PRELIMINARY CASE REMARKS

This is a one count administrative complaint which alleges that the Respondent entered a pleas of nolo contendere to crimes which relate to the practice or the ability to practice pharmacy.

**STATE OF FLORIDA
DEPARTMENT OF HEALTH**

**DEPARTMENT OF HEALTH,
Petitioner,**

v.

CASE NO. 2011-14810

**BRIAN T. MCGAULEY, R.Ph.,
Respondent.**

**MOTION FOR DETERMINATION OF WAIVER AND FOR
FINAL ORDER BY HEARING NOT INVOLVING DISPUTED
ISSUES OF MATERIAL FACT**

Petitioner, Department of Health, by and through counsel, moves the Board of Pharmacy to find that Respondent has waived his/her right to elect a method of disposition of the pending Administrative Complaint, to determine that no material facts are in dispute, to conduct a hearing not involving disputed issues of material fact, and to enter a Final Order. As grounds therefore, Petitioner states:

1. An Administrative Complaint was filed against Respondent on January 10, 2014. A copy of said Administrative Complaint is attached hereto as Petitioner's Exhibit A.
2. Copies of the Administrative Complaint, Explanation of Rights form, and Election of Rights forms were sent to Respondent, via certified US mail delivery, on January 15, 2014 (7196 9008 9111 1386 8725). A signed

green receipt card was returned. A copy of the certified mail receipt is attached as Petitioner's Exhibit B.

3. Respondent has not filed with either the Department of Health or the Board of Pharmacy, an Election of Rights form or other responsive pleading in this case within the twenty-one (21) day period to dispute the allegations contained in the Administrative Complaint. Copies of affidavits supporting the same are attached hereto as Petitioner's Exhibits C and D.

4. Rule 28-106.111(2), Florida Administrative Code, provides in pertinent part that:

. . . persons seeking a hearing on an agency decision which does or may determine their substantial interests shall file a petition for hearing with the agency within 21 days of receipt of written notice of the decision.

5. Rule 28.106.111(4), Florida Administrative Code, provides in pertinent part that:

. . . any person who received written notice of an agency decision and who fails to file a written request for a hearing within 21 days waives the right to request a hearing on such matters.

6. Respondent has been advised, by a copy of this motion sent to his/her address of record, that a copy of the investigative file in this case

shall be furnished to the Board to establish a prima facie case regarding the violations as set forth in the Administrative Complaint.

7. The Department has determined that there are no material facts in dispute and has concluded that Respondent has waived his/her right to elect the method of resolution.

8. The Department requests that this Motion and a hearing be placed on the agenda for the next regularly scheduled meeting of the Board of Pharmacy.

WHEREFORE, Petitioner respectfully requests that the Board find that Respondent has waived his/her right to elect a method of resolution of this matter, find that there are no material facts in dispute, hold a hearing not involving material issues of disputed fact based on the information contained in the investigative file, find that Respondent violated Chapters 456 and 465, Florida Statutes, as alleged in the Administrative Complaint, impose discipline in accordance with the disciplinary guidelines, and enter a Final Order.

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

- 1) My name is Shane Walters.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.
- 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2011-14810** (Department of Health v **BRIAN T. MAGAULEY**) are **ONE THOUSAND FIVE HUNDRED FORTY-NINE DOLLARS AND TWENTY-ONE CENTS (\$1,549.21)**.
- 6) The costs for DOH case number(s) **2011-14810** (Department of Health v **BRIAN T. MAGAULEY**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.
- 7) The itemized costs and expenses for DOH case number(s) **2011-14810** (Department of Health v **BRIAN T. MAGAULEY**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.
- 8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators

and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

- 9) Shane Walters, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

- 1) My name is Shane Walters.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).

- 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2011-14825** (Department of Health v **BRIAN T. MCGAULEY**) are **FIVE HUNDRED FIFTY-THREE DOLLARS AND EIGHT CENTS (\$553.08)**.
- 6) The costs for DOH case number(s) **2011-14825** (Department of Health v **BRIAN T. MCGAULEY**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.

This is a one count AC alleging a violation of Section 456.072(1)(x), Florida Statutes (2012), failing to report entering pleas of nolo contendere to two counts of Neglect of a Child on or about April 1, 2013.

**DEPARTMENT OF HEALTH,
Petitioner,**

v.

CASE NO. 2012-17872

**JESSICA RENEE SANDLAND, R.P.T.,
Respondent.**

**MOTION FOR DETERMINATION OF WAIVER AND FOR
FINAL ORDER BY HEARING NOT INVOLVING DISPUTED
ISSUES OF MATERIAL FACT**

Petitioner, Department of Health, by and through counsel, moves the Board of Pharmacy to find that Respondent has waived his/her right to elect a method of disposition of the pending Administrative Complaint, to determine that no material facts are in dispute, to conduct a hearing not involving disputed issues of material fact, and to enter a Final Order. As grounds therefore, Petitioner states:

1. An Administrative Complaint was filed against Respondent on September 26, 2013. A copy of said Administrative Complaint is attached hereto as Petitioner's Exhibit A.
2. Copies of the Administrative Complaint, Explanation of Rights form, and Election of Rights forms were sent to Respondent, via certified US mail delivery, on September 27, 2013, (7196 9008 9111 1387 1800). A

signed green receipt card was not returned. A copy of the certified mail receipt is attached as Petitioner's Exhibit B.

3. Thereafter, the Department requested personal service on Respondent, which was completed on November 5, 2013. The affidavit of personal service is attached as Petitioner's Exhibit C.

4. Respondent has not filed with either the Department of Health or the Board of Pharmacy, an Election of Rights form or other responsive pleading in this case within the twenty-one (21) day period to dispute the allegations contained in the Administrative Complaint. Copies of affidavits supporting the same are attached hereto as Petitioner's Exhibits D and E.

5. Rule 28-106.111(2), Florida Administrative Code, provides in pertinent part that:

. . . persons seeking a hearing on an agency decision which does or may determine their substantial interests shall file a petition for hearing with the agency within 21 days of receipt of written notice of the decision.

6. Rule 28.106.111(4), Florida Administrative Code, provides in pertinent part that:

. . . any person who received written notice of an agency decision and who fails to file a written request for a hearing within 21 days waives the right to request a hearing on such matters.

7. Respondent has been advised, by a copy of this motion sent to his/her address of record, that a copy of the investigative file in this case shall be furnished to the Board to establish a prima facie case regarding the violations as set forth in the Administrative Complaint.

8. The Department has determined that there are no material facts in dispute and has concluded that Respondent has waived his/her right to elect the method of resolution.

9. The Department requests that this Motion and a hearing be placed on the agenda for the next regularly scheduled meeting of the Board of Pharmacy.

WHEREFORE, Petitioner respectfully requests that the Board find that Respondent has waived his/her right to elect a method of resolution of this matter, find that there are no material facts in dispute, hold a hearing not involving material issues of disputed fact based on the information contained in the investigative file, find that Respondent violated Chapters 456 and 465, Florida Statutes, as alleged in the Administrative Complaint, impose discipline in accordance with the disciplinary guidelines, and enter a Final Order.

DEPARTMENT OF HEALTH,
Petitioner,

v.

CASE NO. 2012-17872

JESSICA RENEE SANDLAND, R.P.T.,
Respondent.

MOTION TO ASSESS COSTS IN ACCORDANCE
WITH SECTION 456.072(4)

COMES NOW the Department of Health, by and through undersigned counsel, and moves the Board of Pharmacy for the entry of a Final Order assessing costs against the Respondent for the investigation and prosecution of this case in accordance with Section 456.072(4), Florida Statutes. As grounds therefore, the Petitioner states the following:

1. At its next regularly scheduled meeting, the Board of Pharmacy will take up for consideration the above-styled disciplinary action and will enter a Final Order therein.

2. Section 456.072(4), Florida Statutes, states as follows:

In addition to any other discipline imposed through final order, or citation, entered on or

after July 1, 2001, pursuant to this section or discipline imposed through final order, or citation, entered on or after July 1, 2001, for a violation of any practice act, the board, or the department when there is not board, shall assess costs related to the investigation and prosecution of the case. Such costs related to the investigation and prosecution include, but are not limited to, salaries and benefits of personnel, costs related to the time spent by the attorney and other personnel working on the case, and any other expenses incurred by the department for the case. The board, or the department when there is no board, shall determine the amount of costs to be assessed after its consideration of an affidavit of itemized costs and any written objections thereto. .

3. The investigation and prosecution of this case has resulted in costs in the total amount of \$1,427.57, based on the following itemized statement of costs:

| ***** Cost to Date ***** | | |
|--------------------------|-------|------------|
| | Hours | Costs |

| Prior | | \$0.00 |

| | | |
|----------------------|--|------------|
| Amount: | | |
| Total Costs to Date: | | \$1,427.57 |

Therefore, the Petitioner seeks an assessment of costs against the Respondent in the amount of \$1,184.70 as evidenced in the attached affidavit. (Exhibit A).

4. Should the Respondent file written objections to the assessment of costs, within ten (10) days of the date of this motion, specifying the grounds for the objections and the specific elements of the costs to which the objections are made, the Petitioner requests that the Board determine the amount of costs to be assessed based upon its consideration of the affidavit attached as Exhibit A and any timely-filed written objections.

5. Petitioner requests that the Board grant this motion and assess costs in the amount of \$1,184.70 as supported by competent, substantial evidence. This assessment of costs is in addition to any other discipline imposed by the Board and is in accordance with Section 456.072(4), Florida Statutes.

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

- 1) My name is Shane Walters.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.
- 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2012-17872** (Department of Health v **JESSICA RENEE SANDLAND**) are **ONE THOUSAND FOUR HUNDRED TWENTY-SEVEN DOLLARS AND FIFTY-SEVEN CENTS (\$1,427.57)**.
- 6) The costs for DOH case number(s) **2012-17872** (Department of Health v **JESSICA RENEE SANDLAND**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.
- 7) The itemized costs and expenses for DOH case number(s) **2012-17872** (Department of Health v **JESSICA RENEE SANDLAND**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.

- 8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)
- 9) Shane Walters, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

First Offense: None

Section 456.072(1)(hh), Florida Statutes (2012):

First Offense: suspension until successful completion or receipt of written confirmation of compliance with ongoing treatment and a fine of up to \$1,000, to revocation and a fine of \$10,000.

Preliminary Case Remarks: Determination of Waiver:

This case involves a three-count Administrative Complaint alleging that Respondent violated the following:

- 1) Section 465.016(1)(m), Florida Statutes (2012), by being unable to practice pharmacy with reasonable skill and safety due to his abuse of alcohol;
- 2) Section 465.016(1)(n), Florida Statutes (2012), by violating the Board's Final Order in Department of Health Case Number 2009-11174, issued on or about June 29, 2010, by failing to comply with PRN recommendations and requirements; and
- 3) Section 456.072(1)(hh), Florida Statutes (2012), through Section 465.016(1)(r), Florida Statutes (2012), by being terminated from PRN, and by failing to comply with the terms of his PRN contract.

In February 2010, Respondent was referred to PRN after his pharmacy license was suspended in 2009 as a result of his 2007 arrest for possession of diazepam with intent to sell and driving under the influence. Respondent pled nolo contendere to the aforementioned charges. Respondent executed a five-year PRN contract on March 29, 2010.

On or about May 12, 2010, the Board entered a Final Order Imposing Discipline ("Final Order") in Department of Health Case Number 09-11174, suspending Respondent's pharmacy license until he underwent a PRN-facilitated evaluation, complied with PRN's terms and conditions, and demonstrated safety to practice pharmacy. The Final Order also provided for a five-year probationary period after the period of suspension.

On or about June 29, 2010, the Board reinstated Respondent's pharmacy license, but conditioned Respondent's reinstatement upon Respondent remaining compliant with all recommendations and requirements of PRN. The Board also placed Respondent on probation for five years with termination of probation occurring only by order of the Board.

On or about February 21, 2013, Respondent's urine drug screen was positive for alcohol. PRN directed Respondent to withdraw from practice and undergo a PRN-facilitated evaluation, which occurred on March 2, 2013. The evaluator recommended that Respondent undergo individual psychotherapy and determined that he was safe to practice pharmacy as long as he remained compliant with his PRN contract.

Between March 21, 2013, and April 18, 2013, Respondent returned three drug screenings that were positive for alcohol. Even though PRN directed Respondent to voluntarily withdraw from practice due to his noncompliance, he failed to execute a Voluntary Withdrawal from Practice Agreement as directed.

On or about April 8, 2013, Respondent underwent an updated evaluation with Dr. J.A., and was diagnosed with alcohol abuse and a history of benzodiazepine dependence. Dr. J.A. opined that Respondent could only practice with reasonable skill and safety if he maintained abstinence from drugs and alcohol and complied with his PRN contract.

On or about April 30, 2013, Dr. J.A. reevaluated Respondent and recommended that Respondent engage in residential treatment substance abuse disorder and withdraw from practice until he completed treatment and demonstrated his ability to maintain compliance with PRN and abstinence from drugs and alcohol.

On or about June 12, 2013, PRN terminated Respondent's contract due his failure to withdraw from practice, and his failure to engage in residential treatment and to continue active participation in PRN.

Recommended Penalty:

- Revocation and a fine of \$10,000
- Administrative Costs not to exceed \$1,112.20

Considerations:

- Respondent has a history of previous violations of the practice act that resulted in discipline and caused the Board to formally order Respondent to enter PRN and comply with PRN's directives.
- Despite the Board's Order, Respondent was noncompliant with his PRN contract by repeatedly failing to comply with PRN's directives and by continuing to use alcohol.
- Respondent has been under an Emergency Suspension Order since July 11, 2013.
- Neither Respondent's counsel nor Respondent has responded to this matter since its initiation. The Department's numerous attempts to contact Respondent's counsel resulted in no response to the Department's investigation or Administrative Complaint.

DEPARTMENT OF HEALTH**

DEPARTMENT OF HEALTH,

PETITIONER,

v.

CASE NO. 2013-09381

NATHAN W. MOY, R.PH.

RESPONDENT.

ADMINISTRATIVE COMPLAINT

Petitioner, Department of Health, by and through undersigned counsel, files this Administrative Complaint before the Board of Pharmacy ("Board") against Respondent, Nathan W. Moy, R.Ph., and in support thereof alleges:

1. Petitioner is the state department charged with regulating the practice of pharmacy pursuant to Section 20.43, Florida Statutes (2012); Chapter 456, Florida Statutes (2012); and Chapter 465, Florida Statutes (2012).
2. At all times material to this Complaint, Respondent was licensed to practice as a pharmacist pursuant to Chapter 465, Florida Statutes (2012), having been issued license number PS 34644.

EXHIBIT

A

3. In February 2010, Respondent was referred to the Professionals Resource Network ("PRN") after his license to practice pharmacy was suspended in 2009 as a result of his 2007 arrest for possession of a controlled substance (diazepam) with intent to sell and driving under the influence ("DUI").

4. Diazepam, commonly known by the brand name Valium, is prescribed to treat anxiety. According to Section 893.03(4), Florida Statutes (2012), diazepam is a Schedule IV controlled substance that has a low potential for abuse relative to the substances in Schedule III and has a currently accepted medical use in treatment in the United States. Abuse of diazepam may lead to limited physical or psychological dependence relative to the substances in Schedule III.

5. On or about March 29, 2010, Respondent executed a five-year PRN monitoring contract.

6. On or about May 12, 2010, based on Respondent's entry of a plea of nolo contendere to criminal charges of felony possession of a controlled substance and DUI, the Board entered a Final Order Imposing Discipline ("Final Order") in Department of Health Case Number 2009-11174, against Respondent's license to practice pharmacy.

7. The Final Order suspended Respondent's pharmacy license until he petitions for reinstatement of his license and required Respondent to:
 - a. undergo an evaluation coordinated by PRN and that he comply with any terms and conditions deemed appropriate by PRN;
 - b. demonstrate that he is safe to practice as a pharmacist; and
 - c. remain on probation for a period of five years after reinstatement with terms and conditions necessary to protect the public health, safety and welfare, as determined by the Board.
8. On or about June 29, 2010, the Board entered an Order ("Order") granting Respondent's request for reinstatement of his license.
9. Pursuant to the Order, the Board's reinstatement of Respondent's license was contingent upon Respondent remaining compliant with all recommendations and requirements of PRN.
10. Pursuant to the Final Order, the Board placed Respondent on probation for a period of five years with termination of probation occurring only by order of the Board.
11. On or about February 21, 2013, Respondent submitted to a urine drug screen, which returned positive for alcohol.

12. As a result of the positive drug screen, PRN required Respondent to withdraw from practice and referred him for a PRN-facilitated evaluation.

13. On or about March 2, 2013, Dr. T.T., a PRN-approved physician, evaluated Respondent.

14. Dr. T.T. recommended that Respondent undergo individual psychotherapy and found that Respondent was safe to practice as a pharmacist if he remained compliant with his PRN contract and underwent individual psychotherapy.

15. On or about March 19, 2013, Respondent submitted to a urine drug screen, which returned positive for alcohol and caused PRN to consider the positive drug screen result to be Respondent's first incident of material noncompliance.

16. PRN again required Respondent to withdraw from practice and referred him for another evaluation.

17. On or about March 21, 2013, Respondent submitted to a urine drug screen, which returned positive for alcohol and caused PRN to consider the positive drug screen result to be Respondent's second incident of material noncompliance.

18. On or about April 18, 2013, Respondent submitted to a blood drug screen, which returned positive for alcohol and caused PRN to consider the positive drug screen result to be Respondent's third incident of material noncompliance.

19. PRN requested that Respondent voluntarily withdraw from practice, but Respondent failed to execute a Voluntary Withdrawal from Practice Agreement ("Voluntary Withdrawal").

20. On or about April 8, 2013, Dr. J.A., a PRN-approved physician, evaluated Respondent and determined that he required close scrutiny and continued PRN monitoring.

21. Dr. J.A. diagnosed Respondent with alcohol abuse and a history of benzodiazepine dependence.

22. Benzodiazepines are a class of drugs that cause sedation and can be habit forming. Typically, benzodiazepines are prescribed to treat anxiety or insomnia. Most benzodiazepines are Schedule IV controlled substances according to Section 893.03, Florida Statutes (2012).

23. In his evaluation, Dr. J.A. opined that Respondent could only practice with reasonable skill and safety if he maintained abstinence from drugs and alcohol and maintained compliance with his PRN contract.

24. On or about April 30, 2013, Dr. J.A. reevaluated Respondent and determined that Respondent was having difficulty maintaining PRN compliance and abstinence from drugs and alcohol based on Respondent's positive urine and blood drug screens in March 2013, and April 2013.

25. Dr. J.A. recommended that Respondent undergo treatment for his substance abuse issues at a residential treatment facility and that Respondent remain withdrawn from practice until Respondent completed treatment and demonstrated his ability to maintain compliance with PRN and abstinence from drugs and alcohol.

26. In his evaluation, Dr. J.A. stated that Respondent required reevaluation after completion of treatment before returning to practice.

27. On or about June 12, 2013, PRN terminated Respondent's monitoring contract as a result of Respondent's failure to comply with PRN's directives, in one or more of the following manners:

- a. by not executing the Voluntary Withdrawal from practice;
- b. by not entering residential treatment as recommended;
- and
- c. by not participating in PRN.

COUNT III

34. Petitioner realleges and incorporates paragraphs 1 through 27 as if fully set forth herein.

36. Section 456.072(1)(hh), Florida Statutes (2012), subjects a licensee to discipline, including suspension, for being terminated from a treatment program for impaired practitioners, for failure to comply, without good cause, with the terms of the monitoring or treatment contract entered into by the licensee, or for not successfully completing any drug treatment or alcohol treatment program.

37. Respondent violated Section 456.072(1)(hh), Florida Statutes (2012), by being terminated from PRN, a treatment program for impaired

practitioners, and by failing to comply with the terms of his PRN monitoring contract.

38. Respondent violated Section 465.016(1)(r), Florida Statutes (2012), by violating Section 456.072(1)(hh), Florida Statutes (2012).

WHEREFORE, Petitioner respectfully requests that the Board of Pharmacy enter an order imposing one or more of the following penalties: permanent revocation or suspension of Respondent's license, restriction of practice, imposition of an administrative fine, issuance of a reprimand, placement of Respondent on probation, corrective action, refund of fees billed or collected, remedial education and/or any other relief that the Board deems appropriate.

My Commission Expires:

**STATE OF FLORIDA
DEPARTMENT OF HEALTH**

DEPARTMENT OF HEALTH,

Petitioner,

v.

CASE NO. 2013-09381

NATHAN MOY, RPh,

Respondent.

_____ /

**MOTION TO ASSESS COSTS
IN ACCORDANCE WITH SECTION 456.072(4)**

The Department of Health, by and through counsel, moves the Board of Pharmacy for entry of a Final Order assessing costs against Respondent for the investigation and prosecution of this case in accordance with Section 456.072(4), Florida Statutes (2013). As grounds therefore, the Petitioner states the following:

1. At its next regularly scheduled meeting, the Board of Pharmacy will take up for consideration the above-styled disciplinary action and will enter a Final Order.

2. Section 456.072(4), Florida Statutes (2013), states, in pertinent part, as follows:

In addition to any other discipline imposed through final order, or citation, entered on or after July 1, 2001, under this section or discipline imposed through final order, or

citation, entered on or after July 1, 2001, for a violation of any practice act, the board, or the department when there is no board, shall assess costs related to the investigation and prosecution of the case. The costs related to the investigation and prosecution include, but are not limited to, salaries and benefits of personnel, costs related to the time spent by the attorney and other personnel working on the case, and any other expenses incurred by the department for the case. The board, or the department when there is no board, shall determine the amount of costs to be assessed after its consideration of an affidavit of itemized costs and any written objections thereto....

3. As evidenced in the attached affidavit (Exhibit A), the investigation and prosecution of this case has resulted in costs in the total amount of \$2,973.34, based on the following itemized statement of costs:

| | |
|-----------------------------|-------------------|
| Complaint: | \$49.41 |
| Investigation: | \$1,061.12 |
| Legal: | \$1,861.14 |
| Compliance: | \$1.67 |
| Sub Total: | \$2,973.34 |
| Expenses To Date: | \$0.00 |
| Prior Amount: | \$0.00 |
| Total Costs To Date: | \$2,973.34 |

4. The attached affidavit reflects the Department's costs for attorney time in this case as \$1,861.14 (Exhibit A). The costs of obtaining an affidavit from any outside attorney will be greater than \$1,861.14.

Therefore, the Department is not seeking costs for attorney time in this case.

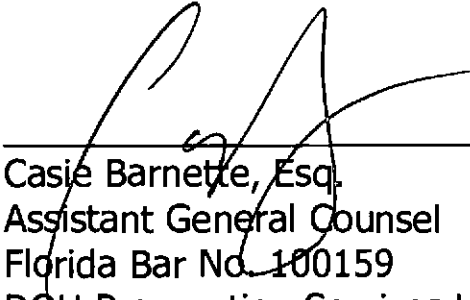

5. Should Respondent file written objections to the assessment of costs, within ten (10) days of the date of this motion, specifying the grounds for the objections and the specific elements of the costs to which objections are made, Petitioner requests that the Board determine the amount of costs to be assessed based upon its consideration of the affidavit attached as Exhibit A and any timely-filed written objections.

6. Petitioner requests that the Board grant this motion and assess costs in the amount of \$1,112.20 as supported by competent, substantial evidence. This assessment of costs is in addition to any other discipline imposed by the Board and is in accordance with Section 456.072(4), Florida Statutes (2013).

WHEREFORE, the Department of Health requests that the Board of Nursing enter a Final Order assessing costs against Respondent in the amount of \$1,112.20.

DATED this 10th day of June, 2014.

Respectfully submitted,

In Re: Emergency Suspension of the License of
Nathan W. Moy, R.Ph.
License No.: PS 34644
Case Number: 2013-09381

ORDER OF EMERGENCY SUSPENSION OF LICENSE

John H. Armstrong, MD, FACS, State Surgeon General and Secretary of Health, ORDERS the emergency suspension of the license of Nathan W. Moy, R.Ph. ("Mr. Moy"), to practice as a pharmacist in the State of Florida. Mr. Moy holds license number PS 34644. His address of record is 2823 Southwest 125th Avenue, Miramar, Florida 33027. The following Findings of Fact and Conclusions of Law support the emergency suspension of Mr. Moy's license to practice as a pharmacist in the State of Florida.

FINDINGS OF FACT

1. The Department of Health ("Department") is the state agency charged with regulating pharmacists pursuant to Chapters 20, 456 and 465, Florida Statutes (2012). Section 456.073(8), Florida Statutes (2012), authorizes the State Surgeon General to summarily suspend Mr. Moy's license to practice as a pharmacist in the State of Florida, in accordance with Section 120.60(6), Florida Statutes (2012).

2. At all times material to this order, Mr. Moy was a licensed pharmacist in the State of Florida, pursuant to Chapter 465, Florida Statutes (2012).

3. In February 2010, Mr. Moy was referred to the Professionals Resource Network ("PRN") after his license to practice pharmacy was suspended in 2009 as a result of his 2007 arrest for possession of a controlled substance (diazepam) with intent to sell and driving under the influence ("DUI").

4. Diazepam, commonly known by the brand name Valium, is prescribed to treat anxiety. According to Section 893.03(4), Florida Statutes (2012), diazepam is a Schedule IV controlled substance that has a low potential for abuse relative to the substances in Schedule III and has a currently accepted medical use in treatment in the United States. Abuse of diazepam may lead to limited physical or psychological dependence relative to the substances in Schedule III.

5. On or about March 29, 2010, Mr. Moy executed a five-year PRN monitoring contract.

6. On or about May 12, 2010, based on Mr. Moy's entry of a plea of nolo contendere to criminal charges of felony possession of a controlled

substance and DUI, the Board of Pharmacy entered a Final Order Imposing Discipline ("Final Order") in Department of Health Case Number 2009-11174, against Mr. Moy's license to practice pharmacy. The Final Order suspended Mr. Moy's pharmacy license until he petitions for reinstatement of his license and required Mr. Moy to:

- a. undergo an evaluation coordinated by the Professional Resource Network ("PRN") and that he comply with any terms and conditions deemed appropriate by PRN;
- b. demonstrate that he is safe to practice as a pharmacist; and
- c. remain on probation for a period of five years after reinstatement with terms and conditions necessary to protect the public health, safety and welfare, as determined by the Board of Pharmacy.

7. On or about June 29, 2010, the Board of Pharmacy entered an Order granting Mr. Moy's request for reinstatement of his license to practice pharmacy. The Order was contingent upon Mr. Moy remaining compliant with all recommendations and requirements of PRN. Pursuant to its 2010 Final Order, the Board of Pharmacy placed Mr. Moy on probation for a period of five years with termination of the probation occurring only by order of the Board of Pharmacy.

8. On or about February 21, 2013, Mr. Moy submitted to a urine drug screen, which returned positive for alcohol. PRN required Mr. Moy to withdraw from practice and referred him for a PRN-facilitated evaluation.

9. On or about March 2, 2013, Dr. T.T., a PRN-approved physician, evaluated Mr. Moy. Mr. Moy denied ingesting any alcohol while under PRN contract. Dr. T.T. recommended that Mr. Moy undergo individual psychotherapy and found that Mr. Moy was safe to practice as a pharmacist if he remained compliant with his PRN contract and underwent individual psychotherapy.

10. On or about March 19, 2013, Mr. Moy submitted to a urine drug screen, which returned positive for alcohol. PRN again required Mr. Moy to withdraw from practice and referred him for another evaluation. PRN considered this positive drug screen result to be Mr. Moy's first incident of material noncompliance.

11. On or about March 21, 2013, Mr. Moy submitted to a urine drug screen, which returned positive for alcohol. PRN considered this positive drug screen result to be Mr. Moy's second incident of material noncompliance.

12. On or about April 18, 2013, Mr. Moy submitted to a blood drug screen, which returned positive for alcohol. PRN considered this positive drug

screen result to be Mr. Moy's third incident of material noncompliance and requested that Mr. Moy voluntarily withdraw from practice. Mr. Moy failed to execute a Voluntary Withdrawal from Practice Agreement ("Voluntary Withdrawal").

13. On or about April 8, 2013, Dr. J.A., a PRN-approved physician, evaluated Mr. Moy and determined that he required close scrutiny and continued PRN monitoring. Dr. J.A. diagnosed Mr. Moy with alcohol abuse and a history of benzodiazepine dependence. In his evaluation, Dr. J.A. opined that Mr. Moy could only practice with reasonable skill and safety if he maintained abstinence from drugs and alcohol and maintained compliance with his PRN contract.

14. Benzodiazepines are a class of drugs that cause sedation and can be habit forming. Typically, benzodiazepines are prescribed to treat anxiety or insomnia. Most benzodiazepines are Schedule IV controlled substances according to Section 893.03, Florida Statutes (2012).

15. On or about April 30, 2013, Dr. J.A. reevaluated Mr. Moy and determined that Mr. Moy was having difficulty maintaining PRN compliance and abstinence from drugs and alcohol. Although Mr. Moy denied ingesting any alcohol, Dr. J.A. opined that Mr. Moy's positive urine and blood drug

screens in March 2013, and April 2013, served as "evidence which must be presumed to show exposure to substances of abuse". Dr. J.A. recommended that Mr. Moy undergo treatment for his substance abuse issues at a residential treatment facility. Further, Dr. J.A. recommended that Mr. Moy remain withdrawn from practice until Mr. Moy completed treatment and demonstrated his ability to maintain compliance with PRN and abstinence from drugs and alcohol. Dr. J.A. stated that Mr. Moy required reevaluation after completion of treatment before returning to practice.

16. On or about June 12, 2013, PRN opined that Dr. Moy's impairment constituted an immediate serious danger to the public's health, safety and welfare. PRN terminated Dr. Moy's monitoring contract as a result of Dr. Moy's failure to comply with PRN's directives, in one or more of the following manners:

- a. by not executing the Voluntary Withdrawal from practice;
- b. by not entering residential treatment as recommended; and
- c. by not participating in PRN.

17. In the course of their practice, pharmacists have access to medications, including controlled substances, which have a high likelihood for abuse and harm. Pharmacists must dispense such drugs in a manner that is

safe and effective for the patient. Even medications that generally are not considered dangerous may kill or severely harm a patient if that patient is allergic to an ingredient or is taking another medication that may interact adversely with the prescribed medication.

18. Because a pharmacist who is impaired by the use of alcohol or illegal substances may not be capable of filling prescriptions for others in a manner that is correct and safe, Mr. Moy's continued practice as a pharmacist presents an immediate serious danger to the health, welfare, and safety of the public. Mr. Moy continually refuses to comply with the recommendations of the PRN and violated an order of the Board of Pharmacy to comply with all recommendations and requirements of PRN. Because Mr. Moy's use of alcohol adversely affects his judgment and ability to practice as a pharmacist in any manner, and he has refused to comply with the recommendations of PRN, it is impossible to craft a restriction that would adequately protect the public from the danger posed by Mr. Moy's practice of pharmacy. Therefore, complete suspension of his license is necessary.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the State Surgeon General concludes as follows:

1. The State Surgeon General has jurisdiction over this matter pursuant to Sections 20.43 and 456.073(8), Florida Statutes (2012), and Chapter 465, Florida Statutes (2012), as set forth above.

2. Section 465.016(1)(m), Florida Statutes (2012), allows the Board of Pharmacy to impose discipline against a licensee, including suspension, for being unable to practice pharmacy with reasonable skill and safety by reason of illness, use of drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition.

Petitioner, Department of Health, by and through counsel, moves the Board of Pharmacy to find that Respondent has waived his/her right to elect a method of disposition of the pending Administrative Complaint, to determine that no material facts are in dispute, to conduct a hearing not involving disputed issues of material fact, and to enter a Final Order. As grounds therefore, Petitioner states:

1. An Administrative Complaint was filed against Respondent on date. A copy of said Administrative Complaint is attached hereto as Petitioner's Exhibit A.
2. Copies of the Administrative Complaint, Explanation of Rights form, and Election of Rights forms were sent to Respondent, via certified US mail delivery, on June 23, 2013, (7196 9008 9111 9326 2796). A signed

Copies of affidavits supporting the same are attached hereto as Petitioner's Exhibits D and E.

5. Rule 28-106.111(2), Florida Administrative Code, provides in pertinent part that:

6. Rule 28.106.111(4), Florida Administrative Code, provides in pertinent part that:

. . . any person who received written notice of an agency decision and who fails to file a written request for a hearing within 21 days waives the right to request a hearing on such matters.

7. Respondent has been advised, by a copy of this motion sent to his/her address of record, that a copy of the investigative file in this case shall be furnished to the Board to establish a prima facie case regarding the violations as set forth in the Administrative Complaint.

8. The Department has determined that there are no material facts in dispute and has concluded that Respondent has waived his/her right to elect the method of resolution.

9. The Department requests that this Motion and a hearing be placed on the agenda for the next regularly scheduled meeting of the Board of Pharmacy.

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHONDRA A. WATSON** who was sworn and states as follows:

- 1) My name is Shondra A. Watson.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am a Government Analyst in the Consumer Services and Compliance Management Unit where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.
- 4) As a Government Analyst in the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number **2012-07164** (Department of Health v **KELLEY MECHELLE FLORIDA, R.P.T.**) are **ONE THOUSAND, NINE HUNDRED, TWO DOLLARS, AND EIGHTY-FOUR CENTS, (\$1,902.84)**.
- 6) The costs for DOH case number **2012-07164** (Department of Health v. **KELLEY MECHELLE FLORIDA, R.P.T.**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.
- 7) The itemized costs and expenses for DOH case number **2012-07164** (Department of Health v. **KELLEY MECHELLE FLORIDA, R.P.T.**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.
- 8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to

keep track of their time in six-minute increments (e.g., investigators and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

- 9) Shondra A. Watson, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

Preliminary Case Remarks: Determination of Waiver

This case involves a three-count Administrative Complaint alleging that Respondent violated the following:

- Section 465.016(1)(e), Florida Statutes, by violating Section 893.13(6)(a), Florida Statutes by being in actual or constructive possession of phentermine that was not lawfully obtained from a practitioner or pursuant to a valid prescription or order of a practitioner.
- Section 465.016(1)(i), Florida Statutes, by distributing phentermine other than in the course of the professional practice of pharmacy
- Section 465.016(1)(e), Florida Statutes by violating Section 893.13(7)(a)(9) by acquiring possession of phentermine by misrepresentation, fraud, forgery, deception or subterfuge.

On or about November 2013, Respondent's place of employment conducted an audit of the pharmacy department which revealed a discrepancy in the count of phentermine tablets.

On or about December 23, 2013, video surveillance captured Respondent taking possession of one-and-a-half bottles of phentermine, a total of 146 tablets.

On or about December 24, 2013, Miami-Dade County Police presented to Respondent's employment to investigate the theft of phentermine tablets. Respondent admitted to the presenting officer that he took the tablets, left the pharmacy and gave the tablets out to individuals. Respondent admitted that he had been taking the phentermine tablets for approximately one year.

Respondent was charged with a felony count of third degree grand theft. The charge is currently pending resolution.

Petitioner, Department of Health, by and through undersigned counsel moves the Board of Pharmacy to find that Respondent has waived his right to elect a method of resolution of the pending Administrative Complaint, determine that no material facts are in dispute, conduct a hearing not involving disputed issues of material fact, and enter a Final Order thereafter.

As grounds therefore, Petitioner states:

1. An Administrative Complaint was filed against Respondent on March 13, 2014. A copy of said Administrative Complaint is attached hereto as Petitioner's Exhibit A.

2. A copy of the Administrative Complaint, Explanation of Rights, and Election of Rights forms were sent to Respondent's address of record, via certified US mail delivery, on March 21, 2014, article number 7005 2570 0001 2576 7675.

3. The attempt of service via certified US mail was unsuccessful. A copy of the envelope marked "Not Known" by the United States Postal Service is attached hereto as Petitioner's Exhibit B.

4. On April 9, 2014, a request was submitted to the Department of Health Investigator to have the Administrative Complaint, Explanation of Rights, and Election of Rights forms hand served to the Respondent.

5. The attempt of service via hand service by the Department of Health Investigator was successful. A copy of the Affidavit of Service is attached hereto as Petitioner's Exhibit C.

6. Pursuant to Rule 28-106.111, Florida Administrative Code, a person who receives written notice of agency decision and fails to file a written request for hearing within 21 days waives the right to request a hearing.

7. Respondent has not filed with the Department of Health nor the Board of Pharmacy an Election of Rights form or other responsive pleading in

this case disputing the allegations of fact contained in the Administrative Complaint within the twenty-one (21) day period required by Rule 28-106.111, Florida Administrative Code. Copies of affidavits supporting same are attached hereto as Petitioner's Exhibits D and E.

8. Respondent is advised by this Motion that a copy of the investigative file in this case shall be furnished to the Board to establish a prima facie case of the violations set forth in the Administrative Complaint.

9. Petitioner has determined that there are no material facts in dispute and Respondent has waived his right to elect a method of resolution.

10. Petitioner requests that this Motion and hearing be placed on the August 2014 meeting of the Board of Pharmacy, to be held on **August 12-13, 2014** in Deerfield Beach, FL.

WHEREFORE, Petitioner respectfully requests the Board find that Respondent has waived his right to elect a method of resolution of this matter, find that there are no material facts in dispute, hold a hearing not involving material issues of disputed fact based on the information contained in the investigative file, find that Respondent violated Chapters 456 and 459, Florida Statutes, as alleged in the Administrative Complaint, and enter a Final Order.

**MOTION TO ASSESS COSTS
IN ACCORDANCE WITH SECTION 456.072(4)**

The Department of Health, by and through counsel, moves the Board of Pharmacy for entry of a Final Order assessing costs against Respondent for the investigation and prosecution of this case in accordance with Section 456.072(4), Florida Statutes (2013). As grounds therefore, the Petitioner states the following:

1. At its next regularly scheduled meeting, the Board of Pharmacy will take up for consideration the above-styled disciplinary action and will enter a Final Order.
2. Section 456.072(4), Florida Statutes (2013), states, in pertinent part, as follows:

In addition to any other discipline imposed through final order, or citation, entered on or after July 1, 2001, under

this section or discipline imposed through final order, or citation, entered on or after July 1, 2001, for a violation of any practice act, the board, or the department when there is no board, shall assess costs related to the investigation and prosecution of the case. The costs related to the investigation and prosecution include, but are not limited to, salaries and benefits of personnel, costs related to the time spent by the attorney and other personnel working on the case, and any other expenses incurred by the department for the case. The board, or the department when there is no board, shall determine the amount of costs to be assessed after its consideration of an affidavit of itemized costs and any written objections thereto....

3. As evidenced in the attached affidavit (Exhibit A), the investigation and prosecution of this case has resulted in costs in the total amount of \$1,124.77, based on the following itemized statement of costs:

| | |
|-----------------------------|-------------------|
| Complaint: | \$21.86 |
| Investigation: | \$363.85 |
| Legal: | \$723.88 |
| Compliance: | \$5.01 |
| Sub Total: | \$1,114.60 |
| Expenses To Date: | \$10.17 |
| Prior Amount: | \$0.00 |
| Total Costs To Date: | \$1,124.77 |

4. The attached affidavit reflects the Department's costs for attorney time in this case as \$723.88 (Exhibit A). The costs of obtaining an

affidavit from any outside attorney will be greater than \$723.88. Therefore, the Department is not seeking costs for attorney time in this case.

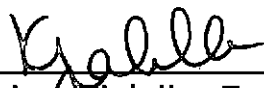

5. Should Respondent file written objections to the assessment of costs, within ten (10) days of the date of this motion, specifying the grounds for the objections and the specific elements of the costs to which objections are made, Petitioner requests that the Board determine the amount of costs to be assessed based upon its consideration of the affidavit attached as Exhibit A and any timely-filed written objections.

6. Petitioner requests that the Board grant this motion and assess costs in the amount of \$400.89 as supported by competent, substantial evidence. This assessment of costs is in addition to any other discipline imposed by the Board and is in accordance with Section 456.072(4), Florida Statutes (2013).

WHEREFORE, the Department of Health requests that the Board of Pharmacy enter a Final Order assessing costs against Respondent in the amount of \$400.89.

In Re: Emergency Suspension of the Registration of

Registration Numbers: RPT 4704; PSI 21966
Case Numbers: 2014-00228; 2014-00231

ORDER OF EMERGENCY SUSPENSION OF REGISTRATIONS

John H. Armstrong, MD, FACS, State Surgeon General and Secretary of Health, ORDERS the emergency suspension of the registrations of Evelio Rodriguez, R.P.T., R.P.I. ("Mr. Rodriguez"), also known as Castedo Evelio Rodriguez, to practice as a registered pharmacy technician and registered pharmacy intern in the State of Florida. Mr. Rodriguez holds registration numbers RPT 4704 and PSI 21966. His address of record is 3715 NW 7th Street, Miami, Florida 33126. Mr. Rodriguez's alternate mailing address is 5100 SW 2nd Street, Miami, Florida 33144. The following Findings of Fact and Conclusions of Law support the emergency suspension of Mr. Rodriguez's registrations to practice as a pharmacy technician and a pharmacy intern in the State of Florida.

FINDINGS OF FACT

1. The Department of Health ("Department") is the state agency charged with regulating the practice of pharmacy, pharmacy technicians

In Re: Emergency Suspension of the Registration of
Evelio Rodriguez, R.P.T., A/K/A Castedo Evelio Rodriguez, R.P.I.

Case Numbers 2014-00228; 2014-00231

and pharmacy interns pursuant to Chapters 20, 456, and 465, Florida Statutes (2012-2013). Section 456.073(8), Florida Statutes (2012-2013), authorizes the State Surgeon General to summarily suspend Mr. Rodriguez's registrations to practice as a registered pharmacy technician and registered pharmacy intern in the State of Florida in accordance with Section 120.60(6), Florida Statutes (2012-2013).

2. At all times material to this order, Mr. Rodriguez was a registered pharmacy technician and registered pharmacy intern in the State of Florida, pursuant to Chapter 465, Florida Statutes, and worked at Walgreens ("WG") located at 3715 NW 7th Street, Miami, Florida 33126.

3. On or around November 2013, Walgreen's headquarters in Deerfield, Illinois, conducted an audit of the regional Walgreens stores' pharmacy departments. This audit reflected a discrepancy in the count of phentermine tablets at WG for the past year. Specifically, the audit revealed that more phentermine tablets were dispensed from WG than were ordered.

4. Phentermine is a stimulant commonly prescribed to assist with weight loss. According to Section 893.03(4), Florida Statutes (2012-2013), phentermine is a Schedule IV controlled substance that has a low potential

for abuse relative to the substances in Schedule III and has a currently accepted medical use in treatment in the United States, and abuse of phentermine may lead to limited physical or psychological dependence relative to the substances in Schedule III.

5. Mr. C.G., Risk Manager at Walgreens Regional Offices, placed a new pharmacist at WG to inform Mr. C.G. of the day-to-day activities at WG. Additionally, surveillance video cameras were installed within the pharmacy area at WG.

6. On or about December 23, 2013, video surveillance captured Mr. Rodriguez taking possession of the contents of one-and-a-half bottles of phentermine, a total of 146 tablets.

7. On or about December 24, 2013, Miami-Dade County Police dispatched Officer J.P. to WG in reference to a theft of prescription tablets. Mr. Rodriguez admitted to Officer J.P. that he "did a wrong thing" and he was "ashamed of it."

8. Mr. Rodriguez informed Officer J.P. that he took the tablets from inside the prescription bottles on the pharmacy counter, a total of one-and-a-half bottles of Phentermine HCl 13.7mg, which contained a total of 146 tablets. Mr. Rodriguez further admitted that he placed the tablets inside a

plastic bag and put the bag inside his top scrub pocket in between the hours of 08:00 and 15:00 on December 23, 2013. Mr. Rodriguez stated that he left the store with the tablets, drove to meet some friends and gave them the tablets.

9. Mr. Rodriguez informed Officer J.P. that he "had been taking the... prescription tablets for approximately one year."

10. Mr. Rodriguez was arrested and charged with felony count of third degree grand theft in Miami-Dade County Case Number 13-2013-CF-0300830001XX. As of the date of this Order, this charge is pending resolution.

11. In the course of their work, registered pharmacy technicians and registered pharmacy interns have access to medications, including controlled substances, which have a high likelihood for abuse and harm. Registered pharmacy technicians and registered pharmacy interns assist pharmacists in data entry, and the counting, weighing, measuring, pouring and mixing of prescription medication or stock legend drugs and controlled substances, among various other tasks. Due to the gravity of these responsibilities, registered pharmacy technicians and registered pharmacy interns must possess good judgment and moral character in order to safely

and effectively perform their tasks.

12. Mr. Rodriguez's willingness to use his position as a registered pharmacy technician and registered pharmacy intern to divert 146 tablets of phentermine to distribute to friends, along with his admission of diverting prescription medications for the last year, demonstrates that Mr. Rodriguez lacks the good judgment and moral character required to safely and appropriately perform his tasks as a registered pharmacy technician and registered pharmacy intern.

13. Mr. Rodriguez's lack of good judgment and moral character, his theft of phentermine from his employer, his distribution of the controlled substances to people who did not have valid prescriptions, his admission to diverting these controlled substances for approximately one year, and his disregard for the laws and rules governing the practice of pharmacy in the State of Florida represent a significant likelihood that Mr. Rodriguez will continue his illegal behavior. This probability constitutes an immediate serious danger to the health, safety, and welfare of the citizens of the State of Florida.

14. Restricting Mr. Rodriguez's registrations would not adequately protect the public because the very nature of practicing as a registered

pharmacy technician and registered pharmacy intern puts Mr. Rodriguez in contact with legend drugs and controlled substances, which creates the risk for further theft and distribution of the controlled substances. The laws governing the practice of pharmacy technicians and pharmacy interns exist to prevent the theft of medications, and Mr. Rodriguez has refused to abide by these laws. As a result, nothing short of the immediate suspension of Mr. Rodriguez's registrations to practice as a registered pharmacy technician and registered pharmacy intern will protect the public from this danger.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the State Surgeon General concludes as follows:

1. The State Surgeon General of the Department of Health has jurisdiction over this matter pursuant to Sections 20.43 and 456.073(8), Florida Statutes (2012-2013), and Chapter 465, Florida Statutes (2012-2013), as set forth above.
2. Section 465.016(1)(e), Florida Statutes (2012-2013), subjects registered pharmacy technicians and registered pharmacy interns to discipline, including suspension, for violating Chapter 893, Florida

Statutes (2012-2013).

3. Section 893.13(6)(a), Florida Statutes (2012-2013), states in pertinent part:

(6)(a) It is unlawful for any person to be in actual or constructive possession of a controlled substance unless such controlled substance was lawfully obtained from a practitioner or pursuant to a valid prescription or order of a practitioner while acting in the course of his or her professional practice or to be in actual or constructive possession of a controlled substance except as authorized by this chapter....

4. Sections 893.13(7)(a)(1) and 893.13(7)(a)(9), Florida Statutes (2012-2013), state in pertinent part:

(7)(a) A person may not:

1. Distribute or dispense a controlled substance in violation of this chapter....

[or]

9. Acquire or obtain, or attempt to acquire or obtain, possession of a controlled substance by misrepresentation, fraud, forgery, deception or subterfuge.

5. Ms. Rodriguez violated Section 465.016(1)(e), Florida Statutes (2012-2013), in one or more of the following ways:

- a. By possessing phentermine in violation of Chapter 893.13(6)(a), Florida Statutes (2012-2013);
- b. By distributing or dispensing phentermine, in violation of

Chapter 893.13(7)(a)(1), Florida Statutes (2012-2013); and/or

c. By acquiring possession of phentermine by misrepresentation, fraud, forgery, deception or subterfuge in violation of Chapter 893.13(7)(a)(9), Florida Statutes (2012-2013).

6. Section 120.60(6), Florida Statutes (2013), authorizes the Department to suspend a registered pharmacy technician and pharmacy intern's registration upon a finding that the registered pharmacy technician and registered pharmacy intern presents an immediate, serious danger to the public health, safety or welfare.

7. Mr. Rodríguez's continued ability to practice as a registered pharmacy technician and registered pharmacy intern constitutes an immediate serious danger to the health, safety, or welfare of the public and this summary procedure is fair under the circumstances to adequately protect the public.

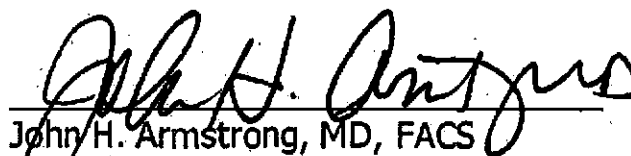

In accordance with Section 120.60(6), Florida Statutes (2012-2013), it is **ORDERED THAT:**

1. The registrations of Evelio Rodríguez, R.P.T., R.P.I A/K/A Castedo Evelio Rodríguez, registration numbers RPT 4704 and PSI 21966, are immediately suspended.

**STATE OF FLORIDA
DEPARTMENT OF HEALTH**

DEPARTMENT OF HEALTH,

Petitioner,

v.

CASE NO. 2014-00228

**EVELIO RODRIGUEZ, R.PT.
AKA CASTEDO EVELIO RODRIGUEZ, R.PT.,**

Respondent.

**MOTION TO ASSESS COSTS
IN ACCORDANCE WITH SECTION 456.072(4)**

The Department of Health, by and through counsel, moves the Board of Pharmacy for entry of a Final Order assessing costs against Respondent for the investigation and prosecution of this case in accordance with Section 456.072(4), Florida Statutes (2013). As grounds therefore, the Petitioner states the following:

1. At its next regularly scheduled meeting, the Board of Pharmacy will take up for consideration the above-styled disciplinary action and will enter a Final Order.
2. Section 456.072(4), Florida Statutes (2013), states, in pertinent part, as follows:

In addition to any other discipline imposed through final order, or citation, entered on or after July 1, 2001, under

this section or discipline imposed through final order, or citation, entered on or after July 1, 2001, for a violation of any practice act, the board, or the department when there is no board, shall assess costs related to the investigation and prosecution of the case. The costs related to the investigation and prosecution include, but are not limited to, salaries and benefits of personnel, costs related to the time spent by the attorney and other personnel working on the case, and any other expenses incurred by the department for the case. The board, or the department when there is no board, shall determine the amount of costs to be assessed after its consideration of an affidavit of itemized costs and any written objections thereto....

3. As evidenced in the attached affidavit (Exhibit A), the investigation and prosecution of this case has resulted in costs in the total amount of \$2,071.78, based on the following itemized statement of costs:

| | |
|-----------------------------|-------------------|
| Complaint: | \$21.86 |
| Investigation: | \$1,168.13 |
| Legal: | \$866.62 |
| Compliance: | \$5.01 |
| Sub Total: | \$2,061.62 |
| Expenses To Date: | \$10.16 |
| Prior Amount: | \$0.00 |
| Total Costs To Date: | \$2,071.78 |

4. The attached affidavit reflects the Department's costs for attorney time in this case as \$866.62 (Exhibit A). The costs of obtaining an

affidavit from any outside attorney will be greater than \$866.62. Therefore, the Department is not seeking costs for attorney time in this case.

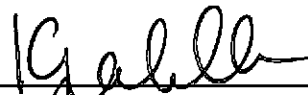

5. Should Respondent file written objections to the assessment of costs, within ten (10) days of the date of this motion, specifying the grounds for the objections and the specific elements of the costs to which objections are made, Petitioner requests that the Board determine the amount of costs to be assessed based upon its consideration of the affidavit attached as Exhibit A and any timely-filed written objections.

6. Petitioner requests that the Board grant this motion and assess costs in the amount of \$1,205.16 as supported by competent, substantial evidence. This assessment of costs is in addition to any other discipline imposed by the Board and is in accordance with Section 456.072(4), Florida Statutes (2013).

WHEREFORE, the Department of Health requests that the Board of Pharmacy enter a Final Order assessing costs against Respondent in the amount of \$1,205.16.

- 3) I am a Operations Management Consultant for the Consumer Services Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75, Tallahassee, Florida 32399.
- 4) As a Operations Management Consultant, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number **2014-00228** (Department of Health v. **Evelio Rodriguez, aka Castedo Evelio Rodriguez, R.P.T.** are **two thousand, seventy-one dollars and seventy-eight cents (\$2,071.78)**
- 6) The costs for DOH case number **2014-00228** (Department of Health v. **Evelio Rodriguez, aka Castedo Evelio Rodriguez, R.P.T.**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.
- 7) The itemized costs and expenses for DOH case number **2014-00228** (Department of Health v. **Evelio Rodriguez, aka Castedo Evelio Rodriguez, R.P.T.** are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.
- 8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to

keep track of their time in six-minute increments (e.g., investigators and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

In Re: Emergency Suspension of the Registration of

Registration Numbers: RPT 4704; PSI 21966
Case Numbers: 2014-00228; 2014-00231

ORDER OF EMERGENCY SUSPENSION OF REGISTRATIONS

John H. Armstrong, MD, FACS, State Surgeon General and Secretary of Health, ORDERS the emergency suspension of the registrations of Evelio Rodriguez, R.P.T., R.P.I. ("Mr. Rodriguez"), also known as Castedo Evelio Rodriguez, to practice as a registered pharmacy technician and registered pharmacy intern in the State of Florida. Mr. Rodriguez holds registration numbers RPT 4704 and PSI 21966. His address of record is 3715 NW 7th Street, Miami, Florida 33126. Mr. Rodriguez's alternate mailing address is 5100 SW 2nd Street, Miami, Florida 33144. The following Findings of Fact and Conclusions of Law support the emergency suspension of Mr. Rodriguez's registrations to practice as a pharmacy technician and a pharmacy intern in the State of Florida.

FINDINGS OF FACT

1. The Department of Health ("Department") is the state agency charged with regulating the practice of pharmacy, pharmacy technicians

In Re: Emergency Suspension of the Registration of
Evelio Rodriguez, R.P.T., A/K/A Castedo Evelio Rodriguez, R.P.I.
Registration Numbers RPT 4704; PSI 21966
Case Numbers 2014-00228; 2014-00231

and pharmacy interns pursuant to Chapters 20, 456, and 465, Florida Statutes (2012-2013). Section 456.073(8), Florida Statutes (2012-2013), authorizes the State Surgeon General to summarily suspend Mr. Rodriguez's registrations to practice as a registered pharmacy technician and registered pharmacy intern in the State of Florida in accordance with Section 120.60(6), Florida Statutes (2012-2013).

2. At all times material to this order, Mr. Rodriguez was a registered pharmacy technician and registered pharmacy intern in the State of Florida, pursuant to Chapter 465, Florida Statutes, and worked at Walgreens ("WG") located at 3715 NW 7th Street, Miami, Florida 33126.

3. On or around November 2013, Walgreen's headquarters in Deerfield, Illinois, conducted an audit of the regional Walgreens stores' pharmacy departments. This audit reflected a discrepancy in the count of phentermine tablets at WG for the past year. Specifically, the audit revealed that more phentermine tablets were dispensed from WG than were ordered.

4. Phentermine is a stimulant commonly prescribed to assist with weight loss. According to Section 893.03(4), Florida Statutes (2012-2013), phentermine is a Schedule IV controlled substance that has a low potential

for abuse relative to the substances in Schedule III and has a currently accepted medical use in treatment in the United States, and abuse of phentermine may lead to limited physical or psychological dependence relative to the substances in Schedule III.

5. Mr. C.G., Risk Manager at Walgreens Regional Offices, placed a new pharmacist at WG to inform Mr. C.G. of the day-to-day activities at WG. Additionally, surveillance video cameras were installed within the pharmacy area at WG.

6. On or about December 23, 2013, video surveillance captured Mr. Rodriguez taking possession of the contents of one-and-a-half bottles of phentermine, a total of 146 tablets.

7. On or about December 24, 2013, Miami-Dade County Police dispatched Officer J.P. to WG in reference to a theft of prescription tablets. Mr. Rodriguez admitted to Officer J.P. that he "did a wrong thing" and he was "ashamed of it."

8. Mr. Rodriguez informed Officer J.P. that he took the tablets from inside the prescription bottles on the pharmacy counter, a total of one-and-a-half bottles of Phentermine HCl 13.7mg, which contained a total of 146 tablets. Mr. Rodriguez further admitted that he placed the tablets inside a

plastic bag and put the bag inside his top scrub pocket in between the hours of 08:00 and 15:00 on December 23, 2013. Mr. Rodriguez stated that he left the store with the tablets, drove to meet some friends and gave them the tablets.

9. Mr. Rodriguez informed Officer J.P. that he "had been taking the... prescription tablets for approximately one year."

10. Mr. Rodriguez was arrested and charged with felony count of third degree grand theft in Miami-Dade County Case Number 13-2013-CF-0300830001XX. As of the date of this Order, this charge is pending resolution.

11. In the course of their work, registered pharmacy technicians and registered pharmacy interns have access to medications, including controlled substances, which have a high likelihood for abuse and harm. Registered pharmacy technicians and registered pharmacy interns assist pharmacists in data entry, and the counting, weighing, measuring, pouring and mixing of prescription medication or stock legend drugs and controlled substances, among various other tasks. Due to the gravity of these responsibilities, registered pharmacy technicians and registered pharmacy interns must possess good judgment and moral character in order to safely

and effectively perform their tasks.

12. Mr. Rodriguez's willingness to use his position as a registered pharmacy technician and registered pharmacy intern to divert 146 tablets of phentermine to distribute to friends, along with his admission of diverting prescription medications for the last year, demonstrates that Mr. Rodriguez lacks the good judgment and moral character required to safely and appropriately perform his tasks as a registered pharmacy technician and registered pharmacy intern.

13. Mr. Rodriguez's lack of good judgment and moral character, his theft of phentermine from his employer, his distribution of the controlled substances to people who did not have valid prescriptions, his admission to diverting these controlled substances for approximately one year, and his disregard for the laws and rules governing the practice of pharmacy in the State of Florida represent a significant likelihood that Mr. Rodriguez will continue his illegal behavior. This probability constitutes an immediate serious danger to the health, safety, and welfare of the citizens of the State of Florida.

14. Restricting Mr. Rodriguez's registrations would not adequately protect the public because the very nature of practicing as a registered

pharmacy technician and registered pharmacy intern puts Mr. Rodriguez in contact with legend drugs and controlled substances, which creates the risk for further theft and distribution of the controlled substances. The laws governing the practice of pharmacy technicians and pharmacy interns exist to prevent the theft of medications, and Mr. Rodriguez has refused to abide by these laws. As a result, nothing short of the immediate suspension of Mr. Rodriguez's registrations to practice as a registered pharmacy technician and registered pharmacy intern will protect the public from this danger.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the State Surgeon General concludes as follows:

1. The State Surgeon General of the Department of Health has jurisdiction over this matter pursuant to Sections 20.43 and 456.073(8), Florida Statutes (2012-2013), and Chapter 465, Florida Statutes (2012-2013), as set forth above.
2. Section 465.016(1)(e), Florida Statutes (2012-2013), subjects registered pharmacy technicians and registered pharmacy Interns to discipline, including suspension, for violating Chapter 893, Florida

Statutes (2012-2013).

3. Section 893.13(6)(a), Florida Statutes (2012-2013), states in pertinent part:

(6)(a) It is unlawful for any person to be in actual or constructive possession of a controlled substance unless such controlled substance was lawfully obtained from a practitioner or pursuant to a valid prescription or order of a practitioner while acting in the course of his or her professional practice or to be in actual or constructive possession of a controlled substance except as authorized by this chapter....

4. Sections 893.13(7)(a)(1) and 893.13(7)(a)(9), Florida Statutes (2012-2013), state in pertinent part:

(7)(a) A person may not:

1. Distribute or dispense a controlled substance in violation of this chapter....

[or]

9. Acquire or obtain, or attempt to acquire or obtain, possession of a controlled substance by misrepresentation, fraud, forgery, deception or subterfuge.

5. Ms. Rodriguez violated Section 465.016(1)(e), Florida Statutes (2012-2013), in one or more of the following ways:

a. By possessing phentermine in violation of Chapter 893.13(6)(a), Florida Statutes (2012-2013);

b. By distributing or dispensing phentermine, in violation of

Chapter 893.13(7)(a)(1), Florida Statutes (2012-2013); and/or

c. By acquiring possession of phentermine by misrepresentation, fraud, forgery, deception or subterfuge in violation of Chapter 893.13(7)(a)(9), Florida Statutes (2012-2013).

6. Section 120.60(6), Florida Statutes (2013), authorizes the Department to suspend a registered pharmacy technician and pharmacy intern's registration upon a finding that the registered pharmacy technician and registered pharmacy intern presents an immediate, serious danger to the public health, safety or welfare.

7. Mr. Rodriguez's continued ability to practice as a registered pharmacy technician and registered pharmacy intern constitutes an immediate serious danger to the health, safety, or welfare of the public and this summary procedure is fair under the circumstances to adequately protect the public.

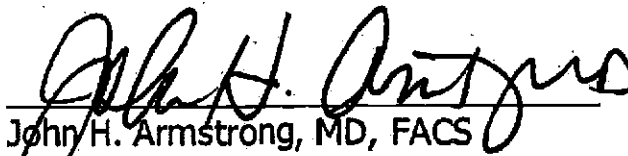

In accordance with Section 120.60(6), Florida Statutes (2012-2013), it is **ORDERED THAT:**

1. The registrations of Evelio Rodriguez, R.P.T., R.P.I A/K/A Castedo Evelio Rodriguez, registration numbers RPT 4704 and PSI 21966, are immediately suspended.

CERTIFICATE OF SERVICE

I HEREBY CERTIFY that a true and correct copy of the foregoing Motion to Assess Costs has been provided by U.S. Mail this 12th day of June, 2014, to BABATUNDE O. OLURINDE, P.S., R. Ph., 2375 S.W. 126th Avenue, Miramar, FL 33027 and Emelike Nwosuacha, Esq., 160 N.W. 176 Street, Suite 201-1, Miami, FL 33169.

Mary S. Miller, Esq.
Assistant General Counsel

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

- 1) My name is Shane Walters.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.
- 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2013-00709** (Department of Health v **BABATUNDE O. OLURINDE, P.S.**) are **ONE THOUSAND SIX HUNDRED TWO DOLLARS AND EIGHTY-NINE CENTS (\$1,602.89)**.
- 6) The costs for DOH case number(s) **2013-00709** (Department of Health v **BABATUNDE O. OLURINDE, P.S.**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.
- 7) The itemized costs and expenses for DOH case number(s) **2013-00709** (Department of Health v **BABATUNDE O. OLURINDE, P.S.**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.
- 8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators

and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

- 9) Shane Walters, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

MOTION TO ASSESS COSTS IN ACCORDANCE
WITH SECTION 456.072(4)

COMES NOW the Department of Health, by and through undersigned counsel, and moves the Board of Pharmacy for the entry of a Final Order assessing costs against the Respondent for the investigation and prosecution of this case in accordance with Section 456.072(4), Florida Statutes. STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

- 1) My name is Shane Walters.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.
- 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2012-17623** (Department of Health v **NORIEL BATISTA**) are **THREE HUNDRED FORTY-THREE DOLLARS AND TWENTY-NINE CENTS (\$343.29)**.
- 6) The costs for DOH case number(s) **2012-17623** (Department of Health v **NORIEL BATISTA**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.

Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

- 1) My name is Shane Walters.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.
- 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2012-04848** (Department of Health v **CHRISTOPHER THOMAS DUFFY**) are **SIX HUNDRED FORTY-NINE DOLLARS AND EIGHTY-ONE CENTS (\$649.81)**.
- 6) The costs for DOH case number(s) **2012-04848** (Department of Health v **CHRISTOPHER THOMAS DUFFY**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.
- 7) The itemized costs and expenses for DOH case number(s) **2012-04848** (Department of Health v **CHRISTOPHER THOMAS DUFFY**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.
- 8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators

and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

VOLUNTARY RELINQUISHMENT OF LICENSE

Respondent, NANCY ELIZABETH KEANE, RPT license No. 45334, hereby voluntarily relinquishes Respondent's license to practice as a Registered Pharmacy Tech in the State of Florida and states as follows:

1. Respondent's purpose in executing this Voluntary Relinquishment is to avoid further administrative action with respect to this cause. As with any disciplinary action, this relinquishment will be reported to the National Practitioner Data Bank as disciplinary action. Licensing authorities in other states may impose discipline in their jurisdiction based on discipline taken in Florida.

6. Petitioner and Respondent hereby agree that upon the Board's acceptance of this Voluntary Relinquishment, each party shall bear its own attorney's fees and costs related to the prosecution or defense of this matter.

7. Respondent authorizes the Board to review and examine all investigative file materials concerning Respondent in connection with the Board's consideration of this

RE: DOH vs. Nancy Elizabeth Keane, R.P.T.
DOH Case Number: 2014-06794

Dear Ms. Keane:

We are in receipt of your executed Voluntary Relinquishment form. As you are aware by signing the Voluntary Relinquishment of License form, you agreed to the following:

- the Voluntary Relinquishment would be considered disciplinary action against your license, pursuant to Section 456.072(1)(f), Florida Statutes;
- you would never reapply for licensure as a Registered Pharmacy Technician in the State of Florida; and
- Voluntarily relinquishing your Florida Registered Pharmacy Technician license may have an effect on Registered Pharmacy Technician licenses that you may hold in other states.

If this is not what you understand, please contact me as soon as possible to discuss, at 850-245-4444, ext. 8331. Otherwise, this case will proceed as planned, and the Florida Board of Pharmacy will take up your request for Voluntary Relinquishment of License at their meeting scheduled for August 13, 2014 at the Double Tree by Hilton, 100 Fairway Drive, Deerfield Beach, FL 33441.

Sincerely,

Dear Sir/Madam:

We are in receipt of your executed Voluntary Relinquishment form. As you are aware by signing the Voluntary Relinquishment of License form you agreed to the following:

- the Voluntary Relinquishment would be considered disciplinary action against your license, pursuant to Section 456.072(1)(f), Florida Statutes;
- Voluntarily relinquishing your Florida pharmacy license may have an effect on pharmacy licenses you may hold in other states.

If this is not what you understood, please contact me as soon as possible to discuss, at 850-245-4444. Otherwise, this case will proceed as planned, and the Florida Board of Pharmacy will take up your request for Voluntary Relinquishment of License at their next regularly scheduled meeting. Re: DOH vs. Sixtyseven Pharmacy Discount, Inc.
DOH Case Number: 2014-05849

Dear Sirs/Madam:

We are in receipt of your executed Voluntary Relinquishment form. As you are aware by signing the Voluntary Relinquishment of License form you agreed to the following:

- the Voluntary Relinquishment would be considered disciplinary action against your license, pursuant to Section 456.072(1)(f), Florida Statutes;
- Voluntarily relinquishing your Florida pharmacy license may have an effect on pharmacy licenses you may hold in other states.

If this is not what you understood, please contact me as soon as possible to discuss, at 850-245-4444. Otherwise, this case will proceed as planned, and the Florida Board of Pharmacy will take up your request for Voluntary Relinquishment of License at their next regularly scheduled meeting. You are not required to attend the meeting.

Sincerely,

**STATE OF FLORIDA
DEPARTMENT OF HEALTH**

In Re: Emergency Suspension of the Registration of
 Samantha Lynn Stumler, R.P.T.
 Registration Number RPT 43458
 Case Number 2014-02898

ORDER OF EMERGENCY SUSPENSION OF LICENSE

John H. Armstrong, MD, FACS, State Surgeon General and Secretary of Health, ORDERS the emergency suspension of the registration of Samantha Lynn Stumler, R.P.T., ("Ms. Stumler") to practice as a registered pharmacy technician in the State of Florida. Ms. Stumler holds registration number RPT 43458. Her address of record is 5165 Dee Gee Drive, Jacksonville, Florida 32210. Ms. Stumler's current location is at the Duval County Pre-Trial Detention Facility, 500 East Adams Street, Jacksonville, Florida 32202. The following Findings of Fact and Conclusions of Law support the emergency suspension of Ms. Stumler's registration to practice as a pharmacy technician in the State of Florida.

FINDINGS OF FACT

1. The Department of Health ("Department") is the state agency charged with regulating the practice of pharmacy pursuant to Chapters 20, 456, and 465, Florida Statutes (2013). Section 456.073(8), Florida

Statutes (2013), authorizes the State Surgeon General to summarily suspend Ms. Stumler's registration to practice as a registered pharmacy technician in the State of Florida in accordance with Section 120.60(6), Florida Statutes (2013).

2. At all times material to this order, Ms. Stumler was a registered pharmacy technician in the State of Florida, pursuant to Chapter 465, Florida Statutes (2013), and worked at both Saint Vincent's Hospital Pharmacy locations: 1 Shircliff Way and 4205 Belfort Road, Jacksonville, Florida.

3. In January 2014, Ms. T.M., director of risk management for Saint Vincent's Hospital Pharmacies, initiated an internal investigation into missing bottles of hydrocodone. Director of Pharmacy, Ms. C.J., conducted an inventory audit of the Shircliff Way location for the dates of January 3, through January 22, 2014. Ms. C.J. discovered that 200 tablets of hydrocodone/APAP were missing from the Shircliff Way pharmacy inventory.

4. Hydrocodone/APAP contains hydrocodone and acetaminophen or Tylenol and is prescribed to treat pain. According to Section 893.03(3), Florida Statutes (2013), hydrocodone, in the dosages found in

hydrocodone/APAP is a Schedule III controlled substance that has a potential for abuse less than the substances in Schedules I and II and has a currently accepted medical use in treatment in the United States. Abuse of the substance may lead to moderate or low physical dependence or high psychological dependence.

5. On or about January 29, 2014, Ms. Stumler worked at the Shircliff Way location of Saint Vincent's Hospital Pharmacy.

6. A pharmacist conducted an inventory of hydrocodone/APAP tablets at the Shircliff Way location of the pharmacy prior to opening the pharmacy and another inventory after close of business. The pharmacy was missing 100 hydrocodone/APAP tablets at the close of business on January 29, 2014.

7. On or about February 11, 2014, Ms. C.G., a pharmacist at the Belfort Road location, inventoried the hydrocodone/APAP tablets prior to the opening of the pharmacy.

8. Ms. Stumler was the only employee, aside from Ms. C.G., that worked at the Belfort Road location of the pharmacy on February 11, 2014.

9. On or about February 12, 2014, Ms. C.G. conducted an inventory of the hydrocodone/APAP prior to opening the Belfort Road

location and discovered that 100 tablets were missing.

10. On or about February 12, 2014, Deputies with the Jacksonville Sheriff's Office responded to the Shircliff Way location of Saint Vincent's pharmacy to speak with Ms. Stumler. Ms. Stumler waived her right to have an attorney present for the interview and agreed to speak with the Sheriff's Deputies. Ms. Stumler admitted that she stole multiple 100-count bottles of hydrocodone/APAP from both Saint Vincent's Hospital pharmacies. Ms. Stumler told the deputies that she began stealing the pills from the pharmacies in late October or early November 2013. Ms. Stumler estimated that she stole approximately six 100-count bottles of hydrocodone/APAP between that time and the time of the interview.

11. Ms. Stumler also admitted to stealing one bottle of Diazepam containing approximately 50 tablets and two 100-count bottles of Xanax, one of which Ms. Stumler reported was only half-full.

12. Diazepam, commonly known by the brand name Valium, is prescribed to treat anxiety. According to Section 893.03(4), Florida Statutes (2013), diazepam is a Schedule IV controlled substance that has a low potential for abuse relative to the substances in Schedule III and has a currently accepted medical use in treatment in the United States. Abuse of

diazepam may lead to limited physical or psychological dependence relative to the substances in Schedule III.

13. Xanax is the brand name for alprazolam and is prescribed to treat anxiety. According to Section 893.03(4), Florida Statutes (2013), alprazolam is a Schedule IV controlled substance that has a low potential for abuse relative to the substances in Schedule III and has a currently accepted medical use in treatment in the United States. Abuse of alprazolam may lead to limited physical or psychological dependence relative to the substances in Schedule III.

14. Ms. Stumler specifically admitted to stealing the 100-count bottle of hydrocodone/APAP from the Belfort Road pharmacy the previous day, February 11, 2014. Ms. Stumler stated that the stolen pills were located in her vehicle and at her home. Ms. Stumler agreed to let the deputies search her vehicle and her home.

15. Deputies found an unopened bottle containing 100 tablets of hydrocodone/APAP and an unopened bottle of Xanax inside Ms. Stumler's vehicle.

16. Deputies found an unopened bottle containing 100 tablets of hydrocodone/APAP in Ms. Stumler's home. Deputies also found 44

Diazepam tablets; 97 Xanax tablets; 14 Famotidine tablets; 24 Penicillin tablets; 74 Lisinopril tablets; and 47 hydrocodone/APAP tablets inside a plastic bag in Ms. Stumler's home. Ms. Stumler admitted that all of the drugs were stolen from the Saint Vincent's pharmacies.

17. Famotidine is a histamine-2 blocker used to treat heartburn. It is a legend drug but not a controlled substance.

18. Penicillin is an antibiotic used to treat bacteria in the body. It is a legend drug but not a controlled substance.

19. Lisinopril is an angiotensin converting enzyme ("ACE") inhibitor used to treat high blood pressure and congestive heart failure. It is a legend drug but not a controlled substance.

20. Ms. Stumler told the deputies that she used some of the stolen narcotics herself and also provided some of the narcotics to a man she could only identify as being called "Heavy," as payment to prevent "Heavy" from harming her.

21. On or about February 12, 2014, Jacksonville Sheriff's Deputies arrested Ms. Stumler for theft of controlled substances and charged her in Duval County Case 2014CF1320. The charge against Ms. Stumler is currently pending resolution.

22. Registered pharmacy technicians assist pharmacists in data entry, and the counting, weighing, measuring, pouring and mixing of prescription medication or stock legend drugs and controlled substances, among various other tasks. Because registered pharmacy technicians are entrusted with such important tasks which include the handling, counting, and reporting of the drugs in the pharmacy, it is imperative that a registered pharmacy technician have good judgment and moral character while working in a pharmacy.

23. Ms. Stumler's behavior in stealing approximately 600 tablets of hydrocodone/APAP and other drugs from her employer for personal use and for distribution to at least one other person clearly demonstrates that she is lacking the judgment and moral character needed to practice as a registered pharmacy technician.

24. As a result of her employment as a registered pharmacy technician, Ms. Stumler was aware that prescription medications and controlled substances may only be dispensed to patients who have valid prescriptions and need the medications for a legitimate health reason. Despite this, Ms. Stumler illegally diverted controlled substances for herself and at least one other person when neither had a valid prescription for the

drugs.

25. Ms. Stumler's lack of good judgment and moral character, her theft of large quantities of controlled substances from her employer, and her disregard for the laws and rules governing the practice of pharmacy in the State of Florida represent a significant likelihood that Ms. Stumler will continue her illegal behavior. Although Ms. Stumler is currently incarcerated, she was given a monetary bond by the first appearance judge and, as a result, she is capable of bonding out and returning to work as a registered pharmacy technician at any time. This probability constitutes an immediate serious danger to the health, safety, and welfare of the citizens of the State of Florida.

26. Restricting Ms. Stumler's registration would not adequately protect the public because the very nature of practicing as a registered pharmacy technician puts Ms. Stumler in contact with legend drugs and controlled substances, which creates the risk for further theft of drugs. Additionally, given that law enforcement recovered only 247 of the 600 stolen hydrocodone tablets, Ms. Stumler may be ingesting significant quantities of hydrocodone/APAP in short time periods. As a result, nothing short of the immediate suspension of Ms. Stumler's registration to practice

as a registered pharmacy technician will protect the public from the danger posed by Ms. Stumler's continued practice as a pharmacy technician.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the State Surgeon General concludes as follows:

1. The Department of Health has jurisdiction over this matter pursuant to Sections 20.43 and 456.073(8), Florida Statutes (2013), and Chapter 465, Florida Statutes (2013), as set forth above.

2. Section 465.016(1)(e), Florida Statutes (2013), subjects registered pharmacy technicians to discipline, including suspension, for violating Chapter 893, Florida Statutes (2013).

3. Chapter 893.13, Florida Statutes (2013), states in pertinent part:

(7)(a) A person may not:

1. Distribute or dispense a controlled substance in violation of this chapter....

[or]

9. Acquire or obtain, or attempt to acquire or obtain, possession of a controlled substance by misrepresentation, fraud, forgery, deception or subterfuge.

4. Ms. Stumler violated Section 465.016(1)(e), Florida Statutes (2013), in one or more of the following ways:

- a. By possessing oxycodone and/or Roxicodone in violation of Chapter 893.13(6)(a), Florida Statutes (2013);
- b. By distributing or dispensing hydrocodone/APAP to an individual in violation of Chapter 893.13(7)(a)(1), Florida Statutes (2013); and/or

Statutes (2013), authorizes the State Surgeon General to summarily suspend Ms. Stumler's registration to practice as a registered pharmacy technician in the State of Florida in accordance with Section 120.60(6), Florida Statutes (2013).

2. At all times material to this order, Ms. Stumler was a registered pharmacy technician in the State of Florida, pursuant to Chapter 465, Florida Statutes (2013), and worked at both Saint Vincent's Hospital Pharmacy locations: 1 Shircliff Way and 4205 Belfort Road, Jacksonville, Florida.

3. In January 2014, Ms. T.M., director of risk management for Saint Vincent's Hospital Pharmacies, initiated an internal investigation into missing bottles of hydrocodone. Director of Pharmacy, Ms. C.J., conducted an inventory audit of the Shircliff Way location for the dates of January 3, through January 22, 2014. Ms. C.J. discovered that 200 tablets of hydrocodone/APAP were missing from the Shircliff Way pharmacy inventory.

4. Hydrocodone/APAP contains hydrocodone and acetaminophen or Tylenol and is prescribed to treat pain. According to Section 893.03(3), Florida Statutes (2013), hydrocodone, in the dosages found in

hydrocodone/APAP is a Schedule III controlled substance that has a potential for abuse less than the substances in Schedules I and II and has a currently accepted medical use in treatment in the United States. Abuse of the substance may lead to moderate or low physical dependence or high psychological dependence.

5. On or about January 29, 2014, Ms. Stumler worked at the Shircliff Way location of Saint Vincent's Hospital Pharmacy.

6. A pharmacist conducted an inventory of hydrocodone/APAP tablets at the Shircliff Way location of the pharmacy prior to opening the pharmacy and another inventory after close of business. The pharmacy was missing 100 hydrocodone/APAP tablets at the close of business on January 29, 2014.

7. On or about February 11, 2014, Ms. C.G., a pharmacist at the Belfort Road location, inventoried the hydrocodone/APAP tablets prior to the opening of the pharmacy.

8. Ms. Stumler was the only employee, aside from Ms. C.G., that worked at the Belfort Road location of the pharmacy on February 11, 2014.

9. On or about February 12, 2014, Ms. C.G. conducted an inventory of the hydrocodone/APAP prior to opening the Belfort Road

location and discovered that 100 tablets were missing.

10. On or about February 12, 2014, Deputies with the Jacksonville Sheriff's Office responded to the Shircliff Way location of Saint Vincent's pharmacy to speak with Ms. Stumler. Ms. Stumler waived her right to have an attorney present for the interview and agreed to speak with the Sheriff's Deputies. Ms. Stumler admitted that she stole multiple 100-count bottles of hydrocodone/APAP from both Saint Vincent's Hospital pharmacies. Ms. Stumler told the deputies that she began stealing the pills from the pharmacies in late October or early November 2013. Ms. Stumler estimated that she stole approximately six 100-count bottles of hydrocodone/APAP between that time and the time of the interview.

11. Ms. Stumler also admitted to stealing one bottle of Diazepam containing approximately 50 tablets and two 100-count bottles of Xanax, one of which Ms. Stumler reported was only half-full.

12. Diazepam, commonly known by the brand name Valium, is prescribed to treat anxiety. According to Section 893.03(4), Florida Statutes (2013), diazepam is a Schedule IV controlled substance that has a low potential for abuse relative to the substances in Schedule III and has a currently accepted medical use in treatment in the United States. Abuse of

diazepam may lead to limited physical or psychological dependence relative to the substances in Schedule III.

13. Xanax is the brand name for alprazolam and is prescribed to treat anxiety. According to Section 893.03(4), Florida Statutes (2013), alprazolam is a Schedule IV controlled substance that has a low potential for abuse relative to the substances in Schedule III and has a currently accepted medical use in treatment in the United States. Abuse of alprazolam may lead to limited physical or psychological dependence relative to the substances in Schedule III.

14. Ms. Stumler specifically admitted to stealing the 100-count bottle of hydrocodone/APAP from the Belfort Road pharmacy the previous day, February 11, 2014. Ms. Stumler stated that the stolen pills were located in her vehicle and at her home. Ms. Stumler agreed to let the deputies search her vehicle and her home.

15. Deputies found an unopened bottle containing 100 tablets of hydrocodone/APAP and an unopened bottle of Xanax inside Ms. Stumler's vehicle.

16. Deputies found an unopened bottle containing 100 tablets of hydrocodone/APAP in Ms. Stumler's home. Deputies also found 44

Diazepam tablets; 97 Xanax tablets; 14 Famotidine tablets; 24 Penicillin tablets; 74 Lisinopril tablets; and 47 hydrocodone/APAP tablets inside a plastic bag in Ms. Stumler's home. Ms. Stumler admitted that all of the drugs were stolen from the Saint Vincent's pharmacies.

17. Famotidine is a histamine-2 blocker used to treat heartburn. It is a legend drug but not a controlled substance.

18. Penicillin is an antibiotic used to treat bacteria in the body. It is a legend drug but not a controlled substance.

19. Lisinopril is an angiotensin converting enzyme ("ACE") inhibitor used to treat high blood pressure and congestive heart failure. It is a legend drug but not a controlled substance.

20. Ms. Stumler told the deputies that she used some of the stolen narcotics herself and also provided some of the narcotics to a man she could only identify as being called "Heavy," as payment to prevent "Heavy" from harming her.

21. On or about February 12, 2014, Jacksonville Sheriff's Deputies arrested Ms. Stumler for theft of controlled substances and charged her in Duval County Case 2014CF1320. The charge against Ms. Stumler is currently pending resolution.

22. Registered pharmacy technicians assist pharmacists in data entry, and the counting, weighing, measuring, pouring and mixing of prescription medication or stock legend drugs and controlled substances, among various other tasks. Because registered pharmacy technicians are entrusted with such important tasks which include the handling, counting, and reporting of the drugs in the pharmacy, it is imperative that a registered pharmacy technician have good judgment and moral character while working in a pharmacy.

23. Ms. Stumler's behavior in stealing approximately 600 tablets of hydrocodone/APAP and other drugs from her employer for personal use and for distribution to at least one other person clearly demonstrates that she is lacking the judgment and moral character needed to practice as a registered pharmacy technician.

24. As a result of her employment as a registered pharmacy technician, Ms. Stumler was aware that prescription medications and controlled substances may only be dispensed to patients who have valid prescriptions and need the medications for a legitimate health reason. Despite this, Ms. Stumler illegally diverted controlled substances for herself and at least one other person when neither had a valid prescription for the

drugs.

25. Ms. Stumler's lack of good judgment and moral character, her theft of large quantities of controlled substances from her employer, and her disregard for the laws and rules governing the practice of pharmacy in the State of Florida represent a significant likelihood that Ms. Stumler will continue her illegal behavior. Although Ms. Stumler is currently incarcerated, she was given a monetary bond by the first appearance judge and, as a result, she is capable of bonding out and returning to work as a registered pharmacy technician at any time. This probability constitutes an immediate serious danger to the health, safety, and welfare of the citizens of the State of Florida.

26. Restricting Ms. Stumler's registration would not adequately protect the public because the very nature of practicing as a registered pharmacy technician puts Ms. Stumler in contact with legend drugs and controlled substances, which creates the risk for further theft of drugs. Additionally, given that law enforcement recovered only 247 of the 600 stolen hydrocodone tablets, Ms. Stumler may be ingesting significant quantities of hydrocodone/APAP in short time periods. As a result, nothing short of the immediate suspension of Ms. Stumler's registration to practice

as a registered pharmacy technician will protect the public from the danger posed by Ms. Stumler's continued practice as a pharmacy technician.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the State Surgeon General concludes as follows:

1. The Department of Health has jurisdiction over this matter pursuant to Sections 20.43 and 456.073(8), Florida Statutes (2013), and Chapter 465, Florida Statutes (2013), as set forth above.

2. Section 465.016(1)(e), Florida Statutes (2013), subjects registered pharmacy technicians to discipline, including suspension, for violating Chapter 893, Florida Statutes (2013).

3. Chapter 893.13, Florida Statutes (2013), states in pertinent part:

(6)(a) It is unlawful for any person to be in actual or constructive possession of a controlled substance unless such controlled substance was lawfully obtained from a practitioner or pursuant to a valid prescription or order of a practitioner while acting in the course of his or her professional practice or to be in actual or constructive possession of a controlled substance except as authorized by this chapter....

(7)(a) A person may not:

b. By distributing or dispensing hydrocodone/APAP to an individual in violation of Chapter 893.13(7)(a)(1), Florida Statutes (2013);
and/or

c. By acquiring possession of oxycodone and/or Roxicodone by misrepresentation, fraud, forgery, deception or subterfuge in violation of Chapter 893.13(7)(a)(9), Florida Statutes (2013).

5. Section 120.60(6), Florida Statutes (2013), authorizes the Department to suspend a registered pharmacy technician's registration upon a finding that the registered pharmacy technician presents an immediate, serious danger to the public health, safety or welfare.

6. Ms. Stumler's continued ability to practice as a registered pharmacy technician constitutes an immediate serious danger to the health, safety, or welfare of the public and this summary procedure is fair under the circumstances to adequately protect the public.

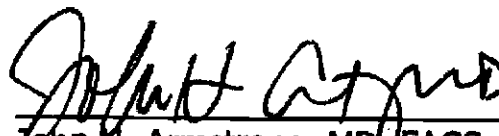

In accordance with Section 120.60(6), Florida Statutes (2013), it is

ORDERED THAT:

1. The registration of Samantha Lynn Stumler, registration number RPT 43458, is immediately suspended.

Dear Dr. Eby:

We are in receipt of your executed Voluntary Relinquishment form. As you are aware, by signing the Voluntary Relinquishment of License form you agreed to the following:

- the Voluntary Relinquishment would be considered disciplinary action against your license;
- Voluntarily relinquishing your Florida pharmacist license may have an effect on pharmacy licenses you may hold in other states.

If this is not what you understood, please contact me as soon as possible to discuss, at 850-245-4444, ext. 8224. Otherwise, this case will proceed as planned, and the Florida Board of Pharmacy will take up your request for Voluntary Relinquishment of License at their next regularly scheduled meeting August 12-13, 2014. You are not required to attend the meeting.

Sincerely,

Re: DOH v. Charles S. Eby, M.D., P.A.
DOH Case No. 2013-06703

Dear Dr. Eby:

My office is in receipt of your letter dated April 13, 2014. I understand that you returned your pharmacy permit with the intent not to practice again, and I will forward your returned permit to the Board of Pharmacy. However, please be advised that returning your pharmacy permit does not resolve the open disciplinary case against your pharmacy.

As a means of resolving the disciplinary case against the pharmacy, you have the option to execute a Voluntary Relinquishment of your pharmacy permit, which I have enclosed with this letter. Please note that voluntarily relinquishing your pharmacy permit is considered disciplinary action by the Board of Pharmacy. However, signing the Voluntary Relinquishment form will allow you to avoid any costs associated with the investigation and prosecution of this case as well as forgo further disciplinary hearings.

If you have any questions, please contact me at (850) 245-4444, extension 8174.

Sincerely,

RE: DOH v. Charles S. Eby MD
Case Number: 201306703; Pharmacy License 10330

Dear Christopher Jurich,

This letter is in response to your administrative complaint received early April 2014. As of the date April 24, 2013, the inspection by your department representative declared our surgery center to be in violation of Chapters 456 & 465 Florida Statutes. Upon learning of our violation we immediately and totally ceased compounding low level medications, on which this entire complaint was based. At the time of the first inspection, I was having symptoms of a yet undiagnosed cancer. By the end of July we had completely closed the practice, when we were attempted to be reinspected. I have inoperable pancreatic cancer and am being treated at Moffitt Cancer Center. At the time of closing, while in much pain, I had followed a recommended list of those entities needing notification and record redistribution, but the return of the pharmacy license was not listed.

Enclosed is the license you request, and since I am terminally ill, I know you understand I have no office, I am not practicing, and I will never practice again, which negates any disciplinary action or cost on your part.

Sincerely,

EXPLANATION OF RIGHTS

In response to the allegations set forth in the Administrative Complaint issued by the Department of Health, you should make **ONE OF THREE** of the following elections within twenty-one (21) days from the date of receipt of the Administrative Complaint. Please make your election on the attached Election of Rights form and return it fully executed to the address listed on the form. **Your Election of Rights must be received by the Department within twenty-one (21) days of the date you were served.**

Option 1 – If you do not dispute any material fact alleged in the Administrative Complaint, you may request a proceeding pursuant to Section 120.57(2), Florida Statutes, before the Board. At this proceeding you will be given an opportunity to present both written and oral evidence in mitigation of the allegations contained in the Administrative Complaint. This request should be directed to the Department by checking the appropriate space, marked as Option 1, on the Election of Rights form.

Option 2 – If you do not dispute any material fact alleged in the Administrative Complaint and you do not desire to participate in the disposition of the case, you may elect Option 2 on the Election of Rights form.

Option 3 – If you do dispute any material fact alleged in the Administrative Complaint, you may request a formal hearing and the appointment of an Administrative Law Judge with the Division of Administrative Hearings pursuant to Section 120.569(2)(a), Florida Statutes, by checking the appropriate space, marked as Option 3, on the Election of Rights form. You must also specifically indicate which paragraphs you dispute in the Administrative Complaint pursuant to Rule 28-106.2015(5)(c), Florida Administrative Code. Failure to do so may be considered a waiver of your right to dispute the allegations at a formal hearing.

Regardless of whether you dispute any material fact alleged in the Administrative Complaint and after choosing one of the three options above, you may also sign the Settlement Agreement or request the opportunity to enter into a Settlement Agreement to resolve this case, pursuant to Section 120.57(4), Florida Statutes. If you accept the Settlement Agreement, it will be presented to the Board for approval. Please be advised that a Final Order approving a Settlement Agreement is considered disciplinary action and will be reported as such.

You may also sign the Voluntary Relinquishment of license, which will be presented to the Board for approval. Please be advised that a Final Order accepting the Voluntary Relinquishment is considered disciplinary action and will be reported as such.

Failure to file the Election of Rights form within twenty-one (21) days may be considered a waiver of your right to dispute the allegations in this matter, pursuant to Rule 28-106.111(4), Florida Administrative Code, and the Board may proceed to hear the case and impose discipline against your license.

EXPLANATION OF THE DISCIPLINARY PROCESS

Once an Administrative Complaint has been filed against the license of a health care professional regulated by the Department of Health, the subject, also referred to as the Respondent, has three options to choose from to resolve the matter.

Option 1 – Settlement Agreement: Pursuant to Section 120.57(4), Florida Statutes, the subject and the Department may enter into a Settlement Agreement. A Settlement Agreement is an agreement between all parties resolving a case without the need for a Formal or Informal Hearing. Settlement Agreements save the Department of Health, the Board, and the subject time and money. In this situation, the Board will hear statements from both parties supporting the proposed Settlement Agreement. If the Board believes the Settlement Agreement is appropriate, the Board will accept the Settlement Agreement and impose its terms against the subject's license. If the Board rejects the Settlement Agreement, it may make a counter-offer to the subject. If the subject does not accept the Board's counter-offer, the subject may choose to proceed with a Formal or Informal Hearing at a later date.

Option 2 – Informal Hearing: Pursuant to Section 120.57(2), Florida Statutes, the subject may request a Hearing Not Involving Disputed Issues of Material Fact, also referred to as an Informal Hearing. In this situation the subject does not dispute the factual allegations in the Administrative Complaint, but is given the opportunity to present evidence to mitigate any penalty or discipline. After considering the evidence, the Board will determine whether the subject should be disciplined and what kind of discipline, if any, is appropriate.

Option 3 – Formal Hearing: Pursuant to Section 120.57(1), Florida Statutes, the subject may request a Hearing Involving Disputed Issues of Material Fact, also referred to as a Formal Hearing. In this situation, the subject has disputed some or all of the material facts upon which the Administrative Complaint is based. An Administrative Law Judge at the Division of Administrative Hearings hears the case. After presentation of evidence by both the Department and the subject, the Administrative Law Judge sends a Recommended Order to the Board. The Board will consider the Administrative Law Judge's Recommended Order, as well as any objections or exceptions presented by the Department or the subject. In these cases, the Board is restricted to the evidence and record that was presented to the Administrative Law Judge during the Formal Hearing, and cannot hear or accept any new evidence. After considering the Recommended Order, the Board will issue a Final Order reflecting their final decision on the case.

If the subject fails to respond to an Administrative Complaint within twenty-one (21) days of service, the right to dispute the issues of material fact may be waived. In the event of a waiver, the case may be heard by the Board at an Informal Waiver Hearing. An Informal Waiver Hearing is, essentially, identical to an Informal Hearing. The Board will review the case, and determine whether the subject should be disciplined and what kind of discipline, if any, is appropriate.

The complainant has the right to attend any and all of these public hearings, but is not required to do so unless called as a witness by the Department or by the subject. The complainant also has the right to present oral or written communication regarding the alleged violation or the penalty the Board may impose.

RE: DOH v. Charles S. Eby MD
Case Number: 201306703; Pharmacy License 10330

Dear Christopher Jurich,

This letter is in response to your administrative complaint received early April 2014. As of the date April 24, 2013, the inspection by your department representative declared our surgery center to be in violation of Chapters 456 & 465 Florida Statutes. Upon learning of our violation we immediately and totally ceased compounding low level medications, on which this entire complaint was based. At the time of the first inspection, I was having symptoms of a yet undiagnosed cancer. By the end of July we had completely closed the practice, when we were attempted to be reinspected. I have inoperable pancreatic cancer and am being treated at Moffitt Cancer Center. At the time of closing, while in much pain, I had followed a recommended list of those entities needing notification and record redistribution, but the return of the pharmacy license was not listed.

Enclosed is the license you request, and since I am terminally ill, I know you understand I have no office, I am not practicing, and I will never practice again, which negates any disciplinary action or cost on your part.

Sincerely,

Charles S. Eby MD

CASE NUMBER 2013-17761

RICHARD ALONSO, R.PH.,

Respondent.

ADMINISTRATIVE COMPLAINT

Petitioner, Department of Health ("Department"), by and through undersigned counsel, files this Administrative Complaint against the Respondent, RICHARD ALONSO, R.PH. ("Respondent"), and states:

FINDINGS OF FACT

1. The Department of Health ("Department") is the state agency charged with regulating the practice of pharmacy pursuant to Chapters 20, 456, and 465, Florida Statutes (2010-2013).

2. At all times material to this Order, Respondent was a licensed pharmacist within the state of Florida, having been issued license number PS 39780.

3. In May 2011, Respondent contacted the Professionals Resource Network ("PRN"). PRN is designated as the State of Florida's impaired practitioners program for pharmacists.

4. On or about June 8, 2011, Respondent submitted to an evaluation by Dr. D.R., M.D., who diagnosed Respondent with alcohol dependence, generalized anxiety disorder, and depressive disorder.

5. On or about June 21, 2011, Respondent was admitted to an intensive outpatient program at HealthCare Connection of Tampa.

6. Respondent was discharged from HealthCare Connection of Tampa on or about September 29, 2011, with diagnoses of alcohol dependence in early, full remission; sedative/hypnotic or anxiolytic dependence in early, full remission; cocaine abuse in early, full remission; generalized anxiety disorder; and depressive disorder. Upon his discharge, it was recommended that Respondent participate in PRN monitoring.

7. According to Section 893.03(2), Florida Statutes (2010-2013), cocaine is a Schedule II controlled substance that has a high potential for abuse and has a currently accepted but severely restricted medical use in treatment in the United States. Abuse of cocaine may lead to severe psychological or physical dependence.

8. On or about June 24, 2011, Respondent signed a five year Dual Diagnosis Monitoring Contract with PRN, requiring him to, among other things, refrain from alcohol use.

9. On or about April 24, 2012, Respondent was admitted to a detoxification program at Town and Country Hospital. However, Respondent left the program against medical advice the same day. Respondent was subsequently admitted to a detoxification program at Turning Point the same evening.

10. On or about April 27, 2012, Respondent left the detoxification program at Turning Point against medical advice, after being informed that it was recommended that he enter a residential treatment program. The same day, Respondent informed PRN that he would not agree to a residential treatment program, but would attend an intensive outpatient program.

11. On or about April 30, 2012, PRN informed Respondent that he would be referred to the Department if he did not comply with PRN's recommendations.

12. On or about May 2, 2012, Respondent informed PRN that he had decided to "opt-out of PRN."

13. On May 7, 2012, PRN referred Respondent to the Department.

14. On or about July 17, 2012, Dr. N.D., M.D., a physician at Turning Point, evaluated Respondent. Dr. N.D. diagnosed Respondent with alcohol dependence, cocaine abuse, cannabis abuse and substance-induced mood disorder with depressive features.

15. According to Section 893.03(1), Florida Statutes (2010-2013), cannabis is a Schedule I controlled substance that has a high potential for abuse and has no currently accepted medical use in treatment in Florida. Its use under medical supervision does not meet accepted safety standards.

16. On or about October 16, 2012, Respondent re-enrolled in PRN and signed a five-year monitoring contract.

17. On or about August 9, 2013, Respondent provided a urine sample for a drug screen. The urine sample tested positive for ethanol at a level of 0.374, and EtG and EtS¹ levels consistent with alcohol use. PRN referred Respondent to Dr. J.S., M.D., a psychiatrist, for evaluation.

18. On or about September 17, 2013, Dr. J.S. examined Respondent. Dr. J.S. diagnosed Respondent with alcohol dependence, cocaine abuse, cannabis abuse, tobacco use disorder and adjustment disorder. A contemporaneous drug screen was performed, which was positive for cocaine

¹ Ethyl glucuronide (EtG) and ethyl sulfate (EtS) is a laboratory based urine test which detects the presence of alcohol up to 80 hours after consumption.

and alcohol. Dr. J.S. ultimately determined that Respondent was not fit to practice pharmacy with reasonable skill and safety. Dr. J.S. recommended that Respondent enter residential treatment.

19. PRN established a November 4, 2013, deadline for Respondent to enter residential treatment. Respondent failed to meet that deadline.

20. On or about November 12, 2013, PRN terminated Respondent's contract for non-compliance.

COUNT ONE

21. Petitioner realleges and incorporates by reference paragraphs one (1) through twenty (20) as if fully set forth herein.

22. Section 465.016(1)(m), Florida Statutes (2010-2013), subjects a pharmacist to discipline for "[b]eing unable to practice pharmacy with reasonable skill and safety by reason of illness, use of drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition."

23. An independent evaluator determined that Respondent is unable to practice pharmacy with reasonable skill and safety by reason of use of drugs, narcotics and/or alcohol.

24. Based on the foregoing, Respondent violated Section 465.016(1)(m), Florida Statutes (2010-2013), by being unable to practice pharmacy with reasonable skill and safety by reason of use of drugs, narcotics and/or alcohol.

COUNT TWO

25. Petitioner realleges and incorporates by reference paragraphs one (1) through twenty (20) as if fully set forth herein.

26. Section 456.072(1)(hh), Florida Statutes (2010-2013), subjects a pharmacist to discipline for "[b]eing terminated from a treatment program for impaired practitioners, which is overseen by an impaired practitioner consultant as described in s. 456.076, for failure to comply, without good cause, with the terms of the monitoring or treatment contract entered into by the licensee, or for not successfully completing any drug treatment or alcohol treatment program."

27. Respondent repeatedly failed to comply with the recommendations of PRN and individual treatment providers, and was ultimately terminated from PRN on or about November 12, 2013.

28. Based on the foregoing, Respondent violated 456.072(1)(hh), Florida Statutes (2010-2013), by being terminated from a treatment program for impaired practitioners.

WHEREFORE, the Petitioner respectfully requests that the Board of Pharmacy enter an order imposing one or more of the following penalties: permanent revocation or suspension of Respondent's license, restriction of practice, imposition of an administrative fine, issuance of a reprimand, placement of the Respondent on probation, corrective action, refund of fees billed or collected, remedial education and/or any other relief that the Board of Pharmacy deems appropriate.

**STATE OF FLORIDA
DEPARTMENT OF HEALTH**

DEPARTMENT OF HEALTH,

Petitioner,

v.

CASE NO. 2013-17761

RICHARD ALONSO, R.PH.,

Respondent.

MOTION TO ASSESS COSTS
IN ACCORDANCE WITH SECTION 456.072(4)

The Department of Health, by and through counsel, moves the Board of Pharmacy for entry of a Final Order assessing costs against Respondent for the investigation and prosecution of this case in accordance with Section 456.072(4), Florida Statutes (2013). As grounds therefore, the Petitioner states the following:

1. At its next regularly scheduled meeting, the Board of Pharmacy will take up for consideration the above-styled disciplinary action and will enter a Final Order.

2. Section 456.072(4), Florida Statutes (2013), states, in pertinent part, as follows:

In addition to any other discipline imposed through final order, or citation, entered on or after July 1, 2001, under this section or discipline imposed through final order, or

citation, entered on or after July 1, 2001, for a violation of any practice act, the board, or the department when there is no board, shall assess costs related to the investigation and prosecution of the case. The costs related to the investigation and prosecution include, but are not limited to, salaries and benefits of personnel, costs related to the time spent by the attorney and other personnel working on the case, and any other expenses incurred by the department for the case. The board, or the department when there is no board, shall determine the amount of costs to be assessed after its consideration of an affidavit of itemized costs and any written objections thereto....

3. As evidenced in the attached affidavit (Exhibit A), the investigation and prosecution of this case has resulted in costs in the total amount of \$1,723.09, based on the following itemized statement of costs:

| | |
|-----------------------------|-------------------|
| Complaint: | \$54.66 |
| Investigation: | \$1,021.13 |
| Legal: | \$642.30 |
| Compliance: | \$5.00 |
| Sub Total: | \$1,723.09 |
| Expenses To Date: | \$0.00 |
| Prior Amount: | \$0.00 |
| Total Costs To Date: | \$1,723.09 |

4. The attached affidavit reflects the Department's costs for attorney time in this case as \$642.30 (Exhibit A). The costs of obtaining an affidavit from any outside attorney will be greater than \$642.30.

Therefore, the Department is not seeking costs for attorney time in this case.

5. Should Respondent file written objections to the assessment of costs, within ten (10) days of the date of this motion, specifying the grounds for the objections and the specific elements of the costs to which objections are made, Petitioner requests that the Board determine the amount of costs to be assessed based upon its consideration of the affidavit attached as Exhibit A and any timely-filed written objections.

6. Petitioner requests that the Board grant this motion and assess costs in the amount of \$1,080.79 as supported by competent, substantial evidence. This assessment of costs is in addition to any other discipline imposed by the Board and is in accordance with Section 456.072(4), Florida Statutes (2013).

WHEREFORE, the Department of Health requests that the Board of Pharmacy enter a Final Order assessing costs against Respondent in the amount of \$1,080.79.

In Re: The Emergency Restriction of the License of
Richard Alonso, R.Ph.
License Number PS 39780
Case Number 2013-17761

ORDER OF EMERGENCY RESTRICTION OF LICENSE

John H. Armstrong, MD, FACS, State Surgeon General and Secretary of Health, ORDERS the Emergency Restriction of the License of Richard Alonso, R. Ph. ("Mr. Alonso"), to practice as a pharmacist in the State of Florida. Mr. Alonso holds license number PS 39780. His address of record is 106 Masters Lane, Safe Harbor, Florida 34695. The following Findings of Fact and Conclusions of Law support the emergency restriction of Mr. Alonso's license to practice as a pharmacist in the State of Florida.

FINDINGS OF FACT

1. The Department of Health ("Department") is the state agency charged with regulating the practice of pharmacy pursuant to Chapters 20, 456, and 465, Florida Statutes (2010-2013). Section 456.073(8), Florida Statutes (2010-2013), empowers the State Surgeon General to summarily restrict Mr. Alonso's license to practice as a pharmacist in the State of Florida in accordance with Section 120.60(6), Florida Statutes (2010-2013).

2. At all times material to this Order, Mr. Alonso was a licensed

pharmacist within the state of Florida:

3. In March 2011, Mr. Alonso was arrested and charged with domestic battery after a verbal argument with his wife became physical. Mr. Alonso was intoxicated at the time of the incident.

4. In July 2011, the court approved Mr. Alonso to participate in a domestic violence deferred prosecution program. The court's order required Mr. Alonso to, among other things, refrain from consuming alcohol and complete alcohol counseling.

5. In May 2011, Mr. Alonso contacted Professionals Resource Network ("PRN"). PRN is designated as the State of Florida's impaired practitioners program for pharmacists.

6. On June 8, 2011, Mr. Alonso submitted to an evaluation by Dr. D.R., M.D., who diagnosed Mr. Alonso with alcohol dependence, generalized anxiety disorder, and depressive disorder. Dr. D.R. noted that residential treatment may be necessary in the future, but recommended that Mr. Alonso first participate in an intensive outpatient treatment program through PRN.

7. On June 21, 2011, Mr. Alonso was admitted to an intensive outpatient program at HealthCare Connection of Tampa. In addition to the

intensive outpatient program, Mr. Alonso also participated in Alcoholics Anonymous and a Professionals Group.

8. Mr. Alonso was discharged from HealthCare Connection of Tampa on September 29, 2011, with diagnoses of alcohol dependence in early, full remission; sedative/hypnotic or anxiolytic dependence in early, full remission; cocaine abuse in early, full remission; generalized anxiety disorder; and depressive disorder. Upon his discharge, it was recommended that Mr. Alonso participate in PRN monitoring, continue psychiatric care, and continue in Alcoholics Anonymous.

9. According to Section 893.03(2), Florida Statutes (2010-2013), cocaine is a Schedule II controlled substance that has a high potential for abuse and has a currently accepted but severely restricted medical use in treatment in the United States. Abuse of cocaine may lead to severe psychological or physical dependence.

10. On June 24, 2011, Mr. Alonso signed a five year Dual Diagnosis Monitoring Contract with PRN, requiring him to, among other things, refrain from the use of alcohol and obtain psychiatric treatment.

11. On April 21, 2012, Mr. Alonso was arrested for crashing into a tree in front of a residential home and leaving the scene.

12. On April 23, 2012, PRN learned of Mr. Alonso's arrest.

13. On April 24, 2012, Mr. Alonso was admitted to a detoxification program at Town and Country Hospital. However, Mr. Alonso left the program against medical advice the same day. Mr. Alonso was subsequently admitted to a detoxification program at Turning Point the same evening.

14. On April 27, 2012, Mr. Alonso left the detoxification program at Turning Point against medical advice, after being informed that it was recommended that he enter a residential treatment program. The same day, Mr. Alonso informed PRN that he would not agree to a residential treatment program, but would attend an intensive outpatient program.

15. On April 30, 2012, PRN informed Mr. Alonso that he would be referred to the Department if he did not comply with PRN's recommendations. On May 2, 2012, Mr. Alonso informed PRN that he decided to "opt-out of PRN." On May 7, 2012, PRN referred Mr. Alonso to the Department.

16. On or about July 17, 2012, Dr. N.D., M.D., a physician at Turning Point, evaluated Mr. Alonso. Dr. N.D. diagnosed Mr. Alonso with alcohol dependence, cocaine abuse, cannabis abuse and substance-induced mood disorder with depressive features.

17. According to Section 893.03(1), Florida Statutes (2010-2013),

cannabis is a Schedule I controlled substance that has a high potential for abuse and has no currently accepted medical use in treatment in Florida. Its use under medical supervision does not meet accepted safety standards.

18. On or about October 16, 2012, Mr. Alonso re-enrolled in PRN and signed a five-year monitoring contract.

19. On or about August 9, 2013, Mr. Alonso provided a urine sample for drug screen. The urine sample tested positive for ethanol at a level of 0.374, and EtG and EtS¹ levels consistent with alcohol use. PRN referred Mr. Alonso to Dr. J.S., M.D., a psychiatrist, for evaluation.

20. On or about September 17, 2013, Dr. J.S. examined Mr. Alonso. Dr. J.S. diagnosed Mr. Alonso with alcohol dependence, cocaine abuse, cannabis abuse, tobacco use disorder and adjustment disorder. A contemporaneous drug screen was performed, which was positive for cocaine and alcohol. During the interview, Mr. Alonso adamantly denied using cocaine. Dr. J.S. ultimately determined that Mr. Alonso was not fit to practice pharmacy with reasonable skill and safety. Dr. J.S. recommended that Mr. Alonso enter residential treatment.

21. PRN established a November 4, 2013, deadline for Mr. Alonso to

¹ Ethyl glucuronide (EtG) and ethyl sulfate (EtS) is a laboratory based urine test which detects the presence of alcohol up to 80 hours after consumption.

enter residential treatment. Mr. Alonso failed to meet that deadline.

22. On or about November 8, 2013, Mr. Alonso went to the residence of his PRN compliance manager, and confronted her outside the residence.

23. On or about November 12, 2013, PRN terminated Mr. Alonso's contract for non-compliance.

24. Pharmacists work with highly addictive and potentially dangerous controlled substances. Pharmacists must possess good judgment and clear thinking.

25. Mr. Alonso's dependence on alcohol, cocaine and cannabis, and his aggressive and defiant behavior toward PRN indicate that he does not possess the requisite judgment necessary to safely practice pharmacy.

26. Mr. Alonso's refusal to comply with the terms of his PRN contract indicate that his violations of the laws which govern the practice of pharmacy are likely to continue.

27. A less restrictive sanction would not sufficiently protect the public from the threat that Mr. Alonso poses. Mr. Alonso's ongoing refusal to fully address his persistent polysubstance dependence renders him an immediate, serious danger. Nothing short of the immediate restriction of Mr. Alonso's license to practice pharmacy, according to the terms of this order, will

sufficiently protect the public.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the State Surgeon General concludes as follows:

1. The State Surgeon General has jurisdiction over this matter pursuant to Sections 20.43 and 456.073(8), Florida Statutes (2010-2013), and Chapter 465, Florida Statutes (2010-2013).

2. Section 465.016(1)(m), Florida Statutes (2010-2013), subjects a pharmacist to discipline, including restriction, for "[b]eing unable to practice pharmacy with reasonable skill and safety by reason of illness, use of drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition."

3. Mr. Alonso violated Section 465.016(1)(m), Florida Statutes (2010-2013), by being unable to practice pharmacy by reason of use of alcohol, drugs, narcotics or chemicals.

4. Section 456.072(1)(hh), Florida Statutes (2010-2013), subjects a pharmacist to discipline, including restriction, for "[b]eing terminated from a treatment program for impaired practitioners, which is overseen by an impaired practitioner consultant as described in s. 456.076, for failure to comply, without

good cause, with the terms of the monitoring or treatment contract entered into by the licensee, or for not successfully completing any drug treatment or alcohol treatment program."

5. Mr. Alonso violated Section 456.072(1)(hh), Florida Statutes, by being terminated from PRN.

6. Section 120.60(6), Florida Statutes (2010-2013), authorizes the Department to restrict a pharmacist's license if the Department finds that the pharmacist presents an immediate, serious danger to the public health, safety, or welfare.

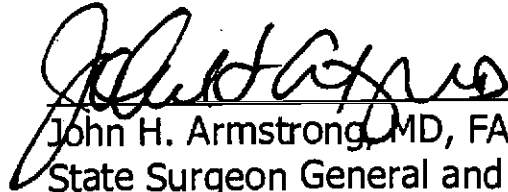

7. Mr. Alonso's continued practice as a pharmacist constitutes an immediate serious danger to the health, safety, and welfare of the public and this summary procedure is fair under the circumstances to adequately protect the public.

WHEREFORE, in accordance with Section 120.60(6), Florida Statutes (2012-2013), it is **ORDERED THAT:**

1. The license of Richard Alonso, R.Ph., license number PS 39780, is hereby immediately restricted to prohibit him from practicing pharmacy until such time as PRN recommends to the Department that Mr. Alonso is safe to practice pharmacy.

2. A proceeding seeking formal discipline of the license of Richard Alonso to practice as a pharmacist will be promptly instituted and acted upon in compliance with Sections 120.569 and 120.60(6), Florida Statutes (2010-2013).

CASE NO. 2013-04359

WALGREENS COMPANY, #4391,
Respondent.

MOTION FOR FINAL ORDER AFTER HEARING NOT INVOLVING DISPUTED
ISSUES OF MATERIAL FACTS

COMES NOW, the Petitioner, by and through its undersigned counsel, and moves the Board of Pharmacy for entry of a Final Order in the above-styled cause on a date and time that has been determined and noticed by the Board. As grounds therefore, the Petitioner would state the following:

1. Petitioner previously filed an Administrative Complaint against Respondent alleging that Respondent had violated the provisions of Florida Statutes, as set forth therein. The Department, by filing the Administrative Complaint, is seeking to discipline the Respondent's license to practice as a community pharmacy, thereby affecting the Respondent's substantial interests.

2. On or about May 20, 2014, Petitioner served Respondent with the Amended Administrative Complaint via Respondent's address of record with the Department of Health. The Department, by serving the Respondent with the Amended Administrative Complaint, provided the Respondent written notice of its decision to seek discipline of the Respondent's license to practice as a community pharmacy.

3. The Respondent has filed an Election of Rights Form or other responsive pleading evincing, or has otherwise indicated, that Respondent does not dispute the material facts alleged in the Administrative Complaint.

4. There are no disputed issues of material fact to be resolved by the Board.

5. Respondent has been advised, by a copy of this Motion, that a copy of the investigative file in this case shall be furnished to the Board to establish a prima facie case regarding the violations as set forth in the Administrative Complaint.

WHEREFORE the parties respectfully request the Board of Pharmacy, after allowing the Respondent the opportunity to present oral and/or written evidence in mitigation of the Administrative Complaint, enter a Final Order imposing whatever discipline upon the Respondent's license that the Board deems appropriate.

Respectfully Submitted,

MOTION TO ASSESS COSTS IN ACCORDANCE
WITH SECTION 456.072(4)

COMES NOW the Department of Health, by and through undersigned counsel, and moves the Board of Pharmacy for the entry of a Final Order assessing costs against the Respondent for the investigation and prosecution of this case in accordance with Section 456.072(4), Florida Statutes. As grounds, therefore, the Petitioner states the following:

4. Should the Respondent file written objections to the assessment of costs, within ten (10) days of the date of this motion, specifying the grounds for the objections and the specific elements of the costs to which the objections are made, the Petitioner requests that the Board determine the amount of costs to be assessed based upon its consideration of the affidavit attached as Exhibit A and any timely-filed written objections.

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

- 1) My name is Shane Walters.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.
- 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2013-04359** (Department of Health v **Walgreens Company, #4391**) are **SIX HUNDRED FIFTY-EIGHT DOLLARS AND NINETY-THREE CENTS (\$658.93)**.
- 6) The costs for DOH case number(s) **2013-04359** (Department of Health v **Walgreens Company, #4391**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.
- 7) The itemized costs and expenses for DOH case number(s) **2013-04359** (Department of Health v **Walgreens Company, #4391**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.
- 8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators

and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

- 9) Shane Walters, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

Re: DOH vs. Walgreens Company, #4391
DOH Case Number: 2013-04359

Dear Mr. Weinstein:

I am in receipt of your election of rights requesting a hearing not involving disputed issues of material fact executed by you on May 29, 2014, concerning the above referenced case. This means that the facts alleged in the Amended Administrative Complaint are uncontested. This is an important distinction because, by law, the Board cannot resolve disputes of material fact in this case or any disciplinary case. Since you are requesting a hearing not involving disputed issues of material fact, you are not admitting the facts alleged in the Amended Administrative Complaint, however, you are agreeing not to contest these facts and to limit presentation to legal argument, if any, and to matters in mitigation or extenuation.

Our office is now preparing this case to be presented at the next regularly scheduled meeting of the Florida Board of Pharmacy. Please be advised your case will be set at the convenience of the Department and/or the Board and you will be notified of the date and time approximately two weeks prior to the meeting.

Thank for your attention and cooperation in this matter. Should you have any questions, please feel free to contact this office.

Sincerely,

A handwritten signature in black ink, appearing to read "Matthew G. Witters".

CASE NO. 2013-04374

WALGREEN COMPANY #03629,
Respondent.

MOTION FOR FINAL ORDER AFTER HEARING NOT INVOLVING DISPUTED
ISSUES OF MATERIAL FACTS

COMES NOW, the Petitioner, by and through its undersigned counsel, and moves the Board of Pharmacy for entry of a Final Order in the above-styled cause on a date and time that has been determined and noticed by the Board. As grounds therefore, the Petitioner would state the following:

1. Petitioner previously filed an Administrative Complaint against Respondent alleging that Respondent had violated the provisions of Florida Statutes, as set forth therein. The Department, by filing the Administrative Complaint, is seeking to discipline the Respondent's license to practice as a pharmacy, thereby affecting the Respondent's substantial interests.
2. On or about May 20, 2014, Petitioner served Respondent with the Administrative Complaint via Respondent's address of record with the

Department of Health. The Department, by serving the Respondent with the Administrative Complaint, provided the Respondent written notice of its decision to seek discipline of the Respondent's license to practice as a pharmacy.

3. The Respondent has filed an Election of Rights Form or other responsive pleading evincing, or has otherwise indicated, that Respondent does not dispute the material facts alleged in the Administrative Complaint.

4. There are no disputed issues of material fact to be resolved by the Board.

5. Respondent has been advised, by a copy of this Motion, that a copy of the investigative file in this case shall be furnished to the Board to establish a prima facie case regarding the violations as set forth in the Administrative Complaint.

WHEREFORE the parties respectfully request the Board of Pharmacy, after allowing the Respondent the opportunity to present oral and/or written evidence in mitigation of the Administrative Complaint, enter a Final Order imposing whatever discipline upon the Respondent's license that the Board deems appropriate.

- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.
- 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2013-04374** (Department of Health v **WALGREEN COMPANY**) are **FIVE HUNDRED ONE DOLLAR AND SEVENTY-SEVEN CENTS (\$501.77)**.
- 6) The costs for DOH case number(s) **2013-04374** (Department of Health v **WALGREEN COMPANY**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.
- 7) The itemized costs and expenses for DOH case number(s) **2013-04374** (Department of Health v **WALGREEN COMPANY**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.
- 8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators

and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

- 9) Shane Walters, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

Re: DOH vs. Walgreen Company #03629
DOH Case Number: 2013-04374

Dear Mr. Weinstein:

I am in receipt of your client's election of rights requesting a hearing not involving disputed issues of material fact, executed by your client on May 29, 2014, concerning the above referenced case. This means that the facts alleged in the Administrative Complaint are uncontested. This is an important distinction because, by law, the Board cannot resolve disputes of material fact in this case or any disciplinary case. Since your client is requesting a hearing not involving disputed issues of material fact, he/she is not admitting the facts alleged in the Administrative Complaint, however, your client is agreeing not to contest these facts and to limit presentation to legal argument, if any, and to matters in mitigation or extenuation.

Our office is now preparing this case to be presented at the next regularly scheduled meeting of the Florida Board of Pharmacy. Please be advised your client's case will be set at the convenience of the Department and/or the Board, and your office will receive notification of the date and time approximately two weeks prior to the meeting.

Thank for your attention and cooperation in this matter. Should you have any questions, please feel free to contact this office.

Sincerely,

A handwritten signature in black ink, appearing to read "Matthew Witters".

MOTION FOR FINAL ORDER AFTER HEARING NOT INVOLVING DISPUTED
ISSUES OF MATERIAL FACTS

COMES NOW, the Petitioner, by and through its undersigned counsel, and moves the Board of Pharmacy for entry of a Final Order in the above-styled cause on a date and time that has been determined and noticed by the Board. As grounds therefore, the Petitioner would state the following:

1. Petitioner previously filed an Administrative Complaint against Respondent alleging that Respondent had violated the provisions of Florida Statutes, as set forth therein. The Department, by filing the Administrative Complaint, is seeking to discipline the Respondent's license to practice as a community pharmacy, thereby affecting the Respondent's substantial interests.

2. On or about May 20, 2014, Petitioner served Respondent with the Amended Administrative Complaint via Respondent's address of record with the Department of Health. The Department, by serving the Respondent with the Amended Administrative Complaint, provided the Respondent written notice of its decision to seek discipline of the Respondent's license to practice as a community pharmacy.

3. The Respondent has filed an Election of Rights Form or other responsive pleading evincing, or has otherwise indicated, that Respondent does not dispute the material facts alleged in the Administrative Complaint.

4. There are no disputed issues of material fact to be resolved by the Board.

5. Respondent has been advised, by a copy of this Motion, that a copy of the investigative file in this case shall be furnished to the Board to establish a prima facie case regarding the violations as set forth in the Administrative Complaint.

WHEREFORE the parties respectfully request the Board of Pharmacy, after allowing the Respondent the opportunity to present oral and/or written evidence in mitigation of the Administrative Complaint, enter a Final Order imposing whatever discipline upon the Respondent's license that the Board deems appropriate.

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

- 1) My name is Shane Walters.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.
- 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2013-04366** (Department of Health v **Walgreens Company, #3836**) are **ONE THOUSAND THIRY-THREE DOLLARS AND SIXTY-ONE CENTS (\$1,033.61)**.
- 6) The costs for DOH case number(s) **2013-04366** (Department of Health v **Walgreens Company, #3836**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.
- 7) The itemized costs and expenses for DOH case number(s) **2013-04366** (Department of Health v **Walgreens Company, #3836**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.
- 8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators

and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

Re: DOH vs. Walgreens Company, #3836
DOH Case Number: 2013-04366

Dear Mr. Weinstein:

I am in receipt of your election of rights requesting a hearing not involving disputed issues of material fact executed by you on May 29, 2014, concerning the above referenced case. This means that the facts alleged in the Amended Administrative Complaint are uncontested. This is an important distinction because, by law, the Board cannot resolve disputes of material fact in this case or any disciplinary case. Since you are requesting a hearing not involving disputed issues of material fact, you are not admitting the facts alleged in the Amended Administrative Complaint, however, you are agreeing not to contest these facts and to limit presentation to legal argument, if any, and to matters in mitigation or extenuation.

Our office is now preparing this case to be presented at the next regularly scheduled meeting of the Florida Board of Pharmacy. Please be advised your case will be set at the convenience of the Department and/or the Board and you will be notified of the date and time approximately two weeks prior to the meeting.

Thank for your attention and cooperation in this matter. Should you have any questions, please feel free to contact this office.

Sincerely,

A handwritten signature in black ink, appearing to read "Matthew G. Witters".

Walgreens Store Number 3836 Response to Complaint

1. The Florida Department of Health has alleged that Walgreens #03836 has violated Florida Statutes Sections 465.016(1)(h)(r), 465.023(1)(c)(e), and 465.072(1)(f)(k)(dd).
2. The totalities of the allegations contained in the complaint are based upon a Memorandum of Agreement (MOA) entered into between Walgreen Co. (Walgreens) and the Drug Enforcement Administration (DEA) dated June 11, 2013.
3. This MOA was entered into between Walgreens and the DEA in order to avoid the uncertainty and expense of litigation, and in the furtherance of Walgreens' and the DEA's belief that a settlement of specific administrative matters pending at the time of the MOA was in the public interest.
4. The relevant conduct covered by the MOA included the following:
 - a. Conduct alleged in the November 26, 2012, February 4, 2013, February 11, 2013, and February 19, 2013 Orders to Show Cause (OTSCs) issued to Walgreens #03629, #04727, #06997, #03836, #04391, and #03099, and in DEA's filings in *In the Matter of Walgreen Co.*, Docket Nos. 13-9, 13-10, 13-11, 13-16, 13-18, and 13-20, occurring on or before the effective date of the MOA;
 - b. Failure of Walgreens Pharmacists at the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 to exercise their corresponding responsibility to ensure that controlled substances were dispensed pursuant to prescriptions issued for legitimate medical purposes by practitioners acting in the usual course of their professional practice, as required by 21 C.F.R. § 1306.04(a), and dispensing by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 of controlled substances pursuant to purported prescriptions that were otherwise invalid under 21 C.F.R. Part 1306, on or before the effective date of the MOA;
 - c. Dispensing by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 of controlled substances to individuals Walgreens knew or should have known were diverting controlled substances on or before the effective date of the MOA;

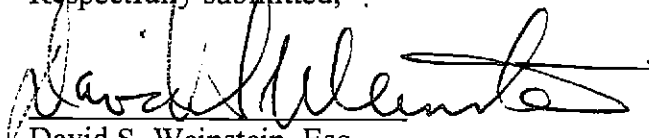

- d. Dispensing by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 of controlled substances pursuant to prescriptions issued by a physician who did not have a current, valid DEA registration on or before the effective date of the MOA;
 - e. Refusal or negligent failure by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 to make, keep, or furnish any record, report, notification, declaration, order or order form, statement, invoice, or information required under the CSA and its implementing regulations, including, but not limited to, failure by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 to maintain accurate records pursuant to 21 C.F.R. Part 1304 and to properly label and/or mark prescriptions pursuant to 21 C.F.R. Part 1306, on or before the effective date of the MOA;
 - f. Conduct inconsistent with the CSA and its implementing regulations on or before the effective date of the MOA, by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099; and
 - g. Failure by any Walgreens registrant, including the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 to adhere to the provisions of the April 7, 2011 Administrative Memorandum of Agreement between Walgreen Co. and DEA.
5. In the MOA Walgreens acknowledged that, (1) certain retail pharmacies did on some occasions dispense certain controlled substances in a manner not fully consistent with its compliance obligations, and (2) its recordkeeping practices regarding the dispensing of controlled substance from certain retail pharmacies utilizing its CPO Facilities as central-fill pharmacies did not require such original prescriptions to be marked "CENTRAL FILL."
6. Under the terms of the MOA Walgreens has the following obligations:
- a. Walgreens agrees to maintain a compliance program in an effort to detect and prevent diversion of controlled substances as required under the CSA and applicable DEA regulations. This program shall include procedures to identify the common signs associated with the diversion of controlled substances. The program shall also include the routine and periodic training of all Walgreens pharmacy employees responsible for dispensing controlled substances on the elements of the compliance program and their responsibilities under the CSA and applicable DEA regulations. This compliance program shall apply to all Walgreens Pharmacies and CPO facilities.
 - b. Walgreens shall implement and maintain policies and procedures in an effort to ensure that prescriptions for controlled substances are only dispensed to authorized individuals pursuant to federal and state law and

regulations. Walgreens shall maintain its current policy that requires all customers to provide identifying information and shall also require valid photo identification as required by and in accordance with controlling state law where the pharmacy is located. Documents maintained by Walgreens pursuant to any obligation under federal and/or state law regarding the verification of an ultimate user's identity shall be kept readily available by the pharmacy, and shall be produced to DEA agents, task force officers or investigators on request.

- c. Walgreens shall direct and train its pharmacists that their corresponding responsibility under federal law requires them not to fill a prescription that such pharmacist knows or has reason to know was issued for other than a legitimate medical purpose or by a practitioner acting outside the usual course of professional practice.
 - d. In connection with Walgreens' recordkeeping obligations, Walgreens agrees to maintain records regarding the dispensing of controlled substances in electronic format, in addition to the regularly maintained paper files, including records relating to which Distribution Center and/or CPO facility shipped the controlled substance to the Pharmacy. These records shall be made available to DEA agents, task force officers or investigators, upon demand, without the need for a warrant or subpoena, provided that the DEA agents, task force officers or investigators present appropriate identification. Walgreens shall provide electronic reports of dispensing on an ad hoc basis in response to DEA requests within a reasonable time.
 - e. Walgreens agrees to the surrender of the DEA registrations to dispense controlled substances for Schedules II-V at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 until May 26, 2014.
7. Since the date of the entry of the MOA, consistent with the terms of the MOA and as set forth in paragraph 6 above, Walgreens has implemented and maintains:
- a. A compliance program;
 - b. Policies and procedures to ensure that prescriptions for controlled substances are only dispensed to authorized individuals pursuant to federal and state law and regulations;
 - c. Training programs and directions for its pharmacists; and
 - d. Records regarding the dispensing of controlled substances in electronic format, in addition to the regularly maintained paper files, including records relating to which Distribution Center and/or CPO facility shipped the controlled substance to the Pharmacy.

8. At Walgreens' request, DEA and DOJ agreed to disclose the terms of the MOA to any other agency and will represent that the allegations raised by DEA, as defined in the Covered Conduct contained in the MOA, have been adequately addressed.
9. Walgreens believes that the obligations set forth in the MOA and the ongoing compliance with those obligations are sufficient to address the penalties set forth in Florida Statutes, Section 456.072(2) and to protect the public and rehabilitate the licensee.

PRELIMINARY CASE REMARKS

This is a one count administrative complaint which alleges that the Respondent entered into a settlement agreement with the Drug Enforcement Administration by which Respondent surrendered its registration to dispense Schedule II through Schedule V controlled substances until May 26, 2014.

STATE OF FLORIDA
DEPARTMENT OF HEALTH

DEPARTMENT OF HEALTH,
Petitioner,

v.

CASE NO. 2013-04377

WALGREEN COMPANY #03099,
Respondent.

MOTION FOR FINAL ORDER AFTER HEARING NOT INVOLVING DISPUTED
ISSUES OF MATERIAL FACTS

COMES NOW, the Petitioner, by and through its undersigned counsel, and moves the Board of Pharmacy for entry of a Final Order in the above-styled cause on a date and time that has been determined and noticed by the Board. As grounds therefore, the Petitioner would state the following:

1. Petitioner previously filed an Administrative Complaint against Respondent alleging that Respondent had violated the provisions of Florida Statutes, as set forth therein. The Department, by filing the Administrative Complaint, is seeking to discipline the Respondent's license to practice as a pharmacy, thereby affecting the Respondent's substantial interests.

2. On or about May 20, 2014, Petitioner served Respondent with the Administrative Complaint via Respondent's address of record with the

Department of Health. The Department, by serving the Respondent with the Administrative Complaint, provided the Respondent written notice of its decision to seek discipline of the Respondent's license to practice as a pharmacy.

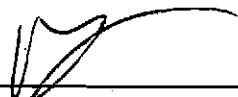

3. The Respondent has filed an Election of Rights Form or other responsive pleading evincing, or has otherwise indicated, that Respondent does not dispute the material facts alleged in the Administrative Complaint.

4. There are no disputed issues of material fact to be resolved by the Board.

5. Respondent has been advised, by a copy of this Motion, that a copy of the investigative file in this case shall be furnished to the Board to establish a prima facie case regarding the violations as set forth in the Administrative Complaint.

WHEREFORE the parties respectfully request the Board of Pharmacy, after allowing the Respondent the opportunity to present oral and/or written evidence in mitigation of the Administrative Complaint, enter a Final Order imposing whatever discipline upon the Respondent's license that the Board deems appropriate.

WITH SECTION 456.072(4)

COMES NOW the Department of Health, by and through undersigned counsel, and moves the Board of Pharmacy for the entry of a Final Order assessing costs against the Respondent for the investigation and prosecution of this case in accordance with Section 456.072(4), Florida Statutes. Such costs related to the investigation and prosecution include, but are not limited to, salaries and benefits of personnel, costs related to the time spent by the attorney and other personnel working on the case, and any other expenses incurred by the department for the case. | Total Costs to Date: | | \$747.41 |

Therefore, the Petitioner seeks an assessment of costs against the Respondent in the amount of \$358.61 as evidenced in the attached affidavit. (Exhibit A).

4. Should the Respondent file written objections to the assessment of costs, within ten (10) days of the date of this motion, specifying the grounds for the objections and the specific elements of the costs to which the objections are made, the Petitioner requests that the Board determine the amount of costs to be assessed based upon its consideration of the affidavit attached as Exhibit A and any timely-filed written objections.

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

- 1) My name is Shane Walters.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.
- 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2013-04377** (Department of Health v **WALGREEN COMPANY**) are **SEVEN HUNDRED FORTY-SEVEN DOLLARS AND FORTY-ONE CENTS (\$747.41)**.
- 6) The costs for DOH case number(s) **2013-04377** (Department of Health v **WALGREEN COMPANY**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.
- 7) The itemized costs and expenses for DOH case number(s) **2013-04377** (Department of Health v **WALGREEN COMPANY**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.
- 8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators

and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

- 9) Shane Walters, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

Re: DOH vs. Walgreen Company #03099
DOH Case Number: 2013-04377

Dear Mr. Weinstein:

I am in receipt of your client's election of rights requesting a hearing not involving disputed issues of material fact, executed by your client on May 29, 2014, concerning the above referenced case. This means that the facts alleged in the Administrative Complaint are uncontested. This is an important distinction because, by law, the Board cannot resolve disputes of material fact in this case or any disciplinary case. Since your client is requesting a hearing not involving disputed issues of material fact, he/she is not admitting the facts alleged in the Administrative Complaint, however, your client is agreeing not to contest these facts and to limit presentation to legal argument, if any, and to matters in mitigation or extenuation.

Our office is now preparing this case to be presented at the next regularly scheduled meeting of the Florida Board of Pharmacy. Please be advised your client's case will be set at the convenience of the Department and/or the Board, and your office will receive notification of the date and time approximately two weeks prior to the meeting.

Thank for your attention and cooperation in this matter. Should you have any questions, please feel free to contact this office.

Sincerely,

A handwritten signature in black ink, appearing to read "Matthew Witters".

MOTION FOR FINAL ORDER AFTER HEARING NOT INVOLVING DISPUTED
ISSUES OF MATERIAL FACTS

COMES NOW, the Petitioner, by and through its undersigned counsel, and moves the Board of Pharmacy for entry of a Final Order in the above-styled cause on a date and time that has been determined and noticed by the Board. As grounds therefore, the Petitioner would state the following:

1. Petitioner previously filed an Administrative Complaint against Respondent alleging that Respondent had violated the provisions of Florida Statutes, as set forth therein. The Department, by filing the Administrative Complaint, is seeking to discipline the Respondent's license to practice as a pharmacy, thereby affecting the Respondent's substantial interests.
2. On or about May 20, 2014, Petitioner served Respondent with the Administrative Complaint via Respondent's address of record with the

Department of Health. The Department, by serving the Respondent with the Administrative Complaint, provided the Respondent written notice of its decision to seek discipline of the Respondent's license to practice as a pharmacy.

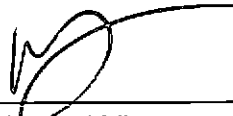

3. The Respondent has filed an Election of Rights Form or other responsive pleading evincing, or has otherwise indicated, that Respondent does not dispute the material facts alleged in the Administrative Complaint.

4. There are no disputed issues of material fact to be resolved by the Board.

5. Respondent has been advised, by a copy of this Motion, that a copy of the investigative file in this case shall be furnished to the Board to establish a prima facie case regarding the violations as set forth in the Administrative Complaint.

WHEREFORE the parties respectfully request the Board of Pharmacy, after allowing the Respondent the opportunity to present oral and/or written evidence in mitigation of the Administrative Complaint, enter a Final Order imposing whatever discipline upon the Respondent's license that the Board deems appropriate.

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

- 1) My name is Shane Walters.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. - 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2013-04363** (Department of Health v **WALGREEN COMPANY**) are **SIX HUNDRED TWELVE DOLLARS AND TWENTY-SIX CENTS (\$612.26)**.
- 6) The costs for DOH case number(s) **2013-04363** (Department of Health v **WALGREEN COMPANY**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.
- 7) The itemized costs and expenses for DOH case number(s) **2013-04363** (Department of Health v **WALGREEN COMPANY**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.
- 8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators

and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

Re: DOH vs. Walgreen Company #04727
DOH Case Number: 2013-04363

Dear Mr. Weinstein:

I am in receipt of your client's election of rights requesting a hearing not involving disputed issues of material fact, executed by your client on May 29, 2014, concerning the above referenced case. This means that the facts alleged in the Administrative Complaint are uncontested. This is an important distinction because, by law, the Board cannot resolve disputes of material fact in this case or any disciplinary case. Since your client is requesting a hearing not involving disputed issues of material fact, he/she is not admitting the facts alleged in the Administrative Complaint, however, your client is agreeing not to contest these facts and to limit presentation to legal argument, if any, and to matters in mitigation or extenuation.

Our office is now preparing this case to be presented at the next regularly scheduled meeting of the Florida Board of Pharmacy. Please be advised your client's case will be set at the convenience of the Department and/or the Board, and your office will receive notification of the date and time approximately two weeks prior to the meeting.

Thank for your attention and cooperation in this matter. Should you have any questions, please feel free to contact this office.

Sincerely,

Matthew Witters

Walgreens Store Number 4727 Response to Complaint

1. The Florida Department of Health has alleged that Walgreens #04727 has violated Florida Statutes Sections 465.016(1)(h)(r), 465.023(1)(c)(e), and 465.072(1)(f)(k)(dd).
2. The totalities of the allegations contained in the complaint are based upon a Memorandum of Agreement (MOA) entered into between Walgreen Co. (Walgreens) and the Drug Enforcement Administration (DEA) dated June 11, 2013.
3. This MOA was entered into between Walgreens and the DEA in order to avoid the uncertainty and expense of litigation, and in the furtherance of Walgreens' and the DEA's belief that a settlement of specific administrative matters pending at the time of the MOA was in the public interest.
4. The relevant conduct covered by the MOA included the following:
 - a. Conduct alleged in the November 26, 2012, February 4, 2013, February 11, 2013, and February 19, 2013 Orders to Show Cause (OTSCs) issued to Walgreens #03629, #04727, #06997, #03836, #04391, and #03099, and in DEA's filings in *In the Matter of Walgreen Co.*, Docket Nos. 13-9, 13-10, 13-11, 13-16, 13-18, and 13-20, occurring on or before the effective date of the MOA;
 - b. Failure of Walgreens Pharmacists at the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 to exercise their corresponding responsibility to ensure that controlled substances were dispensed pursuant to prescriptions issued for legitimate medical purposes by practitioners acting in the usual course of their professional practice, as required by 21 C.F.R. § 1306.04(a), and dispensing by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 of controlled substances pursuant to purported prescriptions that were otherwise invalid under 21 C.F.R. Part 1306, on or before the effective date of the MOA;
 - c. Dispensing by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 of controlled substances to individuals Walgreens knew or should have known were diverting controlled substances on or before the effective date of the MOA;

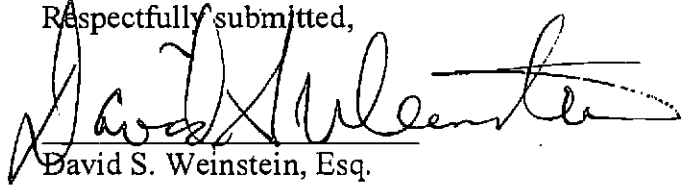

- d. Dispensing by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 of controlled substances pursuant to prescriptions issued by a physician who did not have a current, valid DEA registration on or before the effective date of the MOA;
 - e. Refusal or negligent failure by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 to make, keep, or furnish any record, report, notification, declaration, order or order form, statement, invoice, or information required under the CSA and its implementing regulations, including, but not limited to, failure by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 to maintain accurate records pursuant to 21 C.F.R. Part 1304 and to properly label and/or mark prescriptions pursuant to 21 C.F.R. Part 1306, on or before the effective date of the MOA;
 - f. Conduct inconsistent with the CSA and its implementing regulations on or before the effective date of the MOA, by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099; and
 - g. Failure by any Walgreens registrant, including the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 to adhere to the provisions of the April 7, 2011 Administrative Memorandum of Agreement between Walgreen Co. and DEA.
5. In the MOA Walgreens acknowledged that, (1) certain retail pharmacies did on some occasions dispense certain controlled substances in a manner not fully consistent with its compliance obligations, and (2) its recordkeeping practices regarding the dispensing of controlled substance from certain retail pharmacies utilizing its CPO Facilities as central-fill pharmacies did not require such original prescriptions to be marked "CENTRAL FILL."
 6. Under the terms of the MOA Walgreens has the following obligations:
 - a. Walgreens agrees to maintain a compliance program in an effort to detect and prevent diversion of controlled substances as required under the CSA and applicable DEA regulations. This program shall include procedures to identify the common signs associated with the diversion of controlled substances. The program shall also include the routine and periodic training of all Walgreens pharmacy employees responsible for dispensing controlled substances on the elements of the compliance program and their responsibilities under the CSA and applicable DEA regulations. This compliance program shall apply to all Walgreens Pharmacies and CPO facilities.
 - b. Walgreens shall implement and maintain policies and procedures in an effort to ensure that prescriptions for controlled substances are only dispensed to authorized individuals pursuant to federal and state law and

regulations. Walgreens shall maintain its current policy that requires all customers to provide identifying information and shall also require valid photo identification as required by and in accordance with controlling state law where the pharmacy is located. Documents maintained by Walgreens pursuant to any obligation under federal and/or state law regarding the verification of an ultimate user's identity shall be kept readily available by the pharmacy, and shall be produced to DEA agents, task force officers or investigators on request.

- c. Walgreens shall direct and train its pharmacists that their corresponding responsibility under federal law requires them not to fill a prescription that such pharmacist knows or has reason to know was issued for other than a legitimate medical purpose or by a practitioner acting outside the usual course of professional practice.
 - d. In connection with Walgreens' recordkeeping obligations, Walgreens agrees to maintain records regarding the dispensing of controlled substances in electronic format, in addition to the regularly maintained paper files, including records relating to which Distribution Center and/or CPO facility shipped the controlled substance to the Pharmacy. These records shall be made available to DEA agents, task force officers or investigators, upon demand, without the need for a warrant or subpoena, provided that the DEA agents, task force officers or investigators present appropriate identification. Walgreens shall provide electronic reports of dispensing on an ad hoc basis in response to DEA requests within a reasonable time.
 - e. Walgreens agrees to the surrender of the DEA registrations to dispense controlled substances for Schedules II-V at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 until May 26, 2014.
7. Since the date of the entry of the MOA, consistent with the terms of the MOA and as set forth in paragraph 6 above, Walgreens has implemented and maintains:
- a. A compliance program;
 - b. Policies and procedures to ensure that prescriptions for controlled substances are only dispensed to authorized individuals pursuant to federal and state law and regulations;
 - c. Training programs and directions for its pharmacists; and
 - d. Records regarding the dispensing of controlled substances in electronic format, in addition to the regularly maintained paper files, including records relating to which Distribution Center and/or CPO facility shipped the controlled substance to the Pharmacy.

8. At Walgreens' request, DEA and DOJ agreed to disclose the terms of the MOA to any other agency and will represent that the allegations raised by DEA, as defined in the Covered Conduct contained in the MOA, have been adequately addressed.
9. Walgreens believes that the obligations set forth in the MOA and the ongoing compliance with those obligations are sufficient to address the penalties set forth in Florida Statutes, Section 456.072(2) and to protect the public and rehabilitate the licensee.

MOTION FOR FINAL ORDER AFTER HEARING NOT INVOLVING DISPUTED
ISSUES OF MATERIAL FACTS

COMES NOW, the Petitioner, by and through its undersigned counsel, and moves the Board of Pharmacy for entry of a Final Order in the above-styled cause on a date and time that has been determined and noticed by the Board. As grounds therefore, the Petitioner would state the following:

1. Petitioner previously filed an Administrative Complaint against Respondent alleging that Respondent had violated the provisions of Florida Statutes, as set forth therein. The Department, by filing the Administrative Complaint, is seeking to discipline the Respondent's license to practice as a community pharmacy, thereby affecting the Respondent's substantial interests.

2. On or about May 20, 2014, Petitioner served Respondent with the Amended Administrative Complaint via Respondent's address of record with the Department of Health. The Department, by serving the Respondent with the Amended Administrative Complaint, provided the Respondent written notice of its decision to seek discipline of the Respondent's license to practice as a community pharmacy.

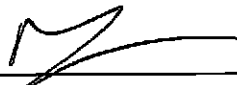

3. The Respondent has filed an Election of Rights Form or other responsive pleading evincing, or has otherwise indicated, that Respondent does not dispute the material facts alleged in the Administrative Complaint.

4. There are no disputed issues of material fact to be resolved by the Board.

5. Respondent has been advised, by a copy of this Motion, that a copy of the investigative file in this case shall be furnished to the Board to establish a prima facie case regarding the violations as set forth in the Administrative Complaint.

WHEREFORE the parties respectfully request the Board of Pharmacy, after allowing the Respondent the opportunity to present oral and/or written evidence in mitigation of the Administrative Complaint, enter a Final Order imposing whatever discipline upon the Respondent's license that the Board deems appropriate.

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

- 1) My name is Shane Walters.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. - 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2013-04376** (Department of Health v **Walgreens Company, #6997**) are **NINE HUNDRED NINETY-SIX DOLLARS AND SIXTY-NINE CENTS (\$996.69)**.
- 6) The costs for DOH case number(s) **2013-04376** (Department of Health v **Walgreens Company, #6997**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.

Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. Re: DOH vs. Walgreens Company, #6997
DOH Case Number: 2013-04376

Dear Mr. Weinstein:

I am in receipt of your election of rights requesting a hearing not involving disputed issues of material fact executed by you on May 29, 2014, concerning the above referenced case. This means that the facts alleged in the Amended Administrative Complaint are uncontested. This is an important distinction because, by law, the Board cannot resolve disputes of material fact in this case or any disciplinary case. Since you are requesting a hearing not involving disputed issues of material fact, you are not admitting the facts alleged in the Amended Administrative Complaint, however, you are agreeing not to contest these facts and to limit presentation to legal argument, if any, and to matters in mitigation or extenuation.

Our office is now preparing this case to be presented at the next regularly scheduled meeting of the Florida Board of Pharmacy. Please be advised your case will be set at the convenience of the Department and/or the Board and you will be notified of the date and time approximately two weeks prior to the meeting.

Thank for your attention and cooperation in this matter. Should you have any questions, please feel free to contact this office.

Sincerely,

Matthew G. Witters, Esq.

3. This MOA was entered into between Walgreens and the DEA in order to avoid the uncertainty and expense of litigation, and in the furtherance of Walgreens' and the DEA's belief that a settlement of specific administrative matters pending at the time of the MOA was in the public interest.
4. The relevant conduct covered by the MOA included the following:
 - a. Conduct alleged in the November 26, 2012, February 4, 2013, February 11, 2013, and February 19, 2013 Orders to Show Cause (OTSCs) issued to Walgreens #03629, #04727, #06997, #03836, #04391, and #03099, and in DEA's filings in *In the Matter of Walgreen Co.*, Docket Nos. 13-9, 13-10, 13-11, 13-16, 13-18, and 13-20, occurring on or before the effective date of the MOA;

Part 1306, on or before the effective date of the MOA;
 - c. Dispensing by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 of controlled substances to individuals Walgreens knew or should have known were diverting controlled substances on or before the effective date of the MOA;

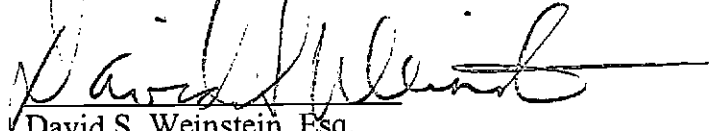

- d. Dispensing by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 of controlled substances pursuant to prescriptions issued by a physician who did not have a current, valid DEA registration on or before the effective date of the MOA;
 - e. Refusal or negligent failure by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 to make, keep, or furnish any record, report, notification, declaration, order or order form, statement, invoice, or information required under the CSA and its implementing regulations, including, but not limited to, failure by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 to maintain accurate records pursuant to 21 C.F.R. Part 1304 and to properly label and/or mark prescriptions pursuant to 21 C.F.R. Part 1306, on or before the effective date of the MOA;
 - f. Conduct inconsistent with the CSA and its implementing regulations on or before the effective date of the MOA, by the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099; and
 - g. Failure by any Walgreens registrant, including the Pharmacies located at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 to adhere to the provisions of the April 7, 2011 Administrative Memorandum of Agreement between Walgreen Co. and DEA.
5. In the MOA Walgreens acknowledged that, (1) certain retail pharmacies did on some occasions dispense certain controlled substances in a manner not fully consistent with its compliance obligations, and (2) its recordkeeping practices regarding the dispensing of controlled substance from certain retail pharmacies utilizing its CPO Facilities as central-fill pharmacies did not require such original prescriptions to be marked "CENTRAL FILL."
6. Under the terms of the MOA Walgreens has the following obligations:
- a. Walgreens agrees to maintain a compliance program in an effort to detect and prevent diversion of controlled substances as required under the CSA and applicable DEA regulations. This program shall include procedures to identify the common signs associated with the diversion of controlled substances. The program shall also include the routine and periodic training of all Walgreens pharmacy employees responsible for dispensing controlled substances on the elements of the compliance program and their responsibilities under the CSA and applicable DEA regulations. This compliance program shall apply to all Walgreens Pharmacies and CPO facilities.
 - b. Walgreens shall implement and maintain policies and procedures in an effort to ensure that prescriptions for controlled substances are only dispensed to authorized individuals pursuant to federal and state law and

regulations. Walgreens shall maintain its current policy that requires all customers to provide identifying information and shall also require valid photo identification as required by and in accordance with controlling state law where the pharmacy is located. Documents maintained by Walgreens pursuant to any obligation under federal and/or state law regarding the verification of an ultimate user's identity shall be kept readily available by the pharmacy, and shall be produced to DEA agents, task force officers or investigators on request.

- c. Walgreens shall direct and train its pharmacists that their corresponding responsibility under federal law requires them not to fill a prescription that such pharmacist knows or has reason to know was issued for other than a legitimate medical purpose or by a practitioner acting outside the usual course of professional practice.
 - d. In connection with Walgreens' recordkeeping obligations, Walgreens agrees to maintain records regarding the dispensing of controlled substances in electronic format, in addition to the regularly maintained paper files, including records relating to which Distribution Center and/or CPO facility shipped the controlled substance to the Pharmacy. These records shall be made available to DEA agents, task force officers or investigators, upon demand, without the need for a warrant or subpoena, provided that the DEA agents, task force officers or investigators present appropriate identification. Walgreens shall provide electronic reports of dispensing on an ad hoc basis in response to DEA requests within a reasonable time.
 - e. Walgreens agrees to the surrender of the DEA registrations to dispense controlled substances for Schedules II-V at Walgreens #03629, #04727, #06997, #03836, #04391, and #03099 until May 26, 2014.
7. Since the date of the entry of the MOA, consistent with the terms of the MOA and as set forth in paragraph 6 above, Walgreens has implemented and maintains:
- a. A compliance program;
 - b. Policies and procedures to ensure that prescriptions for controlled substances are only dispensed to authorized individuals pursuant to federal and state law and regulations;
 - c. Training programs and directions for its pharmacists; and
 - d. Records regarding the dispensing of controlled substances in electronic format, in addition to the regularly maintained paper files, including records relating to which Distribution Center and/or CPO facility shipped the controlled substance to the Pharmacy.

8. At Walgreens' request, DEA and DOJ agreed to disclose the terms of the MOA to any other agency and will represent that the allegations raised by DEA, as defined in the Covered Conduct contained in the MOA, have been adequately addressed.
9. Walgreens believes that the obligations set forth in the MOA and the ongoing compliance with those obligations are sufficient to address the penalties set forth in Florida Statutes, Section 456.072(2) and to protect the public and rehabilitate the licensee.

Respectfully submitted,

David S. Weinstein, Esq.

9. Walgreens believes that the obligations set forth in the MOA and the ongoing compliance with those obligations are sufficient to address the penalties set forth in Florida Statutes, Section 456.072(2) and to protect the public and rehabilitate the licensee.

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

- 1) My name is Shane Walters.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. - 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2013-14577** (Department of Health v. **HECTOR A. PINEIRO, R.P.T.**) are **FOUR THOUSAND ONE HUNDRED TWENTY DOLLARS AND THIRTY-EIGHT CENTS (\$4,120.38)**.

Re: DOH vs. Hector A. Pineiro, R.P.H.
DOH Case Number: 2013-14577

Dear Mr. Pineiro:

I am in receipt of your election of rights requesting a hearing not involving disputed issues of material fact executed by you on **June 9, 2014**, concerning the above referenced case. This means that the facts alleged in the Administrative Complaint are uncontested. This is an important distinction because, by law, the Board cannot resolve disputes of material fact in this case or any disciplinary case. Since you are requesting a hearing not involving disputed issues of material fact, you are not admitting the facts alleged in the Administrative Complaint, however, you are agreeing not to contest these facts and to limit presentation to legal argument, if any, and to matters in mitigation or extenuation.

Our office is now making preparation for this case to be presented at the next meeting of the Florida Board of Pharmacy, scheduled for **August 13, 2014, at the Double Tree by Hilton, 100 Fairway Drive, Deerfield Beach, Florida 33441**. If you have a request for this issue to be heard on a particular day, please inform this office within seven days of the date of this letter in order for the request to be timely considered by the Florida Board of Pharmacy. Please be advised your case will be set at the convenience of the Department and/or the Florida Board of Pharmacy and you will be notified of the date and time approximately two weeks prior to the meeting.

Thank for your attention and cooperation in this matter. Should you have any questions, please feel free to contact this office.

Sincerely,

In Re: Emergency Restriction of the License of
Hector A. Pineiro, R.P.T.
License No.: RPT 19460
Case No.: 2013-14577

ORDER OF EMERGENCY RESTRICTION OF LICENSE

John H. Armstrong, MD, FACS, State Surgeon General and Secretary of Health, ORDERS the emergency restriction of the license of Hector A. Pineiro, R.P.T., to practice as a registered pharmacy technician in the State of Florida. Mr. Pineiro holds license number RPT 19460. His address of record is 27460 S.W. 138th Path, Homestead, Florida 33032. The following Findings of Fact and Conclusions of Law support the emergency restriction of Mr. Pineiro's license to practice as a registered pharmacy technician in the State of Florida.

FINDINGS OF FACT

1. The Department of Health (Department) is the state agency charged with regulating the practice of pharmacy pursuant to Chapters 20, 456, and 465, Florida Statutes (2013). Section 456.073(8), Florida Statutes (2013), authorizes the State Surgeon General to summarily restrict Mr. Pineiro's license to practice as a registered pharmacy technician in the

State of Florida in accordance with Section 120.60(6), Florida Statutes (2013).

2. At all times material to this Order, Mr. Pineiro was licensed to practice as a registered pharmacy technician in the State of Florida pursuant to Chapter 465, Florida Statutes (2012-2013).

3. On or about April 30, 2013, law enforcement conducted an inventory search of Mr. Pineiro's vehicle. The inventory search of the vehicle revealed a suspected marijuana cigarette, one pill bottle with several suspected zolpidem tartrate 10 mg pills, and another pill bottle with several zolpidem tartrate 2 mg pills.

4. Cannabis, according to Section 893.03(1), Florida Statutes, is a Schedule I controlled substance that has a high potential for abuse and has no currently accepted medical use in treatment in the United States and in its use under medical supervision does not meet accepted safety standards.

5. Ambien is the brand name for a drug that contains zolpidem, which is a sedative. Zolpidem affects chemicals in your brain that may become unbalanced and cause sleep problems (insomnia). According to Title 21, Section 1308.14, Code of Federal Regulations, zolpidem is a

Schedule IV controlled substance. Zolpidem can cause dependence and is subject to abuse.

6. On or about April 30, 2013, Mr. Pineiro was arrested and charged with the possession of a controlled substance with intent to sell, possession of a legend drug without a prescription, and unlawful possession of cannabis under 20 grams.

7. According to the arrest report, in a post-Miranda statement, Mr. Pineiro admitted to stealing the zolpidem pills from South Point Pharmacy.

8. On or about February 26, 2014, in case no. 132013CF0101350001XX, in the Circuit Court of the Eleventh Judicial Circuit, in and for Miami-Dade County, Florida, Mr. Pineiro entered a pre-trial diversion program on the count for possession of a controlled substance with intent to sell, and on the count for possession of cannabis, 20 grams or less.

9. On or about March 4, 2014, the Department ordered Mr. Pineiro to submit to a mental and physical examination to determine his ability to practice pharmacy as a registered pharmacy technician, with reasonable skill and safety pursuant to the authority granted in Section 456.072(1)(z), Florida Statutes (2013).

10. On or about March 19, 2014, Mr. Pineiro was evaluated by Dr. I.J.A., M.D., a board-certified psychiatrist.

11. Dr. I.J.A. opined that Mr. Pineiro "is currently unsafe to practice as a pharmacy technician based upon his history of substance use, the fact that he stole narcotic medications from a pharmacy over a four year period and that he is not currently receiving formalized substance abuse treatment."

12. In the course of their practice, registered pharmacy technicians have access to prescription medications including controlled substances that have a high likelihood for abuse and harm. A registered pharmacy technician must count, weigh, measure, pour and mix prescription medications, or stock legend drugs and controlled substances, in a safe and effective manner. Due to the gravity of these responsibilities and the potential for abuse of the drugs registered pharmacy technicians have access to, registered pharmacy technicians must possess good judgment and good moral character in order to perform their tasks. Mr. Pineiro's decision to steal controlled substances from his employer demonstrates a lack of judgment and moral character and a disregard for the laws and regulations governing registered pharmacy technicians in this state. The

safety of Mr. Pineiro's patients cannot be assured as long as he continues to practice pharmacy as a registered pharmacy technician.

13. Because registered pharmacy technicians have access to medications including controlled substances, and are required to perform pharmacy duties that could ultimately impact patients, mental fitness and emotional stability must be possessed in order to competently practice pharmacy. The board-certified psychiatrist's conclusion that Mr. Pineiro is not safe to practice demonstrate that Mr. Pineiro does not possess the mental fitness and emotional stability necessary to practice safely as a registered pharmacy technician.

14. Mr. Pineiro's lack of good judgment, his disregard for the laws and regulations governing the practice of pharmacy as a registered pharmacy technician, and his lack of mental fitness and emotional stability, demonstrate that Mr. Pineiro is a danger to the health, safety, or welfare of the citizens of the State of Florida. Nothing short of the immediate restriction of Mr. Pineiro's license from working in pharmacies, until such time that the Professionals Resource Network ("PRN"), or a PRN evaluator, determines that he is able to practice as a registered pharmacy technician

with reasonable skill and safety, will adequately protect the public from the danger posed by Mr. Pineiro.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, the State Surgeon General concludes as follows:

1. The State Surgeon General has jurisdiction pursuant to Sections 20.43 and 456.073(8), Florida Statutes (2013), and Chapter 465, Florida Statutes (2013), as set forth above.
2. Section 465.016(1)(m), states that being unable to practice pharmacy with reasonable skill and safety by reason of illness, use of drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition, constitutes grounds for disciplinary action.
3. Mr. Pineiro violated Section 465.016(1)(m), Florida Statutes (2013); as a result of his lack of good judgment, and his lack of mental fitness and emotional stability.
4. Section 120.60(6), Florida Statutes, authorizes the Department to summarily restrict a registered pharmacy technician's license if the

Department finds that the registered pharmacy technician presents an immediate serious danger to the public health, safety, or welfare.

5. Mr. Pineiro's continued unrestricted practice as a registered pharmacy technician constitutes an immediate serious danger to the health, safety, or welfare of the public and this summary procedure is fair under the circumstances to adequately protect the public.

WHEREFORE, in accordance with Section 120.60(6), Florida Statutes (2013), it is ORDERED THAT:

1. The license of Hector A. Pineiro, R.P.T., license number RPT 19460, is immediately restricted to prohibit him from working in any pharmacy.

2. A proceeding seeking formal restriction or discipline of the license of Mr. Pineiro to practice as a registered pharmacy technician will be promptly instituted and acted upon in compliance with Sections 120.569 and 120.60(6), Florida Statutes.

DONE and ORDERED this 24th day of April, 2014.

7. On or about February 3, 2014, in the Circuit Court of the Eleventh Judicial Circuit, in Miami-Dade County, case number F13010135, Mr. Pineiro entered into a pretrial diversion drug program.

CONCLUSIONS OF LAW

1. The Department of Health, by and through the State Surgeon General, has jurisdiction over this matter pursuant to Chapters 456 and 465, Florida Statutes.

2. Section 465.016(1)(m), Florida Statutes (2013), grants the Department the authority to issue an order to compel a licensee to submit to a mental or physical examination by physicians designated by the Department upon a finding of the State Surgeon General or his designee that probable cause exists to believe that the licensee is unable to practice pharmacy due to the finding of a marijuana cigarette and two bottles of zolpidem in his personal vehicle, and his admission of stealing zolpidem pills from his employer.

3. Based on the foregoing Findings of Fact, the State Surgeon General, through his designee, concludes that probable cause exists to believe Hector A. Pineiro, R.P.T., is unable to practice as a registered pharmacy technician with reasonable skill and safety to patients, pursuant to Section 465.016(1)(m), Florida Statutes (2013).

4. In accordance with the authority vested in the Department of Health under Chapters 456 and 465, Florida Statutes, the State Surgeon

MOTION FOR FINAL ORDER AFTER HEARING NOT INVOLVING DISPUTED
ISSUES OF MATERIAL FACTS

COMES NOW, the Petitioner, by and through its undersigned counsel, and moves the Board of Pharmacy for entry of a Final Order in the above-styled cause on a date and time that has been determined and noticed by the Board. As grounds therefore, the Petitioner would state the following:

1. Petitioner previously filed an Administrative Complaint against Respondent alleging that Respondent had violated the provisions of Florida Statutes, as set forth therein. The Department, by filing the Administrative Complaint, is seeking to discipline the Respondent's license to practice as a Pharmacist, thereby affecting the Respondent's substantial interests.
2. On or about April 10, 2014, Petitioner served Respondent with the Administrative Complaint via Respondent's address of record with the

Department of Health. The Department, by serving the Respondent with the Administrative Complaint, provided the Respondent written notice of its decision to seek discipline of the Respondent's license to practice as a Pharmacist.

3. The Respondent has filed an Election of Rights Form or other responsive pleading evincing, or has otherwise indicated, that Respondent does not dispute the material facts alleged in the Administrative Complaint.

4. There are no disputed issues of material fact to be resolved by the Board.

5. Respondent has been advised, by a copy of this Motion, that a copy of the investigative file in this case shall be furnished to the Board to establish a prima facie case regarding the violations as set forth in the Administrative Complaint.

WHEREFORE the parties respectfully request the Board of Pharmacy, after allowing the Respondent the opportunity to present oral and/or written evidence in mitigation of the Administrative Complaint, enter a Final Order imposing whatever discipline upon the Respondent's license that the Board deems appropriate.

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

- 1) My name is Shane Walters.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.
- 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2012-18855** (Department of Health v **NICOLE C. SCHREIBER, R.PH.**) are **TWO THOUSAND FIFTY DOLLARS AND TWENTY-ONE CENTS (\$2,050.21)**.
- 6) The costs for DOH case number(s) **2012-18855** (Department of Health v **NICOLE C. SCHREIBER, R.PH.**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.
- 7) The itemized costs and expenses for DOH case number(s) **2012-18855** (Department of Health v **NICOLE C. SCHREIBER, R.PH.**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.
- 8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators

and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

Re: DOH vs. Nicole C. Schreiber, R. Ph.
DOH Case Number: 2012-18855

Dear Ms. Schreiber:

I am in receipt of your Election of Rights requesting a hearing and indicating you are interested in settling this matter, concerning the above referenced case. I also received your voice mail message earlier this month stating you wanted your case to be presented to the Board of Pharmacy as a hearing where there are no disputed issues of material fact, or an "informal" hearing. This means that the facts alleged in the Administrative Complaint are uncontested. This is an important distinction because, by law, the Board cannot resolve disputes of material fact in this case or any disciplinary case. Since you are requesting a hearing not involving disputed issues of material fact, you are not admitting the facts alleged in the Administrative Complaint, however, you are agreeing not to contest these facts and to limit presentation to legal argument, if any, and to matters in mitigation or extenuation.

Our office is now preparing for this case to be presented at the next meeting of the Florida Board of Pharmacy, scheduled for August 12-13, 2014. The Board office will send an official notice with the time and location two weeks prior to the meeting.

Thank for your attention and cooperation in this matter. Should you have any questions, please feel free to contact this office.

Sincerely,

RE: Department of Health v. Nicole C. Schreiber, R.Ph.
Case No. 2012-18855

Dear Sir/Madam:

The Probable Cause Panel of the Board of Pharmacy has found probable cause to believe that the above-referenced pharmacist has violated the Pharmacy Practice Act. The attached Administrative Complaint has been filed against the above-referenced licensee. An Administrative Complaint is a formal charging document, similar to an information/indictment in a criminal case, and represents the general factual basis upon which the individual's license may be disciplined. The licensee has the right to an evidentiary hearing to dispute the allegations and you may be asked to testify regarding your knowledge of this case.

You will be notified of any hearings or proceedings you are required or permitted to attend. In the interim, please feel free to contact me in writing at the address or telephone number listed below.

Sincerely,

Mary S. Miller

To Whom It May Concern:

My name is Thomas Saywell, and I am 23 years old, just finishing up my fifth year studying pharmacy at Ohio Northern University. Becoming a pharmacist has always been a major goal in my life, and I was extremely excited and honored by the opportunity to study at a university as reputable as Ohio Northern. Through my five years on campus I have become known an exemplary member of the Ohio Northern's community. I have maintained a 3.36 GPA while participating in numerous extracurricular activities including SSHP, Sigma Pi Fraternity International, ASCP and intramural sports. However, when I was a sophomore, some issues off-campus occurred that need to be addressed.

When I was in my second year of school at the age of 20, I was arrested on two different occasions for the possession/consumption of an alcoholic beverage being under the age of 21. This is in violation of A.C.O. 529.021. The first of the two instances occurred just after my twentieth birthday on August 12, 2010 in Ada, Ohio when I was celebrating with friends, some of whom were over the age of 21. There was alcohol present at the house of my older friend who invited us over, and I did wrongly consume it. At around one o'clock in the morning, myself and a few friends walked to McDonalds just down the road from where we lived. On the way over, a police officer pulled his car next to us and questioned us as to what we were doing and where we were heading. He expected that we were intoxicated and appeared to be underage. He asked me if I had consumed alcohol, and I told him that I had, in fact, drank that night. He took my drivers' license to verify my age and took me, along with two of the guys I was with, to the station. There we were all charged with underage consumption and scheduled to appear at court on the 23rd of August. I opted to appear at court without counsel, and I went on to enter a plea of guilty to the charge of Underage Possession/ Consumption of Alcohol and enter into Hardin County's "Diversion" program. This is a ninety day contract with the state that, if completed, would dismiss the charge. Some of the specifications of the contract were to have no further violations, pay all court costs in full, complete an alcohol assessment, and perform 16 community service hours. I successfully completed the diversion program, and the charge was dismissed.

The second of my arrests occurred on March 20, 2011, also in Ada, Ohio. I again attended a party at an off-campus house. The house was really packed and the music was turned up far too loud. The Ada Police received a noise complaint, and opted to shut down the party.

They came to the door of the house, and the person who held the lease permitted the officers to enter. The police swept through and noticed that underage drinking was occurring and proceeded to search the house. I made the decision to not run from the police, as many others were, and to remain in the house. The next thing I knew I was face to face with the same officer that had arrested me the first time. He asked me first if I have had anything to drink. I told him the truth. I did have a few drinks earlier in the evening, but none for awhile. He instantly handcuffed me and led me to his police car without questioning any of the others. I obtained a lawyer for this offense, and the trial was on June 2, 2011. In court, given the circumstances and nature of the arrest, the charge was reduced to a non-alcohol related persistent disorderly conduct, a level 4 misdemeanor in the state of Ohio, which entails a suspended 30 day jail sentence and a fine. I paid the accompanying fine and successfully avoided all alcohol for the entirety of my six month probationary period, and the suspension of the jail sentence was upheld.

I acknowledge that I should have just said enough is enough after my first incident and completely stopped drinking or more simply just never consumed alcohol in the first place. However, that is not the decision I made. At the time, I viewed my first arrest as an unlucky turn of events that should not have happened to me. I thought that there was no way it would ever happen again, and I told myself that I would just drink less and less often. Admittedly, I fell into the trap of "everyone else is doing it." Looking back, getting arrested for the same thing the second time was a major added learning experience in my life that taught me there is no place for alcohol consumption in the life of someone who strives to have a rewarding career practicing pharmacy. The media is full of stories where great, gifted individuals have had their advantages stripped from them simply by getting involved in the wrong circumstances. I view myself as a person who has been given many gifts and advantages in life. I have been blessed with a loving family who has sacrificed greatly for me to attend Ohio Northern and pursue a career as a pharmacist. I now see how quickly all I have worked for thus far in life could be lost because of mindless mistakes. I have always thought of myself as my own person and been seen as a leader by my peers. This is an example of where I lost sight of my own values and what I stand for to just follow others.

During my volatile sophomore year when I was 20 years old, I had a few negative factors that had contributed to my troubles. I had never really experienced or been around alcohol whatsoever when in high school, and managed to avoid it my first year in college. In my second

year, my friend group consisted of a good amount of 21 year olds that had a house where they had parties with alcohol. It was legal for them, and I mistakenly partook. I was not considering the long term consequences of my current actions at the time. That year, my vision was short-sighted. I did not view myself as a future health care professional, and I felt that if everyone else was doing it, why should I not? I now know the high standard that I need to hold myself to in the profession of pharmacy to be one of the most well respected and trusted members of the health care team.

Throughout the past three years since my dealings with underage consumption/possession I have learned and grown more as a person than I ever thought possible. I am now 23 years old and alcohol has no place in my life. During the months following my second arrest, I attended about five private counseling sessions with Dr. Schaffer, one of the psychologists employed by Ohio Northern. He helped me prioritize my values and beliefs to get me to a point in life where I make my own decisions and do not simply follow others. He agreed that I did not and do not have an alcohol dependence problem, but simply a lacked sound decision making at the time. I had a meeting with Dr. Tom Kier, Associate Dean of Pharmacy at Ohio Northern. I set up this meeting because I thought it was important for me to disclose my mistakes with the university. I do not wish to attempt to keep anything hidden, and I do not want to have the school seen in a bad light because of my past actions. He placed a disciplinary notice in my file, and put me on social probation with the university. I have not had any offenses whatsoever in the three years since my run-in with the law, no further disciplinary action was taken. In my social life, I reconsidered my friend-group and surrounded myself with people that supported my decision to avoid alcohol. I became a part of religious life at ONU and have been attending chapel on campus every Thursday. I refocused on the important things in my life and put added emphasis on my pharmacy career. I use my past mistakes in my life everyday as both a learning experience and a turning point. I do not want these incidents to adversely affect my career goal of becoming a pharmacist.

I obtained my Ohio intern license in August 2011 and have been practicing as an intern at Giant Eagle Pharmacy for almost 3 years now. Academically, I have completed all of my didactic work at Ohio Northern and am set to go on my APPE rotations in July of this year. I am pursuing my Florida intern license because I wanted to expand my horizons as an APPE student. My parents live in the Ft. Myers area during the winter months, and I have been blessed with the

opportunity to complete a three month block of rotations with the Lee Memorial Hospital system from January through March 2015. I hope the experience is one that I will always remember and cherish as I advance further to fulfillment of my lifelong goal of becoming a pharmacist.

Sincerely,

Thomas Saywell

MAY 20 2014

Florida Board of Pharmacy

The year 2001 in Orange, TX I was convicted with possession of a controlled substance. I was at the lowest point in my life. At the time, I was a single parent in a horrible, mentally abusive on and off (mostly off) relationship with the father of my son. He would not help me financially and even though I was working full time, I could not make ends meet. Many nights, my son and I sat in the dark because I could not afford to pay the bill. I did not qualify for public assistance so I paid full price for all of our needs. One day a classmate from high school told me how I could make some extra money. To this day I regret even entertaining the idea he was planting in my head. He told me that I needed to get a bottle of Promethazine with codeine and he would sell it for me and I would get \$300.00. I told him no, and he told me to take his number in case I changed my mind. Weeks passed, I didn't give him a second thought, and then it happened. My car was repossessed because I could no longer afford to make the payments and my lights were cut off. To a sheltered 20 year old, it felt like the end. I sat on the porch and cried, I dug inside of my purse and I came across his number. I called him and that was the beginning of me ruining my life.

After the first couple of times, I told him no more. It wasn't right to steal and I did not want to do this anymore. He blackmailed me by saying that he would tell my supervisor, family and the police if I did not continue. Being young and naïve he frightened me, but nothing scared me more than what I was doing. I finally told him I wasn't going to do this anymore and a week later I was being questioned about the controlled substance. He told me to tell them I was using it, but I was tired of lying and wanted to get back to the person I was raised to being, honest.

I was convicted, received a suspended sentenced and was given probation because it was my only offense. I completed my probation and I have not been in any trouble since then. I was given permission to serve my probation in Florida.

Moving to Florida was the best thing that has ever happened to me. I was able to gain employment at Lower Keys Medical Center (2001-2008) and I didn't have any problems at my job. (I left because my mother had a traumatic back surgery in Texas and she needed my help) I also met the love of my life in 2002 and we are still so happily married today! God has been so good to me. My husband has been my biggest supporter and because of his love and patience I can

Sheyrale Moore, Page 2

proudly announce that I graduated from college May 3, 2014. I am the mother of three children, my oldest son has graduated from high school this year and will be going to the Air Force. Our daughter is gifted and talented, a straight A student, and our youngest son is a wonderful athlete and rising star.

Feb 2008 we moved to Texas to help my mother after her back surgery. We purchased a home and told her we would be there for her until she healed and we were going back to Florida. Well, Mother Nature ruined our plans because we lost everything in Hurricane Ike. I was also in the process of getting my registration from the Texas State Board of Pharmacy (TSBP). Because I had the possession of controlled substance charge, they wanted me to see a counselor to determine if I needed drug counseling. After one meeting, the Doctor determined I did not need further drug counseling. The TSBP told me that I had to pay \$700.00 for their probation. We were trying to pick up the pieces to our lives from Hurricane Ike and even though they granted me a registration, they revoked it when I could not pay the \$700.00. That was the ONLY reason they revoked my registration, I could not afford to pay the fee.

I beg your pardon and ask that you please consider granting me a registration in Florida and a second chance. I cannot tell you how rehabilitated I am, I can only show you. My life has not been a fairy tale, but it has made me so much stronger and wiser. When I decided to enroll in college in 2010 (age 34), I did it for my children. I wanted to show them that no matter what age, you can still achieve your dreams. I tell my children that every day is a chance to be great. Just one random act of kindness can mean the world to someone. If I had the opportunity to speak to my younger self I would tell her, weeping may endure for a night, but joy comes in the morning. Be strong, be courageous, because in the end, your name and legacy is all you have.

Respectfully,

Mrs. Sheyrale L. Moore, CPhT

AGREED BOARD ORDER #T-10-464

Florida Board of Pharmacy

RE: IN THE MATTER OF
SHEYRALE L. MOORE
(APPLICANT FOR PHARMACY
TECHNICIAN REGISTRATION)

BEFORE THE TEXAS STATE
BOARD OF PHARMACY

On this day came on to be considered by the Texas State Board of Pharmacy the matter of the application for pharmacy technician registration submitted by Sheyracle L. Moore.

By letter dated February 1, 2011, the Texas State Board of Pharmacy gave preliminary notice to Sheyracle L. Moore of its intent to take disciplinary action with respect to her registration as a result of information received by the Board which produced evidence indicating that Sheyracle L. Moore may have violated:

Section 568.003(a)(1),(2), (4)(B), (6)(A), (7), and (10) of the Texas Pharmacy Act, TEX. OCC. CODE ANN. Subtitle J (2009);

Section 281.9(b)(1) and (c)(2) of the Texas Pharmacy Board Rules, 22 TEX. ADMIN. CODE (2011); and

Section 481.114(a) of the Texas Controlled Substances Act, TEX. HEALTH & SAFETY CODE ANN. (2009), in that allegedly.

COUNT

On or about July 6, 2001, in Cause No. A000436-R, in the 128th District Court of Orange County, Texas, Sheyracle L. Moore was convicted of the felony offense of Possession of a Controlled Substance with Intent to Deliver. The court placed Ms. Moore on probation for a period of five years and ordered her to pay a fine of \$1,000.00 and a restitution of \$890.00 to Eckerd Drugs.

An informal conference was held in the office of the Texas State Board of Pharmacy on March 24, 2011, with Sheyracle L. Moore in attendance. The informal conference was heard by a Board panel comprised of: Jeanne D. Waggener, R.Ph., Board Member; Gay Dodson, R.Ph., Executive Director/Secretary; and Carol Fisher, R.Ph., M.P.A., Director of Enforcement; with Kerstin E. Arnold, General Counsel.

At the aforementioned conference, Sheyracle L. Moore waived her right to be represented by legal counsel. By Sheyracle L. Moore's appearance at the informal conference and by her signature on this Order, Sheyracle L. Moore agrees that the Texas State Board of Pharmacy has

jurisdiction in this matter and does hereby waive her right to legal counsel, to notice of hearing, to a formal administrative hearing, and to judicial review of this Order.

After discussion of the matters previously outlined in this Order, and subsequent communications, Sheyrale L. Moore agreed to the entry of an Order disposing of the need for further disciplinary action in this matter. By her signature on this Order, Sheyrale L. Moore neither admits nor denies the truth of the matters previously set out in this Order with respect to the above alleged violations.

Sheyrale L. Moore agrees that the terms of this Order apply to her registration when designated as either a pharmacy technician trainee or a pharmacy technician.

Sheyrale L. Moore understands that any failure to comply with the terms of this Order is a basis for discipline under the Texas Pharmacy Act.

To whom it may concern:

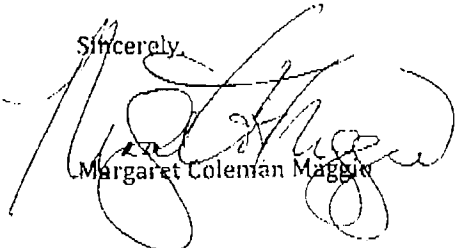

This letter is in reference to Sheyrle Moore. I had the pleasure of working with Sheyrle as her Manager while employed at Lower Keys Medical Center in Key West Florida. I have known Sheyrle for 8 years, 3 of them as her Manager.

I feel honored to be asked to write this letter of recommendation for Sheyrle; she has always shown integrity, honesty and decency. I am proud to be associated with Sheyrle not only in a professional atmosphere, but as a friend for 5 years after our careers led us on different paths.

In our professional relationship, Sheyrle was always a team player, and put the needs of employees and contractors first. She always displayed professionalism with excellent customer service in working with our colleagues, outside suppliers and contractors. Whenever Sheyrle was asked to take on a task that wasn't in her job description, she never declined; she always looked at new tasks as learning something new and an opportunity; she embraced new challenges. Sheyrle constantly stepped up to help wherever and however needed in a professional manner.

As a friend of Sheyrle, I have to say that she is a wonderful Woman, Mother, Wife and Friend. She tackles life with veracity and laughter. She can brighten anyone's day just with personality.

JUN 05 2014

Florida Board of Pharmacy

To the Florida Board Of Pharmacy:

Thank you for the opportunity to express myself in the matter of my misdemeanor criminal record that occurred as a result of my behavior in April of 1980 and October of 1992. It is with great humility that I do so.

While both convictions are for Lewd and Lascivious behavior the results of each are different. In April of 1980, while spending a day at Pensacola Beach, I was charged with Lewd and Lascivious behavior that took place in a beach men's room. The plain clothed officer arrested me for masturbating in public. I was compelled to do so through his own actions of encouraging me by exposing himself at the urinal. The nature of the arrest was extremely embarrassing and upon going to court I opted not to fight it due to fear that it would get out in the community and damage my family. Because of fright and ignorance, I was not represented by an attorney and unfortunately accepted, on the advice of a probation officer, to enter a plea of Nolo. I took this advice because I was scheduled to move out of town and did not understand that any court appointed probation could have been transferred nor was I instructed of such by the officer of the court. I just wanted this monkey off my back and did not understand the legal ramification of my decision. Upon reappearing before the judge, I plead Nolo and was adjudicated guilty and ordered to pay a fine.

Twelve years later I was convicted again for Lewd and Lascivious behavior while I was vacationing in my hometown of Pensacola. This incident took place along a scenic portion of Pensacola bay that attracted gay men for sexual cruising. Again, I was arrested by a plain clothed officer who observed me having sex with another male in a secluded area of the woods. With this arrest, I hired and was represented by an attorney. Not only had I learned my lesson from my previous court experience, I was living and working as a Licensed Practical Nurse in Naples, Florida and needed representation in Pensacola. I pled Nolo and after months of negotiations between the court and my attorney, the judge, in his wisdom, decided not to give me the state attorneys recommended 10 day jail sentence and probation if I could provide the court with 20 Florida licensed and voter registered residents that would sign a petition from the court that I did not deserve jail time for my offense and vouch for my character. The documentation that they were required to read and sign included record of the arrest and recommendations of the state attorney. This was the most difficult thing that I have ever had to do. I obtained the required signatures and submitted them to the court along with a doctor's note clearing me of any communicable disease. The judge accepted the signed petitions and suspended any jail time and probation, fined me and withheld adjudication.

Having grown up the gay son of a Fundamental Baptist Minister I could only live my life in the closet. While I knew that the way I was going about discovering my sexuality was wrong, I never felt that I had a source to go to for help in fear of losing all that I had ever known and the love of my family. The burden of carrying this secret was overwhelming and it caused me to act out privately. The decision that the Honorable Judge White made in my 1992-1993 case was a life changing one for me and I am indebted to him and his good judgment. In requiring me to expose my secret to 20 Florida residents I realized that I had a sexual behavior problem. In reaching out to health care professionals that I worked with and grounded open minded gay and straight friends I came to understand that I no longer needed or desired

to behave in such a way that would or could ever lead to another Lewd and Lascivious arrest and conviction. I am thankful that I no longer live in fear of who I am and I no longer behave in such a way that would discredit who I am or the community that I am proudly and productively a part of. For over 20 years, I have had the honor of being half of a domestic partnership.

These convictions took place years ago and because of their nature they shall always disturb me. Even so, I take full responsibility for the choices I made that led to them and am grateful for the positive changes in my life as a result of them. I will always be honest about them but refuse to allow them to define me. Recently, in pharmacy technician school I was required in one of my classes to create my mission statement. It states..."In recognizing that I create my own reality and that I have a future because I have let the past be just that...I choose to soar like an eagle."

In Humbleness,

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **ELISA M. FLOYD** who was sworn and states as follows:

- 1) My name is Elisa M. Floyd.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am a Regulatory Supervisor/ Consultant (RSC) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.
- 4) As a RSC of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2009-14938** (Department of Health v **KEVIN STRYCHALSKI, RPH**) are **one thousand one hundred one dollars and ninety two cents (\$1,101.92)**.
- 6) The costs for DOH case numbers **2009-14938** (Department of Health v. **KEVIN STRYCHALSKI, RPH**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.
- 7) The itemized costs and expenses for DOH case numbers **2009-14938** (Department of Health v. **KEVIN STRYCHALSKI, RPH**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.
- 8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators

and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

- 9) Elisa M. Floyd, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

Hello. Beth,

I spoke to you 2 1/2 years ago when I went in front of the board. As per my final order of my 5 year probation. At my two year mark the Board allows me to go in front of them to request the removal of the pharmacy manager restriction. I have PRN support and need to place myself on the August calendar. Can you please instruct me on what I need to do to accomplish this. I saw on your website that there is a deadline or cut off On June 27th. I do not want to miss it because this hearing is near my home.

Thank you for your time

Respondent, Michael Reyes, R.Ph., holds Florida license number PS 0029151 as a licensed pharmacist. Petitioner filed an Administrative Complaint seeking disciplinary action against the license. A copy of the Administrative Complaint is attached to and made a part of this Final Order.

Service of the Administrative Complaint was made upon Respondent by certified mail. Respondent has not filed an Election of Rights. Petitioner has filed a Motion for Default.

The cause came before the Board of Pharmacy on August 13, 2001, in Orlando, Florida, for final agency action, pursuant to Section 120.57(2), Florida Statutes. The Board finds that Petitioner has met its burden of notice, grants the Motion for Default, and further finds as follows:

FINDINGS OF FACT

Since the licensee has not replied to the Administrative Complaint nor contested the factual allegations, the prosecuting attorney offered the investigative file to prove the facts as alleged. The investigative file was received into evidence and the Board finds the uncontested facts adequately support the allegations. Therefore, the Board adopts the findings of fact of the Administrative Complaint as its Findings of Fact.

CONCLUSIONS OF LAW

The foregoing facts constitute a violation of Chapter 465, Florida Statutes, for which the Board may impose discipline pursuant to Section 465.016(2), Florida Statutes. Therefore it is

ORDERED that:

Respondent's license to practice pharmacy is SUSPENDED indefinitely and until such time as he appears before the Board and demonstrates the present ability to practice with reasonable skill and safety. Such demonstration shall require an evaluation through the Physician's Recovery Network (PRN), and a monitoring contract if so recommended by PRN. The Board reserves the right to impose disciplinary terms and conditions in connection with any reinstatement.

Pursuant to Section 120.68, Florida Statutes, the parties are hereby notified that they may appeal this Final Order by filing one copy of a notice of appeal with the clerk of the agency and by filing a filing fee and one copy of a notice of appeal with the District Court of Appeal within thirty days of the date this Final Order is filed.

This Final Order shall become effective upon filing with the Clerk of the Department.

DONE AND ORDERED this 27th day of August, 2001, by the Florida Board of Pharmacy.

Division of Medical Quality Assurance, councils or board, as appropriate, including the issuance of emergency orders of suspension or restriction.

3. Respondent is, and has been at all times material hereto, a licensed pharmacist in the State of Florida, having been issued license number PS 0029151. Respondent's last known address is 81 East 33rd Street, Miami, Florida 33013.

4. In or around 1995, the Respondent contacted and entered into an advocacy contract with the Physicians Resource Network (hereinafter referred to as "PRN").

RE: Gene R. Lachney, R.Ph. v. Department of Health, Case No. 2013-06754

Dear Mr. Kennedy:

As you are aware, this firm represents Mr. Lachney in connection with his Motion for Reconsideration of the Final Order in the above captioned matter. We requested that this Motion be placed on the Board of Pharmacy's agenda for its August 13, 2014, meeting in Deerfield Beach, FL. Originally the August meeting was going to be later on in the month, and I have had a longstanding commitment, for that date, so I will be unable to appear on Mr. Lachney's behalf, but somebody from my firm will be there. Please ensure that a copy of this letter is included in the Board's agenda under his tab.

As you are also aware, the Board voted to revoke Mr. Lachney's license during its April 2014 meeting in Tampa, FL. For reasons that will be further explained herein, our client was unable to attend that meeting. We believe that, given the facts of the underlying case, had Mr. Lachney been able to appear before the Board and explain his circumstances, the Board would not have revoked his license.

By way of procedural background, the case against Mr. Lachney alleges that he dispensed six tablets of azithromycin, a non-scheduled prescription antibacterial medication, to a DOH investigator. The investigator presented to Cantonment Pharmacy on February 4, 2013, without a prescription. An Administrative Complaint was issued against Mr. Lachney, charging him with a violation of sec. 465.015(2)(c), F.S., for selling or dispensing a prescription drug without first being furnished with a prescription. Our client failed to request a hearing within the 21-day deadline and the matter was presented to the Board as a Motion for Determination of Waiver and Entry of Final Order.

The allegations against Mr. Lachney do not warrant the revocation of his license. Pursuant to the Board's own disciplinary guidelines at Rule 64B16-30.001(2)(e)(1)(f)(I), F.A.C., a first-offense violation of sec. 465.015(2)(c), F.S., calls for a \$1,500 fine. We have no doubt that the Board would have adhered to these guidelines had Mr. Lachney appeared at the April 2014 meeting. However, personal difficulties made responding to these allegations almost impossible and his failure to do so caused this matter to escalate exponentially.

Patrick Kennedy
July 15, 2014
Page 2 of 3

On the day the investigator came into Cantonment Pharmacy, Mr. Lachney was scheduled to begin work in the morning. However, our client was also scheduled that morning to meet with an attorney to discuss a child support case brought against him by his ex-wife. The owner of the pharmacy, Mr. John Reading, understood Mr. Lachney's situation and kindly agreed to cover his first shift.

This was Mr. Lachney's first time in front of an attorney and, understandably given the circumstances, was an incredibly upsetting experience. In addition to dealing with the suit for child support, our client was also informed that, because his ex-wife had filed suit first, he would likely have to cover his attorney's fees as well as hers.

Mr. Lachney is the sole provider for his child and is of limited means. His ex-wife is unemployed and relies on Mr. Lachney for their child's complete support. In addition, Mr. Lachney's son suffers from rheumatoid arthritis and seizures. As such, our client's son is constantly in the hospital and Mr. Lachney provides 100% of his medical coverage. The out-of-pocket expenses for procedures not covered under insurance are astronomical.

To compound matters, Mr. Lachney's son and his ex-wife live over an hour away, and she refuses to assist in any of the driving to pick up or drop off their son. In order to see his son more, our client would be forced to move to their location. At that time, however, Mr. Lachney was working at two pharmacies to make ends meet, and such a move would have been impossible. In addition to his travels to see his son (both at home and the hospital), Mr. Lachney, an only child, must also travel regularly to take care of his elderly mother in Louisiana.

Cantonment Pharmacy serves many customers who cannot read or write. Many of them will only speak to regular staff and are uncomfortable dealing with anyone else. At the time the investigator purchased the azithromycin, Mr. Lachney had just returned to the pharmacy from seeing his attorney. Understandably, our client does not recall the incident. Nevertheless, he believes that the difficulty in dealing with the pharmacy's traditional clientele, and his personal issues, may have led to a breakdown in communication. Mr. Lachney admits that he may have let a colleague take on more responsibility, which in turn, could have led to the mistake in question.

Throughout the time of the investigation and subsequent issuance of the Administrative Complaint, Mr. Lachney continued to work two jobs, care for his mother and son, and deal with child support litigation brought on by his ex-wife. Three months prior to his scheduled appearance before the Board in April 2014, Mr. Lachney began to experience health problems and was in and out of the hospital trying to determine the cause. The week before his appearance before the Board, Mr. Lachney went to the emergency room, where he was admitted for a weeklong stay.

Patrick Kennedy
July 15, 2014
Page 3 of 3

During this time, it was discovered that Mr. Lachney would need his gallbladder removed and that a biopsy of his liver would also need to be performed. Surgery was scheduled for that week.

Despite these obstacles, our client still had every intention of appearing before the Board. Because of the medications he was on, Mr. Lachney was not allowed to drive and enlisted the help of his girlfriend to help him get to the meeting. The day before his appearance, our client reviewed his Notice of Hearing and discovered that the Board meeting had actually already occurred. Mr. Lachney had reviewed this documentation on several occasions, but attributes the mistake to the prescription medications (primarily Dilaudid) he was put on during preparation for surgery.

Mr. Lachney sincerely regrets missing the meeting, but regrets the incident leading up to this matter even more. Although no patient was hurt, our client knows that any medication, even an antibiotic, can cause adverse reactions when not prescribed properly.

Our client has been a licensed Florida pharmacist for over 22 years with no records of disciplinary action. In addition to being the sole provider for his son and mother, he has had to overcome the loss of his home and most of his personal possessions during one of the hurricanes that hit New Orleans. The pharmacy where he worked was also destroyed. He moved back to Florida to start anew, but shortly thereafter, his marriage ended and an ongoing custody battle began. Mr. Lachney has dealt with significant adversity in his personal life, and now most recently, with his professional life.

Attached please find several letters in support of Mr. Lachney. These letters are from several pharmacists throughout Florida who have worked with our client and know him to be an exceptional and professional pharmacist.

We pray for the Board's compassion and understanding in reviewing this matter. We respectfully request that it use its discretion in overturning its previous decision to revoke our client's license. In addition to the mitigating circumstances presented above, the facts surrounding Mr. Lachney's case would not warrant the revocation of his license had he been able to appear before the Board.

Sincerely,

Edwin Bayó

Gentlemen:

I am submitting this letter to the Board of Pharmacy in support of Gene Lachney. I have known Mr. Lachney both personally and professionally since about 1994. On a personal basis, I know some of his history of working in Florida for a few years and then moving back to the New Orleans area and going through one of the many hurricanes that we have had while losing most of his personal possessions and having the store he worked at destroyed. He then moved back to Florida with his wife and new son. Not too long after return to Florida he went through a divorce as well as a custody battle this year with his ex-wife. Additionally, in April of this year he had to have emergency gall bladder surgery.

As to a professional nature, we have worked separately for competing companies and also on occasion for the same company. Through this time span I have always known Mr. Lachney to be a very professional pharmacist who cared about his professional conduct, his work ethic, and the manner in which he interacted and served his patients and interrelated with his fellow co-workers. I believe that his professional conduct could be verified by the board with former state inspector Sarah Helen Lowe if necessary.

If there are any questions by the board, I will be glad to answer their questions. Thank you for time and consideration.

To Whom it may concern;

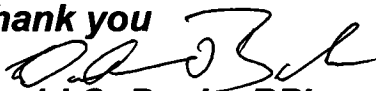

This letter is to serve as a personal reference for Mr Gene Lachney.

I have know Gene since 1996 both personally and professionally and have found him to be of the highest character in his relationships regarding his profession of pharmacy. When I first met Gene, He served as a liason between the district manager of Kmart corporation and the Pharmacists of various stores. His ability to communicate the needs of the various store pharmacist managers and upper level management was handled with a high level of responsibility and professionalism. After 18 years, our paths continue to cross in the profession of Pharmacy.

Gene is a person who deeply cares for his son and his mother. He speaks of them with great passion and pride and concern regarding their future and his ability to be a positive influence in their lives.

Dear Sirs & Madam;

I have known Gene Laschney for almost 20 years and have always found him to be honest, forthright and intelligent. While he has been through a great deal of adversity in the last few years, I have seen him handle it with humor and a great deal of strength. He has always been a good pharmacist; dependable, trustworthy and compassionate.

I hope that you will take into consideration the value of Gene as a pharmacist and as a person when making your decision regarding his licensure. He is a good father and a good person. One minor error in judgement should not negate 22 years of conscientious service to the profession.

Please feel free to contact me if you have any further questions.

Sincerely,

I , John Kamm, have been a pharmacist since 1995. I have known Gene Lachney since I was a little kid growing up in New Orleans, La. He was one of the reasons why I decided to move to Pensacola and be a Pharmacist here. Over the years he has been a great friend and he is a great father to his son Logan. Gene is a great pharmacist and is great with his customers. Everyone I know just says how great a person he is. I talked to gene about what happen and he assures me that it was a mistake and that it will not happen again.

To whom it may concern

My name is Darian Chandler and I am currently the COO for American Pharmacy Solutions, LLC in Pensacola, Florida. I have known Gene Lachney for the past 5 years through a working relationship and then on a personal level.

Gene was one my pharmacist in charge for a period of time in 2012 and 2013. Gene was always and continues to be a very professional Pharmacist and is a great asset to the pharmacy community. You will not find a more caring pharmacist and person when it comes to the needs of customers/patients that bring their prescriptions in to the pharmacy to be filled on a regular basis. Gene has a loyal customer base that follows him and appreciates the time that he takes in making sure the patient is taken care of in their medical needs and often goes beyond the call of duty outside the pharmacy.

I employ this board to please consider reinstating Gene Lachney his Florida pharmacy license. I feel we would be losing a great colleague and pharmacist if he is not allowed to perform his profession that he loves so much. If I need to be contacted, I can be reached @ 251-510-7466.

Thanking you in advance,

CASE NO. 2013-06754

GENE R. LACHNEY, R.PH.,
Respondent.

MOTION TO ASSESS COSTS IN ACCORDANCE
WITH SECTION 456.072(4)

COMES NOW the Department of Health, by and through undersigned counsel, and moves the Board of Pharmacy for the entry of a Final Order assessing costs against the Respondent for the investigation and prosecution of this case in accordance with Section 456.072(4), Florida Statutes. As grounds therefore, the Petitioner states the following:

1. At its next regularly scheduled meeting, the Board of Pharmacy will take up for consideration the above-styled disciplinary action and will enter a Final Order therein.

2. Section 456.072(4), Florida Statutes, states as follows:

In addition to any other discipline imposed through final order, or citation, entered on or

after July 1, 2001, pursuant to this section or discipline imposed through final order, or citation, entered on or after July 1, 2001, for a violation of any practice act, the board, or the department when there is not board, shall assess costs related to the investigation and prosecution of the case. Such costs related to the investigation and prosecution include, but are not limited to, salaries and benefits of personnel, costs related to the time spent by the attorney and other personnel working on the case, and any other expenses incurred by the department for the case. The board, or the department when there is no board, shall determine the amount of costs to be assessed after its consideration of an affidavit of itemized costs and any written objections thereto.

3. The investigation and prosecution of this case has resulted in costs in the total amount of \$961.00, based on the following itemized statement of costs:

| | ***** Cost to Date ***** | |

| Amount: | | |
| Total Costs to Date: | | \$961.00 |

Therefore, the Petitioner seeks an assessment of costs against the Respondent in the amount of \$643.26 as evidenced in the attached affidavit. (Exhibit A).

4. Should the Respondent file written objections to the assessment of costs, within ten (10) days of the date of this motion, specifying the grounds for the objections and the specific elements of the costs to which the objections are made, the Petitioner requests that the Board determine the amount of costs to be assessed based upon its consideration of the affidavit attached as Exhibit A and any timely-filed written objections.

5. Petitioner requests that the Board grant this motion and assess costs in the amount of \$643.26 as supported by competent, substantial evidence. This assessment of costs is in addition to any other discipline imposed by the Board and is in accordance with Section 456.072(4), Florida Statutes.

AFFIDAVIT OF FEES AND COSTS EXPENDED

STATE OF FLORIDA
COUNTY OF LEON:

BEFORE ME, the undersigned authority, personally appeared **SHANE WALTERS** who was sworn and states as follows:

- 1) My name is Shane Walters.
- 2) I am over the age of 18, competent to testify, and make this affidavit upon my own personal knowledge and after review of the records at the Florida Department of Health (DOH).
- 3) I am the Operations and Management Consultant Manager (OMCM) for the Consumer Services and Compliance Management Unit for DOH. The Consumer Services Unit is where all complaints against Florida health care licensees (e.g., medical doctors, dentists, nurses, respiratory therapists) are officially filed. I have been in my current job position for more than one year. My business address is 4052 Bald Cypress Way, Bin C-75 Tallahassee, Florida 32399-3275.
- 4) As OMCM of the Consumer Services and Compliance Management Unit, my job duties include reviewing data in the Time Tracking System and verifying that the amounts correspond. The Time Tracking System is a computer program which records and tracks DOH's costs regarding the investigation and prosecution of cases against Florida health care licensees.
- 5) As of today, DOH's total costs for investigating and prosecuting DOH case number(s) **2013-06754** (Department of Health v. **GENE R. LACHNEY**) are **NINE HUNDRED SIXTY-ONE DOLLARS AND ZERO CENTS (\$961.00)**.
- 6) The costs for DOH case number(s) **2013-06754** (Department of Health v. **GENE R. LACHNEY**) are summarized in Exhibit 1 (Cost Summary Report), which is attached to this document.
- 7) The itemized costs and expenses for DOH case number(s) **2013-06754** (Department of Health v. **GENE R. LACHNEY**) are detailed in Exhibit 2 (Itemized Cost Report and Itemized Expense Report and receipts), which is attached to this document.
- 8) The itemized costs as reflected in Exhibit 2 are determined by the following method: DOH employees who work on cases daily are to keep track of their time in six-minute increments (e.g., investigators

and lawyers). A designated DOH employee in the Consumer Services Unit, Legal Department, and in each area office, inputs the time worked and expenses spent into the Time Tracking System. Time and expenses are charged against a state health care Board (e.g., Florida Board of Medicine, Florida Board of Dentistry, Florida Board of Osteopathic Medicine), and/or a case. If no Board or case can be charged, then the time and expenses are charged as administrative time. The hourly rate of each employee is calculated by formulas established by the Department. (See the Itemized Cost Report)

- 9) Shane Walters, first being duly sworn, states that she has read the foregoing Affidavit and its attachments and the statements contained therein are true and correct to the best of her knowledge and belief.

FURTHER AFFIANT SAYETH NOT.

465.001 Short Title.—This chapter shall be known as the "Florida Pharmacy Act." History.—ss. 1, 7, ch. 79-226; ss. 2, 3, ch. 81-318; ss. 26, 27, ch. 86-256; s. 59, ch. 91-137; s. 6, ch. 91-156; s. 4, ch. 91-429.

465.002 Legislative findings; intent.—The Legislature finds that the practice of pharmacy is a learned profession. The sole legislative purpose for enacting this chapter is to ensure that every pharmacist practicing in this state and every pharmacy meet minimum requirements for safe practice. It is the legislative intent that pharmacists who fall below minimum competency or who otherwise present a danger to the public shall be prohibited from practicing in this state. History.—ss. 1, 7, ch. 79-226; ss. 2, 3, ch. 81-318; ss. 1, 26, 27, ch. 86-256; s. 59, ch. 91-137; s. 6, ch. 91-156; s. 4, ch. 91-429.

465.003 Definitions.—As used in this chapter, the term:

(1) "Administration" means the obtaining and giving of a single dose of medicinal drugs by a legally authorized person to a patient for her or his consumption.

(2) "Board" means the Board of Pharmacy.

(3) "Consultant pharmacist" means a pharmacist licensed by the department and certified as a consultant pharmacist pursuant to s. 465.0125.

(4) "Data communication device" means an electronic device that receives electronic information from one source and transmits or routes it to another, including, but not limited to, any such bridge, router, switch, or gateway.

(5) "Department" means the Department of Health.

(6) "Dispense" means the transfer of possession of one or more doses of a medicinal drug by a pharmacist to the ultimate consumer or her or his agent. As an element of dispensing, the pharmacist shall, prior to the actual physical transfer, interpret and assess the prescription order for potential adverse reactions, interactions, and dosage regimen she or he deems appropriate in the exercise of her or his professional judgment, and the pharmacist shall certify that the medicinal drug called for by the prescription is ready for transfer. The pharmacist shall also provide counseling on proper drug usage, either orally or in writing, if in the exercise of her or his professional judgment counseling is necessary. The actual sales transaction and delivery of such drug shall not be considered dispensing. The administration shall not be considered dispensing.

(7) "Institutional formulary system" means a method whereby the medical staff evaluates, appraises, and selects those medicinal drugs or proprietary preparations which in the medical staff's clinical judgment are most useful in patient care, and which are available for dispensing by a practicing pharmacist in a Class II institutional pharmacy.

(8) "Medicinal drugs" or "drugs" means those substances or preparations commonly known as "prescription" or "legend" drugs which are required by federal or state law to be dispensed only on a prescription, but shall not include patents or proprietary preparations as hereafter defined.

(9) "Patent or proprietary preparation" means a medicine in its unbroken, original package which is sold to the public by, or under the authority of, the manufacturer or primary distributor thereof and which is not misbranded under the provisions of the Florida Drug and Cosmetic Act.

(10) "Pharmacist" means any person licensed pursuant to this chapter to practice the profession of pharmacy.

(11)(a) "Pharmacy" includes a community pharmacy, an institutional pharmacy, a nuclear pharmacy, a special pharmacy, and an Internet pharmacy.

1. The term "community pharmacy" includes every location where medicinal drugs are compounded, dispensed, stored, or sold or where prescriptions are filled or dispensed on an outpatient basis.

2. The term "institutional pharmacy" includes every location in a hospital, clinic, nursing home, dispensary, sanitarium, extended care facility, or other facility, hereinafter referred to as "health care institutions," where medicinal drugs are compounded, dispensed, stored, or sold.

3. The term "nuclear pharmacy" includes every location where radioactive drugs and chemicals within the classification of medicinal drugs are compounded, dispensed, stored, or sold. The term "nuclear pharmacy" does not include hospitals licensed under chapter 395 or the nuclear medicine facilities of such hospitals.

4. The term "special pharmacy" includes every location where medicinal drugs are compounded, dispensed, stored, or sold if such locations are not otherwise defined in this subsection.

5. The term "Internet pharmacy" includes locations not otherwise licensed or issued a permit under this chapter, within or outside this state, which use the Internet to communicate with or obtain information from consumers in this state and use such communication or information to fill or refill prescriptions or to dispense, distribute, or otherwise engage in the practice of pharmacy in this state. Any act described in this definition constitutes the practice of pharmacy as defined in subsection (13).

(b) The pharmacy department of any permittee shall be considered closed whenever a Florida licensed pharmacist is not present and on duty. The term "not present and on duty" shall not be construed to prevent a pharmacist from exiting the prescription department for the purposes of consulting or responding to inquiries or providing assistance to patients or customers, attending to personal hygiene needs, or performing any other function for which the pharmacist is responsible, provided that such activities are conducted in a manner consistent with the pharmacist's responsibility to provide pharmacy services.

(12) "Pharmacy intern" means a person who is currently registered in, and attending, a duly accredited college or school of pharmacy, or who is a graduate of such a school or college of pharmacy, and who is duly and properly registered with the department as provided for under its rules.

(13) "Practice of the profession of pharmacy" includes compounding, dispensing, and consulting concerning contents, therapeutic values, and uses of any medicinal drug; consulting concerning therapeutic values and interactions of patent or proprietary preparations, whether pursuant to prescriptions or in the absence and entirely independent of such prescriptions or orders; and other pharmaceutical services. For purposes of this subsection, "other pharmaceutical services" means the monitoring of the patient's drug therapy and assisting the patient in the management of his or her drug therapy, and includes review of the patient's drug therapy and communication with the patient's prescribing health care provider as licensed under chapter 458, chapter 459, chapter 461, or chapter 466, or similar statutory provision in another jurisdiction, or such provider's agent or such other persons as specifically authorized by the patient, regarding the drug therapy. However, nothing in this subsection may be interpreted to permit an alteration of a

prescriber's directions, the diagnosis or treatment of any disease, the initiation of any drug therapy, the practice of medicine, or the practice of osteopathic medicine, unless otherwise permitted by law. "Practice of the profession of pharmacy" also includes any other act, service, operation, research, or transaction incidental to, or forming a part of, any of the foregoing acts, requiring, involving, or employing the science or art of any branch of the pharmaceutical profession, study, or training, and shall expressly permit a pharmacist to transmit information from persons authorized to prescribe medicinal drugs to their patients. The practice of the profession of pharmacy also includes the administration of vaccines to adults pursuant to s. 465.189.

(14)"Prescription" includes any order for drugs or medicinal supplies written or transmitted by any means of communication by a duly licensed practitioner authorized by the laws of the state to prescribe such drugs or medicinal supplies and intended to be dispensed by a pharmacist. The term also includes an orally transmitted order by the lawfully designated agent of such practitioner. The term also includes an order written or transmitted by a practitioner licensed to practice in a jurisdiction other than this state, but only if the pharmacist called upon to dispense such order determines, in the exercise of her or his professional judgment, that the order is valid and necessary for the treatment of a chronic or recurrent illness. The term "prescription" also includes a pharmacist's order for a product selected from the formulary created pursuant to s. 465.186. Prescriptions may be retained in written form or the pharmacist may cause them to be recorded in a data processing system, provided that such order can be produced in printed form upon lawful request.

(15)"Nuclear pharmacist" means a pharmacist licensed by the department and certified as a nuclear pharmacist pursuant to s. 465.0126.

(16)"Centralized prescription filling" means the filling of a prescription by one pharmacy upon request by another pharmacy to fill or refill the prescription. The term includes the performance by one pharmacy for another pharmacy of other pharmacy duties such as drug utilization review, therapeutic drug utilization review, claims adjudication, and the obtaining of refill authorizations.

(17)"Automated pharmacy system" means a mechanical system that delivers prescription drugs received from a Florida licensed pharmacy and maintains related transaction information.

(3)The board may suspend or revoke the permit of, or may refuse to issue a permit to:

(a)Any person who has been disciplined or who has abandoned a permit or allowed a permit to become void after written notice that disciplinary proceedings had been or would be brought against the permit;

(4)In addition to any other remedies provided by law, the board may deny the application or suspend or revoke the license, registration, or certificate of any entity regulated or licensed by it if the applicant, licensee, registrant, or licenseholder, or, in the case of a corporation, partnership, or other business entity, if any officer, director, agent, or managing employee of that business entity or any affiliated person, partner, or shareholder having an ownership interest equal to 5 percent or greater in that business entity, has failed to pay all outstanding fines, liens, or overpayments assessed by final order of the department, unless a repayment plan is approved by the department, or has failed to comply with any repayment plan.

History.—s. 13, ch. 2011-141.

465.019 Institutional pharmacies; permits.—

(1) Any institution desiring to operate an institutional pharmacy shall apply to the department. If the board certifies that the application complies with the laws of the state and the rules of the board governing pharmacies, the department shall issue the permit.

(2) The following classes of institutional pharmacies are established:

(a) "Class I institutional pharmacies" are those institutional pharmacies in which all medicinal drugs are administered from individual prescription containers to the individual patient and in which medicinal drugs are not dispensed on the premises, except that nursing homes licensed under part II of chapter 400 may purchase medical oxygen for administration to residents. No medicinal drugs may be dispensed in a Class I institutional pharmacy.

(b) "Class II institutional pharmacies" are those institutional pharmacies which employ the services of a registered pharmacist or pharmacists who, in practicing institutional pharmacy, shall provide dispensing and consulting services on the premises to patients of that institution, for use on the premises of that institution. However, an institutional pharmacy located in an area or county included in an emergency order or proclamation of a state of emergency declared by the Governor may provide dispensing and consulting services to individuals who are not patients of the institution. However, a single dose of a medicinal drug may be obtained and administered to a patient on a valid physician's drug order under the supervision of a physician or charge nurse, consistent with good institutional practice procedures. The obtaining and administering of such single dose of a medicinal drug shall be pursuant to drug-handling procedures established by a consultant pharmacist. Medicinal drugs may be dispensed in a Class II institutional pharmacy, but only in accordance with the provisions of this section.

(c) "Modified Class II institutional pharmacies" are those institutional pharmacies in short-term, primary care treatment centers that meet all the requirements for a Class II permit, except space and equipment requirements.

(3) Medicinal drugs shall be stocked, stored, compounded, dispensed, or administered in any health care institution only when that institution has secured an institutional pharmacy permit from the department.

(4) Medicinal drugs shall be dispensed in an institutional pharmacy to outpatients only when that institution has secured a community pharmacy permit from the department. However, an individual licensed to prescribe medicinal drugs in this state may dispense up to a 24-hour supply of a medicinal drug to any patient of an emergency department of a hospital that operates a Class II institutional pharmacy, provided that the physician treating the patient in such hospital's emergency department determines that the medicinal drug is warranted and that community pharmacy services are not readily accessible, geographically or otherwise, to the

patient. Such dispensing from the emergency department must be in accordance with the procedures of the hospital. For any such patient for whom a medicinal drug is warranted for a period to exceed 24 hours, an individual licensed to prescribe such drug must dispense a 24-hour supply of such drug to the patient and must provide the patient with a prescription for such drug for use after the initial 24-hour period. The board may adopt rules necessary to carry out the provisions of this subsection.

(5) All institutional pharmacies shall be under the professional supervision of a consultant pharmacist, and the compounding and dispensing of medicinal drugs shall be done only by a licensed pharmacist. Every institutional pharmacy that employs or otherwise uses registered pharmacy technicians shall have a written policy and procedures manual specifying those duties, tasks, and functions that a registered pharmacy technician is allowed to perform.

(6) In a Class II institutional pharmacy, an institutional formulary system may be adopted with approval of the medical staff for the purpose of identifying those medicinal drugs and proprietary preparations that may be dispensed by the pharmacists employed in such institution. A facility with a Class II institutional permit which is operating under the formulary system shall establish policies and procedures for the development of the system in accordance with the joint standards of the American Hospital Association and American Society of Hospital Pharmacists for the utilization of a hospital formulary system, which formulary shall be approved by the medical staff.

If the board certifies that the application complies with applicable law, the department shall issue the permit. No permit shall be issued unless a duly licensed and qualified nuclear pharmacist is designated as being responsible for activities described in s. 465.0126. The permittee shall notify the department within 10 days of any change of the licensed pharmacist responsible for the compounding and dispensing of nuclear pharmaceuticals.

If the board certifies that the application complies with the applicable laws and rules of the board governing the practice of the profession of pharmacy, the department shall issue the permit. A permit may not be issued unless a licensed pharmacist is designated to undertake the professional supervision of the compounding and dispensing of all drugs dispensed by the pharmacy. The licensed pharmacist shall be responsible for maintaining all drug records and for providing for the security of the area in the facility in which the compounding, storing, and dispensing of medicinal drugs occurs. The permittee shall notify the department within 10 days after any change of the licensed pharmacist responsible for such duties. Each permittee that employs or otherwise uses registered pharmacy technicians shall have a written policy and procedures manual specifying those duties, tasks, and functions that a registered pharmacy technician is allowed to perform.

If the board certifies that the application complies with the applicable laws and rules of the board governing the practice of the profession of pharmacy, the department shall issue the permit. A permit may not be issued unless a licensed pharmacist is designated as the prescription department manager for dispensing medicinal drugs to persons in this state. The licensed pharmacist shall be responsible for maintaining all drug records and for providing for the security of the area in the facility in which the compounding, storing, and dispensing of medicinal drugs to persons in this state occurs. (c) That it complies with all lawful directions and requests for information from the regulatory or licensing agency of all states in which it is licensed as well as with all requests for information made by the board pursuant to this section. It shall respond directly to all communications from the board concerning emergency circumstances arising from errors in the dispensing of medicinal drugs to persons in this state.

(d) That it maintains its records of medicinal drugs dispensed to patients in this state so that the records are readily retrievable from the other business records of the pharmacy and from the records of other medicinal drugs dispensed.

(e) That during its regular hours of operation but not less than 6 days per week, for a minimum of 40 hours per week, a toll-free telephone service shall be provided to facilitate communication between patients in this state and a pharmacist at the pharmacy who has access to the patient's records. This toll-free number must be disclosed on the label affixed to each container of dispensed medicinal drugs.

(4) Notwithstanding s. 465.003(10), for purposes of this section, the Internet pharmacy and the pharmacist designated by the Internet pharmacy as the prescription department manager or the equivalent must be licensed in the state of location in order to dispense into this state.

(j) Has dispensed any medicinal drug based upon a communication that purports to be a prescription as defined by s. 465.003(14) or s. 893.02 when the pharmacist knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship that includes a documented patient evaluation, including history and a physical examination adequate to establish the diagnosis for which any drug is prescribed and any other requirement established by board rule under chapter 458, chapter 459, chapter 461, chapter 463, chapter 464, or chapter 466.

For felonies in which the defendant entered a plea of guilty or nolo contendere in an agreement with the court to enter a pretrial intervention or drug diversion program, the department shall deny the application if upon final resolution of the case the licensee has failed to successfully complete the program.

(6)The department or board may deny an application for a pharmacy permit if the applicant or an affiliated person, partner, officer, director, or prescription department manager or consultant pharmacist of record of the applicant has violated or failed to comply with any provision of this chapter; chapter 499, the Florida Drug and Cosmetic Act; chapter 893; 21 U.S.C. ss. 301-392, the Federal Food, Drug, and Cosmetic Act; 21 U.S.C. ss. 821 et seq., the Comprehensive Drug Abuse Prevention and Control Act; or any rules or regulations promulgated thereunder unless the violation or noncompliance is technical.

(7)After the application has been filed with the board and the permit fee provided in this section has been received, the board shall cause the application to be fully investigated, both as to the qualifications of the applicant and the prescription department manager or consultant pharmacist designated to be in charge and as to the premises and location described in the application.

(8)The Board of Pharmacy shall have the authority to determine whether a bona fide transfer of ownership is present and that the sale of a pharmacy is not being accomplished for the purpose of avoiding an administrative prosecution.

(9)Upon the completion of the investigation of an application, the board shall approve or deny the application. If approved, the permit shall be issued by the department.

(10)A permittee must notify the department, on a form approved by the board, within 10 days after any change in prescription department manager or consultant pharmacist of record.

(11)A permittee must notify the department of the identity of the prescription department manager within 10 days after employment. The prescription department manager must comply with the following requirements:

(b)The prescription department manager must ensure the security of the prescription department. The prescription department manager must notify the board of any theft or significant loss of any controlled substances within 1 business day after discovery of the theft or loss.

(c)A registered pharmacist may not serve as the prescription department manager in more than one location unless approved by the board.

(12)The board shall adopt rules that require the keeping of such records of prescription drugs as are necessary for the protection of public health, safety, and welfare.

(a)All required records documenting prescription drug distributions shall be readily available or immediately retrievable during an inspection by the department.

(1) The department or the board may revoke or suspend the permit of any pharmacy permittee, and may fine, place on probation, or otherwise discipline any pharmacy permittee if the permittee, or any affiliated person, partner, officer, director, or agent of the permittee, including a person fingerprinted under s. 465.022(3), has:

(h) Dispensed any medicinal drug based upon a communication that purports to be a prescription as defined by s. 465.003(14) or s. 893.02 when the pharmacist knows or has reason to believe that the purported prescription is not based upon a valid practitioner-patient relationship that includes a documented patient evaluation, including history and a physical examination adequate to establish the diagnosis for which any drug is prescribed and any other requirement established by board rule under chapter 458, chapter 459, chapter 461, chapter 463, chapter 464, or chapter 466.

(2) If a pharmacy permit is revoked or suspended, the owner, manager, or proprietor shall cease to operate the establishment as a pharmacy as of the effective date of such suspension or revocation. In the event of such revocation or suspension, the owner, manager, or proprietor shall remove from the premises all signs and symbols identifying the premises as a pharmacy. The period of such suspension shall be prescribed by the Board of Pharmacy, but in no case shall it exceed 1 year. In the event that the permit is revoked, the person owning or operating the establishment shall not be entitled to make application for a permit to operate a pharmacy for a period of 1 year from the date of such revocation. 465.0235 Automated pharmacy systems used by long-term care facilities, hospices, or state correctional institutions.—

(1)A pharmacy may provide pharmacy services to a long-term care facility or hospice licensed under chapter 400 or chapter 429 or a state correctional institution operated under chapter 944 through the use of an automated pharmacy system that need not be located at the same location as the pharmacy.

(2)Medicinal drugs stored in bulk or unit of use in an automated pharmacy system servicing a long-term care facility, hospice, or correctional institution are part of the inventory of the pharmacy providing pharmacy services to that facility, hospice, or institution, and drugs delivered by the automated pharmacy system are considered to have been dispensed by that pharmacy.

(3)The operation of an automated pharmacy system must be under the supervision of a Florida-licensed pharmacist. To qualify as a supervisor for an automated pharmacy system, the pharmacist need not be physically present at the site of the automated pharmacy system and may supervise the system electronically. The Florida-licensed pharmacist shall be required to develop and implement policies and procedures designed to verify that the medicinal drugs delivered by the automated dispensing system are accurate and valid and that the machine is properly restocked.

(4)The Legislature does not intend this section to limit the current practice of pharmacy in this state. This section is intended to allow automated pharmacy systems to enhance the ability of a pharmacist to provide pharmacy services in locations that do not employ a full-time pharmacist. This section does not limit or replace the use of a consultant pharmacist.

(5)The board shall adopt rules governing the use of an automated pharmacy system by January 1, 2005, which must specify:

(a)Recordkeeping requirements;
(b)Security requirements; and
(c)Labeling requirements that permit the use of unit-dose medications if the facility, hospice, or institution maintains medication-administration records that include directions for use of the medication and the automated pharmacy system identifies:

- 1.The dispensing pharmacy;
- 2.The prescription number;
- 3.The name of the patient; and
- 4.The name of the prescribing practitioner.

History.—s. 3, ch. 2004-25; s. 92, ch. 2006-197.

465.024Promoting sale of certain drugs prohibited.—

(1)It is declared that the unrestricted use of certain controlled substances, causing abnormal reactions that may interfere with the user's physical reflexes and judgments, may create hazardous circumstances which may cause accidents to the user and to others, thereby affecting the public health, safety, and welfare. It is further declared to be in the public interest to limit the means of promoting the sale and use of these drugs. All provisions of this section shall be liberally construed to carry out these objectives and purposes.

(2) No pharmacist, owner, or employee of a retail drug establishment shall use any communication media to promote or advertise the use or sale of any controlled substance appearing in any schedule in chapter 893.

(3) This section shall not prohibit the advertising of any medicinal drugs, other than those controlled substances specified in chapter 893, or any patent or proprietary preparation, provided the advertising is not false, misleading, or deceptive.

465.0244 Information disclosure.—Every pharmacy shall make available on its Internet website a link to the performance outcome and financial data that is published by the Agency for Health Care Administration pursuant to s. 408.05(3)(k) and shall place in the area where customers receive filled prescriptions notice that such information is available electronically and the address of its Internet website. History.—s. 39, ch. 2004-297; s. 14, ch. 2006-261.

465.025 Substitution of drugs.—

(1) As used in this section:

(a) "Brand name" means the registered trademark name given to a drug product by its manufacturer, labeler, or distributor.

(b) "Generically equivalent drug product" means a drug product with the same active ingredient, finished dosage form, and strength.

(c) "Prescriber" means any practitioner licensed to prescribe medicinal drugs.

(2) A pharmacist who receives a prescription for a brand name drug shall, unless requested otherwise by the purchaser, substitute a less expensive, generically equivalent drug product that is:

(a) Distributed by a business entity doing business, and subject to suit and service of legal process, in the United States; and

(b) Listed in the formulary of generic and brand name drug products as provided in subsection (5) for the brand name drug prescribed,

unless the prescriber writes the words "MEDICALLY NECESSARY," in her or his own handwriting, on the face of a written prescription; unless, in the case of an oral prescription, the prescriber expressly indicates to the pharmacist that the brand name drug prescribed is medically necessary; or unless, in the case of a prescription that is electronically generated and transmitted, the prescriber makes an overt act when transmitting the prescription to indicate that the brand name drug prescribed is medically necessary. When done in conjunction with the electronic transmission of the prescription, the prescriber's overt act indicates to the pharmacist that the brand name drug prescribed is medically necessary.

(3)(a) Any pharmacist who substitutes any drug as provided in subsection (2) shall notify the person presenting the prescription of such substitution, together with the existence and amount of the retail price difference between the brand name drug and the drug substituted for it, and shall inform the person presenting the prescription that such person may refuse the substitution as provided in subsection (2).

(b) Any pharmacist substituting a less expensive drug product shall pass on to the consumer the full amount of the savings realized by such substitution.

(4) Each pharmacist shall maintain a record of any substitution of a generically equivalent drug product for a prescribed brand name drug as provided in this section.

(5) Each community pharmacy shall establish a formulary of generic and brand name drug products which, if selected as the drug product of choice, would not pose a threat to the health and safety of patients receiving prescription medication. In compiling the list of generic and brand name drug products for inclusion in the formulary, the pharmacist shall rely on drug product research, testing, information, and formularies compiled by other pharmacies, by states, by the United States Department of Health, Education, and Welfare, by the United States Department of Health and Human Services, or by any other source which the pharmacist deems reliable. Each community pharmacy shall make such formulary available to the public, the Board of Pharmacy, or any physician requesting same. This formulary shall be revised following each addition, deletion, or modification of said formulary.

(6) The Board of Pharmacy and the Board of Medicine shall establish by rule a formulary of generic drug type and brand name drug products which are determined by the boards to demonstrate clinically significant biological or therapeutic inequivalence and which, if substituted, would pose a threat to the health and safety of patients receiving prescription medication.

(a) The formulary may be added to or deleted from as the Board of Pharmacy and the Board of Medicine deem appropriate. Any person who requests any inclusion, addition, or deletion of a generic drug type or brand name drug product to the formulary shall have the burden of proof to show cause why such inclusion, addition, or deletion should be made.

(b) Upon adoption of the formulary required by this subsection, and upon each addition, deletion, or modification to the formulary, the Board of Pharmacy shall mail a copy to each manager of the prescription department of each community pharmacy licensed by the state, each nonresident pharmacy registered in the state, and each board regulating practitioners licensed by the laws of the state to prescribe drugs shall incorporate such formulary into its rules. No pharmacist shall substitute a generically equivalent drug product for a prescribed brand name drug product if the brand name drug product or the generic drug type drug product is included in the said formulary.

(7) Every community pharmacy shall display in a prominent place that is in clear and unobstructed public view, at or near the place where prescriptions are dispensed, a sign in block letters not less than 1 inch in height which shall read: "CONSULT YOUR PHARMACIST CONCERNING THE AVAILABILITY OF A LESS EXPENSIVE GENERICALLY EQUIVALENT DRUG AND THE REQUIREMENTS OF FLORIDA LAW."

(8) The standard of care to be applied to the acts of any pharmacist performing professional services in compliance with this section when a substitution is made by said pharmacist shall be that which would apply to the performance of professional services in the dispensing of a prescription order prescribing a drug by generic name. In no event when a pharmacist substitutes a drug shall the prescriber be liable in any action for loss, damage, injury, or death to any person occasioned by or arising from the use or nonuse of the substituted drug, unless the original drug was incorrectly prescribed.

465.0251 Generic drugs; removal from formulary under specified circumstances.—

(1) The Board of Pharmacy and the Board of Medicine shall remove any generic named drug product from the formulary established by s. 465.025(6), if every commercially marketed equivalent of that drug product is "A" rated as

therapeutically equivalent to a reference listed drug or is a reference listed drug as referred to in "Approved Drug Products with Therapeutic Equivalence Evaluations" (Orange Book) published by the United States Food and Drug Administration.

(2) Nothing in this act shall alter or amend s. 465.025 as to existing law providing for the authority of physicians to prohibit generic drug substitution by writing "medically necessary" on the prescription.

History.—ss. 1, 2, ch. 2001-146.

465.0255 Expiration date of medicinal drugs; display; related use and storage instructions.—

(1) The manufacturer, repackager, or other distributor of any medicinal drug shall display the expiration date of each drug in a readable fashion on the container and on its packaging. The term "readable" means conspicuous and bold.

(2) Each pharmacist for a community pharmacy dispensing medicinal drugs and each practitioner dispensing medicinal drugs on an outpatient basis shall display on the outside of the container of each medicinal drug dispensed, or in other written form delivered to the purchaser:

(a) The expiration date when provided by the manufacturer, repackager, or other distributor of the drug; or

(b) An earlier beyond-use date for expiration, which may be up to 1 year after the date of dispensing.

The dispensing pharmacist or practitioner must provide information concerning the expiration date to the purchaser upon request and must provide appropriate instructions regarding the proper use and storage of the drug.

(3) This section does not impose liability on the dispensing pharmacist or practitioner for damages related to, or caused by, a medicinal drug that loses its effectiveness prior to the expiration date displayed by the dispensing pharmacist or practitioner.

(4) The provisions of this section are intended to notify the patient receiving a medicinal drug of the information required by this section, and the dispensing pharmacist or practitioner shall not be liable for the patient's failure to heed such notice or to follow the instructions for storage.

History.—ss. 1, 2, ch. 93-44; s. 8, ch. 2004-387.

465.026 Filling of certain prescriptions.—Nothing contained in this chapter shall be construed to prohibit a pharmacist licensed in this state from filling or refilling a valid prescription which is on file in a pharmacy located in this state or in another state and has been transferred from one pharmacy to another by any means, including any electronic means, under the following conditions:

(1) Prior to dispensing any transferred prescription, the dispensing pharmacist must, either verbally or by any electronic means, do all of the following:

(a) Advise the patient that the prescription on file at the other pharmacy must be canceled before it may be filled or refilled.

(b) Determine that the prescription is valid and on file at the other pharmacy and that the prescription may be filled or refilled, as requested, in accordance with the prescriber's intent expressed on the prescription.

(c) Notify the pharmacist or pharmacy where the prescription is on file that the prescription must be canceled.

(d) Record in writing, or by any electronic means, the prescription order, the name of the pharmacy at which the prescription was on file, the prescription number, the

name of the drug and the original amount dispensed, the date of original dispensing, and the number of remaining authorized refills.

(e) Obtain the consent of the prescriber to the refilling of the prescription when the prescription, in the dispensing pharmacist's professional judgment, so requires. Any interference with the professional judgment of the dispensing pharmacist by any pharmacist or pharmacy permittee, or its agents or employees, shall be grounds for discipline.

(2) Upon receipt of a prescription transfer request, if the pharmacist is satisfied in her or his professional judgment that the request is valid, or if the request has been validated by any electronic means, the pharmacist or pharmacy must do all of the following:

(a) Transfer the information required by paragraph (1)(d) accurately and completely.

(b) Record on the prescription, or by any electronic means, the requesting pharmacy and pharmacist and the date of request.

(c) Cancel the prescription on file by electronic means or by recording the word "void" on the prescription record. No further prescription information shall be given or medication dispensed pursuant to the original prescription.

(3) If a transferred prescription is not dispensed within a reasonable time, the pharmacist shall, by any means, so notify the transferring pharmacy. Such notice shall serve to revalidate the canceled prescription. The pharmacist who has served such notice shall then cancel the prescription in the same manner as set forth in paragraph (2)(c).

(4) In the case of a prescription to be transferred from or to a pharmacy located in another state, it shall be the responsibility of the pharmacist or pharmacy located in the State of Florida to verify, whether by electronic means or otherwise, that the person or entity involved in the transfer is a licensed pharmacist or pharmacy in the other state.

(5) Electronic transfers of prescriptions are permitted regardless of whether the transferor or transferee pharmacy is open for business.

(6) The transfer of a prescription for medicinal drugs listed in Schedules III, IV, and V appearing in chapter 893 for the purpose of refill dispensing is permissible, subject to the requirements of this section and federal law. Compliance with federal law shall be deemed compliance with the requirements of this section.

465.0265 Centralized prescription filling.—

(1) A pharmacy licensed under this chapter may perform centralized prescription filling for another pharmacy, provided that the pharmacies have the same owner or have a written contract specifying the services to be provided by each pharmacy, the responsibilities of each pharmacy, and the manner in which the pharmacies will comply with federal and state laws, rules, and regulations.

(2) Each pharmacy performing or contracting for the performance of centralized prescription filling pursuant to this section must maintain a policy and procedures manual, which shall be made available to the board or its agent upon request. The policy and procedures manual shall include the following information:

(a) A description of how each pharmacy will comply with federal and state laws, rules, and regulations.

(b)The procedure for maintaining appropriate records to identify the pharmacist responsible for dispensing the prescription and counseling the patient.

(c)The procedure for tracking the prescription during each stage of the filling and dispensing process.

(d)The procedure for identifying on the prescription label all pharmacies involved in filling and dispensing the prescription.

(e)The policy and procedure for providing adequate security to protect the confidentiality and integrity of patient information.

(f)The procedure to be used by the pharmacy in implementing and operating a quality assurance program designed to objectively and systematically monitor, evaluate, and improve the quality and appropriateness of patient care.

(3)The filling, delivery, and return of a prescription by one pharmacy for another pursuant to this section shall not be construed as the filling of a transferred prescription as set forth in s. 465.026 or as a wholesale distribution as set forth in s. 499.003(54).

(4)The board shall adopt rules pursuant to ss. 120.536(1) and 120.54 necessary to implement this section.

History.—s. 2, ch. 2002-182; s. 40, ch. 2008-207; s. 38, ch. 2010-161.

465.0266 Common database.—Nothing contained in this chapter shall be construed to prohibit the dispensing by a pharmacist licensed in this state or another state of a prescription contained in a common database, and such dispensing shall not constitute a transfer as defined in s. 465.026(1)-(6), provided that the following conditions are met:

(1)All pharmacies involved in the transactions pursuant to which the prescription is dispensed are under common ownership and utilize a common database.

(2)All pharmacies involved in the transactions pursuant to which the prescription is dispensed and all pharmacists engaging in dispensing functions are properly licensed, permitted, or registered in this state or another state.

(3)The common database maintains a record of all pharmacists involved in the process of dispensing a prescription.

(4)The owner of the common database maintains a policy and procedures manual that governs its participating pharmacies, pharmacists, and pharmacy employees and that is available to the board or its agent upon request. The policy and procedures manual shall include the following information:

(a)A best practices model detailing how each pharmacy and each pharmacist accessing the common database will comply with applicable federal and state laws, rules, and regulations.

(b)The procedure for maintaining appropriate records for regulatory oversight for tracking a prescription during each stage of the filling and dispensing process, identifying the pharmacists involved in filling and dispensing the prescription and counseling the patient, and responding to any requests for information made by the board under s. 465.0156.

(c)The policy and procedure for providing adequate security to protect the confidentiality and integrity of patient information.

(d)A quality assurance program designed to objectively and systematically monitor, evaluate, and improve the quality and appropriateness of patient care through the use of the common database.

Any pharmacist dispensing a prescription has at all times the right and obligation to exercise his or her independent professional judgment. Notwithstanding other provisions in this section, no pharmacist licensed in this state participating in the dispensing of a prescription pursuant to

this section shall be responsible for the acts and omissions of another person participating in the dispensing process provided such person is not under the direct supervision and control of the pharmacist licensed in this state.

History.—s. 2, ch. 2006-243.

465.027 Exceptions.—This chapter shall not be construed to prohibit the sale of home remedies or preparations commonly known as patents or proprietary preparations, when such are sold only in original or unbroken packages, nor shall this chapter be construed to prevent businesses from engaging in the sale of sundries or patents or proprietary preparations.

History.—ss. 1, 7, ch. 79-226; ss. 2, 3, ch. 81-318; ss. 18, 26, 27, ch. 86-256; s. 59, ch. 91-137; s. 6, ch. 91-156; s. 4, ch. 91-429.

465.0275 Emergency prescription refill.—In the event a pharmacist receives a request for a prescription refill and the pharmacist is unable to readily obtain refill authorization from the prescriber, the pharmacist may dispense a one-time emergency refill of up to a 72-hour supply of the prescribed medication, with the exception of those areas or counties included in an emergency order or proclamation of a state of emergency declared by the Governor, in which the executive order may authorize the pharmacist to dispense up to a 30-day supply, providing that:

(1)The prescription is not for a medicinal drug listed in Schedule II appearing in chapter 893.

(2)The medication is essential to the maintenance of life or to the continuation of therapy in a chronic condition.

(3)In the pharmacist's professional judgment, the interruption of therapy might reasonably produce undesirable health consequences or may cause physical or mental discomfort.

(4)The dispensing pharmacist creates a written order containing all of the prescription information required by this chapter and chapters 499 and 893 and signs that order.

(5)The dispensing pharmacist notifies the prescriber of the emergency dispensing within a reasonable time after such dispensing.

History.—ss. 19, 27, ch. 86-256; s. 3, ch. 89-77; s. 59, ch. 91-137; s. 6, ch. 91-156; s. 4, ch. 91-429; s. 30, ch. 93-211.

465.0276 Dispensing practitioner.—

(1)(a)A person may not dispense medicinal drugs unless licensed as a pharmacist or otherwise authorized under this chapter to do so, except that a practitioner authorized by law to prescribe drugs may dispense such drugs to her or his patients in the regular course of her or his practice in compliance with this section.

(b)A practitioner registered under this section may not dispense a controlled substance listed in Schedule II or Schedule III as provided in s. 893.03. This paragraph does not apply to:

1.The dispensing of complimentary packages of medicinal drugs which are labeled as a drug sample or complimentary drug as defined in s. 499.028 to the practitioner's own patients in the regular course of her or his practice without the payment of a fee or remuneration of any kind, whether direct or indirect, as provided in subsection (5).

2.The dispensing of controlled substances in the health care system of the Department of Corrections.

3. The dispensing of a controlled substance listed in Schedule II or Schedule III in connection with the performance of a surgical procedure. The amount dispensed pursuant to the subparagraph may not exceed a 14-day supply. This exception does not allow for the dispensing of a controlled substance listed in Schedule II or Schedule III more than 14 days after the performance of the surgical procedure. For purposes of this subparagraph, the term "surgical procedure" means any procedure in any setting which involves, or reasonably should involve:

a. Perioperative medication and sedation that allows the patient to tolerate unpleasant procedures while maintaining adequate cardiorespiratory function and the ability to respond purposefully to verbal or tactile stimulation and makes intra- and postoperative monitoring necessary; or

b. The use of general anesthesia or major conduction anesthesia and preoperative sedation.

4. The dispensing of a controlled substance listed in Schedule II or Schedule III pursuant to an approved clinical trial. For purposes of this subparagraph, the term "approved clinical trial" means a clinical research study or clinical investigation that, in whole or in part, is state or federally funded or is conducted under an investigational new drug application that is reviewed by the United States Food and Drug Administration.

5. The dispensing of methadone in a facility licensed under s. 397.427 where medication-assisted treatment for opiate addiction is provided.

6. The dispensing of a controlled substance listed in Schedule II or Schedule III to a patient of a facility licensed under part IV of chapter 400.

(2) A practitioner who dispenses medicinal drugs for human consumption for fee or remuneration of any kind, whether direct or indirect, must:

(a) Register with her or his professional licensing board as a dispensing practitioner and pay a fee not to exceed \$100 at the time of such registration and upon each renewal of her or his license. Each appropriate board shall establish such fee by rule.

(b) Comply with and be subject to all laws and rules applicable to pharmacists and pharmacies, including, but not limited to, this chapter and chapters 499 and 893 and all federal laws and federal regulations.

(c) Before dispensing any drug, give the patient a written prescription and orally or in writing advise the patient that the prescription may be filled in the practitioner's office or at any pharmacy.

(3) The department shall inspect any facility where a practitioner dispenses medicinal drugs pursuant to subsection (2) in the same manner and with the same frequency as it inspects pharmacies for the purpose of determining whether the practitioner is in compliance with all statutes and rules applicable to her or his dispensing practice.

(4) The registration of any practitioner who has been found by her or his respective board to have dispensed medicinal drugs in violation of this chapter shall be subject to suspension or revocation.

(5) A practitioner who confines her or his activities to the dispensing of complimentary packages of medicinal drugs to the practitioner's own patients in the regular course of her or his practice, without the payment of fee or remuneration of any kind, whether direct or indirect, and who herself or himself dispenses such drugs is not required to register pursuant to this section. The practitioner must dispense such drugs in the manufacturer's labeled package with the practitioner's name, patient's name, and date dispensed, or, if such drugs are not dispensed in the manufacturer's labeled package, they must be dispensed in a container which bears the following information:

(a) Practitioner's name;

(b) Patient's name;

465.035 Dispensing of medicinal drugs pursuant to facsimile of prescription.—

(1) Notwithstanding any other provision of this chapter, it is lawful for a pharmacy to dispense medicinal drugs, including controlled substances authorized under subsection (2), based on reception of an electronic facsimile of the original prescription if all of the following conditions are met:

(a) In the course of the transaction the pharmacy complies with laws and administrative rules relating to pharmacies and pharmacists.

(b) Except in the case of the transmission of a prescription by a person authorized by law to prescribe medicinal drugs:

1. The facsimile system making the transmission provides the pharmacy receiving the transmission with audio communication via telephonic, electronic, or similar means with the person presenting the prescription.

2. At the time of the delivery of the medicinal drugs, the pharmacy has in its possession the original prescription for the medicinal drug involved.

3. The recipient of the prescription shall sign a log and shall indicate the name and address of both the recipient and the patient for whom the medicinal drug was prescribed.

(2) Controlled substances listed in Schedule II as defined in s. 893.03(2) may be dispensed as provided in this section to the extent allowed by 21 C.F.R. s. 1306.11. History.—s. 5, ch. 90-341; s. 59, ch. 91-137; s. 6, ch. 91-156; s. 8, ch. 91-201; s. 4, ch. 91-429; s. 94, ch. 97-264; s. 5, ch. 99-186.

465.185 Rebates prohibited; penalties.—

(1) It is unlawful for any person to pay or receive any commission, bonus, kickback, or rebate or engage in any split-fee arrangement in any form whatsoever with any physician, surgeon, organization, agency, or person, either directly or indirectly, for patients referred to a pharmacy registered under this chapter.

(2) The department shall adopt rules which assess administrative penalties for acts prohibited by subsection (1). In the case of an entity licensed by the department, such penalties may include any disciplinary action available to the department under the appropriate licensing laws. In the case of an entity not licensed by the department, such penalties may include:

(a) A fine not to exceed \$1,000.

(b) If applicable, a recommendation by the department to the appropriate regulatory agency that disciplinary action be taken.

465.186 Pharmacist's order for medicinal drugs; dispensing procedure; development of formulary.—

(1) There is hereby created a committee composed of two members of the Board of Medicine licensed under chapter 458 chosen by said board, one member of the Board of Osteopathic Medicine licensed under chapter 459 chosen by said board, three members of the Board of Pharmacy licensed under this chapter and chosen by said board, and one additional person with a background in health care or pharmacology

chosen by the committee. The committee shall establish a formulary of medicinal drug products and dispensing procedures which shall be used by a pharmacist when ordering and dispensing such drug products to the public. Dispensing procedures may include matters related to reception of patient, description of his or her condition, patient interview, patient physician referral, product selection, and dispensing and use limitations. In developing the formulary of medicinal drug products, the committee may include products falling within the following categories:

(a) Any medicinal drug of single or multiple active ingredients in any strengths when such active ingredients have been approved individually or in combination for over-the-counter sale by the United States Food and Drug Administration.

(b) Any medicinal drug recommended by the United States Food and Drug Administration Advisory Panel for transfer to over-the-counter status pending approval by the United States Food and Drug Administration.

(c) Any medicinal drug containing any antihistamine or decongestant as a single active ingredient or in combination.

(d) Any medicinal drug containing fluoride in any strength.

(e) Any medicinal drug containing lindane in any strength.

(f) Any over-the-counter proprietary drug under federal law that has been approved for reimbursement by the Florida Medicaid Program.

(g) Any topical anti-infectives excluding eye and ear topical anti-infectives.

However, any drug which is sold as an over-the-counter proprietary drug under federal law shall not be included in the formulary or otherwise affected by this section.

(2) The Board of Pharmacy, the Board of Medicine, and the Board of Osteopathic Medicine shall adopt by rule a formulary of medicinal drugs and dispensing procedures as established by the committee. A pharmacist may order and dispense a product from the formulary pursuant to the established dispensing procedure, as adopted by the boards, for each drug in conjunction with its inclusion in the formulary. Any drug product ordered by a pharmacist shall be selected and dispensed only by the pharmacist so ordering, and said order shall not be refilled, nor shall another medicinal drug be ordered for the same condition unless such act is consistent with dispensing procedures established by the committee. Appropriate referral to another health care provider is indicated under such circumstances. On each occasion of such dispensing, the pharmacist shall create and maintain a prescription record in the form required by law.

(3) Affixed to the container containing a medicinal drug dispensed pursuant to this section shall be a label bearing the following information:

(a) The name of the pharmacist ordering the medication.

(b) The name and address of the pharmacy from which the medication was dispensed.

(c) The date of dispensing.

(d) The order number or other identification adequate to readily identify the order.

(e) The name of the patient for whom the medicinal drug was ordered.

(f) The directions for use of the medicinal drug ordered.

(g) A clear, concise statement that the order may not be refilled.

(4) Any pharmacist performing the services authorized by this section shall be eligible for reimbursement by third party prescription programs when so provided by contract or when otherwise provided by such program.

(5) Any person ordering or dispensing medicinal drugs in violation of this section shall be guilty of a misdemeanor of the first degree, and such violation shall be punishable as provided in s. 775.082 or s. 775.083.

History.—ss. 2, 3, ch. 85-35; ss. 26, 27, ch. 86-256; s. 56, ch. 87-225; s. 59, ch. 91-137; s. 21, ch. 91-140; s. 6, ch. 91-156; s. 21, ch. 91-220; s. 92, ch. 91-224; s. 4, ch. 91-429; s. 96, ch. 92-149; s. 249, ch. 97-103; s. 95, ch. 97-264.

465.187 Sale of medicinal drugs.—The sale of medicinal drugs dispensed upon the order of a practitioner pursuant to this chapter shall be entitled to the exemption from sales tax provided for in s. 212.08.

History.—ss. 21, 27, ch. 86-256; s. 59, ch. 91-137; s. 6, ch. 91-156; s. 4, ch. 91-429.

465.188 Medicaid audits of pharmacies.—

(1) Notwithstanding any other law, when an audit of the Medicaid-related records of a pharmacy licensed under chapter 465 is conducted, such audit must be conducted as provided in this section.

(a) The agency conducting the audit must give the pharmacist at least 1 week's prior notice of the initial audit for each audit cycle.

(b) An audit must be conducted by a pharmacist licensed in this state.

(c) Any clerical or recordkeeping error, such as a typographical error, scrivener's error, or computer error regarding a document or record required under the Medicaid program does not constitute a willful violation and is not subject to criminal penalties without proof of intent to commit fraud.

(d) A pharmacist may use the physician's record or other order for drugs or medicinal supplies written or transmitted by any means of communication for purposes of validating the pharmacy record with respect to orders or refills of a legend or narcotic drug.

(e) A finding of an overpayment or underpayment must be based on the actual overpayment or underpayment and may not be a projection based on the number of patients served having a similar diagnosis or on the number of similar orders or refills for similar drugs.

(f) Each pharmacy shall be audited under the same standards and parameters.

(g) A pharmacist must be allowed at least 10 days in which to produce documentation to address any discrepancy found during an audit.

(h) The period covered by an audit may not exceed 1 calendar year.

(i) An audit may not be scheduled during the first 5 days of any month due to the high volume of prescriptions filled during that time.

(j) The audit report must be delivered to the pharmacist within 90 days after conclusion of the audit. A final audit report shall be delivered to the pharmacist within 6 months after receipt of the preliminary audit report or final appeal, as provided for in subsection (2), whichever is later.

(k) The audit criteria set forth in this section applies only to audits of claims submitted for payment subsequent to July 11, 2003. Notwithstanding any other provision in this section, the agency conducting the audit shall not use the accounting practice of extrapolation in calculating penalties for Medicaid audits.

(2) The Agency for Health Care Administration shall establish a process under which a pharmacist may obtain a preliminary review of an audit report and may appeal an unfavorable audit report without the necessity of obtaining legal counsel. The preliminary review and appeal may be conducted by an ad hoc peer review panel, appointed by the agency, which consists of pharmacists who maintain an active practice. If, following the preliminary review, the agency or review panel finds that an unfavorable audit report is unsubstantiated, the agency shall dismiss the audit report without the necessity of any further proceedings.

(3) This section does not apply to investigative audits conducted by the Medicaid Fraud Control Unit of the Department of Legal Affairs.

(4) This section does not apply to any investigative audit conducted by the Agency for Health Care Administration when the agency has reliable evidence that the claim that is the subject of the audit involves fraud, willful misrepresentation, or abuse under the Medicaid program.

465.189 Administration of vaccines and epinephrine autoinjection.—

(1) In accordance with guidelines of the Centers for Disease Control and Prevention for each recommended immunization or vaccine, a pharmacist may administer the following vaccines to an adult within the framework of an established protocol under a supervising physician licensed under chapter 458 or chapter 459:

(a) Influenza vaccine.

(b) Pneumococcal vaccine.

(2) In accordance with guidelines of the Centers for Disease Control and Prevention, a pharmacist may administer the shingles vaccine within the framework of an established protocol and pursuant to a written or electronic prescription issued to the patient by a physician licensed under chapter 458 or chapter 459.

(3) In order to address any unforeseen allergic reaction, a pharmacist may administer epinephrine using an autoinjector delivery system within the framework of an established protocol under a supervising physician licensed under chapter 458 or chapter 459.

(4) A pharmacist may not enter into a protocol unless he or she maintains at least \$200,000 of professional liability insurance and has completed training in administering vaccines authorized under this section.

(5) A pharmacist administering vaccines under this section shall maintain and make available patient records using the same standards for confidentiality and maintenance of such records as those that are imposed on health care practitioners under s. 456.057. These records shall be maintained for a minimum of 5 years.

(6) The decision by a supervising physician licensed under chapter 458 or chapter 459 to enter into a protocol under this section is a professional decision on the part of the practitioner, and a person may not interfere with a physician's decision as to entering into such a protocol. A pharmacist may not enter into a protocol that is to be performed while acting as an employee without the written approval of the owner of the pharmacy. Pharmacists shall forward vaccination records to the department for inclusion in the state registry of immunization information.

(7) Any pharmacist seeking to administer vaccines to adults under this section must be certified to administer such vaccines pursuant to a certification program approved by the Board of Pharmacy in consultation with the Board of Medicine and the Board of Osteopathic Medicine. The certification program shall, at a minimum, require that the pharmacist attend at least 20 hours of continuing education classes approved by the board. The program shall have a curriculum of instruction concerning the safe and effective administration of such vaccines, including, but not limited to, potential allergic reactions to such vaccines.

(8) The written protocol between the pharmacist and supervising physician under this section must include particular terms and conditions imposed by the supervising physician upon the pharmacist relating to the administration of vaccines by the pharmacist pursuant to this section. The written protocol shall include, at a minimum, specific categories and conditions among patients for whom the supervising physician authorizes the pharmacist to administer such vaccines. The terms, scope, and conditions set forth in the written protocol between the pharmacist

and the supervising physician must be appropriate to the pharmacist's training and certification for administering such vaccines. Pharmacists who have been delegated the authority to administer vaccines under this section by the supervising physician under the protocol shall provide evidence of current certification by the Board of Pharmacy to the supervising physician. A supervising physician shall review the administration of such vaccines by the pharmacist pursuant to the written protocol between them, and this review shall take place as outlined in the written protocol. The process and schedule for the review shall be outlined in the written protocol between the pharmacist and the supervising physician.

(9)The pharmacist shall submit to the Board of Pharmacy a copy of his or her protocol or written agreement to administer vaccines under this section.

465.1901 Practice of orthotics and pedorthics.—The provisions of chapter 468 relating to orthotics or pedorthics do not apply to any licensed pharmacist or to any person acting under the supervision of a licensed pharmacist. The practice of orthotics or pedorthics by a pharmacist or any of the pharmacist's employees acting under the supervision of a pharmacist shall be construed to be within the meaning of the term "practice of the profession of pharmacy" as set forth in s. 465.003(13), and shall be subject to regulation in the same manner as any other pharmacy practice. The Board of Pharmacy shall develop rules regarding the practice of orthotics and pedorthics by a pharmacist. Any pharmacist or person under the supervision of a pharmacist engaged in the practice of orthotics or pedorthics is not precluded from continuing that practice pending adoption of these rules.

History.—s. 1, ch. 73-331.

893.02 Definitions.—The following words and phrases as used in this chapter shall have the following meanings, unless the context otherwise requires:

(1) “Administer” means the direct application of a controlled substance, whether by injection, inhalation, ingestion, or any other means, to the body of a person or animal.

(2) “Analog” or “chemical analog” means a structural derivative of a parent compound that is a controlled substance.

(3) “Cannabis” means all parts of any plant of the genus *Cannabis*, whether growing or not; the seeds thereof; the resin extracted from any part of the plant; and every compound, manufacture, salt, derivative, mixture, or preparation of the plant or its seeds or resin.

(4) “Controlled substance” means any substance named or described in Schedules I-V of s.

893.03. Laws controlling the manufacture, distribution, preparation, dispensing, or administration of such substances are drug abuse laws.

(5) “Cultivating” means the preparation of any soil or hydroponic medium for the planting of a controlled substance or the tending and care or harvesting of a controlled substance.

(6) “Deliver” or “delivery” means the actual, constructive, or attempted transfer from one person to another of a controlled substance, whether or not there is an agency relationship.

(7) “Dispense” means the transfer of possession of one or more doses of a medicinal drug by a pharmacist or other licensed practitioner to the ultimate consumer thereof or to one who represents that it is his or her intention not to consume or use the same but to transfer the same to the ultimate consumer or user for consumption by the ultimate consumer or user.

(8) “Distribute” means to deliver, other than by administering or dispensing, a controlled substance.

(9)“Distributor” means a person who distributes.

(10)“Department” means the Department of Health.

(11)“Homologue” means a chemical compound in a series in which each compound differs by one or more alkyl functional groups on an alkyl side chain.

(12)“Hospital” means an institution for the care and treatment of the sick and injured, licensed pursuant to the provisions of chapter 395 or owned or operated by the state or Federal Government.

(13)“Laboratory” means a laboratory approved by the Drug Enforcement Administration as proper to be entrusted with the custody of controlled substances for scientific, medical, or instructional purposes or to aid law enforcement officers and prosecuting attorneys in the enforcement of this chapter.

(14)“Listed chemical” means any precursor chemical or essential chemical named or described in s. 893.033.

(15)(a)“Manufacture” means the production, preparation, propagation, compounding, cultivating, growing, conversion, or processing of a controlled substance, either directly or indirectly, by extraction from substances of natural origin, or independently by means of chemical synthesis, or by a combination of extraction and chemical synthesis, and includes any packaging of the substance or labeling or relabeling of its container, except that this term does not include the preparation, compounding, packaging, or labeling of a controlled substance by:

1.A practitioner or pharmacist as an incident to his or her administering or delivering of a controlled substance in the course of his or her professional practice.

2.A practitioner, or by his or her authorized agent under the practitioner’s supervision, for the purpose of, or as an incident to, research, teaching, or chemical analysis, and not for sale.

(b)“Manufacturer” means and includes every person who prepares, derives, produces, compounds, or repackages any drug as defined by the Florida Drug and Cosmetic Act. However, this definition does not apply to manufacturers of patent or proprietary preparations as defined in the Florida Pharmacy Act. Pharmacies, and pharmacists employed thereby, are specifically excluded from this definition.

(16)“Mixture” means any physical combination of two or more substances.

(17)“Patient” means an individual to whom a controlled substance is lawfully dispensed or administered pursuant to the provisions of this chapter.

(18)“Pharmacist” means a person who is licensed pursuant to chapter 465 to practice the profession of pharmacy in this state.

(19)“Possession” includes temporary possession for the purpose of verification or testing, irrespective of dominion or control.

- (b)Diverted from legal channels and distributed through illegal channels; or
- (c)Taken on the user's own initiative rather than on the basis of professional medical advice.

Proof of potential for abuse can be based upon a showing that these activities are already taking place, or upon a showing that the nature and properties of the substance make it reasonable to assume that there is a substantial likelihood that such activities will take place, in other than isolated or occasional instances.

(21)“Practitioner” means a physician licensed pursuant to chapter 458, a dentist licensed pursuant to chapter 466, a veterinarian licensed pursuant to chapter 474, an osteopathic physician licensed pursuant to chapter 459, a naturopath licensed pursuant to chapter 462, or a podiatric physician licensed pursuant to chapter 461, provided such practitioner holds a valid federal controlled substance registry number.

(22)“Prescription” means and includes an order for drugs or medicinal supplies written, signed, or transmitted by word of mouth, telephone, telegram, or other means of communication by a duly licensed practitioner licensed by the laws of the state to prescribe such drugs or medicinal supplies, issued in good faith and in the course of professional practice, intended to be filled, compounded, or dispensed by another person licensed by the laws of the state to do so, and meeting the requirements of s. 893.04. The term also includes an order for drugs or medicinal supplies so transmitted or written by a physician, dentist, veterinarian, or other practitioner licensed to practice in a state other than Florida, but only if the pharmacist called upon to fill such an order determines, in the exercise of his or her professional judgment, that the order was issued pursuant to a valid patient-physician relationship, that it is authentic, and that the drugs or medicinal supplies so ordered are considered necessary for the continuation of treatment of a chronic or recurrent illness. However, if the physician writing the prescription is not known to the pharmacist, the pharmacist shall obtain proof to a reasonable certainty of the validity of said prescription. A prescription order for a controlled substance shall not be issued on the same prescription blank with another prescription order for a controlled substance which is named or described in a different schedule, nor shall any prescription order for a controlled substance be issued on the same prescription blank as a prescription order for a medicinal drug, as defined in s. 465.003(8), which does not fall within the definition of a controlled substance as defined in this act.

(23)“Wholesaler” means any person who acts as a jobber, wholesale merchant, or broker, or an agent thereof, who sells or distributes for resale any drug as defined by the Florida Drug and Cosmetic Act. However, this definition does not apply to persons who sell only patent or proprietary preparations as defined in the Florida Pharmacy Act. Pharmacies, and pharmacists

employed thereby, are specifically excluded from this definition.

893.0301 Death resulting from apparent drug overdose; reporting requirements.—If a person dies of an apparent drug overdose:

(1) A law enforcement agency shall prepare a report identifying each prescribed controlled substance listed in Schedule II, Schedule III, or Schedule IV of s. 893.03 which is found on or near the deceased or among the deceased's possessions. The report must identify the person who prescribed the controlled substance, if known or ascertainable. Thereafter, the law enforcement agency shall submit a copy of the report to the medical examiner.

(2) A medical examiner who is preparing a report pursuant to s. 406.11 shall include in the report information identifying each prescribed controlled substance listed in Schedule II, Schedule III, or Schedule IV of s. 893.03 that was found in, on, or near the deceased or among the deceased's possessions.

History.—s. 2, ch. 91-279; s. 6, ch. 2001-57; s. 2, ch. 2003-15; s. 1, ch. 2005-128.

893.035 Control of new substances; findings of fact; delegation of authority to Attorney General to control substances by rule.—

- (1)(a) New substances are being created which are not controlled under the provisions of this

chapter but which have a potential for abuse similar to or greater than that for substances controlled under this chapter. These new substances are sometimes called “designer drugs” because they can be designed to produce a desired pharmacological effect and to evade the controlling statutory provisions. Designer drugs are being manufactured, distributed, possessed, and used as substitutes for controlled substances.

(b)The hazards attributable to the traffic in and use of these designer drugs are increased because their unregulated manufacture produces variations in purity and concentration.

(c)Many such new substances are untested, and it cannot be immediately determined whether they have useful medical or chemical purposes.

(d)The uncontrolled importation, manufacture, distribution, possession, or use of these designer drugs has a substantial and detrimental impact on the health and safety of the people of Florida.

(e)These designer drugs can be created more rapidly than they can be identified and controlled by action of the Legislature. There is a need for a speedy and expert administrative determination of their proper classification under this chapter. It is therefore necessary to delegate to an administrative agency restricted authority to identify and classify new substances that have a potential for abuse, so that they can be controlled in the same manner as other substances currently controlled under this chapter.

(2)The Attorney General shall apply the provisions of this section to any substance not currently controlled under the provisions of s. 893.03. The Attorney General may by rule:

(a)Add a substance to a schedule established by s. 893.03, or transfer a substance between schedules, if he or she finds that it has a potential for abuse and he or she makes with respect to it the other findings appropriate for classification in the particular schedule under s. 893.03 in which it is to be placed.

(b)Remove a substance previously added to a schedule if he or she finds the substance does not meet the requirements for inclusion in that schedule.

Rules adopted under this section shall be made pursuant to the rulemaking procedures prescribed by chapter 120.

(3)(a)The term “potential for abuse” in this section means that a substance has properties as a central nervous system stimulant or depressant or a hallucinogen that create a substantial likelihood of its being:

- 1.Used in amounts that create a hazard to the user’s health or the safety of the community;
- 2.Diverted from legal channels and distributed through illegal channels; or
- 3.Taken on the user’s own initiative rather than on the basis of professional medical advice.

Proof of potential for abuse can be based upon a showing that these activities are already taking place, or upon a showing that the nature and properties of the substance make it reasonable to

assume that there is a substantial likelihood that such activities will take place, in other than isolated or occasional instances.

(b)The terms “immediate precursor” and “narcotic drug” shall be given the same meanings as provided by s. 102 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. s. 802, as amended and in effect on April 1, 1985.

(4)In making any findings under this section, the Attorney General shall consider the following factors with respect to each substance proposed to be controlled or removed from control:

(a)Its actual or relative potential for abuse.

(b)Scientific evidence of its pharmacological effect, if known.

(c)The state of current scientific knowledge regarding the drug or other substance.

(d)Its history and current pattern of abuse.

(e)The scope, duration, and significance of abuse.

(f)What, if any, risk there is to the public health.

(g)Its psychic or physiological dependence liability.

(h)Whether the substance is an immediate precursor of a substance already controlled under this chapter.

The findings and conclusions of the United States Attorney General or his or her delegee, as set forth in the Federal Register, with respect to any substance pursuant to s. 201 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. s. 811, as amended and in effect on April 1, 1985, shall be admissible as evidence in any rulemaking proceeding under this section, including an emergency rulemaking proceeding under subsection (7).

(5)Before initiating proceedings under subsection (2), the Attorney General shall request from the Department of Health and the Department of Law Enforcement a medical and scientific evaluation of the substance under consideration and a recommendation as to the appropriate classification, if any, of such substance as a controlled substance. In responding to this request, the Department of Health and the Department of Law Enforcement shall consider the factors listed in subsection (4). The Department of Health and the Department of Law Enforcement shall respond to this request promptly and in writing; however, their response is not subject to chapter 120. If both the Department of Health and the Department of Law Enforcement recommend that a substance not be controlled, the Attorney General shall not control that substance. If the Attorney General determines, based on the evaluations and recommendations of the Department of Health and the Department of Law Enforcement and all other available evidence, that there is substantial evidence of potential for abuse, he or she shall initiate proceedings under paragraph (2)(a) with respect to that substance.

(6)(a)The Attorney General shall by rule exempt any nonnarcotic substance controlled by rule under this section from the application of this section if such substance may, under the Federal

Food, Drug, and Cosmetic Act, be lawfully sold over the counter without a prescription.

(b)The Attorney General may by rule exempt any compound, mixture, or preparation containing a substance controlled by rule under this section from the application of this section if he or she finds that such compound, mixture, or preparation meets the requirements of either of the following subcategories:

1.A mixture or preparation containing a nonnarcotic substance controlled by rule, which mixture or preparation is approved for prescription use and which contains one or more other active ingredients which are not listed in any schedule and which are included therein in such combinations, quantity, proportion, or concentration as to vitiate the potential for abuse.

2.A compound, mixture, or preparation which contains any substance controlled by rule, which is not for administration to a human being or animal, and which is packaged in such form or concentration, or with adulterants or denaturants, so that as packaged it does not present any significant potential for abuse.

(7)(a)If the Attorney General finds that the scheduling of a substance in Schedule I of s. 893.03 on a temporary basis is necessary to avoid an imminent hazard to the public safety, he or she may by rule and without regard to the requirements of subsection (5) relating to the Department of Health and the Department of Law Enforcement schedule such substance in Schedule I if the substance is not listed in any other schedule of s. 893.03. The Attorney General shall be required to consider, with respect to his or her finding of imminent hazard to the public safety, only those factors set forth in paragraphs (3)(a) and (4)(d), (e), and (f), including actual abuse, diversion from legitimate channels, and clandestine importation, manufacture, or distribution.

(b)The Attorney General may use emergency rulemaking provisions under s. 120.54(4) in scheduling substances under this subsection. Notwithstanding the provisions of s. 120.54(4)(c), any rule adopted under this subsection shall not expire except as provided in subsection (9).

(8)(a)Upon the effective date of a rule adopted pursuant to this section adding or transferring a substance to a schedule under s. 893.03, such substance shall be deemed included in that schedule, and all provisions of this chapter applicable to substances in that schedule shall be deemed applicable to such substance.

(b)A rule adopted pursuant to this section shall continue in effect until it is repealed; until it is declared invalid in proceedings under s. 120.56 or in proceedings before a court of competent jurisdiction; or until it expires under the provisions of subsection (9).

(9)The Attorney General shall report to the Legislature by March 1 of each year concerning the rules adopted under this section during the previous year. Each rule so reported shall expire on the following June 30 unless the Legislature adopts the provisions thereof as an amendment to this chapter.

(10)The repeal, expiration, or determination of invalidity of any rule shall not operate to

create any claim or cause of action against any law enforcement officer or other enforcing authority for actions taken in good faith in reliance on the validity of the rule.

(11) In construing this section, due consideration and great weight should be given to interpretations of the United States Attorney General and the federal courts relating to s. 201 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. s. 811, as amended and in effect on April 1, 1985. All substantive rules adopted under this part shall not be inconsistent with the rules of the United States Attorney General and the decisions of the federal courts interpreting the provisions of s. 201 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. s. 811, as amended and in effect on April 1, 1985.

(12) The adoption of a rule transferring a substance from one schedule to another or removing a substance from a schedule pursuant to this section shall not affect prosecution or punishment for any crime previously committed with respect to that substance.

History.—s. 3, ch. 85-242; s. 72, ch. 87-226; s. 255, ch. 94-218; s. 318, ch. 96-410; s. 1826, ch. 97-102; s. 16, ch. 99-186.

893.0355 Control of scheduled substances; delegation of authority to Attorney General to reschedule substance, or delete substance, by rule.—

(1) The Legislature has determined that, from time to time, additional testings, approvals, or scientific evidence may indicate that controlled substances listed in Schedules I, II, III, IV, and V hereof have a greater potential for beneficial medical use in treatment in the United States than was evident when such substances were initially scheduled. It is the intent of the Legislature to quickly provide a method for an immediate change to the scheduling and control of such substances to allow for the beneficial medical use thereof so that more flexibility will be available than is possible through rescheduling legislatively.

(2) The Attorney General is hereby delegated the authority to adopt rules rescheduling specified substances to a less controlled schedule, or deleting specified substances from a schedule, upon a finding that reduced control of such substances is in the public interest. In determining whether reduced control of a substance is in the public interest, the Attorney General shall consider the following:

(a) Whether the substance has been rescheduled or deleted from any schedule by rule adopted by the United States Attorney General pursuant to s. 201 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. s. 811.

(b) The substance's actual or relative potential for abuse.

(c) Scientific evidence of the substance's pharmacological effect, if known.

(d) The state of current scientific knowledge regarding the substance.

(e) The substance's history and current pattern of abuse.

(f) The scope, duration, and significance of abuse.

(g)What, if any, risk there is to the public health.

(h)The substance's psychic or physiological dependence liability.

(3)In making the public interest determination, the Attorney General shall give great weight to the scheduling rules adopted by the United States Attorney General subsequent to such substances being listed in Schedules I, II, III, IV, and V hereof, to achieve the original legislative purpose of the Florida Comprehensive Drug Abuse Prevention and Control Act of maintaining uniformity between the laws of Florida and the laws of the United States with respect to controlled substances.

(4)Rulemaking under this section shall be in accordance with the procedural requirements of chapter 120, including the emergency rule provisions found in s. 120.54. The Attorney General may initiate proceedings for adoption, amendment, or repeal of any rule on his or her own motion or upon the petition of any interested party.

(5)Upon the effective date of a rule adopted pursuant to this section, the rule's rescheduling or deletion of a substance shall be effective for all purposes under this chapter.

(6)Rules adopted pursuant to this section shall be reviewed each year by the Legislature. Each rule shall remain in effect until the effective date of legislation that provides for a different scheduling of a substance than that set forth in such rule.

(7)The adoption of a rule rescheduling a substance or deleting a substance from control pursuant to this section shall not affect prosecution or punishment for any crime previously committed with respect to that substance.

(8)The provisions of this section apply only to substances controlled expressly by statute and not to substances controlled by rules adopted under the authority granted in the provisions of s. 893.035.

History.—s. 4, ch. 85-242; s. 1435, ch. 97-102.

893.0356Control of new substances; findings of fact; "controlled substance analog" defined.—

(1)(a)New substances are being created which are not controlled under the provisions of this chapter but which have a potential for abuse similar to or greater than that for substances controlled under this chapter. These new substances are called "controlled substance analogs," and can be designed to produce a desired pharmacological effect and to evade the controlling statutory provisions. Controlled substance analogs are being manufactured, distributed, possessed, and used as substitutes for controlled substances.

(b)The hazards attributable to the traffic in and use of controlled substance analogs are increased because their unregulated manufacture produces variations in purity and concentration.

(c)Many such new substances are untested, and it cannot be immediately determined whether they have useful medical or chemical purposes.

(d)The uncontrolled importation, manufacture, distribution, possession, or use of controlled

substance analogs has a substantial and detrimental impact on the health and safety of the people of Florida.

(e) Controlled substance analogs can be created more rapidly than they can be identified and controlled by action of the Legislature. There is a need for a speedy determination of their proper classification under this chapter. It is therefore necessary to identify and classify new substances that have a potential for abuse, so that they can be controlled in the same manner as other substances currently controlled under this chapter.

(2)(a) As used in this section, “controlled substance analog” means a substance which, due to its chemical structure and potential for abuse, meets the following criteria:

1. Is substantially similar to that of a controlled substance listed in Schedule I or Schedule II of s. 893.03; and

2. Has a stimulant, depressant, or hallucinogenic effect on the central nervous system or is represented or intended to have a stimulant, depressant, or hallucinogenic effect on the central nervous system substantially similar to or greater than that of a controlled substance listed in Schedule I or Schedule II of s. 893.03.

(b) “Controlled substance analog” does not include:

1. A controlled substance;

2. Any substance for which there is an approved new drug application;

3. Any compound, mixture, or preparation which contains any controlled substance which is not for administration to a human being or animal, and which is packaged in such form or concentration, or with adulterants or denaturants, so that as packaged it does not present any significant potential for abuse; or

4. Any substance to which an investigational exemption applies under s. 505 of the Food, Drug, and Cosmetic Act, 21 U.S.C. 355, but only to the extent that conduct with respect to the substance is pursuant to such exemption.

(3) The term “potential for abuse” in this section means that a substance has properties as a central nervous system stimulant or depressant or a hallucinogen that create a substantial likelihood of its being:

(a) Used in amounts that create a hazard to the user’s health or the safety of the community;

(b) Diverted from legal channels and distributed through illegal channels; or

(c) Taken on the user’s own initiative rather than on the basis of professional medical advice.

Proof of potential for abuse can be based upon a showing that these activities are already taking place, or upon a showing that the nature and properties of the substance make it reasonable to assume that there is a substantial likelihood that such activities will take place, in other than isolated or occasional instances.

(4) The following factors shall be relevant to a finding that a substance is a controlled

substance analog within the purview of this section:

- (a) Its actual or relative potential for abuse.
- (b) Scientific evidence of its pharmacological effect, if known.
- (c) The state of current scientific knowledge regarding the substance.
- (d) Its history and current pattern of abuse.
- (e) The scope, duration, and significance of abuse.
- (f) What, if any, risk there is to the public health.
- (g) Its psychic or physiological dependence liability.
- (h) Its diversion from legitimate channels, and clandestine importation, manufacture, or

distribution.

(i) Whether the substance is an immediate precursor of a substance already controlled under this chapter.

(5) A controlled substance analog shall, for purposes of drug abuse prevention and control, be treated as a controlled substance in Schedule I of s. 893.03.

(6) In construing this section, due consideration and great weight should be given to interpretations of the United States Attorney General and the federal courts relating to s. 201 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. s. 811, as amended and in effect on April 1, 1985. New substances controlled under this section shall not be treated in a manner inconsistent with the rules of the United States Attorney General and the decisions of the federal courts interpreting the provisions of s. 201 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. s. 811, as amended and in effect on April 1, 1985.

(7) The treatment of a new substance as a controlled substance pursuant to this section shall not affect prosecution or punishment for any crime previously committed with respect to that substance.

History.—s. 3, ch. 87-243; s. 11, ch. 99-186; s. 20, ch. 2000-320.

893.04 Pharmacist and practitioner.—

(1) A pharmacist, in good faith and in the course of professional practice only, may dispense controlled substances upon a written or oral prescription of a practitioner, under the following conditions:

(a) Oral prescriptions must be promptly reduced to writing by the pharmacist or recorded electronically if permitted by federal law.

(b) The written prescription must be dated and signed by the prescribing practitioner on the day when issued.

(c) There shall appear on the face of the prescription or written record thereof for the controlled substance the following information:

1. The full name and address of the person for whom, or the owner of the animal for which,

the controlled substance is dispensed.

2. The full name and address of the prescribing practitioner and the practitioner's federal controlled substance registry number shall be printed thereon.

3. If the prescription is for an animal, the species of animal for which the controlled substance is prescribed.

4. The name of the controlled substance prescribed and the strength, quantity, and directions for use thereof.

5. The number of the prescription, as recorded in the prescription files of the pharmacy in which it is filled.

6. The initials of the pharmacist filling the prescription and the date filled.

(d) The prescription shall be retained on file by the proprietor of the pharmacy in which it is filled for a period of 2 years.

(e) Affixed to the original container in which a controlled substance is delivered upon a prescription or authorized refill thereof, as hereinafter provided, there shall be a label bearing the following information:

1. The name and address of the pharmacy from which such controlled substance was dispensed.

2. The date on which the prescription for such controlled substance was filled.

3. The number of such prescription, as recorded in the prescription files of the pharmacy in which it is filled.

4. The name of the prescribing practitioner.

5. The name of the patient for whom, or of the owner and species of the animal for which, the controlled substance is prescribed.

6. The directions for the use of the controlled substance prescribed in the prescription.

7. A clear, concise warning that it is a crime to transfer the controlled substance to any person other than the patient for whom prescribed.

(f) A prescription for a controlled substance listed in Schedule II may be dispensed only upon a written prescription of a practitioner, except that in an emergency situation, as defined by regulation of the Department of Health, such controlled substance may be dispensed upon oral prescription but is limited to a 72-hour supply. A prescription for a controlled substance listed in Schedule II may not be refilled.

(g) A prescription for a controlled substance listed in Schedule III, Schedule IV, or Schedule V may not be filled or refilled more than five times within a period of 6 months after the date on which the prescription was written unless the prescription is renewed by a practitioner.

(2)(a) A pharmacist may not dispense a controlled substance listed in Schedule II, Schedule III, or Schedule IV to any patient or patient's agent without first determining, in the exercise of her or

his professional judgment, that the order is valid. The pharmacist may dispense the controlled substance, in the exercise of her or his professional judgment, when the pharmacist or pharmacist's agent has obtained satisfactory patient information from the patient or the patient's agent.

(b) Any pharmacist who dispenses by mail a controlled substance listed in Schedule II, Schedule III, or Schedule IV is exempt from the requirement to obtain suitable identification for the prescription dispensed by mail if the pharmacist has obtained the patient's identification through the patient's prescription benefit plan.

(c) Any controlled substance listed in Schedule III or Schedule IV may be dispensed by a pharmacist upon an oral prescription if, before filling the prescription, the pharmacist reduces it to writing or records the prescription electronically if permitted by federal law. Such prescriptions must contain the date of the oral authorization.

(d) Each written prescription prescribed by a practitioner in this state for a controlled substance listed in Schedule II, Schedule III, or Schedule IV must include both a written and a numerical notation of the quantity of the controlled substance prescribed on the face of the prescription and a notation of the date, with the abbreviated month written out on the face of the prescription. A pharmacist may, upon verification by the prescriber, document any information required by this paragraph. If the prescriber is not available to verify a prescription, the pharmacist may dispense the controlled substance but may insist that the person to whom the controlled substance is dispensed provide valid photographic identification. If a prescription includes a numerical notation of the quantity of the controlled substance or date, but does not include the quantity or date written out in textual format, the pharmacist may dispense the controlled substance without verification by the prescriber of the quantity or date if the pharmacy previously dispensed another prescription for the person to whom the prescription was written.

(e) A pharmacist may not dispense more than a 30-day supply of a controlled substance listed in Schedule III upon an oral prescription issued in this state.

(f) A pharmacist may not knowingly fill a prescription that has been forged for a controlled substance listed in Schedule II, Schedule III, or Schedule IV.

(3) Notwithstanding subsection (1), a pharmacist may dispense a one-time emergency refill of up to a 72-hour supply of the prescribed medication for any medicinal drug other than a medicinal drug listed in Schedule II, in compliance with the provisions of s. 465.0275.

(4) The legal owner of any stock of controlled substances in a pharmacy, upon discontinuance of dealing in controlled substances, may sell said stock to a manufacturer, wholesaler, or pharmacy. Such controlled substances may be sold only upon an order form, when such an order form is required for sale by the drug abuse laws of the United States or this state, or regulations pursuant thereto.

893.05 Practitioners and persons administering controlled substances in their absence.—

(1) A practitioner, in good faith and in the course of his or her professional practice only, may prescribe, administer, dispense, mix, or otherwise prepare a controlled substance, or the practitioner may cause the same to be administered by a licensed nurse or an intern practitioner under his or her direction and supervision only. (1) As used in this section, the term:

(a) "Patient advisory report" or "advisory report" means information provided by the department in writing, or as determined by the department, to a prescriber, dispenser, pharmacy, or patient concerning the dispensing of controlled substances. All advisory reports are for informational purposes only and impose no obligations of any nature or any legal duty on a prescriber, dispenser, pharmacy, or patient. The patient advisory report shall be provided in accordance with s. 893.13(7)(a)8. The advisory reports issued by the department are not subject to discovery or introduction into evidence in any civil or administrative action against a prescriber, dispenser, pharmacy, or patient arising out of matters that are the subject of the report; and a person who participates in preparing, reviewing, issuing, or any other activity related to an advisory report may not be permitted or required to testify in any such civil action as to any findings, recommendations, evaluations, opinions, or other actions taken in connection with

preparing, reviewing, or issuing such a report.

(b)“Controlled substance” means a controlled substance listed in Schedule II, Schedule III, or Schedule IV in s. 893.03.

(e)“Health care regulatory board” means any board for a practitioner or health care practitioner who is licensed or regulated by the department.

(f)“Pharmacy” means any pharmacy that is subject to licensure or regulation by the department under chapter 465 and that dispenses or delivers a controlled substance to an individual or address in this state.

(g)“Prescriber” means a prescribing physician, prescribing practitioner, or other prescribing health care practitioner.

(h)“Active investigation” means an investigation that is being conducted with a reasonable, good faith belief that it could lead to the filing of administrative, civil, or criminal proceedings, or that is ongoing and continuing and for which there is a reasonable, good faith anticipation of securing an arrest or prosecution in the foreseeable future.

(i)“Law enforcement agency” means the Department of Law Enforcement, a Florida sheriff’s department, a Florida police department, or a law enforcement agency of the Federal Government which enforces the laws of this state or the United States relating to controlled substances, and which its agents and officers are empowered by law to conduct criminal investigations and make arrests.

(j)“Program manager” means an employee of or a person contracted by the Department of Health who is designated to ensure the integrity of the prescription drug monitoring program in accordance with the requirements established in paragraphs (2)(a) and (b).

(2)(a)The department shall design and establish a comprehensive electronic database system that has controlled substance prescriptions provided to it and that provides prescription information to a patient’s health care practitioner and pharmacist who inform the department that they wish the patient advisory report provided to them. Otherwise, the patient advisory report will not be sent to the practitioner, pharmacy, or pharmacist. The system shall be designed to provide information regarding dispensed prescriptions of controlled substances and shall not infringe upon the legitimate prescribing or dispensing of a controlled substance by a prescriber or dispenser acting in good faith and in the course of professional practice. The system shall be consistent with standards of the American Society for Automation in Pharmacy (ASAP). The electronic system shall

also comply with the Health Insurance Portability and Accountability Act (HIPAA) as it pertains to protected health information (PHI), electronic protected health information (EPHI), and all other relevant state and federal privacy and security laws and regulations. The department shall establish policies and procedures as appropriate regarding the reporting, accessing the database, evaluation, management, development, implementation, operation, storage, and security of information within the system. The reporting of prescribed controlled substances shall include a dispensing transaction with a dispenser pursuant to chapter 465 or through a dispensing transaction to an individual or address in this state with a pharmacy that is not located in this state but that is otherwise subject to the jurisdiction of this state as to that dispensing transaction. The reporting of patient advisory reports refers only to reports to patients, pharmacies, and practitioners. Separate reports that contain patient prescription history information and that are not patient advisory reports are provided to persons and entities as authorized in paragraphs (7)(b) and (c) and s. 893.0551.

(b)The department, when the direct support organization receives at least \$20,000 in nonstate moneys or the state receives at least \$20,000 in federal grants for the prescription drug monitoring program, shall adopt rules as necessary concerning the reporting, accessing the database, evaluation, management, development, implementation, operation, security, and storage of information within the system, including rules for when patient advisory reports are provided to pharmacies and prescribers. The patient advisory report shall be provided in accordance with s. 893.13(7)(a)8. The department shall work with the professional health care licensure boards, such as the Board of Medicine, the Board of Osteopathic Medicine, and the Board of Pharmacy; other appropriate organizations, such as the Florida Pharmacy Association, the Florida Medical Association, the Florida Retail Federation, and the Florida Osteopathic Medical Association, including those relating to pain management; and the Attorney General, the Department of Law Enforcement, and the Agency for Health Care Administration to develop rules appropriate for the prescription drug monitoring program.

(c)All dispensers and prescribers subject to these reporting requirements shall be notified by the department of the implementation date for such reporting requirements.

(d)The program manager shall work with professional health care licensure boards and the stakeholders listed in paragraph (b) to develop rules appropriate for identifying indicators of controlled substance abuse.

(3)The pharmacy dispensing the controlled substance and each prescriber who directly dispenses a controlled substance shall submit to the electronic system, by a procedure and in a format established by the department and consistent with an ASAP-approved format, the following information for inclusion in the database:

(a)The name of the prescribing practitioner, the practitioner's federal Drug Enforcement

Administration registration number, the practitioner's National Provider Identification (NPI) or other appropriate identifier, and the date of the prescription.

(b)The date the prescription was filled and the method of payment, such as cash by an individual, insurance coverage through a third party, or Medicaid payment. This paragraph does not authorize the department to include individual credit card numbers or other account numbers in the database.

(c)The full name, address, and date of birth of the person for whom the prescription was written.

(d)The name, national drug code, quantity, and strength of the controlled substance dispensed.

(e)The full name, federal Drug Enforcement Administration registration number, and address of the pharmacy or other location from which the controlled substance was dispensed. If the controlled substance was dispensed by a practitioner other than a pharmacist, the practitioner's full name, federal Drug Enforcement Administration registration number, and address.

(f)The name of the pharmacy or practitioner, other than a pharmacist, dispensing the controlled substance and the practitioner's National Provider Identification (NPI).

(g)Other appropriate identifying information as determined by department rule.

(4)Each time a controlled substance is dispensed to an individual, the controlled substance shall be reported to the department through the system as soon thereafter as possible, but not more than 7 days after the date the controlled substance is dispensed unless an extension is approved by the department for cause as determined by rule. A dispenser must meet the reporting requirements of this section by providing the required information concerning each controlled substance that it dispensed in a department-approved, secure methodology and format. Such approved formats may include, but are not limited to, submission via the Internet, on a disc, or by use of regular mail.

(5)When the following acts of dispensing or administering occur, the following are exempt from reporting under this section for that specific act of dispensing or administration:

(a)A health care practitioner when administering a controlled substance directly to a patient if the amount of the controlled substance is adequate to treat the patient during that particular treatment session.

(b)A pharmacist or health care practitioner when administering a controlled substance to a patient or resident receiving care as a patient at a hospital, nursing home, ambulatory surgical center, hospice, or intermediate care facility for the developmentally disabled which is licensed in this state.

(f)A pharmacist or a dispensing practitioner when dispensing a one-time, 72-hour emergency resupply of a controlled substance to a patient.

(6)The department may establish when to suspend and when to resume reporting information during a state-declared or nationally declared disaster.

(7)(a)A practitioner or pharmacist who dispenses a controlled substance must submit the information required by this section in an electronic or other method in an ASAP format approved by rule of the department unless otherwise provided in this section. The cost to the dispenser in submitting the information required by this section may not be material or extraordinary. Costs not considered to be material or extraordinary include, but are not limited to, regular postage, electronic media, regular electronic mail, and facsimile charges.

(b)A pharmacy, prescriber, or dispenser shall have access to information in the prescription drug monitoring program's database which relates to a patient of that pharmacy, prescriber, or dispenser in a manner established by the department as needed for the purpose of reviewing the patient's controlled substance prescription history. Other access to the program's database shall be limited to the program's manager and to the designated program and support staff, who may act only at the direction of the program manager or, in the absence of the program manager, as authorized. Access by the program manager or such designated staff is for prescription drug program management only or for management of the program's database and its system in support of the requirements of this section and in furtherance of the prescription drug monitoring program. Confidential and exempt information in the database shall be released only as provided in paragraph (c) and s. 893.0551. The program manager, designated program and support staff who act at the direction of or in the absence of the program manager, and any individual who has similar access regarding the management of the database from the prescription drug monitoring program shall submit fingerprints to the department for background screening. The department shall follow the procedure established by the Department of Law Enforcement to request a statewide criminal history record check and to request that the Department of Law Enforcement forward the fingerprints to the Federal Bureau of Investigation for a national criminal history record check.

(c)The following entities shall not be allowed direct access to information in the prescription drug monitoring program database but may request from the program manager and, when authorized by the program manager, the program manager's program and support staff, information that is confidential and exempt under s. 893.0551. Prior to release, the request shall

be verified as authentic and authorized with the requesting organization by the program manager, the program manager's program and support staff, or as determined in rules by the department as being authentic and as having been authorized by the requesting entity:

1.The department or its relevant health care regulatory boards responsible for the licensure, regulation, or discipline of practitioners, pharmacists, or other persons who are authorized to prescribe, administer, or dispense controlled substances and who are involved in a specific controlled substance investigation involving a designated person for one or more prescribed controlled substances.

2.The Attorney General for Medicaid fraud cases involving prescribed controlled substances.

3.A law enforcement agency during active investigations regarding potential criminal activity, fraud, or theft regarding prescribed controlled substances.

4.A patient or the legal guardian or designated health care surrogate of an incapacitated patient as described in s. 893.0551 who, for the purpose of verifying the accuracy of the database information, submits a written and notarized request that includes the patient's full name, address, and date of birth, and includes the same information if the legal guardian or health care surrogate submits the request. The request shall be validated by the department to verify the identity of the patient and the legal guardian or health care surrogate, if the patient's legal guardian or health care surrogate is the requestor. Such verification is also required for any request to change a patient's prescription history or other information related to his or her information in the electronic database.

Information in the database for the electronic prescription drug monitoring system is not discoverable or admissible in any civil or administrative action, except in an investigation and disciplinary proceeding by the department or the appropriate regulatory board.

(d)The following entities shall not be allowed direct access to information in the prescription drug monitoring program database but may request from the program manager and, when authorized by the program manager, the program manager's program and support staff, information that contains no identifying information of any patient, physician, health care practitioner, prescriber, or dispenser and that is not confidential and exempt:

1.Department staff for the purpose of calculating performance measures pursuant to subsection (8).

2.The Program Implementation and Oversight Task Force for its reporting to the Governor, the President of the Senate, and the Speaker of the House of Representatives regarding the prescription drug monitoring program. This subparagraph expires July 1, 2012.

(e)All transmissions of data required by this section must comply with relevant state and federal privacy and security laws and regulations. However, any authorized agency or person under s. 893.0551 receiving such information as allowed by s. 893.0551 may maintain the information

received for up to 24 months before purging it from his or her records or maintain it for longer than 24 months if the information is pertinent to ongoing health care or an active law enforcement investigation or prosecution.

(f)The program manager, upon determining a pattern consistent with the rules established under paragraph (2)(d) and having cause to believe a violation of s. 893.13(7)(a)8., (8)(a), or (8)(b) has occurred, may provide relevant information to the applicable law enforcement agency.

(8)To assist in fulfilling program responsibilities, performance measures shall be reported annually to the Governor, the President of the Senate, and the Speaker of the House of Representatives by the department each December 1, beginning in 2011. Data that does not contain patient, physician, health care practitioner, prescriber, or dispenser identifying information may be requested during the year by department employees so that the department may undertake public health care and safety initiatives that take advantage of observed trends. Performance measures may include, but are not limited to, efforts to achieve the following outcomes:

(a)Reduction of the rate of inappropriate use of prescription drugs through department education and safety efforts.

(b)Reduction of the quantity of pharmaceutical controlled substances obtained by individuals attempting to engage in fraud and deceit.

(c)Increased coordination among partners participating in the prescription drug monitoring program.

(d)Involvement of stakeholders in achieving improved patient health care and safety and reduction of prescription drug abuse and prescription drug diversion.

(9)Any person who willfully and knowingly fails to report the dispensing of a controlled substance as required by this section commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(10)All costs incurred by the department in administering the prescription drug monitoring program shall be funded through federal grants or private funding applied for or received by the state. The department may not commit funds for the monitoring program without ensuring funding is available. The prescription drug monitoring program and the implementation thereof are contingent upon receipt of the nonstate funding. The department and state government shall cooperate with the direct-support organization established pursuant to subsection (11) in seeking federal grant funds, other nonstate grant funds, gifts, donations, or other private moneys for the department so long as the costs of doing so are not considered material. Nonmaterial costs for this purpose include, but are not limited to, the costs of mailing and personnel assigned to research or apply for a grant. Notwithstanding the exemptions to competitive-solicitation requirements under s. 287.057(3)(f), the department shall comply with the competitive-solicitation requirements under

s. 287.057 for the procurement of any goods or services required by this section. Funds provided, directly or indirectly, by prescription drug manufacturers may not be used to implement the program.

(11)The department may establish a direct-support organization that has a board consisting of at least five members to provide assistance, funding, and promotional support for the activities authorized for the prescription drug monitoring program.

(a)As used in this subsection, the term “direct-support organization” means an organization that is:

1.A Florida corporation not for profit incorporated under chapter 617, exempted from filing fees, and approved by the Department of State.

2.Organized and operated to conduct programs and activities; raise funds; request and receive grants, gifts, and bequests of money; acquire, receive, hold, and invest, in its own name, securities, funds, objects of value, or other property, either real or personal; and make expenditures or provide funding to or for the direct or indirect benefit of the department in the furtherance of the prescription drug monitoring program.

(b)The direct-support organization is not considered a lobbying firm within the meaning of s. 11.045.

(c)The State Surgeon General shall appoint a board of directors for the direct-support organization. Members of the board shall serve at the pleasure of the State Surgeon General. The State Surgeon General shall provide guidance to members of the board to ensure that moneys received by the direct-support organization are not received from inappropriate sources. Inappropriate sources include, but are not limited to, donors, grantors, persons, or organizations that may monetarily or substantively benefit from the purchase of goods or services by the department in furtherance of the prescription drug monitoring program.

(d)The direct-support organization shall operate under written contract with the department. The contract must, at a minimum, provide for:

1.Approval of the articles of incorporation and bylaws of the direct-support organization by the department.

2.Submission of an annual budget for the approval of the department.

3.Certification by the department that the direct-support organization is complying with the terms of the contract in a manner consistent with and in furtherance of the goals and purposes of the prescription drug monitoring program and in the best interests of the state. Such certification must be made annually and reported in the official minutes of a meeting of the direct-support organization.

4.The reversion, without penalty, to the state of all moneys and property held in trust by the direct-support organization for the benefit of the prescription drug monitoring program if the

direct-support organization ceases to exist or if the contract is terminated.

5. The fiscal year of the direct-support organization, which must begin July 1 of each year and end June 30 of the following year.

6. The disclosure of the material provisions of the contract to donors of gifts, contributions, or bequests, including such disclosure on all promotional and fundraising publications, and an explanation to such donors of the distinction between the department and the direct-support organization.

7. The direct-support organization's collecting, expending, and providing of funds to the department for the development, implementation, and operation of the prescription drug monitoring program as described in this section and s. 2, chapter 2009-198, Laws of Florida, as long as the task force is authorized. The direct-support organization may collect and expend funds to be used for the functions of the direct-support organization's board of directors, as necessary and approved by the department. In addition, the direct-support organization may collect and provide funding to the department in furtherance of the prescription drug monitoring program by:

a. Establishing and administering the prescription drug monitoring program's electronic database, including hardware and software.

b. Conducting studies on the efficiency and effectiveness of the program to include feasibility studies as described in subsection (13).

c. Providing funds for future enhancements of the program within the intent of this section.

d. Providing user training of the prescription drug monitoring program, including distribution of materials to promote public awareness and education and conducting workshops or other meetings, for health care practitioners, pharmacists, and others as appropriate.

e. Providing funds for travel expenses.

f. Providing funds for administrative costs, including personnel, audits, facilities, and equipment.

g. Fulfilling all other requirements necessary to implement and operate the program as outlined in this section.

(e) The activities of the direct-support organization must be consistent with the goals and mission of the department, as determined by the department, and in the best interests of the state. The direct-support organization must obtain a written approval from the department for any activities in support of the prescription drug monitoring program before undertaking those activities.

(f) The department may permit, without charge, appropriate use of administrative services, property, and facilities of the department by the direct-support organization, subject to this section. The use must be directly in keeping with the approved purposes of the direct-support organization and may not be made at times or places that would unreasonably interfere with

opportunities for the public to use such facilities for established purposes. Any moneys received from rentals of facilities and properties managed by the department may be held in a separate depository account in the name of the direct-support organization and subject to the provisions of the letter of agreement with the department. The letter of agreement must provide that any funds held in the separate depository account in the name of the direct-support organization must revert to the department if the direct-support organization is no longer approved by the department to operate in the best interests of the state.

(g)The department may adopt rules under s. 120.54 to govern the use of administrative services, property, or facilities of the department or office by the direct-support organization.

(h)The department may not permit the use of any administrative services, property, or facilities of the state by a direct-support organization if that organization does not provide equal membership and employment opportunities to all persons regardless of race, color, religion, gender, age, or national origin.

(i)The direct-support organization shall provide for an independent annual financial audit in accordance with s. 215.981. Copies of the audit shall be provided to the department and the Office of Policy and Budget in the Executive Office of the Governor.

(j)The direct-support organization may not exercise any power under s. 617.0302(12) or (16).

(12)A prescriber or dispenser may have access to the information under this section which relates to a patient of that prescriber or dispenser as needed for the purpose of reviewing the patient's controlled drug prescription history. A prescriber or dispenser acting in good faith is immune from any civil, criminal, or administrative liability that might otherwise be incurred or imposed for receiving or using information from the prescription drug monitoring program. This subsection does not create a private cause of action, and a person may not recover damages against a prescriber or dispenser authorized to access information under this subsection for accessing or failing to access such information.

(13)To the extent that funding is provided for such purpose through federal or private grants or gifts and other types of available moneys, the department shall study the feasibility of enhancing the prescription drug monitoring program for the purposes of public health initiatives and statistical reporting that respects the privacy of the patient, the prescriber, and the dispenser. Such a study shall be conducted in order to further improve the quality of health care services and safety by improving the prescribing and dispensing practices for prescription drugs, taking advantage of advances in technology, reducing duplicative prescriptions and the overprescribing of prescription drugs, and reducing drug abuse. The requirements of the National All Schedules Prescription Electronic Reporting (NASPER) Act are authorized in order to apply for federal NASPER funding. In addition, the direct-support organization shall provide funding for the department to conduct training for health care practitioners and other appropriate persons in using the monitoring

program to support the program enhancements.

(14) A pharmacist, pharmacy, or dispensing health care practitioner or his or her agent, before releasing a controlled substance to any person not known to such dispenser, shall require the person purchasing, receiving, or otherwise acquiring the controlled substance to present valid photographic identification or other verification of his or her identity to the dispenser. If the person does not have proper identification, the dispenser may verify the validity of the prescription and the identity of the patient with the prescriber or his or her authorized agent. Verification of health plan eligibility through a real-time inquiry or adjudication system will be considered to be proper identification. This subsection does not apply in an institutional setting or to a long-term care facility, including, but not limited to, an assisted living facility or a hospital to which patients are admitted. As used in this subsection, the term “proper identification” means an identification that is issued by a state or the Federal Government containing the person’s photograph, printed name, and signature or a document considered acceptable under 8 C.F.R. s. 274a.2(b)(1)(v)(A) and (B).

(15) The Agency for Health Care Administration shall continue the promotion of electronic prescribing by health care practitioners, health care facilities, and pharmacies under s. 408.0611.

(16) The department shall adopt rules pursuant to ss. 120.536(1) and 120.54 to administer the provisions of this section, which shall include as necessary the reporting, accessing, evaluation, management, development, implementation, operation, and storage of information within the monitoring program’s system.

(1) Controlled substances in Schedules I and II shall be distributed by a duly licensed manufacturer, distributor, or wholesaler to a duly licensed manufacturer, wholesaler, distributor, practitioner, pharmacy, as defined in chapter 465, hospital, or laboratory only pursuant to an order form. It shall be deemed a compliance with this subsection if the parties to the transaction have complied with federal law respecting the use of order forms.

(2) Possession or control of controlled substances obtained as authorized by this section shall be lawful if in the regular course of business, occupation, profession, employment, or duty.

(3) A person in charge of a hospital or laboratory or in the employ of this state or of any other state, or of any political subdivision thereof, and a master or other proper officer of a ship or aircraft, who obtains controlled substances under the provisions of this section or otherwise, shall not administer, dispense, or otherwise use such controlled substances within this state, except within the scope of her or his employment or official duty, and then only for scientific or medicinal purposes and subject to the provisions of this chapter.

(4) It shall be unlawful to distribute a controlled substance in a commercial container unless such container bears a label showing the name and address of the manufacturer, the quantity, kind, and form of controlled substance contained therein, and the identifying symbol for such substance, as required by federal law. No person except a pharmacist, for the purpose of dispensing a prescription, or a practitioner, for the purpose of dispensing a controlled substance to a patient, shall alter, deface, or remove any labels so affixed.

893.07 Records.—

(1) Every person who engages in the manufacture, compounding, mixing, cultivating, growing, or by any other process producing or preparing, or in the dispensing, importation, or, as a wholesaler, distribution, of controlled substances shall:

(a) On January 1, 1974, or as soon thereafter as any person first engages in such activity, and every second year thereafter, make a complete and accurate record of all stocks of controlled substances on hand. The inventory may be prepared on the regular physical inventory date which is nearest to, and does not vary by more than 6 months from, the biennial date that would otherwise apply. As additional substances are designated for control under this chapter, they shall be inventoried as provided for in this subsection.

(b) On and after January 1, 1974, maintain, on a current basis, a complete and accurate record of each substance manufactured, received, sold, delivered, or otherwise disposed of by him or her, except that this subsection shall not require the maintenance of a perpetual inventory.

Compliance with the provisions of federal law pertaining to the keeping of records of controlled substances shall be deemed a compliance with the requirements of this subsection.

(2) The record of controlled substances received shall in every case show:

(a) The date of receipt.

(b) The name and address of the person from whom received.

(c) The kind and quantity of controlled substances received.

(3)The record of all controlled substances sold, administered, dispensed, or otherwise disposed of shall show:

(a)The date of selling, administering, or dispensing.

(b)The correct name and address of the person to whom or for whose use, or the owner and species of animal for which, sold, administered, or dispensed.

(c)The kind and quantity of controlled substances sold, administered, or dispensed.

(4)Every inventory or record required by this chapter, including prescription records, shall be maintained:

(a)Separately from all other records of the registrant, or

(b)Alternatively, in the case of Schedule III, IV, or V controlled substances, in such form that information required by this chapter is readily retrievable from the ordinary business records of the registrant.

In either case, the records described in this subsection shall be kept and made available for a period of at least 2 years for inspection and copying by law enforcement officers whose duty it is to enforce the laws of this state relating to controlled substances. Law enforcement officers are not required to obtain a subpoena, court order, or search warrant in order to obtain access to or copies of such records.

(5)Each person described in subsection (1) shall:

(a)Maintain a record which shall contain a detailed list of controlled substances lost, destroyed, or stolen, if any; the kind and quantity of such controlled substances; and the date of the discovering of such loss, destruction, or theft.

(b)In the event of the discovery of the theft or significant loss of controlled substances, report such theft or significant loss to the sheriff of that county within 24 hours after discovery. A person who fails to report a theft or significant loss of a substance listed in s. 893.03(3), (4), or (5) within 24 hours after discovery as required in this paragraph commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. A person who fails to report a theft or significant loss of a substance listed in s. 893.03(2) within 24 hours after discovery as required in this paragraph commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

or compound designated as a Schedule II controlled substance pursuant to this chapter; in s. 893.03(3)(a); or in Schedule IV, if:

1. The compound, mixture, or preparation contains one or more active medicinal ingredients not having depressant or stimulant effect on the central nervous system, and

2. Such ingredients are included therein in such combinations, quantity, proportion, or concentration as to vitiate the potential for abuse of the controlled substances which do have a depressant or stimulant effect on the central nervous system.

(2) No compound, mixture, or preparation may be dispensed under subsection (1) unless such substance may, under the Federal Food, Drug, and Cosmetic Act, be lawfully sold at retail without a prescription.

(3) The exemptions authorized by this section shall be subject to the following conditions:

(a) The compounds, mixtures, and preparations referred to in subsection (1) may be dispensed to persons under age 18 only on prescription. A bound volume must be maintained as a record of sale at retail of excepted compounds, mixtures, and preparations, and the pharmacist must require suitable identification from every unknown purchaser.

(b) Such compounds, mixtures, and preparations shall be sold by the pharmacist in good faith as a medicine and not for the purpose of evading the provisions of this chapter. The pharmacist may, in his or her discretion, withhold sale to any person whom the pharmacist reasonably believes is attempting to purchase excepted compounds, mixtures, or preparations for the purpose of abuse.

(c) The total quantity of controlled substance listed in Schedule V which may be sold to any one purchaser within a given 48-hour period shall not exceed 120 milligrams of codeine, 60 milligrams dihydrocodeine, 30 milligrams of ethyl morphine, or 240 milligrams of opium.

(d) Nothing in this section shall be construed to limit the kind and quantity of any controlled substance that may be prescribed, administered, or dispensed to any person, or for the use of any person or animal, when it is prescribed, administered, or dispensed in compliance with the general provisions of this chapter.

(4) The dextrorotatory isomer of 3-methoxy-n-methylmorphinan and its salts (dextromethorphan) shall not be deemed to be included in any schedule by reason of enactment of this chapter.

893.09 Enforcement.—

(1) The Department of Law Enforcement, all state agencies which regulate professions or institutions affected by the provisions of this chapter, and all peace officers of the state shall enforce all provisions of this chapter except those specifically delegated, and shall cooperate with

all agencies charged with the enforcement of the laws of the United States, this state, and all other states relating to controlled substances.

(2) Any agency authorized to enforce this chapter shall have the right to institute an action in its own name to enjoin the violation of any of the provisions of this chapter. Said action for an injunction shall be in addition to any other action, proceeding, or remedy authorized by law.

(3) All law enforcement officers whose duty it is to enforce this chapter shall have authority to administer oaths in connection with their official duties, and any person making a material false statement under oath before such law enforcement officers shall be deemed guilty of perjury and subject to the same punishment as prescribed for perjury.

(4) It shall be unlawful and punishable as provided in chapter 843 for any person to interfere with any such law enforcement officer in the performance of the officer's official duties. It shall also be unlawful for any person falsely to represent himself or herself to be authorized to enforce the drug abuse laws of this state, the United States, or any other state.

(5) No civil or criminal liability shall be imposed by virtue of this chapter upon any person whose duty it is to enforce the provisions of this chapter, by reason of his or her being lawfully engaged in the enforcement of any law or municipal ordinance relating to controlled substances.

History.—s. 9, ch. 73-331; s. 1, ch. 77-174; s. 30, ch. 79-8; s. 1441, ch. 97-102.

893.10 Burden of proof; photograph or video recording of evidence.—

(1) It is not necessary for the state to negative any exemption or exception set forth in this chapter in any indictment, information, or other pleading or in any trial, hearing, or other proceeding under this chapter, and the burden of going forward with the evidence with respect to any exemption or exception is upon the person claiming its benefit.

(2) In the prosecution of an offense involving the manufacture of a controlled substance, a photograph or video recording of the manufacturing equipment used in committing the offense, including, but not limited to, grow lights, growing trays, and chemical fertilizers, may be introduced as competent evidence of the existence and use of the equipment and is admissible in the prosecution of the offense to the same extent as if the property were introduced as evidence.

(3) After a law enforcement agency documents the manufacturing equipment by photography or video recording, the manufacturing equipment may be destroyed on site and left in disrepair. The law enforcement agency destroying the equipment is immune from civil liability for the destruction of the equipment. The destruction of the equipment must be recorded by the supervising law enforcement officer in the manner described in s. 893.12(1)(a), and records must be maintained for 24 months.

893.101 Legislative findings and intent.—

(1) The Legislature finds that the cases of *Scott v. State*, Slip Opinion No. SC94701 (Fla. 2002)

and *Chicone v. State*, 684 So.2d 736 (Fla. 1996), holding that the state must prove that the defendant knew of the illicit nature of a controlled substance found in his or her actual or constructive possession, were contrary to legislative intent.

(2)The Legislature finds that knowledge of the illicit nature of a controlled substance is not an element of any offense under this chapter. Lack of knowledge of the illicit nature of a controlled substance is an affirmative defense to the offenses of this chapter.

(3)In those instances in which a defendant asserts the affirmative defense described in this section, the possession of a controlled substance, whether actual or constructive, shall give rise to a permissive presumption that the possessor knew of the illicit nature of the substance. It is the intent of the Legislature that, in those cases where such an affirmative defense is raised, the jury shall be instructed on the permissive presumption provided in this subsection.

History.—s. 1, ch. 2002-258.

893.105Testing and destruction of seized substances.—

(1)Any controlled substance or listed chemical seized as evidence may be sample tested and weighed by the seizing agency after the seizure. Any such sample and the analysis thereof shall be admissible into evidence in any civil or criminal action for the purpose of proving the nature, composition, and weight of the substance seized. In addition, the seizing agency may photograph or videotape, for use at trial, the controlled substance or listed chemical seized.

(2)Controlled substances or listed chemicals that are not retained for sample testing as provided in subsection (1) may be destroyed pursuant to a court order issued in accordance with s. 893.12.

893.11Suspension, revocation, and reinstatement of business and professional licenses.—

For the purposes of s. 120.60(6), any conviction in any court reported to the Comprehensive Case Information System of the Florida Association of Court Clerks and Comptrollers, Inc., for the sale of, or trafficking in, a controlled substance or for conspiracy to sell, or traffic in, a controlled substance constitutes an immediate serious danger to the public health, safety, or welfare, and is grounds for disciplinary action by the licensing state agency. A state agency shall initiate an immediate emergency suspension of an individual professional license issued by the agency, in compliance with the procedures for summary suspensions in s. 120.60(6), upon the agency's findings of the licensee's conviction in any court reported to the Comprehensive Case Information System of the Florida Association of Court Clerks and Comptrollers, Inc., for the sale of, or trafficking in, a controlled substance, or for conspiracy to sell, or traffic in, a controlled substance. Before renewing any professional license, a state agency that issues a professional license must use the Comprehensive Case Information System of the Florida Association of Court Clerks and Comptrollers, Inc., to obtain information relating to any conviction for the sale of, or trafficking in,

a controlled substance or for conspiracy to sell, or traffic in, a controlled substance. The clerk of court shall provide electronic access to each state agency at no cost and also provide certified copies of the judgment upon request to the agency. Upon a showing by any such convicted defendant whose professional license has been suspended or revoked pursuant to this section that his or her civil rights have been restored or upon a showing that the convicted defendant meets the following criteria, the agency head may reinstate or reactivate such license when:

(1)The person has complied with the conditions of paragraphs (a) and (b) which shall be monitored by the Department of Corrections while the person is under any supervisory sanction. If the person fails to comply with provisions of these paragraphs by either failing to maintain treatment or by testing positive for drug use, the department shall notify the licensing agency, which shall revoke the license. The person under supervision may:

(a)Seek evaluation and enrollment in, and once enrolled maintain enrollment in until completion, a drug treatment and rehabilitation program which is approved or regulated by the Department of Children and Family Services. The treatment and rehabilitation program shall be specified by:

- 1.The court, in the case of court-ordered supervisory sanctions;
- 2.The Parole Commission, in the case of parole, control release, or conditional release; or
- 3.The Department of Corrections, in the case of imprisonment or any other supervision required by law.

(b)Submit to periodic urine drug testing pursuant to procedures prescribed by the Department of Corrections. If the person is indigent, the costs shall be paid by the Department of Corrections; or

(2)The person has successfully completed an appropriate program under the Correctional Education Program.

(3)As used in this section, the term “professional license” includes any license, permit, or certificate that authorizes a person to practice his or her profession. However, the term does not include any of the taxes, fees, or permits regulated, controlled, or administered by the Department of Revenue in accordance with s. 213.05.

and shall be disposed of as follows:

(a) Except as in this section otherwise provided, the court having jurisdiction shall order such controlled substances or listed chemicals forfeited and destroyed. A record of the place where said controlled substances or listed chemicals were seized, of the kinds and quantities of controlled substances or listed chemicals destroyed, and of the time, place, and manner of destruction shall be kept, and a return under oath reporting said destruction shall be made to the court by the officer who destroys them.

(b) Upon written application by the Department of Health, the court by whom the forfeiture of such controlled substances or listed chemicals has been decreed may order the delivery of any of them to said department for distribution or destruction as hereinafter provided.

(c) Upon application by any hospital or laboratory within the state not operated for private gain, the department may, in its discretion, deliver any controlled substances or listed chemicals that have come into its custody by authority of this section to the applicant for medical use. The department may from time to time deliver excess stocks of such controlled substances or listed chemicals to the United States Drug Enforcement Administration or destroy same.

(d) The department shall keep a full and complete record of all controlled substances or listed chemicals received and of all controlled substances or listed chemicals disposed of, showing:

1. The exact kinds, quantities, and forms of such controlled substances or listed chemicals;
2. The persons from whom received and to whom delivered;
3. By whose authority received, delivered, and destroyed; and
4. The dates of the receipt, disposal, or destruction,

which record shall be open to inspection by all persons charged with the enforcement of federal and state drug abuse laws.

(2)(a) Any vessel, vehicle, aircraft, or drug paraphernalia as defined in s. 893.145 which has been or is being used in violation of any provision of this chapter or in, upon, or by means of which any violation of this chapter has taken or is taking place may be seized and forfeited as provided by the Florida Contraband Forfeiture Act.

(b) All real property, including any right, title, leasehold interest, and other interest in the whole of any lot or tract of land and any appurtenances or improvements, which real property is used, or intended to be used, in any manner or part, to commit or to facilitate the commission of, or which real property is acquired with proceeds obtained as a result of, a violation of any provision of this chapter related to a controlled substance described in s. 893.03(1) or (2) may be seized and forfeited as provided by the Florida Contraband Forfeiture Act except that no property shall be forfeited under this paragraph to the extent of an interest of an owner or lienholder by reason of any act or omission established by that owner or lienholder to have been committed or omitted without the knowledge or consent of that owner or lienholder.

(c) All moneys, negotiable instruments, securities, and other things of value furnished or intended to be furnished by any person in exchange for a controlled substance described in s. 893.03(1) or (2) or a listed chemical in violation of any provision of this chapter, all proceeds traceable to such an exchange, and all moneys, negotiable instruments, and securities used or intended to be used to facilitate any violation of any provision of this chapter or which are acquired with proceeds obtained in violation of any provision of this chapter may be seized and forfeited as provided by the Florida Contraband Forfeiture Act, except that no property shall be forfeited under this paragraph to the extent of an interest of an owner or lienholder by reason of any act or omission established by that owner or lienholder to have been committed or omitted without the knowledge or consent of that owner or lienholder.

(d) All books, records, and research, including formulas, microfilm, tapes, and data which are used, or intended for use, or which are acquired with proceeds obtained, in violation of any provision of this chapter related to a controlled substance described in s. 893.03(1) or (2) or a listed chemical may be seized and forfeited as provided by the Florida Contraband Forfeiture Act.

(e) If any of the property described in this subsection:

1. Cannot be located;
2. Has been transferred to, sold to, or deposited with, a third party;
3. Has been placed beyond the jurisdiction of the court;
4. Has been substantially diminished in value by any act or omission of the defendant; or
5. Has been commingled with any property which cannot be divided without difficulty,

the court shall order the forfeiture of any other property of the defendant up to the value of any property subject to forfeiture under this subsection.

(3) Any law enforcement agency is empowered to authorize or designate officers, agents, or other persons to carry out the seizure provisions of this section. It shall be the duty of any officer, agent, or other person so authorized or designated, or authorized by law, whenever she or he shall discover any vessel, vehicle, aircraft, real property or interest in real property, money, negotiable instrument, security, book, record, or research which has been or is being used or intended to be used, or which is acquired with proceeds obtained, in violation of any of the provisions of this chapter, or in, upon, or by means of which any violation of this chapter has taken or is taking place, to seize such vessel, vehicle, aircraft, real property or interest in real property, money, negotiable instrument, security, book, record, or research and place it in the custody of such person as may be authorized or designated for that purpose by the respective law enforcement agency pursuant to these provisions.

(4) The rights of any bona fide holder of a duly recorded mortgage or duly recorded vendor's privilege on the property seized under this chapter shall not be affected by the seizure.

1. A controlled substance named or described in s. 893.03(1)(a), (1)(b), (1)(d), (2)(a), (2)(b), or (2)(c)4., commits a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

For the purposes of this paragraph, “cannabis” does not include the resin extracted from the plants of the genus *Cannabis* or any compound manufacture, salt, derivative, mixture, or preparation of such resin.

(4)Except as authorized by this chapter, it is unlawful for any person 18 years of age or older to deliver any controlled substance to a person under the age of 18 years, or to use or hire a person under the age of 18 years as an agent or employee in the sale or delivery of such a substance, or to use such person to assist in avoiding detection or apprehension for a violation of this chapter. Imposition of sentence may not be suspended or deferred, nor shall the person so convicted be placed on probation.

(5)It is unlawful for any person to bring into this state any controlled substance unless the possession of such controlled substance is authorized by this chapter or unless such person is licensed to do so by the appropriate federal agency. Any person who violates this provision with respect to:

(a)A controlled substance named or described in s. 893.03(1)(a), (1)(b), (1)(d), (2)(a), (2)(b),

(6)(a)It is unlawful for any person to be in actual or constructive possession of a controlled substance unless such controlled substance was lawfully obtained from a practitioner or pursuant to a valid prescription or order of a practitioner while acting in the course of his or her professional practice or to be in actual or constructive possession of a controlled substance except as otherwise authorized by this chapter. Any person who violates this provision commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(b)If the offense is the possession of not more than 20 grams of cannabis, as defined in this chapter, or 3 grams or less of a controlled substance described in s. 893.03(1)(c)46.-50. and 114.-142., the person commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083. For the purposes of this subsection, “cannabis” does not include the resin extracted from the plants of the genus *Cannabis*, or any compound manufacture, salt, derivative, mixture, or preparation of such resin, and a controlled substance described in s. 893.03(1)(c)46.-50. and 114.-142. does not include the substance in a powdered form.

3. Refuse entry into any premises for any inspection or refuse to allow any inspection authorized by this chapter.
4. Distribute a controlled substance named or described in s. 893.03(1) or (2) except pursuant to an order form as required by s. 893.06.
5. Keep or maintain any store, shop, warehouse, dwelling, building, vehicle, boat, aircraft, or

other structure or place which is resorted to by persons using controlled substances in violation of this chapter for the purpose of using these substances, or which is used for keeping or selling them in violation of this chapter.

6. Use to his or her own personal advantage, or reveal, any information obtained in enforcement of this chapter except in a prosecution or administrative hearing for a violation of this chapter.

7. Possess a prescription form which has not been completed and signed by the practitioner whose name appears printed thereon, unless the person is that practitioner, is an agent or employee of that practitioner, is a pharmacist, or is a supplier of prescription forms who is authorized by that practitioner to possess those forms.

8. Withhold information from a practitioner from whom the person seeks to obtain a controlled substance or a prescription for a controlled substance that the person making the request has received a controlled substance or a prescription for a controlled substance of like therapeutic use from another practitioner within the previous 30 days.

9. Acquire or obtain, or attempt to acquire or obtain, possession of a controlled substance by misrepresentation, fraud, forgery, deception, or subterfuge.

10. Affix any false or forged label to a package or receptacle containing a controlled substance.

12. Store anhydrous ammonia in a container that is not approved by the United States Department of Transportation to hold anhydrous ammonia or is not constructed in accordance with sound engineering, agricultural, or commercial practices.

13. With the intent to obtain a controlled substance or combination of controlled substances that are not medically necessary for the person or an amount of a controlled substance or substances that is not medically necessary for the person, obtain or attempt to obtain from a practitioner a controlled substance or a prescription for a controlled substance by misrepresentation, fraud, forgery, deception, subterfuge, or concealment of a material fact. For purposes of this subparagraph, a material fact includes whether the person has an existing prescription for a controlled substance issued for the same period of time by another practitioner or as described in subparagraph 8.

(b) A health care practitioner, with the intent to provide a controlled substance or combination of controlled substances that are not medically necessary to his or her patient or an amount of controlled substances that is not medically necessary for his or her patient, may not provide a controlled substance or a prescription for a controlled substance by misrepresentation, fraud,

forgery, deception, subterfuge, or concealment of a material fact. For purposes of this paragraph, a material fact includes whether the patient has an existing prescription for a controlled substance issued for the same period of time by another practitioner or as described in subparagraph (a)8.

(c) Any person who violates the provisions of subparagraphs (a)1.-7. commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083; except that, upon a second or subsequent violation, the person commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(d) Any person who violates the provisions of subparagraphs (a)8.-12. commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(8)(a) Notwithstanding subsection (9), a prescribing practitioner may not:

1. Knowingly assist a patient, other person, or the owner of an animal in obtaining a controlled substance through deceptive, untrue, or fraudulent representations in or related to the practice of the prescribing practitioner's professional practice;

2. Employ a trick or scheme in the practice of the prescribing practitioner's professional practice to assist a patient, other person, or the owner of an animal in obtaining a controlled substance;

3. Knowingly write a prescription for a controlled substance for a fictitious person; or

4. Write a prescription for a controlled substance for a patient, other person, or an animal if the sole purpose of writing such prescription is to provide a monetary benefit to, or obtain a monetary benefit for, the prescribing practitioner.

(b) If the prescribing practitioner wrote a prescription or multiple prescriptions for a controlled substance for the patient, other person, or animal for which there was no medical necessity, or which was in excess of what was medically necessary to treat the patient, other person, or animal, that fact does not give rise to any presumption that the prescribing practitioner violated subparagraph (a)1., but may be considered with other competent evidence in determining whether the prescribing practitioner knowingly assisted a patient, other person, or the owner of an animal to obtain a controlled substance in violation of subparagraph (a)1.

(c) A person who violates paragraph (a) commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(d) Notwithstanding paragraph (c), if a prescribing practitioner has violated paragraph (a) and received \$1,000 or more in payment for writing one or more prescriptions or, in the case of a prescription written for a controlled substance described in s. 893.135, has written one or more

prescriptions for a quantity of a controlled substance which, individually or in the aggregate, meets the threshold for the offense of trafficking in a controlled substance under s. 893.15, the violation is reclassified as a felony of the second degree and ranked in level 4 of the Criminal Punishment Code.

(9)The provisions of subsections (1)-(8) are not applicable to the delivery to, or actual or constructive possession for medical or scientific use or purpose only of controlled substances by, persons included in any of the following classes, or the agents or employees of such persons, for use in the usual course of their business or profession or in the performance of their official duties:

(a)Pharmacists.

(d)Hospitals that procure controlled substances for lawful administration by practitioners, but only for use by or in the particular hospital.

(e)Officers or employees of state, federal, or local governments acting in their official capacity only, or informers acting under their jurisdiction.

(f)Common carriers.

(g)Manufacturers, wholesalers, and distributors.

(h)Law enforcement officers for bona fide law enforcement purposes in the course of an active criminal investigation.

893.135 Trafficking; mandatory sentences; suspension or reduction of sentences; conspiracy to engage in trafficking.—

(1) Except as authorized in this chapter or in chapter 499 and notwithstanding the provisions of s. 893.13:

(a) Any person who knowingly sells, purchases, manufactures, delivers, or brings into this state, or who is knowingly in actual or constructive possession of, in excess of 25 pounds of cannabis, or 300 or more cannabis plants, commits a felony of the first degree, which felony shall be known as “trafficking in cannabis,” punishable as provided in s. 775.082, s. 775.083, or s. 775.084. If the quantity of cannabis involved:

1. Is in excess of 25 pounds, but less than 2,000 pounds, or is 300 or more cannabis plants, but not more than 2,000 cannabis plants, such person shall be sentenced to a mandatory minimum term of imprisonment of 3 years, and the defendant shall be ordered to pay a fine of \$25,000.

2. Is 2,000 pounds or more, but less than 10,000 pounds, or is 2,000 or more cannabis plants, but not more than 10,000 cannabis plants, such person shall be sentenced to a mandatory minimum term of imprisonment of 7 years, and the defendant shall be ordered to pay a fine of \$50,000.

3. Is 10,000 pounds or more, or is 10,000 or more cannabis plants, such person shall be sentenced to a mandatory minimum term of imprisonment of 15 calendar years and pay a fine of \$200,000.

For the purpose of this paragraph, a plant, including, but not limited to, a seedling or cutting, is a “cannabis plant” if it has some readily observable evidence of root formation, such as root hairs. To determine if a piece or part of a cannabis plant severed from the cannabis plant is itself a cannabis plant, the severed piece or part must have some readily observable evidence of root formation, such as root hairs. Callous tissue is not readily observable evidence of root formation. The viability and sex of a plant and the fact that the plant may or may not be a dead harvested plant are not relevant in determining if the plant is a “cannabis plant” or in the charging of an offense under this paragraph. Upon conviction, the court shall impose the longest term of imprisonment provided for in this paragraph.

(b) 1. Any person who knowingly sells, purchases, manufactures, delivers, or brings into this state, or who is knowingly in actual or constructive possession of, 28 grams or more of cocaine, as described in s. 893.03(2)(a)4., or of any mixture containing cocaine, but less than 150 kilograms of cocaine or any such mixture, commits a felony of the first degree, which felony shall be known as “trafficking in cocaine,” punishable as provided in s. 775.082, s. 775.083, or s. 775.084. If the quantity involved:

a. Is 28 grams or more, but less than 200 grams, such person shall be sentenced to a mandatory minimum term of imprisonment of 3 years, and the defendant shall be ordered to pay a fine of \$50,000.

b. Is 200 grams or more, but less than 400 grams, such person shall be sentenced to a mandatory minimum term of imprisonment of 7 years, and the defendant shall be ordered to pay a fine of \$100,000.

c. Is 400 grams or more, but less than 150 kilograms, such person shall be sentenced to a mandatory minimum term of imprisonment of 15 calendar years and pay a fine of \$250,000.

2. Any person who knowingly sells, purchases, manufactures, delivers, or brings into this state, or who is knowingly in actual or constructive possession of, 150 kilograms or more of cocaine, as described in s. 893.03(2)(a)4., commits the first degree felony of trafficking in cocaine. A person who has been convicted of the first degree felony of trafficking in cocaine under this subparagraph shall be punished by life imprisonment and is ineligible for any form of discretionary early release except pardon or executive clemency or conditional medical release under s. 947.149. However, if the court determines that, in addition to committing any act specified in this paragraph:

a. The person intentionally killed an individual or counseled, commanded, induced, procured, or caused the intentional killing of an individual and such killing was the result; or

b. The person's conduct in committing that act led to a natural, though not inevitable, lethal result,

such person commits the capital felony of trafficking in cocaine, punishable as provided in ss. 775.082 and 921.142. Any person sentenced for a capital felony under this paragraph shall also be sentenced to pay the maximum fine provided under subparagraph 1.

3. Any person who knowingly brings into this state 300 kilograms or more of cocaine, as described in s. 893.03(2)(a)4., and who knows that the probable result of such importation would be the death of any person, commits capital importation of cocaine, a capital felony punishable as provided in ss. 775.082 and 921.142. Any person sentenced for a capital felony under this paragraph shall also be sentenced to pay the maximum fine provided under subparagraph 1.

(c)1. Any person who knowingly sells, purchases, manufactures, delivers, or brings into this state, or who is knowingly in actual or constructive possession of, 4 grams or more of any morphine, opium, oxycodone, hydrocodone, hydromorphone, or any salt, derivative, isomer, or salt of an isomer thereof, including heroin, as described in s. 893.03(1)(b), (2)(a), (3)(c)3., or (3)(c)4., or 4 grams or more of any mixture containing any such substance, but less than 30 kilograms of such substance or mixture, commits a felony of the first degree, which felony shall be known as "trafficking in illegal drugs," punishable as provided in s. 775.082, s. 775.083, or s. 775.084. If the quantity involved:

a. Is 4 grams or more, but less than 14 grams, such person shall be sentenced to a mandatory

minimum term of imprisonment of 3 years, and the defendant shall be ordered to pay a fine of \$50,000.

b. Is 14 grams or more, but less than 28 grams, such person shall be sentenced to a mandatory minimum term of imprisonment of 15 years, and the defendant shall be ordered to pay a fine of \$100,000.

c. Is 28 grams or more, but less than 30 kilograms, such person shall be sentenced to a mandatory minimum term of imprisonment of 25 calendar years and pay a fine of \$500,000.

2. Any person who knowingly sells, purchases, manufactures, delivers, or brings into this state, or who is knowingly in actual or constructive possession of, 30 kilograms or more of any morphine, opium, oxycodone, hydrocodone, hydromorphone, or any salt, derivative, isomer, or salt of an isomer thereof, including heroin, as described in s. 893.03(1)(b), (2)(a), (3)(c)3., or (3)(c)4., or 30 kilograms or more of any mixture containing any such substance, commits the first degree felony of trafficking in illegal drugs. A person who has been convicted of the first degree felony of trafficking in illegal drugs under this subparagraph shall be punished by life imprisonment and is ineligible for any form of discretionary early release except pardon or executive clemency or conditional medical release under s. 947.149. However, if the court determines that, in addition to committing any act specified in this paragraph:

a. The person intentionally killed an individual or counseled, commanded, induced, procured, or caused the intentional killing of an individual and such killing was the result; or

b. The person's conduct in committing that act led to a natural, though not inevitable, lethal result,

such person commits the capital felony of trafficking in illegal drugs, punishable as provided in ss. 775.082 and 921.142. Any person sentenced for a capital felony under this paragraph shall also be sentenced to pay the maximum fine provided under subparagraph 1.

3. Any person who knowingly brings into this state 60 kilograms or more of any morphine, opium, oxycodone, hydrocodone, hydromorphone, or any salt, derivative, isomer, or salt of an isomer thereof, including heroin, as described in s. 893.03(1)(b), (2)(a), (3)(c)3., or (3)(c)4., or 60 kilograms or more of any mixture containing any such substance, and who knows that the probable result of such importation would be the death of any person, commits capital importation of illegal drugs, a capital felony punishable as provided in ss. 775.082 and 921.142. Any person sentenced for a capital felony under this paragraph shall also be sentenced to pay the maximum fine provided under subparagraph 1.

punishable as provided in s. 775.082, s. 775.083, or s. 775.084. If the quantity involved:

a. Is 28 grams or more, but less than 200 grams, such person shall be sentenced to a mandatory minimum term of imprisonment of 3 years, and the defendant shall be ordered to pay a fine of \$50,000.

b. Is 200 grams or more, but less than 400 grams, such person shall be sentenced to a mandatory minimum term of imprisonment of 7 years, and the defendant shall be ordered to pay a fine of \$100,000.

c. Is 400 grams or more, such person shall be sentenced to a mandatory minimum term of imprisonment of 15 calendar years and pay a fine of \$250,000.

2. (1) It is the intent of this section to promote, protect, and improve the health, safety, and welfare of the citizens of the counties and municipalities of this state by authorizing the creation of administrative boards with authority to impose administrative fines and other noncriminal penalties in order to provide an equitable, expeditious, effective, and inexpensive method of enforcing ordinances in counties and municipalities under circumstances when a pending or repeated violation continues to exist.

(2) Any place or premises that has been used:

(a) On more than two occasions within a 6-month period, as the site of a violation of s. 796.07;

(b) On more than two occasions within a 6-month period, as the site of the unlawful sale, delivery, manufacture, or cultivation of any controlled substance;

(d) By a criminal gang for the purpose of conducting criminal gang activity as defined by s. 874.03; or

(e) On more than two occasions within a 6-month period, as the site of a violation of s. 812.019 relating to dealing in stolen property

may be declared to be a public nuisance, and such nuisance may be abated pursuant to the procedures provided in this section.

(3) Any pain-management clinic, as described in s. 458.3265 or s. 459.0137, which has been used on more than two occasions within a 6-month period as the site of a violation of:

(a) Section 784.011, s. 784.021, s. 784.03, or s. 784.045, relating to assault and battery;

may be declared to be a public nuisance, and such nuisance may be abated pursuant to the procedures provided in this section.

(4) Any county or municipality may, by ordinance, create an administrative board to hear complaints regarding the nuisances described in subsection (2). Any employee, officer, or resident of the county or municipality may bring a complaint before the board after giving not less than 3 days' written notice of such complaint to the owner of the place or premises at his or her last known address. After a hearing in which the board may consider any evidence, including evidence

of the general reputation of the place or premises, and at which the owner of the premises shall have an opportunity to present evidence in his or her defense, the board may declare the place or premises to be a public nuisance as described in subsection (2).

(5) If the board declares a place or premises to be a public nuisance, it may enter an order requiring the owner of such place or premises to adopt such procedure as may be appropriate under the circumstances to abate any such nuisance or it may enter an order immediately prohibiting:

(8) The board may bring a complaint under s. 60.05 seeking temporary and permanent injunctive relief against any nuisance described in subsection (2).

(9) This section does not restrict the right of any person to proceed under s. 60.05 against any public nuisance.

(10) As used in this section, the term "controlled substance" includes any substance sold in lieu of a controlled substance in violation of s. 817.563 or any imitation controlled substance defined in s. 817.564.

No lien created pursuant to

the provisions of this section may be foreclosed on real property which is a homestead under s. 4, Art. X of the State Constitution. Where a local government seeks to bring an administrative action, based on a stolen property nuisance, against a property owner operating an establishment where multiple tenants, on one site, conduct their own retail business, the property owner shall not be subject to a lien against his or her property or the prohibition of operation provision if the property owner evicts the business declared to be a nuisance within 90 days after notification by registered mail to the property owner of a second stolen property conviction of the tenant. The total fines imposed pursuant to the authority of this section shall not exceed \$15,000. Nothing contained within this section prohibits a county or municipality from proceeding against a public nuisance by any other means.
