sure.

10 Q Is that feasible?

11 A Yes.

12 Q Okay. But based on the level of trafficking
13 that occurred in this particular case, is it, in your
14 opinion, an accident?

15 A I believe there was a clear intent in this
16 case well beyond any accident. With the volume and
17 number of prescriptions dispensed, there's no question
18 in my mind that there was a clear intent here to
19 dispense controlled substances in an inappropriate
20 manner.

21 Q And you can tell that by the money that was
22 derived from it?

23 A Well, you can derive that from the money, yes.
24 The money is one aspect of it.

25 Q Okay. Do you believe that Mr. Switlyk's

1 actions were dishonest?

2 A Yes.

3 MR. MAY: Okay. I don't have any other
4 questions.

5 Yolanda, do you have any questions you want to
6 ask?

7 Okay, my co-counsel has a couple of questions
8 she wants to ask.

9 MS. GREEN: Just a few moments.

10 (Off the record.)

11 MR. MAY: We're just going to ask three or
12 four more questions now.

13 BY MR. MAY:

14 Q All right. So, Dr. Salem, do you believe that
15 the plea entered on September 5th, 2012, in Case Number
16 8:10-cr-530-P33AEP, in the United States District Court
17 for the Middle District of Florida, wherein respondent
18 pled guilty to one count of attempting or conspiring to
19 commit any offense defined in this subchapter, a felony
20 in violation of 21 U.S.C. 846, do you believe that that
21 plea of guilty is related to the crime of -- that that
22 plea of guilty is related to the practice of pharmacy?

23 A Yes.

24 Q Also, on September 5th, 2012, do you believe
25 that the plea of guilty to two counts of knowingly

1 engaging in monetary transactions and affecting
2 interstate and foreign commerce and criminally derived
3 property of a value greater than \$10,000, that property
4 having been from a specified unlawful activity, namely,
5 conspiracy to traffic in controlled substances,
6 felonies in violation of 18 United States Code 1957, do
7 you believe that those guilty pleas are related to the
8 practice of pharmacy?

9 A Yes, I do.

10 MR. SWITLYK: I object. I don't -- I don't
11 see how that crime is related to pharmacy.

12 MR. MAY: Okay. Your objection is noted.

13 MR. SWITLYK: Okay.

14 BY MR. MAY:

15 Q And then, in summary, based on your experience
16 as a community pharmacist and your educational
17 background and your service on the Board of Pharmacy,
18 amongst other professional organizations, do you
19 believe that based from the case file and -- do you
20 believe from the case file that these crimes violated
21 the public trust and were -- and affected respondent's
22 integrity?

23 A Yes.

24 Q Okay.

25 MS. GREEN: And, Dr. Salem, just finally, I

1 just want to make sure the record is clear. So
2 basically, to sum up, it is your opinion that the
3 respondent's crimes are related to the practice of
4 pharmacy because they violate the public trust, and
5 it involved patient harm, and it involved his
6 ability to exercise sound judgment; is that
7 correct?

8 THE WITNESS: That is correct.

9 MS. GREEN: Thank you very much.

10 Mr. Switlyk, if you have any questions for the
11 witness, you can ask those right now.

12 MR. SWITLYK: Okay.

13 **CROSS-EXAMINATION**

14 BY MR. SWITLYK:

15 Q I'm sorry, how do you say your last name?
16 Salem?

17 A Salem (different pronunciation).

18 Q Salem. Okay. Okay, Mr. Salem.

19 So you reviewed, I guess, this case of
20 Department of Health. Were you -- I guess -- I'm sure
21 you were compensated, correct?

22 A I have not been compensated as of yet, but
23 there is a fee associated with this.

24 Q Okay. How much do you estimate the fee will
25 be at the end of this process?

1 A Less than \$1,000.

2 Q Okay. And you said you were -- you were on
3 the Board of Pharmacy for eight years?

4 A Yes, I was.

5 Q So you saw similar cases to this one?

6 A Yes, I did.

7 Q Great. Any cases that were -- that you can
8 think of off the top of your head that, you know -- and
9 you can remember what the punishments were as a result
10 of the cases as -- as far as their license went?

11 A Cases like this, through my experience,
12 resulted in revocation of their license.

13 Q Okay. But have any -- have any been allowed
14 to keep their license or been suspended for a certain
15 number of years?

16 A My recollection of any case approaching these
17 types of violations resulted in revocation of their
18 license, which is a permanent decision.

19 Q What -- what years were you on the Board of
20 Pharmacy?

21 A I was on the Board of Pharmacy from 2003 until
22 2011.

23 Q Were you a member of the Board of Pharmacy
24 when Andy Mobley had a complaint against him?

25 A I don't recall that name.

1 Q What about Brian Wheeler?

2 A I do not recall that name either.

3 Q Okay. I mean, these are just two pharmacists
4 that had similar cases where they were involved in
5 controlled substance infractions and they both were
6 allowed to keep their licenses. But I know it happened
7 within the last 10 to 15 years.

8 MR. MAY: And you're interjecting testimony in
9 there.

10 MR. SWITLYK: Okay. All right.

11 BY MR. SWITLYK:

12 Q You said you were never convicted of a felony.
13 Were you ever arrested before?

14 A No.

15 Q Okay.

16 MR. MAY: I'm going to object to that
17 question.

18 MR. SWITLYK: Okay. I mean, I know you asked
19 him all these other things, so --

20 MR. MAY: Yes. No, I'm objecting on
21 relevance.

22 MR. SWITLYK: Okay.

23 BY MR. SWITLYK:

24 Q You said you testified -- or testified for a
25 couple of cases in the past?

1 A Yes.

2 Q Okay. But you don't remember if -- you don't
3 remember what they were about?

4 A No, I do not. As I indicated, I did no expert
5 testimony work during my eight years on the Board of
6 Pharmacy. And for two years after you leave the board,
7 you're not allowed to appear before the Board of
8 Pharmacy and testify. So I waited -- so it's been at
9 least 10 years before I have -- since I've done
10 anything.

11 Q But none of the cases that you testified to, I
12 guess, more than 10 years ago, none of them had to do
13 with, I guess, controlled substance infractions?

14 A I do not recall.

15 Q You don't recall. Okay.

16 Can you explain how you feel that patients
17 were placed in harm's way by, I guess, you know,
18 controlled substances that were dispensed, you know,
19 to -- I guess during the conspiracy, the alleged
20 conspiracy?

21 MR. MAY: I'm going to object. He doesn't
22 have personal knowledge on this particular
23 conspiracy. But all other -- but maybe if you
24 could phrase the question as to --

25 MR. SWITLYK: Okay.

1 MR. MAY: -- patient harm in general from
2 conspiracy to traffic.

3 MR. SWITLYK: All right. I mean, he said that
4 -- he said that -- earlier, when you asked him a
5 question, he said something about how the public
6 trust was violated and many patients were placed in
7 harm's way.

8 MR. MAY: Yes. But my intent of that question
9 was a general question of whether patients are
10 harmed in a conspiracy to traffic. And then I know
11 he doesn't have any personal knowledge of the
12 patients in this particular case.

13 MR. SWITLYK: Okay.

14 MR. MAY: But Dr. Salem still needs to answer
15 the question.

16 MR. SWITLYK: Okay.

17 THE WITNESS: Could -- could you --

18 BY MR. SWITLYK:

19 Q I can repeat the question. Do you want me to
20 repeat it?

21 A Please.

22 Q Yes. Okay. So when you -- when you said
23 earlier about patients being placed in harm's way, how
24 are patients -- I guess, you know, he said -- I was
25 saying in my alleged conspiracy. But, I guess, in a

1 conspiracy similar to this, in general, how are
2 patients exactly placed in harm's way?

3 A If patients are getting controlled substances
4 for use -- for use where the use is not a -- an
5 appropriate diagnosis, there is great potential for
6 harm to occur to that patient, or, potentially, if they
7 are using those medications to provide to other
8 patients, then the potential harm is enormous.

9 Q But as far as my alleged conspiracy, the
10 patients that received controlled substances, you're
11 not aware of anybody being harmed by any of that,
12 correct?

13 A I have not interviewed --

14 MR. MAY: I'm going to object. In this
15 personal instance, he doesn't have -- he doesn't
16 have personal knowledge of your particular alleged
17 conspiracy.

18 MR. SWITLYK: Okay. But, I mean, there hasn't
19 been any documented evidence in my entire case of
20 anybody being placed in any harm.

21 MR. MAY: I mean, you're interjecting
22 testimony.

23 But, Dr. Salem, you need to answer his
24 question. You can answer his question.

25 BY MR. SWITLYK:

1 Q My question was, did you have any knowledge of
2 any particular patients being placed in harm's way as a
3 result of my alleged conspiracy?

4 A I am not aware of any personal harm to any of
5 the patients that were involved in your case. I've not
6 interviewed them at all.

7 Q All right. And also, as far as the amount of
8 prescription -- the amount of pills or what
9 prescriptions a patient receives and presents to the
10 pharmacist, doesn't that responsibility lie in the
11 doctor that's prescribing the medication, you know,
12 first and foremost?

13 A I could not disagree with that statement more.
14 A pharmacist has the responsibility of validating that
15 that is an appropriate prescription, which goes well
16 beyond the piece of paper that you're -- that you're
17 handed. You must determine is it being used for an
18 appropriate reason, is the physician -- is there a
19 patient-physician relationship, some of the things that
20 I mentioned earlier.

21 Just because a pharmacist is presented with a
22 piece of paper or a prescription that has all the
23 relevant information on it, it does not mean that it is
24 a legitimate prescription. And I cannot emphasize that
25 enough.

1 Q But if a patient went and saw a doctor and,
2 say, the doctor specializes in pain management and the
3 patient has a relationship with that doctor and then he
4 takes that prescription to a pharmacy, you know, why --
5 why wouldn't that -- why would the pharmacy object to
6 filling it?

7 A It would depend upon the circumstances of: Is
8 that -- is that physician involved in a legitimate
9 practice? What are the types of quantities that you're
10 receiving? What are the types of medications you're
11 receiving?

12 Q All right. Well, say, during the time period
13 of my alleged conspiracy, I mean, I'm sure you -- are
14 you aware of all the pain clinics that were open during
15 the time frame, right, in the state of Florida?

16 A I was on the Board of Pharmacy during the
17 heart of the pain clinics and patients coming from out
18 of state to get their narcotic prescriptions filled in
19 Florida. If you recall, I was on the board from 2003
20 through 2011.

21 Q Yes. And --

22 A I saw --

23 Q Oh.

24 A If I could finish my statement.

25 Q All right.

1 A I saw many cases related to this particular
2 problem very similar to this case.

3 Q Okay. And what kind of quantities, though --
4 well, since my conspiracy is dealing with oxycodone,
5 what kind of quantities of prescriptions, in general,
6 were being dispensed then by, you know -- or prescribed
7 and dispensed back then for each patient?

8 A I'm not sure what your question is.

9 Q Like what quantities of oxy- -- what quantity
10 tablets for each -- like on average on each
11 prescription? I mean, I'm not sure if you have
12 experience with that or not. But, you know, during
13 that time frame, say 2008, 2009, 2010, for, you know,
14 the majority of the oxycodone prescriptions, what kind
15 of quantities were they being written for back then?

16 A Are you talking about --

17 MR. MAY: I object to the lack of personal
18 knowledge. And also, the question is confusing.
19 I'm still not clear whether you're asking in
20 general or as to your particular case.

21 MR. SWITLYK: Well, I mean -- well, in
22 general, really. I mean, in general, in the state
23 of Florida, I mean, there is -- I mean, that's what
24 was kind of accepted. That's what I'm trying to
25 get at. Like it's kind of accepted where all these

1 pain clinics were writing prescriptions for, you
2 know, these quantities on a regular basis like --
3 you know, and the doctor is the one that was
4 determining, you know, what was -- what they felt
5 was right.

6 MR. MAY: Okay. Well, you're interjecting
7 testimony again. You know, my objection is noted,
8 and Dr. Salem can answer your question.

9 THE WITNESS: Can he repeat the question?

10 BY MR. SWITLYK:

11 Q About the quantities. Like, in general, do
12 you have any knowledge of the kind of quantities of
13 oxycodone that were being written by the doctors back
14 then and filled by the pharmacies back then on a
15 regular basis?

16 A Well, I'm sure the quantities varied from very
17 small quantities to very large quantities.

18 Q Well, I understand. But, I mean, do you have
19 any knowledge of the average -- of the average
20 quantities back then?

21 A I have not done any statistical work to know
22 the exact average quantity of a narcotic prescription
23 dispensed over a period of time.

24 Q Okay. One of the things you said was that,
25 based on the quantity of the oxycodone written on a

1 prescription, that you think that a pharmacist would be
2 able to determine if it's legitimate or not based on
3 the quantity. That's one of the main things you said,
4 correct?

5 A No, that's not what I said. I said that's one
6 factor that should be taken into consideration in
7 determining if that prescription is legitimate is the
8 quantity that it's written for. That's one factor.

9 Q So can you please clarify that? What type
10 of -- like can you please give me some numbers?

11 A I would say if it's over a hundred, or 50 to a
12 hundred, that would at least raise my concern of what
13 the patient was using it for.

14 Q 50 to a hundred pills per month?

15 A No. You asked the question, I believe, was if
16 you received a prescription.

17 Q Okay. Hello?

18 A Yes. And I gave you --

19 Q Yes.

20 A -- an answer.

21 Q Okay. When you fill prescriptions at your
22 pharmacy now, what -- do you fill prescriptions for
23 oxycodone?

24 A Yes, we do.

25 Q Okay. And on average, what are the quantities

1 per month for those prescriptions?

2 A Well, my practice, particularly in the nursing
3 home business, is a little bit different than a
4 traditional community practice in that we can partially
5 fill C2s in my practice, which is not allowed in the
6 typical community practice.

7 Q Okay. And so -- so what does that usually
8 come to, you know, per month or average out per day or
9 per week?

10 A If you could be more specific, Mr. Switlyk, I
11 would be happy to answer your question.

12 Q Yes. My question was, you know, how many
13 pills per month do these patients that you fill
14 oxycodone for usually get? What is the quantity?

15 A It varies from one or two a day to maybe four,
16 five, six a day depending on --

17 Q Okay.

18 A -- depending on the pain level of the patient.

19 Q So if -- so if a patient is in pain, you know,
20 you don't object to -- getting six pills a day of
21 oxycodone is unreasonable?

22 A If the patient has a legitimate medical
23 condition that warrants that type of use and is under
24 medical supervision, et cetera, I do not have an
25 objection of that.

1 Q Yeah. And, I mean, six a day comes to about
2 240 -- to 240 a month. And I'm not sure if -- I'm not
3 sure what information you were provided in my case, but
4 I don't know if you're aware -- but are you aware that
5 the quantities of the prescriptions that were filled
6 in --

7 MR. MAY: Objection, you're testifying again
8 in your questioning.

9 MR. SWITLYK: Okay.

10 BY MR. SWITLYK:

11 Q Are you aware that the average quantities of
12 the prescriptions filled at my pharmacy during this
13 time frame was about 240 a month? Or -- or do you have
14 any information on that, or were you given any
15 information about that?

16 A I was not.

17 Q Okay. All right. Let me see here. Were you
18 given any information about -- I mean, about any --
19 hold on a second. I'm trying to see how I want to
20 phrase that.

21 Were you given information about any alcohol
22 abuse I was -- while during this conspiracy by me?

23 A I was not.

24 MR. MAY: I'm going to object on relevancy.

25 MR. SWITLYK: Well, I'm not -- because,

1 remember, you talked about the mitigating factors
2 earlier?

3 MR. MAY: I said that, in your hearing, you'll
4 have an opportunity to present mitigating factors.
5 But the scope of your cross questions are limited
6 to what I asked Dr. Salem.

7 MR. SWITLYK: All right.

8 BY MR. SWITLYK:

9 Q You said that you thought money laundering
10 charges were related to the practice of pharmacy?

11 A I do.

12 Q Okay. Can you explain how you think a money
13 laundering charge would be related to pharmacy?

14 A Well, if the money laundering charge was
15 related to a pharmacy permit that someone owned and was
16 practicing pharmacy, I do believe that's relevant.

17 Q Does it say that in the documents that you
18 received?

19 A That was not your question.

20 Q But I understand that. But pertaining to my
21 case, pertaining to my case, does it say that?

22 A What is your question? Does it talk about in
23 the evidence that I was presented money laundering?
24 Yes, it does. The material I reviewed goes into quite
25 a bit of information about money laundering.

1 Q But the -- as far as the money, though, that
2 was earned by the pharmacy when it was opened, by my
3 pharmacy, there is no documentation proving that it was
4 all illegally earned that you were provided with, was
5 there?

6 A I do not have --

7 MR. MAY: I'm going to object to that
8 question.

9 MR. SWITLYK: Okay. I mean, does he have to
10 answer that, or no?

11 MR. MAY: I believe this is outside of the
12 scope of the direct examination. On direct
13 examination I asked him, you know, what were the
14 pleas entered, and then that was pretty much the
15 end of my question.

16 MR. SWITLYK: All right. Well, let me see if
17 I have any other questions or any notes I have.
18 Hold on.

19 MR. MAY: You're going into -- your questions
20 were going into the -- I'm objecting to the fact
21 that the questions were going to the underlying
22 facts of your case, your criminal case, and we're
23 not trying the criminal case. We don't --

24 MR. SWITLYK: No. Yes, I understand that. I
25 mean, it's just -- you know, it's kind of

1 unfortunate that like a lot of the information,
2 though, is really -- was left out and that he
3 doesn't have that. You know, he may have some
4 different opinions if he had some other information
5 provided to him, that's all.

6 MR. MAY: Okay. Well, I understand what
7 you're saying. But in terms of this experience and
8 things in the business is not relevant. But I'm
9 also -- you're also free to, you know, provide that
10 information at your hearing as you see fit.

11 MR. SWITLYK: All right. Well, I mean, let me
12 see if I can ask him this then.

13 BY MR. SWITLYK:

14 Q Were you provided any information about
15 co-defendants in my case and other people in my case
16 that -- who were threatening me and extorting me to
17 distribute and/or allow the continuing distribution of
18 illegal prescriptions?

19 A I was not.

20 Q Okay. And if that was brought to your
21 attention, would that change your opinions on any of
22 your earlier opinions you stated?

23 A That's very difficult to say. I can only base
24 my opinion based on the evidence that I was provided.

25 Q All right. What if -- what if, for instance,

1 a pharmacist was physically threatened or his family
2 was threatened if he did not comply with the demands of
3 his co-defendants, and -- and if he -- if he did not
4 comply, they threatened to turn him in as well and take
5 him down as well if he did not comply with their
6 demands, would that change your opinion at all?

7 A Again, I can only base my opinion based on the
8 material that was presented to me.

9 MS. GREEN: Dr. Salem, before you answer, I
10 would like to interject an objection on the basis
11 that this is an inappropriate hypothetical. I
12 mean, it does not encompass the facts that are at
13 issue in this case as to whether the crimes to
14 which Mr. Switlyk pled guilty are related to the
15 practice of pharmacy.

16 MR. SWITLYK: Well, I object. I think that is
17 relevant to the practice of pharmacy because it --
18 I mean, it -- I mean, it --

19 MS. GREEN: Well, my objection is that your
20 hypothetical was inappropriate because it did
21 not -- it did not encompass the actual facts in
22 this case.

23 MR. SWITLYK: Well, it does. I have -- I
24 actually have evidence of that.

25 MS. GREEN: The factual allegations in the

1 Administrative Complaint which are whether you
2 engaged and whether you pled guilty to a crime
3 related to the practice of pharmacy. The
4 underlying reasons for which you pled guilty are
5 not at issue here. The only thing -- the only
6 issue that we are able to address at this time, in
7 this proceeding, are related to the allegations of
8 the Administrative Complaint.

9 And, of course, as you indicated, you may want
10 to place that information on the record on the
11 26th, when we have the actual hearing. But right
12 now, I'm objecting to your inappropriate
13 hypothetical.

14 MR. SWITLYK: Well, I mean, the only reason I
15 asked that is because, if he's an expert witness
16 and his opinion might change based on the
17 circumstances --

18 MS. GREEN: Right. But my objection is on the
19 record. And you can go on.

20 THE WITNESS: As I have previously stated, I
21 can only base my recommendation on the evidence
22 that I have reviewed.

23 BY MR. SWITLYK:

24 Q Have you had any cases when you were working
25 as -- on the Board of Pharmacy where an individual in a

1 similar case had a substance abuse problem?

2 A If you --

3 MS. GREEN: Objection.

4 THE WITNESS: Should I go ahead and answer it?

5 MS. GREEN: You may answer, Dr. Salem.

6 THE WITNESS: It's difficult for me to recall
7 cases that at least are over two years old.

8 BY MR. SWITLYK:

9 Q Do you recall if -- any similar cases when you
10 worked for the Board of Pharmacy, if a person did have
11 a substance abuse problem, if the outcome or the
12 penalties were different?

13 A Well, there's not been a -- to my knowledge,
14 there's not been a disposition on your license as of
15 yet. Is that not correct?

16 Q Correct.

17 A So I can't -- I can't answer your question.

18 Q No. My question was, when you were working at
19 the Board of Pharmacy and you heard similar cases like
20 this represented to you, you know, about controlled
21 substances being distributed incorrectly, if the person
22 that was responsible who had the medical license, if
23 they -- if they had a substance abuse problem, did they
24 get different penalties or suspensions compared to if
25 they didn't when the, you know --

1 A Mr. Switlyk --

2 Q -- practice was going on?

3 A -- I think I can answer your question. In my
4 tenure on the board, I think I fairly consistently
5 ruled if -- if someone had a substance abuse problem
6 and they were diverting medications for their own
7 personal use and were enrolled in a PRN program, there
8 was a chance for rehabilitation and that person
9 maintaining their license. Personally I --

10 Q What --

11 A May I continue answering my question?

12 Q Yes. I'm sorry. Go ahead.

13 A However, I had no tolerance in my eight years
14 on the board where I saw diversion of controlled
15 substances which I thought were for profit or in
16 situations like this case and voted numerous times to
17 revoke pharmacy licenses and/or permits when in
18 situations like this one.

19 Q Are you aware that I actually went to PRN
20 shortly after this -- my pharmacy -- I voluntarily
21 closed my pharmacy?

22 A I am only -- I can only base what I read here,
23 and there's no -- there's nothing about PRN in this
24 documentation.

25 Q Okay.

1 A But as I've said, if the diversion was for
2 personal use and they -- and this case is much
3 different than that.

4 Q Have you had any cases where a person who was
5 in a situation like me cooperated against other
6 individuals who were still actively participating in
7 criminal activities related to controlled substances
8 who are still licensed under the Department of Health?

9 A Mr. Switlyk, it's very difficult for me to
10 recall specifics of cases that are at least two to two
11 and a half years old.

12 Q I'm not asking you to recall them, I'm just
13 saying in general. In general, have you had anybody
14 cooperate against other medical professionals in order
15 to, you know, lessen their penalties or anything like
16 that? While you were on the board for the whole eight
17 years, have you had anything -- anything like that that
18 went on?

19 A I feel certain there may have been cases like
20 that, but I cannot recall.

21 MR. SWITLYK: Okay. I don't think I have any
22 other questions really. Hello?

23 MR. MAY: Yes, we're still here. I think
24 we're going to do a few follow-up redirect
25 questions.

REDIRECT EXAMINATION

1

2 BY MR. MAY:

3 Q So in your time on the board, Dr. Salem,
4 approximately, you know, how many cases do you think
5 you saw? In terms of did you see more than 1,000, more
6 than 2,000, more than 3,000 cases? Or is it hundreds,
7 is it thousands?

8 A Thousands. I was just doing some quick
9 calculations. It would be in the thousands.

10 Q Okay. So, I mean, is it possible to remember
11 all of the names of those cases and all of their
12 underlying facts?

13 A No, it is virtually impossible.

14 Q Okay. But you spoke earlier that it's a -- do
15 you believe it's a pharmacist's -- part of a
16 pharmacist's ethics to review a prescription to see if
17 it's legitimate?

18 A Yes, I do.

19 Q Do you think it's the pharmacist's primary
20 role or do you think it's the doctor's? Who's more at
21 fault for -- in the situation? Is it the doctor
22 writing a bad script, or is it the pharmacist accepting
23 it, or is it equally?

24 A I think both are responsible to ensure the
25 prescription is legitimate.

1 Q You also said, in relating to Mr. Switlyk's
2 case, that you don't have any personal knowledge
3 relating to any patient harm in his particular case; is
4 that correct?

5 A I don't have any personal knowledge of patient
6 harm, that is correct.

7 Q But you did say that you believe there's a
8 potential for harm from -- based on the guilty pleas?

9 A Yes, I did.

10 Q Potential for patient harm -- well, is there a
11 potential for patient harm based on the guilty pleas?

12 A I think there's -- there was tremendous
13 potential for patient harm based on the quantities
14 dispensed, the out of state. The conspiracy involved
15 where many of these patients were from out of state and
16 taking these medications potentially back to their home
17 states and selling them, I think there was great
18 potential for patient harm.

19 Q Okay. And do you feel comfortable knowing
20 that if you don't have any personal knowledge of actual
21 patient harm but stating that there's a potential for
22 patient harm, are you -- do you feel comfortable making
23 an opinion on Mr. Switlyk's case based on that?

24 A Yes, because -- because patient harm is not
25 the overriding factor. It was the fact that

1 illegitimate prescriptions were filled.

2 Q And part of -- do you believe it's part of a
3 pharmacist's ethics to ensure -- to minimize potential
4 patient harm?

5 A Yes. It's just not my opinion that the -- if
6 you read the Board of Pharmacy regulations, you are
7 required to go through this process to make sure the
8 prescription is legitimate.

9 MR. MAY: Okay. Can I have one minute?

10 MR. SWITLYK: Hey, can I ask one quick
11 question as well?

12 MR. MAY: Well, right now, we're asking him
13 questions.

14 MR. SWITLYK: Oh, okay. I'm sorry, I thought
15 you were done. Okay. No problem.

16 MR. MAY: When we're done, you can do a
17 recross of him.

18 MR. SWITLYK: Oh, okay. No problem.

19 THE WITNESS: Mr. May?

20 MR. MAY: Yes.

21 THE WITNESS: Can I step away for about 30
22 seconds to a minute?

23 MR. MAY: Yeah, sure. That sounds good.

24 THE WITNESS: I'll be right back.

25 (Short break.)

1 MR. MAY: We don't have any more questions.
2 Mr. Switlyk can do a recross. But I would just
3 like to note that his recross is limited to the --
4 to the scope of the questions I asked on my
5 redirect.

6 MR. SWITLYK: I can't ask any questions that
7 don't have to do with your questions, the last
8 questions?

9 MR. MAY: They have to be related to them,
10 yes. And you can ask your question, and if I don't
11 think --

12 MR. SWITLYK: I mean, I'm going to ask: Have
13 you ever worked for an independent retail pharmacy?
14 Is that --

15 MR. MAY: That's fine.

16 THE WITNESS: Yes.

17 **RECROSS-EXAMINATION**

18 BY MR. SWITLYK:

19 Q Okay. When you worked at an independent
20 retail pharmacy, have you ever denied filling a
21 prescription for a patient who brought it in for
22 oxycodone?

23 A In that independent community practice?

24 Q My question is, has a patient ever brought a
25 prescription for oxycodone in to you and you felt it

1 was not legitimate in some way or another and you
2 denied filling it or returned it or didn't want to fill
3 it for one reason or another?

4 A Yes.

5 Q Okay. Do you believe that prescription that
6 you denied filling was, you know, likely filled by
7 another retail pharmacy in the area?

8 MS. GREEN: Mr. Switlyk, I'm going to object
9 to that. That's very far outside of the redirect
10 that Mr. May conducted just a few moments ago. If
11 you would like to ask questions within the scope of
12 that redirect, you can continue.

13 MR. SWITLYK: What -- I'm sorry, what were
14 your -- your redirect questions were just about the
15 patient harm. What were the other things?

16 MR. MAY: Potential patient harm and his
17 experience on the board --

18 MR. SWITLYK: Oh.

19 MR. MAY: -- and how many cases he had seen
20 like that.

21 MR. SWITLYK: Well, I mean, it's somewhat
22 related. I mean, I was just going to ask about if
23 -- if the patient filled the prescription that he
24 thought may have been legit -- illegitimate at
25 another pharmacy where another pharmacy filled it

1 and they thought it was legitimate and that patient
2 was harmed or not by getting it filled at another
3 pharmacy. That's what I was going to ask.

4 MS. GREEN: Well, your question is going
5 outside of the redirect.

6 MR. SWITLYK: All right. Well, okay.

7 BY MR. SWITLYK:

8 Q Do you -- Mr. Salem, do you think it's safer
9 for a patient with this type of substance abuse
10 problem, if they're taking oxycodone, do you think it's
11 safer for them to take oxycodone or take heroin?

12 A Is that a relevant --

13 MR. MAY: I'm not sure how this relates to the
14 redirect. And it seems speculative. But he can
15 answer it.

16 THE WITNESS: Without knowing the specifics of
17 the patient, it would be a very difficult question
18 to answer.

19 BY MR. SWITLYK:

20 Q But, I mean, as far as -- as far as drugs,
21 would it be safer for a patient to -- you know, if they
22 could not get their oxycodone because it's been so
23 restricted the last couple of years and they've been
24 taking it for a couple of years and if they're not --
25 it's unavailable to them, if they're able to get heroin

1 to, you know, get the same effects, what do you think
2 would be safer, in your opinion?

3 A I would never suggest a patient take heroin.
4 That's an illegal substance. I would probably urge
5 them to get -- to get treatment under those
6 circumstances.

7 Q Okay. So -- so you agree that heroin is not
8 as safe as taking oxycodone?

9 A Well, clearly, the federal government has
10 ruled that heroin is an illegal substance.

11 Q But -- okay. But isn't oxycodone a derivative
12 of the same type of plant that heroin comes from?

13 MS. GREEN: Again, Doctor -- I mean, Mr.
14 Switlyk, your questions are well outside of the
15 redirect and well outside of the knowledge and
16 experience of this particular expert witness.

17 BY MR. SWITLYK:

18 Q Okay. Are you -- are you aware that the
19 heroin problem in the United States has increased
20 eight-fold in the last three years because of the
21 severe restrictions placed on oxycodone in the past
22 couple of years?

23 MS. GREEN: And objection to the line of
24 questioning.

25 MR. SWITLYK: All right.

1 MR. MAY: I think you're -- you know, I think
2 you're going to the path that you want to introduce
3 testimony. And unless you have any questions that
4 are relating directly to the questions I asked on
5 redirect, I would --

6 MR. SWITLYK: Well, I mean -- I mean, I was
7 just -- the reason I thought it was relevant or
8 kind of to the redirect is because you -- I mean,
9 you keep focusing on how these patients could have
10 been potentially harmed by getting these pain
11 pills. And my point was that the pain pills are a
12 lot safer than what they're doing now, which a lot
13 of them are switching to heroin.

14 MS. GREEN: Objection.

15 MR. SWITLYK: All right. Well, I mean,
16 that's all -- I mean, I don't really have any other
17 questions then. I mean, I just -- I just read an
18 article in the Washington Post about it the other
19 day, and that's why I thought of it.

20 MS. GREEN: The appropriate time for that
21 evidence would be at the hearing on the 26th. It
22 would be outside of the scope of the -- the
23 question that you presented was outside of the
24 scope of the redirect of this witness.

25 MR. SWITLYK: Okay.

1 MR. MAY: Okay. Well, I mean, I think that
2 concludes the -- I mean, yes, as far as I can tell
3 that concludes the deposition in terms of
4 substantive matters.

5 This question is directed to the court
6 reporter. How fast is an expedited transcript with
7 your company? How fast can it be typed up?

8 THE REPORTER: Would you like to have it
9 Monday?

10 MR. MAY: Well, I mean, that would be great,
11 yes.

12 THE REPORTER: Okay. I'll have it to you on
13 Monday, how about by e-mail, and then I'll also put
14 it in the mail on that day. You should definitely
15 have the hard copy by Tuesday.

16 MR. MAY: Okay.

17 THE REPORTER: But I will have it to you
18 Monday by e-mail, if that works for you.

19 MR. MAY: Okay. Well, first, Dr. Salem would
20 have to waive the right to read through the
21 deposition and make any corrections to it.

22 MS. GREEN: But more to the question would be,
23 Dr. Salem, you do have the opportunity to review
24 the deposition transcript to make sure that all of
25 the -- all of your testimony is correct. Do you

1 wish to read your transcript or waive that right?

2 THE WITNESS: I'd like to read it. She's
3 indicated she will e-mail that to me as well. And
4 she has my card and will e-mail it to me as well.
5 But I would like to review it before it becomes
6 final.

7 MR. MAY: Okay. And then, Mr. Switlyk, are
8 you requesting a copy of the transcript?

9 MR. SWITLYK: I mean, I -- yes, actually, I
10 would like a copy of it.

11 MS. GREEN: And then for the court reporter, I
12 guess what you would do is if -- have a discussion
13 with Mr. Switlyk as to what would be required for
14 him to get a copy of the transcript.

15 THE REPORTER: Having never been in this
16 position before, I don't quite know what the
17 procedure is.

18 MS. GREEN: Okay. Is it my understanding that
19 both parties can order their own copies of the
20 transcript?

21 THE REPORTER: Exactly, exactly. I just don't
22 know --

23 MR. SWITLYK: The reporter, if she e-mails it,
24 can I have her e-mail it to like a family member or
25 a friend and they can just put it in the mail to

1 me?

2 THE REPORTER: That would be fine. But there
3 is a cost involved, and I'm not sure how you would
4 want to handle that.

5 MR. SWITLYK: Well, what does it cost to have
6 it e-mailed?

7 THE REPORTER: The cost of the transcript for
8 a copy would, approximately, be \$100.

9 MR. SWITLYK: All right. Well, I don't know
10 how to -- how to proceed. If I -- I'm not sure if
11 I really need it or not. But, I mean, that's
12 e-mail, right? That's not printing it out?

13 MR. MAY: My co-counsel just brought up a
14 point. We'll be entering it as an exhibit, and so
15 we would need to provide it to the opposition -- in
16 this case, Mr. Switlyk -- anyway.

17 THE REPORTER: We will go about it that way.
18 That would just be easier.

19 MR. MAY: That would probably be the best way
20 to do it.

21 THE REPORTER: Yes.

22 (Mr. May conferring with Mr. Switlyk off the
23 record.)

24 MR. MAY: So unless Dr. Salem or the court
25 reporter have any other questions, we can call it a

1 day.

SIGNIFICANT ACCOMPLISHMENTS

- Awarded Pharmacy of the Year for overall operational success. (2003)
- Awarded Best Annual Growth for southeast region in first year of operation for PharMerica. (1998)
- Completely reorganized St. Vincent's home care agency by reducing the number of case managers from seven to four without compromising quality of service. Additionally, increased number of home visits by 30% in 1993 and 42% in 1994 increasing annual profits by \$200,000.
- Increased revenue of Consolidated Pharmacy Services from \$600,000 to \$3,500,000 over a five-year period. Net profits also increased from \$60,000 to over \$600,000 during the same period. These efforts were accomplished by increasing the number of facilities served from 1 to 18.
- Managed the JCAHO accreditation process for three home care companies that became fully accredited in 1994.
- Implemented a software system for dispatch and billing for a transportation company. Efforts reduced accounts receivable by 42% and increased cash flow by 35%. Additionally, a flat rate per hour payment system was implemented eliminating most benefit costs.

PROFESSIONAL EXPERIENCE

PharMerica, Jacksonville, Florida **1997-Present**
Director

Currently directs the day to day operations of a pharmacy that serves approximately 25 nursing homes and related facilities in North Florida. Activities include preparation of budget, hiring, marketing, and compliance with state/federal regulations.

City of Jacksonville, Jacksonville, Florida **1996 - 1997**

Inmate Handbook

Revised March 2011

Sheriff Jim Coats

Pinellas County Sheriff's Office

"Leading The Way For A Safer Pinellas"

To The Inmate:

The Florida Legislature has established administrative and operational requirements to be maintained by all county detention facilities. Additionally, the State Jail Standards Committee has established specific operational standards. In Pinellas County, the Sheriff is charged with the responsibility of maintaining the county's jail facilities.

It is my policy that the Pinellas County Jail system shall operate in full compliance with all State Laws and the Florida Model Jail Standards.

The maintenance of a jail that provides safe, secure and sanitary conditions requires the cooperation of all confined persons. Every effort will be made to provide you with adequate confinement and nutrition while you are in jail. Your courtesy and attention to the rights of your fellow inmates will help make your stay in jail less complicated. You are encouraged to take advantage of the library, religious, social and education programs offered to all inmates.

Whether your time here is long or short, I sincerely hope this is your last stay in the Pinellas County Jail.

A handwritten signature in cursive script that reads "Jim Coats".

JIM COATS, Sheriff
Pinellas County, Florida

Sheriff Jim Coats
Pinellas County Sheriff's Office
"Leading The Way For A Safer Pinellas"

To The Inmate:

This Inmate Handbook is provided so you may have a better understanding of the operations, programs and services of the Pinellas County Jail.

It is our objective to provide a secure, safe and sanitary jail. You are expected to assist in this effort by keeping yourself and your living area clean at all times. It is also expected you will respect the rights of your fellow inmates and obey staff charged with your supervision.

Sheriff Jim Coats provides a number of opportunities for inmates to use their time productively. A variety of religious programs and recreational activities are available. In addition, those individuals who can meet the necessary qualifications can use various education and / or training opportunities.

During your confinement in the Pinellas County Jail, the same laws that exist in our society will govern you. Any violation of federal, state or municipal ordinance will result in prosecution of those involved. Any violation of the rules and regulations of the jail will be dealt with appropriately. It is our hope when you leave the Pinellas County Jail system, you will be a better person. It is up to you.

Daniel G. Simovich, Jr., Major
Detention and Corrections Bureau Commander

**PINELLAS COUNTY SHERIFF'S OFFICE
DETENTION AND CORRECTIONS BUREAU
INMATE ORIENTATION HANDBOOK AND RULES**

I. Introduction

- A. The Pinellas County Jail Complex contains several buildings. Each building of the complex has the same mailing address: 14400 49th Street North, Clearwater, FL 33762-2877, Phone (727) 464-6415.
- B. The various housing divisions within the complex house a wide array of inmates, including but not limited to, felons, misdemeanants, females and sentenced inmates. No individual shall be discriminated against because of race, color, national origin, gender or disability. Inmates shall have equal access to all programs and privileges unless deemed to be a threat to the safety of staff, other inmates or the security of the facility. Reasonable accommodations are provided for persons with a disability.
- C. All rules and staff direction must be obeyed. The housing deputies shall direct and control all housing unit activities. Inmates must conduct themselves in an orderly manner at all times with respect to the rights of other inmates and staff.
- D. Emergencies or safety drills can occur that may require inmates to evacuate or relocate to another area. It is important to remain calm and listen to the instructions given by detention personnel. Not following instructions may lead to disciplinary action.

E. SMOKING AND TOBACCO PRODUCTS ARE PROHIBITED.

- F. Searches are necessary to control the introduction of contraband and to prevent escapes. Inmates must comply with the search of their person and personal property at any time. Inmates do not have to be present while staff is conducting a search of their cell area and/or belongings. Inmates will cooperate with deputies to expedite this process.
- G. Each person incarcerated at the Pinellas County Jail must have a photograph and fingerprints taken. Each inmate will be provided with an identification card to wear at all times on the chest area (not on the sleeve), with the photograph showing.
- H. Anytime there is a call for a headcount appearance, inmates are to proceed to their cell location immediately. Inmates are to remain quiet until the count is complete and they are excused. Inmate counts will be at the discretion of the deputies.

II. Booking Process

- A. All non-federal inmates booked into the Pinellas County Jail will be charged an Inmate Subsistence Fee to cover administrative costs.
- B. If an inmate's cash account balance is not sufficient to cover this charge, a lien will be placed against the inmate's cash account. The balance owed will be deducted from any deposits received. The debit balance will be carried for a period of three years from date of release.
- C. The subsistence fee will be refunded to the inmate if he/she produces proof of No Information, Nolle Prose or a "Not Guilty" verdict for the docket number the subsistence fee was collected on. Reimbursement may only be requested provided the inmate has no other cases under that docket number that are pending or adjudicated.
- D. Upon arrival, inmates receive a medical screening. Please inform staff of any special medical or emotional needs during this process. If you have an emergency medical problem, please contact a deputy immediately. He or she will contact the proper medical person to handle your medical problem. For your safety, do not remove your identification card.
- E. At the time of booking, all money in an inmate's possession will be credited to his/her personal inmate account, except for foreign coins and/or foreign paper money which will be placed in his/her personal property. No inmate will keep in his/her possession any money, checks, money orders or any other legal tender. Any unauthorized funds discovered are forwarded to the inmate welfare fund.

- F. During the booking process you will be screened by a nurse, interviewed by classification staff, photographed, fingerprinted and issued a jail identification badge. Identification badges are required to be worn and properly displayed on the chest at all times after issued.
- G. If you are not released on your own recognizance or do not bond out and are assigned housing at the jail, personal clothing will be exchanged and an inmate uniform or alternative clothing will be issued. Make no alterations to clothing. Inmates will be expected to reimburse the facility for intentional damage or loss to clothing.
- H. Bed linens, towels, one drinking cup, soap, one toothbrush, one toothpaste, one comb and footwear (if needed) will be issued. Feminine hygiene items will be provided. Razors will be provided and exchanged daily in accordance with Bureau directives.
- I. A replacement cost will be charged for missing, destroyed or damaged jail issued property or any jail property. It is in your best interest to keep the issued items in good condition.
- J. **Posting Bond/Purging Child Support Payments**

How to post a bond for a Pinellas County Jail Inmate:

If a Pinellas County Jail inmate's charges have a bond amount, the inmate can post a bond or have someone else post the bond to facilitate his/her release.

How to post an inmate's bond using a credit or debit card:

The Pinellas County Jail is now accepting bond payments through the GovPayNow program. Check with a deputy to find out the limit that may be charged. The limit is on a per charge basis, and not applicable to any charge with a bond over the allowed limit. Be advised a non-refundable service fee to GovPayNow will be added to all transactions.

How to purge an inmate's child support payment:

If a Pinellas County Jail inmate has been arrested for failure to pay child support, the inmate can purge the child support payment or have someone else purge the child support payment in order to facilitate the release of the inmate.

How to purge an inmate's overdue child support payment using a credit or debit card:

The Pinellas County Jail is now accepting payment for child support purges through the GovPayNow program. Payments are accepted for the full amount of the purge.

Make sure to have the inmate's information ready before proceeding to www.GovPayNow.com:

This information is available in the "Who's in Jail" function on the Sheriff's Office website, or through the Clerk of the Circuit Court.

- The defendant's name
- The defendant's docket number
- The case number

The Pay Location code is 6343 for inmate bond payments.
The Pay Location code is 6143 for inmate child support purges.

There are three ways to pay with a credit or debit card:

- Online at www.GovPayNow.com (Click on link)
- By phone at 1-877-EZBAILS
- In person at the Pinellas County Jail Bond Counter

Other bond payments accepted:

Bonds of any amount can be paid using the following payment options:

1. **Surety Bonds** are accepted from registered bonding agents. A list of registered bonding agents is located in the enclosed case just outside of the Public Lobby area. You may also refer to the

telephone book or internet. The Pinellas County Sheriff's Office cannot and will not recommend a bonding agent.

2. **Cash bonds** are accepted in the full amount of the bond. In order to post a cash bond, you will need to present a valid photo I.D. All bank checks, travelers' checks and money orders must be made payable to the **Clerk of the Circuit Court**. No personal checks will be accepted. This payment must be on a separate check or money order if more than one bond is being posted at the same time.

Important Notice

F.S. 903.286 requires the Clerk of the Court to withhold from the return of a cash bond posted on behalf of a criminal defendant by a person other than a bail bond agent, sufficient funds to pay any unpaid court fees, court costs, and criminal penalties. This means that if the defendant for whom you are posting bond owes costs and penalties, those fees will be taken out of the bond money you posted. You may receive only a portion or none of the posted bond money even though the defendant makes all timely court appearances. F.S. 903.28(2)(b) states that if a defendant fails to appear at the time, date and place of required appearance, the bond money will be forfeited.

III. Medical Services

- A. Upon arrival, inmates shall receive a medical and mental health screening. Please inform the nurse of any special medical or emotional needs during this process.
- B. All inmates have the opportunity to request health care on a daily basis. If you wish to see a qualified healthcare provider regarding a medical or mental health concern, please submit a Medical Request (Form 82) to the nurse on duty.
- C. Non-emergency requests will be triaged and scheduled for the next available sick call by a qualified healthcare professional.
- D. **How to Inform Staff of a Medical Emergency** - If you have an emergency medical problem, please contact the floor deputy on duty immediately. He or she will contact a qualified healthcare provider to handle your medical problem.
- E. **No inmate will be refused medical treatment.** Please inform medical staff of any special medical or emotional needs you may have.

IV. Indigent Inmate Supplies

- A. Indigent inmates are defined as inmates who are without funds or who have \$1.00 or less at time of admittance. These individuals may receive necessary health, hygiene and writing materials after 14 days of indigent status.
- B. Once such an individual establishes an inmate account and has sufficient money posted to the account (more than \$1.00), they will not be considered indigent again until their account remains at \$1.00 or less for a period of 14 days from the date of the last entry.
- C. Indigent items are distributed in an Indigent Kit. The Indigent Kits contain the following:

Standard Indigent Kit:

1. One (1) 8 1/2 x 11 legal pad
2. One (1) black ink pen
3. Four (4) stamped post cards
4. One 1.5 oz tube of toothpaste
5. One 1.5 oz deodorant
6. One (1) toothbrush

Clothing Indigent Kit:

Male

1. Two (2) t-shirts
2. Two (2) boxer shorts

Female

1. Two (2) bras
2. Two (2) panties

Note: Indigent kits, both the Standard and the Clothing, will only be ordered and distributed as a full kit, no half kits or variations thereof will be given.

- D. Inmates shall request a Pinellas County Detention Facility Indigent Kit order form from detention staff. The inmate will complete the form and return it to detention staff on the morning prior to their respective divisions' commissary receiving day. Detention staff shall forward the order forms to Inmate Accounting for verification of indigent status.
1. If the inmate qualifies as indigent, Inmate Accounting will forward the order form for processing.
 2. If the inmate does not qualify for indigent supplies, Inmate Accounting will note such on the Indigent Kit order form. The form will be returned by the Commissary vendor.
- E. Eligible indigent inmates may request and receive the Standard Indigent Kit once every 30 days. Eligible indigent inmates may request and receive the Clothing Indigent Kit only one (1) time each 365 days.
- F. Any inmate in need of footwear shall submit an Inmate Request Form to the appropriate floor deputy. The floor deputy shall assess each individual situation, process the Inmate Request Form accordingly, and provide shower slides as needed.
- G. Indigent inmates will be continuously furnished with soap/shampoo, as will all general population inmates.
- H. If an indigent inmate needs legal envelopes to mail legal/privileged correspondence, he/she will submit an inmate Request Form to the law library. The law library clerk will verify the inmate's indigent status by checking the Cactas computer system. Once verified, the law library clerk will process the request in Cactas and distribute the envelopes. The indigent legal mail will be forwarded back to the law library for indigent status confirmation/verification and logging prior to being sent to the mail room. Each qualified indigent inmate may request up to four legal envelopes every 30 days.

V. Dress Code and Personal Hygiene

- A. An issued uniform will be required anytime an inmate exits his/her housing area, to include visitations, religious services, medical services, social services, educational classes and attorney visits, etc.
- B. All inmates will maintain a high degree of personal cleanliness. Showers and toiletry items are available. Each division schedules haircuts; ask the housing deputy about the schedule. Inmates with upcoming court appearances have priority.
- C. All inmates will be given the opportunity to shower/bathe daily, but are required to bathe at least twice weekly. Housing unit deputies will require inmates to be neat and clean before work.
- D. Linen exchange is once per week. Issued uniform exchange is twice per week. Inmates are responsible for any linen and uniform issued. Personal laundry is on a twice per week schedule. Inmates assigned to jobs within the jail will receive clean clothes each day they work. The laundry services are under the supervision of the staff; a laundry schedule will be available based on cell and unit assignment.

VI. Replacement of Hygiene Items

- A. Housing area deputies will replenish or exchange bath soap, razors and feminine hygiene items.
- B. Items issued such as toothbrushes, toothpaste and combs must be purchased through commissary at the inmate's expense when replacements are needed. Indigent inmates will be given personal hygiene items once every 30 days.
- C. Inmates are not permitted to hoard Bureau issued personal hygiene items.

VII. General Housekeeping

- A. Inmates are responsible for keeping their cell and the immediate area around the cell clean and neat at all times.
- B. Beds will be made anytime they are not in use.
- C. Inmates are responsible for damages to their cell, which are a result of negligence or malicious destruction.
- D. Trash will be placed in the containers provided and is removed daily from living quarters. No trash bags are allowed except as needed to line the inside of the receptacles.
- E. Inmates cannot place personal items, clothing or linen on the bars, windows, bunks or vents.
- F. Do not post or attach anything to walls, mirrors, windows, bunks or on lights.
- G. Inmates cannot write, draw or mark on walls, ceilings, tables, chairs, bunks or any other facility owned property.
- H. Immediately report any inoperative equipment (such as light, sink, toilet, etc.) to a deputy.
- I. When there are too many flammable materials such as paper and plastics, a fire hazard exists. Excess items are to be discarded or they will be confiscated by detention staff as a safety precaution. The facility is inspected regularly and adheres to all state fire safety codes.

VIII. Meals

- A. The jail offers three meals a day; there are no extra helpings or trays. Inmates must eat the meals at mealtimes. No food from your tray can be saved, given, traded or sold to other inmates.
- B. Inmates will have the opportunity to exchange or clean his/her drinking cup daily.
- C. Only food items purchased through commissary may remain in the housing unit.
- D. If, for medical reasons, an inmate requires a special diet, medical will review the request and advise if approved or denied. If approved, medical will notify the food service provider to provide the required diet.
- E. If an inmate requires a religious diet, he/she must complete an Inmate Request Form to the Bureau Chaplain stating the name of the religion and the type of diet. The chaplain will review the request and advise of the approval or disapproval of the request.

IX. Inmate Accounts and Commissary

- A. Only other facility's checks, certified checks, cashier's checks or money orders of at least \$1.00 are acceptable for deposit into the inmate's account. No cash will be accepted from visitors for deposit into an inmate's account. Any deposit received containing damaged or unreadable money orders, personal checks or cash will be returned to the sender if the name and address has been provided.
- B. An automated online deposit system (Access Corrections) is anticipated to be available to the general public during the summer of 2011. This system allows individuals, in the general public, the ability to electronically deposit money directly into each inmate account. The website is <http://www.accesscorrections.com>. In addition, kiosks will also become available to the general public at the jail's visitation center and public lobby.
- C. No inmate will keep in his or her possession any money, checks, money orders or any other legal tender. Any unauthorized funds discovered are forwarded to inmate accounting for processing.
- D. An inmate may transfer or release funds from his/her account to the public by completing the "Inmate's Permission for Money Release Form." Any other requests will be at the discretion of the Division Commander.
- E. The commissary is a privilege provided for the exclusive use and benefit of all inmates. Inmates may use money in his/her inmate account to purchase commissary items. The commissary provider deducts

purchases from the Inmate account. A list of items available from the commissary is in each housing unit or a list may be requested from a deputy.

- F. Inmates may place orders to the commissary twice weekly.
- G. Each order may be no more than \$100.00 combined clothing and food.
- H. Inmates may go over the \$100.00 limit in order to purchase a radio.
- I. Inmates' family and friends may order commissary items online via Secure Pak. These items will be delivered during normal commissary distribution. Items can be ordered at www.fipackages.com.
- J. Damages or shortages must be identified upon delivery to you. By signing, you acknowledge and understand the terms of commissary orders and authorize funds to be deducted from your trust fund account to pay for the order. Once the order is accepted it is a final sale! All inmates have 60 days from purchase to request any information regarding a commissary sale or credit. For nutritional information write to the following address: Keefe Commissary Network, P.O. Box 23353, St. Petersburg, FL 33742.

X. Notary Public Services

The Pinellas County Jail will make a Notary Public available when requested by an inmate. Contact the shift sergeant or social worker for a Notary Public.

XI. Good Time/Gain Time

- A. Good Time awards are granted to all sentenced inmates. Any discrepancies should be addressed on an Inmate Request Form to Inmate Records. Good Time awards are not to exceed five (5) days per month.
 - 1. Good Time is awarded at the time of sentence verification. Records of Adjusted Release Dates are in all housing areas containing county-sentenced inmates. No inmate release will take place until verification is completed.
 - 2. Good time is calculated on the balance of the sentence after deducting gain time and credit for time served as determined by the courts. Good time is calculated at the time of sentence verification.
 - 3. If an inmate fails to comply with established facility rules and regulations and is disciplined, including transfer to another facility offering a more secure environment, the inmate can also lose good time, receive time in detention or a combination of actions.
 - 4. Inmates whose offense dates are prior to November 1, 2001 (when the five days per month good time policy was implemented), will have good time calculated according to the days worked. This calculation will be one day off of the sentence for every day of work completed.
- B. Gain Time - county sentenced prisoners earn Gain Time at a rate of five days for every 30 days of sentence.
 - 1. Gain time is not allowed for any sentence of 29 days or less.
 - 2. The Inmate Records Section computes gain time at the time they receive notification of sentencing.
- C. Certain county inmates are not eligible to receive either good or gain time. Included in these categories are the following: Inmates incarcerated on Civil Contempt of Court Orders, inmates sentenced to a specific time period and those inmates stipulated by the sentencing judge not to receive good time awards.
- D. Any part of good or gain time shall be subject to forfeiture for any violation of law, rule, or regulation of the institution.

XII. Mail

Inmates may write and receive unlimited correspondence. However, if the inmate is under any restrictions or disciplinary actions, mail may be limited with the exception of legal mail.

- A. Mail is delivered and picked up once a day, except on weekends and postal holidays.
- B. All incoming mail must have the inmate's full name, docket number, housing location and a return address or it will be returned to the Post Office.
- C. Incoming and outgoing inmate mail will be monitored by the staff for security reasons. Staff will inspect incoming mail to intercept cash, checks, money orders or contraband. Any monies found will be placed

in your money account. If contraband is found in the correspondence, the entire letter or package will be returned to the sender or handled according to policy or statutory law. Inmates will be notified in writing of the rejected correspondence.

D. Any legal or privileged mail received will be opened in the presence of the inmate to confirm it is legal or privileged mail. If the mail is not legal mail, it becomes contraband and is handled appropriately.

E. All outgoing mail must include a return address as follows:

Full name, identification number, housing assignment
Pinellas County Jail
14400 49th Street North
Clearwater, Florida 33762-2877

F. Detention staff will not interfere with outgoing mail except to open and inspect it to determine if it contains contraband or interferes with the security and orderly operation of the facility.

G. Publications:

1. Inmates may receive printed material and publications (books, magazines, newspapers, etc.) he/she purchases from, and are mailed by, the publisher or established book retailer. Book clubs are not considered an established book retailer.
2. Materials that may affect the order, security and safety of the facility are not allowed. The Pinellas County Jail does not forward subscriptions upon release or transfer of the inmate.
3. There is a limit of three books, three magazines and three days of newspapers at one time. Excessive items are put with the inmate's property or seized and disposed of as contraband.
4. The receiving mail clerk will forward any unacceptable publications or material to the Bureau Commander for review and disposition.

XIII. Telephones

A. Three-way calling is not permitted and is a violation of inmate conduct. Your telephone calls may be recorded.

B. The Pinellas County Jail provides telephones for inmate convenience as a means to contact attorneys, bondsmen and family. All calls are on a "collect call" basis.

C. Inmates can purchase pre-paid phone cards that will enable them to make local and long distance calls. The deputy on duty can provide information on how to purchase one.

D. Criminal charges or disciplinary action may be placed against persons found destroying, altering or damaging telephones and/or making obscene, threatening or harassing telephone calls.

E. Inmates may not charge calls to a credit card or other number. Fraudulent long distance calls will result in prosecution.

F. T.D.D. Machines are available for the hearing impaired, upon request.

G. Inmates are encouraged to use either an Inmate Request Form or the US Mail if there is a need for communication within the Pinellas County Sheriff's Office. If there is an absolute necessity to contact any agency or a section of the Sheriff's Office by telephone, a request should be made with a detention supervisor or a member of the Detention Investigations Unit (D.I.U.)

H. There are enough telephones to accommodate the number of inmates housed in each area. However, during times of high demand, be aware other inmates need to use the phone. No continuous calling is allowed during these times.

I. If an inmate feels he/she needs to make an emergency phone call, an Inmate Request Form addressed to the counselor is to be completed.

XIV. Disciplinary Procedure

A. When an infraction of the rules is alleged to have occurred the following will happen:

1. A disciplinary report will be processed.

2. The incident will be investigated and the inmate will be provided written notice of the charges against him/her at least 24 hours prior to a hearing.
3. A deputy will speak with the affected inmate, notify him/her of his/her rights, take a statement concerning the violation and answer any questions the inmate may have.
4. A hearing will be held as soon as possible.
5. The inmate will receive a copy of the committee's written decisions.

A detention supervisor may place an individual in an administrative confinement cell for the safety of the inmate or the security of the facility, pending an investigation or disciplinary hearing.

- B. **Appeals** - If an inmate disagrees with the disciplinary action rendered by the committee, he/she has the right to file an appeal to the Bureau Commander. To do this, make a Request for an "Administrative Remedy Form." This form must be filed within five calendar days from the date of the notification of the Disciplinary Committee's decision. The Bureau Commander will review all appeals and the ruling will be binding.

XV. Prohibited Conduct and Penalties

Inmates are responsible for adhering to all policies, rules and regulation of the Pinellas County Jail, as well as Federal, State and Local laws. The following infractions carry a maximum penalty of 30 days. The Disciplinary Committee or Hearing Officer may elect to impose a lesser penalty.

1. Adulteration of any food or drink.
2. Assault and/or battery on any person.
3. Attempting or planning escape.
4. Conduct that disrupts or interferes with the security or orderly running of the institution.

 - b. During the 30 days of mandatory confinement, all personal clothing (including shoes) will be placed in property.
 - c. Additionally, during disciplinary confinement, all pictures and reading material will be placed in property.
 - d. Upon completion of Disciplinary Confinement, notification will be made to Classification and the inmate will be placed on "Close Custody" status.
3. Third or Subsequent Offense will include at a minimum:
 - a. Notification will be made to D.I.U. to initiate a formal criminal complaint.
 - b. Thirty days mandatory disciplinary confinement (i.e. loss of all privileges, recreation reduced to three days per week, loss of social visitation and phone calls, etc.).
 - c. All personal clothing (including shoes), pictures and reading material will be placed in property for the duration of the disciplinary confinement.
 - d. Upon completion of Disciplinary Confinement, notification will be made to Classification and the inmate will be returned to "Close Custody" status.
 - e. Permanent loss of commissary except for health and comfort items.

XVI. Contraband

Searches are necessary to control the introduction of contraband and to prevent escapes. Inmates must comply with the search of their person and personal property at any time. Inmates do not have to be present in the cell at time of a search. Inmates will cooperate with deputies to expedite this process.

Included below is a list of items that can be considered contraband. Items not listed here may be considered contraband at the discretion of staff.

- A. Any item or article not issued or sold to an inmate, or is found to be altered or used for a purpose other than what it was intended for. These items will be removed and destroyed.
- B. Any item detailing weapons or explosive manufacturing, or gives information that could aid in planning or making an escape or producing any item which could injure another.

- C. Gang symbols or related items such as drawings, literature, etc., which relate to gangs.
- D. Pornographic photographs, magazines, centerfolds, etc. shall be considered contraband.
- E. Food left over from meals.
- F. Laundry lines or hangers.
- G. Non-Bureau issued phone cards.
- H. Credit cards.
- I. Maps, catalogs, travel brochures or calendars.
- J. Cleaning equipment or materials.
- K. Tape recorders or tape machines.

XVII. Inmate Identification Badges

- A. Identification badges are required to be worn and properly displayed on the chest area at all times with the photo facing out. Inmates without their identification badges will be returned to their housing units and face disciplinary action. Identification badges are to be turned in at the Release Desk for destruction at the time of the inmate's release.
- B. Lost, stolen or damaged identification badges will result in formal disciplinary action and a monetary charge for the I.D. replacement will be deducted from the inmate's money account.

XVIII. Programs and Services

There are various comprehensive educational and vocational programs provided.

- A. Program participation is voluntary except for work assignments, programs required by State Statute or as court ordered. Monthly program schedules are posted in each housing area.
- B. Some of the programs and services offered include basic education-GED classes, weekly services for various faith groups, crisis intervention counseling, HIV/AIDS education, juvenile education, vocational programs and recreation.
- C. Televisions are equipped with closed caption for the hearing impaired. If closed caption is required, contact the administrative staff via an Inmate Request Form to activate this function.

XIX. Visitation

- A. All visitors are required to schedule their visits and may do so up to one week in advance. Reservations are made by calling (727) 464-6842.
- B. Inmates are allowed seven 40 minute visits per week. The hours of visitation are Sunday - Saturday 11:30am - 7:40pm.
- C. Three individuals may visit: one adult with two children or two adults with one child. No more than two adult visitors at any one time.
- D. All visitors must present a valid photo identification card (driver's license or state-issued identification card) for admittance to visitation.
- E. All visitors at the height of 36" or above will be required to have their facial images screened via Facial Recognition Screening prior to their scheduled visit.
- F. Regulations concerning dress and conduct for all visitors are on display.
- G. All visitors must comply with these regulations or face the possibility of terminating their visit.
- H. Attorneys may visit their clients at any time. However, they are encouraged to conduct their visits during the regular work week at normal business hours.

- I. Behavior problems involving children will not be tolerated. If such problems occur, the children and the accompanying adult will be asked to leave the area.
- J. Funds are accepted during visitation hours; only certified check, money order or cashier's check is accepted. The funds will be deposited in the inmate's personal account on the next business day (Monday through Friday).
- K. When a conflict in scheduling exists between a scheduled visit and other programs, the inmate shall have the option of attending the program or visitation. Inmates choosing to attend a program over visitation shall not be removed from the program to attend their visit.

XX. Library Services

A. Law Library

1. To receive information from the Law Library, an inmate must submit a request to the Law Librarian. The requested material will then be delivered within three days (excluding weekends and holidays).
2. There is a fee of 10 cents per page for the copies; the cost will be deducted from the inmate's money account. Indigent inmates may receive up to 50 copies per month, free of charge.
3. The Law Library keeps 10 copies of the Florida Model Jail Standards and inmates may review them by using the request form.
4. Information concerning immigration law and legal services is available by request.

B. Physical Access to Law Library

1. Only inmate who are Pro-Se in their criminal case and who comply with all other facility rules, regulations and requirements will be considered for physical access to the law library.
2. Approved Pro-Se inmates will make their request to gain physical access to the Law Library on an Inmate Request Form; the request will be forwarded to the law library.
3. The law library clerk shall construct a daily list of inmates wishing to physically access the Law Library from the Inmate Request Form.
4. Prior to an inmate's first physical visit to the law library, he/she will receive an orientation to include familiarization of all rules and regulations pertaining to such access; the inmate will be required to sign an acknowledgment of their receipt and understanding of the orientation.
5. Pro-Se inmates will be provided a reasonable amount of time in the library. The division commander or designee may approve additional time or priority time.
6. No more than eight inmates may physically access the law library at the same time.
7. Pro-Se status inmates will be given up to three green storage boxes for legal material. No additional storage boxes are permitted in the housing area; any additional boxes will be placed in Inmate Property.
8. In the event a Pro-Se inmate is deemed a security risk for any reason, or otherwise fails to comply with the facility rules, regulations and requirements, he/she will not be permitted physical access to the law library. However, the Pro-Se inmate will still receive access to legal materials by completing an Inmate Request Form. A law library clerk will process the request and deliver requested items to the inmate cell side.
9. Any inmate found intentionally damaging, defacing or removing legal materials or supplies shall be disciplined to include limiting continued access to legal materials for a set period of time.

C. Recreational Reading

1. Any inmate desiring books or periodicals from the library must submit an Inmate Request Form stating the type of books or periodicals desired. This form should be given to a floor deputy.
2. Any books or periodicals requested that are not available will be substituted with a similar selection.
3. There is a limit of three books and three magazines at one time per inmate. Return previously distributed books and/or magazines before distribution of additional books and/or magazines.

- D. Upon release, turn in all jail issued books and periodicals.

- E. Inmates may request Bibles, Qurans or other Holy Scriptures from the library or chaplain's office. They are provided for your use as available.

XXI. Property

- A. Inmates will be held accountable for the deliberate destruction or damage of issued jail property.
- B. Inmates are prohibited from giving or exchanging issued inmate clothing or linens to another inmate.
- C. Personal property, as listed below, will be permitted in cells if it does not pose a threat to the health and safety of the inmate or the security of the facility.
1. Authorized hygiene items such as soap, toothbrush and toothpaste, comb and razor (when issued).
 2. One plastic bowl with lid purchased through the commissary (not available through Secure Pak).
 3. Clothing items received from the Indigent Inmate Program or purchased through the commissary in the amounts listed:
 - a. Male - Five pairs of under shorts, five white tee shirts (without logo or design), five pairs of socks, and one pair of thermal underwear, solid white, cream or beige in color.
 - b. Female - Three bras or sports bras (no under-wire bras), five pairs of panties, five white tee shirts (crew neck only) and one pair of thermal underwear, solid white, cream or beige in color.
 4. Prescription eyeglasses, contact lenses, eye prosthesis and dentures. No dark tinted eyeglass or sunglasses allowed unless medically needed and a member of the medical staff verifies the need. These items are your responsibility and you must maintain them in an appropriate manner. Do not place them in a container that may be considered contraband, such as a styrofoam cup or trash bag.
 5. Medically necessary lotions and soaps will be in new, unopened containers when brought to the jail complex. A member of the medical staff must authorize these items before they will be released to you.
 6. You may have and/or display up to three family pictures, in good taste, no larger than 3" x 5". No Polaroid™ photographs are permitted through the mail.
 7. Limit of three each: books, magazines and newspapers.
 8. Magazines and books must be sent directly from the publisher or an authorized bookstore. If any other method is used, the books and/or magazines will be considered contraband and the complete package will be returned to the sender. The mailroom staff will label these books with your name and docket number.
 9. Newspapers are by subscription only. The publisher sends newspapers by third class mail so several days' worth may arrive at one time. However, stockpiling newspapers can create a fire hazard therefore, after you read each newspaper, throw the newspaper away.
 10. If detention staff feels there is an excessive amount of newspapers, they will remove all but the three most recent days and throw them away as trash.
 11. One radio, one pair of headphones and only the number of batteries needed to operate the radio plus a replacement set, per inmate are allowed. All items must be purchased from commissary and are not available through Secure Pak. Staff will confiscate as contraband any altered radio and/or headphone.
 12. Addresses and telephone numbers.
 13. Pencils, paper, stamped envelopes, pens and colored pencils purchased through the commissary or received through the Indigent Program are permitted. Any of these items sent through the mail will be considered contraband and will be returned to the sender.
 14. Legal materials, papers and letters. Pro-Se status inmates will be given up to three green storage boxes for legal materials. Any additional storage boxes will be at the discretion of the Division.

Commander. Only three boxes at one time are permitted in the housing area; any additional boxes will be placed in inmate property.

- D. Court Clothes – Inmates will be allowed to retain one set of personal clothing in the Property Room for court appearances and/or for use upon discharge.
- E. Court Attendance – Inmates attending court are not permitted to have any personal or jail issued property in their possession with the exception of legal materials. All inmates are subject to a search and any contraband found will be disposed of per policy.
- F. Bulk Property
 - 1. Any Item that will not fit through the inmate property release pass-through box will be transported to the Property and Evidence Section by the arresting officer.
 - 2. Any weapons, bicycles or tools determined to be a potential safety or security risk by the Division Commander, or any unusually cumbersome items that may have been taken by the arresting officer will be stored at the Pinellas County Sheriff's Office, Property and Evidence Section, 4707 145th Avenue North, Clearwater, FL 33762-2877, Phone 727-464-8391.
 - a. Bulk property stored at the Inmate Property Section of the Pinellas County Jail will only be kept in inventory for 30 days after the date you are transferred to another facility or released.
 - b. Bulk property stored at the Property and Evidence Section will only be kept in inventory for 30 days after the date of your incarceration.

G. Procedure for Release of Property

- 1. Pickup From Jail by Outside Person
 - a. Inmates must complete, in ink, an "Inmate's Permission for Property Release Form." Any form not completed in ink or filled out properly will be returned to the inmate.
 - b. The person designated by an inmate to receive his/her property must present a valid photo identification (Drivers License, Florida I.D. card, etc) before any property will be released to them.
- 2. By Mail
 - a. Inmates may request property be shipped via US Mail either during their incarceration or within 30 days of their release/transfer from the Pinellas County Jail.
 - b. A completed "Inmate's Permission for Property Release Form" and pre-paid postage (at the inmate's or recipient's expense) must be received by the Property Section prior to shipment of the property.
 - c. Property shipping information must include name, street address and phone number of accepting party.

Note – When property is released, the inmate must release everything (excluding clothing) located in the Property Section. Partial items may not be released. The exception to this is the release of a single credit card. Clothing may be released to an outside party only if sentenced to prison.

H. Personal Property Accepted at State Facilities:

Inmates sentenced to State Prison will be transported with only those items authorized by the State. This regulation is strictly enforced. State prisons will destroy excess items in accordance with State Statutes. Inmates are limited to taking only that property which will fit in an 8" x 11" x 12" box. If an inmate has unauthorized items, he/she must arrange for them to be released by mail or picked up by an outside person as outlined above.

1. Central Florida Reception Center – Only the following will be accepted:

- a. One Address Book (wallet size).
- b. Prostheses (Dentures are included) – final approval by Medical Staff.
- c. One Bible or one related religious tract.
- d. One calendar (wallet size).
- e. Fifty plain white envelopes.
- f. One pair prescription eyeglasses.
- g. Legal material – active cases only.
- h. Fifty sheets of notebook paper lined or unlined.

- i. Four pencils, wooden, non-mechanical (no Papermate-type rolling or mechanical-type ink pens).
- j. Ten personal letters.
- k. Fifty photographs, wallet size, no nudity.
- l. One book (or equivalent) of postage stamps.

2. Lowell Reception Center – Only the following will be accepted:

- a. One wallet sized address book.
- b. One pair of eyeglasses w/case (prescription only).
- c. Fifty personal photographs (no nudity or obscenities).
- d. Fifty envelopes.
- e. One book of postage stamps.
- f. Four pencils.
- g. Fifty sheets of white notebook paper lined or unlined.
- h. Legal material.
- i. Bible.
- j. Engagement ring (not exceeding \$100.00 in value).
- k. Wedding band (not exceeding \$100.00 in value).
- l. Watch (not exceeding \$50.00 in value).
- m. Religious medallion w/chain (not exceeding \$50.00 in value).
- n. Four pens (non-refillable, non-retractable).
- o. Personal Hygiene items, one each (brand new and unopened).
 - Shampoo
 - Conditioner
 - Deodorant
 - Bar of soap and case
 - Toothbrush and case (no caps)
- p. No body piercing jewelry of any kind is permissible.
- q. Hair styles including braids, piats, extensions or hair weaves, should be removed prior to being transferred to Lowell CI.

All property in excess of the specified above limits will be disposed of upon arrival at these facilities. These items shall be discarded, mailed out at inmate's expense or picked up by a family member.

I. Transported Before Release of Property

If an inmate is transported to another facility before completing an "Inmate's Permission for Property Release Form", the inmate must mail a notarized letter authorizing all of his/her remaining property be released to the designated person. This letter must give a list of the items to be released, the name, complete address and relationship of the person authorized to receive the property. *(It is the Inmate's responsibility to notify the person designated to claim the property).* Mail the letter to Pinellas County Jail, Property Section, 14400 49th Street North, Clearwater FL 33762-2877.

The person designated to receive the property must present a valid photo identification (drivers license, Florida I.D. card, etc.) before any property will be released to them. The notarized authorization letter will be kept on file in the Property Section. This process must be completed within 30 days from the date of transfer to another facility.

J. Personal Property Upon Transfer to Federal Custody

- 1. Inmates may not take any property (e.g., legal materials, personal property, etc.) with them when being transferred to Federal custody.
- 2. It is the Inmate's responsibility to arrange the release of his/her property utilizing the "Inmate's Permission for Property Release Form" or shipment of the property within 30 days from the date of transfer.
- 3. Items of property at Pinellas County Jail not released after 30 days from the date of transfer to Federal custody are considered abandoned and will be disposed of in accordance with agency policy.

K. Release of Money Upon Transfer

- 1. State Facility: Money will be mailed within 7-10 business days from the date of transfer.
- 2. County Facility: A check is written for cash funds on-hand at the time of transfer and given to the Transport Officer for delivery to the receiving facility.
- 3. Federal facilities: Checks are provided to the U.S. Marshal Service.

XXII. Inmate Grievance Procedures

Most grievances can be taken care of quickly and efficiently by voicing the complaint to any deputy. Inmates are encouraged to use this method before filing a formal complaint.

- A. If unable to resolve the grievance in this matter, submit an Inmate Request Form to the Shift Commander or Shift Supervisor asking for a "Request for Administrative Remedy Form." "The Request for Administrative Remedy Form" must be filed within three business days from the date of the incident, unless it is not feasible to file within such a period.
- B. The concerned supervisor will have up to five days from receipt of the complaint to act on the matter and provide a written response.
- C. If the complaint is of an emergency nature and threatens immediate health or welfare, a reply must be made no later than 48 hours of receipt of the complaint.
- D. If dissatisfied with the response given to a complaint, the inmate may file an appeal to the Bureau Commander using a Request for Administrative Remedy Form within three business days of receipt of the response. The Bureau Commander will forward a receipt and reply within five days from receipt. The appeal should be attached to the response of the original grievance.

XXIII. Religion

The Pinellas County Detention and Corrections Bureau provides inmates of all faith groups with reasonable and equitable opportunities to pursue religious beliefs and practices, within the constraints of budgetary limitations and consistent with the security and operational concerns of the facility. Because of security reasons, any inmate transferred from a state or federal institution will be required to place all religious items in property. The Bureau Chaplain must approve all religious paraphernalia to ensure it meets Pinellas County Jail criteria for safety and security. If the item(s) does not meet the criteria, the Chaplain's office will issue approved required items as available. If any religious concerns arise, contact the Chaplain utilizing an Inmate Request Form for information or guidance. The ability to attend worship or a group study conducted by a religious volunteer is contingent upon behavior. Violations will be dealt with according to established disciplinary procedures.

A. The following items are authorized, if they meet the Pinellas County Jail criteria:

1. **Rosary and prayer beads** are for praying and are not an essential need in the religious sense. Therefore, inmates may have a single rosary or string of beads of the approved breakaway style in their possession for their personal use. Inmates may not wear a rosary or prayer beads around the neck or wrist at any time. Rosary or prayer beads worn around the neck or wrist will be considered jewelry and will be taken as contraband. Inmates must keep their rosary or prayer beads in the housing unit and properly stored unless attending religious services; they are not to be taken to court. No metal beads and/or medallions are permitted. If the rosary or prayer beads are altered in any manner, they become contraband and will be confiscated.
2. **Headgear** must follow these restrictions:
 - a. **Koofi Cap** - If worn for everyday use, it must be made of white cloth that is either plain or crocheted. Inmates may wear Koofi caps only when attending the Jumah prayer service (not to and from), during the Quranic study (not to and from) and in their assigned housing area.
 - b. **Yarmulke** - If worn for everyday use, it must be made of black cloth. Inmates may wear Yarmulkes in their assigned housing area or for religious services (not to and from).
 - c. **Scarves or shawls** worn by female inmates may not be larger than 24 x 24 inches and may not cover the face. Inmates may wear these head coverings in their assigned housing area or for religious services (not to and from).
3. **Prayer rugs** - The Chaplain's Office will provide a piece of a blanket or a durable cloth to use when the inmate's faith practice requires it. This facility does not allow ornate colorful cloths or rugs designated for this practice. If one is in an inmate's possession, it will be placed in Property. Do not take towels and blankets used for bedding to the chapel or otherwise use them for prayer rugs.
4. **Bibles, Qurans or other Holy Scriptures** may be requested from the Chaplain's office and provided for use as available.

B. The following items are not authorized:

1. No inmate may possess scented oil, holy water or ashes. Chapel leaders and religious volunteers may receive authorization from the Bureau Commander to use these substances for the anointing of inmates during services or while visiting.
2. No open flame candles or battery powered candles. Only paper facsimiles are authorized.

XIV. Alternative Sentencing Programs

Assignment into an Alternative Sentencing Program is based on an inmate meeting the qualification criteria. If not prohibited by the judge at the time of sentencing. For additional information, contact the Alternative Sentencing Unit Supervisor via an Inmate Request Form.

- A. **Electronic Monitoring Program** - This program allows selected, low risk, offenders to be fitted with an ankle bracelet and monitored while completing the terms of their sentence. It provides a more positive transition back into the community and reduces the cost of incarceration to the County. Inmates must meet the qualification criteria to be considered for the program. If not eligible or, if once on the program, the inmate violates the conditions, he/she will be returned to jail to serve the remainder of the sentence on straight time.
- B. **Day Reporting Program** - This jail diversion program targets low risk, non-violent county sentenced offenders to perform community services at various governmental and non-profit agencies in Pinellas County. This is with the community service agency's approval and is in lieu of serving jail time. Inmates must meet the qualification criteria to be considered for the program. If not eligible or, if once on the program, the inmate violates the conditions, he/she will be returned to jail to serve the remainder of the sentence on straight time.

XV. Inmate Marriages

The Bureau Commander retains final authority on all inmate marriage requests. The following is a list of steps for inmates interested in the procedure for marriage while housed in the Pinellas County Jail.

- A. All inmate marriage requests will be directed to the Bureau Commander via an Inmate Request Form. Such requests will be liberally allowed. However, the Bureau Commander may deny a marriage request if there is information the marriage will cause a threat to security, order or public safety.
- B. If allowed, the petitioner must obtain a marriage license from the Clerk of Courts' office by following their license procedures.
- C. All inmate marriages shall be conducted through video visitation. Once the marriage license has been obtained, the requestor should contact the Pinellas County Jail's Video Visitation Center to make arrangements with a date and time for the marriage ceremony.
- D. The requestor must provide a Notary Public or a clergy member who can legally perform the marriage ceremony.
- E. A social worker will assist the requestor in obtaining any necessary signatures.

XVI. Reports of Sexual Abuse/Assault

The Pinellas County Sheriff's Office is committed to upholding the Eighth Amendment Rights of all detainees as required by the Prison Rape Elimination Act of 2003 (117 STAT. 972 PUBLIC LAW 108-79, September 4, 2003).

- A. Any sexual activity involving inmates, including consensual acts, is strictly prohibited and no individual has the right to pressure another to engage in sexual acts. Involvement or knowledge of such acts should be reported immediately.
- B. Following these tips will not guarantee you are not attacked, but may help decrease risk.
 1. Carry yourself in a confident manner.
 2. Remain alert and be aware of your surroundings.
 3. Avoid isolated areas whenever possible.
 4. Do not project fear or anxiety around other inmates.

5. Do not accept an offer from another inmate to be your protector.
 6. Involve yourself in positive activities (educational, self-help, religious programs, etc.)
 7. Trust your instincts; if you feel unsafe, voice concerns to a staff member.
- C. Violations of sexual abuse and/or sexual assault will be investigated and prosecuted to the fullest extent of the law, including administrative sanctions and/or criminal prosecution.
 - D. Reporting – Any incidence of sexual abuse or sexual assault while in custody should be reported immediately. A report of sexual assault can be made directly to a staff member or via an Inmate Request Form; to speak with a detention supervisor, chaplain or social worker or, use a Form 82 to speak with healthcare staff.
 - E. Confidentiality - If an inmate reports sexual abuse or assault, confidentiality will be maintained with regard to all information obtained during the course of the investigation. Only those with a legitimate "need to know" will be provided facts for investigation and prevention purposes.
 - F. Protecting the Victim – Every effort will be made to protect the victim from further harm. If he/she cannot, or will not identify the individual(s) involved in the sexual assault, he/she does not give up the right to receive protection from the assailant(s).
 - G. Medical Assistance - Sexual abuse/assault victims will be evaluated and provided medical treatment and follow-up care, as appropriate.
 - H. Counseling - Most people need help recovering from the emotional effects of a sexual assault. A qualified mental health professional will provide crisis intervention counseling and coping skills and will monitor for the necessity of long term support. Any inmate at risk for, or having a history of victimization or sexually aggressive behavior, and is interested in self-initiated counseling may contact any staff member or complete an Inmate Request Form.
 - I. False Accusations - Pursuant to Florida Statute, it is unlawful to falsely accuse any person of sexual assault/rape and is punishable by law.

XVII. Release Preparation

Upon Release From:

- A. Housing Area – Gather all belongings when called for release. Inmates are responsible to remove all of his/her belongings, personal as well as jail issued. The released inmate will be taken to a dress-out area and his/her property will be returned; money will be returned at a separate location.
- B. Court – If an inmate goes to advisory court and is released by the judge, he/she will return to their assigned housing area to gather belongings and wait for the Inmate Records Section to complete the proper clearance of paperwork. This process could take several hours. To be eligible for the "release from court" process, the "Application for Release Pending Not Guilty Verdict" form must be completed. This form will be sent to Inmate Records for processing prior to your court date. When a judge has ordered the release at the conclusion of the court proceeding, the bailiff will initiate the release process. Upon approval and proper clearance for release, the bailiff will affect the release from the court room. EXCEPTION: If the inmate is in jail-issued clothing, he/she will return for normal release procedures.
- C. Social workers are available to discuss pertinent outside agency admission criteria and referral procedures for inmates upon release.
- D. Helpline Information and Referral Telephone (24 hours a day, 7 days a week): 211 (Tampa Bay Cares, Inc.) provides information regarding housing, shelter and many other services for released offenders.
- E. In accordance with Florida Statutes, a released inmate may be required to provide a DNA sample prior to release from jail.

PAUL K. SPANGLER, RMR
OFFICIAL UNITED STATES COURT REPORTER

1 THE PROBATION OFFICER: Yes, Your Honor.

2 THE COURT: -- supervised release. Okay.

3 All right. Ms. Peluso, do you know of any reason
4 why this Court should not now proceed with imposition of
5 sentence?

6 MS. PELUSO: No, ma'am.

7 THE COURT: Do you wish to make a statement with
8 respect to what an appropriate sentence for this gentleman
9 would be, recognizing the guidelines call for 108 to 135
10 months, and also recognizing that down the road you intend
11 to, if everything plays out the way you think it will, to
12 ask for a Rule 35 on his behalf?

13 And I also have the sentences that I've imposed to
14 the co-defendants, which are Fernandez, Jr. 24 months,
15 Fernandez, III 63 months, Beltran 188 months and Curtis 48
16 months is what I have.

17 Okay. I'll hear you now.

18 MS. PELUSO: Yes, ma'am. I believe there's a
19 low-end provision in the plea agreement, so we have to abide
20 by that.

21 THE COURT: Okay. So that's your recommendation
22 then to 108 months?

23 MS. PELUSO: Yes, ma'am.

24 THE COURT: Okay.

25 All right. Thank you.

1 All right, Mr. Brown, do you know of any reason
2 why this Court should not now proceed with imposition of
3 sentence?

4 MR. BROWN: Yes, Your Honor. I have a -- I think
5 I filed a sentencing memorandum containing some grounds for
6 departure.

7 THE COURT: Yes, sir. And thank you. I read it
8 when you filed it, and I re-read it today, so I do have
9 that. And that's been filed under seal.

10 I also have the letters that have been submitted
11 on his behalf. I don't remember. Are those under seal or
12 no?

13 MR. BROWN: No, the letters were not, Your Honor.

14 THE COURT: Okay.

15 So I have several letters here. And I thank his
16 friends that have come forward and written those letters on
17 his behalf.

18 And I'm happy to hear from -- from anybody, or any
19 other arguments you'd like to make, Mr. Brown.

20 And Mr. Switlyk, you also have the right to
21 address the Court. You don't have to, but I wanted to make
22 certain that you understand that you have that right. Do
23 you understand that, Mr. Switlyk?

24 THE DEFENDANT: Yes. I wrote up a little speech I
25 was going to say.

1 THE COURT: Okay. Well, I'll get to you in just a
2 moment. Let's see what Mr. Brown wants to do.

3 MR. BROWN: Judge, can I see if there's people
4 that still intend to testify one second?

5 THE COURT: Okay. Of course. I'm happy to hear
6 them.

7 (Pause.) (3:15 p.m.)

8 MR. BROWN: Introduce yourself to the Court.

9 MS. BARROR-LEVINE: Okay.

10 Hi, Your Honor. My name is
11 Jennifer Barror-Levine, and I'm a psychologist working here
12 in Tampa. And I was asked by Mr. Switlyk and his friend to,
13 uh, complete an evaluation of him and, if necessary, provide
14 treatment to him, which I did do.

15 I began seeing Mr. Switlyk -- or a complete
16 evaluation in September of 2012, and I have seen him
17 consistently up until last Friday.

18 So, uh, originally when I saw Mr. Switlyk, uh, my
19 original evaluation was three to four hours. And it became
20 very clear and apparent after really getting a very
21 substantial history from him that he did endure some trauma
22 as a child and was not able to really kind of bond with his
23 parents. I'm sure you're familiar with all that since
24 you've read it.

25 THE COURT: I read that.

1 M.S. BARROR-LEVINE: So I really did feel that he
2 had some psychological factors that were impeding his
3 ability to really act within the certain character. And
4 because of those historical events, he did have that
5 impaired judgment behavior, uh, and just was not competent
6 to make sound decisions. And that was also, you know, seen
7 and demonstrated in relationships that he was having, just
8 making poor choices.

9 As a result of all this, he, uh, really was
10 self-medicating through different substances, and that only
11 exacerbated his problems significantly.

12 So throughout the course of treatment I will say
13 he has made substantial improvements in really gaining
14 insight into how his history has really impacted him, his
15 medical, uh, you know, psychiatric diagnosis -- diagnoses
16 that do really affect him and impede his ability to make
17 sound decisions.

18 And he's gained significant insight and he's been
19 able to, uh, acknowledge where some of his faults are,
20 accept responsibility and really try to move forward in a
21 very proactive manner, which is what he's doing with this,
22 uh, cooperation.

23 And we've really worked together on what is he
24 going to do in the future and how is he going to be able to
25 make sound decisions.

1 He's engaged in a very healthy relationship with
2 Cairo -- Carol Delo [sic], excuse me, and it's -- it's
3 really quite healthy. I've met with her as well.

4 And I do feel that Mr. Switlyk now does understand
5 how the substance abuse, uh, and use does affect his ability
6 to make those decisions. And he is being very proactive.

7 And he was being proactive before I saw him. He
8 was seeing Dr. Egger. And I do have some of Dr. Egger's,
9 uh, reports and progress notes that was showing that he was
10 really, uh, independently trying to move forward in that
11 direction.

12 So I can state that I do feel like he is making
13 progress. And without doubt he's going to need continued
14 care, uh, continued, you know, psychotherapy and medication
15 management. But with that, I do feel like he can, uh,
16 remain stable, which will allow him to sort of carry on and
17 be a productive member of society and make better choices
18 and decisions.

19 THE COURT: Well, thank you. That was very
20 helpful. I appreciate it.

21 MS. BARROR-LEVINE: Thank you.

22 THE COURT: You're welcome.

23 Mr. Brown.

24 MR. BROWN: Thank you, Your Honor.

25 Your Honor, as the Presentence Report indicates, I

1 think it's reflective of the fact that nobody from his
2 immediate family is here. His mother I don't think agreed
3 to participate with Probation, uh, wouldn't even come to the
4 defense of the son. The father would have nothing to do
5 with him, brothers who should -- one's a lawyer who knows
6 the importance of coming to court. Nobody is here from his
7 family.

8 But on the whole back row is his adopted family.
9 It's his girlfriend, her sister, the mother and other
10 friends of the family that I think have -- have done a lot
11 to bring him to where he is.

12 I know the Court read my sentencing memorandum
13 where I outlined where he began to cooperate and then hired
14 lawyers. And there was some conflict of interest. I have
15 the transcript that was held in front of Judge Jenkins.

16 And then I will say that when I got hired by the
17 family to come on board this case, they've done a tremendous
18 job bringing Chris back to probably where he was at one
19 point. And I'm confident that he can become a productive
20 member of society when he's out on supervised release.

21 Uh, but I think it is illustrative that he did
22 suffer the abuse and then not one member of his immediate
23 family is here, which is very sad.

24 But I would like to inform the Court of some good
25 news that he has been cooperating since I've been on this

1 case since June. I think he's done over 4,000 hours worth
2 of cooperation with various agents. I know one of the
3 agents, Agent Harris, is here. There's a lot of agents that
4 he's working with.

5 The reason he can do this work is he had a video
6 set up at the pharmacy because he wasn't there during the
7 days. He had pharmacists that were doing this. As you
8 know, Mr. Beltran was working there, Kim Curtis was working
9 there.

10 But everything was on video. It was not something
11 that he was watching at the time, and -- and should have
12 been, but now he's had the ability to go over these videos
13 and see the different transactions that were occurring. And
14 these are what he's been working with with the agents.

15 He's able to identify -- agents are able to
16 identify individuals that were coming in buying these
17 controlled substances. Uh, they were able to see other
18 people that were involved such as another pharmacist who
19 they may be indicting that was working there during the day
20 not doing her job.

21 So he has begun to cooperate and he's done some
22 extensive work, so I think we'll -- we will hopefully be
23 back here on a Rule 35.

24 But at the time, I have the sentencing memorandum,
25 I know the Court's read it, I've been with this Court .

1 before, so I know that I can rely upon the Court and the
2 motions.

3 As you know, there's a grounds for a departure for
4 a conflict of interest. There's one for the ineffective
5 assistance of counsel.

6 Uh, as you know, the two Louis' [sic] in this case
7 got 10 -- I said -- I think I said 10 and seven. That was
8 incorrect. It was 10 levels and 10 levels. They were able
9 to make a lot of cases.

10 Mr. Switlyk could have made just as many cases.
11 Unfortunately no agent -- no lawyer told Agent Shearer that
12 at the time, so...

13 THE COURT: You know, there are a couple of issues
14 here, Mr. Brown. First of all, I don't think I've ever seen
15 such a substantial reduction in sentence as I have for
16 the --

17 MR. BROWN: Two Louis'?

18 THE COURT: The Fernandezes I think is who it was,
19 the Fernandezes. Just a very, very significant reduction in
20 sentence. And they're not finished yet because they're also
21 looking at a Rule 35. But I know what the Government wants
22 their sentenced reduced by because I think that's what was
23 initially filed. So I know what the Government's looking
24 at.

25 But as you know, our system depends on that. I

1 mean, I think it's -- it's extraordinary the reduction that
2 I've seen. I've -- you know, in the eight years now, I've
3 been a District Court Judge going on eight years I think,
4 I've not seen anything that substantial.

5 So I basically trust the Government that they are
6 doing it appropriately. As I've always said, they are the
7 ones that have the -- the strongest vested interest in
8 making certain that these reductions are handled fairly and
9 appropriately, and I tend to trust them. It would be very
10 unusual for me not to go with what they've said.

11 So obviously the Fernandezes have given
12 substantial and profound cooperation. What you're asking me
13 to do here is -- is a leap, Mr. Brown.

14 MR. BROWN: Pardon me?

15 THE COURT: It's a leap. You're asking me to
16 leap, and I'm really not prepared to do that at this
17 juncture. Doesn't mean that down the road I won't consider
18 this.

19 You've raised some very serious concerns in your
20 in camera filing. That's the only way I'll put it, just
21 some very serious concerns. And certainly I think that
22 it -- to really flush out those issues requires more than
23 what you filed.

24 What you've given me is part of the story, and
25 obviously there's another part of that story. And I think

1 to be fair to your client and to be fair to the other people
2 who are mentioned in that, I would be very hesitant to do
3 anything on that without the benefit of some type of
4 hearing.

5 And there are ways of doing those hearings so
6 that, you know, everybody's reputation, everybody is
7 protected. I mean, I'm hesitant to hold hearings in camera
8 because courts are open proceedings, and we don't like to do
9 that. But I think that something like this, maybe there's a
10 way of doing it.

11 But I'm very hesitant with -- I feel like I have
12 half the story. Maybe the rest of the story is consistent
13 with what you've told me, but I think in all fairness to
14 everybody, I need to hear the whole story.

15 MR. BROWN: Your Honor, a lot of that came from
16 the transcript of the hearing that was in front of
17 Judge Jenkins. It's been transcribed. And a lot of that
18 was from that. There was a hearing.

19 I was not the lawyer at the time, but there was a
20 lawyer representing Mr. Switlyk. And a lot of this came
21 from that hearing in front of Judge Jenkins. I think that
22 transcript is filed. I can certainly provide that to the
23 Court. I'd be more than happy to do that.

24 THE COURT: Well, and I know that there were
25 several lawyers who represented him. I mean, I remember

1 going through the statutes.

2 MR. BROWN: But the issues that I raised regarding
3 conflict of interest came from that transcript.

4 THE COURT: Just that. I understand from --

5 MR. BROWN: That was all flushed out then.

6 THE COURT: I understand that.

7 MR. BROWN: Okay.

8 THE COURT: But you're asking me to factor that in
9 and to reduce his sentence the way it would have been had he
10 been given the opportunity from day one to cooperate.
11 That's a leap that I'm really not prepared to take. Doesn't
12 mean that I won't consider it.

13 I'll tell you what, I will look at that
14 transcript.

15 MR. BROWN: Okay.

16 THE COURT: In all fairness to your client, I'll
17 look at that transcript, but -- but it's asking me almost to
18 give him credit for the cooperation that you're representing
19 to me today he would have been willing to do, but didn't
20 really -- but didn't do because you say he wasn't given the
21 opportunity. That's -- that's what you're asking me. I --
22 I -- I think that that is -- as I said, it's too much of a
23 leap.

24 MR. BROWN: Okay.

25 THE COURT: But I'll -- I'll look -- I'll look at

1 that transcript and I'll consider it when we look at his
2 Rule 35.

3 MR. BROWN: Okay.

4 THE COURT: But I'm not prepared to do that today.

5 MR. BROWN: Okay.

6 I think the only other issue that I had on the
7 sentencing memorandum was what basically Ms. Levine just
8 spoke to you about. I think it was all of the diminished
9 capacity.

10 THE COURT: Oh, yes. No, I -- I saw that. He --
11 he's obviously -- and I don't think he'll mind me saying
12 this. He's very bright. From everything that I've seen, he
13 has -- from what the reports say, he's somebody who's very
14 good with numbers and is probably very good with science
15 too. He just obviously had a very difficult upbringing,
16 which has very profound impact --

17 MR. BROWN: Thank you for --

18 THE COURT: -- on him down the road. I completely
19 understand that. And some separate issues that probably
20 don't necessarily have anything to do with his upbringing,
21 independent issues, so I -- I know that he has had a -- a
22 rough road there. I -- I recognize that.

23 MR. BROWN: Thank you, Your Honor. (3:28 p.m.)

24 THE COURT: All right. Anything else?

25 Mr. Switlyk, do you wish to address the Court?

1 THE DEFENDANT: Yes, I do.

2 THE COURT: You can just sit down and speak into
3 that microphone. That's perfectly fine.

4 THE DEFENDANT: I wrote this, and I'll just read
5 it.

6 I am sorry for -- oh, that's loud. Sorry.

7 I am sorry for participating and profiting from
8 this drug conspiracy, and I take full responsibility for my
9 part in it. I was a very careless business owner who did
10 not have my priorities in order at the time.

11 I have cooperated with the Government from day one
12 of this investigation. I immediately turned every penny I
13 had over to them voluntarily. I was also one of the first
14 people in the proffer. I also voluntarily closed my
15 pharmacy and turned over all my medications to them nearly
16 three years ago now.

17 Since then I lost those three years of my life
18 meeting with attorneys and following their ineffective
19 advice and never being able to keep up with their mass of
20 legal fees.

21 I lost everything I had because of the bad choices
22 I made while I owned that pharmacy. Everything I owned,
23 including my house, my cars, my savings is all gone. I
24 still owe wholesalers several hundred thousands of dollars
25 and have to cope with being in serious debt now as well.

1 I also lost the six years of my life I spent
2 working hard and studying even harder to get through
3 pharmacy college for a career that is now gone. Worst of
4 all, I lost -- I lost the love and support of my family and
5 my freedom, which is more important to me than anything else
6 in this world.

7 Operating that pharmacy the way I did was a big
8 mistake that I definitely learned from. I do not want my
9 life to be judged by the poor choices I made during the
10 short time I owned it.

11 Over a year ago now I personally sought out
12 counseling because I wanted to better my life and learn how
13 my history has affected my poor decision-making. Through
14 therapy with Dr. Egger and Dr. Levine I was able to gain
15 more insight and awareness and learn how to be proactive and
16 conduct myself in a productive manner.

17 I have maintained my relationship with my
18 girlfriend, Carol Delo, even though I have been in jail for
19 the past 10 months now. She has continued to support me
20 throughout this extremely difficult time in my life. Carol
21 has been the stable force that I've never had in my life
22 before meeting her in 2011.

23 I plan to associate and surround myself with only
24 quality individuals like her from now on. I now know what
25 is truly important in life and what really matters to me. I

1 now know how to prevent myself from getting into a similar
2 situation like this ever again. From now on my top -- from
3 now on my top priority will be to always obey all laws and
4 never again put my freedom in jeopardy for anyone or
5 anything.

6 I intend to positively contribute to society
7 any way I can in my future. I sincerely apologize for my
8 actions which led me to be here in front of you today. I
9 hope you'll consider giving me a chance to become the asset
10 to society I know I can be and will be for the rest of my
11 life.

12 Thank you.

13 THE COURT: Thank you.

14 And I notice also that your girlfriend's father
15 wrote a nice letter on your behalf. There aren't all that
16 many people that would be willing to stick their neck out on
17 the line, and he did. So I agree that's a very nice
18 supportive family standing behind --

19 THE DEFENDANT: They're a lot more supportive than
20 my own family.

21 THE COURT: Well, you know, sometimes adoptive
22 families are just as good, if not better.

23 THE DEFENDANT: I've written my dad and mom eight
24 letters since I've been in jail the past 10 months, and they
25 haven't written back once. And my girlfriend, she -- she

1 called my mom to wish her Mother's Day when I first got in
2 there. And she said, oh, thank you. I got to go. And then
3 she just hung up. It's probably on the recorded phone calls
4 if you want to listen to it.

5 THE COURT: Well, that's pretty bad, I agree.
6 That's pretty unfortunate.

7 THE DEFENDANT: And none of them have come to see
8 me. I actually had a friend from New York I haven't seen in
9 years. He flew down and seen me in jail.

10 THE COURT: Well, a lot of people as I said, they
11 form their own families whether it's an adoptive family like
12 you have here or friends become their families. And that's
13 a --

14 THE DEFENDANT: And also just because I may have
15 mentioned to the Probation, Diane that I may apply for my
16 license in 10 years, that doesn't mean I'm going to get it.
17 The chances are probably slim to none I'll get reinstated
18 anyways.

19 THE COURT: Well, I know. You have that right,
20 though. That's something that, you know, if they contact me
21 10 years from now, I'll say what I think, but the --

22 THE DEFENDANT: I mean, I worked as a pharmacist
23 for 10 years before I had this pharmacy. I never got in any
24 trouble and never misfilled a prescription, you know.

25 I mean, I always helped all the customers and

1 answered any of the questions they had for me as best I
2 could and -- and always went out of my way to print out, you
3 know, documentation for any of the side effects or, you
4 know, uh, drug interactions that -- you know, any questions
5 pertaining to any of that stuff.

6 I always, you know, would go out of my way and I'd
7 go out -- even when I worked at Walgreens, I'd always go out
8 and show people where all the stuff was for the
9 over-the-counter supplements. And, you know, I -- I mean, I
10 was always a good pharmacist when I -- when I worked at
11 other companies.

12 THE COURT: Well, that'll be something that'll be
13 looked at down the road. The Government didn't forfeit it,
14 so it's all -- it's all a moot point right now.

15 All right. Any -- anything else before I
16 pronounce sentence? Because I am ready to do it.

17 Anything else from the Government?

18 MS. PELUSO: No, Your Honor.

19 THE COURT: All right.

20 Anything else from the defendant?

21 MR. BROWN: No, Your Honor.

22 THE COURT: Okay.

23 Anything from Probation to add at this juncture?

24 THE PROBATION OFFICER: No, Your Honor.

25 THE COURT: Thank you.

1 The Court has asked the defendant why judgment
2 should not now be pronounced, and after hearing the
3 defendant's response, the Court has found no cause to the
4 contrary.

5 The parties have made statements in their behalf
6 or have waived the opportunity to do so, and the Court has
7 reviewed the Presentence Report.

8 Pursuant to Title 18, United States Code, Sections
9 3551 and 3553, it is the judgment of the Court that the
10 defendant, Christopher Switlyk, is hereby committed to the
11 custody of the Bureau of Prisons to be imprisoned for a term
12 of 108 months.

13 This term consists of terms of 108 months on Count
14 One and 108 months on each of Counts Five and Six, all such
15 terms to run concurrently.

16 Upon release from imprisonment, you shall serve a
17 three-year term of supervised release. This term consists
18 of a three-year term as to Counts One, Five and Six, all
19 such terms to run concurrently. While on supervised
20 release, you shall comply with the standard conditions
21 adopted by the Court in the Middle District of Florida.

22 In addition, you shall comply with the following
23 special conditions:

24 You shall participate in an alcohol abuse program,
25 outpatient and/or inpatient, and follow the Probation

1 Officer's instructions regarding the implementation of this
2 Court directive.

3 Further, you shall contribute to the costs of
4 these services not to exceed an amount determined reasonable
5 by the Probation Office's sliding scale for substance abuse
6 treatment services. During and upon the completion of this
7 program, you are directed to submit to random drug testing.

8 You shall participate in a mental health treatment
9 program, outpatient and/or inpatient, and follow the
10 probation officer's instructions regarding the
11 implementation of this Court directive.

12 Further, you shall contribute to the costs of
13 these services not to exceed an amount determined reasonable
14 by the Probation Office's sliding scale for mental health
15 treatment services.

16 You shall refrain from engaging in any employment
17 relating to dispensing prescription drugs either in a
18 pharmacy, pain clinic or other medical environment.

19 The defendant having been convicted of a
20 qualifying felony shall cooperate in the collection of DNA
21 as directed by the Probation Officer.

22 The mandatory drug testing requirements of the
23 Violent Crime Control Act are imposed. The Court orders the
24 defendant to submit to random drug testing not to exceed 104
25 tests per year.

1 Based on the financial status of the defendant,
2 the Court waives imposition of a fine.

3 The Court orders that the defendant forfeit to the
4 United States immediately and voluntarily any and all assets
5 previously identified in the final judgment of forfeiture
6 for specific assets filed on February 5th, 2013.

7 It is further ordered that the defendant shall pay
8 to the United States special assessments totaling \$300,
9 which shall be due immediately.

10 After considering the advisory guidelines and all
11 of the factors identified in Title 18, United States Code,
12 Sections 3553(a)(1) through (7), the Court finds that the
13 sentence imposed is sufficient but not greater than
14 necessary to comply with the statutory purposes of
15 sentencing.

16 The Court has accepted the plea agreement because
17 it is satisfied that the agreement adequately reflects the
18 seriousness of the actual offense behavior, and that
19 accepting the plea agreement will not undermine the
20 statutory purposes of sentencing.

21 Under the plea agreement the defendant has entered
22 a guilty plea to Counts One, Five and Six in return for the
23 dismissal of Counts Two, Three and Four.

24 Is that correct, Ms. Peluso, Counts Two, Three and
25 Four of the Indictment should be dismissed?

1 MS. PELUSO: Yes, ma'am.

2 THE COURT: Okay. So I'll go ahead and do that.

3 Mr. Switlyk, first of all, you will have an
4 opportunity if your cooperation continues to have an
5 additional reduction in sentence, so that's something that
6 is available to you. And I will also revisit those other
7 matters that Mr. Brown and I have discussed and which is the
8 subject of his in camera filing.

9 You know, I understand you had a rough time,
10 there's no doubt. Reading about this, somebody who grows up
11 as the child of two doctors, right? Your mother was --

12 THE DEFENDANT: Yeah, my --

13 THE COURT: -- an internal medicine --

14 THE DEFENDANT: My parents are both doctors and so
15 are my aunt and uncle. They all went to Albany Medical
16 College.

17 THE COURT: You should have had every opportunity
18 available to you. And it really is tragic what I have read
19 in this report. It's certainly very sad.

20 But, you know, you certainly have the brain power
21 there. You're a smart fellow. And that counts for a lot.
22 And so you need to, you know, just use that brain power to
23 try to, you know, get ahead.

24 When you're going to serve your time in prison and
25 you're released and whatever it is that you do when you're

1 released, you have a college degree, which is better than a
2 lot of people have, and you have an education in a field
3 that's not easy to get a degree in. So you certainly have
4 that.

5 And it really is true. You know, the
6 United States, we're -- we're a forgiving country here. You
7 have people who have committed really bad crimes concerning,
8 for instance, violation of public trust. And you know what,
9 they bounce back. They bounce back. And there's no reason
10 why you can't be that way too. You can certainly bounce
11 back.

12 And I'm glad to see that you're getting the
13 professional help that you need. I'm also glad that you
14 have a nice girlfriend. I think that that really counts for
15 a lot. And the fact that you have a nice family, your
16 girlfriend's family is supporting you, that obviously counts
17 for a lot.

18 Now, I will tell you what I've discarded. There
19 is some information here about when you were out on pretrial
20 release. I think the U.S. Attorney's Office had filed some
21 charges -- or were thinking about filing some charges; is
22 that right, Ms. Peluso?

23 MS. PELUSO: Yes, ma'am.

24 THE COURT: All right. So eventually they didn't
25 file the charge or they didn't move forward with those

1 charges, so I basically discounted that.

2 But let that just be a word to the wise. When
3 you're out on supervised release, you don't do any of those
4 things. I mean, you just stay on the straight and narrow,
5 okay? And by that, I mean no traffic tickets. The things
6 that you might ordinarily think are not a big deal are a big
7 deal when you're on supervised release. Do you understand
8 that?

9 THE DEFENDANT: Yeah, I understand. I haven't had
10 a traffic ticket in probably six or seven years, I think.

11 THE COURT: All right. Well, good. Well, I just
12 used that as an example --

13 THE DEFENDANT: Yeah.

14 THE COURT: -- because that's the most benign
15 infraction. I'm talking about using drugs.

16 THE DEFENDANT: I got you.

17 THE COURT: Don't do any of that stuff because
18 apparently something happened there. I don't know what it
19 was. I didn't factor it in. As far as I'm concerned, it's
20 not exactly a nonissue, but I didn't use it in terms of
21 determining what an appropriate sentence is. It's just -- I
22 would just say it's a little red flag.

23 So I'm just telling you, word to the wise, you
24 need to be on your best behavior when you're released from
25 prison and you're on supervised release, particularly during

1 that time. All right?

2 THE DEFENDANT: Yeah, I -- yes, I understand,
3 Your Honor.

4 THE COURT: Okay. All right. But basically I've
5 given you the benefit of the doubt, bottom of the guidelines
6 here. And you'll have another opportunity to be here later
7 on for a reduction in sentence, if appropriate.

8 The Court having pronounced sentence, does counsel
9 for the defendant or Government have any objections to the
10 sentence or to the manner in which the Court pronounced
11 sentence, other than those previously stated for the record?

12 Ms. Peluso?

13 MS. PELUSO: No, ma'am.

14 THE COURT: Mr. Brown?

15 MR. BROWN: No, Your Honor.

16 THE COURT: Okay.

17 The defendant is remanded to the custody of the
18 United States Marshal to await designation by the
19 Bureau of Prisons.

20 Where would you like me to recommend that you be
21 housed?

22 MR. BROWN: Judge, he would ask that you recommend
23 Coleman. And also if you could recommend the 500 hours of
24 intensive drug treatment.

25 THE COURT: All right.

1 Any problem with that? Any objection to that from
2 Probation, the 500-hour intensive drug treatment program, or
3 the U.S.?

4 THE PROBATION OFFICER: No, Your Honor.

5 THE COURT: Okay.

6 I recommend that you be housed in Coleman so that
7 your family and friends are able to visit you. I recommend
8 that you be evaluated for the intensive 500-hour drug
9 treatment program.

10 What other recommendations, Mr. Brown? He has a
11 college degree. At least for a period of time he's not
12 going to be able to work as a pharmacist, so he's going to
13 have to do something else. What would you like me to
14 recommend in terms of training?

15 MR. BROWN: Any other type of training?

16 THE DEFENDANT: I mean, I know a lot about
17 computers.

18 MR. BROWN: Computers would be great. He has the
19 ability to actually take a whole computer apart and put it
20 right back together.

21 THE DEFENDANT: Computers.

22 THE COURT: I saw that. He fixed the girlfriend's
23 computer from a distance as opposed to the people at her
24 office or somebody. I forgot who it was. But he fixed her
25 computer.

1 That's fine. I recommend that you take computer
2 classes so that you can receive whatever certification is
3 appropriate in that type of work.

4 Anything else that you want me to recommend? I
5 think that's a real good one.

6 MR. BROWN: In culinary arts, Your Honor.

7 THE COURT: Pardon me?

8 MR. BROWN: Culinary arts.

9 THE COURT: Culinary arts. Okay. That's good
10 too.

11 I recommend that you be -- you receive training,
12 if that is available, in culinary arts, but I think
13 computers would provide a really good livelihood to him. So
14 I certainly recommend both of those.

15 All right. You have the right of appeal from the
16 judgment and sentence within 14 days from this date.
17 Failure to appeal within the 14-day period shall be a waiver
18 of your right to appeal. The Government may file an appeal
19 from this sentence.

20 You are also advised that you are entitled to
21 assistance of counsel in taking an appeal. And if you are
22 unable to afford a lawyer, one will be provided for you.

23 If you are unable to afford the filing fee, the
24 Clerk of the Court will be directed to accept the notice of
25 appeal without such fee.

1 All right. We're in recess.

2 I do just want to talk to Ms. Peluso and Mr. Brown
3 on that matter that we were discussing, that in camera
4 issue. So I know you've got your client -- your client's
5 family there. If they can just be patient, I would like to
6 talk to you.

7 And I can't let you have any contact, Mr. Switlyk,
8 with the people who are here. That's for security reasons.
9 So I'll just tell you rather than having you ask me or the
10 Marshal Service having to tell you, we can't permit it
11 because of security concerns. All right?

12 THE DEFENDANT: I understand.

13 THE COURT: Okay. Thank you.

14 This doesn't have to be on the record. It's not
15 on the record.

16 (Thereupon, there was an off-the-record in camera
17 discussion at the bench.)

18 THE COURT: All right. We're in recess. Thank
19 you, everybody.

20 (Thereupon, hearing was concluded at 3:50 p.m.)

EVALUATION

PATIENT'S NAME: Christopher Switlyk

DATE: 06-18-2010

The *Millon Clinical Multiaxial Inventory-III* showed that on the basis of the test data, and assuming denial is not present, it may be reasonable to assume that Christopher is exhibiting psychological dysfunction of mild to moderate severity. It appears that Christopher fits the following Axis II classifications best: Depressive Personality Traits, Dependent Personality Traits, Avoidant Personality Features, and Antisocial Personality Features. The major complaints expressed by Christopher take the form of distinct Axis I clinical syndromes in the areas of Major Depression (recurrent, severe, without psychotic features), Generalized Anxiety Disorder, and Alcohol Abuse.

CRITERIA FOR DEPENDENCE: In the last year, he has shown alcohol abuse issues with increased tolerance to alcohol and continued use after legal consequences.

DIAGNOSIS:

- Axis I: Alcohol Abuse, R/O Dependence
Compulsive Behavior which includes gambling and sexual issues
R/O Major Depressive Disorder by history
R/O Anxiety Disorder by history
- Axis II: R/O Personality Disorder, NOS
- Axis III: Acne
- Axis IV: License, job and financial issues-severe
- Axis V: GAF < 60

A general authorization for the release of medical or other information is NOT sufficient for this purpose. The Federal rules restrict any use of the information to criminally investigate or prosecute any alcohol or drug abuse patient.

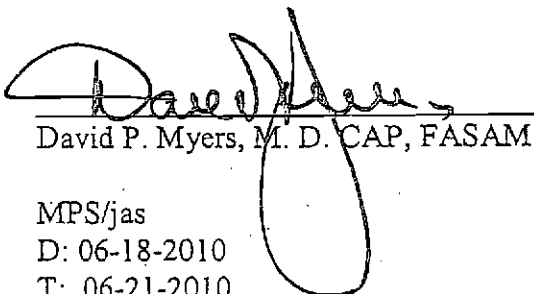

ASAM DIMENSIONS:

1. Acute Intoxication and/or Withdrawal Potential: low
2. Biomedical Conditions and Complications: none
3. Emotional, Behavioral, or Cognitive Conditions and Complications: unstable
4. Readiness to Change: willing
5. Relapse/Continued Use, Continued Problem Potential: not available
6. Recovery Environment: fair to poor

DISCUSSION: It appears at this time there is abuse vs. dependence as well as several legal issues involved in Christopher's case at this time, which complicates his case. In regard to his dependency and compulsive behaviors that include gambling and sex, and alcohol abuse R/O dependence, it would be difficult to make a formal diagnosis at this time.

It is recommended that Christopher enter into a 7-day inpatient evaluation at a facility that is

recommended for medical professionals and approved by PRN, the goal being to make definitive recommendations in regard to his Alcohol Abuse, R/O Dependence and Compulsive Behaviors with Sex and Gambling. Also further psychiatric and psychological evaluations should be performed to determine whether there are Axis II issues as well to be addressed.

FORENSIC PSYCHIATRIC EVALUATION

NAME: Christopher Switlyk
CASE NO.: 8:10-cr-00530-VMC-AEP
DATE OF EVALUATION: December 14, 2011

IDENTIFYING INFORMATION: This thirty-three year old, single, white male was seen in my office on December 14, 2011. He and others are charged in federal court with Conspiracy to Possess, Dispense and Distribute Oxycodone, to use a Registration Number Issued to Another Person and to Obtain Possession of Controlled Substances by Misrepresentation, Fraud, Forgery, Deception or Subterfuge as a result of events which occurred from 2005 to 2010. The defendant and one of the other co-defendants are also charged with Conspiracy to Conduct Financial Transactions involving the Proceeds of an Unlawful Activity and to Engage in Monetary Transactions for Property Derived from an Unlawful Activity. The defendant and the same co-defendant are also charged with Engaging in Monetary Transactions for Property Derived from an Unlawful Activity as a result of events which occurred from April 21 to April 30, 2010. He was referred for psychiatric evaluation by his attorney, Gregory W. Kehoe. The purpose of the evaluation was to render an opinion regarding the defendant's mental condition and need for treatment. He was informed of the purpose of the evaluation and that a report would be forwarded to Mr. Kehoe which may be introduced as evidence in his case. He was informed that this examiner may testify in deposition or in court regarding the results of the evaluation. He understood and agreed to cooperate.

advantage of or mistreated by others. Feelings of bitterness and resentment were indicated. Individuals with similar profiles tend to lack insight into their problems, externalize responsibility and fail to learn from experience.

DIAGNOSIS:

- Axis I - 1. Bipolar II Disorder, Most Recent Episode
Hypomanic
2. Possible Alcohol Abuse
- Axis II - Deferred
- Axis III - 1. Hypothyroidism
2. Hyperlipidemia
3. Tachycardia
4. Gastroesophageal reflux disease
5. Allergic rhinitis
6. S/P head, neck and left shoulder injuries 2002
with left shoulder arthroscopy 2003
- Axis IV - Psychosocial Stressors: criminal charges, financial
problems, estrangement from family of origin
- Axis V - Current GAF: 50

OPINION: The defendant's history is consistent with that of a mood disorder characterized by hypomanic episodes and at least one major depressive episode. The documentation provided indicates that during hypomanic episodes he has been irritable and hyperverbal with psychomotor agitation and decreased need for sleep. Individuals experiencing hypomanic episodes tend to be impulsive and display poor judgment. This often results in interpersonal conflicts, occupational problems and/or violations of the law unless there is adequate mental health intervention. It is probable that his history of interpersonal conflicts, occupational problems and legal problems have been at least partially caused by his mental condition.

During this interview the defendant presented with symptoms of hypomania. He also has a strong undercurrent of depressive symptoms which if untreated puts him at risk for suicide. He was advised to begin outpatient mental health treatment with a psychiatrist and was provided with the names of psychiatrists with offices near his residence. It is my opinion that he would

benefit from treatment with psychotropic medication. He was also advised to decrease or discontinue his alcohol consumption and caffeine intake as these substances can have adverse effects on mood. I would also recommend that he comply with established medical treatment rather than rely on supplements for medical conditions such as hypothyroidism and hyperlipidemia. It is my opinion that if he complies with these recommendations his risk of future violations of the law would probably be reduced.

Re: Chris Switlyk (DOB 11/05/78)

Dear Mr. Crawford:

This is to certify that Chris Switlyk has been seeing me for psychiatric care and in my opinion has a diagnosis of bipolar disorder. I have prescribed for him Trazadone 50 mgm two tablets a day and Xanax 0.5 mgm one tablet every six hours as needed. In my professional opinion these medications are medically necessary. Attached are copies of earlier prescriptions. Since the original prescription of Trazadone we had increased his dosage to two tablets per day.

Sincerely,

James R. Edgar, M.D.

Re: Christopher Switlyk

Dear Mr. Brown:

Disclaimer: The results of this assessment are based on the information provided by Christopher Switlyk and collateral sources. I have not attempted to assure the accuracy of the information obtained or provided. Christopher Switlyk was given the opportunity to provide me with any information he felt relevant and helpful in order for me to conduct an objective assessment. The referring parties were provided with the same opportunity.

My opinions, conclusions and recommendations are based on this database and are stated with a reasonable degree of medical certainty, unless otherwise indicated. Information not disclosed could significantly alter the assessment results. I reserve the right to amend my report in such situations.

I am a Psychiatrist licensed to practice in the State of Florida. I am authorized by the Department of Health, the Florida Board of Bar Examiners, the Physicians' Recovery Network and the Intervention Project for Nurses to evaluate attorneys and health care providers whose ability to practice with reasonable skill and safety is questioned by some event relating to either their mental health status and/or suspected abuse of alcohol or drugs. At your request I interviewed Mr. Switlyk today at the Pinellas County jail medical facility. I also talked via telephone with Carol Ann Delo about her perception of how he came to be placed in the medical facility. I have not had an opportunity to review the letter that Mr. Switlyk wrote to his father nor to talk with any medical personnel at the jail facility. Thus my opinion is based entirely on this material, my prior knowledge of Mr. Switlyk and my clinical interview with him today.

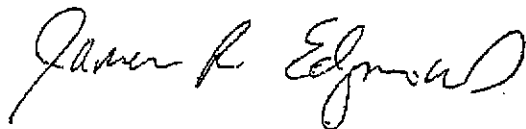

June 13, 2012

I have known Mr. Switlyk since January 2012 and have seen him approximately thirty times from January through April of this year. During that time he was seeing me for psychiatric care and in my opinion has a diagnosis of bipolar disorder. I prescribed for him Trazadone 50 mgm two tablets a day and Xanax 0.5 mgm one tablet every six hours as needed.

He is currently in the medical/psychiatric wing in a solitary room under more or less constant surveillance because of concerns for his suicidal potential. He says he is allowed out three times per week to shower and has no contact with other inmates, no canteen privileges, no activity time and no other privileges. He has been there fourteen days and is now taking Zoloft 100 mgm per day. He tells me this is because of a fourteen page letter he wrote to his father in which he expressed that he would just as soon be dead as be in prison the rest of his life and mention twice possible suicidal ideas. He tells me this was to try to motivate his father to help him financially with his legal problems. The letter also contained a history his treatment by former attorneys which he feels is partially responsible for his current situation. He also says he mentioned a new girlfriend Carol who was helping him to get new legal representation. He feels the letter was misinterpreted by the jail personnel and too much was made of his talk of "rather be dead", that this was not an active suicidal intent but an attempt to motivate his father. He also says that since then he has new representation and feels more positive about his future. He says he is not suicidal and feels he does not need to be in solitary confinement or under constant surveillance.

Today he appeared to have lost weight but to be alert and oriented to all spheres. He was cooperative with me in the interview and appeared appropriately depressed but not suicidal. There was no indication of psychotic thought processes. In short I feel he is not a suicide risk and there is no clinical indication for solitary confinement. If anything except for the medication he is now receiving I believe his current placement in the jail medical facility would make his psychological state worse and not help it. Bearing in mind the above disclaimer I feel he should be returned to his previous situation in jail.

Sincerely,

James R. Edgar, M.D.

CHRISTOPHER SWITLYK

INDEPTH NEUROPSYCHIATRIC EVALUATION**HISTORY**

Mr. Switlyk was evaluated on August 24, 2012, at the Pinellas County Jail. The evaluation occurred over three-and-a-half hours.

This is the first evaluation for this 33-year-old single white male, who was evaluated at the Pinellas County Jail. He is currently being charged with conspiring to distribute and possess with intent to distribute quantities of controlled substances, primarily Oxycodone, and money laundering.

Sources of information that were used as part of this evaluation are 3.5 hour interview of the defendant on 08/24/12; two hours of psychometric testing, completed on 08/31/12; report of scoring and interpretation of psychological testing on 09/01/12; notes from psychiatrist, Dr. Marguerite Pinard, from 08/16/07; medical records from Age Management Optimal Wellness Center dated 11/16/11; blood work obtained by Quest Diagnostics on 08/18/11; a letter from Dr. Michael Gamache dated 10/01/08; a medical report from Dr. James Edgar dated 06/13/12; a letter from Dr. Richard Brown dated 01/10/12; and a letter from Dr. James Edgar dated 05/02/12; copy of the plea agreement.

Review of medical records from Dr. Edgar indicated that Dr. Edgar was treating Mr. Switlyk and he had prescribed Trazodone 50mg to be taken two tablets a day and Xanax 0.5mg to be taken one time every six hours as needed. Dr. Edgar feels that these medications are medically necessary and did attach copies of the medications prescribed. Dr. Edgar also indicated that he had been working with Mr. Switlyk from January of 2012 through April of 2012 for psychiatric care for a diagnosis of bipolar disorder. On 06/13/12, he apparently evaluated Mr. Switlyk, as he was pending the medical psychiatric wing in the solitary room at the Pinellas County Jail. Dr. Edgar stated that he was not having contact with other inmates, no canteen privileges, and no activity or privileges were allowed to Mr. Switlyk. He had been there for 14 days and was taking Zoloft 100mg. Mr. Switlyk indicated to Dr. Edgar that he wrote a 14 page letter to his father, expressing his emotional thoughts and feelings, although he was trying to help motivate his father to help him. He felt

that his letter was misinterpreted by the jail personnel and that he was not actively suicidal, but rather trying to convince and motivate his father to help him. When Dr. Edgar evaluated him for this situation, he indicated that he had appeared to have lost weight, but was alert and oriented to all spheres. He was cooperative and no indication of psychotic thought processing views were noted. He did not feel that he was a suicide risk and no clinical indication for solitary confinement. Dr. Edgar did feel that the solitary confinement under the psychiatric wing would actually make his psychological state worse and that he should be returned to his current jail situation.

A letter from Dr. Gamache dated 10/01/08, indicated that Dr. Gamache did have a psychological assessment with Mr. Switlyk and felt like Mr. Switlyk's participation in 10-12 sessions of individual psychotherapy to address the issues that were discovered during the psychological assessment would be in his best interest. Dr. Gamache did not feel comfortable doing the individual psychotherapy, as he had been asked to evaluate Mr. Switlyk and he did refer him to find independent treatment provider. He gave him 60 days to commence the treatment and report back to him. Dr. Gamache would at that point reevaluate the situation and terminate the supervision after 24 months, as permitted by the terms of the agreement.

Medical records reviewed by Dr. Pinard stated that he was diagnosed with anxiety versus hypermania and felt his GAF score was 55-60.

The forensics psychiatric evaluation by Dr. Donald Taylor gives a history of identifying information, psychosocial history, medical history, legal history, psychiatric history, family history, employment history, educational history, marital history, mental status exam, psychometric testing, diagnosis, and his opinion. The mental status exam did show his mood was generally anxious and irritable; affect was congruent, although tearful during the interview; speech spontaneous, coherent and relevant, but was hyperverbal at times. He was oriented to all spheres. He was able to recall the Capital and the Governor of Florida, name the Nation's Capital and past two presidents. He spelled the word "world" forward and in reverse. He was able to

repeat five digits forward and four in reverse, and recall three objects after a delay. He correctly performed Serial 7s and multiplied 96 by 2. His interpretation of two plural verbs was equivocal and correctly interpreted to similarities. His insight and judgment were impaired. He denied current suicidal and homicidal thoughts and endorsed no delusional beliefs or hallucinations. The MPI showed he was motivated to exaggerate or fabricate psychological problems. The profile portrayed him as having significant problems with depression and anxiety, and indicated paranoid or suspicious features that may result in him feeling like he has been taken advantage of or mistreated by others. Additionally, this showed that similar profiles tend to lack insight into their problems, externalize responsibility, and fail to learn from experience. He diagnosed Mr. Switlyk with bipolar II disorder, most recent episode hypermanic and possible alcohol abuse. He rated his current GAF of 50 and he felt that the defendant's history was consistent with that of a mood disorder, characterized by hypermanic episodes with at least one major depressive episode. People with this symptomatology and experiencing hypermanic episodes tend to be impulsive and display poor judgment, and results in interpersonal conflict, occupational problems, and/or violations of the law, unless there is adequate mental health intervention. He did feel that there is some correlation with the fact that his history of interpersonal conflicts, occupational problems, and legal problems may have at least been partially caused by his mental condition. He was advised to begin outpatient mental health treatment with a psychiatrist and provided with the name of psychiatrists as well. Dr. Taylor felt that he would benefit from treatment with psychotropic medication and was advised to decrease or discontinue the alcohol consumption and caffeine intake. He also recommended that Mr. Switlyk comply with the established medical treatment rather than rely on supplements for his medical condition, such as hyperthyroidism and hyperlipidemia. Dr. Taylor felt that if he complied with those recommendations, his risk of future violations of the law would probably be reduced.

There is a medical letter dated 01/10/12 from Dr. Richard Brown, which indicated that Mr. Switlyk attended 10 counseling sessions with him in 2009. The visits were part of a legal agreement and no formal or in-depth assessment was conducted, no formal notes

taken, and no diagnosis was requested. He did not state or appear to be a danger to himself or others and seemed to be in adequate reality contact. He was compliant with treatment and discussed how he became entangled in the legal situation that led to him having to have the session agreement.

DIAGNOSES

Axis I: 1. Bipolar II disorder, with a recent episode of depression
2. PTSD
3. History of alcohol abuse.

Axis II: Deferred.

Axis III: Allergic rhinitis, hyperthyroidism, hyperlipidemia, tachycardia, gastroesophageal reflux disease.

Axis IV: Psychosocial stressors, criminal charges, imprisonment, estrangement from biological family, estrangement from friends, financial problems, and social isolation.

Current GAF is 50.

SOCIAL/FAMILY HISTORY

Mr. Switlyk was born on November 5, 1978, in Albany, New York. He was the second child of four children born to his biological parents. His father, age 63, currently works as a dermatologist in Sarasota. His mother, age 61, was also a doctor working as an internist, although she has retired from practicing. She is currently helping her husband run his practice and works as his medical assistant. His 35-year-old brother currently works at his father's medical office in Bradenton, Florida. Mr. Switlyk indicated they have had no contact for the last two years. Mr. Switlyk has a 31-year-old brother as well who lives in St. Pete and works as an attorney. Mr. Switlyk has some limited communication with him. Mr. Switlyk has a 27-year-old sister who lives in Bradenton and he has an "okay" relationship with her. Mr. Switlyk indicates that he last saw him family last November and since then, he has had very limited contact with

them. Mr. Switlyk does not feel like they are supportive of him and he feels "abandoned." Mr. states that he currently has very few friends. He is currently dating, but that he has a "bad history of relationships." Mr. Switlyk did attend many schools during his academic career. He attended kindergarten, first, and second grade at St. Catherine's in New York; and he attended third, fourth, and fifth grade at PS19. He attended sixth grade at Guilderland Farnsworth, seventh grade at Albany Academy, which is a military school, eighth grade at Hackett Middle School, and ninth, 10th, and 12th grades at Bethlehem Central High School. Mr. Switlyk said that he did skip the 11th grade due to his academic proficiency. Mr. Switlyk indicated that his elementary and middle school years were very difficult for him. He was not social and stated he was always the "smallest kid in the class." He did graduate high school at the age of 16 and started college at that point. Mr. Switlyk refrained from attending any type of sporting event, extracurricular event, or any type of social event at school. He felt very uncomfortable going to any type of prom, party, or teen event, and was very shy with everybody in school. He notes one example where he was dropped off with his brother to attend some type of homecoming event. Instead of going to the dance, he went to the track and walked the track for hours and then returned back so his mother could pick him up. Mr. Switlyk stated that he was not good with meeting people or engaging with them socially, especially since he went to so many different schools. He did start SUNY Albany College in 1995 when he was 16 years old for accounting. He did graduate college. He does have a Bachelor's in Science and Pharmacy. Mr. Switlyk did enjoy his academic career once in college, but up until that point it was very difficult for him. Mr. Switlyk worked as a pharmacy tech starting when he was 17 years old, when he was interning at the pharmacy. He then did an externship at another pharmacy and in 2002, began working for chain pharmacies and has worked since that time for various pharmacies. Mr. Switlyk stated that he has enjoyed his career as a pharmacist and is very scientifically oriented. Mr. Switlyk discussed his childhood as very "traumatic" for him. He stated that there was significant physical abuse by his father which ended him up in the hospital several times. Mr. Switlyk stated that his father would physically abuse him by "punching and kicking me," and at one point "threw me down the stairs." There was a DCF investigation by some type of social worker

which led to him being sent to his grandmother's house for the summer because his mother "feared the abuse would get worse" during the summer. Mr. Switlyk is open about his experiences during childhood, although he did appear very upset and shaken when discussing these situations and events. Mr. Switlyk indicates that there is significant family history of mental illness and substance abuse. He is unaware if anybody has been diagnosed or is being treated with medication currently. Mr. Switlyk moved to Florida in January 2002 when his parents retired here and moved to Longboat Key, Florida. Mr. Switlyk has lived in Florida since. Mr. Switlyk has had a variety of unhealthy relationships. He stated his last long term relationship with "Tiffany" was very unhealthy but felt she was "the only person I had." He gave me many examples of how she took advantage of him, which he realizes now, but during the course of the relationship, was not able to identify how unhealthy and dysfunctional it was to him and his mental health. He indicated he was closer to "her dogs" than he was to her. Since he was 17, all of his relationships appeared to indicate he was rather submissive in them and had very little control. He did not feel that he was capable of being in a "loving relationship," although he appears desperate for one. Given his history, he does not appear to have had age appropriate relationships and is now learning how to have a reciprocal relationship. His current girlfriend, Caroll, appears very loving and caring and demonstrates unconditional love and support for him. He reported he would like a "home life" eventually.

MEDICAL HISTORY

Mr. Switlyk is currently taking Trazodone 50mg. He has recently been prescribed 150mg of Zoloft, which is a 50mg increase from the 100mg he was taking several months ago. He apparently sees a nurse at the Pinellas County Jail on a monthly basis. He indicated recent blood work showed that he is anemic and has recently started taking a multivitamin. Additionally, he has elevated liver enzymes which could have been a problem before he came to jail. Mr. Switlyk states that he did have some type of car accident in 2002 in which he sustained some type of minor head injury. Mr. Switlyk indicated that he lost consciousness for a brief period of time and also sustained some type of neck

injury. He is unsure of what he was diagnosed with as far as the neck injury, but states that he did have several months of physical therapy to help resolve the neck issue. Additionally, he suffered some type of shoulder sprain or strain in which MRIs were taken. Mr. Switlyk also had physical therapy to help resolve the shoulder pain. Mr. Switlyk indicated that he had surgery on the left shoulder due to the injury he sustained in the car accident, and that from time to time he still has some pain. Mr. Switlyk indicated that he saw a wellness doctor, Dr. David Kalin, in October 2011. Apparently, he had a great deal of blood work completed and he was diagnosed with a variety of things. Mr. Switlyk did have decreased energy, trouble sleeping, panic attacks, and he was told that he had a vitamin B12 deficiency, vitamin D deficiency, had some thyroid issues, high cholesterol, and low testosterone. Dr. Kalin prescribed magnesium, B12, hCG, B-complex, zinc, Propanolol for some type of possible heart murmur, and Pregnenelone. He stated that after starting these medications, he started to feel better after a couple weeks. He did apparently follow up with a heart doctor, Dr. Sayad, who stated that he felt that stress was causing and/or exacerbating some of the heart issues. Mr. Switlyk also suffers from allergies and does have a history of allergic rhinitis. Mr. Switlyk states that he has taken allergy medicine consisting of Benadryl and Claritin to be taken as needed. He also states that he has been diagnosed with gastroesophageal reflux disease and has been prescribed some medication to take as needed for that. Mr. Switlyk has seen a variety of mental health physicians over the last couple of years. In 2008-2009, he saw a Dr. Richard Brown and had approximately 10 sessions with him. He feels that it was somewhat beneficial to him. In mid-2008, he saw Dr. Ganache in which he was seen twice. He was not prescribed any medication, but rather at that point, referred to Dr. Richard Brown for follow up treatments. In 2007, he saw a Dr. Pinard for one session. He stated that he was diagnosed with bipolar disorder, depression, and schizophrenia. He was prescribed Seroquel 25mg. Mr. Switlyk stated that he took the medication, but "felt weird" and was having problems with dizziness and felt cloudy. He then stopped the medication. He did not follow up with Dr. Pinard. Most currently, he was seeing Dr. James Edgar up until April 2012. According to Mr. Switlyk, Dr. Edgar diagnosed him with bipolar disorder and depression. Dr. Edgar prescribed Trazodone

making discussed above, his tendency to over-endorse these personal characteristics is also further indication of a more general inability to accurately present himself to others.

Mr. Switlyk's MMPI-2 profile indicates significant psychopathology on scales of Hypochondriasis, Depression, Hysteria Conversion, Psychopathic Deviate, Paranoia, Psychasthenia, Schizophrenia, and Social Isolation. Overall his characterological mental condition is both severe and debilitating to normal functioning. As will be discussed below, this profile indicates a history of insufficiently treated psychological difficulties that significantly characterizes Mr. Switlyk's emotional, cognitive, and social functioning.

In response to internal emotional events, Mr. Switlyk is likely to be characteristically neurotic, expressing a great deal of anxiety and depressive symptomatology. He is likely to be chronically plagued with physical health problems that obfuscate emotional difficulties. Emotional safety is both extremely important to his well-being and also infuriatingly unattainable in the typical situations and relationships in which he finds himself. For all his apparent self-reliance he is in reality overly dependent on others to make decisions for him, out of fear that he appears as stupid or incompetent as he believes he is when things go badly. Underneath his anxiety is an extremely diffuse sense of self and low self-efficacy. As noted above, because of his helplessness he is likely to either make impulsive/compulsive decisions without considering all the facts, or appear apathetic to the consequences.

While Mr. Switlyk appears intelligent, he is likely to demonstrate effective decision-making only in very narrow ways, and, under duress, thinking styles are likely to sharply decrease. Often, for example, individuals with Mr. Switlyk's character profile do extremely well in primary school and higher education, but quickly fail once in the real world of work and adult interactions. In Mr. Switlyk's case, cognitive functioning is likely to be impaired due to the mental effort required to control negative feelings, and his ability to make effective decisions is likely to be compromised as a result. At times his mental state may appear sufficiently compromised to reflect a

thought disorder, and reality testing is likely to be poor due to emotional health.

In social situations, Mr. Switlyk vacillates between blind faith and paranoid avoidance. Most likely this ambivalence originates in early parenting inconsistencies, such as in the case of intermittent child abuse. His character profile indicates an early disruption of attachment development, which appears to impact his ability to form healthy relationships. Such early trauma is likely to explain present difficulties with social intelligence, and why he often becomes a victim of detrimental relationships. This coupled with his history of unhealthy and damaging relationships shows how Mr. Switlyk appears to be experiencing Stockholm Syndrome. He is very reliant on these "toxic" relationships and has only till most recent been able to engage in relationships where his partners drank alcohol in excess, emotionally abused him, felt "extremely dependent" upon them, and the females were always in a state of control. Mr. Switlyk also has these types of relationships with his family and other interpersonal relationships. He wants very much for his parents to approve of him although for Mr. Switlyk, his parents have only reinforced to him that he is "not good enough" and "continues to make mistakes." Mr. Switlyk since he can remember was met with constant confirmation that he was a "bad kid" and the abused he received reiterated what he was verbally told. This has caused him to have an unyielding lack of self-confidence and sense of identity which has obviously affected him throughout the course of his life. Mr. Switlyk needs support and a safe environment to help work through the aforementioned issues.

As an adult Mr. Switlyk is likely to have a history of very poor relationships, in part because he overlooks the flaws of others and tends to idealize them. Because he deeply wants the approval and acceptance of others, he is likely to be easily convinced about their intentions and honestly surprised when their shortcomings inevitably surface. On the other hand, Mr. Switlyk is likely to more quickly become distrustful and paranoid than other people, and to cope with perceived slights from others he becomes excessively independent and isolative. However, his psychological immaturity makes it impossible to sufficiently "cover up" his character weaknesses, and he is likely to be

taken advantage of by others, leading to further distrust and paranoia.

Social and Emotional Functioning:

Mr. Switlyk also completed several measures of current symptomatology and subsequent distress. As with the personality assessments, interpretation of these measures must take into account his tendency to over-endorse subjective experiences. On these measures, Mr. Switlyk is experiencing a severe level of depression, anxiety, hopelessness, and suicidality. He is experiencing a moderate problem with symptoms associated with Bipolar Disorder. His responses on the SCL-90-R also indicate a clinically significant level of distress related to somatic complaints, obsessive-compulsive behaviors, depression, lack of empathy, anxiety, phobic anxiety, paranoia, and schizophrenia. His Global Severity Index on this measure indicates an acute need for treatment for these issues.

Mr. Switlyk was assessed for post-traumatic problems. Two trauma scales, the PDS and Davidson Scale, were completed regarding his recent experiences of incarceration. On these measures Mr. Switlyk is experiencing symptoms of intrusion, avoidance/numbing, and hyperarousal similar to a majority of individuals who are diagnosed with a formal trauma disorder (PTSD). The intensity of his trauma symptoms and their impact on daily functioning fall in the Severe range of these measures. A third measure of traumatic symptomatology indicates clinically significant anxious arousal, depression, anger, intrusive experiences, dissociation, defensive avoidance, somatization, suicidality, insecure attachment, and interpersonal sensitivity. Based on these three measures, Mr. Switlyk extant mental health problems appear to be significantly further jeopardized by traumatic experiences occurring during his incarceration. In particular, existing problems with reality testing, paranoia, depression, anxiety, and suicidality are likely to continue to intensify during this time, and his mental capacity is expected to diminish further as a result. Given his history of trauma preceding his incarceration, his current symptoms are also likely to reflect to some degree a chronic trauma disorder that has affected him prior to the current trauma.

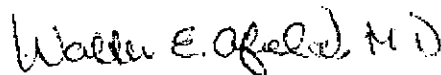

To clarify social functioning issues, Mr. Switlyk also completed the Quality Of Life Inventory and Personal Problems Checklist. Overall, Mr. Switlyk's quality of life falls in the Very Low Range, with the highest ratings of dissatisfaction in health, self-esteem, work, play, learning, relatives, and home. In terms of personal problems, Mr. Switlyk reports having the greatest problems with social relationships, appearance, being jobless, unsanitary living conditions, finances, emotional difficulties, legal issues, and fear of being physically hurt or committing suicide.

In summary, Mr. Switlyk has had a traumatic childhood stemming from years of physical and emotional abuse. He unsuccessfully attempted to socialize in middle and elementary school but was often left out and bullied which left him emotionally scarred and socially incompetent. He was exposed to a variety of relationships where he was taken advantage of and left feeling emotionally vulnerable. He has been abandoned by his family and friends and feels betrayed by the majority of people in his life. He has attempted to build a successful life for himself but unfortunately trusted the wrong people who recognized his vulnerability and took advantage of him. This caused Mr. Switlyk to have less control of his life and a greater loss in his identity. Mr. Switlyk is experiencing P.T.S.D. (Post-Traumatic Stress Disorder) which does cause neuromicrobiological changes in the brain to occur causing Mr. Switlyk to have an underlying constant ability to overact to stressors particularly ones that are similar to the original events/stressors. Therefore, Mr. Switlyk does struggle with an emotional disorder that causes him to have diminished capacity. Given his past diagnoses and past traumas he has experienced, Mr. Switlyk does not have the capacity to maliciously have done with he is being charged with. Mr. Switlyk is very bright and academically successful although that has proven to be of little success for him given he has made poor decisions which he is very aware of and extremely remorseful. He has great difficulty problem solving and foreseeing how his mistakes affect others. He lacks insight because of his traumatic history and lacks empathy because of significant early attachment deficiencies. He desires a loving and caring relationship which he has been deprived of most of his life and has finally discovered that relationship with his current girlfriend, Caroll. He stated, "Every day I look forward

to the chance of finally having a solid relationship with Carroll." I have spoken with Carroll and she is very supportive of him and wants to help him better himself. I believe, without hesitation, Mr. Switlyk could be successful if he remained appropriately medicated, which he is doing quite well with his current medication regimen, and intensive psychotherapy. Mr. Switlyk has been on his current medication regimen for the last 4 months and he feels significantly more in control of his life. Before being appropriately medicated, Mr. Switlyk was experiencing mania, panic attacks, paranoia, insomnia, lack of focus, and was unable to make eye contact. Currently, he does not experience extreme high and lows (although for the situational event of currently being incarcerated which causes some depression). During our interview he was extremely calm, made appropriate eye contact, and appears to have better insight and judgment. The environment of the jail and/or prison will only exacerbate his symptoms and he needs a less restrictive environment and setting. Mr. Switlyk would like to find a psychiatrist and psychologist who could meet his needs and help foster a greater sense of control within himself. This should be arranged prior to his release from prison. Mr. Switlyk needs to be guided and provided insight into how history has negatively impacted his abilities to make appropriate decisions. He is well aware of his mistakes and is dedicated to making better choices for himself and learning how to gain greater control in his life. He has taken the initiative to start making healthier choices for himself and develop a sense of understanding and empathy for the world around him. This as mentioned before has been very difficult for him because of his early childhood experiences and mental health problems.

SUMMARY

Mr. Switlyk is able to complete all measures independently and within a normal amount of time. He does not report any difficulty understanding directions and answers all test items. However, during the scoring of these measures, several unusual or atypical response approaches to test items are indicated. Scores are adjusted accordingly on certain measures, and reasons for these test-taking approaches are described as appropriate for each test. Based on his apparent effort and cooperation, these results are likely to be an accurate estimate of his current level of psychosocial functioning, as well as his overall mental capacity to make informed decisions for himself and about himself and others.

Personality Functioning:

Mr. Switlyk completed two measures of personality functioning, the Eysenck Personality Inventory and MMPI-2. On the Eysenck PI, Mr. Switlyk is excessively neurotic in his responses to social situations and external events. He is likely to make decisions in a black-and-white way that does not take in to account dissonant information, either positive or negative. This makes it extremely difficult for him to consider alternative decisions or perspectives, even when it appears clear to others that his thinking is faulty or clouded. Individuals with his level of inflexible thinking and ruminative cognitive style also often experience events more intensely than others, which may explain his tendency to seemingly over-report on these and other measures.

The MMPI-2 must be interpreted with extreme caution due to excessive endorsements of atypical items. This response pattern tends to elevate scales of psychopathology, resulting in a potential "false positive". On the other hand, this response pattern is more often interpreted as a cry for help on the part of the responder, and indicates a subjective level of difficulty in personality functioning. Given Mr. Switlyk's troubled personal history and limited capacity for balanced, rational decision-making discussed above, his tendency to over-endorse these personal characteristics is also further indication of a more general inability to accurately present himself to others.

Mr. Switlyk's MMPI-2 profile indicates significant psychopathology on scales of Hypochondriasis, Depression,

Hysteria Conversion, Psychopathic Deviate, Paranoia, Psychasthenia, Schizophrenia, and Social Isolation. Overall his characterological mental condition is both severe and debilitating to normal functioning. As will be discussed below, this profile indicates a history of insufficiently treated psychological difficulties that significantly characterizes Mr. Switlyk's emotional, cognitive, and social functioning.

Dear Dr. Rivenbark:

This office represents Christopher Stephen Switlyk, R.Ph., who previously applied to PRN and was assigned Case No. PS-2010-14492. Mr. Switlyk has been advised in a letter from you dated July 21, 2010, that his PRN file is being closed due to his lack of response to PRN's recommendation.

My Switlyk understands and respects PRN's recommendation. However, he has several pending legal matters which need to be attended to and require almost daily contact with his lawyers. For this reason, he is unable to enter into treatment at this time. I hope this does not prejudice his ability to take advantage of this opportunity in the future. Please contact me if I may be of assistance.

Very truly yours,

CLIENT agrees to pay a non-refundable flat fee, which shall be considered the minimum agreed fee of Seven Hundred and Fifty Thousand Dollars (\$750,000.00) for representation in this case. Payment of the engagement fee is due and payable as follows:

Fifty Thousand Dollars (\$50,000.00) payable on July 21, 2010. The balance of the fee, Seven Hundred and Twenty-Five Thousand Dollars (\$700,000.00) is payable as follows:

\$100,000 on or before August 30, 2010 and \$50,000.00 on the 30th day of each month thereafter until paid in full.

CS

In addition CLIENT hereby agrees that any balance owing on the minimum agreed fee shall be payable from the first dollars released or returned to the CLIENT from proceeds seized from him now or in the future estimated to be between Six and Seven Million Dollars (\$6,000,000-\$7,000,000). Funds released or returned shall be applied regardless of whether their release or return is voluntarily made by the Government; is the result of concession, negotiation, stipulation, court order or otherwise. CLIENT hereby authorizes that all checks, wires or ACH returning funds shall only be made payable to the trust account of the LAW FIRM, to assure payment of fees or costs due the LAW FIRM, and then for distribution in accordance with the terms hereof. CLIENT agrees to execute a Promissory Note to evidence the obligation to pay the balance of the minimum agreed fee, which Note shall be secured by a first mortgage on Client's residence.

In addition to the minimum agreed fee for representation in defense of criminal matters constituting the Case, as a separate matter, The Law Firm shall be paid Forty Percent (40%) of any dollars recovered from the approximately Six to Seven Million (\$6,000,000-\$7,000,000) seized from CLIENT and and sought to be forfeited in a civil or criminal forfeiture proceeding. This payment of this fee is contingent and no fee will be due unless amounts are recovered. Any funds paid to the Law Firm as a result of these recoveries shall be in addition to payment of the minimum agreed fee and a separate fee payable for serving as Client's counsel in the forfeiture proceedings. However, it is agreed that the 40% shall not be charged on the first Seven Hundred and Fifty Thousand Dollars recovered, whether such amounts are paid to the Law Firm as agreed above or to CLIENT.

CLIENT agrees that all fees paid pursuant to this Engagement Agreement against the minimum agreed fee shall be considered earned as of the time the law firm undertakes representation, no amount shall be required to be held as a retainer, billed against, escrowed or placed in trust and CLIENT shall not be entitled to any refund of fees for any reason.

CLIENT has considered the seriousness of the Case and and related matters, potential allegations, the potential for an indictment, forfeiture or other tax implications, of a possible prosecution, not only to the life of the CLIENT, but on his family as well, and has decided, after careful consideration, that it is in his best interest to engage the LAW FIRM. This belief is based upon the reputation of the LAW FIRM in the legal community in Hillsborough County, statewide and the community at large. CLIENT believes that the firm will devote the time, energy and legal skills required to increase the probability of

obtaining the best results given the facts and law of CLIENT'S case. CLIENT acknowledges that the Firm has explained to them that other law firms in this case for a fee substantially less than what the Firm is charging to accept representation in this case; that the fee charged by other firms (on an hourly or other basis) may, or may not, ultimately be greater than than the agreed minimum fee charged herein. Because of the risks involved in this matter and the Client's desire to have the certainty of a fixed fee for the services described herein, thereby eliminating the risk of a higher fee and fixing his financial exposure for fees, CLIENT choose the LAW FIRM regardless of which other law firms may be available, and regardless of the initial or ultimate fee other law firms may have charged Client.

CLIENT is aware that because of the nature of this matter, the LAW FIRM has been required to set aside substantial time and resources that will likely preclude it from accepting additional cases that are or may become available. This is due to the time set aside for this representation.

CLIENT has had the opportunity to discuss with family members, independent legal counsel and independent financial advisors before executing this Agreement, and agree voluntarily and freely to the terms and conditions herein. CLIENT considers this Agreement to be reasonable and not excessive under the circumstances. With this knowledge, CLIENT has specifically requested LAW FIRM undertake the representation in this matter.

CLIENT is hereby advised that the Code of Professional Responsibility permits certain facts to be considered in setting a fee and those facts include the following:

- (a) The time and labor required, the novelty, complexity, and difficulty of the questions involved, and the skill required to perform the Legal services properly;
- (b) The likelihood that the acceptance of the particular employment will preclude other employment by the lawyer;
- (c) The significance of, or amount involved in, the subject matter of the representation, the responsibility involved in the representation;
- (d) The time limitations imposed by me or by the circumstances and, as between attorney and client, any additional or special time demands

or requests of the attorney by me;

- (e) The nature and length of the professional relationship;
- (f) The experience, reputation, diligence, and ability of the lawyer or lawyers performing the service and the skill, expertise or efficiency of effort reflected in the actual providing of such services; and,
- (g) The amount involved and the results obtained. [This is not, in any way, to be construed or meant as a contingent fee.]

Costs which are billed to CLIENT are all out-of-pocket costs incurred, such as court reporter fees, filing fees, photocopying expenses, computer assisted research costs, long distance calls, fed-x, experts, accountants, investigators, paralegals and other similar expenses as they are incurred which, in the judgment of the attorney, are necessary to CLIENT'S representation. Billing for costs will be forwarded to the CLIENT monthly.

All cost bills shall be due when rendered and payable in full within ten (10) days. All unpaid bills shall bear interest at the rate of 1-1/4% per month on the unpaid balance, compounded monthly.

If the fees described herein or cost bills are not paid when due, a mutually agreeable payment arrangement shall be made and adhered to **and so long as the CLIENT is acting in good faith to pay the fees and costs, the LAW FIRM shall continue to defend client on the Case and shall not seek to withdraw.** However, if costs are not timely paid for ninety (90) days, the Law Firm may elect to suspend services until the costs are paid current. If an action or agency is employed to collect any amounts, including costs due hereunder, the cost of collection, plus interest at the rate described above and reasonable attorney fees will be added if it becomes necessary to collect any fees and all other costs. This contract is binding on the heirs and assignees of the undersigned parties.

It is further agreed that with respect to any dispute regarding attorney fees and/or costs incurred during this representation by the LAW FIRM the proper venue and forum for litigation or alternative method of resolution of said dispute shall be Hillsborough County, Florida, regardless of any other factors to be considered in making that determination, pursuant to Hughes Supply, Inc. v. Lupton, 487 So.2d 429 (Fla. 5th DCA, 1986). 

CLIENT agrees and represent to the LAW FIRM that all monies or other assets paid to the firm for fees or costs of any kind, including the proceeds of any unlawful or illegal activity whatsoever. While CLIENT is free to seek financial assistance from family or friends, CLIENT understands that payment of fees and costs is CLIENT'S responsibility, and any financial assistance from others is a matter solely between CLIENT and those persons willing to help CLIENT.

CLIENT and THE LAW FIRM OF COHEN, FOSTER & ROMINE, P.A. agree and request that this engagement Agreement, its terms and conditions, and the amount of any fees and/or expenses paid in connection with it, will remain strictly secret, confidential, private and considered part of the attorney-client privilege, unless and until CLIENT affirmatively waive such privilege and confidentiality, or a Court orders disclosure, after all appropriate litigation and appellate remedies have been sought. These restrictions shall not apply if it becomes necessary for the LAW FIRM to conduct litigation for collection of its fees and/or costs.

The attorneys are officers of the Court and are bound by the rules regulating The Florida Bar. We acknowledge and understand that while the attorneys accept this employment and promise to render professional legal services to the best of their ability during the continuation of this employment, that the attorneys make no warranties, representations or guarantees about the outcome of the case and that the manner in which the case is concluded, whether by trial, negotiation, or otherwise, and that this does not in any way affect the amount of the fee, unless specifically provided in this contract. CLIENT further acknowledges that this Agreement is not "contingent" upon any of the foregoing. CLIENT agrees to fully cooperate with the attorneys; to do nothing that would compromise the attorneys' professional ethics; and, will not request or require the attorneys to do anything in violation of the Rules of Professional Conduct. If CLIENT has misrepresented or failed to disclose any material facts, refuse to follow the attorneys' advice, or fail to be available as necessary for preparation, conferences, depositions, hearings or other court proceedings, the attorneys may withdraw from representation with leave of Court.

This Agreement constitutes the entire Agreement between CLIENT and the LAW FIRM and there are no oral Agreements or understandings other than that which is contained herein. All amendments, additions or changes to this Agreement shall be in writing and agreed to and signed by the parties. CS

RE: DOH v. Christopher Stephen Switlyk, R.Ph.
Case Number: 2011-20634

Dear Mr Jurich,

I received your letter dated December 20, 2013 on December 24, 2013. In your letter it states that I have only "21 days" to respond to your notice and to send in a signed and notarized "Election of Rights" form, from the "date I was served", and that "failure to file this form within 21 days may be considered a waiver of your right to dispute the allegations in this matter". However, as you are aware, I am in a federal prison in Estill, South Carolina, and there is no notary available here. Whenever an inmate really needs something notarized they must submit a written request which can take several months before it is fulfilled. In addition to this inconvenience an inmate here has to pay \$20.00 out of their commissary account before the prison even schedules a notary to come to the prison for them.

As soon as I received your letter I immediately submitted an inmate requested my Unit Manager requesting to have a document notarized. Unfortunately, Ms Carlson, as well as all of the counselors who are in charge of fulfilling these types of inmate requests, have been on vacation for the past 2 weeks. I have heard of people waiting up to 3 months in here before the prison has an outside notary representative come to the prison in order to notarize something for them after they submitted their initial request. I think that it is going to take AT LEAST that long before I am able to get my Election of Rights form notarized for you considering these circumstances so I am not really sure what you expect me to do about this since it is out of my hands.

I am not even sure why I need to fill another one of these forms out. I already filled out this exact form and had it notarized back in March of 2013 and mailed it into the Department of Health when I was housed at the Pinellas County Jail. Fortunately it was much easier for me to have something notarized while I was housed at that jail since every Sergeant there was a notary. Unfortunately, the prison I am currently housed at cannot make it any more difficult for an inmate here who is seeking to have something notarized than they do.

The only other option this prison offers inmates here when they need their signature witnessed when signing important documents is an Official Witness Stamp. My Unit Counselor, Mr Steve Smith, is authorized to administer oaths and will stamp the completed "Election of Rights" form for me, noting that he "witnessed my signature" on it. I have recently had a "Limited Power of Attorney" form prepared using this method and it was accepted for the specified duties described in that form since my signature was witnessed by a Federal Prison Counselor. I will take care of this as soon as Mr Smith gets back from vacation, which should be this week. I am going to send the completed and signed "Election of Rights" form along with this letter. I hope that this method of signature verification will be acceptable for this matter considering the unfortunate circumstances and obstacles I am currently faced with.

TRULINCS 53913018 - SWITLYK, CHRISTOPHER - Unit: EST-A-A

Here is the information for my prison Case Manager, Mr Smith, in case you need to verify that he witnessed my signature:

Name: Mr Steven Smith
Unit A-A Case Manager
Address: FCI Estill
100 Prison Road
Estill, SC 29918
Prison Phone Number: (803) 625-4607
Prison Fax Number: (803) 625-5635

Also, I have an attorney who is helping me handle all matters concerning my Florida Pharmacist license but I have not had much communication with him since I have been at this prison. I have mailed him copies of all of the documents you sent me so hopefully he let you know that he is representing me for this matter. Please also forward all documents pertaining to this matter to him as well since he will assist me in handling this matter since I am currently at an extreme disadvantage of being able to defend myself while I am in prison with no resources or access to evidence which could be used in my defense. Here is my healthcare attorney's information:

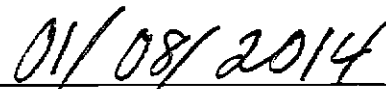

Name: John Perrin
Phone Number: (727) 585-0500
Email Address: JP9975@aol.com
Office Address: The Perrin Law Firm
2401 West Bay Drive, Suite 424
Largo, FL 33770

Also, if this Official Witness Stamp is not acceptable for this matter then please extend the deadline for me to have the Election of Rights form notarized for at least 6 to 9 months from today to ensure that I have a sufficient amount of time to get this document notarized any my rights in this matter are not violated. By the time this prison actually gets around to having an outside notary come to the prison for me I will likely be transferred since I have a pending transfer request in which is supposedly going to be fulfilled within the next 2 to 3 months. Then the transfer process takes anywhere from 2 to 4 weeks before I actually arrive at the new prison or camp. Then it will take another 2 to 6 weeks before I get my property and paperwork returned to me at the new prison. Then it will also potentially take an additional 2 to 3 months after I put a request in at the new prison to finally get this document notarized. Thus, it may actually take me 6 months or longer to get this document notarized considering my circumstances so please take this into consideration. To be on the safe side I think a 9 month extension would ensure enough time for me to get this document notarized just in case the worst case scenario plays out and other obstacles such as prison lock-downs and shake-down's occur which would further delay this process. We have already had 5 entire prison lock-down's since I have been here, each lasting several days, during which nothing gets done, much less anything being notarized for anyone. Hopefully I will be transferred to a Federal Camp soon and I will send you a letter as soon as I am relocated to let you know what my new address is there. Thank you for your help and understanding in this matter during this difficult time in my life. I greatly appreciate it.

Sincerely,

Christopher Switlyk

SUBJECT: Letter #2 mailed to DOH on 01/08/2014

DATE: 02/22/2014 02:00:09 PM

Dear Christopher Jurich,

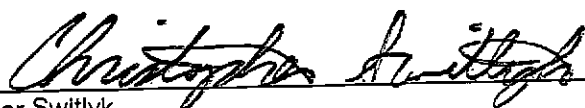

When I was a pharmacy owner and manager I made some careless mistakes during approximately 6 months in late 2009 and early 2010. Other than that small time frame during which I was affected by impaired judgment, I have had a clean professional record since being licensed in 2002, and have never previously had a complaint filed against my license. I have never even committed a single miss-fill of a medication, even though I have spent several years working long hours at extremely busy CVS and Walgreens pharmacies.

I did voluntarily visit PRN (Professionals Resource Network), which is an alcohol treatment and therapy center in Tampa, Florida on June 18, 2010 designed to help Health Care Professionals, and was evaluated by Dr David Myers there. I wanted to enter into an in-house program at PRN at that time but my current attorney advised me to focus my time and limited resources on my pending legal problems. However, I did not ignore my issues which led to my poor decision making and I took steps to make positive changes in my life. I wanted to be proactive and better myself so I personally sought out professional counseling and medication treatment.

I saw a Psychiatrist in Tampa, Dr James Edgar, twice a week for counseling, and followed his prescription medication regimen, from December of 2011 up until May 1, 2012, when my bond was revoked. Since then, despite being incarcerated, I insisted on continuing my treatment and had regular meetings with the Psychologists and Psychiatrist at the Pinellas County Jail while I was there. I even had a private Psychologist from Tampa, Dr. Jennifer Levine, come see me at the jail on a regular basis for counseling so I could continue to make progress with my therapy. Since I have been in prison I have also had regular meetings with the staff Psychologists and Psychiatrist here. I have also continued to take my medications as prescribed while in jail and prison. It has also been recommended by the Court for me to enroll in the nine month RDAP (Residential Drug Abuse Program) ran by the BOP (Bureau of Prisons) as part of my rehabilitation (to address my previous alcohol abuse), which I definitely plan to complete before my release.

I now realize what is truly important to me in life and how to prevent myself from getting into a similar situation to this ever again. As a result of my priorities not being in order four years ago, I have lost everything I had in this world. Absolutely everything is gone, including my house, cars, savings, job, family, friends, girlfriend, and worst of all, my freedom for the next several years. I also continue to suffer financially, physically, emotionally, and mentally throughout this ordeal. I have definitely learned from my mistakes and am obviously still suffering from their severe consequences, this DOH investigation being a major one of them. I would greatly appreciate the opportunity to explain my side of this whole situation to you. Thank you.

Sincerely,

Christopher Switlyk

DATE: 02/22/2014 02:00:03 PM

Below is a copy of the letter I sent to Michael G. Lawrence, Jr, at the DOH Prosecution Services Unit back in March of 2013. I readdressed the letter to you and made some minor revisions and additions to it. I also sent you another updated letter which I also sent to Mr Lawrence back then in addition to the one below.

Dear Christopher Jurich, Assistant General Counsel, of the DOH Prosecution Services Unit,

When I talked to DOH Investigation Specialist Joseph Degregorio at the Pinellas County Jail in December of 2012, he told me that the Prosecution Services Unit of the DOH would likely be very interested in the information I have regarding illegal activities being conducted by over a dozen currently licensed and practicing pharmacists, pharmacies, pharmacy technicians, doctors and pain clinics. I have a lot of video surveillance of several pharmacists and pharmacy technicians when they were working for me at my pharmacy that clearly and undeniably show each of them committing numerous massive illegal activities involving oxycodone and other controlled substances right in front of my surveillance cameras. I was not aware of their illegal activities when they were being committed since I did not have the opportunity to review my pharmacy's surveillance footage until over a year after it was closed. None of these pharmacists or pharmacy technicians have ever been criminally charged or even reported to the Department of Health, or have the doctors I also have relevant information about. However, I would be happy to work with your department so you will be able to take the proper steps to ensure that each of these licensed medical professionals do not continue to abuse their positions and continue to break the law. I hope that you will give me an opportunity to share this information and evidence with your department in order to help maintain your goal of ensuring the safety of the public.

I was able to communicate with Mr Degregorio a few times via email while I was in jail when the government was allowing me access to a computer. However, I was not able to finish putting a list together of all of the evidence that I have against Pharmacists, Pharmacies, Pharmacy Technicians, Doctors and Pain Clinics. I will enclose in this letter a copy of some of the email exchanges I had with My Degregorio as well as a list of the licensed individuals and businesses I have damning information about. Also, I should be moving to a Federal Prison Camp in Florida in the near future. Thus, if a member of the Prosecution Services Unit would be willing to come meet with me after I am relocated back to Florida I think that I would be able to provide valuable information and evidence against numerous individuals and businesses who are currently licensed by the Florida Department of Health. Thank you for your help and consideration in this matter.

Sincerely,

Christopher Switlyk

SUBJECT: Letter Mailed on 07/01/2014 regarding DOAH Case
DATE: 07/01/2014 06:28:45 PM

In Reference to DOH Case Number: 2011-20634 (Department Of Health v. Christopher Stephen Switlyk, R.Ph.)
& DOAH Case Number: 14-0883PL

Dear Administrative Law Judge Johnston,
General Counsel for DOH, Jennifer Tschetter,
Attorneys for DOH, Yolanda Green and Lucas May,
and Executive Director of Board of Pharmacy for DOH, Mark Whitten:

I am mailing a copy of this letter on 07/01/2014 to all five people listed above, to the addresses which I was provided for each of you. I received Mr May's 05/19/2014 "Proposed Recommend Order" less than 3 weeks ago because he mailed it to my old address. I received Judge Johnston's 06/23/2014 "Recommended Order" last week. I was in the process of writing this letter in response to Mr May's "Proposed Recommended Order" when I received a copy of Judge Johnston's "Recommended Order", which he also sent to Mr Whitten and Ms Tschetter. Thus, I figured that I should just send a copy of this letter to all of you.

Mr May, please update my address, as I was transferred to a different prison in May and the BOP only forwards mail sent to my previous address once a month at most. My current address is:

Christopher Switlyk
Register #: 53913-018
Federal Correctional Institution
Post Office Box #: 779800
Miami, FL 33177

Although I really need to focus as much of my time and efforts on the pending matters concerning my active appeal in my criminal case right now since my freedom is dependent upon this, I felt that I needed to spend some time to respond to certain things which Mr May wrote in his "Proposed Recommended Order."

First, I want to address Mr May's claim that I had ample opportunity to report to the Board of Pharmacy within 30 days that I plead guilty to a felony. The several months leading up to the day I plead guilty were filled with extreme unethical tactics to bully me and pressure me into pleading guilty to exaggerated and unsupported charges, by both the government and by my attorney at the time, Jeff Brown. The government actually had recommended that the jail keep me in a Solitary Confinement Section of the Medical Wing for nearly 2 months, where none of the regulations which Mr May quoted out of the Inmate Handbook applied.

The extreme Solitary Confinement I was in during this timeframe consisted of me being locked in a small, windowless room, for 24 hours a day, 7 days a week, and being only allowed out to shower and brush my teeth for 20 minutes twice a week. I was not allowed to have any commissary items (including calling cards), reading materials, writing utensils, paper, etc..., and was unable to make any phone calls during this timeframe. Thus, trying to get a hold of the Florida Department of Health was the last thing on my mind while this torture was being inflicted upon me daily.

Forcing me to endure these inhumane conditions for an extended period of time was one of the many tactics the government used to break me down to agree to a plea bargain which contained numerous untrue statements, shortly after they unjustly revoked my bond. Even after I was pressured, bullied, and tricked into pleading guilty, and was housed in an Open Bay section of the jail, the only way an inmate could make a phone call to anyone is if they have a significant amount of money in their commissary account to buy calling cards with, which I did not have since the government took every penny I had. Also, I did not have any phone numbers for anyone other than a girl I was dating at the time who had her own agenda to steal anything I had left. Obviously the government did not give me the chance to write down any phone numbers before they broke my door down and assaulted me.

Also, the jail phones do not allow inmates to call 1-800 numbers or phone numbers that are answered with automated systems, which I am believe is how the DOH's phone is answered. Thus, even if I had the money to make a long distance call, and even if I had the DOH's phone number (which I didn't), and even if I wanted to contact the DOH after I plead guilty to let them know about it, I would not have been able to do so using the jail phones.

Also, Mr May quoted that a "Social Worker" at the jail can be contacted to make an emergency phone call", which that situation definitely did not qualify as according to their standards. In fact, I actually wrote the "Social Worker" at the jail over a dozen inmate requests asking her to please look up for various information for me while I was there, as well as to help me with making an important phone call. However, not once did I ever receive a helpful reply, or any help in making any phone calls from the so-called jail "Social Worker", despite my numerous sincere requests. The "Social Worker" would not even provide me with a simple request for an address or phone number for an attorney, and would not even help me contact a family member, despite me not having any contact with any of my family for over a year while I was in that jail. Thus, for Mr May to suggest that the jail "Social Worker", who I have never met the entire time I was there, and have never received any assistance from whatsoever despite my numerous requests to this person, would go out of his or her way to look up the address and phone number for the Department of Health, and/or help me contact someone there is absolutely absurd.

Also, for several of the 16+ months I was housed at the Pinellas County Jail I was housed in the Maximum Security wing, during which I was much more concerned with my personal safety than I was with somehow contacting the Department of Health, especially since a former roommate of mine in the Open Bay area was murdered in that part of the jail right before I was transferred to it. Two of the people I was in the Maximum Security section of the jail with were actually charged with Murder, among numerous additional charges. These dangerous individuals had absolutely nothing to lose and I witnessed first-hand one of these people nearly choking one of the other inmates to death right in front of me before several other inmates pulled him off the guy. Thus, during that timeframe, contacting the DOH was the last thing on my mind, especially since I did not know if I was going to be attacked at any time, even in my sleep.

Thus, the inmate handbook that Mr May submitted as some sort of evidence against me should be completely discounted since it does not even contain the various rules and regulations for the different housing areas of the jail. The section which Mr May quoted only pertains to the Open Bay section of the jail, where I was housed only a portion of the 16+ months that I was there. Also, if you ask anyone who has been unfortunate enough to be held at the Pinellas County Jail for an extended amount of time like I have, I guarantee that they would agree with me that the rules and regulations which are listed in their handbook are definitely not all followed by the jail and it's staff.

Also, Mr May stated that I testified to the government allowing me to briefly use a computer to send some e-mails. As I stated during that testimony, I was only allowed to send emails to government agents and prosecutors for the purpose of cooperation, and when this was going on, it was several months after I plead guilty. Thus, this happened months after the 30 day timeframe of when Mr May somehow expected me to report my guilty plea go the Board even though I had no way of doing so. And even if I was able to send emails to prosecutors and government agents months later it isn't like they are going to inform the Department of Health for me of my guilty plea. This suggestion by Mr May is completely absurd and baseless.

Also, throughout the 6+ months after I was tricked into agreeing to a plea bargain, which I was never even given an opportunity to thoroughly review, I continually told my attorney at that time, Jeff Brown, that I wanted to withdraw my guilty plea after I realized how many lies were contained within it; lies which Brown had promised to have removed before my 09/05/2012 "change of plea hearing". Brown subsequently promised me that he would help me withdraw my guilty plea, and he repeatedly assured me that I could withdraw it at any time, even after I was sentenced. Only after I was unjustly sentenced to 9 years did I realize that Brown had been lying to me all along as part of his ploy to extort over 150k from me, after he already received about 200k from me, just to get me to plead guilty to trumped up charges which he knew I wanted to fight. Thus, throughout the 6+ months after I plead guilty, especially during the 30 days immediately following my 09/05/2012 change of plea hearing, I fully expected to be withdrawing my plea at any time, and I was falsely led to believe that I would be able to do so by my greedy attorney. Therefore reporting this guilty plea to anyone was not on the forefront of my mind, considering the fact that I was actively attempting to get my attorney to withdraw it because I was bullied, coerced, and tricked into agreeing to it, on top of never given a chance to review it before my change of plea hearing. I was completely focused on trying to get my attorney to file a "motion to withdraw my guilty plea" during this timeframe, and was not thinking about trying to get someone to contact the Department of Health for me, especially during the 30 days following 09/05/2012, during which my attorney falsely led me to believe that he was helping me withdraw my plea.

In regards to the harsh statements made by the judge who sentenced me, and the lengthy sentence which she imposed on me, at that time she had reached these opinions and decisions after taking into consideration only the prosecutor's mendacious version of the situation. The prosecution extremely exaggerated my supposed role in the alleged conspiracy in their version primarily in order to justify keeping absolutely all of my money, which I had legally earned, that I voluntarily turned over to them on the first day of their investigation to "hold on to" while it is conducted, as an extreme measure of good faith by me. Despite requesting Brown to notify the judge of the false information portrayed to her by the prosecution about me, he declined to do so, and he also refused to let me address this matter at my sentencing hearing. I am confident that when I do get back to court for my pending appeal later this year that the numerous lies told about me will finally be exposed, and that the truth about the many improprieties which occurred during my case which ultimately caused me undue punishment will all come out as well.

TRULINCS 53913018 - SWITLYK, CHRISTOPHER - Unit: MIA-G-A

Also, I would like to point out that Mr May stated that during my "Supervised Release" that I shall refrain from working in the medical field, but he failed to mention that my period of supervised release is only 36 months, which can actually be terminated early, after 18 months of clear conduct. In fact, my supervised release, along with the rest of my sentence, may be terminated completely depending on what happens with my pending appeal, so this point could ultimately become mute. I believe that the ultimate outcome of my criminal case will be significantly improved in the near future. I will keep you all updated on the progress of my appeal, and any changes in my criminal case, since whatever happens with these things will likely directly affect the ultimate outcome of this present case with the DOH and DOAH.

I would like to respond in more detail to everything which Mr May and Judge Johnston wrote regarding this matter, but as I previously stated, I need to dedicate as much of my time as I can right now to working on matters involving my pending criminal appeal. Thank you for all of your patience, consideration, and understanding during this extremely difficult time for me, while on my own, I try the best I can to right the many wrongs which have been imposed on me, using only the severely limited resources available to me here. Through my efforts, and God's will, I pray that the truth about everything that went on in my case will finally come out soon, and that the many wrongs which were inflicted upon me the past 4+ years will began to be made right.

Sincerely,

Christopher Switlyk

Subject: Summary of Information - In Progress

Joe,

Thank you for spending the time to talk with me last Friday. I appreciate the opportunity to share valuable information regarding licensed medical professionals with you and the Florida Department of Health. I look forward to working with you, Babette, and the prosecutorial services. I have started to write up a summary regarding illegal activities of Doctors, Pharmacists, and Pharmacy Technicians but I do not have time to finish it this week. I am in the middle of working on a big project for the Dr Heromin case which I need to finish before I can finish this summary for you. I am sending you what I have written up so far. Hopefully next week I will have time to finish it and send it to you. If you could please delay things regarding my case for a little while until I have time to work on this for you I would greatly appreciate it. Thank you for your help, and I hope you and Babette have a Merry Christmas.

Sincerely,
Chris

Summary of Information I have concerning Illegal Activities Regarding Pharmacists, Doctors and Pharmacy Technicians:

Regarding Pharmacist Brian Weller, License #: PS19949:

Incidents of Illegal Activities concerning Brian Weiler which were discovered from personally reviewing the Surveillance Video from VIP Pharmacy from January, 2010 to May, 2010:

- *9 Video Clips of Brian stealing several types of controlled substances, mainly oxycodone, and putting them in his pockets while he was the pharmacist on duty
- *3 Video Clips of Brian stealing several types of controlled substances, mainly oxycodone, and ingesting them while he was the pharmacist on duty
- *4 Video Clips of Brian allowing Pharmacy Technician Marco Beltran take and give out controlled substances in his presence, mainly oxycodone, without prescriptions ever being presented to him while he was the pharmacist on duty
- *4 Video Clips of Brian allowing non-employees into the pharmacy and around the controlled substances while he was the pharmacist on duty
- *1 Video Clip of Brian allowing Mark's friend Jorge Casal into the back of the pharmacy and letting him take bottles of #100 oxycodone and #120 alprazolam 2mg and then letting him use the pharmacy computer system to reprint old labels for himself in his presence with no prescriptions while he was the pharmacist on duty
- *1 Video Clip of Brian allowing Mark and Kim to fill prescriptions for controlled substances for patients which were not present and without him checking over the prescriptions
- *1 Video Clip of Brian taking "hush money" from Mark and putting it in his pocket for allowing Mark to get away with his illegal activities while Brian he was the pharmacist on duty
- *1 Video Clip of Brian allowing Louis Fernandez Jr into the back of the pharmacy and giving him a bottle of prescription medication without a prescription ever being presented to him
- *1 Video Clip of Brian persuading Mark to fill a fraudulent Dr Heromin prescription for #200 oxycodone 30mg for HIMSELF without Andy Mobley's knowledge (who was the Pharmacist on duty at the time)

Other Information Shared concerning Brian Weiler's Illegal Activities:

- *Knowledge and proof of Brian helping Marco Beltran and Dr Ronald Heromin open an "In-House" pharmacy at Tampa Bay Wellness Centre in February and March of 2010
- *Knowledge of Brian illegally opening an unlicensed and unregistered pain clinic on Memorial Highway for Dr Ronald Heromin after he left Tampa Wellness Centre in April of 2010 and running it illegally for several weeks
- *Knowledge of Brian's illegal activities while he worked at New Tampa Pharmacy, including stealing controlled substances, mainly oxycodone and substantial amounts of money
- *Knowledge and proof of Brian's attempt to help Joanne Estephan and her brother-in-law Wassim Estephan open Dollar Pharmacy (DOH License #PH25027) (Dollar Pharmacy LLC)
- *Proof of Brian's attempt to open a pain clinic in Orlando, Florida with Dr Francis Lacina (WLC PHI, Inc)
- *Proof of Brian working at Amex Pharmacy in Melbourne, FL, after he was indicted on October 13th, 2011, while he has been out on bond which broke the rules of his bond agreement
- *Showed Prosecutors that his pharmacist license was still clear and active and that he was working outside the middle district and within a week they had Brian voluntarily withdraw his pharmacist license with the Department of Health as a result of the information I provided to them
- *Met with Assistant United States Attorney Maria Chapa Lopez and Jennifer Jackson, also with the same office, regarding the above information concerning Brian Weiler regarding case #8:11-CR-00323-T-17TBM and am assisting them with their prosecution of Brian Weiler

Regarding Pharmacist Joanne Estephan, License #: PS32656:

Incidents of Illegal Activities concerning Joanne Estephan which were discovered from personally reviewing Surveillance Video from VIP Pharmacy from January, 2010 to May, 2010:

- *12 Video Clips of Joanne allowing Pharmacy Technician Marco Beltran take and give out large amounts of controlled substances in her presence, mainly oxycodone, without prescriptions ever being presented to her while she was the pharmacist on duty
- *7 Video Clips of Joanne taking "hush money" from Mark and putting it in her pocket for allowing Mark to get away with and participate herself in illegal activities while she is on duty
- *1 Video Clip of Joanne allowing Louis Fernandez III in the back of the pharmacy and actually help count and fill prescriptions for controlled substances while she is on duty
- *5 Video Clips of Joanne allowing non-employees into the pharmacy and around the controlled substances while she was the pharmacist on duty
- *3 Video Clips of Joanne directly accepting money from customer Myron Haddix so she would participate in selling significant quantities of oxycodone 30mg to him without prescriptions ever being presented to her while she was the pharmacist on duty
- *4 Video Clips of Joanne allowing oxycodone 30mg to be sold to Myron Haddix without a prescription ever being presented to her while she was the pharmacist on duty
- *1 Video Clip of Joanne helping Louis Fernandez III and Kimberly Curtiss count thousands of dollars in money paid by Evan Brandies for at least 5 boxes (60 bottles) of oxycodone #100 30mg and 1 #500 bottle alprazolam 2mg without ever presenting any prescriptions to her for them while she was the pharmacist on duty
- *1 Video Clip of Joanne taking "hush money" from Louis Fernandez III twice and putting it in her pockets for allowing and participating in the massive illegal transaction with customer Evan Brandies while she was on duty
- *1 Video Clip of Joanne taking a bottle of hydrocodone / APAP and giving a sizeable amount of it to customer Evan Brandies without a prescription ever being presented to her
- *1 Video Clip of Joanne taking a pre-counted bottle of #60 alprazolam 2mg and giving it to Mark's friend Jorge Casal without a prescription ever being presented to her
- *1 Video Clip of Joanne taking a bottle of #100 oxycodone 30mg and giving it to Mark's friend Jorge Casal without a prescription ever being presented to her

Other Information Shared concerning Joanne Estephan's Illegal Activities:

- *Proof of Joanne lying to the DEA about her involvement in numerous illegal activities that she participated in at VIP Pharmacy and received substantial cash payments for
- *Proof of Joanne lying to the DEA to help close VIP Pharmacy so she could steal customers for her pharmacy, Tampa Express Pharmacy, and her clinic, Habana Spine and Medical Clinic as well as wholesaler accounts for her pharmacy
- *Knowledge of Joanne's hidden ownership interest in Habana Spine and Medical Clinic while putting all paperwork and licenses under the name of Dr Darlene Jones while it was open
- *Knowledge of Joanne's hidden ownership of Tampa Express Pharmacy LLC when she started it on 12/10/09 (DOH License #PH24532)
(She listed herself as an owner of it on 12/09/10 due to updated laws and regulations)
- *Knowledge and proof of Joanne's preference to fill prescriptions for controlled substances, mainly oxycodone, for patients from out of state, so she would be able to charge them substantially more money than Florida residents (The vast majority of the patients Joanne filled prescriptions for at Tampa Express Pharmacy were from out of state.)
- *Proof that Joanne was attempting to open a second pharmacy under her brother-in-law's name with Brian Weiler named Doliar Pharmacy (DOH License #PH25027)
- *Knowledge of Joanne making between 15 to 20 million dollars while Tampa Express Pharmacy was open, mainly off charging extremely high prices for prescriptions of oxycodone for out of state patients
- *Knowledge of Joanne transferring significant amounts of money to the country where she is from, Lebanon
- *Proof that when Joanne found out that I received the DVR from VIP Pharmacy and it had 5 months worth of video surveillance footage on it that she closed up her pharmacy the very next week

*Proof that she did not want to sell her pharmacy to another pharmacist because "she did not want to hand over her pharmacy's records"
(likely because of her records were questionable and showed illegal activity)

*Proof of Joanne purchasing the building that she previously rented for her restaurant at 2832 South MacDill Avenue Tampa, FL 33629 in October of 2010 for \$1,250,000 with money made from Tampa Express Pharmacy

*Knowledge of Joanne using about \$300,000 in cash she made at her pharmacy to make extensive improvements to her restaurant Byblo's Restaurant at 2832 South MacDill Avenue, Tampa, FL 33629

*Proof that Joanne used several hundred thousands of dollars she made from Tampa Express Pharmacy to purchase multiple businesses, houses, and condos in the Tampa area

The Honorable Virginia M. Hernandez Covington
District Judge
United States Courthouse
810 N Florida Ave
Tampa, FL 33602

I first met Chris in 2005 while working as a pharmacy technician at CVS Pharmacy where he worked as a Pharmacist. I have always known Chris to be an extremely hard worker who was always nice and helpful to all patients and fellow employees. At that time I was also a full time student at USF earning a Bachelor of Science degree in Biology. Despite working an average of 40 hours per week at CVS I still struggled to pay my bills, and was racking up credit card debt on top of accumulating multiple student loans. It was a very tough time for me, balancing a full course load and trying to support myself working a full time job. I had no idea what type of job I would be able to get after graduating or how I would be able to pay off my growing debt.

Chris and I quickly became friends at work and frequently got together outside of work as well. Chris was generous with not only money, but also his time and knowledge with his friends, family and associates. Chris never let me pay for one meal we ate together, and he insisted on fixing both, my computer and laptop, which I thought were beyond repair. Not only would Chris listen to my problems but he would always offer me a good solution to each and every one of them. Chris really took me under his wing and became a positive influential role model and mentor to me when I really needed one during that difficult and indecisive time in my life. I will be forever grateful for the positive advice and constant encouragement I always received from Chris. He truly inspired me to pursue and achieve goals I thought were unattainable before meeting him.

I was employed by CVS since 2000 and I really loved working in a pharmacy which Chris recognized. However by 2005, I was very unhappy with my pay of \$8 an hour and severely frustrated by CVS's refusal to grant me a single pay raise for over 3 years. By 2005 I was strongly considering an entirely different line of work and was very unsure of what I would do in my future. Chris genuinely appreciated my predicament and he reassured me that I excelled at my position and that there was definitely a bright future for me in pharmacy. Chris told me that if I just dedicated the next couple years of my life to becoming a pharmacist that it would greatly improve the rest of my life. He even urged me to apply to various Pharmacy Colleges that I never knew of. Chris also told me not to worry so much about my current financial troubles because they would all subside soon after I graduated from Pharmacy College and became a licensed Pharmacist. I told Chris that there was no way I could even afford my current bills and attempt to attend four additional years of college even if I wanted to.

Chris urged me not to give up on the field of pharmacy and told me that there were plenty of other great opportunities for me even as a licensed pharmacy technician with my current knowledge and skills. Chris took me to an open house at WellPoint where I was offered a position starting at nearly twice my CVS pay which definitely encouraged me. Unfortunately that job's hours wouldn't have worked with my class schedule so Chris recommended that I contact a friend of his at Publix Pharmacy. Chris's guidance ultimately led me to secure a better job with much better pay, benefits, and hours at Publix Pharmacy. Landing that new job reinforced me to focus on doing whatever it took to fulfill my dream of becoming a licensed pharmacist.

I ended up being accepted into one of the Pharmacy Colleges Chris told me about, Lake Erie School of Pharmacy in Bradenton, Florida. I kept that Publix Pharmacy job all through Pharmacy College which really helped me support myself while I continued my education. I am really proud to say that I graduated last year with my Doctorate in Pharmacy and became a licensed pharmacist. It feels really good to be able to have a career which allows me to pay my bills and provide for my family I have since started. I have even bought a new house I live in with my wife and daughter when just several years ago I never thought I would be able to achieve this type of life I now live.

It took a lot of studying and hard work to get where I am today but I would have not even attempted the path I took if it wasn't for Chris's advice, guidance, and encouragement. I am aware that Chris has made some poor choices in his life 3 years ago which led him to be in his current situation. I am not going to make excuses for his actions but they are extremely out of character for the Chris I have always known. Chris understands that he had severe lapses in judgment throughout the 16 months his pharmacy was open. I hope the court recognizes that Chris was eager to make amends for the things he did by voluntarily turning over everything he had to the government as well as being one of the first people to proffer. Chris also communicated to me that he has continued to substantially cooperate with the government on numerous cases.

Since Chris voluntarily closed his pharmacy nearly 3 years ago his life has been extremely difficult and filled with misery, severe depression, abandonment and outrageous legal bills he could not keep up with. I know all of the people who were around when things were going well for Chris abandoned him when things got bad. When I found out about what happened May 20, 2010 I offered Chris support and encouragement in his time of need like he did for me when I needed it. I will continue to offer my friendship and support to Chris because I consider him my friend for life. Chris told me the past three years have been the worst years of his life which I can easily believe since I have seen what he has been going through. I really feel that Chris has already learned his lesson for the things he's done and would never participate in any type of criminal activity ever again. I truly believe that Chris still has a lot he could positively contribute to the community if given the opportunity. Please consider all of these factors as well as the positive impact Chris has had on my life when imposing your sentence on him.

Sincerely,

Declain McGrory, Pharm D

The Honorable Virginia M. Hernandez Covington
District Judge
United States Courthouse
810 N Florida Ave
Tampa, FL 33602

My name is Patrick Carpenter and I have been a licensed pharmacist in the state of Massachusetts since 2001. I am writing this letter to you on behalf of my good friend Christopher Switlyk. I have known Chris for nearly 18 years and I considered him to be one of my closest friends while we attended Albany College of Pharmacy together.

I spent a significant amount of time with Chris throughout the five years we attended ACP and I got to know him very well. I have always known Chris to be an honest, loyal, caring, kind and hardworking individual. I remember Chris always instinctively wanted to help people any way he could, whether they were his friends, family, or strangers. Chris strived to make his parents proud, especially his father who seemed impossible to please. Chris was originally attending SUNY Albany studying Business and Computer Programming but his dad urged him to go into the medical field which is why Chris switched to ACP after 1 year at SUNY.

ACP, like all Pharmacy Colleges, was and still is an extremely tough and competitive school, and less than a third of our original freshman class made it through to graduation. Chris was determined to make it and we spent countless hours studying together very hard. On top of averaging 21 credits a semester at ACP, Chris also worked a full time job all through college. He even worked 2 jobs his second year because he didn't want to give up his original pharmacy technician job at Price Chopper Pharmacy. He loved that job even though he made a lot less at it then at his newer job at the Albany, New York Veteran's Hospital. Chris truly enjoyed being able to help Veterans in need on a daily basis and he kept that job at the VA Hospital Pharmacy for 4 years.

I remember Chris was always seeking to expand his knowledge and skills outside of pharmacy as well. In the little free time he had, Chris also helped a fellow classmate with his computer business. He enjoyed building computers from scratch and programming them to sell at monthly computer fairs. Chris even became skilled in auto mechanics from helping his other brother at the garage he worked at. I remember Chris walking into school one day with black marks on his arms and hands wondering what they were from. It turned out Chris had pulled over on the highway to help an elderly couple on the side of the road who had a flat tire and didn't know how to change it. Chris told me that they were surprised how quickly and easily he was able to change it for them and he was still able to make it to class on time. That is how Chris has always been, wanting to assist anyone in need of help any way he could. That is the main reason Chris really enjoyed working in the field of pharmacy. He felt great satisfaction from helping a lot of sick people get the proper medications they needed to get better or feel better every day he worked.

Unfortunately, I have been out of touch with Chris for a while and only recently learned of his recent legal issues. When I found out he was in jail in Pinellas County I have scheduled a visit to see him whenever I have been in town. From talking with Chris it is obvious to me that the past 3 years of his life have been extremely difficult for him.

Chris was part of a really supportive circle of honest and caring friends when we were in Albany, New York. I don't know why he let such questionable individuals into his life in Tampa in 2009 but perhaps he was trying to find a new circle of friends down here to belong to. Chris's actions and / or lack of action while he owned his pharmacy are completely out of character for him. I have always known Chris to be a law abiding citizen and a productive member of the community. I know Chris got himself into this situation because of the poor choices he made 3 years ago. Please don't let those several months of poor choices define his life which has been predominately full of positive contributions to society.

Chris is a great person and friend and still has many wonderful attributes he would like to share with this world. Chris lost everything he worked so hard for in his life due to this ordeal, and not just financially. Chris lost his career he worked so long and hard for along with approval and acceptance by his family. The deterioration of his overall physical and mental health from being incarcerated so long have also added to his pain and suffering. I promised Chris that we will never lose touch again and that I'll be there if he needs any help getting back on his feet when he is released. I know that Chris has learned his lesson from this unfortunate experience and would never again put his freedom in jeopardy. Please take these things into consideration when making your decision as to Chris's sentence. Thank you for the time you took to read this letter.

Sincerely,

Patrick Carpenter, RPh

DIVISION OF ADMINISTRATIVE HEARINGS

DEPARTMENT OF HEALTH,

Petitioner,

v.

DOAH CASE NO.: 14-0883PL

DOH CASE NO.: 2011-20634

CHRISTOPHER SWITLYK, R.Ph.,

Respondent.

**PETITIONER'S RESPONSE TO RESPONDENT'S MOTION TO
RECONSIDER RULINGS CONCERNING EXHIBITS & MOTIONS TO ADMIT
EXHIBITS 9 AND 10**

Petitioner, Department of Health, by and through the undersigned counsel, files this Response to Respondent's Motion to Reconsider Rulings Concerning Exhibits & Motions to Admit Exhibits 9 and 10 and states as follows:

1. On March 26, 2014, a hearing was held in the above-referenced matter in Tallahassee, Florida. Respondent appeared by teleconference. The Administrative Law Judge (ALJ) left the record open for post-hearing submissions of evidence.

2. On April 29, 2014, the ALJ filed an order closing the evidentiary record and ordering the parties to file proposed recommended orders by May 13, 2014.

RESPONSE TO MOTION TO RECONSIDER

3. At the final hearing in the case, Respondent was allowed 21 days to submit Exhibit 3, proposed patient medical records, to the Department and

the ALJ. Respondent failed to timely submit the records. Petitioner received Exhibit 3 after the ALJ closed the evidentiary record. Notwithstanding the foregoing, upon receipt and review of the exhibit, Petitioner has no objection to admission of Exhibit 3.

4. Respondent was allowed 10 days to submit Exhibit 8, copies of proof of completion of continuing education courses. Petitioner received Exhibit 8 after the ALJ closed the evidentiary record. Notwithstanding the foregoing, upon receipt and review of the exhibit, Petitioner has no objection to admission of Exhibit 8.

5. Petitioner maintains its objections to Exhibits 1, 4 and 6.

6. Petitioner concedes that it did not serve a copy of Petitioner's Exhibit 6 to Respondent. However, Petitioner served a copy of Exhibit 6 to Respondent on May 12, 2014.

RESPONSE TO MOTIONS TO SUBMIT EXHIBITS 9 AND 10

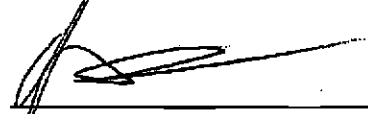

7. Petitioner objects to admission of Exhibit 9 on the basis that the proposed evidence is not relevant to these proceedings and is uncorroborated hearsay. In addition, the alleged text messages cannot be authenticated. Finally, the ALJ closed evidentiary record on April 29 and as a result, Respondent's submission is untimely.

8. Petitioner objects to admission of Exhibit 10 on the basis that the proposed evidence is not relevant to these proceedings. The Amended Administrative Complaint alleged that Respondent was convicted of a crime

related to the practice of pharmacy and failed to report that crime within 30 days to the Board of Pharmacy. The materials discuss changes in sentencing guidelines, which has no impact on Respondent's conviction. Finally, the ALJ closed the evidentiary record on April 29 and as a result, Respondent's submission is untimely.

9. Based on the foregoing, Petitioner requests that the ALJ deny Respondent's motions and set a new date for filing proposed recommended orders.

CERTIFICATE OF SERVICE

I HEREBY CERTIFY that a true and correct copy of the foregoing Response to Respondent's Motion to Reconsider Rulings Concerning Exhibits and Motions to Admit Exhibits 9 and 10 has been furnished this 12th day of May, 2014, to Respondent, Christopher Switlyk, Register # 53913-018, FCI Estill, Post Office Box 699, Estill, South Carolina, 29918-0699 by postage-paid U.S. Mail.

Yolonda Y. Green
Assistant General Counsel

Dear Judge Johnston and Mr Lucas May,

05/05/2014

Today I was told that I am being transferred to the Federal Prison Camp in Miami, Florida next week. I just had to pack up all of my property including all of my legal paperwork today so I am now at an extreme disadvantage when I write up my proposed recommended order for my case. On Friday, May 3, 2014, I received your notice stating that I have until May 13, 2014 to send both of you my proposed recommended order. Despite my extreme disadvantages and limitations, I am going to type this up tomorrow so I can get it in the prison mailbox tomorrow on May 6th, 2014. Hopefully it will reach you by May 13th, but please keep in mind that is a very, very short deadline for me to meet on such extremely short notice, especially considering my circumstances.

I have no control over how long it takes for my mail to reach you since the prison holds any outgoing mail until it can all be read and reviewed before they actually release it to be sent out. Also, the more pages which are mailed out, the longer it takes for prison officials to review them before they are sent to the local post office. This is why some of my exhibits which I placed in the mail here before my deadlines did not reach you as fast as you wanted them to. I obviously have no control over how fast the prison sends my mail out, and if I complain about it to them, and ask them to try and put a rush on my outgoing mail, that will just make them delay this process even longer for me. I am just a number in an overcrowded system and I definitely do not get any special privileges here. I hope you understand this and

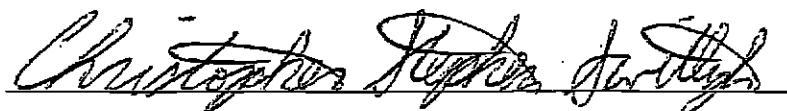

will take this into consideration when you don't receive some of my exhibits, motions, documents and letters as fast as you would like to receive them. Believe me, I mail everything out to both of you as fast as I possibly can, but as you both know, I have absolutely no control over how fast stuff reaches me and how fast it reaches you. Hopefully after I am moved to a Camp next week this process will become shorter.

I will be leaving here next Tuesday, May 13th, and will then be in the transfer process for 1 to 2 weeks before I reach my new facility. Thus, by late this month, or early next month, my new address will be:

Christopher Switlyk
Register #: 53913-018
Federal Satellite Camp
Post Office Box 779800
Miami, FL 33177

I believe that for a month or so that any mail that is sent to this facility at Estill, South Carolina for me will eventually be forwarded to me in Miami, but there will be a lengthy delay before I receive it. Also, it is up to me to notify anyone I expect to be receiving mail from of my new address once I am relocated. Thank you for your patience and understanding in this matter and please look for my Proposed Recommended Order in the mail soon (hopefully the day after you receive this letter). Have a good day.

Sincerely,

CHRISTOPHER STEPHEN SWITLYK

DOAH CASE NO: 14-0883PL

2014 MAY 12 AM 11 35 DOH CASE NO: 2011-20634

CHRISTOPHER SWITLYK, Respondent. /

ADMINISTRATIVE
HEARINGS

MOTION TO RECONSIDER RULINGS CONCERNING EXHIBITS

COMES NOW, the defendant, CHRISTOPHER STEPHEN SWITLYK, proceeding on his own behalf, respectfully asks this Honorable Court to Reconsider the Rulings made on 04/29/2014 and 04/30/2014 pertaining to his Exhibits 1, 3, 4, 6, 9 and 10, and the Department of Health's Exhibit 6.

At the conclusion of the 03/26/2014 hearing, I was told that I had 10 days to submit Exhibits 1, 2, 4, 6 & 7, and that I had 21 days to submit Exhibits 3, 5 & 8. However, I was never told if these deadlines were going to be determined using calendar days or working days.

The very next morning, on 03/27/2014, I e-mailed Mr Lucas May of the Prosecution Services Unit for the Department of Health to clarify this matter. As I stated in that e-mail, I mailed copies of it to Mr May, as well as to Judge Johnston, hoping to get a response regarding this matter.

Mr May responded to that e-mail on 04/01/2014, in which he stated, "I am sorry but I do not know what he meant by 10 days. Since you are currently incarcerated and are acting pro-se, I would assume he will grant you leniency on submitting your evidence. Perhaps you can send him a letter stating your difficulties.", which is exactly what I did.

you wish to calculate them. (Exhibits 1, 2, 4, 7 & (part of) 5 on 04/01/14 and Exhibits 3, 8 & (rest of) 5 on 04/17/14)

With this motion, I enclosed a copy of my 03/27/2014 e-mail, as well as a copy of the 04/01/2014 e-mail from Mr May. Despite that over a month ago I sent an e-mail to Mr May about it, and mailed it to Judge Johnston as well, I still never received a response clarifying for me when the exact deadlines were for submitting my Exhibits. In fact, Mr May has not e-mailed me or mailed me anything since 03/27/2014. The first communications I have received regarding this matter in over a month were the 04/29/2014 and 04/30/2014 Court Rulings I received today concerning the Exhibits in question.

Thus, as a result of Mr May's advice, and lack of any communication clarifying this matter for me, and considering my communications to both, Mr May and Judge Johnston, concerning my extreme difficulties in submitting my evidence in a expeditious manner, I presumed that I had AT LEAST until the 14th of April to mail in my Exhibits 1, 2, 4, 6 & 7, and that I had AT LEAST until the 1st of May to mail in my Exhibits 3, 5 & 8, ESPECIALLY since Mr May stated that "since I am currently incarcerated and are acting pro-se" that Judge Johnston would "grant me leniency on submitting my evidence". Thus, for Mr May to lead me to believe that I had a sufficient amount of time to submit my Exhibits, and then for him to actually object when they did not reach him as fast as he wanted them to, is a display of flagrant deceit, which should be taken into consideration by the Court when ruling on the acceptance of my Exhibits, all of which I placed in the mailing system here at the prison before my deadlines, however you wish to calculate them. (Exhibits 1, 2, 4, 7 & (part of) 5 on 04/01/14 and Exhibits 3, 8 & (rest of) 5 on 04/17/14)

I also assumed that as with all legal proceedings concerning incarcerated defendants, that "the mailbox rule" for inmates applied to this matter as well; meaning that whatever date(s) which I placed my Exhibits, and corresponding Certificates of Service, into the prison mailing system, that they would be the dates which are taken into consideration by the Court pertaining to my deadlines.

Please realize that I am in prison, which is the most inconvenient situation as possible as far as obtaining any documents I need, copying them, and then actually mailing them out. On top of mail only being sent out 4 days a week here, (Monday, Tuesday, Wednesday and Thursday), anytime there is a lock-down several days are also lost. There have been several lock-downs in this prison throughout the past month which have delayed this process for me even further.

I obtained my Exhibits as quickly as I could, and then copied them and mailed them out as fast as I could as well. I really thought that I was able to get copies to the Court and to Mr May relatively quickly, especially considering the numerous obstacles and extreme inconvenient circumstances which I faced during the process. Obviously my current incarceration makes any simple matter, such as submitting Exhibits, an extremely complex and difficult matter. Due to my severe restrictions imposed by my current housing situation, taking care of these matters, which would be extremely simple tasks under any other circumstances, become gargantuan tasks which require a significant amount of my time and effort to accomplish, as well as me needing to depend on other people as well in order to complete them.

In regards to my Exhibits 9 and 10, which I mailed on 04/18/2014, I would like the Court to consider accepting them into evidence as well, especially since they pertain to issues discussed during earlier hearings. Pertaining to Exhibit 9, I sent copies of some of the evidence showing that I was under serious coercion, blackmail and duress during the alleged conspiracy. Pertaining to Exhibit 9, I sent copies of several articles concerning the new changes in sentencing laws. I expect to receive 21 months off my current sentence once they are applied to me, in addition to the relief I also expect to receive as a result of my pending appeal (Exhibit 1).

Also, in regards to Exhibit 6 submitted by Mr May for the Department of Health, I never had a chance to object to it since I was never sent a copy of it, or even sent notice that it was being submitted. Thus, I object to this Exhibit being submitted into evidence, especially since I feel that I should have had the right to review whatever this Exhibit is before it was accepted into evidence against me.

Thus, since I placed all of my Exhibits in the prison mailbox before my informed deadlines, please RECONSIDER YOUR RULINGS and Accept my Exhibits 1, 3, 4, 8, 9, and 10 into Evidence, and also please exclude Exhibit 6 filed by Mr May due to the above stated reasons. WHEREFORE, the defendant, CHRISTOPHER STEPHEN SWITLYK, prays this Honorable Court grant him this Motion to Reconsider Rulings concerning Exhibits, or any other relief the Court deems just and proper.

Respectfully submitted,

CHRISTOPHER STEPHEN SWITLYK

TRULINCS 53913018 - SWITLYK, CHRISTOPHER - Unit: EST-A-A

FROM: May, Lucas
TO: 53913018
SUBJECT: RE: question about 10 day timeframe
DATE: 04/01/2014 02:51:06 PM

Hello Mr. Switlyk,

I am sorry but I do not know what he meant by 10 days. Since you are currently incarcerated and are acting pro se, I would assume he will grant you leniency on submitting your evidence. Perhaps you can send him a letter stating your difficulties.

Regarding the mitigating factors in your case, I do not doubt that you have learned a great deal from this situation, but the Department of Health is recommending revocation because it believes the underlying violations to be inexcusable. The Department would still be recommending the same discipline even if the sentence were to be reduced because it does not change the underlying facts of the conspiracy.

CHRISTOPHER SWITLYK on 3/27/2014 10:23:23 AM wrote
Mr May,

I need some clarification about the 10 days Judge Johnston gave me to submit my exhibits.
Is it 10 days from today? (Which would be April 5th.)
Or does he mean 10 mailing days?

Also, since they do not mail documents out Friday, Saturday and Sunday here only Monday, Tuesday, Wednesday and Thursday would count as mailing days for me. (Then that would come to April 14th.)

And do I need to have it in the mail within 10 mailing days?
Meaning that as long as it is post-marked within 10 days will that be fine?
Or do these documents actually have to get to him and you within 10 days of today?

The reason I am asking about this deadline is because the Prison Commissary store is closed until next Tuesday. It closes for a week only twice a year to take inventory and this week happens to be an inventory week so they are closed all week. Thus, I am unable to buy copy cards to make copies of everything I need to send until next Tuesday at the earliest.

This Tuesday I will buy at least 4 or 5 copy cards so I can make copies of the exhibits I want to submit within 10 days to you and Judge Johnston. However, sometimes the Commissary Store doesn't even have these copy cards in stock so please keep that in mind. If I am able to buy the copy cards on Tuesday I will be able to mail the documents which I actually have copies of here out on Wednesday afternoon. Then they may reach both of you by that Saturday, which is April 5th, but possibly not until that following Monday, which is April 7th. Thus, please clarify the 10 day timeframe for me when you get a chance. I will print out this email and mail a copy of it to you, and to Judge Johnston as well.

Also, since I was not expecting this hearing to be conducted today since I thought that my Motion to Postpone would be granted I was not prepared to testify or come up with exhibits to submit for my case. I had to literally do it all off the top of my head, which Ms Carlson will be able to verify since she was sitting across from me during our entire conversation. Thus, I would like to also ask to submit as an exhibit a list of all of the cooperation I did with the government throughout my case, which I feel should be taken into account as a mitigating factor for this case.

Also, and I mentioned this during the deposition of Mr Salem, I would also like to submit evidence of me being blackmailed and extorted during the alleged conspiracy. I have copies of emails and pictures of text messages, (which the government also has), that shows that 1 of my co-defendants actually tried to hire someone to kill me, and that 2 of them were also extorting me during the alleged conspiracy. I believe this is very relevant to this case and this is also part of my criminal appeal, and will likely be brought up whenever I get back to court for it.

Also, and I know I touched on my excessive drinking during the timeframe of when my case arose from, but after our phone call I thought about it and I wish I had put more emphasis on it, because it really did severely affect my judgment back then, and my poor decision making. It was a big contributing factor to what happened, and if I wasn't drinking so much everyday and night back then, and tending to my responsibility of owning a pharmacy like I should have more, and actually physically being there instead of letting people I obviously put too much trust into running it for me, all of this would not have happened, and I wouldn't be sitting here in prison writing you this email and fighting for just a chance to get my license back after this nightmare is all over. I did not even start drinking excessively until late 2008, and it kind of just spiraled out of control, and got worse and

TRULINCS 53913018 - SWITLYK, CHRISTOPHER - Unit: EST-A-A

worse. For the majority of the time I owned that pharmacy I did not have my priorities in order and I am the first to admit that I screwed up royally back then. However, I have gotten far more blame placed on me for things I didn't even know about happening in my criminal case, which I will hopefully be able to address when I get back in front of a Judge for my appeal.

I wish I could relay all the facts of what really happened when I owned that pharmacy to you and Judge Johnston, but it is literally impossible for me to do that with me being in here, especially without all of the video evidence I have showing what really went on. I just really think it is unfair for the Department of Health to want to take my license forever when the suspension range is 1 year probation up to revocation. If you even know the beginning of how much I have already been punished for this alleged conspiracy you would probably understand how I feel. Thank you for your understanding in this matter.

Sincerely,

-Chris Switlyk

EXHIBITS 3 (A-E): I enclosed copies of the relevant sections of my psychological medical records which I was able to have mailed to me the past few weeks.

EXHIBIT 3A) I enclosed a copy of an excerpt of my 06/18/2010 Psychological Evaluation by Psychiatrist David Myers, M.D., of the Professional Resource Network (PRN). This Psychological Evaluation indicates that I was suffering from alcohol abuse, as well as other emotional and mental conditions during the timeframe of the alleged conspiracy. Also, as shown at the conclusion of his evaluation, Dr Myers recommended that I "enter into a 7-day Inpatient Evaluation at a facility that is recommended for medical professionals and approved by PRN".

EXHIBIT 3B) I enclosed a copy of an excerpt of my 12/14/2011 Psychological Evaluation by Forensic Psychiatrist Donald Taylor, M.D., which indicates that I was suffering from alcohol abuse, as well as other emotional and mental conditions during the timeframe of the alleged conspiracy. Dr Taylor concluded that "It is probable that his history of interpersonal conflicts, occupational problems, and legal problems have been at least partially caused by his mental condition."

EXHIBIT 3C) I enclosed copies of 2 Letters which were written by Psychiatrist James Edgar, M.D. on 05/02/2012 and 06/13/2012. These letters verify that I was a patient of his and was seeing him twice a week for counseling up until the revocation of my bond on 05/01/2012. These letters also show that in addition to counseling, Dr Edgar was prescribing me medications to treat my conditions and improve my mental health, which he felt were "medically necessary".

EXHIBIT 3D) I enclosed a copy of the 08/24/2012 "In-Depth NeuroPsychiatric Evaluation" composed by Licensed Clinical Psychologist Jennifer Barror-Levine, PsyD, of The NeuroPsychiatric Institute. These 14 pages summarize most of my mental health history. Dr Barror-Levine diagnosed me with Bipolar II Disorder, with a recent history of Depression, Post Traumatic Stress Disorder, and a History of Alcohol Abuse. She concluded that I had suffered "diminished capacity" during the timeframe of the alleged conspiracy.

EXHIBIT 3E)

I enclosed a copy of the 09/01/2012 "In-Depth NeuroBehavioral Assessment" composed by Psychiatrist Dr Walter, Afield, M.D., who is the Medical Director of The NeuroPsychiatric Institute. Dr Afield stated that "because he deeply wants the approval and acceptance of others, he is likely to be easily convinced about their intentions and is honestly surprised when their short-comings inevitably surface."

EXHIBITS 5 (A-C):

EXHIBIT 5A (1-3): I enclosed a copy of E-mail communications I had with my Attorney Stephen Romine (Todd Foster's partner) in 06/2010, regarding my desire to enter into a PRN (Professional Resource Network) treatment program:

5A-1) 06/18/2010 at 7:01PM: I e-mailed Romine asking him about me entering into a 7-day in-house evaluation or a 30-day treatment program at PRN.

5A-2) 06/21/2010 at 2:08PM: Romine e-mailed me back, but only wrote about getting "the fee resolved and some payment down to start" on my case, completely neglecting to address my earlier email stating my desire to enter into a treatment program at PRN.

5A-3) 06/22/2010 at 5:46PM: I e-mailed Romine again about PRN, this time asking him about me entering into a 2 to 4 month in-house treatment program at PRN, which he also never bothered to reply to.

EXHIBIT 5B)

I enclosed a copy of the letter my Attorney Todd Foster sent on 09/10/2010 to Dr Judy Rivenbark, informing her that since I needed to focus on my criminal case, that I would not be able to enroll in a treatment program at PRN at that time. The real reason Todd Foster, who was my attorney from May of 2010 until October of 2011, did not want me to enter into a PRN program back then was because he wanted me to earn as much money as I could, as fast as I could, in order to pay off his massive \$750,000.00 fee, especially since I had just voluntarily turned over everything I had to the government in late May of 2010.

(see Exhibit 5C)

EXHIBIT 5C)

I enclosed a copy of Attorney Todd Foster's 07/21/2010 Engagement Contract, which verifies his extreme financial interest in my case over any intention he should have had of actually helping me with my problems and heeding to my best interests. While representing me, Foster focused only on collecting as much of his excessive fee of \$750,000.00 as he could from me, as well as on recovering my money which I had voluntarily turned over to the government, for himself and his firm.

EXHIBIT 8) I enclosed copies of the Continuing Education Certificates which I have available to me at this time, which I earned for each course that I completed in 2010, 2011, and 2012. Even though I voluntarily stopped practicing as a pharmacist on 05/20/2010 due to my pending criminal case, and despite going through significant legal problems while I was out on bond, I still spent a considerable amount of time completing Continuing Education Courses because I still cared about meeting the requirements to maintain my pharmacist license. I even completed several courses about Opioid Dependence in order to achieve a better understanding of it since my criminal case focused on an opioid medication.

I further attest that first-class postage has been prepaid.

Respondent.

RULINGS ON OBJECTIONS
AND FURTHER POST-HEARING PROCEDURES

The final hearing in this case was held on March 26, 2014. The evidentiary record was held open pending the submission of exhibits and objections.

The Petitioner's Exhibit 6 was submitted on April 11, and no objection to the exhibit has been filed by the Respondent. The exhibit is received.

The Respondent has not submitted his Exhibits 3 or 8. The Petitioner objected to Exhibit 3 on the ground that it was not submitted within 21 days of the final hearing, as required. The objection is sustained, and these exhibits will not be received in evidence.

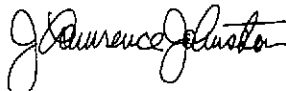

The Respondent has submitted his Exhibits 1, 2, and 4 through 7. The Petitioner does not object to Respondent's Exhibits 2, 5, or 7, and they are received in evidence.

The Petitioner objected to the Respondent's Exhibits 1, 3, and 4. Those objections are sustained, and those exhibits are excluded.

Within seven (7) days, the Petitioner shall confer with the Respondent and agree to a date or range of dates to reconvene the evidentiary hearing, if the Petitioner wishes to present rebuttal evidence. If there is to be no rebuttal, the

evidentiary record is closed, and the parties shall file proposed recommended orders by May 13, 2014.

DONE AND ORDERED this 29th day of April, 2014, in Tallahassee, Leon County, Florida.

**PETITIONER'S AMENDEND NOTICE OF FILING OBJECTIONS TO
RESPONDENT'S PROPOSED EXHIBITS**

Petitioner, Department of Health, by and through the undersigned counsel, files this Amended Notice of Filing Objections to Respondent's Proposed Exhibits as follows:

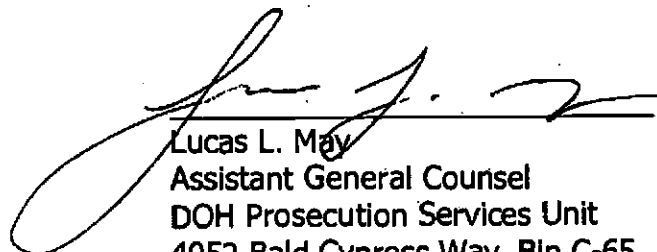

1. Petitioner objects to Respondent's proposed exhibit 1, a Plea Agreement filed September 4, 2012. The Plea Agreement should not be admitted into evidence because it is not relevant to this administrative proceeding. Relevant evidence is defined as "evidence tending to prove or disprove a material fact." *Fla. Stat. § 90.401*. At issue in this case is whether Mr. Switlyk has entered pleas of guilty to crimes delineated in Petitioner's Administrative Complaint. Petitioner has already entered an Amended Plea Agreement into evidence, which is the controlling plea agreement as to Respondent's criminal case. Furthermore, Respondent's Plea Agreement, Filed September 4, 2012, is incomplete and lacks Respondent's initials on pages two (2) through twenty six (26).

2. Petitioner objects to Respondent's proposed exhibit 3, patient medical records. At the final hearing in this case, Respondent was allowed 21 days to provide said records. Respondent has failed to do so.

3. Petitioner objects to Respondent's proposed exhibit 4, a copy of Respondent's Sentencing Memorandum. The Sentencing Memorandum is incomplete in that it is unsigned and also appears to be a draft. Petitioner objects because the Memorandum contains hearsay. Lastly, Petitioner objects because the Memorandum is not relevant to determine whether Respondent entered pleas of guilty to the crimes delineated in the Administrative Complaint.

4. Petitioner does not state further objections to Petitioner's proposed exhibits 2, 5 or 7.

Respectfully submitted,

Inmate Handbook

Revised March 2011

Sheriff Jim Coats

Pinellas County Sheriff's Office

"Leading The Way For A Safer Pinellas"

To The Inmate:

The Florida Legislature has established administrative and operational requirements to be maintained by all county detention facilities. Additionally, the State Jail Standards Committee has established specific operational standards. In Pinellas County, the Sheriff is charged with the responsibility of maintaining the county's jail facilities.

It is my policy that the Pinellas County Jail system shall operate in full compliance with all State Laws and the Florida Model Jail Standards.

The maintenance of a jail that provides safe, secure and sanitary conditions requires the cooperation of all confined persons. Every effort will be made to provide you with adequate confinement and nutrition while you are in jail. Your courtesy and attention to the rights of your fellow inmates will help make your stay in jail less complicated. You are encouraged to take advantage of the library, religious, social and education programs offered to all inmates.

Whether your time here is long or short, I sincerely hope this is your last stay in the Pinellas County Jail.

JIM COATS, Sheriff
Pinellas County, Florida

Sheriff Jim Coats

Pinellas County Sheriff's Office

"Leading The Way For A Safer Pinellas"

To The Inmate:

This Inmate Handbook is provided so you may have a better understanding of the operations, programs and services of the Pinellas County Jail.

It is our objective to provide a secure, safe and sanitary jail. You are expected to assist in this effort by keeping yourself and your living area clean at all times. It is also expected you will respect the rights of your fellow inmates and obey staff charged with your supervision.

Sheriff Jim Coats provides a number of opportunities for inmates to use their time productively. A variety of religious programs and recreational activities are available. In addition, those individuals who can meet the necessary qualifications can use various education and / or training opportunities.

During your confinement in the Pinellas County Jail, the same laws that exist in our society will govern you. Any violation of federal, state or municipal ordinance will result in prosecution of those involved. Any violation of the rules and regulations of the jail will be dealt with appropriately. It is our hope when you leave the Pinellas County Jail system, you will be a better person. It is up to you.

INMATE ORIENTATION HANDBOOK AND RULES

I. Introduction

- A. The Pinellas County Jail Complex contains several buildings. Each building of the complex has the same mailing address: 14400 49th Street North, Clearwater, FL 33762-2877, Phone (727) 464-6415.
- B. The various housing divisions within the complex house a wide array of inmates, including but not limited to, felons, misdemeanants, females and sentenced inmates. No individual shall be discriminated against because of race, color, national origin, gender or disability. Inmates shall have equal access to all programs and privileges unless deemed to be a threat to the safety of staff, other inmates or the security of the facility. Reasonable accommodations are provided for persons with a disability.
- C. All rules and staff direction must be obeyed. The housing deputies shall direct and control all housing unit activities. Inmates must conduct themselves in an orderly manner at all times with respect to the rights of other inmates and staff.
- D. Emergencies or safety drills can occur that may require inmates to evacuate or relocate to another area. It is important to remain calm and listen to the instructions given by detention personnel. Not following instructions may lead to disciplinary action.
- E. **SMOKING AND TOBACCO PRODUCTS ARE PROHIBITED.**
- F. Searches are necessary to control the introduction of contraband and to prevent escapes. Inmates must comply with the search of their person and personal property at any time. Inmates do not have to be present while staff is conducting a search of their cell area and/or belongings. Inmates will cooperate with deputies to expedite this process.
- G. Each person incarcerated at the Pinellas County Jail must have a photograph and fingerprints taken. Each inmate will be provided with an identification card to wear at all times on the chest area (not on the sleeve), with the photograph showing.
- H. Anytime there is a call for a headcount appearance, inmates are to proceed to their cell location immediately. Inmates are to remain quiet until the count is complete and they are excused. Inmate counts will be at the discretion of the deputies.

ii. Booking Process

- A. All non-federal inmates booked into the Pinellas County Jail will be charged an Inmate Subsistence Fee to cover administrative costs.
- B. If an inmate's cash account balance is not sufficient to cover this charge, a lien will be placed against the inmate's cash account. The balance owed will be deducted from any deposits received. The debit balance will be carried for a period of three years from date of release.
- C. The subsistence fee will be refunded to the inmate if he/she produces proof of No Information, Nolle Prose or a "Not Guilty" verdict for the docket number the subsistence fee was collected on. Reimbursement may only be requested provided the inmate has no other cases under that docket number that are pending or adjudicated.
- D. Upon arrival, inmates receive a medical screening. Please inform staff of any special medical or emotional needs during this process. If you have an emergency medical problem, please contact a deputy immediately. He or she will contact the proper medical person to handle your medical problem. For your safety, do not remove your identification card.
- E. At the time of booking, all money in an inmate's possession will be credited to his/her personal inmate account, except for foreign coins and/or foreign paper money which will be placed in his/her personal property. No inmate will keep in his/ her possession any money, checks, money orders or any other legal tender. Any unauthorized funds discovered are forwarded to the Inmate welfare fund.

- F. During the booking process you will be screened by a nurse, interviewed by classification staff, photographed, fingerprinted and issued a jail identification badge. Identification badges are required to be worn and properly displayed on the chest at all times after issued.
- G. If you are not released on your own recognizance or do not bond out and are assigned housing at the jail, personal clothing will be exchanged and an inmate uniform or alternative clothing will be issued. Make no alterations to clothing. Inmates will be expected to reimburse the facility for intentional damage or loss to clothing.
- H. Bed linens, towels, one drinking cup, soap, one toothbrush, one toothpaste, one comb and footwear (if needed) will be issued. Feminine hygiene items will be provided. Razors will be provided and exchanged daily in accordance with Bureau directives.
- I. A replacement cost will be charged for missing, destroyed or damaged jail issued property or any jail property. It is in your best interest to keep the issued items in good condition.
- J. **Posting Bond/Purging Child Support Payments**

How to post a bond for a Pinellas County Jail Inmate:

If a Pinellas County Jail inmate's charges have a bond amount, the inmate can post a bond or have someone else post the bond to facilitate his/her release.

How to post an Inmate's bond using a credit or debit card:

The Pinellas County Jail is now accepting bond payments through the GovPayNow program. Check with a deputy to find out the limit that may be charged. The limit is on a per charge basis, and not applicable to any charge with a bond over the allowed limit. Be advised a non-refundable service fee to GovPayNow will be added to all transactions.

How to purge an inmate's child support payment:

If a Pinellas County Jail inmate has been arrested for failure to pay child support, the inmate can purge the child support payment or have someone else purge the child support payment in order to facilitate the release of the inmate.

How to purge an Inmate's overdue child support payment using a credit or debit card:

The Pinellas County Jail is now accepting payment for child support purges through the GovPayNow program. Payments are accepted for the full amount of the purge.

Make sure to have the Inmate's Information ready before proceeding to www.GovPayNow.com:

This information is available in the "Who's in Jail" function on the Sheriff's Office website, or through the Clerk of the Circuit Court.

- The defendant's name
- The defendant's docket number
- The case number

The Pay Location code is **6343** for inmate bond payments.

The Pay Location code is **6143** for inmate child support purges.

There are three ways to pay with a credit or debit card:

- Online at www.GovPayNow.com (Click on link)
- By phone at 1-877-EZBAIL5
- In person at the Pinellas County Jail Bond Counter

Other bond payments accepted:

Bonds of any amount can be paid using the following payment options:

1. **Surety Bonds** are accepted from registered bonding agents. A list of registered bonding agents is located in the enclosed case just outside of the Public Lobby area. You may also refer to the

telephone book or internet. The Pinellas County Sheriff's Office cannot and will not recommend a bonding agent.

2. **Cash bonds** are accepted in the full amount of the bond. In order to post a cash bond, you will need to present a valid photo I.D. All bank checks, travelers' checks and money orders must be made payable to the **Clerk of the Circuit Court**. No personal checks will be accepted. This payment must be on a separate check or money order if more than one bond is being posted at the same time.

Important Notice

F.S. 903.286 requires the Clerk of the Court to withhold from the return of a cash bond posted on behalf of a criminal defendant by a person other than a bail bond agent, sufficient funds to pay any unpaid court fees, court costs, and criminal penalties. This means that if the defendant for whom you are posting bond owes costs and penalties, those fees will be taken out of the bond money you posted. You may receive only a portion or none of the posted bond money even though the defendant makes all timely court appearances. F.S. 903.26(2)(b) states that if a defendant fails to appear at the time, date and place of required appearance, the bond money will be forfeited.

III. Medical Services

- A. Upon arrival, inmates shall receive a medical and mental health screening. Please inform the nurse of any special medical or emotional needs during this process.
- B. All inmates have the opportunity to request health care on a daily basis. If you wish to see a qualified healthcare provider regarding a medical or mental health concern, please submit a Medical Request (Form 82) to the nurse on duty.
- C. Non-emergency requests will be triaged and scheduled for the next available sick call by a qualified healthcare professional.
- D. **How to Inform Staff of a Medical Emergency** - If you have an emergency medical problem, please contact the floor deputy on duty immediately. He or she will contact a qualified healthcare provider to handle your medical problem.
- E. **No Inmate will be refused medical treatment.** Please inform medical staff of any special medical or emotional needs you may have.

IV. Indigent Inmate Supplies

- A. Indigent inmates are defined as inmates who are without funds or who have \$1.00 or less at time of admittance. These individuals may receive necessary health, hygiene and writing materials after 14 days of indigent status.
- B. Once such an individual establishes an inmate account and has sufficient money posted to the account (more than \$1.00), they will not be considered indigent again until their account remains at \$1.00 or less for a period of 14 days from the date of the last entry.
- C. Indigent items are distributed in an Indigent Kit. The Indigent Kits contain the following:

Standard Indigent Kit:

1. One (1) 8 ½ x 11 legal pad
2. One (1) black ink pen
3. Four (4) stamped post cards
4. One 1.5 oz tube of toothpaste
5. One 1.5 oz deodorant
6. One (1) toothbrush

Clothing Indigent Kit:

Male

1. Two (2) t-shirts
2. Two (2) boxer shorts

Female

1. Two (2) bras
2. Two (2) panties

Note: Indigent kits, both the Standard and the Clothing, will only be ordered and distributed as a full kit, no half kits or variations thereof will be given.

- D. Inmates shall request a Pinellas County Detention Facility Indigent Kit order form from detention staff. The inmate will complete the form and return it to detention staff on the morning prior to their respective divisions' commissary receiving day. Detention staff shall forward the order forms to Inmate Accounting for verification of indigent status.
 1. If the inmate qualifies as indigent, Inmate Accounting will forward the order form for processing.
 2. If the inmate does not qualify for indigent supplies, Inmate Accounting will note such on the Indigent Kit order form. The form will be returned by the Commissary vendor.
- E. Eligible indigent inmates may request and receive the Standard Indigent Kit once every 30 days. Eligible indigent inmates may request and receive the Clothing Indigent Kit only one (1) time each 365 days.
- F. Any inmate in need of footwear shall submit an Inmate Request Form to the appropriate floor deputy. The floor deputy shall assess each individual situation, process the Inmate Request Form accordingly, and provide shower slides as needed.
- G. Indigent inmates will be continuously furnished with soap/shampoo, as will all general population inmates.
- H. If an indigent inmate needs legal envelopes to mail legal/privileged correspondence, he/she will submit an Inmate Request Form to the law library. The law library clerk will verify the inmate's indigent status by checking the Cactas computer system. Once verified, the law library clerk will process the request in Cactas and distribute the envelopes. The indigent legal mail will be forwarded back to the law library for indigent status confirmation/verification and logging prior to being sent to the mail room. Each qualified indigent inmate may request up to four legal envelopes every 30 days.

V. Dress Code and Personal Hygiene

- A. An issued uniform will be required anytime an inmate exits his/her housing area, to include visitations, religious services, medical services, social services, educational classes and attorney visits, etc.
- B. All inmates will maintain a high degree of personal cleanliness. Showers and toiletry items are available. Each division schedules haircuts; ask the housing deputy about the schedule. Inmates with upcoming court appearances have priority.
- C. All inmates will be given the opportunity to shower/bathe daily, but are required to bathe at least twice weekly. Housing unit deputies will require inmates to be neat and clean before work.
- D. Linen exchange is once per week. Issued uniform exchange is twice per week. Inmates are responsible for any linen and uniform issued. Personal laundry is on a twice per week schedule. Inmates assigned to jobs within the jail will receive clean clothes each day they work. The laundry services are under the supervision of the staff; a laundry schedule will be available based on cell and unit assignment.

VI. Replacement of Hygiene Items

- A. Housing area deputies will replenish or exchange bath soap, razors and feminine hygiene items.
- B. Items issued such as toothbrushes, toothpaste and combs must be purchased through commissary at the inmate's expense when replacements are needed. Indigent inmates will be given personal hygiene items once every 30 days.
- C. Inmates are not permitted to hoard Bureau issued personal hygiene items.

VII. General Housekeeping

- A. Inmates are responsible for keeping their cell and the immediate area around the cell clean and neat at all times.
- B. Beds will be made anytime they are not in use.
- C. Inmates are responsible for damages to their cell, which are a result of negligence or malicious destruction.
- D. Trash will be placed in the containers provided and is removed daily from living quarters. No trash bags are allowed except as needed to line the inside of the receptacles.
- E. Inmates cannot place personal items, clothing or linen on the bars, windows, bunks or vents.
- F. Do not post or attach anything to walls, mirrors, windows, bunks or on lights.
- G. Inmates cannot write, draw or mark on walls, ceilings, tables, chairs, bunks or any other facility owned property.
- H. Immediately report any inoperative equipment (such as light, sink, toilet, etc.) to a deputy.
- I. When there are too many flammable materials such as paper and plastics, a fire hazard exists. Excess items are to be discarded or they will be confiscated by detention staff as a safety precaution. The facility is inspected regularly and adheres to all state fire safety codes.

VIII. Meals

- A. The jail offers three meals a day; there are no extra helpings or trays. Inmates must eat the meals at mealtime. No food from your tray can be saved, given, traded or sold to other inmates.
- B. Inmates will have the opportunity to exchange or clean his/her drinking cup daily.
- C. Only food items purchased through commissary may remain in the housing unit.
- D. If, for medical reasons, an inmate requires a special diet, medical will review the request and advise if approved or denied. If approved, medical will notify the food service provider to provide the required diet.
- E. If an inmate requires a religious diet, he/she must complete an Inmate Request Form to the Bureau Chaplain stating the name of the religion and the type of diet. The chaplain will review the request and advise of the approval or disapproval of the request.

IX. Inmate Accounts and Commissary

- A. Only other facility's checks, certified checks, cashier's checks or money orders of at least \$1.00 are acceptable for deposit into the inmate's account. No cash will be accepted from visitors for deposit into an inmate's account. Any deposit received containing damaged or unreadable money orders, personal checks or cash will be returned to the sender if the name and address has been provided.
- B. An automated online deposit system (Access Corrections) is anticipated to be available to the general public during the summer of 2011. This system allows individuals, in the general public, the ability to electronically deposit money directly into each inmate account. The website is <http://www.accesscorrections.com>. In addition, kiosks will also become available to the general public at the jail's visitation center and public lobby.
- C. No inmate will keep in his or her possession any money, checks, money orders or any other legal tender. Any unauthorized funds discovered are forwarded to inmate accounting for processing.
- D. An inmate may transfer or release funds from his/her account to the public by completing the "Inmate's Permission for Money Release Form." Any other requests will be at the discretion of the Division Commander.
- E. The commissary is a privilege provided for the exclusive use and benefit of all inmates. Inmates may use money in his/her inmate account to purchase commissary items. The commissary provider deducts

purchases from the Inmate account. A list of items available from the commissary is in each housing unit or a list may be requested from a deputy.

- F. Inmates may place orders to the commissary twice weekly.
- G. Each order may be no more than \$100.00 combined clothing and food.
- H. Inmates may go over the \$100.00 limit in order to purchase a radio.
- I. Inmates' family and friends may order commissary items online via Secure Pak. These items will be delivered during normal commissary distribution. Items can be ordered at www.fipackages.com.
- J. Damages or shortages must be identified upon delivery to you. By signing, you acknowledge and understand the terms of commissary orders and authorize funds to be deducted from your trust fund account to pay for the order. Once the order is accepted it is a final sale! All inmates have 60 days from purchase to request any information regarding a commissary sale or credit. For nutritional information write to the following address: Keefe Commissary Network, P.O. Box 23353, St. Petersburg, FL 33742.

X. Notary Public Services

The Pinellas County Jail will make a Notary Public available when requested by an inmate. Contact the shift sergeant or social worker for a Notary Public.

XI. Good Time/Gain Time

- A. Good Time awards are granted to all sentenced inmates. Any discrepancies should be addressed on an Inmate Request Form to Inmate Records. Good Time awards are not to exceed five (5) days per month.
 - 1. Good Time is awarded at the time of sentence verification. Records of Adjusted Release Dates are in all housing areas containing county-sentenced inmates. No inmate release will take place until verification is completed.
 - 2. Good time is calculated on the balance of the sentence after deducting gain time and credit for time served as determined by the courts. Good time is calculated at the time of sentence verification.
 - 3. If an inmate fails to comply with established facility rules and regulations and is disciplined, including transfer to another facility offering a more secure environment, the inmate can also lose good time. receive time in detention or a combination of actions.
 - 4. Inmates whose offense dates are prior to November 1, 2001 (when the five days per month good time policy was implemented), will have good time calculated according to the days worked. This calculation will be one day off of the sentence for every day of work completed.
- B. Gain Time - county sentenced prisoners earn Gain Time at a rate of five days for every 30 days of sentence.
 - 1. Gain time is not allowed for any sentence of 29 days or less.
 - 2. The Inmate Records Section computes gain time at the time they receive notification of sentencing.
- C. Certain county inmates are not eligible to receive either good or gain time. Included in these categories are the following: Inmates incarcerated on Civil Contempt of Court Orders, inmates sentenced to a specific time period and those inmates stipulated by the sentencing judge not to receive good time awards.
- D. Any part of good or gain time shall be subject to forfeiture for any violation of law, rule, or regulation of the institution.

XII. Mail

Inmates may write and receive unlimited correspondence. However, if the inmate is under any restrictions or disciplinary actions, mail may be limited with the exception of legal mail.

- A. Mail is delivered and picked up once a day, except on weekends and postal holidays.
- B. All incoming mail must have the inmate's full name, docket number, housing location and a return address or it will be returned to the Post Office.
- C. Incoming and outgoing inmate mail will be monitored by the staff for security reasons. Staff will inspect incoming mail to intercept cash, checks, money orders or contraband. Any monies found will be placed

in your money account. If contraband is found in the correspondence, the entire letter or package will be returned to the sender or handled according to policy or statutory law. Inmates will be notified in writing of the rejected correspondence.

D. Any legal or privileged mail received will be opened in the presence of the inmate to confirm it is legal or privileged mail. If the mail is not legal mail, it becomes contraband and is handled appropriately.

E. All outgoing mail must include a return address as follows:

Full name, identification number, housing assignment
Pinellas County Jail
14400 49th Street North
Clearwater, Florida 33762-2877

F. Detention staff will not interfere with outgoing mail except to open and inspect it to determine if it contains contraband or interferes with the security and orderly operation of the facility.

G. Publications:

1. Inmates may receive printed material and publications (books, magazines, newspapers, etc.) he/she purchases from, and are mailed by, the publisher or established book retailer. Book clubs are not considered an established book retailer.
2. Materials that may affect the order, security and safety of the facility are not allowed. The Pinellas County Jail does not forward subscriptions upon release or transfer of the inmate.
3. There is a limit of three books, three magazines and three days of newspapers at one time. Excessive items are put with the inmate's property or seized and disposed of as contraband.
4. The receiving mail clerk will forward any unacceptable publications or material to the Bureau Commander for review and disposition.

XIII. Telephones

A. Three-way calling is not permitted and is a violation of inmate conduct. **Your telephone calls may be recorded.**

B. The Pinellas County Jail provides telephones for inmate convenience as a means to contact attorneys, bondsmen and family. All calls are on a "collect call" basis.

C. Inmates can purchase pre-paid phone cards that will enable them to make local and long distance calls. The deputy on duty can provide information on how to purchase one.

D. Criminal charges or disciplinary action may be placed against persons found destroying, altering or damaging telephones and/or making obscene, threatening or harassing telephone calls.

E. Inmates may not charge calls to a credit card or other number. Fraudulent long distance calls will result in prosecution.

F. T.D.D. Machines are available for the hearing impaired, upon request.

G. Inmates are encouraged to use either an Inmate Request Form or the US Mail if there is a need for communication within the Pinellas County Sheriff's Office. If there is an absolute necessity to contact any agency or a section of the Sheriff's Office by telephone, a request should be made with a detention supervisor or a member of the Detention Investigations Unit (D.I.U.)

H. There are enough telephones to accommodate the number of inmates housed in each area. However, during times of high demand, be aware other inmates need to use the phone. No continuous calling is allowed during these times.

I. If an inmate feels he/she needs to make an emergency phone call, an Inmate Request Form addressed to the counselor is to be completed.

XIV. Disciplinary Procedure

A. When an infraction of the rules is alleged to have occurred the following will happen:

1. A disciplinary report will be processed.

2. The incident will be investigated and the inmate will be provided written notice of the charges against him/her at least 24 hours prior to a hearing.
3. A deputy will speak with the affected inmate, notify him/her of his/her rights, take a statement concerning the violation and answer any questions the inmate may have.
4. A hearing will be held as soon as possible.
5. The inmate will receive a copy of the committee's written decisions.

A detention supervisor may place an individual in an administrative confinement cell for the safety of the inmate or the security of the facility, pending an investigation or disciplinary hearing.

- B. **Appeals** – If an inmate disagrees with the disciplinary action rendered by the committee, he/she has the right to file an appeal to the Bureau Commander. To do this, make a Request for an "Administrative Remedy Form." This form must be filed within five calendar days from the date of the notification of the Disciplinary Committee's decision. The Bureau Commander will review all appeals and the ruling will be binding.

XV. Prohibited Conduct and Penalties

Inmates are responsible for adhering to all policies, rules and regulation of the Pinellas County Jail, as well as Federal, State and Local laws. The following infractions carry a maximum penalty of 30 days. The Disciplinary Committee or Hearing Officer may elect to impose a lesser penalty.

- K. When a conflict in scheduling exists between a scheduled visit and other programs, the inmate shall have the option of attending the program or visitation. Inmates choosing to attend a program over visitation shall not be removed from the program to attend their visit.

XX. Library Services

A. Law Library

1. To receive information from the Law Library, an inmate must submit a request to the Law Librarian. The requested material will then be delivered within three days (excluding weekends and holidays).
2. There is a fee of 10 cents per page for the copies; the cost will be deducted from the inmate's money account. Indigent inmates may receive up to 50 copies per month, free of charge.
3. The Law Library keeps 10 copies of the Florida Model Jail Standards and inmates may review them by using the request form.
4. Information concerning immigration law and legal services is available by request.

B. Physical Access to Law Library

1. Only inmate who are Pro-Se in their criminal case and who comply with all other facility rules, regulations and requirements will be considered for physical access to the law library.
2. Approved Pro-Se inmates will make their request to gain physical access to the Law Library on an Inmate Request Form; the request will be forwarded to the law library.
3. The law library clerk shall construct a daily list of inmates wishing to physically access the Law Library from the Inmate Request Form.
4. Prior to an inmate's first physical visit to the law library, he/she will receive an orientation to include familiarization of all rules and regulations pertaining to such access; the inmate will be required to sign an acknowledgment of their receipt and understanding of the orientation.
5. Pro-Se inmates will be provided a reasonable amount of time in the library. The division commander or designee may approve additional time or priority time.
6. No more than eight inmates may physically access the law library at the same time.
7. Pro-Se status inmates will be given up to three green storage boxes for legal material. No additional storage boxes are permitted in the housing area; any additional boxes will be placed in Inmate Property.
8. In the event a Pro-Se inmate is deemed a security risk for any reason, or otherwise fails to comply with the facility rules, regulations and requirements, he/she will not be permitted physical access to the law library. However, the Pro-Se inmate will still receive access to legal materials by completing an Inmate Request Form. A law library clerk will process the request and deliver requested items to the inmate cell side.
9. Any inmate found intentionally damaging, defacing or removing legal materials or supplies shall be disciplined to include limiting continued access to legal materials for a set period of time.

C. Recreational Reading

1. Any inmate desiring books or periodicals from the library must submit an Inmate Request Form stating the type of books or periodicals desired. This form should be given to a floor deputy.
2. Any books or periodicals requested that are not available will be substituted with a similar selection.
3. There is a limit of three books and three magazines at one time per inmate. Return previously distributed books and/or magazines before distribution of additional books and/or magazines.

D. Upon release, turn in all jail issued books and periodicals.

- E. Inmates may request Bibles, Qurans or other Holy Scriptures from the library or chaplain's office. They are provided for your use as available.

XXI. Property

- A. Inmates will be held accountable for the deliberate destruction or damage of Issued Jail property.
- B. Inmates are prohibited from giving or exchanging Issued inmate clothing or linens to another inmate.
- C. Personal property, as listed below, will be permitted in cells if it does not pose a threat to the health and safety of the inmate or the security of the facility.
1. Authorized hygiene items such as soap, toothbrush and toothpaste, comb and razor (when issued).
 2. One plastic bowl with lid purchased through the commissary (not available through Secure Pak).
 3. Clothing items received from the Indigent Inmate Program or purchased through the commissary in the amounts listed:
 - a. Male - Five pairs of under shorts, five white tee shirts (without logo or design), five pairs of socks, and one pair of thermal underwear, solid white, cream or beige in color.
 - b. Female - Three bras or sports bras (no under-wire bras), five pairs of panties, five white tee shirts (crew neck only) and one pair of thermal underwear, solid white, cream or beige in color.
 4. Prescription eyeglasses, contact lenses, eye prosthesis and dentures. No dark tinted eyeglass or sunglasses allowed unless medically needed and a member of the medical staff verifies the need. These items are your responsibility and you must maintain them in an appropriate manner. **Do not place them in a container that may be considered contraband, such as a styrofoam cup or trash bag.**
 5. Medically necessary lotions and soaps will be in new, unopened containers when brought to the jail complex. A member of the medical staff must authorize these items before they will be released to you.
 6. You may have and/or display up to three family pictures, in good taste, no larger than 3" x 5". No Polaroid™ photographs are permitted through the mail.
 7. Limit of three each: books, magazines and newspapers.
 8. Magazines and books must be sent directly from the publisher or an authorized bookstore. If any other method is used, the books and/or magazines will be considered contraband and the complete package will be returned to the sender. The mailroom staff will label these books with your name and docket number.
 9. Newspapers are by subscription only. The publisher sends newspapers by third class mail so several days' worth may arrive at one time. However, stockpiling newspapers can create a fire hazard therefore, after you read each newspaper, throw the newspaper away.
 10. If detention staff feels there is an excessive amount of newspapers, they will remove all but the three most recent days and throw them away as trash.
 11. One radio, one pair of headphones and only the number of batteries needed to operate the radio plus a replacement set, per inmate are allowed. All items must be purchased from commissary and are not available through Secure Pak. Staff will confiscate as contraband any altered radio and/or headphone.
 12. Addresses and telephone numbers.
 13. Pencils, paper, stamped envelopes, pens and colored pencils purchased through the commissary or received through the Indigent Program are permitted. Any of these items sent through the mail will be considered contraband and will be returned to the sender.
 14. Legal materials, papers and letters. Pro-Se status inmates will be given up to three green storage boxes for legal materials. Any additional storage boxes will be at the discretion of the Division

Commander. Only three boxes at one time are permitted in the housing area; any additional boxes will be placed in inmate property.

- D. Court Clothes – Inmates will be allowed to retain one set of personal clothing in the Property Room for court appearances and/or for use upon discharge.
- E. Court Attendance – Inmates attending court are not permitted to have any personal or jail issued property in their possession with the exception of legal materials. All inmates are subject to a search and any contraband found will be disposed of per policy.
- F. Bulk Property
 - 1. Any item that will not fit through the inmate property release pass-through box will be transported to the Property and Evidence Section by the arresting officer.
 - 2. Any weapons, bicycles or tools determined to be a potential safety or security risk by the Division Commander, or any unusually cumbersome items that may have been taken by the arresting officer will be stored at the Pinellas County Sheriff's Office, Property and Evidence Section, 4707 145th Avenue North, Clearwater, FL 33762-2877, Phone 727-464-6391.
 - a. Bulk property stored at the Inmate Property Section of the Pinellas County Jail will only be kept in inventory for **30 days after the date you are transferred to another facility or released.**
 - b. Bulk property stored at the Property and Evidence Section will only be kept in inventory for **30 days after the date of your incarceration.**

G. Procedure for Release of Property

- 1. Pickup From Jail by Outside Person
 - a. Inmates must complete, in ink, an "Inmate's Permission for Property Release Form." Any form not completed in ink or filled out properly will be returned to the inmate.
 - b. The person designated by an inmate to receive his/her property must present a valid photo identification (Drivers License, Florida I.D. card, etc) before any property will be released to them.
- 2. By Mail
 - a. Inmates may request property be shipped via US Mail either during their incarceration or within 30 days of their release/transfer from the Pinellas County Jail.
 - b. A completed "Inmate's Permission for Property Release Form" and pre-paid postage (at the inmate's or recipient's expense) must be received by the Property Section prior to shipment of the property.
 - c. Property shipping information must include name, street address and phone number of accepting party.

Note – When property is released, the inmate must release everything (excluding clothing) located in the Property Section. Partial items may not be released. The exception to this is the release of a single credit card. Clothing may be released to an outside party only if sentenced to prison.

H. Personal Property Accepted at State Facilities:

Inmates sentenced to State Prison will be transported with only those items authorized by the State. This regulation is strictly enforced. State prisons will destroy excess items in accordance with State Statutes. Inmates are limited to taking only that property which will fit in an 8" x 11" x 12" box. If an inmate has unauthorized items, he/she must arrange for them to be released by mail or picked up by an outside person as outlined above.

 - l. Watch (not exceeding \$50.00 in value).
 - m. Religious medallion w/chain (not exceeding \$50.00 in value).
 - n. Four pens (non-refillable, non-retractable).
 - o. Personal Hygiene items, one each (brand new and unopened).
 - Shampoo
 - Conditioner
 - Deodorant
 - Bar of soap and case
 - Toothbrush and case (no caps)
 - p. No body piercing jewelry of any kind is permissible.
 - q. Hair styles including braids, plats, extensions or hair weaves, should be removed prior to being transferred to Lowell CI.

All property in excess of the specified above limits will be disposed of upon arrival at these facilities. These items shall be discarded, mailed out at inmate's expense or picked up by a family member.

I. Transported Before Release of Property

If an inmate is transported to another facility before completing an "Inmate's Permission for Property Release Form", the inmate must mail a notarized letter authorizing all of his/her remaining property be released to the designated person. This letter must give a list of the items to be released, the name, complete address and relationship of the person authorized to receive the property. *(It is the inmate's responsibility to notify the person designated to claim the property).* Mail the letter to Pinellas County Jail, Property Section, 14400 49th Street North, Clearwater FL 33762-2877.

The person designated to receive the property must present a valid photo identification (drivers license, Florida I.D. card, etc.) before any property will be released to them. The notarized authorization letter will be kept on file in the Property Section. This process must be completed within 30 days from the date of transfer to another facility.

J. Personal Property Upon Transfer to Federal Custody

- 1. Inmates may not take any property (e.g., legal materials, personal property, etc.) with them when being transferred to Federal custody.
- 2. It is the inmate's responsibility to arrange the release of his/her property utilizing the "Inmate's Permission for Property Release Form" or shipment of the property within 30 days from the date of transfer.
- 3. Items of property at Pinellas County Jail not released after 30 days from the date of transfer to Federal custody are considered abandoned and will be disposed of in accordance with agency policy.

K. Release of Money Upon Transfer

- 1. State Facility: Money will be mailed within 7-10 business days from the date of transfer.
- 2. County Facility: A check is written for cash funds on-hand at the time of transfer and given to the Transport Officer for delivery to the receiving facility.
- 3. Federal facilities: Checks are provided to the U.S. Marshal Service.

XXII. Inmate Grievance Procedures

Most grievances can be taken care of quickly and efficiently by voicing the complaint to any deputy. Inmates are encouraged to use this method before filing a formal complaint.

- A. If unable to resolve the grievance in this matter, submit an Inmate Request Form to the Shift Commander or Shift Supervisor asking for a "Request for Administrative Remedy Form." "The Request for Administrative Remedy Form" must be filed within three business days from the date of the incident, unless it is not feasible to file within such a period.
- B. The concerned supervisor will have up to five days from receipt of the complaint to act on the matter and provide a written response.
- C. If the complaint is of an emergency nature and threatens immediate health or welfare, a reply must be made no later than 48 hours of receipt of the complaint.
- D. If dissatisfied with the response given to a complaint, the inmate may file an appeal to the Bureau Commander using a Request for Administrative Remedy Form within three business days of receipt of the response. The Bureau Commander will forward a receipt and reply within five days from receipt. The appeal should be attached to the response of the original grievance.

XXIII. Religion

The Pinellas County Detention and Corrections Bureau provides inmates of all faith groups with reasonable and equitable opportunities to pursue religious beliefs and practices, within the constraints of budgetary limitations and consistent with the security and operational concerns of the facility. Because of security reasons, any inmate transferred from a state or federal institution will be required to place all religious items in property. The Bureau Chaplain must approve all religious paraphernalia to ensure it meets Pinellas County Jail criteria for safety and security. If the item(s) does not meet the criteria, the Chaplain's office will issue approved required items as available. If any religious concerns arise, contact the Chaplain utilizing an Inmate Request Form for information or guidance. The ability to attend worship or a group study conducted by a religious volunteer is contingent upon behavior. Violations will be dealt with according to established disciplinary procedures.

A. The following items are authorized, if they meet the Pinellas County Jail criteria:

1. **Rosary and prayer beads** are for praying and are not an essential need in the religious sense. Therefore, inmates may have a single rosary or string of beads of the approved breakaway style in their possession for their personal use. Inmates may not wear a rosary or prayer beads around the neck or wrist at any time. Rosary or prayer beads worn around the neck or wrist will be considered jewelry and will be taken as contraband. Inmates must keep their rosary or prayer beads in the housing unit and properly stored unless attending religious services; they are not to be taken to court. No metal beads and/or medallions are permitted. If the rosary or prayer beads are altered in any manner, they become contraband and will be confiscated.
2. **Headgear** must follow these restrictions:
 - a. **Koofi Cap** - If worn for everyday use, it must be made of white cloth that is either plain or crocheted. Inmates may wear Koofi caps only when attending the Jumah prayer service (not to and from), during the Quranic study (not to and from) and in their assigned housing area.
 - b. **Yarmulke** - If worn for everyday use, it must be made of black cloth. Inmates may wear Yarmulkes in their assigned housing area or for religious services (not to and from).
 - c. **Scarves or shawls** worn by female inmates may not be larger than 24 x 24 inches and may not cover the face. Inmates may wear these head coverings in their assigned housing area or for religious services (not to and from).
3. **Prayer rugs** - The Chaplain's Office will provide a piece of a blanket or a durable cloth to use when the inmate's faith practice requires it. This facility does not allow inmate colorful cloths or rugs designated for this practice. If one is in an inmate's possession, it will be placed in Property. Do not take towels and blankets used for bedding to the chapel or otherwise use them for prayer rugs.
4. **Bibles, Qurans or other Holy Scriptures** may be requested from the Chaplain's office and provided for use as available.

B. The following items are not authorized:

1. No inmate may possess scented oil, holy water or ashes. Chapel leaders and religious volunteers may receive authorization from the Bureau Commander to use these substances for the anointing of inmates during services or while visiting.
2. No open flame candles or battery powered candles. Only paper facsimiles are authorized.

XIV. Alternative Sentencing Programs

Assignment into an Alternative Sentencing Program is based on an inmate meeting the qualification criteria, if not prohibited by the judge at the time of sentencing. For additional information, contact the Alternative Sentencing Unit Supervisor via an Inmate Request Form.

- A. **Electronic Monitoring Program** - This program allows selected, low risk, offenders to be fitted with an ankle bracelet and monitored while completing the terms of their sentence. It provides a more positive transition back into the community and reduces the cost of incarceration to the County. Inmates must meet the qualification criteria to be considered for the program. If not eligible or, if once on the program, the inmate violates the conditions, he/she will be returned to jail to serve the remainder of the sentence on straight time.
- B. **Day Reporting Program** - This jail diversion program targets low risk, non-violent county sentenced offenders to perform community services at various governmental and non-profit agencies in Pinellas County. This is with the community service agency's approval and is in lieu of serving jail time. Inmates must meet the qualification criteria to be considered for the program. If not eligible or, if once on the program, the inmate violates the conditions, he/she will be returned to jail to serve the remainder of the sentence on straight time.

XV. Inmate Marriages

The Bureau Commander retains final authority on all inmate marriage requests. The following is a list of steps for inmates interested in the procedure for marriage while housed in the Pinellas County Jail.

- A. All inmate marriage requests will be directed to the Bureau Commander via an Inmate Request Form. Such requests will be liberally allowed. However, the Bureau Commander may deny a marriage request if there is information the marriage will cause a threat to security, order or public safety.
- B. If allowed, the petitioner must obtain a marriage license from the Clerk of Courts' office by following their license procedures.
- C. All inmate marriages shall be conducted through video visitation. Once the marriage license has been obtained, the requestor should contact the Pinellas County Jail's Video Visitation Center to make arrangements with a date and time for the marriage ceremony.
- D. The requestor must provide a Notary Public or a clergy member who can legally perform the marriage ceremony.
- E. A social worker will assist the requestor in obtaining any necessary signatures.

XVI. Reports of Sexual Abuse/Assault

The Pinellas County Sheriff's Office is committed to upholding the Eighth Amendment Rights of all detainees as required by the Prison Rape Elimination Act of 2003 (117 STAT. 972 PUBLIC LAW 108-79, September 4, 2003).

- A. Any sexual activity involving inmates, including consensual acts, is strictly prohibited and no individual has the right to pressure another to engage in sexual acts. Involvement or knowledge of such acts should be reported immediately.
- B. Following these tips will not guarantee you are not attacked, but may help decrease risk.
 1. Carry yourself in a confident manner.
 2. Remain alert and be aware of your surroundings.
 3. Avoid isolated areas whenever possible.
 4. Do not project fear or anxiety around other inmates.

5. Do not accept an offer from another inmate to be your protector.
 6. Involve yourself in positive activities (educational, self-help, religious programs, etc.)
 7. Trust your instincts; if you feel unsafe, voice concerns to a staff member.
- C. Violations of sexual abuse and/or sexual assault will be investigated and prosecuted to the fullest extent of the law, including administrative sanctions and/or criminal prosecution.
 - D. Reporting – Any incidence of sexual abuse or sexual assault while in custody should be reported immediately. A report of sexual assault can be made directly to a staff member or via an Inmate Request Form; to speak with a detention supervisor, chaplain or social worker or, use a Form 82 to speak with healthcare staff.
 - E. Confidentiality - If an inmate reports sexual abuse or assault, confidentiality will be maintained with regard to all information obtained during the course of the investigation. Only those with a legitimate "need to know" will be provided facts for investigation and prevention purposes.
 - F. Protecting the Victim – Every effort will be made to protect the victim from further harm. If he/she cannot, or will not identify the individual(s) involved in the sexual assault, he/she does not give up the right to receive protection from the assailant(s).
 - G. Medical Assistance - Sexual abuse/assault victims will be evaluated and provided medical treatment and follow-up care, as appropriate.
 - H. Counseling - Most people need help recovering from the emotional effects of a sexual assault. A qualified mental health professional will provide crisis intervention counseling and coping skills and will monitor for the necessity of long term support. Any inmate at risk for, or having a history of victimization or sexually aggressive behavior, and is interested in self-initiated counseling may contact any staff member or complete an Inmate Request Form.
 - I. False Accusations - Pursuant to Florida Statute, it is unlawful to falsely accuse any person of sexual assault/rape and is punishable by law.

XVII. Release Preparation

Upon Release From:

- A. **Housing Area** – Gather all belongings when called for release. Inmates are responsible to remove all of his/her belongings, personal as well as jail issued. The released inmate will be taken to a dress-out area and his/her property will be returned; money will be returned at a separate location.
- B. **Court** – If an inmate goes to advisory court and is released by the judge, he/she will return to their assigned housing area to gather belongings and wait for the Inmate Records Section to complete the proper clearance of paperwork. This process could take several hours. To be eligible for the "release from court" process, the "Application for Release Pending Not Guilty Verdict" form must be completed. This form will be sent to Inmate Records for processing prior to your court date. When a judge has ordered the release at the conclusion of the court proceeding, the bailiff will initiate the release process. Upon approval and proper clearance for release, the bailiff will affect the release from the court room. **EXCEPTION:** If the inmate is in jail-issued clothing, he/she will return for normal release procedures.
- C. Social workers are available to discuss pertinent outside agency admission criteria and referral procedures for inmates upon release.
- D. Helpline Information and Referral Telephone (24 hours a day, 7 days a week): 211 (Tampa Bay Cares, Inc.) provides information regarding housing, shelter and many other services for released offenders.
- E. In accordance with Florida Statutes, a released inmate may be required to provide a DNA sample prior to release from jail.

HEARINGS

Mr May,

I need some clarification about the 10 days Judge Johnston gave me to submit my exhibits.

Is it 10 days from today? (Which would be April 5th.)

Or does he mean 10 mailing days?

Also, since they do not mail documents out Friday, Saturday and Sunday here only Monday, Tuesday, Wednesday and Thursday would count as mailing days for me. (Then that would come to April 14th.)

And do I need to have it in the mail within 10 mailing days?

Meaning that as long as it is post-marked within 10 days will that be fine?

Or do these documents actually have to get to him and you within 10 days of today?

The reason I am asking about this deadline is because the Prison Commissary store is closed until next Tuesday.

It closes for a week only twice a year to take inventory and this week happens to be an inventory week so they are closed all week. Thus, I am unable to buy copy cards to make copies of everything I need to send until next Tuesday at the earliest.

This Tuesday I will buy at least 4 or 5 copy cards so I can make copies of the exhibits I want to submit within 10 days to you and Judge Johnston. However, sometimes the Commissary Store doesn't even have these copy cards in stock so please keep that in mind. If I am able to buy the copy cards on Tuesday I will be able to mail the documents which I actually have copies of here out on Wednesday afternoon. Then they may reach both of you by that Saturday, which is April 5th, but possibly not until that following Monday, which is April 7th. Thus, please clarify the 10 day timeframe for me when you get a chance. I will print out this email and mail a copy of it to you, and to Judge Johnston as well.

Also, since I was not expecting this hearing to be conducted today since I thought that my Motion to Postpone would be granted I was not prepared to testify or come up with exhibits to submit for my case. I had to literally do it all off the top of my head, which Ms Carlson will be able to verify since she was sitting across from me during our entire conversation. Thus, I would like to also ask to submit as an exhibit a list of all of the cooperation I did with the government throughout my case, which I feel should be taken into account as a mitigating factor for this case.

Also, and I mentioned this during the deposition of Mr Salem, I would also like to submit evidence of me being blackmailed and extorted during the alleged conspiracy. I have emails and pictures of text messages, (which the government also has), that show that one of my co-conspirators actually tried to hire someone to kill me, and was also extorting me during the alleged conspiracy. I believe this is very relevant to this case and this is also part of my criminal appeal, and will likely be brought up whenever I get back to court for it.

Also, and I know I touched on my excessive drinking during the timeframe of when my case arose from, but after our phone call I thought about it and I wish I had put more emphasis on it, because it really did severely affect my judgment back then, and my poor decision making. It was a big contributing factor to what happened, and if I wasn't drinking so much everyday and night back then, and tending to my responsibility of owning a pharmacy like I should have more, and actually physically being there instead of letting people I obviously put too much trust into running it for me, all of this would not have happened, and I wouldn't be sitting here in prison writing you this email and fighting for just a chance to get my license back after this nightmare is all over. I did not even start drinking excessively until late 2008, and it kind of just spiraled out of control, and got worse and worse. For the majority of the time I owned that pharmacy I did not have my priorities in order and I am the first to admit that I screwed up royally back then. However, I have gotten far more blame placed on me for things I didn't even know about happening in my criminal case, which I will hopefully be able to address when I get back in front of a judge for my appeal.

I wish I could relay all the facts of what really happened when I owned that pharmacy to you and Judge Johnston, but it is literally impossible for me to do that with me being in here, especially without all of the video evidence I have showing what really went on. I just really think it is unfair for the Department of Health to want to take my license forever when the suspension range is 1 year probation up to revocation. If you even know the beginning of how much I have already been punished for this alleged conspiracy you would probably understand how I feel. Thank you for your understanding in this matter.

Sincerely,

-Chris Switlyk

CHRISTOPHER SWITLYK, R.Ph.,

Respondent.

**PETITIONER'S NOTICE OF FILING OBJECTIONS TO RESPONDENT'S
FILING OF MOTION TO VACATE, SET ASIDE, OR CORRECT SENTENCE**

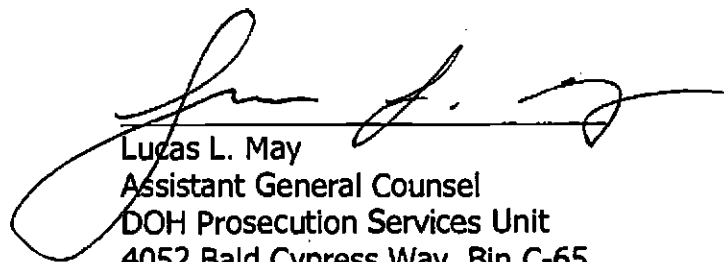

Petitioner, Department of Health, by and through the undersigned counsel, files this Notice of Filing Objections to Respondent's Filing of Motion to Vacate, Set Aside, or Correct Sentence, and states:

1. Petitioner has not received Respondent's proposed exhibits 1, 2, 3, 4, 5, 7, or 8. To the extent Respondent offers exhibits for admission into evidence, Petitioner reserves the right to raise objections at that time.
2. Petitioner objects to Respondent's Motion to Vacate, Set Aside or Correct Sentence, pursuant to Title 28 U.S.C. § 2255 on the following bases:
 - a. Respondent's Motion contains hearsay. Respondent includes statements allegedly made by his attorneys and other individuals. These statements were made out-of-court and are offered by Respondent to prove the truth of the matter asserted. No exceptions are applicable and therefore the Motion should be excluded from evidence. *Fla. Stat. § 90.802.*

b. Respondent's Motion is not relevant to the current proceeding. The current proceeding concerns whether Respondent entered guilty pleas as described in Petitioner's Amended Administrative Complaint. Respondent's Motion does not deny the entering and acceptance of guilty pleas. Furthermore, any requested relief is speculative and therefore not relevant to the current proceeding.

Fla. Stat. § 90.401.

v.

CASE NO: 8:10-CR-530-T-33AEP

CHRISTOPHER SWITLYK

MOTION TO VACATE, SET ASIDE, OR CORRECT SENTENCE

COMES NOW, the Defendant, CHRISTOPHER SWITLYK, proceeding on his own behalf, and pursuant to 28 United States Code 2255, and hereby requests this Honorable Court to issue an Order setting aside the judgement and sentence of conviction and as grounds therefore would state the following:

I. CONTENTS OF MOTION

Pursuant to 18 United States Code 2255 the instant motion includes the following:

- 1) The undersigned is attacking the judgment and sentence rendered on February 21, 2013.
- 2) There has been no appeal taken attacking the legality of the judgment and sentence.
- 3) There have been no previous Motions for Post-Conviction Relief.
- 4) The undersigned is seeking to vacate the judgement and sentence as a result of ineffective assistance of counsel.
- 5) This motion is filed timely.

II. SUMMARY OF THE CASE / FACTS

- 1) The defendant was one of many defendants charged in this alleged conspiracy. Some of these defendants were included in his indictment and others were indicted separately. These include: Louis Fernandez Jr, Louis Fernandez III, Kimberly Curtiss, Marco Beltran, Brian Weiler, Dr Ronald Heromin, Dr John Lanning, Dr James Shelburne, and Retsidistwe Griffith.
- 2) The defendant had been represented by several attorneys throughout the process, including (in order): Dirk Weed, Todd Foster, Gregory Kehoe, Steven Crawford, and Jeffrey Brown.

III. PROCEDURAL HISTORY

- 1) On 05/20/2010, a search warrant was executed on the defendant's pharmacy, VIP Pharmacy, and a pain clinic belonging to his co-defendants, Tampa Wellness Centre, and the defendant was subsequently arrested on a state charge.
- 2) On 05/20/2010 & 05/21/2010, the defendant was represented by attorney Dirk Weed, who convinced him to immediately start cooperating with the government, and do whatever the agents wanted him to do. This included having the defendant voluntarily close his pharmacy, voluntarily turn over all of his prescription medications worth about 1 million dollars, and voluntarily turn over all of his money (several million dollars in cash and in his bank accounts).
- 3) On 05/24/2010, the defendant met with attorney Todd Foster, who began to represent him, and represented the defendant through the following 17 months.

- 4) On 11/03/2010, another pain clinic was raided which belonged to co-defendants of the defendant, Superior Injury Center, and Beltran and Curtiss were arrested on state charges.
- 5) On 12/14/2010, an Indictment was returned charging the defendant, inter alia, Count One, conspiring to possess a controlled substance with the intent to distribute.
- 6) On 12/16/2010, the defendant was notified of his indictment and arrest warrant. The defendant immediately voluntarily surrendered himself to the U.S. Marshals, and was granted release pending trial by Judge Pizzo.
- 7) On 10/21/2011, attorney Greg Kehoe filed a notice of appearance and began representing the defendant.
- 8) On 12/28/2011, attorney Greg Kehoe filed a Motion to Withdraw from the defendant's case due to the government threatening to seize his fees the defendant was paying him.
- 9) On 01/13/2012, the Motion to Withdraw was conducted before Judge Porcelli, who offered to court-appoint Kehoe so he could continue to represent the defendant. Kehoe refused to accept the court's offer and the defendant was forced to hire other legal counsel.
- 10) On 01/19/2012, a Conflict Hearing was held before Judge McCoun to discuss the Conflicts of Interest of the defendant's previous attorney, Todd Foster, who represented him for 17 months. These conflicts included Foster's representation of the defendant, Heromin (see Case No: 8:11-cr-550-T-33TBM), and Griffith (see Case No: 8:11-cr-323-T-17TBM).
- 11) On 02/06/2012, attorney Steve Crawford filed a notice of appearance and began representing the defendant.

- 12) On 05/01/2012, the defendant's bond was revoked while being represented by Crawford.
- 13) On 05/16/2012, a Bond Revocation hearing was conducted before Judge Pizzo, which resulted in detention of the defendant.
- 14) On 06/06/2012, attorney Jeff Brown filed a notice of appearance and began representing the defendant.
- 15) On 06/18/2012, Brown filed an Emergency Motion for Order to Show Cause why the defendant should not be returned to the general population of the jail.
- 16) On 06/28/2012, Judge Porcelli granted the Motion for Order to Show Cause why the defendant should not be returned to the general population of the jail. A Miscellaneous Hearing on this matter was scheduled for 07/06/2012.
- 17) On 07/05/2012, the Miscellaneous Hearing was canceled as the issues were resolved on this date, and the defendant was finally able to communicate with his new attorney (Brown), and was able to actually start having meetings with Brown about his case instead of about his housing conditions.
- 18) On 08/31/2012, Judge Covington denied the Joint Motion to Continue Trial for the defendant.
- 19) On 09/05/2012, the defendant plead guilty to the Indictment while he was represented by Brown.
- 20) On 01/19/2012, Judge Covington sentenced the defendant's codefendants as follows: Fernandez Jr to 24 months, Fernandez III to 63 months, Curtiss to 48 months, and Beltran to 188 months.
- 21) On 02/11/2013, Judge Covington denied the Joint Motion to Continue Sentencing for the defendant.

22) On 02/21/2013, Judge Covington sentenced the defendant to 108 months while being represented by Brown. Immediately after the defendant's sentencing hearing, AUSA Peluso and Brown had an "off the record discussion" with Judge Covington at her bench about the conflicts of the defendant's previous attorney, Todd Foster, having severe negative impacts on the defendant throughout his case.

23) On 09/26/2013, a Motion for Forfeiture of a Preliminary Order for Substitute Assets was filed by the government, regarding 62 1-ounce gold Kruggerand coins which belonged to the defendant, worth approximately \$87,804.40 at the time, which had been seized by the DEA earlier that month.

24) On 11/26/2013, a Motion for Final Judgement of Forfeiture for Substitute Assets regarding the defendants gold coins was filed by the government, and granted by Judge Covington.

IV. NATURE OF RELIEF SOUGHT

The nature of the relief sought is to allow the defendant to withdraw his plea, and to set aside and vacate the judgments in the case at issue herein, based on the fact that the defendant's counsels rendered ineffective assistance of counsel; or in the alternative, to be resentenced while the Court takes into consideration all of the issues raised in this motion, which in combination likely contributed to the defendant receiving a much longer sentence than he would have received had none of these issues transpired.

V. MEMORANDUM OF LAW

In *Strickland v. Washington*, 466 U.S. 688, 104 S.Ct 2052, 80 L.Ed 2d 674 (1984), the United States Supreme Court defined two requirements for a claim of ineffective assistance of counsel. *Id.* at 687, 104 S. Ct at 2064. First, the defendant must show that counsel's performance was deficient. *Id.* This requires showing that counsel made errors so serious that counsel was not functioning as the "counsel" guaranteed to the defendant by the Sixth Amendment. *Id.* Second, the defendant must show the deficient performance prejudiced the defense. *Id.* Therefore, the first prong of this test requires that the defendant show counsel's performance "fell below an objective standard of reasonableness." *Id.* at 688, 104 S.Ct at 2065.

Under the second prong of *Strickland*, the defendant must show that the deficient performance prejudiced by the defense. This requires showing that counsel's errors were so serious as to deprive the defendant of a fair trial, a trial whose result is reliable.

The Sixth Amendment's right to counsel exists to ensure a fair trial, and counsel's function is to make the adversarial process work in that particular case. "The benchmark for judging claims of ineffectiveness ... is whether the conduct of counsel 'so undermined the proper functioning of the adversarial process that the trial cannot be relied on as having produced a just result.'" *Strickland*, 466 U.S. at 686, 104 S.Ct 2052. An attorney's performance must be reasonable under the prevailing professional norms,

considering all of the circumstances, and viewed from the attorney's perspective at the time of trial. Id. A defendant must meet both parts of the test, performance and prejudice, in order to obtain post-conviction relief. To establish prejudice, the defendant must show "that there is a reasonable probability that, but for counsel's unprofessional errors, the result of the proceeding would have been different."

Strickland, 466 U.S. at 104 S.Ct. 2052. "The concern of the court evaluating an ineffectiveness claim should be whether the result of a particular proceeding is unreliable because of a breakdown in the adversarial process." Id.

VI. GROUNDS FOR RELIEF

GROUND 1: AN ACTUAL CONFLICT OF INTEREST DENIED THE DEFENDANT HIS SIXTH AMENDMENT RIGHT TO EFFECTIVE ASSISTANCE OF COUNSEL.

SUPPORTING FACTS FOR GROUND 1:

The defendant attests that his counsel Todd Foster labored under an actual conflict of interest which adversely affected his performance during the plea and cooperation process of his case during the entire seventeen (17) months he represented the defendant (05/24/2010 to 10/20/2011). Todd Foster rendered ineffective assistance of counsel throughout his representation by blatantly ignoring multiple conflicts he had with representing Dr Ronald Heromin, Nirav Patel, Brian Weiler, and later Retsidistwe Griffith, while also representing the defendant, which severely prevented him from any opportunities for timely cooperation against those individuals, as well as others.

Despite knowing that the defendant had actually sent three of his firm's other clients to them, namely Heromin, Patel and Weiler, Foster assured the defendant that these conflicts would not have any negative impact on his representation of the defendant. Foster took over the defendant's case in late May of 2010, and despite him immediately expressing his desire to cooperate, Foster did not bring the defendant to proffer until August of 2010. At the start of the defendant's initial proffer, Foster told the government that he did not want the defendant to discuss his

other client, Heromin, because of a conflict of interest, which the government expressed concerns with at that point. More importantly, Heromin was listed as Confidential Witness #7 in the affidavit in support of the defendant's search warrant and arrest. In fact, Heromin, while represented by Foster, proffered incriminating information against the defendant, but Foster subsequently still agreed to represent the defendant after his arrest.

Also, during the defendant's initial proffer, Agent Shearer stated that they "could spend a whole day just talking about Nick (Nirav) Patel, and his pharmacies" since the defendant "worked for Nick longer than anyone else has and was good friends with him." The defendant had a significant amount of incriminating information about Patel (as well as Heromin), which was relevant and current at the time, but was not allowed to share any of it with the government at his initial proffer and throughout Foster's representation. When the defendant was asked to talk about Patel at his initial proffer, Foster interceded and indicated that the defendant would not be allowed to talk about Patel either because he was also a client of his firm, to which Agent Shearer replied, "That's unfortunate for Chris, because that could really hurt him." After his initial proffer, the defendant questioned Foster about the government's concerns over his apparent conflicts, and how they could "hurt him", to which Foster told him to "not worry about it", and that the government was just mad about the defendant now having an attorney that wouldn't let them "push him around anymore" like Weed let them do when he represented him.

On top of Foster's conflicts severely hindering the defendant's ability to cooperate, Foster also prevented the defendant from directly communicating with any government agents, officials, detectives, and prosecutors, which also compounded this problem. Then the fact that, instead of Foster trying to secure as much credit as possible for all of the money the defendant had voluntarily turned over for "extraordinary acceptance of responsibility" (as a 5K2.0), or for "substantial assistance" (as a 5K1.1), which is what the defendant continually asked him to do, Foster spent the vast majority of the time he represented the defendant improperly aggressively fighting the government to return the defendant's money to Foster's firm since he was entitled to keep 40% of it, with the other 60% going towards the unpaid portion of his fee. Thus, Foster created another conflict of interest due to the significant financial incentives he gave himself in the second page of the engagement contract he drew up detailing the terms of his representation of the defendant for his criminal case. These terms pertaining to the recovery of the defendant's money from the government, which Foster insisted on having in the defendant's engagement agreement, motivated Foster to put recovering the defendant's money in front of any of his best interests throughout Foster's representation of the defendant.

The combination of these 3 factors created a barrier between the defendant and the DEA agents, which severely prevented him from being able to earn substantial assistance through cooperation efforts which would have been available to the defendant while he was out on bond. These included, but

were not limited to, the defendant being able to make controlled sales and buys, cooperation against the individuals Foster's conflicts excluded him from, and cooperation against other individuals and businesses which the defendant had current and relevant incriminating information about during this timeframe. Had Foster not had these conflicts, and had not prevented the defendant from communicating directly with the government, and had not aggressively fought the same people who the defendant wanted to cooperate with to return the defendant's money, there is a reasonable probability that the outcome of the defendant's sentencing hearing would have been different.

In Summary, the defendant asserts the following errors were committed by defense counsel Todd Foster during the 17 months he represented him (05/24/10 to 10/20/11), in support of Ground 1:

- 1) blatantly ignoring multiple conflicts he had with representing the defendant, Heromin, Patel, Weiler, and later Griffith, which severely prevented the defendant from benefiting from timely cooperation against those individuals and others
- 2) improperly preventing the defendant from directly communicating with any government agents, officials, detectives, and prosecutors, which prevented the defendant from pursuing numerous cooperation matters
- 3) instead of securing as much credit as possible for all of the money the defendant had voluntarily turned over for "extraordinary acceptance of responsibility" (5K2.0), or for "substantial assistance" (5K1.1), which is what the defendant continually asked him to do, Foster spent the vast majority of the time he represented the defendant improperly fighting the government to return his money due to Foster's own financial interest in it

These 3 factors in combination severely prevented the defendant from earning significant substantial assistance during Foster's representation, as well as the subsequent issues concerning Foster raised in Ground 2.

GROUND 2: THE DEFENDANT WAS DENIED HIS SIXTH AMENDMENT RIGHT TO EFFECTIVE ASSISTANCE OF COUNSEL DURING THE PLEA AND COOPERATION PROCESS.

SUPPORTING FACTS FOR GROUND 2:

The defendant attests that his counsel Todd Foster was ineffective for improperly advising him to assist with another pharmacy, as well as for advising him to protect his girlfriend at the time, Tiffany Phan, and misadvising him not to report her criminal activities. As soon as Foster took over the defendant's case, he was very upset that the defendant had just voluntarily turned over absolutely everything he had to the government, and he immediately advised the defendant to reopen his pain management clinic, Tampa Total Health, as well as to assist in the opening and operations of additional independent retail pharmacies. Foster told the defendant that he needed to make as much money as he could, as quickly as he could, in order to pay off his substantial \$750,000.00 fee for representing him, and that this was the only conceivable way that he would be able to do that. Despite the defendant voicing his concerns to Foster about potential risks of still being involved in these types of businesses while being out on bond for charges related to his old pharmacy, Foster assured the defendant, Phan and Norman Clement, that he saw absolutely no way that the defendant could possibly suffer from any negative consequences from remaining in that field of business in order to make money to pay his legal bills and for the living expenses of

him and Phan.

Foster even had extensive discussions with Norman Clement, the owner of Pronto Pharmacy, during which he expressed his legal opinions on this matter, telling him the same things he told the defendant and Phan. Foster also personally called attorney Bruce Lamb, and sent the defendant to his firm, Ruden McClosky, in order for him to get a contract drawn up to secure the defendant's financial interest in Pronto Pharmacy (which he was charged \$5,000.00 for). Foster even told the defendant that it would help his pending case if he remained involved in these types of businesses because "it would open up endless avenues of cooperation for him by staying in the loop." Not only did the defendant not receive a single benefit in his case from continuing to work in this field, but it did the exact opposite, and caused the defendant severe negative consequences, even though he never did anything illegal while he was out on bond, especially related to those businesses. The defendant was only trying to legally earn money to pay for his massive legal fees since he had voluntarily turned over absolutely everything he had to the government, which is what they wanted him to do, and also because the government seized \$400,000.00 the defendant had in an escrow account at a title company which the agents had initially promised him and Dirk Weed that they would let him keep for living expenses and legal fees while his case was in progress.

At the defendant's initial August 2010 proffer, the government was unhappy that his pain management clinic was back open, and they were not willing to consider using it in

any cooperation matters whatsoever. Also related to this matter, from the start of his representation of the defendant, and throughout it, Foster improperly advised him to protect Phan because he knew that she was the one who was running his pain clinic, and then later Pronto Pharmacy. Thus, also during the defendant's initial proffer meeting with the government, when they asked him for incriminating information about Phan, Foster prevented him from discussing any of her criminal activities which were known to him. Foster even strongly recommended that the defendant hire Phan an attorney (Timothy Taylor), in order to protect her to make sure that she would not be indicted for her role in the alleged conspiracy. Foster continually advised the defendant to protect Phan however he could because Foster was protecting the sources of how his fees were being paid, despite that his advice on the matter was against the defendant's best interests.

Following Foster's advice on becoming involved with Pronto Pharmacy, and also on protecting Phan, ultimately caused the defendant severe negative consequences. Phan later became a Confidential Witness against the defendant and the information that she provided to the government concerning Pronto Pharmacy was used to file a new Criminal Complaint against him. Had Foster not insisted that the defendant protect Phan, she would have never had the chance to later cooperate against him. Soon after the government found out that the defendant was involved with another pharmacy, it angered them to the point of permanently revoking his bond on May 1, 2012. The defendant alone, was arrested and charged

with a criminal complaint on that date for assisting with a pharmacy, which his friend owned, which was actually ran by Phan, which he would have never even become involved with, if it was not for Foster's awful advice concerning this matter.

A subsequent attorney of the defendant, Steve Crawford, compounded this problem for the defendant, which was created as a result of him following Foster's awful advice. The defendant made it very clear to Crawford since the very first time he met with him on January 26, 2012, that the top priority in his case was for Crawford to immediately secure a meeting for the defendant with the government so he had the chance to clear up any misconceptions that they had about his involvement with Pronto Pharmacy. Crawford assured the defendant that he would immediately get him a meeting with the government to do this, as well as to finally get the defendant on track to participate in numerous cooperation matters, which he had been prevented from pursuing while Foster represented him.

Instead of immediately focusing on arranging a meeting with the government for the defendant, Crawford first spoke with Norman Clement, the owner of Pronto Pharmacy, and even sent a Private Investigator, Kevin Kawlary, there to ensure that the business was being legally operated. Crawford then improperly advised the defendant that there was nothing wrong with him being involved with Pronto Pharmacy, and with him physically being there to train the new pharmacy technician who took over for Phan, instead of telling the defendant to steer clear of the place, at least until after he and the defendant met with the government. Despite the defendant's

repeated requests for Crawford to please bring him in to meet with the government, he refused to do this, and actually prevented him from ever meeting with them while he represented the defendant.

Then, despite being warned by AUSA Peluso that if he did not bring the defendant in to meet with her "that week" (the last week of April of 2012), that she would be "filing something" against him, Crawford blatantly ignored her warning and never let the defendant know about it. Instead of Crawford doing what the defendant had asked him to do since first meeting with him on January 26, 2012, Crawford actually canceled a pre-set proffer meeting and told the defendant that Peluso was the one who pushed it back again. The entire time Crawford represented the defendant, even after he paid Crawford his requested \$50,000.00 fee in full in early February of 2012, he never did any of the things the defendant actually hired him to do. Crawford promised the defendant that he would immediately help him resolve the government's issues regarding Pronto Pharmacy, become completely familiar with his case, make significant positive progress in the plea and cooperation process of it, and set up multiple cooperation meetings with the government for him. Instead of promptly addressing any of those important matters for the defendant, Crawford chose to focus on rehashing the excessive billing by the defendant's previous 2 attorneys, and even insisted that he write letters to send them demanding refunds from them. The defendant made Crawford well aware that his bond was in jeopardy before he even took over his case, but Crawford did nothing to try to remedy the problem, and instead made it

worse, and actually provoked the government to file a new criminal complaint against him and permanently revoke his bond. Then as soon as the defendant's bond was revoked, Crawford wanted the defendant to pay him an additional \$150,000.00 to represent him for the new criminal complaint, after the defendant had paid him \$50,000.000 to handle his original case which was much more complex.

Once the defendant's bond was revoked it was obviously much harder for him to get back into cooperation mode with the government and his relationship with them was severely damaged by this whole situation. Even after the defendant's subsequent attorney was able to get him to agree to plead guilty, and he was allowed to cooperate with the government again, it was a million times harder for him to be able to effectively and efficiently cooperate with them than if he were out on bond. This included the defendant's ability to make controlled sales and buys, his ability to help the government make numerous cases from further being able to review the 5 months worth of his VIP Pharmacy surveillance footage, his ability to help make cases through numerous contacts and current information he knew at the time, his ability to effectively and efficiently work on numerous projects showing the massive amount of illegal activities which were conducted at Patel's pharmacies, and his ability to work on the project AUSA Peluso assigned to him for the government's case against Heromin (which he was never able to finish), among many other cooperation matters the defendant could have participated in if he was allowed to fully cooperate with the government while he was actually out on

bond. The defendant's cooperation possibilities were severely restricted by his incarceration, which occurred as a result of the defendant following Foster's awful advice, and then Crawford doing nothing to try to remedy the situation when he had the chance to do so. Numerous levels of cooperation credit as a 5K1.1 were lost as a direct result of this issue, ultimately causing the defendant's sentence to be much longer than it should be if it never happened. Thus, there is a reasonable probability that the outcome of the defendant's sentencing hearing would have been different if these issues had not transpired.

In Summary, the defendant asserts the following errors were committed during his representation by defense counsels, Todd Foster and Steve Crawford, in support of Ground 2:

Todd Foster rendered ineffective assistance of counsel during the 17 months (05/24/10 to 10/20/11) he represented the defendant by:

- 1) improperly advising the defendant to reopen his pain management clinic, Tampa Total Health, and to becoming involved with the opening and operations of additional independent pharmacies, namely Pronto Pharmacy, in order to pay for his excessive fee of \$750,000.00; the defendant's involvement with Pronto Pharmacy eventually led to the revocation of his pre-trial release on May 1, 2012
- 2) improperly advising the defendant to protect Tiffany Phan, who the government wanted incriminating information on during his initial proffer, which he knew, but instead Foster told the defendant to protect Phan because she was the key to helping run his clinic, and later Pronto Pharmacy, and even instructed the defendant to pay for an attorney (Timothy Taylor) to represent Phan to make sure that she would not be indicted; (Phan later became a CW against the defendant and was the main contributor to the government's Criminal Complaint they used to revoke his bond on 05/01/2012.)

Steve Crawford rendered ineffective assistance of counsel during the 4 months (02/06/12 to 06/05/12) he represented the defendant by:

- 1) preventing the defendant from meeting with the government to resolve their outstanding issues and misconceptions about his involvement with Pronto Pharmacy throughout his representation
- 2) improperly advising the defendant that it was perfectly fine for him to be involved with Pronto Pharmacy and for him to physically be there to train the new employee who replaced Phan
- 3) blatantly ignoring clear warnings from AUSA Peluso that if he did not bring the defendant in to meet with her in late April of 2012, that she would be filing something, which resulted in the defendant's bond being permanently revoked

GROUND 3: THE DEFENDANT WAS DENIED HIS SIXTH AMENDMENT RIGHT TO EFFECTIVE ASSISTANCE OF COUNSEL DURING THE SENTENCING PROCESS.

SUPPORTING FACTS FOR GROUND 3:

The defendant attests that Jeff Brown was ineffective during his sentencing by allowing it to start at least 20 minutes early, before the arrival of 3 government agents, who would have testified on his behalf if Brown had waited to start the hearing on time, and had prepared them to testify. The defendant requested Brown to contact the 3 agents who agreed to come to his sentencing to discuss possible beneficial testimony that they would have offered during the defendant's sentencing hearing, but Brown declined to do so. The defendant also asked Brown to contact other government officials that he had also worked with on other cases for the same purpose, but Brown had also declined to do this as well.

On the afternoon of the defendant's sentencing hearing, he told Brown that he was able to contact 3 government agents on his own (HHS Agent Brian Harris, OIG Agent Peter Martinez & TPD Narcotics Detective Vincent Leto), who agreed to come to it, and at the time were willing to talk to AUSA Peluso, Agent Shearer and Judge Covington on the defendant's behalf. All 3 of these agents would have said positive things about the defendant if they were given the chance to do so, and they even wanted to address the issue of his bond possibly being reinstated. They knew that Judge Covington had allowed 3 co-defendants of the defendant who

were sentenced the previous month to remain out on bond because they were still cooperating with the government on pending cases. Thus, not only did the 3 government agents intend to positively contribute to the defendant's sentencing hearing, but they also wanted to request that his bond be reinstated so that he could further assist them with their respective cases.

The defendant begged Brown to please delay the start of his sentencing hearing until after the 3 government agents had time to arrive and talk to Brown, Peluso and Shearer. However, Brown declined to ask the court for a brief recess and started the defendant's sentencing hearing at least 20 minutes earlier than it was scheduled to start, right after Carroll Delo, Jane, Delo, Jeanne Bush and Dr Jennifer Levine arrived, but none of the government agents who could have been crucial to the defendant's sentencing hearing had arrived yet.

Brown told the defendant that since he did not have the chance to talk to any of the agents about coming to the defendant's sentencing hearing himself, and since they were not there at least 20 minutes before it was scheduled to start at 3:00PM, he told the defendant that he did not think they were coming. Even so, the defendant asked Brown to please just wait to start his sentencing hearing until at least the scheduled start time of 3:00PM to see if they would show up by then, because the defendant did not want them to walk in during the middle or the end of it, without getting a proper chance to positively contribute to it, which is EXACTLY what happened, when they all arrived at 3:00PM. If Judge Covington had the chance to hear testimony from those 3 government

agents (as well as others), related to how much the defendant had been assisting them with their cases, it could have reasonably convinced her to agree to authorize levels off under U.S.S.G. 5K1.1 for all of the cooperation he had done up to that point. Thus, there is a reasonable probability that the outcome of the defendant's sentencing hearing would have been different if this issue had not transpired.

In Summary, the defendant asserts the following errors were committed by defense counsel Jeff Brown during the 9 months he represented him (06/06/12 to 03/15/13), particularly prior to and during his 02/21/2013 sentencing hearing, in support of Ground 3:

1) refusing to contact the 3 government agents who planned to come to the defendant's sentencing hearing in order to prepare them to positively contribute to it, as well as refusing to contact several other government agents and prosecutors which the defendant worked with, who could have positively contributed to his sentencing hearing, despite the defendant requesting him to do this

2) failing to delay the start of the defendant's sentencing hearing until after the 3 government agents who were coming on his behalf arrived, preventing them from having any chance of being able to speak with Brown and AUSA Peluso before it began

3) allowing the defendant's sentencing hearing to start at least 20 minutes early, before the 3 government agents even arrived, and since Brown never spoke with any of them about testifying during it, he never called any of them to testify when they finally did arrive, on time at 3:00PM. By that time, the defendant's sentencing hearing was nearly finished.

GROUND 4: THE DEFENDANT WAS DENIED HIS SIXTH AMENDMENT RIGHT TO EFFECTIVE ASSISTANCE OF COUNSEL DURING THE SENTENCING PROCESS.

SUPPORTING FACTS FOR GROUND 4:

The defendant attests that Jeff Brown was ineffective for failing to request the government to move for a sentence reduction under U.S.S.G. 5K1.1 and Fed.R.Crim.P. 35(b) due to his enormous amount of cooperation, as well as failing to request the government to move for a sentence reduction under U.S.S.G. 5K2.0 for everything the defendant had voluntarily turned over. Brown falsely represented to the defendant that he would definitely be getting a 5K1.1 motion for all of the cooperation he had worked on up to the day of his sentencing hearing, and estimated that the amount of levels off for it to be between 4 to 8 levels, on top of an additional 7 to 12 levels off for everything the defendant had voluntarily turned over to the government as a 5K2.0 motion. Brown went over all of the cooperation matters with the defendant which he had worked on while he was out on bond, as well as while he was in custody. Brown had the defendant type up a list and a chart detailing all of his cooperation meetings, cooperation efforts, cooperation projects, as well as cooperation which he was still working with the government on. Brown reviewed the documentation summarizing all of the defendant's cooperation with him and submitted it to AUSA Peluso only a few days before the defendant was scheduled to be sentenced.

Despite Brown waiting so long to secure credit for all

of the cooperation the defendant had done up to that point, all the way up to the day before his sentencing was scheduled to take place, Brown assured the defendant that he would be getting at least 4 levels off for it all, despite that several of the cases he was cooperating on were still pending. A joint motion to delay the defendant's sentencing hearing was filed because the trials for 2 of the cases the defendant was told he would participate in were delayed, but Judge Covington denied this motion to postpone the defendant's sentencing date. Thus, Brown told the defendant that on top of the cooperation credit he would get at his sentencing hearing as a 5K1.1 motion, that he would also get additional cooperation credit as a Rule-35 motion for each case he testifies at after he is sentenced. During the 7 months before the defendant was sentenced, Brown assured the defendant that he would represent him for any Rule-35 motions or other related matters after he was sentenced, "up until the day the defendant was to get out of jail or prison". Brown repeatedly told the defendant that his representation for those post-sentencing matters would be included in the substantial fee the defendant had already paid him in early June of 2012, especially since his sentencing hearing was occurring much earlier than Brown had initially thought it would.

Brown also assured the defendant that he would be getting at least 7 levels off his sentencing offense level as a 5K2.0 motion for "extraordinary acceptance of responsibility" because the defendant had voluntarily turned over absolutely all of his money, his medications, his pharmacy's DEA license, and voluntarily closed his pharmacy,

all at the earliest available opportunity he had in the government's investigation. The defendant went through extensive records with Brown showing that he had legally earned nearly all of the money which he had voluntarily turned over to the government and allowed them to keep as part of his plea bargain. Brown also told the defendant that he had been in contact with Dirk Weed, who was the attorney who represented the defendant on 05/20/10 & 05/21/10, who advised and assisted the defendant with voluntarily turning over absolutely everything he had to the government. Brown told the defendant that Weed had confirmed the promises the DEA agents made to the defendant in his presence in exchange for him agreeing to voluntarily turn everything over to them, and that he planned to have Weed come to the defendant's sentencing hearing to testify to this matter in order to ensure that the defendant received the amount of credit he was promised.

Brown did not come see the defendant the day before his sentencing hearing, or even in the holding cell before it.

Instead, on the day of the defendant's sentencing hearing, Brown brought the defendant out to the courtroom and told him that afternoon, just a few minutes before his hearing began, that the government decided to authorize only 4 levels off as a 5K1.1 (instead of as a 5K2.0), for everything that the defendant had voluntarily turned over and absolutely nothing off for all of the cooperation the defendant had worked on up to that point at that time. Brown told the defendant before he started his sentencing hearing not to worry about it though, because he was confident that he would be able to get

Judge Covington to authorize at least 6 levels off during the hearing for what he turned over, as well as 3 to 4 levels off for all of the defendant's cooperation he had completed so far. The defendant asked Brown if Weed was coming to his sentencing hearing to ensure that he was given the amount of credit he was promised. Brown told the defendant that he had been "really busy" and was not able to arrange for Weed to come. Brown also had not even bothered to try to at least get a signed affidavit from Weed which he could have presented to the court in support of his argument for this matter.

During the sentencing hearing Brown made an argument about why the defendant deserved at least 6 levels off for everything that he had voluntarily turned over, but he left out major facts that would have supported it. The defendant requested that Brown bring up the fact that he legally earned nearly all of the money which he had voluntarily turned over, and that he had a tremendous amount of records to prove that it was made from licensed pharmacists filling thousands of valid prescriptions, which were written by licensed doctors for valid patients. The defendant requested that Brown bring up the fact that none of his co-defendants had voluntarily turned over anything to the government, but yet 3 of them received more lenient sentences than the defendant, despite successfully hiding all of their illegal earnings from the government. The defendant requested that Brown bring up the fact that the DEA agents made promises to the defendant as to how much credit he would get for turning everything over at the earliest available opportunity, which Weed could have supported if Brown had bothered to arrange it. Thus, Brown's

argument was promptly denied by Judge Covington, and the defendant received only 4 levels off for everything he had turned over, even though he had always been promised to get much more credit than that for the previous 33 months. If Brown had made these arguments, especially if he had Weed come to the sentencing hearing as Brown had promised the defendant he would, there is a reasonable probability that the defendant would have received more than 4 levels off for everything he had turned over, and that it would have been properly applied as a 5K2.0 instead of as a 5K1.1 as well.

During the sentencing hearing Brown also mentioned some of the defendant's cooperation that he had done, but declined to ask Judge Covington for any credit for it. Thus, the defendant was not given any credit whatsoever for the thousands of documented hours of work he had put into all of his cooperation efforts throughout the previous 33 months. After the sentencing hearing, Brown told the defendant that it was "not the right time to ask for credit for his cooperation", and that the defendant would definitely be getting multiple Rule-35 motions later that year, which he would handle for him (which Brown never pursued for the defendant due to the defendant not complying with his new absurd financial demands). Brown could have easily made a proficient argument to the court explaining why the defendant deserved to be awarded some credit on the day of his sentencing hearing for all of the cooperation he had done up to that point, especially considering all of the supporting information the defendant had provided to Brown related to this, and especially since the defendant had even arranged

that 3 government agents come to his hearing on his behalf, which Brown had declined to use to the defendant's benefit. If Brown had made these arguments, there is a reasonable probability that the defendant would have received a reduction in his sentence as a 5K1.1 for all of the cooperation he had done since 05/20/2010, up until the day of his sentencing on 02/21/2013. Thus, there is a reasonable probability that the outcome of the defendant's sentencing hearing would have been different if these issues had not transpired.

In Summary, the defendant asserts the following errors were committed by defense counsel Jeff Brown during the 9 months he represented him (06/06/12 to 03/15/13), particularly prior to and during the defendant's 02/21/2013 sentencing hearing, in support of Ground 4:

1) falsely representing that the defendant would get credit for "substantial assistance" as a 5K1.1 motion for all of the cooperation he had worked on before his bond was revoked, as well as for all of the cooperation he worked on while in custody, up until he was sentenced

2) falsely representing how much credit the defendant would get for voluntarily turning over all of his money, his medications, and his pharmacy's DEA license to the government at the earliest opportunity he had, as well as for voluntarily closing his pharmacy that same day for them

3) when trying to secure as much credit for the defendant as possible for all of the money the defendant voluntarily turned over to the government, Brown did not bring up the fact that he legally earned nearly all of it, despite the defendant providing Brown with an enormous amount of records that he could have provided to the government and to Judge Covington to support this fact

4) when trying to get as much credit for the defendant as possible for all of the money the defendant voluntarily turned over to the government, Brown did not bring up the fact that the co-defendants each made millions of dollars while they conducted illegal activities during the alleged conspiracy, and that all of them hid all of their money from the

government and voluntarily turned over none of it like the defendant did

5) failing to have Dirk Weed, who was the attorney who advised and assisted the defendant with voluntarily turning over absolutely everything he had at the earliest available opportunity to the government, to come to the sentencing hearing in order to testify about the promises which were made to the defendant in his presence in exchange for agreeing to turn everything over, despite Brown telling the defendant that he was going to arrange this, or at least get an affidavit from Weed supporting this fact

GROUND 5: THE DEFENDANT WAS DENIED HIS SIXTH AMENDMENT RIGHT TO EFFECTIVE ASSISTANCE OF COUNSEL DURING THE SENTENCING PROCESS.

SUPPORTING FACTS FOR GROUND 5:

The defendant attests that his counsel Jeff Brown was ineffective in failing to challenge the amount of oxycodone pills attributed to him at sentencing, as well as improperly advising the defendant that his starting base offense level from agreeing to the plea offer would be a level 36. Furthermore, related to this matter, at the defendant's sentencing, Brown declined to discuss the sentences given to his co-defendants the previous month, or that 2 of them received minor role reductions, and at least 1 of them received a reduced pill count. Also related to this matter, Brown promised the defendant that he would not be subject to any sentencing enhancements if he agreed to the plea bargain, and then Brown failed to properly object to the 2-level sentencing enhancement the probation officer applied to the defendant. Brown told the defendant that he also planned to file a motion for a downward departure (5K2.13), based on his diminished capacity during the alleged conspiracy, but he did not even bother to arrange for the main supporting witness, Dr Edgar, to assist with this argument. The defendant asked Brown to please file a request for a downward departure (5K2.0), based on the fact that his former defense counsel, Todd Foster, had actual conflicts of interest which significantly prejudiced him. Brown agreed to include an

argument for this matter in the defendant's sentencing memorandum, but he did not include and/or present the most important evidence to support this motion. The defendant also asked Brown to please also file a motion for a downward departure (5K2.12), based on the fact that the defendant was unable to stop and/or prevent a lot of the illegal activities which occurred at his pharmacy because of serious coercion, blackmail, and/or duress during the alleged conspiracy, but Brown refused to put any effort into doing this, and he told the defendant that 2 downward departure requests were more than enough.

Brown told the defendant before he even agreed to the plea offer that Diane Tremmel, who was the probation officer assigned to conduct his PSI meeting and calculate the defendant's sentencing offense level, would be using the 15mg dosage strength of the oxycodone pills for everyone involved in the conspiracy in order to give us "a conservative estimate", thus, equating to a starting base offense level of 36 for the defendant. At the defendant's change of plea hearing, before it started, the defendant was assured by Brown, that AUSA Peluso would not recommend that any sentencing enhancements be applied to the defendant, and even had Peluso personally tell this to the defendant. Brown assured the defendant that if the probation officer tried to apply any sentencing enhancements to him, that both, he and Peluso, would object to them and have them removed from his PSR before the defendant would be sentenced.

The defendant notified Brown that he hired Tess Lopez, who was a Sentencing Mitigating Specialist, to assist with the

defendant's PSI and sentencing process. The defendant pleaded with Brown in early September of 2012 to please schedule his PSI meeting with Tremmel at a time when Lopez could also attend, but Brown refused to allow Lopez to be at, or be involved with the defendant's PSI meeting. The defendant also asked Brown that they prepare for his PSI meeting, and for Brown to please bring the defendant's laptop to it, so that he could show Tremmel some video clips of everything that was really going on at his pharmacy, including a lot of things which went on behind his back, which would have given Tremmel a better idea of what everyone's true role was in the alleged conspiracy. However, Brown refused to do any type of preparation for the defendant's PSI meeting, and refused to bring any evidence that would have been favorable to him to this meeting. At the PSI meeting with Tremmel, despite the defendant wishing to explain his side of the situation (the alleged conspiracy), Brown refused to allow him to discuss any aspects of the case with Tremmel. As a result of Brown preventing Lopez from participating in the defendant's PSI meeting, and refusing to prepare for it, and also from preventing the defendant from talking to Tremmel about his case, Tremmel wrote up a very unfavorable PSR for the defendant.

The PSR which Tremmel wrote up for the defendant contained a 2-level sentencing enhancement for abusing a position of trust, as well as a starting offense level of 38 for the defendant, instead of a 36 as Brown had estimated it would be. Brown told the defendant that he was wrong about the dosage of pills which Tremmel decided to use to calculate

the defendant's offense level and that he was obviously misinformed about it. However, during the month before the defendant's sentencing hearing, Brown informed the defendant that the government had reduced the pill count from 150,000 to 50,000 pills for at least one of his co-defendants, Kimberly Curtiss, as well as given minor role reductions to her and Louis Fernandez Jr. Brown told the defendant that he would be able to use this information to argue for, at the very least, a reduction of his pill count from 150,000 to 50,000 pills as well, so that he would start at a base offense level of 36 as Brown had originally promised the defendant he would. Brown also told the defendant that he would file a thorough written objection to the sentencing enhancement and hold a separate hearing to argue the validity of it BEFORE the defendant's sentencing hearing to make sure that he made every effort he could to have it removed.

The defendant went over a significant amount of video evidence with Brown which proved that the roles of neither, Kimberly Curtiss or Louis Fernandez Jr, could have realistically been considered to be minor during the alleged conspiracy. The defendant asked Brown to please bring this matter up in his sentencing memorandum and during his sentencing hearing when requesting departures for him. The defendant also asked Brown to bring up the sentences of his co-defendants in his sentencing memorandum and during his sentencing hearing, especially for Curtiss and Fernandez Jr, who received very lenient sentences.

Brown told the defendant that in order to make the best argument he can for his request for a downward departure

for diminished capacity under 5K2.13, that he would have Dr Edgar come to his sentencing hearing to testify why it should be taken into serious consideration by Judge Covington. Dr Edgar was the defendant's Psychiatrist who was prescribing him medications for his conditions, and who the defendant was also seeing on a regular basis for counseling before his bond was revoked. Brown felt that including Dr Edgar in the defendant's sentencing hearing would add invaluable strength to his diminished capacity argument.

Pertaining to Brown's motion for a downward departure under 5K2.0, due to Foster's conflicts causing the defendant prejudice, Brown was too lazy to go over all of the evidence to support this motion, which the defendant had, and was available to him, and to incorporate very important evidence into this motion, or into his argument like the defendant had asked him to do. The defendant had multiple email communications, letters, and even court documents, which he wanted Brown to reference in support of this motion. The defendant also wanted Brown to order the court transcripts for the 01/19/2012 Conflict Hearing in front of Judge McCoun (Case No. 8:11-cr-550-T-33TMB), which was held as a result of the Conflict Motion AUSA Peluso filed on 01/13/2012 (same case), but Brown told the defendant that he had more than enough evidence to support his argument from the court transcripts for the defendant's Preliminary Hearing held in front of Judge Jenkins on 05/16/2012 (Case No. 8:12-mj-1250-T-AEP). Thus, despite the defendant requesting Brown to please provide the court more evidence to support this motion, which was readily available to him at the time, Brown instead compiled a weak

and incomplete motion to appease the defendant for this matter. Then, Brown was not ready to provide Judge Covington supporting documentation when she asked for it during the defendant's sentencing hearing, which Brown could have easily done if he complied with the defendant's simple requests concerning this matter. Judge Covington told Brown that "to really flush out those issues requires more than what you filed." If Brown had reviewed all of the overwhelming evidence for this matter, and brought and/or provided copies of it to the court, as the defendant asked him to do, there is a reasonable probability that this motion for a downward departure would have been granted, especially considering that the majority of the 01/19/2012 Conflict Hearing focused on Foster's conflicts from representing the defendant, as clearly shown in the court transcripts which the defendant has subsequently had transcribed.

Brown told the defendant that he thought his motion for a downward departure for diminished capacity was very strong and that he was confident that relief would be granted for it, as well as for his motion for a downward departure for Foster's conflicts causing him prejudice. Brown told the defendant that if he also made a motion for a downward departure under 5K2.12 for him being under serious coercion, blackmail and/or duress during the alleged conspiracy, like the defendant wanted him to, that it would somehow weaken his other 2 requests for downward departures. The defendant showed Brown a significant amount of evidence that a strong argument could have definitely been made for a 5K2.12 motion for him, including, but not limited to, text messages from

Beltran threatening the defendant, text messages from Curtiss threatening and extorting the defendant, and even statements from an individual who Beltran tried to hire to kill the defendant. In fact, the defendant was even able to convince that individual, Miguel, who was Beltran's former "right hand man", to come meet with the government (Agent Shearer and Agent Bill Davis), on October 8, 2010, on the defendant's behalf, during which Miguel told them about Beltran offering to pay him to kill the defendant, as well as numerous other illegal activities Curtiss and Beltran were involved in. Despite the defendant believing that there was more than enough supporting evidence for him to be granted relief due to this mitigating factor, Brown still refused to bother filing a 5K2.12 motion for the defendant, and the 5K2.13 motion he did file was mostly written up by Tess Lopez, along with nearly the entire sentencing memorandum he filed for the defendant.

Brown promised the defendant that he would address all of these issues in order to help mitigate the defendant's sentence, but he failed to follow through with his promises to do so when the defendant's sentencing hearing occurred. Instead of filing a written objection to the sentencing enhancement placed on the defendant, and requesting a separate court hearing to argue it before his sentencing hearing, Brown waited until the last minute, and put together a haphazard and disorganized argument against its validity during the defendant's sentencing hearing. Brown also did not bring up the co-defendant's sentences in the defendant's sentencing memorandum, or during his sentencing hearing, or the minor role adjustments they received, or the reduced pill count for

at least one of them. Brown also did not bother to arrange for Dr Edgar to come to the defendant's sentencing hearing, or even get a signed affidavit from him, despite assuring the defendant that he would do this in order to support his argument for his 5K2.13 motion. Pertaining to the downward departure request (5K2.0 motion) Brown filed for the defendant due to him suffering prejudice due to Foster's conflicts, Brown did not properly prepare for it, and did not bring the necessary documentation to support it, or even bother to review all of it with the defendant. Brown also refused to file a downward departure request (5K2.12 motion) for the defendant for him being subject to serious coercion, blackmail, and/or duress during the alleged conspiracy, despite the defendant providing Brown with enough information and evidence to support this motion. Had Brown followed through with these matters as he promised the defendant he would, there is a reasonable probability that the outcome of the defendant's sentencing hearing would have been different.

In Summary, the defendant asserts the following errors were committed by defense counsel Jeff Brown during the 9 months he represented him (06/15/12 to 03/15/13), particularly prior to and during his 02/21/2013 sentencing hearing, in support of Ground 5:

- 1) falsely representing the base sentencing offense level which the defendant would start at from accepting the government's plea offer as a level 36 instead of a level 38
- 2) guaranteeing the defendant that he would not be subject to any sentencing enhancements if he signed the plea bargain, and also had the prosecutor tell him this as well before his change of plea hearing started
- 3) not bringing up in the defendant's sentencing memorandum, or during his sentencing hearing, that the pill count of at least one of his co-conspirators, Kimberly Curtiss, was changed from 150,000 to 50,000 pills shortly before her sentencing took place
- 4) not bringing up in the defendant's sentencing memorandum, or during his sentencing hearing, that 2 of his co-defendants received Minor Role reductions when they were sentenced, despite the defendant having an enormous amount of video evidence which proved that neither of their roles could have realistically been considered minor, which he had showed to Brown
- 5) not bringing up in the defendant's sentencing memorandum, or during his sentencing hearing, the sentences which his co-defendants received, as well as all of their reductions, in order to support his arguments for downward departures for the

defendant

- 6) failing to review and/or use all of the overwhelming evidence which would have supported the 5K2.0 motion requesting a downward departure for the defendant due to the fact that he suffered prejudice while being represented by Foster due to his actual conflicts of interest, and failing to comply with Judge Covington's request to provide it to her
- 7) failing to have Dr Edgar, who was the Psychiatrist the defendant was seeing on a regular basis for treatment through medication and counseling before his bond was revoked, come to the defendant's sentencing hearing in order to testify to support the 5K2.13 motion for a downward departure for the defendant's diminished capacity during the alleged conspiracy
- 8) failing to file a 5K2.12 motion requesting a downward departure to be given to the defendant due to him being unable to stop and/or prevent a lot of the illegal activities which occurred at his pharmacy because of serious coercion, blackmail, and/or duress, despite the defendant providing Brown with significant evidence to support this motion

GROUND 6: THE DEFENDANT WAS DENIED HIS SIXTH AMENDMENT RIGHT TO EFFECTIVE ASSISTANCE OF COUNSEL DURING THE PLEA AND SENTENCING PROCESS.

SUPPORTING FACTS FOR GROUND 6:

The defendant attests that his counsel Jeff Brown was ineffective due to putting his greed and the prospect of his own personal significant financial gains in front of the defendant's best interests throughout his representation. Brown took advantage of the defendant's unfortunate circumstances, especially while he was in solitary confinement, in order to convince the defendant to agree to the terms of Brown's desired discreet payment arrangement, which severely negatively affected the ultimate outcome of the defendant's case. The defendant further attests that his counsel Jeff Brown was ineffective due to violating the attorney - client privilege between them, which caused irreparable damage to the defendant's relationship with the government.

The defendant attests that his counsel Jeff Brown requested that the majority of his significant fee be paid to him with over \$160,000.00 worth of silver bars and gold coins, which belonged to the defendant, in order to keep as much of his payment "off the books" as he could, in case the government also attempted to seize his fees as they did Kehoe's. Brown told the defendant that "the government can't seize what they don't know about", and assured the defendant that he would remain on his case even if the government tried

to seize the documented \$30,000.00 portion of his fee, which the defendant had paid to him in full through checks. Brown drew up and signed, and had the defendant also sign, fraudulent contracts which represented that Brown was paid only \$15,000.00 for each of the defendant's 2 cases if they were resolved with a plea bargain, even though Brown received at least \$160,000.00 more than that "off the books". Brown assured the defendant that for the money, silver and gold he was paid by the defendant in early June of 2012, that he would represent him "until the day the defendant got out of jail or prison", which would include any Rule-35 motions.

Brown knew that the defendant still had a significant amount of gold coins left, and knowing that he would not be able to convince the defendant to give the rest of them to him if the defendant was sentenced to a minimal amount of time, Brown intentionally sabotaged the plea and the sentencing process of the defendant's case in order to ensure that he received a lengthy prison term. Then in early March of 2013, which was shortly after the defendant was sentenced to 9 years in prison, Brown used the defendant's lengthy sentence as leverage to demand the defendant to give him the rest of his gold coins, which were worth about \$150,000.00 at the time. The defendant reminded Brown that he had promised the defendant to represent him "until the day he got out of jail", including for any Rule-35 motions, for everything the defendant had already paid Brown in June of 2012.

Brown told the defendant that he was the only attorney who would even accept the defendant's gold coins as payment, and that he definitely deserved to be given the rest of them

because he had to do a lot more work that he had not initially anticipated in order to make sure that the defendant would get out of jail within the next year. Brown became angry with the defendant for not immediately complying with his new financial demands. At the conclusion of the argument which Brown initiated with the defendant over wanting the rest of his gold coins, Brown ultimately told the defendant that if he was not given the rest of his gold coins that, not only would he not help with making sure that the defendant received the promised reductions in his sentence via Rule-35 motions, but that he would instead make sure that the defendant never received any credit for all of the cooperation he did, and also make sure that the government would not use him to testify in any cases.

Brown also told the defendant that if he did not agree to give the rest of his gold coins to him then he would make sure that the government would get them anyway. Brown began following through with his threats shortly after the defendant refused to comply with his new financial demands, starting with using his influence to make sure that the defendant was no longer allowed to use an office in the DIU department of the jail, where he had been brought to work on cooperation matters for the previous 6 months nearly everyday.

The defendant met with AUSA Peluso and Agent Shearer in DIU to discuss the Heromin case in early April of 2013, shortly after Brown broke the promises he made the defendant, and made his new financial demands. During this meeting, the defendant attempted to tell Peluso incriminating information about Brown but was stopped by Agent Shearer before he was able to explain anything. Peluso told the defendant not to

worry about Brown not representing him anymore and that he was still going to be called as a witness for the Heromin and Weiler trials, and that he was still going to get a sentence reduction as a Rule-35 motion for all of the cooperation he has done. Peluso and Shearer both told the defendant that "nothing has changed" and that they would see him again before Heromin's trial began. After Peluso and Shearer left DIU after meeting with the defendant, where Brown had him banned from using an office there about a month earlier, it was confirmed by Deputy Squalini that Brown was the one who instructed him, Sergeant Petruzzi, and Deputy Johnson, to not bring the defendant down there to work on anything anymore since he was no longer his client. Squalini also told the defendant that same day Brown told them this that he removed everything the defendant had at DIU which he was still using to work on the cooperation projects there, including his files, laptop and printer.

The defendant then sent Brown 2 letters, one in April of 2013, and another in early May of 2013. The defendant asked Brown to please come see him in both of these letters. In the latter letter, the defendant told Brown that if he was refusing to come see the defendant and straighten everything out between them within the next 2 weeks, then he would turn Brown in for his unethical and illegal actions. The defendant let Brown know that if Brown did not intend to keep his promises he made to the defendant pertaining to his representation for the significant amount of money, silver and gold he already received, than the defendant would not keep his promise to Brown about not telling anyone how much, and

with what, Brown was paid to represent him, which Brown wanted to be kept as discreet as possible for obvious reasons. Since Brown never bothered to come see the defendant, he then sent a letter to AUSA Peluso on May 16, 2013, asking her to please come see him because he wanted to discuss illegal activities committed by Brown. However, Peluso never came to see the defendant to discuss anything with him after receiving that letter, and was likely warned by Brown that she would be getting a letter like this from the defendant. Then in June of 2013, the defendant was informed by attorney Lucas Fleming that Brown's brother was a DEA agent in the Tampa office, and warned him that Brown likely had influence in the right places to follow through on the threats he made against the defendant, and that it sounded like things "could get out of hand" for the defendant.

Shortly after the defendant was told by Fleming about Brown's influences, a friend of the defendant, Jeanne Bush, had her houses raided in late June or early July of 2013 by numerous armed DEA agents. Apparently they were looking for gold coins which belonged to the defendant, which Bush did not have at that time. Then shortly after that, the house of the defendant's ex-girlfriend, Carroll Delo, was also raided by armed DEA agents for 2 straight days, to also look for gold coins which belonged to the defendant. Then Delo gave the gold coins she was holding for the defendant to Bush in late August or early September of 2013. Then the DEA agents raided Bush's house again in early September of 2013, and took 62 1-Ounce gold Kruggerand coins from her, which belonged to the defendant.

Also during this timeframe, the defendant was unexpectedly transferred from the Pinellas County Jail to a Federal Prison in South Carolina, without ever getting the chance to talk to Peluso about any of these matters, all the while still fully expecting to testify at the upcoming trials for Heromin and Weiler, and still fully expecting to be getting a Rule-35 sentence reduction for everything he had worked on. There is sufficient evidence that Brown did in fact proceed to follow through with all of the threats he made towards the defendant, doing whatever he could to cause the defendant harm, before the defendant had the chance to cause Brown any problems by turning him in for the things he did wrong himself.

Thus, after Brown had spent the previous 8 months promoting the defendant to be an excellent witness for the government, about a month after he was sentenced, Brown began doing the exact opposite, and did whatever he could to ruin the credibility of the defendant in the eyes of the government in order to keep himself out of trouble. Due to the defendant refusing to give Brown the rest of his gold coins, and because the defendant told Brown that he would reveal his illegal activities, Brown did whatever he could to protect himself in order to avoid suffering from any negative consequences as a result of his actions, which included carrying out his previous threats against the defendant.

Attorney Darlene Barror spoke with AUSA Peluso earlier this month and was told by her that she had changed her mind about giving the defendant a Rule-35 motion, and also changed her mind about using the defendant as a witness for any

upcoming cases. Peluso told Barror that information was brought to her attention concerning the defendant (which was privileged to his attorneys, namely Brown), which is what changed her mind about these matters. However, the defendant attests that he has never directly told Peluso any of this information in question, and that what she did hear was severely misconstrued and twisted around, likely by Brown. There is also documented proof that Brown also revealed similar privileged information to other attorneys, including, but not limited to, attorney Jeff Siskind.

Also, besides Carol Delo, her family and Jeanne Bush, Brown was the only other person who knew that the defendant had saved a significant amount of gold coins, which Delo was holding onto for him, which she eventually gave to Bush, which Brown wanted all for himself. Obviously Delo and Bush did not voluntarily disclose to the government that they were holding onto gold coins belonging to the defendant, and they definitely did not want their houses raided by the DEA multiple times. Thus, the only reasonable explanation as to the DEA's actions, and their seizure of the defendant's gold coins, over 6 months after he was sentenced and nearly 3 & 1/2 years after his case began, is that Brown had also revealed privileged information about them as well. This is a serious matter, especially if Brown's brother actually is an active DEA agent out of the Tampa field office, as attorney Fleming subsequently told the defendant after Brown stopped representing him and threatened him. Thus, the only logical person who could have been responsible for revealing this additional privileged information, concerning the defendant's

gold coins, which Brown wanted for himself, would have been Brown.

The defendant attests that there is a significant amount of proof that Brown's representation of the defendant was ineffective throughout the 9 months he represented him, especially during the plea and sentencing process of his case.

Brown's ulterior personal financial motives severely conflicted with him doing what was best for the defendant throughout his representation. Thus, there is a reasonable probability that the outcome of the defendant's case and his sentencing hearing would have been different if these issues had not transpired.

In Summary, the defendant asserts that the following errors were committed by defense counsel Jeff Brown during the 9 months he represented him (06/15/12 to 03/15/13), as well as for several months after he represented him, in support of Ground 6:

- 1) taking advantage of the defendant's unfortunate circumstances in order to get him to pay the majority of his significant fee with over \$160,000.00 worth of silver bars and gold coins, which belonged to the defendant, in order to keep as much as his payment "off the books" as he could in case the government attempted to seize his fees as well, telling the defendant that "the government can't seize what they don't know about", and assuring the defendant that he would remain on his case even if the government tried to seize the \$30,000.00 portion of his fee which he documented receiving from the defendant via checks in the fraudulent engagement contracts he drew up, which he and the defendant both signed on 06/06/2012
- 2) putting his own financial interests and the potential for him to be able to get additional discreet significant payments from the defendant in front of the defendant's best interests throughout his representation of the defendant
- 3) violating the attorney - client privilege he had with the defendant by revealing privileged information to the government, as well as to other attorneys, which he was told by the defendant while he represented him, in order to lessen the credibility of the defendant so that he would not be eligible for reduction of his 108 month sentence via Rule-35

1 2 3

motions, as the defendant was previously promised he would be by Brown and his prosecutor, AUSA Peluso, as well as to also help keep himself out of trouble for committing unethical and potentially illegal activities himself

VII. ARGUMENT

The facts and circumstances establish that the defendant has met his burden to state a claim for ineffective assistance of counsel in violation of the Sixth Amendment set forth under Strickland v. Washington, 466 U.S. 668, 104 S.Ct.2052, 80 L.Ed.2d 674 (1984). In applying Strickland, the defendant has shown from the facts above that there were several serious errors committed. In addition, the defendant has shown that he sustained prejudice by being sentenced to an extended number of years in prison. These failures, coupled with doing virtually nothing, are tantamount to errors so serious that counsel was not functioning as the "counsel" guaranteed to the defendant by the Sixth Amendment. Because the various lawyers did not effectively represent the defendant's best interests throughout his case, and actually created new problems for him as well, defense counsel's failures prejudiced the defendant. Since counsels did not properly represent the defendant throughout this case, the Sixth Amendment's right to counsel was absent and did not function to make the adversarial process work. See Strickland.

The defendant has shown that "that there is a reasonable probability that, but for counsel's unprofessional errors, the result of the proceeding would have been different." It is clear that the defendant's sentence is unreliable because of a breakdown in the adversarial process, particularly due to his counsel's actual conflicts of interest, and due to the serious errors his various counsels made during the plea process, cooperation process, and

sentencing process of his case.

Therefore, the facts in this case established that defense counsel's performance "fell below an objective standard of reasonableness" and the resulting prejudice was that the defendant was sentenced to an extended term of prison.

WHEREFORE, the defendant prays that this Honorable Court enter an Order setting aside the judgment and sentence of conviction.

I HEREBY CERTIFY THAT THE ABOVE STATEMENTS ARE TRUE AND CORRECT UNDER PENALTY OF PERJURY.

Dated this 20th day of February, 2014.

MOTION TO SUBMIT EVIDENCE INTO THE RECORD

COMES NOW, the defendant, CHRISTOPHER STEPHEN SWITLYK, proceeding on his own behalf, respectfully asks this Honorable Court to accept this enclosed copy of the Defendant's Appeal of his Criminal Case into evidence for this case.

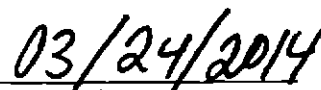

The defendant's criminal case and resulting sentence are obviously the main factors which are taken into consideration by the Department of Health and the Court when deciding the outcome of this case. The defendant's appeal of his criminal case contains significant information and details about the progression of his criminal case, as well as about the extremely ineffective assistance by his previous counsels. As shown in this appeal, the ineffective and unethical representation by the defendant's previous attorneys played a major role in why he was given such a harsh initial sentence.

WHEREFORE, the defendant, CHRISTOPHER STEPHEN SWITLYK, prays this Honorable Court grant him this Motion to Submit Evidence into the Record.

DOAH CASE NO: 14-0883PL

DOH CASE NO: 2011-20634

CHRISTOPHER SWITLYK, R.Ph., Respondent.

MOTION TO POSTPONE THE HEARING

COMES NOW, the defendant, CHRISTOPHER STEPHEN SWITLYK, proceeding on his own behalf, respectfully asks this Honorable Court to postpone the hearing in the above referenced cases currently scheduled for March 26, 2014 at 9:30AM.

The defendant was just notified of this hearing during a telephone deposition conducted on March 13, 2014. After that deposition concluded, the defendant was told that he is permitted to submit documents which he would like the Court to consider pertaining to his case before the March 26th hearing. The defendant was told that this includes any documents and medical records that indicate that there were mitigating factors present which should be taken into consideration regarding his case.

Since the defendant was informed about being able to submit exhibits to the Court only a few days ago, he sincerely requests that the Court please delay the ensuing March 26th hearing so that he has additional time to submit relevant evidence. Also since the defendant is currently incarcerated,

he asks the Court to please take this obstacle into consideration. It will obviously take the defendant much more time for him to acquire the documentation he wishes to submit to the Court while he is in prison than if he were free.

The defendant has started the process of obtaining documents pertaining to his case which he wishes to submit to the Court. This includes mailing written requests to 4 of the defendant's previous doctors requesting copies of his medical records, including:

- 1) Dr David Myers, M.D., Psychiatrist
Professional Resource Network, Inc.
825 West Linebaugh Avenue
Tampa, FL 33612
- 2) Dr Donald Taylor, M.D., Psychiatrist
15310 Amberly Drive, Suite 250
Tampa, FL 33647
- 3) Dr James Edgar, M.D., Psychiatrist
508 South Habana Avenue, Suite 390
Tampa, FL 33609-4144
- 4) Dr Jennifer Barror-Levine, Psychologist
The NeuroPsychiatric Institute
4107 West Spruce Street, Suite 100
Tampa, FL 33607

As soon as the defendant receives his medical records from these doctors he will forward copies of them to the Court and to Mr May. The defendant also has a friend sending him additional documentation pertaining to his case as well, which he will also forward copies of to the Court and to Mr May as soon as he receives them.

Please bear with the defendant and allow him sufficient time to submit evidence and documents to the Court that may change the outcome of his case if they are taken into account. The defendant has not practiced pharmacy since May of 2010, which is nearly 4 years ago now. March 13, 2014 is the first time the defendant has spoken to anyone at the Prosecutorial Services Department of the Florida Department of Health about his case, so reaching an outcome to this case is obviously not an urgent matter.

The defendant sincerely asks the court to please delay this upcoming March 26, 2014 hearing for a few months in order for him to have as fair of a chance as he can at defending himself, despite his unfortunate circumstances. Thus, due to the reasons listed within this motion by the defendant, he sincerely requests that the Court please postpone the March 26, 2014 hearing at least 120 days.

WHEREFORE, the defendant, CHRISTOPHER STEPHEN SWITLYK, prays this Honorable Court grant him this Motion to Postpone the Hearing, or any other relief the Court deems just and proper.

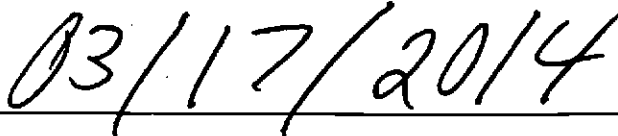

Respectfully submitted,

**MOTION TO TAKE TELEPHONIC DEPOSITION
OF RONALD B. SALEM, EXPERT WITNESS FOR PETITIONER**

COMES NOW the Petitioner, the Department of Health, and moves the Honorable J. Lawrence Johnston, Administrative Law Judge, to enter an order approving the taking of the deposition of Ronald B. Salem, R.P.h., (Deponent) by telephone conference call pursuant to Rule 1.310(b)(7), Florida Rules of Civil Procedure as follows:

1. Rule 1.310(b)(7), Florida Rules of Civil Procedure, provides for the taking of a deposition by telephone upon order of the court.
2. Deponent is a registered pharmacist and past member of the Florida Board of Pharmacy. The Petitioner wishes to introduce Mr. Salem's

deposition, in lieu of live testimony, as expert testimony in the above captioned proceeding

3. The Deponent resides in Jacksonville, Florida. Counsel for Petitioner is located in Leon County, Florida. Respondent is located in South Carolina.

4. A telephonic deposition of the Deponent is desirable, in the interests of economy, and will not unfairly prejudice either party.

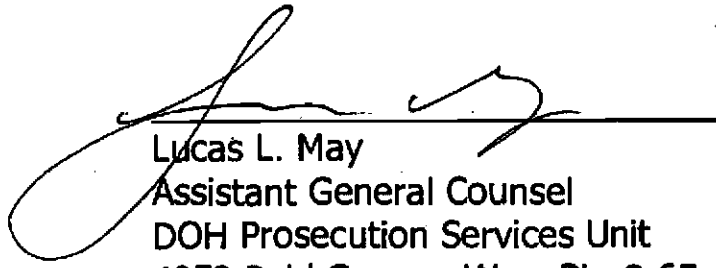

5. Petitioner shall be responsible for having a court reporter on site for the purpose of transcribing the deposition. Petitioner shall also be responsible for having a person authorized by law to swear the witness present at the site.

6. Petitioner has contacted the Federal prison, which detains Respondent, and has been assured that the date and time set for deposition are appropriate for Respondent's appearance by telephone.

7. Petitioner is not aware of any objections to this Motion.

WHEREFORE, Petitioner requests the entry of an order authorizing the deposition of Ronald B. Salem, R.P.h., by telephone conference call on March 13, 2014 at 10:00 a.m.

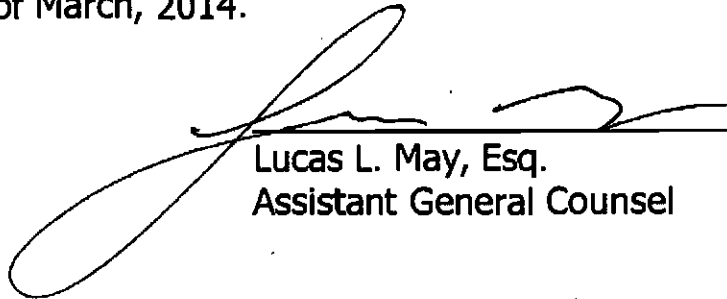

Respectfully submitted this 7 day of March, 2014,

INITIAL ORDER

1. Any document filed with DOAH by a party represented by an attorney shall be filed by electronic means through eALJ located at www.doah.state.fl.us. Parties not represented by an attorney may file by electronic means through eALJ. Any document filed through eALJ shall include the filing party's e-mail address and be served upon all other parties. All pleadings and motions must contain the DOAH style and case number.
 2. THE AGENCY OR, WHERE THE AGENCY IS NOT A PARTY, THE PETITIONER SHALL COORDINATE WITH ALL PARTIES AND PROVIDE THE FOLLOWING INFORMATION WITHIN SEVEN DAYS OF THE DATE OF THIS ORDER. If coordination is not possible, each party shall individually provide the information.
 - a. Any related cases before DOAH and, if so, the DOAH case number;
 - b. Estimated length of time necessary to conduct the final hearing;
 - c. Suggested geographic location for the final hearing. Any of the parties may state a preference for either a hearing conducted in-person or a hearing conducted by video-teleconferencing (VTC). The preference will be given due consideration by the Judge. Additional information about VTC hearings, including VTC locations, is available at www.doah.state.fl.us;
 - d. All dates more than 30 and less than 70 days from the date of this Order on which both parties are available for the final hearing.
 3. In the event a document is NOT electronically filed in accordance with paragraph 1, PARTIES NOT REPRESENTED BY AN ATTORNEY shall file the document on 8.5" x 11" paper at the address below and a copy served upon all other parties. Parties not represented may file electronically through eALJ, facsimile, or mail. CHOOSE ONE METHOD of filing for each document.
 4. EVERY PERSON FILING A DOCUMENT AT DOAH MUST ENSURE THAT NO INFORMATION PROTECTED BY PRIVACY OR CONFIDENTIALITY LAWS IS CONTAINED IN ANY DOCUMENT THAT WOULD BE POSTED TO DOAH'S WEBSITE IN THE REGULAR COURSE OF BUSINESS.
 5. FAILURE TO COMPLY WITH THE PROVISIONS OF PARAGRAPH 2 SHALL WAIVE VENUE RIGHTS, AND THE FINAL HEARING WILL BE SET IN TALLAHASSEE AS SOON AS POSSIBLE.
- DONE AND ORDERED this 25th day of February, 2014, in Tallahassee, Florida.

SUMMARY OF PROCEDURES

This case has been filed with the Division of Administrative Hearings to conduct an evidentiary hearing governed by chapter 120, Florida Statutes, and Florida Administrative Code Chapter 28-106, Parts I and II.

THE PARTIES SHALL TAKE NOTICE THAT:

1. Parties that have not previously registered for electronic filing may register through eALJ at www.doah.state.fl.us. Once your registration has been submitted you will receive electronic notification within 24 hours that your account has been activated. YOUR REGISTRATION MUST BE ACTIVATED BEFORE YOU MAY FILE ELECTRONICALLY.
2. Discovery may be undertaken in the manner provided in the Florida Rules of Civil Procedure and, if desired, should be initiated immediately. Subpoenas may be obtained from the Judge by contacting (850) 488-9675, extension 111. Registered e-filers may obtain subpoenas electronically through the DOAH website under the eALJ link. Discovery must be completed five days before the date of the final hearing unless an extension of time for good cause is granted.
3. The government agency for which a hearing is conducted will make arrangements for preserving the testimony at the final hearing.
4. A party may appear personally or be represented by an attorney or other qualified representative, pursuant to Florida Administrative Code Rule 28-106.106.
5. Florida Administrative Code Rule 28-106.210 provides that requests for continuances must be filed with the Judge at least five days prior to the date of hearing, except in cases of extreme emergency, and will only be granted for good cause shown.
6. Parties will promptly notify the Judge in the event of a settlement or other development which might alter the scheduled hearing.
7. The parties are expected to discuss the possibility of settlement, enter into pre-hearing stipulations of fact and law, identify and limit issues, and exchange exhibit and witness lists prior to the hearing.
8. If all parties agree, this case may proceed as a summary hearing, without discovery, if requested by motion within 15 days from the date of this Order. A Final Order will be entered within 30 days after the hearing.

In accordance with the Americans with Disabilities Act, persons needing a special accommodation to participate in this proceeding should contact the Judge's secretary no later than seven days prior to the hearing. The Judge's secretary may be contacted at the address or telephone numbers on page one, via 1-800-955-8770 (Voice), or 1-800-955-8771 (TDD) Florida Relay Service.

ADMINISTRATIVE COMPLAINT

COMES NOW, Petitioner, Department of Health, by and through its undersigned counsel, and files this Administrative Complaint before the Board of Pharmacy against Respondent, Christopher Stephen Switlyk, R.Ph., and in support thereof alleges:

1. Petitioner is the state department charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 465, Florida Statutes.

2. At all times material to this Administrative Complaint, Respondent was a licensed pharmacist within the state of Florida, having been issued license number PS 36908.

3. Respondent's address of record is 2410 Victoria Gardens Lane, Tampa, Florida 33609-4107.

4. On or about September 5, 2012, in the United States District Court for the Middle District of Florida, in case number 8:10-CR-530-T-33AEP, Respondent entered a plea of guilty to the following:

- a. To knowingly and intentionally distribute and possess with intent to distribute quantities of controlled substances, primarily Oxycodone, a Schedule II Controlled Substance, a felony, in violation of 21 U.S.C. § 841(a)(1);
- b. To knowingly and intentionally dispense and distribute, and cause to be dispensed and distributed, quantities of controlled substances, primarily Oxycodone, a Schedule II Controlled Substance, not for a legitimate medical purpose and not in the usual course of professional practice, a felony, in violation of 21 U.S.C. § 841(a)(1);
- c. To knowingly and intentionally use, and cause to be used, a registration number that was issued to another person in the course of distributing and dispensing controlled substances,

primarily Oxycodone, a Schedule II Controlled Substance, a felony, in violation of 21 U.S.C. § 843(a)(2);

d. To knowingly and intentionally acquire and obtain possession, and cause the acquiring and obtaining of possession, of controlled substances, primarily Oxycodone, a Schedule II Controlled Substance, by misrepresentation, fraud, forgery, deception or subterfuge, a felony, in violation of 21 U.S.C. § 843(a)(3);

e. To knowingly and intentionally open, lease, rent, use and maintain, and cause to be opened, leased, rented, used, and maintained, certain places for the purpose of distributing and dispensing controlled substances, primarily Oxycodone, a Schedule II Controlled Substance, a felony, in violation of 21 U.S.C. § 856(a)(1);

f. To knowingly engaging in monetary transactions, in and affecting interstate and foreign commerce, in criminally derived property of a value greater than \$10,000.00, such property having been from a specified unlawful activity, namely, a conspiracy to traffic in controlled substances,

felonies, in violation of 21 U.S.C. § 846, and 18 U.S.C. § 1957.

5. Respondent failed to report entering a plea of guilty to crimes referenced in paragraph four (4) to the Board of Pharmacy in writing within thirty (30) days of the date he entered the plea on or about September 5, 2012.

COUNT ONE

6. Petitioner realleges and incorporates paragraphs one (1) through five (5), as if fully set forth herein.

7. Section 456.072(1)(c), Florida Statutes (2012), provides that being convicted or found guilty of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice, a licensee's profession constitutes grounds for disciplinary action.

8. Respondent is licensed pursuant to Chapter 465, Florida Statutes, and is a health care practitioner as defined in Section 456.001(4), Florida Statutes (2012).

9. On or about September 5, 2012, in the United States District Court for the Middle District of Florida, in case number 8:10-CR-530-T-

33AEP, Respondent entered a plea of guilty to one or more of the following crimes that relate to the practice of, or the ability to practice, pharmacy:

- a. To knowingly and intentionally distribute and possess with intent to distribute quantities of controlled substances, primarily Oxycodone, a Schedule II Controlled Substance, a felony, in violation of 21 U.S.C. § 841(a)(1);
- b. To knowingly and intentionally dispense and distribute, and cause to be dispensed and distributed, quantities of controlled substances, primarily Oxycodone, a Schedule II Controlled Substance, not for a legitimate medical purpose and not in the usual course of professional practice, a felony, in violation of 21 U.S.C. § 841(a)(1);
- c. To knowingly and intentionally use, and cause to be used, a registration number that was issued to another person in the course of distributing and dispensing controlled substances, primarily Oxycodone, a Schedule II Controlled Substance, a felony, in violation of 21 U.S.C. § 843(a)(2);
- d. To knowingly and intentionally acquire and obtain possession, and cause the acquiring and obtaining of

possession, of controlled substances, primarily Oxycodone, a Schedule II Controlled Substance, by misrepresentation, fraud, forgery, deception or subterfuge, a felony, in violation of 21 U.S.C. § 843(a)(3);

e. To knowingly and intentionally open, lease, rent, use and maintain, and cause to be opened, leased, rented, used, and maintained, certain places for the purpose of distributing and dispensing controlled substances, primarily Oxycodone, a Schedule II Controlled Substance, a felony, in violation of 21 U.S.C. § 856(a)(1);

f. To knowingly engaging in monetary transactions, in and affecting Interstate and foreign commerce, in criminally derived property of a value greater than \$10,000.00, such property having been from a specified unlawful activity, namely, a conspiracy to traffic in controlled substances, felonies, in violation of 21 U.S.C. § 846, and 18 U.S.C. § 1957.

10. Based on the foregoing, Respondent violated Section 456.072(1)(c), Florida Statutes (2012), by being convicted or found guilty

of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice, a licensee's profession

COUNT TWO

11. Petitioner realleges and incorporates paragraphs one (1) through five (5), as if fully set forth herein.

12. Section 456.072(1)(x), Florida Statutes (2012), provides that failing to report to the board, or the department if there is no board, in writing within thirty (30) days after the licensee has been convicted or found guilty of, or entered a plea of nolo contendere to, regardless of adjudication, a crime in any jurisdiction, constitutes grounds for disciplinary action.

13. Respondent is licensed pursuant to Chapter 465, Florida Statutes, and is a health care practitioner as defined in Section 456.001(4), Florida Statutes (2012).

14. Respondent failed to report entering a plea of guilty to crimes referenced in paragraph four (4) to the Board of Pharmacy in writing within thirty (30) days of the date he entered the plea on or about September 5, 2012.

15. Based on the foregoing, Respondent violated Section 456.072(1)(x), Florida Statutes (2012), by failing to report to the board in writing within thirty (30) days after the licensee has been convicted or found guilty of, or entered a plea of nolo contendere to, regardless of adjudication, a crime in any jurisdiction.

WHEREFORE, the Petitioner respectfully requests that the Board of Pharmacy enter an order imposing one or more of the following penalties: permanent revocation or suspension of Respondent's license, restriction of practice, imposition of an administrative fine, issuance of a reprimand, placement of the Respondent on probation, corrective action, refund of fees billed or collected, remedial education and/or any other relief that the Board deems appropriate.

PETITIONER,

v.

CASE NO. 2011-20634

CHRISTOPHER STEPHEN SWITLYK, R.Ph.,

RESPONDENT.

AMENDED ADMINISTRATIVE COMPLAINT

COMES NOW, Petitioner, Department of Health, by and through its undersigned counsel, and files this Amended Administrative Complaint before the Board of Pharmacy against Respondent, Christopher Stephen Switlyk, R.Ph., and in support thereof alleges:

1. Petitioner is the state department charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 465, Florida Statutes.

2. At all times material to this Administrative Complaint, Respondent was a licensed pharmacist within the state of Florida, having been issued license number PS 36908.

3. Respondent's address of record is 2410 Victoria Gardens Lane, Tampa, Florida 33609-4107.

4. The Department has reason to believe that Respondent may be located at FCI Estill, Federal Correctional Institution, Attention: Register Number 53913-018, P.O. Box 699, Estill, South Carolina 29918.

5. On or about September 5, 2012, in case number 8:10-CR-530-T-33AEP in the United States District Court for the Middle District of Florida, Respondent entered a plea of guilty to: one count of attempting or conspiring to commit any offense defined in this subchapter, a felony, in violation of 21 U.S.C. § 846; and two counts of knowingly engaging in monetary transactions, in and affecting interstate and foreign commerce, in criminally derived property of a value greater than \$10,000.00, such property having been from a specified unlawful activity, namely, a conspiracy to traffic in controlled substances, felonies, in violation of 18 U.S.C. § 1957.

6. Respondent failed to report entering pleas of guilty to crimes referenced in paragraph five to the Board of Pharmacy in writing within thirty days of the date he entered the plea on or about September 5, 2012.

COUNT ONE

7. Petitioner realleges and incorporates paragraphs one through six as if fully set forth herein.

8. Section 456.072(1)(c), Florida Statutes (2012), provides that being convicted or found guilty of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice, a licensee's profession constitutes grounds for disciplinary action.

9. Respondent is licensed pursuant to Chapter 465, Florida Statutes, and is a health care practitioner as defined in Section 456.001(4), Florida Statutes (2012).

10. On or about September 5, 2012, in case number 8:10-CR-530-T-33AEP, in the United States District Court for the Middle District of Florida, Respondent entered a plea of guilty to: one count of attempting or conspiring to commit any offense defined in this subchapter, a felony, in violation of 21 U.S.C. 846; and two counts of knowingly engaging in monetary transactions, in and affecting interstate and foreign commerce, in criminally derived property of a value greater than \$10,000.00, such property having been from a specified unlawful activity, namely, a

conspiracy to traffic in controlled substances, felonies, in violation of 18 U.S.C. 1957.

11. Based on the foregoing, Respondent violated Section 456.072(1)(c), Florida Statutes (2012), by being convicted or found guilty of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice, a licensee's profession.

COUNT TWO

12. Petitioner realleges and incorporates paragraphs one through six as if fully set forth herein.

13. Section 456.072(1)(x), Florida Statutes (2012), provides that failing to report to the board, or the department if there is no board, in writing within thirty (30) days after the licensee has been convicted or found guilty of, or entered a plea of nolo contendere to, regardless of adjudication, a crime in any jurisdiction, constitutes grounds for disciplinary action.

14. Respondent is licensed pursuant to Chapter 465, Florida Statutes, and is a health care practitioner as defined in Section 456.001(4), Florida Statutes (2012).

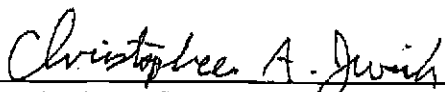

15. Respondent failed to report entering a plea of guilty to the crimes referenced in paragraph five to the Board of Pharmacy in writing within thirty days of the date he entered the plea on or about September 5, 2012.

16. Based on the foregoing, Respondent violated Section 456.072(1)(x), Florida Statutes (2012), by failing to report to the board in writing within thirty days after the licensee has been convicted or found guilty of, or entered a plea of nolo contendere to, regardless of adjudication, a crime in any jurisdiction.

WHEREFORE, the Petitioner respectfully requests that the Board of Pharmacy enter an order imposing one or more of the following penalties: permanent revocation or suspension of Respondent's license, restriction of practice, Imposition of an administrative fine, issuance of a reprimand, placement of the Respondent on probation, corrective action, refund of fees billed or collected, remedial education and/or any other relief that the Board deems appropriate.

SIGNED this 19th **day of** December, 2013.

DEPARTMENT OF HEALTH,

PETITIONER,

v.

CASE NO. 2014-02880

JAMES V. SCHOTT, R.PH.,

RESPONDENT.

SETTLEMENT AGREEMENT

Pursuant to Section 120.57(4), Florida Statutes, the parties offer this Settlement Agreement to the Board of Pharmacy (Board) as disposition of the Administrative Complaint, attached as Exhibit A, in lieu of further administrative proceedings.

STIPULATED FACTS

1. At all times material to this matter, James V. Schott, R.Ph., was a licensed pharmacist in the state of Florida, having been issued license number PS21462. Respondent's mailing address of record is 4204 Windtree Drive, Tampa, Florida 33624.

2. Respondent was charged by an Administrative Complaint, filed by the Department of Health (Department) and properly served upon Respondent, with violations of Chapters 456 and 465, Florida Statutes.

STIPULATED LAW

1. Respondent admits that she is subject to the provisions of Chapters 456 and 465, Florida Statutes, and the jurisdiction of the Department.

2. Respondent admits that the allegations in the Administrative Complaint, if proven true, constitute violations of law and cause the Respondent to be subject to discipline by the Board of Pharmacy.

PROPOSED DISPOSITION

1. **Appearance**- Respondent shall be present when this Settlement Agreement is presented to the Board and under oath shall answer all questions asked by the Board concerning this case and its disposition.

2. **Fine**- The Board of Pharmacy shall impose an administrative fine of **ONE THOUSAND DOLLARS (\$1,000.00)**. The fine shall be paid by Respondent to the **Department of Health, Compliance Management Unit, Bin C76, Post Office Box 6320, Tallahassee,**

Florida 32314-6320, within **30 days** from the date the Final Order approving and incorporating this Settlement Agreement (Final Order) is filed with the Department Clerk.

3. **Costs**- The Board of Pharmacy shall impose the total, administrative costs associated with the investigation and prosecution of this matter in an amount not to exceed **ONE THOUSAND TWO HUNDRED AND SIX DOLLARS AND NINETY FOUR CENTS (\$1,206.94)**. Total costs shall be assessed when the Settlement Agreement is presented to the Board. The costs shall be paid by Respondent to the **Department of Health, Compliance Management Unit, Bin C76, Post Office Box 6320, Tallahassee, Florida 32314-6320**, within **90 days** from the date the Final Order is filed with the Department Clerk.

4. **Continuing Education**- Respondent shall successfully complete Continuing Education Courses which have been approved by the Florida Board of Pharmacy on the subject of **LAWS AND RULES** consisting of **TWELVE (12) HOURS** of credit and on the subject of **STERILE COMPOUNDING** consisting of **TWELVE (12) HOURS** of credit, within **one (1) year** of the filing of a Final Order accepting and incorporating this

Settlement Agreement. These continuing education hours shall be in addition to the hours required for license renewal. Within ten (10) days of completion of the courses and/or receipt of the certificate of completion, Respondent shall mail a copy of the continuing education certificate of completion to the Pharmacy Compliance Officer at the address listed in paragraph two (2) above.

5. **Future Conduct**- Respondent shall not violate Chapters 456, 465, 499, or 893, Florida Statutes; the rules promulgated pursuant thereto; or any other state or federal law, rule, or regulation relating to the practice or to the ability to practice pharmacy.

6. **Violation of Terms**- It is expressly understood that a violation of the provisions of this Settlement Agreement as approved and incorporated into the Final Order of the Board of Pharmacy shall constitute a violation of an order of the Board for which disciplinary action may be initiated against Respondent pursuant to Chapter 465, Florida Statutes.

7. **No Force or Effect until Final Order**- It is expressly understood that this Settlement Agreement is subject to approval by the Board and has no force or effect until the Board incorporates the terms of this Settlement Agreement into its Final Order.

8. **Purpose of Agreement-** This Settlement Agreement is executed by Respondent for the purpose of avoiding further administrative action with respect to this particular case. In this regard, Respondent authorizes the Board to review and examine all investigative file materials concerning Respondent prior to, or in conjunction with, consideration of the Settlement Agreement. Petitioner and Respondent agree to support this Settlement Agreement at the time it is presented to the Board and shall offer no evidence, testimony, or argument that disputes or contravenes any stipulated fact or conclusion of law. Furthermore, should this Settlement Agreement not be accepted by the Board, it is agreed that the presentation and consideration of this Settlement Agreement and other documents and matters by the Board shall not unfairly or illegally prejudice the Board or any of its members from further participation, consideration, or resolution of these proceedings.

9. **Not Preclude Additional Proceedings-** Respondent and the Department fully understand that this Settlement Agreement as approved and incorporated into the Final Order will not preclude additional proceedings by the Board or Department against Respondent for acts or omissions not specifically set forth in the Administrative Complaint.

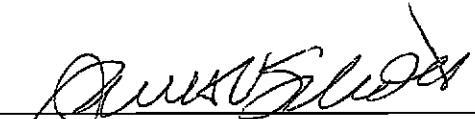

10. **Waiver of Attorney's Fees and Costs**- Respondent waives the right to seek any attorney's fees and costs from the Department in connection with this disciplinary proceeding.

11. **Waiver of Procedural Rights**- Respondent waives all rights to further administrative procedure and to appeal and further review of this Settlement Agreement and the Final Order.

12. **Current Addresses**- Respondent shall keep current his mailing address and his practice address with the Board of Pharmacy and the Compliance Officer and shall notify the Board of Pharmacy and the Compliance Officer of any change of mailing address or practice address within ten (10) days of the change.

WHEREFORE, the parties request that the Board enter a Final Order approving and incorporating this Settlement Agreement in resolution of this matter.

ADMINISTRATIVE COMPLAINT

COMES NOW, Petitioner, Department of Health, by and through its undersigned counsel, and files this Administrative Complaint before the Board of Pharmacy against Respondent, James V. Schott, R.Ph., and in support thereof alleges:

1. Petitioner is the state agency charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 465, Florida Statutes.

2. At all times material to this Administrative Complaint, Respondent was a licensed pharmacist within the state of Florida, having been issued license number PS 21462.

EXHIBIT

A

3. Respondent's address of record is 4204 Windtree Drive, Tampa, Florida 33624.

4. At all times material to this Administrative Complaint, Respondent was the prescription department manager (PDM) of record for Coram Healthcare Corp of Florida (the Permittee), a permitted community pharmacy located in Tampa, Florida.

5. On or about February 19, 2014, the Department conducted a routine community pharmacy and sterile compounding inspection of the Permittee.

6. The Department inspection on or about February 19, 2014, revealed that on or about February 18, 2014, Respondent prepared a low-risk level compounded sterile preparation (CSP) for patient D.G. that was assigned a "discard after" date of March 11, 2014, with storage instructions on the label that read "Ambient".

7. The Department inspection on or about February 19, 2014, revealed that there was no documentation that the CSP in paragraph six had passed a sterility test or a documented validated process.

8. Section 465.016(1)(r), Florida Statutes (2013), provides that violating any provision of this chapter or chapter 456, Florida Statutes, or

any rules adopted pursuant thereto constitutes grounds for disciplinary action.

9. Rule 64B16-27.797(1)(n)4., Florida Administrative Code, provides that for low-risk preparations, in the absence of passing a sterility test or a documented validated process, the storage periods cannot exceed the following time periods; before administration, the CSPs are properly stored and exposed for not more than 48 hours at controlled room temperature, and for not more than 14 days at a cold temperature (2-8 degrees Celsius) and for 45 days in a solid frozen state at -20 degrees Celsius or colder.

10. As set forth above, Respondent prepared a low-risk level compounded sterile preparation that was assigned a "discard after" date of 21 days and instructions to store the preparation in "ambient" conditions, despite no documentation that the compounded sterile preparation had passed a sterility test or a documented validated process.

11. Based on the foregoing, Respondent has violated Section 465.016(1)(r), Florida Statutes (2013), by and through a violation of Rule 64B16-27.797(1)(n)4., Florida Administrative Code.

WHEREFORE, the Petitioner respectfully requests that the Board of Pharmacy enter an order imposing one or more of the following penalties: permanent revocation or suspension of Respondent's license, restriction of practice, imposition of an administrative fine, issuance of a reprimand, placement of the Respondent on probation, corrective action, refund of fees billed or collected, remedial education and/or any other relief that the Board deems appropriate.

SETTLEMENT AGREEMENT

Pursuant to Section 120.57(4), Florida Statutes, the parties offer this Settlement Agreement to the Board of Pharmacy (Board) as disposition of the Administrative Complaint, attached as Exhibit A, in lieu of further administrative proceedings.

STIPULATED FACTS

1. At all times material to this matter, Plaza Pharmacy, Inc., was a permitted community pharmacy in the state of Florida, having been issued license number PH 26083. Respondent's mailing address of record is 499 N.W. 124th Avenue, Coral Springs, Florida 33065.

2. Respondent was charged by an Administrative Complaint, filed by the Department of Health (Department) and properly served upon Respondent, with violations of Chapters 456 and 465, Florida Statutes.

STIPULATED LAW

1. Respondent admits that Respondent is subject to the provisions of Chapters 456 and 465, Florida Statutes, and the jurisdiction of the Department.

2. Respondent admits that the allegations in the Administrative Complaint, if proven true, constitute violations of law and cause the Respondent to be subject to discipline by the Board of Pharmacy.

PROPOSED DISPOSITION

1. **Appearance**- Respondent shall be present when this Settlement Agreement is presented to the Board and under oath shall answer all questions asked by the Board concerning this case and its disposition.

2. **Fine**- The Board of Pharmacy shall impose an administrative fine of **FIVE HUNDRED DOLLARS (\$500.00)**. The fine shall be paid by Respondent to the **Department of Health, Compliance Management Unit, Bin C76, Post Office Box 6320, Tallahassee, Florida 32314-**

6320, within 30 days from the date the Final Order approving and incorporating this Settlement Agreement (Final Order) is filed with the Department Clerk.

3. Costs The Board of Pharmacy shall impose the total, administrative costs associated with the investigation and prosecution of this matter in an amount not to exceed **ONE THOUSAND EIGHT HUNDRED AND FOUR DOLLARS AND SIXTY-ONE CENTS (\$1,804.61)**. Total costs shall be assessed when the Settlement Agreement is presented to the Board. The costs shall be paid by Respondent to the **Department of Health, Compliance Management Unit, Bin C76, Post Office Box 6320, Tallahassee, Florida 32314-6320**, within 90 days from the date the Final Order is filed with the Department Clerk.

4. CE Course Respondent's president/owner shall successfully complete a continuing education course on the subject of **LAWS AND RULES** consisting of **TWELVE (12) HOURS** of credit, which has been approved by the Florida Board of Pharmacy, within **one (1) year** of the filing of a Final Order accepting and incorporating this Settlement Agreement. Within ten (10) days of completion of the course and/or

receipt of the certificate of completion, Respondent shall mail a copy of the continuing education certificate of completion to the Pharmacy Compliance Officer at the address listed in paragraph two (2) above.

5. **Correction of Alleged Deficiencies**- At its sole expense, but without admitting any specific deficiency or violation, Respondent shall immediately, or at least forthwith, correct and address all deficiencies and violations listed or alleged in the Administrative Complaint, to the extent necessary to comply with Florida law.

6. **Future Conduct**- Respondent shall not violate Chapters 456, 465, 499, or 893, Florida Statutes; the rules promulgated pursuant thereto; or any other state or federal law, rule, or regulation relating to the practice or to the ability to practice pharmacy.

7. **Violation of Terms**- It is expressly understood that a violation of the provisions of this Settlement Agreement as approved and incorporated into the Final Order of the Board of Pharmacy shall constitute a violation of an order of the Board for which disciplinary action may be initiated against Respondent pursuant to Chapter 465, Florida Statutes.

8. No Force or Effect until Final Order- It is expressly understood that this Settlement Agreement is subject to approval by the Board and has no force or effect until the Board incorporates the terms of this Settlement Agreement into its Final Order.

9. Purpose of Agreement- This Settlement Agreement is executed by Respondent for the purpose of avoiding further administrative action with respect to this particular case. In this regard, Respondent authorizes the Board to review and examine all investigative file materials concerning Respondent prior to, or in conjunction with, consideration of the Settlement Agreement. Petitioner and Respondent agree to support this Settlement Agreement at the time it is presented to the Board and shall offer no evidence, testimony, or argument that disputes or contravenes any stipulated fact or conclusion of law. Furthermore, should this Settlement Agreement not be accepted by the Board, it is agreed that the presentation and consideration of this Settlement Agreement and other documents and matters by the Board shall not unfairly or illegally prejudice the Board or any of its members from further participation, consideration, or resolution of these proceedings.

10. **Not Preclude Additional Proceedings**- Respondent and the Department fully understand that this Settlement Agreement as approved and incorporated into the Final Order will not preclude additional proceedings by the Board or Department against Respondent for acts or omissions not specifically set forth in the Administrative Complaint.

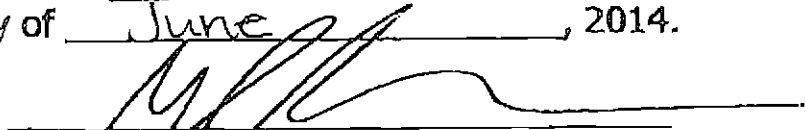

11. **Waiver of Attorney's Fees and Costs**- Respondent waives the right to seek any attorney's fees and costs from the Department in connection with this disciplinary proceeding.

12. **Waiver of Procedural Rights**- Respondent waives all rights to further administrative procedure and to appeal and further review of this Settlement Agreement and the Final Order.

13. **Current Addresses**- Respondent shall keep current his mailing address and his practice address with the Board of Pharmacy and the Compliance Officer and shall notify the Board of Pharmacy and the Compliance Officer of any change of mailing address or practice address within ten (10) days of the change.

WHEREFORE, the parties request that the Board enter a Final Order approving and incorporating this Settlement Agreement in resolution of this matter.

CASE NO. 2013-18814

PLAZA PHARMACY, INC.,

RESPONDENT.

ADMINISTRATIVE COMPLAINT

COMES NOW, Petitioner, Department of Health ("Department"), by and through its undersigned counsel, and files this Administrative Complaint before the Board of Pharmacy against Respondent, Plaza Pharmacy, Inc., and in support thereof alleges:

1. Petitioner is the state agency charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 465, Florida Statutes.

2. At all times material to this Administrative Complaint, Respondent was a permitted community pharmacy within the state of Florida, having been issued permit number PH 26083.

EXHIBIT

4

3. Respondent's address of record is 4399 N.W. 124th Avenue, Coral Springs, Florida 33065.

4. On or about October 22, 2013, the Department conducted a routine community pharmacy inspection at Respondent's address of record.

5. The Department's inspection on or about October 22, 2013, revealed that medications dispensed by Respondent and returned by patients were in Respondent's active stock.

6. In a written statement addressed to the Department dated December 5, 2013, Respondent admits placing unopened returned medications on its shelves alongside active medications.

7. Section 465.023(1)(c), Florida Statutes (2013), provides that the department or the board may revoke or suspend the permit of any pharmacy permittee, and may fine, place on probation, or otherwise discipline any pharmacy permittee if the permittee, or any affiliated person, partner, officer, director, or agent of the permittee violated any of the requirements of this chapter or any of the rules of the Board of Pharmacy.

8. Rule 64B16-27.104(4), Florida Administrative Code, provides that no pharmacist, employer or employee of a pharmacy may knowingly place in stock of any pharmacy any part of any prescription compounded

for, or dispensed to, any customer of any pharmacy and returned by said customer, unless otherwise permitted by Rule 64B16-28.118, Florida Administrative Code.

9. As set forth above, Respondent knowingly placed dispensed medications returned by Respondent's customers in its active stock.

10. Based on the foregoing, Respondent has violated Section 465.023(1)(c), Florida Statutes (2013), by and through a violation of Rule 64B16-27.104(4), Florida Administrative Code, which provides that no pharmacist, employer or employee of a pharmacy may knowingly place in stock of any pharmacy any part of any prescription compounded for, or dispensed to, any customer of any pharmacy and returned by said customer, unless otherwise permitted by Rule 64B16-28.118, Florida Administrative Code.

WHEREFORE, the Petitioner respectfully requests that the Board of Pharmacy enter an order imposing one or more of the following penalties: permanent revocation or suspension of Respondent's license, restriction of practice, imposition of an administrative fine, issuance of a reprimand, placement of the Respondent on probation, corrective action, refund of fees billed or collected, remedial education and/or any other relief that the Board deems appropriate.

**STATE OF FLORIDA
DEPARTMENT OF HEALTH**

DEPARTMENT OF HEALTH,

PETITIONER,

v.

CASE NO. 2013-15390

RX HEALTH PHARMACY, INC.,

RESPONDENT.

SETTLEMENT AGREEMENT

Pursuant to Section 120.57(4), Florida Statutes, the parties offer this Settlement Agreement to the Board of Pharmacy (Board) as disposition of the Administrative Complaint, attached as Exhibit A, in lieu of further administrative proceedings.

STIPULATED FACTS

1. At all times material to this matter, RX Health Pharmacy, Inc., was a licensed pharmacy in the State of Florida, having been issued permit number PH 22805. Respondent's mailing address of record is 9361 Southwest 40th Street, Miami, Florida 33165.

2. Respondent was charged by an Administrative Complaint, filed by the Department of Health (Department) and properly served upon Respondent, with violations of Chapters 456 and 465, Florida Statutes.

STIPULATED LAW

3. Respondent admits that Respondent is subject to the provisions of Chapters 456 and 465, Florida Statutes, and the jurisdiction of the Department.

4. Respondent admits that the allegations in the Administrative Complaint, if proven true, constitute violations of law and cause the Respondent to be subject to discipline by the Board of Pharmacy.

PROPOSED DISPOSITION

1. Appearance Respondent shall be present when this Settlement Agreement is presented to the Board and under oath shall answer all questions asked by the Board concerning this case and its disposition.

2. Fine The Board of Pharmacy shall impose an administrative fine of **ONE THOUSAND FIVE HUNDRED DOLLARS (\$1,500)**. The fine shall be paid by Respondent to the Department of Health, Compliance Management Unit, Bin C76, Post Office Box 6320,

Tallahassee, Florida 32314-6320, within 90 days from the date the Final Order approving and incorporating this Settlement Agreement (Final Order) is filed with the Department Clerk.

3. Costs- The Board of Pharmacy shall impose the total, administrative costs associated with the investigation and prosecution of this matter in an amount not to exceed **TWO THOUSAND EIGHT HUNDRED FIFTY-SIX DOLLARS AND TWENTY-TWO CENTS (\$2,856.22)**. Total costs shall be assessed when the Settlement Agreement is presented to the Board. The costs shall be paid by Respondent to the Department of Health, Compliance Management Unit, Bin C76, Post Office Box 6320, Tallahassee, Florida 32314-6320, within 90 days from the date the Final Order is filed with the Department Clerk.

4. Probation- Respondent shall be placed on TWO YEARS of probation. During the period of probation, Respondent shall be subject to the following terms and conditions:

- a. The Department shall conduct semi-annual inspections to ensure compliance with the laws and rules at Respondent's physical location at Respondent's cost.

b. Respondent shall make a mandatory appearance before the Board of Pharmacy during the last three (3) months of probation.

5. **Correction of Alleged Deficiencies:** At its sole expense, but without admitting any specific deficiency or violation, Respondent shall immediately, or at least forthwith, correct and address all deficiencies and violations listed or alleged in the Administrative Complaint, to the extent necessary to comply with Florida law.

6. **Future Conduct:** Respondent shall not violate Chapter 456, 465, 499, or 893, Florida Statutes; the rules promulgated pursuant thereto; or any other state or federal law, rule, or regulation relating to the practice or to the ability to practice pharmacy.

7. **Violation of Terms:** It is expressly understood that a violation of the provisions of this Settlement Agreement as approved and incorporated into the Final Order of the Board of Pharmacy shall constitute a violation of an order of the Board for which disciplinary action may be initiated against Respondent pursuant to Chapter 465, Florida Statutes.

8. **No Force or Effect until Final Order:** It is expressly understood that this Settlement Agreement is subject to approval by the

Board and has no force or effect until the Board incorporates the terms of this Settlement Agreement into its Final Order.

9. Purpose of Agreement: This Settlement Agreement is executed by Respondent for the purpose of avoiding further administrative action with respect to this particular case. In this regard, Respondent authorizes the Board to review and examine all investigative file materials concerning Respondent prior to, or in conjunction with, consideration of the Settlement Agreement. Petitioner and Respondent agree to support this Settlement Agreement at the time it is presented to the Board and shall offer no evidence, testimony, or argument that disputes or contravenes any stipulated fact or conclusion of law. Furthermore, should this Settlement Agreement not be accepted by the Board, it is agreed that the presentation and consideration of this Settlement Agreement and other documents and matters by the Board shall not unfairly or illegally prejudice the Board or any of its members from further participation, consideration, or resolution of these proceedings.

10. Not Preclude Additional Proceedings: Respondent and the Department fully understand that this Settlement Agreement as approved and incorporated into the Final Order will not preclude additional

proceedings by the Board or Department against Respondent for acts or omissions not specifically set forth in the Administrative Complaint.

11. **Waiver of Attorney's Fees and Costs:** Respondent waives the right to seek any attorney's fees and costs from the Department in connection with this disciplinary proceeding.

12. **Waiver of Procedural Rights:** Respondent waives all rights to further administrative procedure and to appeal and further review of this Settlement Agreement and the Final Order.

13. **Current Addresses:** Respondent shall keep current his mailing address and his practice address with the Board of Pharmacy and the Compliance Officer and shall notify the Board of Pharmacy and the Compliance Officer of any change of mailing address or practice address within 10 days of the change.

14. **Time of the Essence:** Time is of the essence in all respects concerning this agreement.

WHEREFORE, the parties request that the Board enter a Final Order approving and incorporating this Settlement Agreement in resolution of this matter.

Counsel for Petitioner

STATE OF FLORIDA
DEPARTMENT OF HEALTH

DEPARTMENT OF HEALTH

Petitioner,

v.

CASE NO: 2013-15390

RX HEALTH PHARMACY, INC.,

Respondent.

ADMINISTRATIVE COMPLAINT

COMES NOW, Petitioner, Department of Health, and through its undersigned counsel, and files this administrative complaint before the Board of Pharmacy against Respondent, RX Health Pharmacy, Inc., and in support thereof alleges:

1. Petitioner is the state agency charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 465, Florida Statutes.
2. At all times material to this complaint, Respondent was a permitted community pharmacy within the State of Florida having been issued permit number PH 22805.

3. Respondent's address of record is 9361 Southwest 40th Street, Miami, Florida 33165.

4. On or about July 3, 2013, a Department Investigator conducted a routine inspection of Respondent at its address of record.

5. On or about December 3, 2013, a Department Investigator conducted a reinspection of Respondent at its address of record.

6. On or about February 17, 2014, a Department Investigator conducted a reinspection of Respondent at its address of record.

7. As part of the routine inspection of on or about July 3, 2013, and the reinspections of on or about December 3, 2013, and February 17, 2014, the Department Investigator conducted an audit of legend drugs to include Lidoderm.

8. Lidoderm is a brand name for lidocaine topical. Lidoderm is a local anesthetic that works by blocking nerve signals in the body.

9. From on or about February 1, 2013, through on or about February 17, 2014, according to Respondent's records, Respondent dispensed a total of two hundred and twenty-five (225) prescriptions for Lidoderm (lidocaine 5%).

10. Respondent failed to provide the required documentation to account for the receipt of all the Lidoderm (lidocaine 5%) that was dispensed between on or about February 1, 2013, through on or about February 17, 2014.

11. Section 456.072(1)(k), Florida Statutes (2012, 2013), provides that failing to perform any statutory or legal obligation placed upon a licensee is grounds for disciplinary action.

12. Section 465.023(1)(c), Florida Statutes (2012, 2013), provides that the department or the board may revoke or suspend the permit of any pharmacy permittee, and may fine, place on probation, or otherwise discipline any pharmacy permittee if the permittee, or any affiliated person, partner, officer, director, or agent of the permittee, including a person fingerprinted under s. 465.022(3), has violated any of the requirements of this chapter or any of the rules of the Board of Pharmacy; and of chapter 499, known as the "Florida Drug and Cosmetic Act".

13. Section 499.005(18), Florida Statutes (2012, 2013), states that it is unlawful for a person to fail to maintain, or cause the failure of the maintenance, the records as required by this part and rules adopted under this part.

14. Rule 61N-1.012, Florida Administrative Code, provides in part, that records to document the movement of drugs, devices or cosmetics must provide a complete audit trail from a person's receipt or acquisition to sale or other disposition of the product or component. A complete audit trail includes records, which document each transaction or step in the receipt, manufacture, shipping, transfer, or other steps in the channel of trade of that person, whether or not physical possession or handling of the product or component occurs. At a minimum, records shall consist of invoices from the supplier or source, which documents acquisition of each product by the person and invoices of sale or other transfer by the person to the recipient.

15. As set forth above, Respondent failed to provide the required documentation to account for the receipt of all of the Lidoderm that was dispensed between on or about February 1, 2013, through on or about February 17, 2014.

16. Based on the foregoing, Respondent has violated Section 456.072(1)(k), Florida Statutes (2012, 2013), by violating Section 465.023(1)(c), Florida Statutes (2012, 2013), and by violating Section 499.005(18), Florida Statutes (2012, 2013), through a violation of Rule

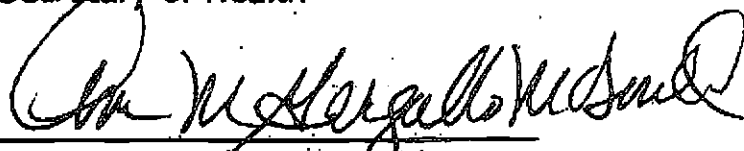

61N-1.012, Florida Administrative Code, which requires that records to document the movement of drugs, devices or cosmetics must provide a complete audit trail from a person's receipt or acquisition to sale or other disposition of the product or component.

[Remainder of page left intentionally blank]

WHEREFORE, Petitioner respectfully requests that the Board of Pharmacy enter an order imposing one or more of the following penalties: permanent revocation or suspension of Respondent's license, restriction of practice, imposition of an administrative fine, issuance of a reprimand, placement of Respondent on probation, corrective action, refund of fees billed or collected, remedial education and/or any other relief that the Board deems appropriate.

PRELIMINARY CASE REMARKS

This is a one count administrative complaint which alleges that the Respondent filled a prescription written for hydralazine with hydroxyzine for patient T.S.

**STATE OF FLORIDA
DEPARTMENT OF HEALTH**

DEPARTMENT OF HEALTH,

PETITIONER,

v.

CASE NO. 2013-20214

RAYHAN AHMED, R.Ph.,

RESPONDENT.

SETTLEMENT AGREEMENT

Pursuant to Section 120.57(4), Florida Statutes, the parties offer this Settlement Agreement to the Board of Pharmacy (Board) as disposition of the Administrative Complaint, attached as Exhibit A, in lieu of further administrative proceedings.

STIPULATED FACTS

1. At all times material to this matter, **RAYHAN AHMED, R.Ph.**, was a licensed pharmacist in the state of Florida, having been issued license number PS 38712. Respondent's mailing address of record is 8957 Alexandra Circle, Wellington, Florida 33431.

2. Respondent was charged by an Administrative Complaint, filed by the Department of Health (Department) and properly served upon Respondent, with violations of Chapters 456 and 465, Florida Statutes.

STIPULATED LAW

1. Respondent admits that she is subject to the provisions of Chapters 456 and 465, Florida Statutes, and the jurisdiction of the Department.

2. Respondent admits that the allegations in the Administrative Complaint, if proven true, constitute violations of law and cause the Respondent to be subject to discipline by the Board of Pharmacy.

PROPOSED DISPOSITION

1. **Appearance**- Respondent shall be present when this Settlement Agreement is presented to the Board and under oath shall answer all questions asked by the Board concerning this case and its disposition.

2. **Fine**- The Board of Pharmacy shall impose an administrative fine of **FIVE HUNDRED DOLLARS (\$500.00)**. The fine shall be paid by Respondent to the **Department of Health, Compliance Management Unit, Bin C76, Post Office Box 6320, Tallahassee, Florida 32314-**

6320, within **30 days** from the date the Final Order approving and incorporating this Settlement Agreement (Final Order) is filed with the Department Clerk.

3. Costs- The Board of Pharmacy shall impose the total, administrative costs associated with the investigation and prosecution of this matter in an amount not to exceed **ONE THOUSAND DOLLARS (\$1,000)**. Total costs shall be assessed when the Settlement Agreement is presented to the Board. The costs shall be paid by Respondent to the **Department of Health, Compliance Management Unit, Bin C76, Post Office Box 6320, Tallahassee, Florida 32314-6320**, within **90 days** from the date the Final Order is filed with the Department Clerk.

4. CE Course- Respondent shall successfully complete a Continuing Education Course on the subject of **PREVENTION OF MEDICAL ERRORS** consisting of **EIGHT (8) HOURS** of credit, which has been approved by the Florida Board of Pharmacy, within **one (1) year** of the filing of a Final Order accepting and incorporating this Settlement Agreement. These continuing education hours shall be in addition to the hours required for license renewal. Within ten (10) days of completion of the course and/or receipt of the certificate of completion, Respondent shall

mail a copy of the continuing education certificate of completion to the Pharmacy Compliance Officer at the address listed in paragraph two (2) above.

6. **Future Conduct-** Respondent shall not violate Chapters 456, 465, 499 or 893, Florida Statutes; the rules promulgated pursuant thereto; or any other state or federal law, rule, or regulation relating to the practice or to the ability to practice pharmacy.

7. **Violation of Terms-** It is expressly understood that a violation of the provisions of this Settlement Agreement as approved and incorporated into the Final Order of the Board of Pharmacy shall constitute a violation of an order of the Board for which disciplinary action may be initiated against Respondent pursuant to Chapter 465, Florida Statutes.

8. **No Force or Effect until Final Order-** It is expressly understood that this Settlement Agreement is subject to approval by the Board and has no force or effect until the Board incorporates the terms of this Settlement Agreement into its Final Order.

9. **Purpose of Agreement-** This Settlement Agreement is executed by Respondent for the purpose of avoiding further administrative action with respect to this particular case. In this regard, Respondent

authorizes the Board to review and examine all investigative file materials concerning Respondent prior to, or in conjunction with, consideration of the Settlement Agreement. Petitioner and Respondent agree to support this Settlement Agreement at the time it is presented to the Board and shall offer no evidence, testimony, or argument that disputes or contravenes any stipulated fact or conclusion of law. Furthermore, should this Settlement Agreement not be accepted by the Board, it is agreed that the presentation and consideration of this Settlement Agreement and other documents and matters by the Board shall not unfairly or illegally prejudice the Board or any of its members from further participation, consideration, or resolution of these proceedings.

10. **Not Preclude Additional Proceedings**- Respondent and the Department fully understand that this Settlement Agreement as approved and incorporated into the Final Order will not preclude additional proceedings by the Board or Department against Respondent for acts or omissions not specifically set forth in the Administrative Complaint.

11. **Waiver of Attorney's Fees and Costs**- Respondent waives the right to seek any attorney's fees and costs from the Department in connection with this disciplinary proceeding.

12. **Waiver of Procedural Rights**- Respondent waives all rights to further administrative procedure and to appeal and further review of this Settlement Agreement and the Final Order.

13. **Current Addresses**- Respondent shall keep current her mailing address and her practice address with the Board of Pharmacy and the Compliance Officer and shall notify the Board of Pharmacy and the Compliance Officer of any change of mailing address or practice address within 10 days of the change.

WHEREFORE, the parties request that the Board enter a Final Order approving and incorporating this Settlement Agreement in resolution of this matter.

SIGNED this 30 day of May, 2014.

DEPARTMENT OF HEALTH,

PETITIONER,

v.

CASE NO. 2013-20214

RAYHAN AHMED, R.Ph.,

RESPONDENT.

ADMINISTRATIVE COMPLAINT

COMES NOW, Petitioner, Department of Health (Department), by and through its undersigned counsel, and files this Administrative Complaint before the Board of Pharmacy against Respondent, Rayhan Ahmed, R.Ph., and in support thereof alleges:

1. Petitioner is the state agency charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 465, Florida Statutes.
2. At all times material to this Administrative Complaint, Respondent was a licensed pharmacist within the state of Florida, having been issued license PS 38712.

3. Respondent's address of record is 8957 Alexandra Circle, Wellington, Florida 33414.

4. At all times material to this Administrative Complaint, Respondent was employed as a pharmacist at CVS Pharmacy #117 ("CVS") located in Boca Raton, Florida 33431.

5. At all times material to this Administrative Complaint, L.S., an eighty-five year old male was a patient at CVS.

6. On or about December 26, 2012, L.S. presented to CVS with a prescription for hydralazine.

7. Hydralazine is a vasodilator that works by relaxing the muscles in your blood vessels to help them dilate (widen). This lowers blood pressure and allows blood to flow more easily through your veins and arteries. Hydralazine is used to treat high blood pressure (hypertension).

8. On or about December 26, 2012, Respondent dispensed hydroxyzine instead of hydralazine to T.S.

9. Hydroxyzine reduces activity in the central nervous system. It also acts as an antihistamine that reduces the natural chemical histamine in the body. Histamine can produce symptoms of sneezing and runny nose, or

hives on the skin. Hydroxyzine is used as a sedative to treat anxiety and tension.

10. Section 465.016(1)(g), Florida Statutes (2012), provides that using in the compounding of a prescription, or furnishing upon prescription, an ingredient or article different in any manner from the ingredient or article prescribed, except as authorized in Section 465.019(6), Florida Statutes, or Section 465.025, Florida Statutes, constitutes grounds for disciplinary action.

11. As set forth above, on or about December 26, 2012, Respondent dispensed hydroxyzine instead of hydralazine to patient T.S.

12. Based on the foregoing, Respondent has violated Section 465.016(1)(g), Florida Statutes (2012), by using in the compounding of a prescription, or furnishing upon prescription, an ingredient or article different in any manner from the ingredient or article prescribed.

WHEREFORE, the Petitioner respectfully requests that the Board of Pharmacy enter an order imposing one or more of the following penalties: permanent revocation or suspension of Respondent's license, restriction of practice, imposition of an administrative fine, issuance of a reprimand, placement of the Respondent on probation, corrective action, refund of fees billed or collected, remedial education and/or any other relief that the Board deems appropriate.

SETTLEMENT AGREEMENT

Pursuant to Section 120.57(4), Florida Statutes, the parties offer this Settlement Agreement to the Board of Pharmacy (Board) as disposition of the Administrative Complaint, attached as Exhibit A, in lieu of further administrative proceedings.

STIPULATED FACTS

1. At all times material to this matter, Coram Healthcare Corp of Florida, d/b/a Coram Specialty Infusion Services, A CVS Caremark Company, was a permitted community pharmacy in the state of Florida, having been issued license number PH13951. Respondent's mailing address of record is 8508 Benjamin Road, Suite C, Tampa, Florida 33634.

2. Respondent was charged by an Administrative Complaint, filed by the Department of Health (Department) and properly served upon Respondent, with violations of Chapters 456 and 465, Florida Statutes.

STIPULATED LAW

1. Respondent admits that Respondent is subject to the provisions of Chapters 456 and 465, Florida Statutes, and the jurisdiction of the Department.

2. Respondent admits that the allegations in the Administrative Complaint, if proven true, constitute violations of law and cause the Respondent to be subject to discipline by the Board of Pharmacy.

PROPOSED DISPOSITION

1. **Appearance**- An institutional representative of Respondent shall be present when this Settlement Agreement is presented to the Board and under oath shall answer all questions asked by the Board concerning this case and its disposition.

2. **Fine**- The Board of Pharmacy shall impose an administrative fine of **ONE THOUSAND DOLLARS (\$1,000.00)**. The fine shall be paid by Respondent to the **Department of Health, Compliance Management Unit, Bin C76, Post Office Box 6320, Tallahassee,**

Florida 32314-6320, within **30 days** from the date the Final Order approving and incorporating this Settlement Agreement (Final Order) is filed with the Department Clerk.

3. **Costs**- The Board of Pharmacy shall impose the total, administrative costs associated with the investigation and prosecution of this matter in an amount not to exceed **ONE THOUSAND TWO HUNDRED TWENTY-SIX DOLLARS AND EIGHT CENTS (\$1,226.08)**. Total costs shall be assessed when the Settlement Agreement is presented to the Board. The costs shall be paid by Respondent to the **Department of Health, Compliance Management Unit, Bin C76, Post Office Box 6320, Tallahassee, Florida 32314-6320**, within **90 days** from the date the Final Order is filed with the Department Clerk.

4. **Correction of Alleged Deficiencies**- At its sole expense, but without admitting any specific deficiency or violation, Respondent shall immediately, or at least forthwith, correct and address all deficiencies and violations listed or alleged in the Administrative Complaint, to the extent necessary to comply with Florida law.

5. **Future Conduct**- Respondent shall not violate Chapters 456, 465, 499, or 893, Florida Statutes; the rules promulgated pursuant thereto;

or any other state or federal law, rule, or regulation relating to the practice or to the ability to practice pharmacy.

6. **Violation of Terms**- It is expressly understood that a violation of the provisions of this Settlement Agreement as approved and incorporated into the Final Order of the Board of Pharmacy shall constitute a violation of an order of the Board for which disciplinary action may be initiated against Respondent pursuant to Chapter 465, Florida Statutes.

7. **No Force or Effect until Final Order**- It is expressly understood that this Settlement Agreement is subject to approval by the Board and has no force or effect until the Board incorporates the terms of this Settlement Agreement into its Final Order.

8. **Purpose of Agreement**- This Settlement Agreement is executed by Respondent for the purpose of avoiding further administrative action with respect to this particular case. In this regard, Respondent authorizes the Board to review and examine all investigative file materials concerning Respondent prior to, or in conjunction with, consideration of the Settlement Agreement. Petitioner and Respondent agree to support this Settlement Agreement at the time it is presented to the Board and shall offer no evidence, testimony, or argument that disputes or

contravenes any stipulated fact or conclusion of law. Furthermore, should this Settlement Agreement not be accepted by the Board, it is agreed that the presentation and consideration of this Settlement Agreement and other documents and matters by the Board shall not unfairly or illegally prejudice the Board or any of its members from further participation, consideration, or resolution of these proceedings.

9. **Not Preclude Additional Proceedings**- Respondent and the Department fully understand that this Settlement Agreement as approved and incorporated into the Final Order will not preclude additional proceedings by the Board or Department against Respondent for acts or omissions not specifically set forth in the Administrative Complaint.

10. **Waiver of Attorney's Fees and Costs**- Respondent waives the right to seek any attorney's fees and costs from the Department in connection with this disciplinary proceeding.

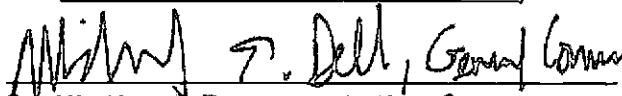

11. **Waiver of Procedural Rights**- Respondent waives all rights to further administrative procedure and to appeal and further review of this Settlement Agreement and the Final Order.

12. **Current Addresses**- Respondent shall keep current his mailing address and his practice address with the Board of Pharmacy and

the Compliance Officer and shall notify the Board of Pharmacy and the Compliance Officer of any change of mailing address or practice address within ten (10) days of the change.

WHEREFORE, the parties request that the Board enter a Final Order approving and incorporating this Settlement Agreement in resolution of this matter.

v.

CASE NO. 2014-02879

**CORAM HEALTHCARE CORP OF FLORIDA,
d/b/a CORAM SPECIALTY INFUSION
SERVICES, A CVS CAREMARK COMPANY,**

RESPONDENT.

ADMINISTRATIVE COMPLAINT

COMES NOW, Petitioner, Department of Health, by and through its undersigned counsel, and files this Administrative Complaint before the Board of Pharmacy against Respondent, Coram Healthcare Corp of Florida, d/b/a Coram Specialty Infusion Services, A CVS Caremark Company, and in support thereof alleges:

1. Petitioner is the state agency charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 465, Florida Statutes.

EXHIBIT

A

2. At all times material to this Administrative Complaint, Respondent was a permitted community pharmacy within the state of Florida, having been issued permit number PH13951.

3. Respondent's address of record is 8508 Benjamin Road, Suite C, Tampa, Florida 33634.

4. At all times material to this Administrative Complaint, J.S., R.Ph., was employed as the prescription department manager of record for Respondent.

5. On or about February 19, 2014, the Department conducted a routine community pharmacy and sterile compounding inspection of Respondent.

6. The Department inspection on or about February 19, 2014, revealed that on or about February 18, 2014, J.S. had prepared a low-risk level compounded sterile preparation (CSP) for patient D.G. that was assigned a "discard after" date of March 11, 2014, with storage instructions on the label that read "Ambient".

7. The Department inspection on or about February 19, 2014, revealed that there was no documentation that the CSP in paragraph six had passed a sterility test or a documented validated process.

8. Section 465.023(1)(c), Florida Statutes (2013), provides that the department or the board may revoke or suspend the permit of any pharmacy permittee, and may fine, place on probation, or otherwise discipline any pharmacy permittee if the permittee, or any affiliated person, partner, officer, director, or agent of the permittee has violated any of the requirements of this chapter or the rules of the Board of Pharmacy.

9. Rule 64B16-27.797(1)(n)4., Florida Administrative Code, provides that for low-risk preparations, in the absence of passing a sterility test or a documented validated process, the storage periods cannot exceed the following time periods; before administration, the CSPs are properly stored and exposed for not more than 48 hours at controlled room temperature, and for not more than 14 days at a cold temperature (2-8 degrees Celsius) and for 45 days in a solid frozen state at -20 degrees Celsius or colder.

10. As set forth above, J.S., an employee and agent of Respondent, prepared a low-risk level compounded sterile preparation that was assigned a "discard after" date of 21 days and instructions to store the preparation in "ambient" conditions, despite no documentation that the compounded

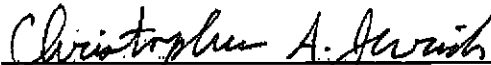

sterile preparation had passed a sterility test or a documented validated process.

11. Based on the foregoing, Respondent has violated Section 465.023(1)(c), Florida Statutes (2013), by and through a violation of Rule 64B16-27.797(1)(n)4., Florida Administrative Code.

WHEREFORE, the Petitioner respectfully requests that the Board of Pharmacy enter an order imposing one or more of the following penalties: permanent revocation or suspension of Respondent's license, restriction of practice, imposition of an administrative fine, issuance of a reprimand, placement of the Respondent on probation, corrective action, refund of fees billed or collected, remedial education and/or any other relief that the Board deems appropriate.

STATE OF FLORIDA
DEPARTMENT OF HEALTH

DEPARTMENT OF HEALTH,

PETITIONER,

v.

CASE NO. 2014-01272

AURELLIO MARTINEZ, R.Ph.,

RESPONDENT.

SETTLEMENT AGREEMENT

Pursuant to Section 120.57(4), Florida Statutes, the parties offer this Settlement Agreement to the Board of Pharmacy (Board) as disposition of the Administrative Complaint, attached as Exhibit A, in lieu of further administrative proceedings.

STIPULATED FACTS

1. At all times material to this matter, **AURELLIO MARTINEZ, R.Ph.**, was a licensed pharmacist in the state of Florida, having been issued license number PS 23198. Respondent's mailing address of record is 7900 Harbor Island Drive, Apartment 1503, North Bay Village, Florida 33141.

2. Respondent was charged by an Administrative Complaint, filed by the Department of Health (Department) and properly served upon Respondent, with violations of Chapters 456 and 465, Florida Statutes.

STIPULATED LAW

1. Respondent admits that he is subject to the provisions of Chapters 456 and 465, Florida Statutes, and the jurisdiction of the Department.

2. Respondent admits that the allegations in the Administrative Complaint, if proven true, constitute violations of law and cause the Respondent to be subject to discipline by the Board of Pharmacy.

PROPOSED DISPOSITION

1. **Appearance:** Respondent shall be present when this Settlement Agreement is presented to the Board and under oath shall answer all questions asked by the Board concerning this case and its disposition.

2. **Fine:** The Board of Pharmacy shall impose an administrative fine of **TWO THOUSAND DOLLARS (\$2,000)**. The fine shall be paid by Respondent to the **Department of Health, Compliance Management Unit, Bin C76, Post Office Box 6320, Tallahassee, Florida 32314-**

6320, within 90 days from the date the Final Order approving and incorporating this Settlement Agreement (Final Order) is filed with the Department Clerk.

3. Costs: The Board of Pharmacy shall impose the total, administrative costs associated with the investigation and prosecution of this matter not to exceed **TWO THOUSAND FOUR HUNDRED FORTY-SIX DOLLARS AND NINETY-EIGHT CENTS (\$2,446.98)**. Total costs shall be assessed when the Settlement Agreement is presented to the Board. The costs shall be paid by Respondent to the **Department of Health, Compliance Management Unit, Bin C76, Post Office Box 6320, Tallahassee, Florida 32314-6320**, within **ONE YEAR** from the date the Final Order is filed with the Department Clerk.

4. Continuing Education: The Respondent shall successfully complete a Continuing Education Course on the subject of **LAWS AND RULES OF PHARMACY** consisting of **TWELVE HOURS** of credit, which has approved by the Florida Board of Pharmacy, within one (1) year of the filing of a Final Order accepting and incorporating this Settlement Agreement. Within ten (10) days of completion of the course and/or receipt of the certificate of completion, Respondent shall mail a copy of the

continuing education certificate of completion to the Pharmacy Compliance Officer at the address listed in paragraph two (2) above.

5. **Correction of Alleged Deficiencies:** At its sole expense, but without admitting any specific deficiency or violation, Respondent shall immediately, or at least forthwith, correct and address all deficiencies and violations listed or alleged in the Administrative Complaint, to the extent necessary to comply with Florida law.

6. **Future Conduct:** Respondent shall not violate Chapter 456, 465, 499, or 893, Florida Statutes; the rules promulgated pursuant thereto; or any other state or federal law, rule, or regulation relating to the practice or to the ability to practice pharmacy.

7. **Violation of Terms:** It is expressly understood that a violation of the provisions of this Settlement Agreement as approved and incorporated into the Final Order of the Board of Pharmacy shall constitute a violation of an order of the Board for which disciplinary action may be initiated against Respondent pursuant to Chapter 465, Florida Statutes.

8. **No Force or Effect until Final Order:** It is expressly understood that this Settlement Agreement is subject to approval by the

Board and has no force or effect until the Board incorporates the terms of this Settlement Agreement into its Final Order.

9. Purpose of Agreement: This Settlement Agreement is executed by Respondent for the purpose of avoiding further administrative action with respect to this particular case. In this regard, Respondent authorizes the Board to review and examine all investigative file materials concerning Respondent prior to, or in conjunction with, consideration of the Settlement Agreement. Petitioner and Respondent agree to support this Settlement Agreement at the time it is presented to the Board and shall offer no evidence, testimony, or argument that disputes or contravenes any stipulated fact or conclusion of law. Furthermore, should this Settlement Agreement not be accepted by the Board, it is agreed that the presentation and consideration of this Settlement Agreement and other documents and matters by the Board shall not unfairly or illegally prejudice the Board or any of its members from further participation, consideration, or resolution of these proceedings.

10. Not Preclude Additional Proceedings: Respondent and the Department fully understand that this Settlement Agreement as approved and incorporated into the Final Order will not preclude additional

proceedings by the Board or Department against Respondent for acts or omissions not specifically set forth in the Administrative Complaint.

11. **Waiver of Attorney's Fees and Costs:** Respondent waives

the right to seek any attorney's fees and costs from the Department in connection with this disciplinary proceeding.

12. **Waiver of Procedural Rights:** Respondent waives all rights to further administrative procedure and to appeal and further review of this Settlement Agreement and the Final Order.

13. **Current Addresses:** Respondent shall keep current his mailing address and his practice address with the Board of Pharmacy and the Compliance Officer and shall notify the Board of Pharmacy and the Compliance Officer of any change of mailing address or practice address within 10 days of the change.

14. **Time of the Essence:** Time is of the essence in all respects concerning this agreement.

WHEREFORE, the parties request that the Board enter a Final Order approving and incorporating this Settlement Agreement in resolution of this matter.

DEPARTMENT OF HEALTH,

PETITIONER,

v.

CASE NO. 2014-01272

AURELLIO MARTINEZ, R.Ph.,

RESPONDENT.

ADMINISTRATIVE COMPLAINT

COMES NOW, Petitioner, Department of Health, by and through its undersigned counsel, and files this Administrative Complaint before the Board of Pharmacy against Respondent, Aurellio Martinez, R.Ph., and in support thereof alleges:

1. Petitioner is the state agency charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 465, Florida Statutes.

2. At all times material to this Administrative Complaint, Respondent was a licensed pharmacist within the state of Florida, having been issued license number PS 23198.

3. Respondent's address of record is 7900 Harbor Island Drive, Apartment 1503, North Bay Village, Florida 33141.

4. At all times material to this Administrative Complaint, Respondent was employed as the pharmacy department manager ("PDM") of Angel's Touch Pharmacy Discount ("ATPD"), located in Miami, Florida.

5. On or about January 21, 2014, a Department Inspector attempted to conduct a routine inspection of ATPD.

6. On or about January 21, 2014, Department Inspector entered the pharmacy and observed the prescription department door open with no pharmacist on duty.

7. Section 456.072(1)(k), Florida Statutes (2013), provides that failing to perform any statutory or legal obligation placed upon a licensee is grounds for disciplinary action.

8. Section 465.022(11)(a), Florida Statutes (2013), provides that the prescription department manager must ensure the permittee's compliance with all rules adopted under those chapters as they relate to the practice of the profession of pharmacy and the sale of prescription drugs..

9. Rule 64B16-28.109, Florida Administrative Code, provides that the prescription department of any community pharmacy permittee shall be considered closed whenever the establishment is open and a pharmacist is not present and on duty, and, at all times when the prescription department is closed, either because of the absence of a pharmacist or for any other reason, it shall be separated from the remainder of the establishment by partition or other means of enclosure, thereby preventing access to the prescription department by persons not licensed in Florida to practice the profession of pharmacy. The partition or other means of enclosure shall be securely locked or padlocked and only a pharmacist shall have the means to gain access to the prescription department

10. As set forth above, on or about January 21, 2014, a Department Inspector observed the prescription department door was open with no pharmacist on duty.

11. Based on the foregoing, Respondent has violated Section 456.072(1)(k), Florida Statutes (2013), through a violation of Section 465.022(11)(a), Florida Statutes (2013), by violating Rule 64B16-28.109, Florida Administrative Code, when Respondent failed to prevent access to the prescription department by persons not licensed in Florida to practice

WHEREFORE, the Petitioner respectfully requests that the Board of Pharmacy enter an order imposing one or more of the following penalties: permanent revocation or suspension of Respondent's license, restriction of practice, imposition of an administrative fine, issuance of a reprimand, placement of the Respondent on probation, corrective action, refund of fees billed or collected, remedial education and/or any other relief that the Board deems appropriate.

PRELIMINARY CASE REMARKS: WAIVER

Respondent was employed as an RPT at Walgreens Pharm. Respondent admitted to stealing hydrocodone from Walgreens. On or about May 7, 2013, in the Circuit Court for the Fourth Judicial Circuit, in and for Duval County, Florida, Respondent entered a plea of guilty to one (1) count of theft of any amount of a controlled substance, a second degree felony in violation of Section 812.014(2)(c)13, Florida Statutes.

Respondent failed to report the guilty plea to the Board of the Department within thirty (30) days of the date in which the Respondent entered the plea.

**STATE OF FLORIDA
DEPARTMENT OF HEALTH**

**DEPARTMENT OF HEALTH,
Petitioner,**

v.

CASE NO. 2013-06483

**SAMANTHA SHAVON GRAHAM, R.P.T.,
Respondent.**

**MOTION FOR DETERMINATION OF WAIVER AND FOR
FINAL ORDER BY HEARING NOT INVOLVING DISPUTED
ISSUES OF MATERIAL FACT**

Petitioner, Department of Health, by and through counsel, moves the Board of Pharmacy to find that Respondent has waived his/her right to elect a method of disposition of the pending Administrative Complaint, to determine that no material facts are in dispute, to conduct a hearing not involving disputed issues of material fact, and to enter a Final Order. As grounds therefore, Petitioner states:

1. An Administrative Complaint was filed against Respondent on July 31, 2013. A copy of said Administrative Complaint is attached hereto as Petitioner's Exhibit A.
2. Copies of the Administrative Complaint, Explanation of Rights form, and Election of Rights forms were sent to Respondent, via certified US mail delivery, on August 6, 2013 (7196 9008 9111 9325 8867). A signed

green receipt card was not returned. A copy of the certified mail receipt and returned envelope is attached as Petitioner's Exhibit B.

3. Thereafter, the Department requested personal service on Respondent, which was completed on October 1, 2013. The affidavit of personal service is attached as Petitioner's Exhibit C.

4. Respondent has not filed with either the Department of Health or the Board of Pharmacy, an Election of Rights form or other responsive pleading in this case within the twenty-one (21) day period to dispute the allegations contained in the Administrative Complaint. Copies of affidavits supporting the same are attached hereto as Petitioner's Exhibits E and F.

5. Rule 28-106.111(2), Florida Administrative Code, provides in pertinent part that:

. . . persons seeking a hearing on an agency decision which does or may determine their substantial interests shall file a petition for hearing with the agency within 21 days of receipt of written notice of the decision.

6. Rule 28.106.111(4), Florida Administrative Code, provides in pertinent part that:

. . . any person who received written notice of an agency decision and who fails to file a written request for a hearing within 21 days waives the right to request a hearing on such matters.

7. Respondent has been advised, by a copy of this motion sent to ~~his/her address of record, that a copy of the investigative file in this case~~ shall be furnished to the Board to establish a prima facie case regarding the violations as set forth in the Administrative Complaint.

8. The Department has determined that there are no material facts in dispute and has concluded that Respondent has waived his/her right to elect the method of resolution.

9. The Department requests that this Motion and a hearing be placed on the agenda for the next regularly scheduled meeting of the Board of Pharmacy.

WHEREFORE, Petitioner respectfully requests that the Board find that Respondent has waived his/her right to elect a method of resolution of this matter, find that there are no material facts in dispute, hold a hearing not involving material issues of disputed fact based on the information contained in the investigative file, find that Respondent violated Chapters 456 and 465, Florida Statutes, as alleged in the Administrative Complaint, impose discipline in accordance with the disciplinary guidelines, and enter a Final Order.

DEPARTMENT OF HEALTH,

PETITIONER,

v.

CASE NO. 2013-06483

SAMANTHA SHAVON GRAHAM, R.P.T.,

RESPONDENT.

ADMINISTRATIVE COMPLAINT

COMES NOW, Petitioner, Department of Health, by and through its undersigned counsel, and files this Administrative Complaint (Complaint) before the Board of Pharmacy against Respondent, Samantha Shavon Graham, R.P.T., and in support thereof alleges:

1. Petitioner is the state department charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes; Chapter 456, Florida Statutes; and Chapter 465, Florida Statutes.
2. At all times material to this Complaint, Respondent was a registered pharmacy technician ("RPT") in the state of Florida, having been issued license RPT 16712.

EXHIBIT

A

3. Respondent's address of record is 3500 University Boulevard, Apartment 2905, Jacksonville, Florida 32211.

4. Respondent's address may be Samantha Shavon Graham, Jail Number 2013010066, 500 East Adams Street, Jacksonville, Florida 32202.

5. At all times material to this complaint, Respondent was employed as a RPT at Walgreen's Pharmacy ("WP") located in Jacksonville, Florida.

6. In or about February 2013, WP began to notice shortages in the hydrocodone counts.

7. Hydrocodone is commonly prescribed to treat pain. According to Section 893.03(2), Florida Statutes (2012), hydrocodone is a Schedule II controlled substance that has a high potential for abuse and has a currently accepted but severely restricted medical use in treatment in the United States, and abuse of hydrocodone may lead to severe psychological or physical dependence.

8. On or about April 13, 2013, WP confronted the Respondent concerning the missing hydrocodone.

9. On or about April 13, 2013, Respondent provided a written statement in which she admitted to stealing hydrocodone from WP.

10. On or about April 13, 2013, the Jacksonville Sherriff's Office ("JSO") was contacted by WP concerning the theft of hydrocodone.

11. On or about April 13, 2013, In a *post-Miranda* statement, Respondent admitted to the JSO that she stole hydrocodone from WP.

12. On or about May 7, 2013, in the Circuit Court for the Fourth Judicial Circuit, in and for Duval County, Florida, in case number 16-2013-CF-003569-AXXX-MA, Respondent entered a plea of guilty to one (1) count of theft of any amount of a controlled substance, a second degree felony in violation of Section 812.014(2)(c)13, Florida Statutes.

13. Theft of any amount of a controlled substance, a second degree felony in violation of Section 812.014(2)(c)13, Florida Statutes is a crime that directly relates to the practice of pharmacy.

14. Respondent failed to report the guilty plea to the Board of the Department within thirty (30) days of the date in which the Respondent entered the plea.

COUNT I

15. Petitioner realleges and incorporates paragraphs one (1) through fourteen (14) as if fully set forth herein.

16. Section 465.016(1)(e), Florida Statutes (2012), provides that a registered pharmacy technician can be disciplined, including suspension, for violating a provision of Chapter 893, Florida Statutes.

17. Section 893.13(7)(a)9, Florida Statutes (2012) provides that a person may not acquire or obtain, or attempt to acquire or obtain, possession of a controlled substance by misrepresentation, fraud, forgery, deception, or subterfuge.

18. As set forth above, Respondent engaged in the unlawful possession of controlled substances by admittedly stealing hydrocodone, a schedule II controlled substance from WP.

19. Based on the foregoing, Respondent has violated Section 465.016(1)(3), Florida Statutes (2012), through a violation of Section 893.13(7)(a)9, Florida Statutes (2012), by acquiring or obtaining, or attempting to obtain possession of a controlled substance by misrepresentation, fraud, forgery, deception, or subterfuge.

COUNT II

20. Petitioner realleges and incorporates paragraphs one (1) through fourteen (14) as if fully set forth herein.

21. Section 456.072(1)(c), Florida Statutes (2012), provides that being convicted or found guilty of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice, a licensee's profession is grounds for disciplinary action.

22. Respondent entered a plea of guilty to one (1) count of theft of any amount of a controlled substance, a second degree felony in violation of Section 812.014(2)(c)13, Florida Statutes, a crime that relates to the practice of pharmacy, which is the licensee's profession.

23. Based on the foregoing, Respondent violated Section 456.072(1)(c), Florida Statutes (2012), by being convicted or found guilty of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice, a licensee's profession.

COUNT III

24. Petitioner realleges and incorporates paragraphs one (1) through fourteen (14) as if fully set forth herein.

25. Section 456.072(1)(x), Florida Statutes (2012), provides that failing to report to the board, or the department if there is no board, in

writing within thirty (30) days after the licensee has been convicted or found guilty of, or entered a plea of nolo contendere to, regardless of adjudication, a crime in any jurisdiction is grounds for disciplinary action.

26. Respondent failed to report the plea of guilty one (1) count of theft of any amount of a controlled substance, a second degree felony in violation of Section 812.014(2)(c)13, Florida Statutes, to the Board of Pharmacy in writing within thirty (30) days of the date Respondent entered the plea.

27. Based on the foregoing, Respondent violated Section 456.072(1)(x) Florida Statutes (2012), which provides that failing to report to the board, or the department if there is no board, in writing within thirty (30) days after the licensee has been convicted or found guilty of, or entered a plea of nolo contendere to, regardless of adjudication, a crime in any jurisdiction constitutes grounds for discipline.

WHEREFORE, the Petitioner respectfully requests that the Board of Pharmacy enter an order imposing one or more of the following penalties: permanent revocation or suspension of Respondent's license, restriction of practice, imposition of an administrative fine, issuance of a reprimand, placement of the Respondent on probation, corrective action, refund of fees billed or collected, remedial education and/or any other relief that the Board deems appropriate.

DEPARTMENT OF HEALTH,
Petitioner,

v.

CASE NO. 2013-06483

SAMANTHA SHAVON GRAHAM, R.P.T.,
Respondent.

MOTION TO ASSESS COSTS IN ACCORDANCE
WITH SECTION 456.072(4)

COMES NOW the Department of Health, by and through undersigned counsel, and moves the Board of Pharmacy for the entry of a Final Order assessing costs against the Respondent for the investigation and prosecution of this case in accordance with Section 456.072(4), Florida Statutes. As grounds therefore, the Petitioner states the following:

1. At its next regularly scheduled meeting, the Board of Pharmacy will take up for consideration the above-styled disciplinary action and will enter a Final Order therein.

2. Section 456.072(4), Florida Statutes, states as follows:

In addition to any other discipline imposed through final order, or citation, entered on or

after July 1, 2001, pursuant to this section or discipline imposed through final order, or citation, entered on or after July 1, 2001, for a violation of any practice act, the board, or the department when there is not board, shall assess costs related to the investigation and prosecution of the case. Such costs related to the investigation and prosecution include, but are not limited to, salaries and benefits of personnel, costs related to the time spent by the attorney and other personnel working on the case, and any other expenses incurred by the department for the case. The board, or the department when there is no board, shall determine the amount of costs to be assessed after its consideration of an affidavit of itemized costs and any written objections thereto. .

3. The investigation and prosecution of this case has resulted in costs in the total amount of \$5,326.23, based on the following itemized statement of costs:

| | ***** Cost to Date ***** | |
|-------------------|--------------------------|------------|
| | Hours | Costs |
| Complaint: | 1.50 | \$82.35 |
| Investigation: | 27.00 | \$1,727.43 |
| Legal: | 3.90 | \$414.78 |
| Compliance: | 0.05 | \$1.67 |
| Sub Total: | 32.45 | \$2,226.23 |
| Expenses to Date: | | \$3,100.00 |
| Prior | | \$0.00 |

| | | |
|-------------------------|--|------------|
| Amount: | | |
| Total Costs to Date: | | \$5,326.23 |

Therefore, the Petitioner seeks an assessment of costs against the Respondent in the amount of \$4,911.45 as evidenced in the attached affidavit. (Exhibit A).

4. Should the Respondent file written objections to the assessment of costs, within ten (10) days of the date of this motion, specifying the grounds for the objections and the specific elements of the costs to which the objections are made, the Petitioner requests that the Board determine the amount of costs to be assessed based upon its consideration of the affidavit attached as Exhibit A and any timely-filed written objections.

5. Petitioner requests that the Board grant this motion and assess costs in the amount of \$4,911.45 as supported by competent, substantial evidence. This assessment of costs is in addition to any other discipline imposed by the Board and is in accordance with Section 456.072(4), Florida Statutes.

WHEREFORE, the Department of Health requests that the Board of Pharmacy enter a Final Order assessing costs against the Respondent in the amount of \$4,911.45.

I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.
- 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2013-06483** (Department of Health v **SAMANTHA SHAVON GRAHAM**) are **FIVE THOUSAND THREE HUNDRED TWENTY-SIX DOLLARS AND TWENTY-THREE CENTS (\$5,326.23)**.
- 6) The costs for DOH case number(s) **2013-06483** (Department of Health v **SAMANTHA SHAVON GRAHAM**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.
- 7) The itemized costs and expenses for DOH case number(s) **2013-06483** (Department of Health v **SAMANTHA SHAVON GRAHAM**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.
- 8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators

and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

- 9) Shane Walters, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

| <p>INVESTIGATOR'S NOTE:</p> <p>It has been alleged by MCGOWAN that negative adjustments of Hydrocodone APAP 10/500 went as far back as 11/12 or 12/12. Due to the fact that the Item Movement Report , (S-1) reveals only weeks ten through twenty two in 2013, it does not encompass the full duration in which GRAHAM has been alleged to have been involved in the theft of the narcotics. On 6/13/13, this Investigator contacted KIM CORLEY, from Walgreens Headquarters and requested a copy of a "52 Week Item Movement" report. CORLEY referred this Investigator to ANNIE MENTKOWSKI, Walgreens Special Redaction Team, who indicated via email on 6/19/13, that she had confirmed with MCGOWAN that the "52 Week Item Movement" report is no longer available in their system, and therefore was unable to provide this Investigator with the data that was requested.</p> | | | | | |

SYNOPSIS CONTINUED

Exhibit S-2 is a copy of RICHARD MCGOWAN'S, (Walgreens Loss Prevention Officer) Case Inquiry Report, (Case Number 1255098) received via email from Walgreens on 6/28/13. Through review of MCGOWAN'S report this Investigator noted on 5/07/13 GRAHAM was discharged and arrested for stealing two thousand tablets of Hydrocodone 10/500mg. The case was predicated upon "DLPM" review of "LPxRx" reports and with the help of the "RXM" narrowing the suspects to GRAHAM. GRAHAM admitted to stealing Hydrocodone over the past few months. GRAHAM was taking the drugs to sell for cash. A 52-week history on the Hydrocodone 10/500mg was reviewed and provided confirmation of suspicious activity. The 52-week report showed a total negative adjustments of 2,838 Hydrocodone 10/500mg tablets. Shift counts identified GRAHAM as a suspect due to a loss of 265 Hydrocodone 10/500mg tablets during her shift on 4/09/13. Based on this information, GRAHAM was interviewed. GRAHAM provided a written statement in which she admitted to the theft of controlled substances since 11/12. GRAHAM indicated she had stolen two thousand tablets of Hydrocodone 10/500mg to sell for cash. GRAHAM indicated that she would place the pills into her smock pocket, and on one occasion, she took a full bottle of five hundred tablets by placing the full bottle into her smock. GRAHAM caused a loss to Walgreens which totaled \$1,117.55.

Exhibit S-3 is a copy of administrative paperwork received via email from Walgreens on 7/01/13. Through review of the administrative paperwork this Investigator noted:

- A copy of GRAHAM'S written statement dated 4/13/13 in which she indicated that she had spoken with loss prevention about stealing drugs to sell for cash. GRAHAM admitted to using the stolen Hydrocodone 10/500mg to pay bills. GRAHAM admitted to have taken two thousand tablets.
- A copy of an "Agreement To Repay" form in which GRAHAM voluntarily agreed to pay \$1,117.55 to Walgreens.
- A copy of a 52 Week Hydrocodone 10/500mg tablet Activity Report from the dates of 4/03/12 through 3/26/13.
- A copy of Hydrocodone 10/500mg Actual Count forms from the dates of 1/23/13 through 4/13/13.

INVESTIGATOR'S NOTE:

During the course of this supplemental investigation this Investigator has attempted to obtain a copy of GRAHAM'S corresponding work schedule during the time of the alleged diversion, along with a 52 Week Hydrocodone 10/500mg tablet Activity Report, which would include up to the date in which GRAHAM was arrested, 4/13/13. Any information received subsequent to the completion of this report will be forwarded in the form of an additional supplemental report.
